Table of CFR Titles and Chapters 1057

Alphabetical List of Agencies Appearing in the CFR 1073

List of CFR Sections Affected 1083

Cite this Code: **CFR**

To cite the regulations in this volume use title, part and section number. Thus, 48 CFR 1.000 *refers to title 48, part 1, section 000.*

Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

ISSUE DATES

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.. as of January 1
Title 17 through Title 27..as of April 1
Title 28 through Title 41..as of July 1
Title 42 through Title 50.. as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, October 1, 1990), consult the "List of CFR Sections Affected (LSA)," which is issued monthly, and the "Cumulative List of Parts Affected," which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request. Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1973, consult either the List of CFR Sections Affected, 1949-1963, or 1964-1972, published in three separate volumes. For the period beginning January 1, 1973, a "List of CFR Sections Affected" is published at the end of each CFR volume.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I), and Acts Requiring Publication in the Federal Register (Table III). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of "Title 3—The President" is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the "Contents" entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES AND SALES

For a summary, legal interpretation, or other explanation of any regulation in this volume, contact the issuing agency. Inquiries concerning editing procedures and reference assistance with respect to the Code of Federal Regulations may be addressed to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408 (telephone 202-523-3517). Sales are handled exclusively by the Superintendent of Documents, Government Printing Office, Washington, DC 20402 (telephone 202-783-3238).

MARTHA L. GIRARD,
Director,
Office of the Federal Register.

October 1, 1990.

THIS TITLE

Title 48—**Federal Acquisition Regulations System** is composed of seven volumes. The chapters in these volumes contain all current regulations and are arranged as follows: Chapter 1 (Parts 1 to 51), Chapter 1 (Parts 52 to 99), Chapter 2 (Parts 201 to 251), Chapter 2 (Parts 252 to 299), Chapters 3 to 6, Chapters 7 to 14 and Chapter 15 to End. The contents of these volumes represent all current regulations codified under this title of the CFR as of October 1, 1990.

The Federal acquisition regulations in Chapter 1 are those government-wide acquisition regulations jointly issued by the General Services Administration, the Department of Defense, and the National Aeronautics and Space Administration. Chapters 2 through End are acquisition regulations issued by individual government agencies. Parts 1 to 69 in each of Chapters 2 through End are reserved for agency regulations *implementing* the Federal acquisition regulations in Chapter 1 and are numerically keyed to them. Parts 70 to 99 in Chapters 2 through End contain agency regulations *supplementing* the Federal acquisition regulations.

The OMB control numbers for the Federal Acquisition Regulations System appear in § 1.105 of Chapter 1. For the convenience of the user, § 1.105 is reprinted in the Finding Aids section of the second volume containing Chapter 1 (Parts 52 to 99).

The two volumes containing Chapter 1 include a subject index to the Federal acquisition regulations. The second volume, containing Chapter 1 (Parts 52 to 99), includes contract clauses and forms. The volume containing Chapter 2 also contains a subject index to the Department of Defense regulations. The volume containing Chapters 7 to 14 includes a Distribution Table for Chapter 9.

For this volume, Jacquelyn J. Demsky was Chief Editor. The Code of Federal Regulations publication program is under the direction of Richard L. Claypoole, assisted by Alomha S. Morris.

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

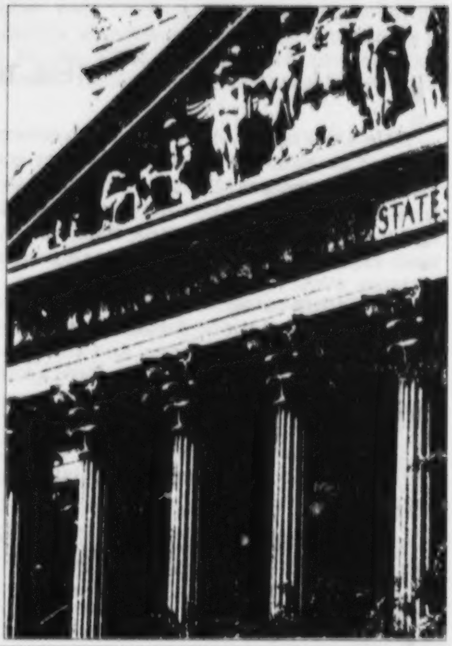
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.



Superintendent of Documents Subscriptions Order Form

Order Processing Code:

1.703 Class determinations and findings.
1.704 Content.
1.705 Supersession and modification.
1.706 Expiration.
1.707 Signatory authority.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42103, Sept. 19, 1983, unless otherwise noted.

1.000 Scope of part.

This part sets forth basic policies and general information about the Federal Acquisition Regulations System including purpose, authority, applicability, issuance, arrangement, numbering, dissemination, implementation, supplementation, maintenance, administration, and deviation. Subparts 1.2, 1.3, and 1.4 prescribe administrative procedures for maintaining the FAR System.

Subpart 1.1—Purpose, Authority, Issuance

1.101 Purpose.

The Federal Acquisition Regulations System is established for the codification and publication of uniform policies and procedures for acquisition by all executive agencies. The Federal Acquisition Regulations System consists of the Federal Acquisition Regulation (FAR), which is the primary document, and agency acquisition regulations that implement or supplement the FAR. The FAR System does not include internal agency guidance of the type described in 1.301(a)(2).

[48 FR 42103, Sept. 19, 1983, as amended at 51 FR 27116, July 29, 1986]

1.102 Authority.

(a) The development of the FAR System is in accordance with the requirements of the Office of Federal Procurement Policy (OFPP) Act of 1974 (Pub. L. 93-400), as amended by Pub. L. 96-83, and OFPP Policy Letter 85-1, Federal Acquisition Regulations System, dated August 19, 1985.

(b) The FAR is prepared, issued, and maintained, and the FAR System is prescribed, jointly by the Secretary of Defense, the Administrator of General Services, and the Administrator, National Aeronautics and Space Administration, under their several statutory authorities.

[48 FR 42103, Sept. 19, 1983, as amended at 51 FR 27116, July 29, 1986]

1.103 Applicability.

The FAR applies to all acquisitions as defined in part 2 of the FAR, except where expressly excluded.

1.104 Issuance.

1.104-1 Publication and code arrangement.

(a) The FAR is published in (1) the daily issue of the Federal Register, (2) cumulated form in the Code of Federal Regulations (CFR), and (3) a separate loose-leaf edition.

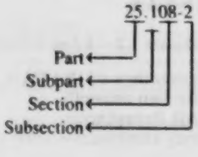
(b) The FAR is issued as Chapter 1 of Title 48, CFR. Subsequent chapters are reserved for agency acquisition regulations that implement or supplement the FAR (see subpart 1.3). The CFR Staff will assign chapter numbers to requesting agencies.

(c) Each numbered unit or segment (e.g., part, subpart, section, etc.) of an agency acquisition regulation that is codified in the CFR shall begin with the chapter number. However, the chapter number assigned to the FAR will not be included in the numbered units or segments of the FAR.

1.104-2 Arrangement of regulations.

(a) *General.* The FAR is divided into subchapters, parts (each of which deals with a separate aspect of acquisition), subparts, sections, and subsections.

(b) *Numbering.* (1) The numbering system permits the discrete identification of every FAR paragraph. The digits to the left of the decimal point represent the part number. The numbers to the right of the decimal point and to the left of the dash, represent, in order, the subpart (one or two digits), and the section (two digits). The number to the right of the dash represents the subsection. Subdivisons may be used at the section and subsection level to identify individual paragraphs. The following example illustrates the make-up of a FAR number citation (note that subchapters are not used with citations):



(2) Subdivisions below the section or subsection level shall consist of parenthetical alphanumerics reading from highest to lowest indenture as follows: lower case alphabet, Arabic numbers, lower case Roman numerals, and upper case alphabet. The following example is illustrative:

(a)(1)(i)(A)

Subdivisions, below the 4th level shall repeat the sequence.

(c) *References and citations.* (1) Unless otherwise stated, cross-references indicate parts, subparts, sections, subsections, paragraphs, subparagraphs, or subdivisions of this regulation.

(2) This regulation may be referred to as the Federal Acquisition Regulation or the FAR.

(3) Using the FAR coverage at 9.106-4(d) as a typical illustration, reference to the—

(i) Part would be "FAR Part 9" outside the FAR and "Part 9" within the FAR.

(ii) Subpart would be "FAR Subpart 9.1" outside the FAR and "Subpart 9.1" within the FAR.

(iii) Section would be "FAR 9.106" outside the FAR and "9.106" within the FAR.

(iv) Subsection would be "FAR 9.106-4" outside the FAR and "9.106-4" within the FAR.

(v) Paragraph would be "FAR 9.106-4(d)" outside the FAR and "9.106-4(d)" within the FAR.

(4) Citations of authority (e.g., statutes or executive orders) in the FAR shall follow the Federal Register form guides.

1.104-3 Copies.

Copies of the FAR in Federal Register, loose-leaf, and CFR form may be purchased from the Superintendent of Documents, Government Printing Office (GPO), Washington, DC 20402.

1.105 OMB approval under the Paperwork Reduction Act.

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) imposes a requirement on Federal agencies to obtain approval from the Office of Management and Budget (OMB) before collecting information from ten or more members of the public. The information collection and recordkeeping requirements contained in this regulation have been approved by the OMB. The following OMB control numbers apply.

FAR Segment	OMB Control No.
3.103	9000-0018
3.4	9000-0003

EDITORIAL NOTE: For Federal Register citations affecting § 1.105, see the List of CFR Sections Affected in the Finding Aids section of this volume.

Subpart 1.2—Administration

1.201 Maintenance of the FAR.

1.201-1 The two councils.

(a) Subject to the authorities discussed in 1.102, revisions to the FAR will be prepared and issued through the coordinated action of two councils, the Defense Acquisition Regulatory Council (DAR Council) and the Civilian Agency Acquisition Council (CAA Council). Members of these councils shall—

(1) Represent their agencies on a full-time basis;

(2) Be selected for their superior qualifications in terms of acquisition experience and demonstrated professional expertise; and

(3) Be funded by their respective agencies.

(b) The chairperson of the CAA Council shall be the representative of the Administrator of General Services. The other members of this council shall be one each representative from the (1) Departments of Agriculture, Commerce, Energy, Health and Human Services, Interior, Labor, State, Transportation, and Treasury, and (2) Environmental Protection Agency, Small Business Administration, and Department of Veterans Affairs.

(c) The Director of the DAR Council shall be the representative of the Secretary of Defense. The operation of the DAR Council will be as prescribed by the Secretary of Defense. Membership shall include representatives of the military Departments, the Defense Logistics Agency, and the National Aeronautics and Space Administration.

(d) Responsibility for processing revisions to the FAR is apportioned by the two councils so that each council has cognizance over specified parts or subparts.

(e) Each council shall be responsible for—

(1) Agreeing on all revisions with the other council;

(2) Submitting to the FAR Secretariat (see 1.201-2) the information required under paragraphs 1.501-2(b) and (e) for publication in the FEDERAL REGISTER of a notice soliciting comments on a proposed revision to the FAR;

(3) Considering all comments received in response to notice of proposed revisions;

(4) Arranging for public meetings;

(5) Preparing any final revision in the appropriate FAR format and language; and

(6) Submitting any final revision to the FAR Secretariat for publication in the FEDERAL REGISTER and printing for distribution.

[48 FR 42103, Sept. 19, 1983, as amended at 50 FR 2269, Jan. 15, 1985; 50 FR 26903, June 28, 1985; 51 FR 2649, Jan. 17, 1986; 54 FR 29280, July 11, 1989]

1.201-2 FAR Secretariat.

(a) The General Services Administration is reponsible for establishing and operating the FAR Secretariat to print, publish, and distribute the FAR through the Code of Federal Regulations system (including a loose-leaf edition with periodic updates).

(b) Additionally, the FAR Secretariat shall provide the two councils with centralized services for—

(1) Keeping a synopsis of current FAR cases and their status;

(2) Assigning FAR case numbers;

(3) Maintaining official files;

(4) Assisting parties interested in reviewing the files on completed cases; and

(5) Performing miscellaneous administrative tasks pertaining to the maintenance of the FAR.

1.202 Agency compliance with the FAR.

Agency compliance with the FAR (see 1.304) is the responsibility of the Secretary of Defense (for the military departments and defense agencies), the Administrator of General Services (for civilian agencies other than NASA), and the Administrator of NASA (for NASA activities).

Subpart 1.3—Agency Acquisition Regulations

1.301 Policy.

(a)(1) Subject to the authorities in paragraph (c) below and other statutory authority, an agency head may issue or authorize the issuance of agency acquisition regulations that implement or supplement the FAR and incorporate, together with the FAR, agency policies, procedures, contract clauses, solicitation provisions, and forms that govern the contracting process or otherwise control the relationship between the agency, including any of its suborganizations, and contractors or prospective contractors.

(2) Subject to the authorities in (c) below and other statutory authority, an agency head may issue or authorize the issuance of internal agency guidance at any organizational level (e.g., designations and delegations of authority, assignments of responsibilities, work-flow procedures, and internal reporting requirements).

(b) Agency heads shall establish procedures to ensure that agency acquisition regulations are published for comment in the FEDERAL REGISTER in conformance with the procedures in subpart 1.5 and as required by section 22 of the Office of Federal Procurement Policy Act, as amended (41 U.S.C. 418b), and other applicable statutes, when they have a significant effect beyond the internal operating procedures of the agency or have a significant cost or administrative impact on contractors or offerors. However, publication is not required for issuances that merely implement or supplement higher level issuances that have previously undergone the public comment process, unless such implementation or supplementation results in an additional significant cost or administrative impact on contractors or offerors or effect beyond the internal operating procedures of the issuing organization. Issuances under 1.301(a)(2) need not be publicized for public comment.

(c) When adopting acquisition regulations, agencies shall ensure that they comply with the Paperwork Reduction Act (44 U.S.C. 3501, *et seq.*) as implemented in 5 CFR part 1320 (see 1.105) and the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*). Normally, when a law requires publication of a proposed regulation, the Regulatory Flexibility Act applies and agencies must prepare written analyses or certifications as provided in the law.

(d) Agency acquisition regulations implementing or supplementing the FAR are, for—

(1) The military departments and defense agencies, issued subject to the authority of the Secretary of Defense;

(2) NASA activities, issued subject to the authorities of the Administrator of NASA; and

(3) The civilian agencies other than NASA, issued by the heads of those agencies subject to the overall authority of the Administrator of General Services or independent authority the agency may have.

[48 FR 42103, Sept. 19, 1983, as amended at 50 FR 2269, Jan. 15, 1985; 54 FR 5054, Jan. 31, 1989]

1.302 Limitations.

Agency acquisition regulations shall be limited to—

(a) Those necessary to implement FAR policies and procedures within the agency; and

(b) Additional policies, procedures, solicitation provisions, or contract clauses that supplement the FAR to satisfy the specific needs of the agency.

1.303 Publication and codification.

(a) Agency-wide acquisition regulations shall be published in the FEDERAL REGISTER as required by law, shall be codified under an assigned chapter in Title 48, Code of Federal Regulations, and shall parallel the FAR in format, arrangement, and numbering system (but see 1.104-1(c)). Coverage in an agency acquisition regulation that implements a specific part, subpart, section, or subsection of the FAR shall be numbered and titled to correspond to the appropriate FAR number and title. Supplementary material for which there is no counterpart in the FAR shall be codified using chapter, part, subpart, section, or subsection numbers of 70 and up (e.g., for the Department of Interior, whose assigned chapter number in Title 48 is 14, part 1470, subpart 1401.70, section 1401.370, or subsection 1401.301-70.)

(b) Issuances under 1.301(a)(2) need not be published in the FEDERAL REGISTER.

[48 FR 42103, Sept. 19, 1983, as amended at 50 FR 2269, Jan. 15, 1985]

1.304 Agency control and compliance procedures.

(a) Under the authorities of 1.301(c), agencies shall control and limit issuance of agency acquisition regulations and shall establish formal procedures for the review of these regulations to assure compliance with this part 1.

(b) Agency acquisition regulations shall not—

(1) Unnecessarily repeat, paraphrase, or otherwise restate material contained in the FAR or higher-level agency acquisition regulations; or

(2) Except as required by law or as provided in subpart 1.4, conflict or be inconsistent with FAR content.

(c) Agencies shall evaluate all regulatory coverage in agency acquisition regulations to determine if it could apply to other agencies. Coverage that is not peculiar to one agency shall be recommended for inclusion in the FAR.

Subpart 1.4—Deviations from the FAR

1.400 Scope of subpart.

This subpart prescribes the policies and procedures for authorizing deviations from the FAR. Exceptions pertaining to the use of forms prescribed by the FAR are covered in part 53 rather than in this subpart.

1.401 Definition.

Deviation means any one or combination of the following:

(a) The issuance or use of a policy, procedure, solicitation provision (see definition in 52.101(a)), contract clause (see definition in 52.101(a)), method, or practice of conducting acquisition actions of any kind at any stage of the acquisition process that is inconsistent with the FAR.

(b) The omission of any solicitation provision or contract clause when its prescription requires its use.

(c) The use of any solicitation provision or contract clause with modified or alternate language that is not authorized by the FAR (see definitions of *modification* and *alternate* in 52.101(a)).

(d) The use of a solicitation provision or contract clause prescribed by the FAR on a *substantially as follows* or *substantially the same as* basis (see definitions in 52.101(a)), if such use is inconsistent with the intent, principle, or substance of the prescription or related coverage on the subject matter in the FAR.

(e) The authorization of lesser or greater limitations on the use of any solicitation provision, contract clause, policy, or procedure prescribed by the FAR.

(f) The issuance of policies or procedures that govern the contracting process or otherwise control contracting relationships that are not incorporated into agency acquisition regulations in accordance with 1.301(a).

1.402 Policy.

Unless precluded by law, executive order, or regulation, deviations from the FAR may be granted as specified in this subpart when necessary to meet the specific needs and requirements of each agency. The development and testing of new techniques and methods of acquistion should not be stifled simply because such action would require a FAR deviation. The fact that deviation authority is required should not, of itself, deter agencies in their development and testing of new techniques and acquisition methods. Refer to 31.101 for instructions concerning deviations pertaining to the subject matter of part 31, Contract Cost Principles and Procedures. Deviations are not authorized with respect to part 30. Refer to 30.201-5 for instructions concerning waivers pertaining to Cost Accounting Standards.

[48 FR 42103, Sept. 19, 1983, as amended at 52 FR 35612, Sept. 22, 1987]

1.403 Individual deviations.

Individual deviations affect only one contracting action, and, unless 1.405(e) is applicable, may be authorized by agency heads or their designees. The justification and agency approval shall be documented in the contract file and a copy of the approved deviation shall be furnished to the FAR Secretariat through a central agency control point.

1.404 Class deviations.

Class deviations affect more than one contracting action. When it is known that a class deviation will be required on a permanent basis, an agency should propose an appropriate FAR revision to cover the matter. A copy of each approved class deviation shall be furnished to the FAR Secretariat.

(a) For civilian agencies except NASA, class deviations may be authorized by agency heads or their designees, unless 1.405(e) is applicable. Delegation of this authority shall not be made below the head of a contracting activity. Authorization of class deviations by agency officials is subject to the following limitations:

(1) An agency official who may authorize a class deviation, before doing so, shall consult with the chairperson of the Civilian Agency Acquisition Council (CAA Council), unless that agency official determines that urgency precludes such consultation.

(2) Recommended revisions to the FAR shall be transmitted to the FAR Secretariat by agency heads or their designees for authorizing class deviations.

(b) For DOD, class deviations shall be controlled and approved by the Deputy Under Secretary of Defense Research and Engineering (Acquisition Management) and shall be processed in accordance with agency regulations.

(c) For NASA, class deviations shall be controlled and approved by the Assistant Administrator for Procurement after consultation with the Deputy Under Secretary of Defense Research and Engineering (Acquisition Management). Deviations shall be processed in accordance with agency regulations.

1.405 Deviations pertaining to treaties and executive agreements.

(a) *Executive agreements,* as used in this section, means Government-to-Government agreements, including agreements with international organizations, to which the United States is a party.

(b) Any deviation from the FAR required to comply with a treaty to which the United States is a party is authorized, unless the deviation would be inconsistent with FAR coverage based on a law enacted after the execution of the treaty.

(c) Any deviation from the FAR required to comply with an executive agreement is authorized unless the deviation would be inconsistent with FAR coverage based on law.

(d) A copy of the text of any deviation authorized under paragraphs (b) or (c) of this section shall be transmitted to the FAR Secretariat through a central agency control point.

(e) If a deviation required to comply with a treaty or an executive agreement is not authorized by paragraphs (b) or (c) of this section, then the request for deviation shall be processed through the FAR Secretariat to the appropriate council.

Subpart 1.5—Agency and Public Participation

SOURCE: 50 FR 2269, Jan. 15, 1985, unless otherwise noted.

1.501 Solicitation of agency and public views.

1.501-1 Definition.

Significant revisions, as used in this subpart, means revisions that alter the substantive meaning of any coverage in the FAR System having a significant cost or administrative impact on contractors or offerors, or a significant effect beyond the internal operating procedures of the issuing agency. This expression, for example, does not include editorial, stylistic, or other revisions that have no impact on the basic meaning of the coverage being revised.

1.501-2 Opportunity for public comments.

(a) Views of agencies and nongovernmental parties or organizations will be considered in formulating acquisition policies and procedures.

(b) The opportunity to submit written comments on proposed significant revisions shall be provided by placing a notice in the FEDERAL REGISTER. Each of these notices shall include—

(1) The text of the revision or, if it is impracticable to publish the full text, a summary of the proposal;

(2) The address and telephone number of the individual from whom copies of the revision, in full text, can be requested and to whom comments thereon should be addressed; and

(3) When 1.501-3(b) is applicable, a statement that the revision is effective on a temporary basis pending completion of the public comment period.

(c) A minimum of 30 days and, normally, at least 60 days will be given for the receipt of comments.

1.501-3 Exceptions.

(a) Comments need not be solicited when the proposed coverage does not constitute a significant revision.

(b) Advance comments need not be solicited when urgent and compelling circumstances make solicitation of comments impracticable prior to the effective date of the coverage, such as when a new statute must be implemented in a relatively short period of time. In such case, the coverage shall be issued on a temporary basis and shall provide for at least a 30 day public comment period.

1.502 Unsolicited proposed revisions.

Consideration shall also be given to unsolicited recommendations for revisions that have been submitted in writing with sufficient data and rationale to permit their evaluation.

1.503 Public meetings.

Public meetings may be appropriate when a decision to adopt, amend, or delete coverage is likely to benefit from significant additional views and discussion.

Subpart 1.6—Contracting Authority and Responsibilities

1.601 General.

Authority and responsibility to contract for authorized supplies and services are vested in the agency head. The agency head may establish contracting activities and delegate to heads of such contracting activities broad authority to manage the agency's contracting functions. Contracts may be entered into and signed on behalf of the Government only by contracting officers. In some agencies, a relatively small number of high level officials are designated contracting officers solely by virtue of their positions. Contracting officers below the level of a head of a contracting activity shall be selected and appointed under 1.603.

1.602 Contracting officers.

1.602-1 Authority.

(a) Contracting officers have authority to enter into, administer, or terminate contracts and make related determinations and findings. Contracting officers may bind the Government only to the extent of the authority delegated to them. Contracting officers shall receive from the appointing authority (see 1.603-1) clear instructions in writing regarding the limits of their authority. Information on the limits of the contracting officers' authority shall be readily available to the public and agency personnel.

(b) No contract shall be entered into unless the contracting officer ensures that all requirements of law, executive orders, regulations, and all other applicable procedures, including clearances and approvals, have been met.

1.602-2 Responsibilities.

Contracting officers are responsible for ensuring performance of all necessary actions for effective contracting, ensuring compliance with the terms of the contract, and safeguarding the interests of the United States in its contractual relationships. In order to perform these responsibilities, contracting officers should be allowed wide latitude to exercise business judgment. Contracting officers shall—

(a) Ensure that the requirements of 1.602-1(b) have been met, and that sufficient funds are available for obligation;

(b) Ensure that contractors receive impartial, fair, and equitable treatment; and

(c) Request and consider the advice of specialists in audit, law, engineering, transportation, and other fields, as appropriate.

1.602-3 Ratification of unauthorized commitments.

(a) *Definitions.*

Ratification, as used in this subsection, means the act of approving an unauthorized commitment by an official who has the authority to do so.

Unauthorized commitment, as used in this subsection, means an agreement that is not binding solely because the Government representative who made it lacked the authority to enter into that agreement on behalf of the Government.

(b) *Policy.* (1) Agencies should take positive action to preclude, to the maximum extent possible, the need for ratification actions. Although procedures are provided in this section for use in those cases where the ratification of an unauthorized commitment is necessary, these procedures may not be used in a manner that encourages such commitments being made by Government personnel.

(2) Subject to the limitations in paragraph (c) of this subsection, the head of the contracting activity, unless a higher level official is designated by the agency, may ratify an unauthorized commitment.

(3) The ratification authority in subparagraph (b)(2) of this subsection may be delegated in accordance with agency procedures, but in no case shall the authority be delegated below the level of chief of the contracting office.

(4) Agencies should process unauthorized commitments using the ratification authority of this subsection instead of referring such actions to the General Accounting Office for resolution. (See 1.602-3(d).)

(5) Unauthorized commitments that would involve claims subject to resolution under the Contract Disputes Act of 1978 should be processed in accordance with subpart 33.2, Disputes and Appeals.

(c) *Limitations.* The authority in subparagraph (b)(2) of this subsection may be exercised only when—

(1) Supplies or services have been provided to and accepted by the Government, or the Government otherwise has obtained or will obtain a benefit resulting from performance of the unauthorized commitment;

(2) The ratifying official could have granted authority to enter or could have entered into a contractual commitment at the time it was made and still has the authority to do so;

(3) The resulting contract would otherwise have been proper if made by an appropriate contracting officer;

(4) The contracting officer reviewing the unauthorized commitment determines the price to be fair and reasonable;

(5) The contracting officer recommends payment and legal counsel concurs in the recommendation, unless agency procedures expressly do not require such concurrence;

(6) Funds are available and were available at the time the unauthorized commitment was made; and

(7) The ratification is in accordance with any other limitations prescribed under agency procedures.

(d) *Nonratifiable commitments.* Cases that are not ratifiable under this subsection may be subject to resolution as recommended by the General Accounting Office under its claim procedure (GAO Policy and Procedures Manual for Guidance of Federal Agencies, Title 4, Chapter 2), or as authorized by FAR part 50. Legal advice should be obtained in these cases.

[53 FR 3689, Feb. 8, 1988]

1.603 Selection, appointment, and termination of appointment.

1.603-1 General.

Consistent with 1.301(c), the agency shall establish a system for the selection, appointment, and termination of appointment of contracting officers. Agency heads or their designees may select and appoint contracting officers and terminate their appointments.

1.603-2 Selection.

In selecting contracting officers, the appointing official shall consider the complexity and dollar value of the acquisitions to be assigned and the candidate's experience, training, education, business acumen, judgment, character, and reputation. Examples of selection criteria include—

(a) Experience in Government contracting and administration, commercial purchasing, or related fields;

(b) Education or special training in business administration, law, accounting, engineering, or related fields;

(c) Knowledge of acquisition policies and procedures, including this and other applicable regulations;

(d) Specialized knowledge in the particular assigned field of contracting; and

(e) Satisfactory completion of acquisition training courses.

1.603-3 Appointment.

Contracting officers shall be appointed in writing on a "Certificate of Appointment," SF 1402, which shall state any limitation on the scope of authority to be exercised, other than limitations contained in applicable laws or regulations. Appointing officials shall maintain files containing copies of all Certificates of Appointment that have not been terminated.

1.603-4 Termination.

Termination of a contracting officer appointment will be by letter, unless the Certificate of Appointment contains other provisions for automatic termination. Terminations may be for reasons such as reassignment, termination of employment, or unsatisfactory performance. No termination shall operate retroactively.

Subpart 1.7—Determinations and Findings

SOURCE: 50 FR 1726, Jan. 11, 1985 (interim rule), and 50 FR 52429, Dec. 23, 1985 (final rule), unless otherwise noted.

1.700 Scope of subpart.

This subpart prescribes general policies and procedures for the use of determinations and findings (D&F's). Requirements for specific types of D&F's can be found with the appropriate subject matter.

1.701 Definition.

Determination and Findings (D&F) means a special form of written approval by an authorized official that is required by statute or regulation as a prerequisite to taking certain contracting actions. The *determination* is a conclusion or decision supported by the *findings*. The findings are statements of fact or rationale essential to support the determination and must cover each requirement of the statute or regulation.

1.702 General.

(a) A D&F shall ordinarily be for an individual contract action. Unless otherwise prohibited, class D&F's may be executed for classes of contract action (see 1.703). The approval granted by a D&F is restricted to the proposed contract action(s) reasonably described in that D&F. D&F's may provided for a reasonable degree of flexibility. Furthermore, in their application, reasonable variations in estimated quantities or prices are permitted, unless the D&F specifies otherwise.

(b) When an option is anticipated, the D&F shall state the approximate quantity to be awarded initially and the extent of the increase to be permitted by the option.

1.703 Class determinations and findings.

(a) A class D&F provides authority for a class of contracting actions. A class may consist of contracting actions for the same or related supplies or services or other contracting actions that require essentially identical justification.

(b) The findings in a class D&F shall fully support the proposed action either for the class as a whole or for each action. A class D&F shall be for a specified period, with the expiration date stated in the document.

(c) The contracting officer shall ensure that individual actions taken pursuant to the authority of a class D&F are within the scope of the D&F.

1.704 Content.

Each D&F shall set forth enough facts and circumstances to clearly and convincingly justify the specific determination made. As a minimum, each D&F shall include, in the prescribed agency format, the following information:

(a) Identification of the agency and of the contracting activity and specific identifications of the document as a *Determination and Findings*.

(b) Nature and/or description of the action being approved.

(c) Citation of the appropriate statute and/or regulation upon which the D&F is based.

(d) Findings that detail the particular circumstances, facts, or reasoning essential to support the determination. Necessary supporting documentation shall be obtained from appropriate requirements and technical personnel.

(e) A determination, based on the findings, that the proposed action is justified under the applicable statute or regulation.

(f) Expiration date of the D&F, if required (see 1.706(b)).

(g) The signature of the official authorized to sign the D&F (see 1.706) and the date signed.

1.705 Supersession and modification.

(a) If a D&F is superseded by another D&F, that action shall not render invalid any action taken under the original D&F prior to the date of its supersession.

(b) A modification of the D&F will not require cancellation of the solicitation if the D&F, as modified, supports the contracting action.

1.706 Expiration.

Expiration dates are required for class D&F's and are optional for individual D&F's. Authority to act under an individual D&F expires when it is exercised or on an expiration date specified in the document, whichever occurs first. Authority to act under a class D&F expires on the expiration date specified in the document. When a solicitation has been furnished to prospective offerors before the expiration date, the authority under the D&F will continue until award of the contract(s) resulting from that solicitation.

1.707 Signatory authority.

When a D&F is required, it shall be signed by the appropriate official in accordance with agency regulations. Authority to sign or delegate signature authority for the various D&F's is as shown in the applicable FAR part.

PART 2—DEFINITIONS OF WORDS AND TERMS

Sec.
2.000 Scope of part.

Subpart 2.1—Definitions

2.101 Definitions.

Subpart 2.2—Definitions Clause

2.201 Contract clause.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42107, Sept. 19, 1983, unless otherwise noted.

2.000 Scope of part.

This part defines words and terms commonly used in this regulation. Other terms are defined in the part or subpart with which they are particularly associated (see the Index for locations).

Subpart 2.1—Definitions

2.101 Definitions.

As used throughout this regulation, the following words and terms are used as defined in this subpart unless (a) the context in which they are used clearly requires a different meaning or (b) a different definition is prescribed for a particular part or portion of a part.

Acquisition means the acquiring by contract with appropriated funds of supplies or services (including construction) by and for the use of the Federal Government through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when agency needs are established and includes the description of requirements to satisfy agency needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling agency needs by contract.

Affiliates means associated business concerns or individuals if, directly or indirectly, (a) either one controls or can control the other or (b) a third party controls or can control both.

Agency head (see *head of the agency*).

Contract means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; job orders or task letters issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilaterial contract modifications. Contracts do not include grants and cooperative agreements covered by 31 U.S.C. 6301, *et seq.* For discussion of various types of contracts, see part 16.

Contract administration office means an office that performs (a) assigned postaward functions related to the administration of contracts and (b) assigned preaward functions.

Contracting means purchasing, renting, leasing, or otherwise obtaining supplies or services from nonfederal sources. Contracting includes description (but not determination) of supplies and services required, selection and solicitation of sources, preparation and award of contracts, and all phases of contract administration. It does not include making grants or cooperative agreements.

Contracting activity means an element of an agency designated by the agency head and delegated broad authority regarding acquisition functions.

Contracting office means an office that awards or executes a contract for supplies or services and performs postaward functions not assigned to a contract administration office.

Contracting officer means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the contracting officer acting within the limits of their authority as delegated by the contracting officer. *Administrative contracting officer (ACO)* refers to a contracting officer who is administering contracts. *Termination contracting officer (TCO)* refers to a contracting officer who is settling terminated contracts. A single contracting officer may be responsible for duties in any or all of these areas. Reference in this regulation to administrative contracting officer or termination contracting officer does not (a) require that a duty be performed at a particular office or activity or (b) restrict in any way a contracting officer in the performance of any duty properly assigned.

Executive agency means an executive department, a military department, or any independent establishment within the meaning of 5 U.S.C. 101, 102, and 104(1), respectively, and any wholly owned Government corporation within the meaning of 31 U.S.C. 9101.

Facsimile means electronic equipment that communicates and reproduces both printed and handwritten material. If used in conjunction with a reference to a document, e.g., facsimile bid, the term refers to a document (in the example given, a bid) that has been transmitted to and received by the Government via facsimile.

Federal agency means any executive agency or any independent establishment in the legislative or judicial branch of the Government (except the Senate, the House of Representatives, the Architect of the Capitol, and any activities under the Architect's direction).

Head of the agency (also called *agency head*) means the Secretary, Attorney General, Administrator, Governor, Chairperson, or other chief official of an executive agency, unless otherwise indicated, including any deputy or assistant chief official of an executive agency and, for the Department of Defense, the Under Secretary and any Assistant Secretary of the Departments of the Army, Navy, and Air Force and the Director and Deputy Director of Defense agencies; and the term *authorized representative* means any person, persons, or board (other than the contracting officer) authorized to act for the head of the agency or Secretary.

Head of the contracting activity includes the official who has overall responsibility for managing the contracting activity.

May denotes the permissive. However, the words *no person may...* mean that no person is required, authorized, or permitted to do the act described.

National defense means any activity related to programs for military or atomic energy production or construction, military assistance to any foreign nation, stockpiling, or space.

Offer means a response to a solicitation that, if accepted, would bind the offeror to perform the resultant contract. Responses to invitations for bids (sealed bidding) are offers called *bids* or sealed bids; responses to requests for proposals (negotiation) are offers called *proposals;* responses to requests for quotations (negotiation) are *not* offers and are called *quotes.* For unsolicited proposals, see subpart 15.5.

Possessions includes the Virgin Islands, Johnston Island, American Samoa, Guam, Wake Island, Midway Island, and the guano islands, but does not include Puerto Rico, leased bases, or trust territories.

Senior procurement executive means the individual appointed pursuant to section 16(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3)) who is responsible for management direction of the acquisition system of the executive agency, including implementation of the unique acquisition policies, regulations, and standards of the executive agency.

Shall denotes the imperative.

Supplies means all property except land or interest in land. It includes (but is not limited to) public works, buildings, and facilities; ships, floating equipment, and vessels of every character, type, and description, together with parts and accessories; aircraft and aircraft parts, accessories, and equipment; machine tools; and the alteration or installation of any of the foregoing.

United States, when used in a geographic sense, means the 50 States and the District of Columbia.

[48 FR 42107, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 4221, Jan. 30, 1985; 50 FR 26903, June 28, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2649, Jan. 17, 1986; 52 FR 19802, May 27, 1987; 54 FR 48981, Nov. 28, 1989]

Subpart 2.2—Definitions Clause

2.201 Contract clause.

The contracting officer shall insert the clause at 52.202-1, Definitions, in solicitations and contracts except when (a) a fixed-price research and development contract that is expected to be $2,500 or less is contemplated or (b) a purchase order is contemplated. If the contract is for personal services; construction; architect-engineer services; or dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I. Additional definitions may be included; *provided,* they are consistent with this clause and the Federal Acquisition Regulation.

[48 FR 42107, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

SOURCE: 48 FR 42108, Sept. 19, 1983, unless otherwise noted.

3.000 Scope of part.

This part prescribes policies and procedures for avoiding improper business practices and personal conflicts of interest and for dealing with their apparent or actual occurrence.

Subpart 3.1—Safeguards

3.101 Standards of conduct.

3.101-1 General.

Government business shall be conducted in a manner above reproach and, except as authorized by statute or regulation, with complete impartiality and with preferential treatment for none. Transactions relating to the expenditure of public funds require the highest degree of public trust and an impeccable standard of conduct. The general rule is to avoid strictly any conflict of interest or even the appearance of a conflict of interest in Government-contractor relationships. While many Federal laws and regulations place restrictions on the actions of Government personnel, their official conduct must, in addition, be such that they would have no reluctance to make a full public disclosure of their actions.

3.101-2 Solicitation and acceptance of gratuities by Government personnel.

As a rule, no Government employee may solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who (a) has or is seeking to obtain Government business with the employee's agency, (b) conducts activities that are regulated by the employee's agency, or (c) has interests that may be substantially affected by the performance or nonperformance of the employee's official duties. Certain limited exceptions are authorized in agency regulations.

3.101-3 Agency regulations.

(a) Agencies are required by Executive Order 11222 of May 8, 1965, and 5 CFR part 735 to prescribe *Standards of Conduct*. These agency standards contain—

(1) Agency-authorized exceptions to 3.101-2; and

(2) Disciplinary measures for persons violating the standards of conduct.

(b) Requirements for employee financial disclosure and restrictions on private employment for former Government employees are in Office of Personnel Management and agency regulations implementing Public Law 95-521, which amended 18 U.S.C. 207.

3.102 Officials not to benefit.

3.102-1 General.

41 U.S.C. 22 requires that most Government contracts explicitly state that no member of Congress shall be admitted to any share or part of the contract or any benefit arising from it. If a contract is made between the U.S. Government and any member of or delegate to Congress, or resident commissioner, it may constitute a violation of 18 U.S.C. 431 and 432, resulting in—

(a) Both the officer or employee of the Government who awarded the contract and the member, delegate, or resident commissioner being subject to criminal penalties;

(b) The contract being void; and

(c) The contractor having to return any consideration paid by the Government under the contract.

3.102-2 Contract clause.

The contracting officer shall insert the clause at 52.203-1, Officials Not to Benefit, in solicitations and contracts, except those related to agriculture that are exempted by 41 U.S.C. 22.

3.103 Independent pricing.

3.103-1 Solicitation provision.

The contracting officer shall insert the provision at 52.203-2, Certificate of Independent Price Determination, in solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(a) The acquisition is to be made under the small purchase procedures in part 13;

(b) [Reserved]

(c) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(d) The solicitation is for utility services for which rates are set by law or regulation.

[48 FR 42108, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 25526, June 21, 1990]

3.103-2 Evaluating the certification.

(a) *Evaluation guidelines.* (1) None of the following, in and of itself, constitutes *disclosure* as it is used in subparagraph (a)(2) of the Certificate of Independent Price Determination (hereafter, the certificate):

(i) The fact that a firm has published price lists, rates, or tariffs covering items being acquired by the Government.

(ii) The fact that a firm has informed prospective customers of proposed or pending publication of new or revised price lists for items being acquired by the Government.

(iii) The fact that a firm has sold the same items to commercial customers at the same prices being offered to the Government.

(2) For the purpose of subparagraph (b)(2) of the certificate, an individual may use a blanket authorization to act as an agent for the person(s) responsible for determining the offered prices if—

(i) The proposed contract to which the certificate applies is clearly within the scope of the authorization; and

(ii) The person giving the authorization is the person within the offeror's organization who is responsible for determining the prices being offered at the time the certification is made in the particular offer.

(3) If an offer is submitted jointly by two or more concerns, the certification provided by the representative of each concern applies only to the activities of that concern.

(b) *Rejection of offers suspected of being collusive.* (1) If the offeror deleted or modified subparagraph (a)(1) or (a)(3) or paragraph (b) of the certificate, the contracting officer shall reject the offeror's bid or proposal.

(2) If the offeror deleted or modified subparagraph (a)(2) of the certificate, the offeror must have furnished with its offer a signed statement of the circumstances of the disclosure of prices contained in the bid or proposal. The chief of the contracting office shall review the altered certificate and the statement and shall determine, in writing, whether the disclosure was made for the purpose or had the effect of restricting competition. If the determination is positive, the bid or proposal shall be rejected; if it is negative, the bid or proposal shall be considered for award.

(3) Whenever an offer is rejected under subparagraph (1) or (2) above, or the certificate is suspected of being false, the contracting officer shall report the situation to the Attorney General in accordance with 3.303.

(4) The determination made under subparagraph (2) above shall not prevent or inhibit the prosecution of any criminal or civil actions involving the occurrences or transactions to which the certificate relates.

[48 FR 42108, Sept. 19, 1983, as amended at 55 FR 25526, June 21, 1990]

3.103-3 The need for further certifications.

A contractor that properly executed the certificate before award does not have to submit a separate certificate with each proposal to perform a work order or similar ordering instrument issued pursuant to the terms of the contract, where the Government's requirements cannot be met from another source.

3.104 Procurement integrity.

[55 FR 36784, Sept. 6, 1990]

3.104-1 General.

(a) Section 3.104 implements section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423) as amended by section 814 of Pub. L. 101-189 (hereinafter referred to as *the Act*). Agency supplementation of 3.104 and any clauses required by 3.104 must be approved at a level not lower than the Senior Procurement Executive of the agency, unless a higher level of approval is required by law for that agency.

(b) Agency employees are reminded that much of the conduct prohibited by the Act is also prohibited by other statutes and regulations. For example—

(1) The offer or acceptance of a bribe or gratuity is prohibited by 18 U.S.C. 201, 10 U.S.C. 2207, 5 U.S.C. 7353, and 5 CFR parts 735 and 2635;

(2) Employment discussions are covered by 18 U.S.C. 208, which precludes a Government employee from participating personally and substantially in any particular matter that would affect the financial interests of any person with whom the employee is negotiating for employment;

(3) Post-employment restrictions are covered by 18 U.S.C. 207, which prohibits certain activities by former Government employees, including representation of a contractor before the Government in relation to any contract on which the former employee worked while employed by the Government; and

(4) FAR parts 14 and 15, which place restrictions on the release of information related to procurements and other contractor information which must be protected under 18 U.S.C. 1905. In addition, 5 CFR part 735 protects non-public Government information.

[55 FR 36784, Sept. 6, 1990]

3.104-2 Applicability.

This subsection implements section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423) (OFPP Act) as amended by section 814 of Pub. L. 104-189. Conduct and procurement activities on or after July 16, 1989, are subject to the prohibitions and restrictions of section 27 as follows:

(a) Conduct and procurement activities occurring during the period from July 16, 1989 through November 30, 1989, are subject to the prohibitions and restrictions in section 27 of the Office of Federal Procurement Policy Act as originally enacted on November 17, 1988, and as implemented by Federal Acquisition Circular 84-47 (see 48 CFR 3.104 through 3.104-12, 4.802(e), 9.105-3(c), 9.106-3(b), 15.805-5 (l) and (m), 37.207(f), 37.208, 43.106, 52.203-8 through 52.203-10 and 52.237-9, October 1, 1989 edition). In addition, the performance of procurement activities during the period from July 16, 1989 through November 30, 1989, may subject an individual to prohibitions and restrictions applicable after December 1, 1990, as provided in subparagraphs (c)(1) and (c)(2) of this subsection.

(b) Section 27 of the OFPP Act was suspended from December 1, 1989, through November 30, 1990. The prohibitions and restrictions under section 27, either as originally enacted or as amended, do not apply during the suspension period. In addition, an individual does not become a procurement official under section 27 as originally enacted or as amended if the individual's participation in a procurement was solely during the suspension period. The suspension does not interrupt the running of the 2-year period of any post-employment restriction that attached during the period from July 16, 1989, through November 30, 1989.

(c) Conduct and procurement activities occurring on or after December 1, 1990, are subject to section 27 of the amended law. In addition:

(1) For procurements begun prior to December 1, 1989, which have not been completed by November 30, 1990, the prohibitions on gratuities, employment discussions, and soliciting, obtaining, or disclosing proprietary or source selection information under subsections 27 (b) and (d), of the amended law, apply on or after December 1, 1990, to an individual who was a procurement official under section 27, as originally enacted, and whose activities prior to December 1, 1989, would meet the definition of a procurement official under section 27, of the amended law.

(2) The post-employment restrictions of subsection 27(f), of the amended law, apply on or after December 1, 1990, to an individual who was a procurement official under section 27, as originally enacted, and whose activities prior to December 1, 1989, would meet the definition of a procurement official under section 27, of the amended law, provided that the 2-year period of the restrictions has not expired.

[55 FR 36784, Sept. 6, 1990]

3.104-3 Statutory prohibitions and restrictions.

As provided in section 27 of the Act, the following conduct is prohibited:

(a) *Prohibited conduct by competing contractors (subsection 27(a) of the Act).* During the conduct of any Federal agency procurement of property or services, no competing contractor or any officer, employee, representative, agent, or consultant of any competing contractor shall knowingly—

(1) Make, directly or indirectly, any offer or promise of future employment or business opportunity to, or engage, directly or indirectly, in any discussion of future employment or business opportunity with, any procurement official of such agency, except as provided in 3.104-6(b);

(2) Offer, give, or promise to offer or give, directly or indirectly, any money, gratuity, or other thing of value to any procurement official of such agency; or

(3) Solicit or obtain, directly or indirectly, from any officer or employee of such agency, prior to the award of a contract any proprietary or source selection information regarding such procurement.

(b) *Prohibited conduct by procurement officials (subsection 27(b) of the Act).* During the conduct of any Federal agency procurement of property or services, no procurement official of such agency shall knowingly—

(1) Solicit or accept, directly or indirectly, any promise of future employment or business opportunity from, or engage, directly or indirectly, in any discussion of future employment or business opportunity with, any officer, employee, representative, agent, or consultant of a competing contractor, except as provided in 3.104-6(a);

(2) Ask for, demand, exact, solicit, seek, accept, receive, or agree to receive, directly or indirectly, any money, gratuity, or other thing of value from any officer, employee, representative, agent, or consultant of any competing contractor for such procurement; or

(3) Disclose any proprietary or source selection information regarding such procurement directly or indirectly to any person other than a person authorized by the head of such agency or the contracting officer to receive such information.

(c) *Disclosure to unauthorized persons (subsection 27(d) of the Act).* During the conduct of any Federal agency procurement of property or services, no person who is given authorized or unauthorized access to proprietary or source selection information regarding such procurement, shall knowingly disclose such information, directly or indirectly, to any person other than a person authorized by the head of such agency or the contracting officer to receive such information.

(d) *Restrictions resulting from procurement activities of Government officers or employees who are or were procurement officials (subsection 27(f) of the Act).* (1) No individual who, while serving as an officer or employee of the Government or member of the Armed Forces, was a procurement official with respect to a particular procurement may knowingly—

(i) Participate in any manner, as an officer, employee, agent, or representative of a competing contractor, in any negotiations leading to the award, modification, or extension of a contract for such procurement; or

(ii) Participate personally and substantially on behalf of the competing contractor in the performance of such contract.

The restrictions in subdivisions (d)(1)(i) and (d)(1)(ii) of this subsection apply during the period ending 2 years after the last date such individual participated personally and substantially in the conduct of such procurement or personally reviewed and approved the award, modification, or extension of any contract for such procurement.

(2) This subsection does not apply to any participation referred to in subdivisions (d)(1)(i) and (d)(1)(ii) of this subsection with respect to a subcontractor who is a competing contractor unless—

(i) The subcontractor is a first or second tier subcontractor and the subcontract is for an amount that is in excess of $100,000; or

(ii) The subcontractor significantly assisted the prime contractor with respect to negotiation of the prime contract; or

(iii) The procurement official involved in the award, modification, or extension of the prime contract personally directed or recommended the particular subcontractor to the prime contractor as a source for the subcontract; or

(iv) The procurement official personally reviewed and approved the award, modification, or extension of the subcontract.

[55 FR 36784, Sept. 6, 1990]

3.104-4 Definitions.

As used in this subsection—

(a) *Agency ethics official* means the designated agency ethics official described in 5 CFR 2638.201 and any other person, including deputy ethics officials described in 5 CFR 2638.201, to whom authority under 3.104-6(f) and 3.104-8(e) has been delegated by the designated agency ethics official.

(b)(1) *Competing contractor,* with respect to any procurement (including any procurement using procedures other than competitive procedures) of property or services means any entity (such as an individual, partnership, corporation, educational institution, nonprofit or not for profit organization, or business unit) legally capable of entering into a contract or subcontract in its own name that is, or is reasonably likely to become, a competitor for or recipient of a contract or subcontract under such procurement, and includes any other person acting on behalf of such an entity.

(2) The term *competing contractor* includes the incumbent contractor in the case of a contract modification.

(3) An entity shall not be considered a competing contractor whenever, by action of the Government or the entity, it is clear that the entity will not, or will no longer, participate in a particular procurement.

(4) For purposes of subsections 27(a) and 27(b) of the Act, the phrase *representative, agent, or consultant of a competing contractor* means any entity, other than an officer or employee of a competing contractor, acting on behalf of, or providing advice to, a competing contractor with regard to a particular Federal agency procurement.

(c)(1) *During the conduct of any Federal agency procurement of property or services* means, except for broad agency announcements, small business innovative research programs, and unsolicited proposals (see subparagraphs (c)(3) and (c)(4) of this subsection), the period beginning on the earliest date upon which an identifiable, specific action is taken for the particular procurement and concluding upon the award or modification of a contract or the cancellation of the procurement; provided, however, that in no event shall the conduct of the procurement be deemed to have begun prior to the decision by an authorized agency official to satisfy a specific agency need or requirement by procurement. These actions are—

(i) Drafting a specification or a statement of work;

(ii) Review and approval of a specification;

(iii) Requirements computation at an inventory control point;

(iv) Development of procurement or purchase requests;

(v) Preparation or issuance of a solicitation;

(vi) Evaluation of bids or proposals;

(vii) Selection of sources;

(viii) Conduct of negotiations; or

(ix) Review and approval of the award of a contract or contract modification.

(2) Each contract award and each contract modification constitutes a separate procurement action, i.e., a separate period to which the prohibitions and the requirements of the Act apply.

(3) For broad agency announcements and small business innovative research programs, each proposal received by an agency shall constitute a separate procurement for purposes of the Act. The conduct of each procurement shall be deemed to have begun upon the date a Commerce Business Daily announcement was made regarding the availability of the broad agency announcement or the date a solicitation was released for the small business innovative research program. The conduct of the procurement shall end upon the award of a contract or contract modification incident to each proposal or the written rejection of each specific proposal.

(4) Each unsolicited proposal shall be considered a separate procurement for purposes of the Act. For unsolicited proposals, the conduct of the procurement shall be deemed to have begun upon the publication date of a general statement of agency needs (see 15.503(d)), or if an agency does not publicize a general statement of agency needs, upon the provision of advance guidance related to agency needs (see 15.504(a)(1)) or the receipt of the unsolicited proposal, whichever is earlier. The conduct of the procurement shall end upon the award of a contract or contract modification or the rejection of the proposal.

(d) *Government officer or employee* means a person who is employed by a Federal agency (see subpart 2.1) and who is in such status during the period July 16, 1989 through November 30, 1989, or on or after December 1, 1990. This includes—

(1) A member of the uniformed services as defined in section 101(3) of title 37 U.S.C.;

(2) A person who is appointed to a position in the Federal Government under title 5 U.S.C., or any other title authorizing such appointments, including a person under a temporary appointment; and

(3) A special Government employee as defined in section 202 of title 18 U.S.C.

(e) *Modification* means the addition of new work to a contract, or the extension of a contract, which requires a justification and approval (see subpart 6.3). It does not include an option where all the terms of the option, including option prices, are set forth in the contract and all requirements for option exercise have been satisfied, change orders, administrative changes, or any other contract changes that are within the scope of the contract.

(f)(1) *Gratuity or other thing of value* includes any gift, favor, entertainment, or other item having monetary value. The phrase includes services, conference fees, vendor promotional training, transportation, lodgings and meals, as well as discounts not available to the general public and loans extended by anyone other than a bank or financial institution. The phrase does not include—

(i) Anything for which market value is paid by the procurement official, or on his behalf, by someone other than a competing contractor, or a representative, agent, or consultant of the competing contractor;

(ii) Anything which is paid for by the Government, secured under Government contract, or accepted by the Government under specific statutory authority;

(iii) Plaques or certificates having no intrinsic value; or

(iv) Any unsolicited item, other than money, having a market value of $10 or less per event or presentation.

For these purposes, market value means the retail cost the procurement official would incur to purchase the item and, in the case of items such as tickets, refers to their face value. A thing of value given or received or otherwise offered or sought *directly or indirectly* includes a thing of value directed to a person other than a procurement official, such as a spouse or child, solely because of that person's relationship to the procurement official or on the basis of designation, recommendation, or suggestion by the procurement official.

(2) Promotional vendor training does not include training provided by a vendor, when a vendor's products are furnished under contract to the Government and the training is to facilitate the use of those products.

(g) *Participated personally and substantially* means active and significant involvement of the individual in activities directly related to the procurement. To participate *personally* means directly, and includes the participation of a subordinate when actually directed by the supervisor in the matter. To participate *substantially* means that the employee's involvement must be of significance to the matter. For example, the review of procurement documents solely to determine compliance with applicable regulatory, administrative, or budgetary requirements or procedures does not constitute substantial participation in a procurement. It requires more than official responsibility, knowledge, perfunctory involvement, or involvement on an administrative or peripheral issue. A finding of substantiality should be based not only on the effort devoted to a matter, but on the importance of the effort. While a series of peripheral involvements may be insubstantial, the single act of approving or participating in a critical step may be substantial.

(h)(1) *Procurement official* means any civilian or military official or employee of an agency who has participated personally and substantially in any of the following activities for a particular procurement—

(i) Drafting a specification or a statement of work for that procurement;

(ii) Review and approval of a specification or statement of work developed for that procurement;

(iii) Preparaton or development of procurement or purchase requests for that procurement;

(iv) The preparation or issuance of a solicitation for that procurement;

(v) Evaluation of bids or proposals for that procurement;

(vi) Selection of sources for that procurement;

(vii) Negotiations to establish the price or terms and conditions of a particular contract or contract modification; or

(viii) Review and approval of the award of a contract or contract modification.

(2) For purposes of 3.104-4(h), the term *employee of an agency* includes a contractor, subcontractor, consultant, expert, or advisor (other than a competing contractor) acting on behalf of, or providing advice to, the agency with respect to any phase of the agency procurement concerned.

(3) Generally, an individual will not become a procurement official solely by participating in the following activities—

(i) Federal advisory committees that are established and function in accordance with the Federal Advisory Committee Act, 5 U.S.C. app. 2, unless the Federal advisory committee is established or used for the purpose of performing a function listed in subparagraph (h)(1) of this subsection and the individual member's participation in that function is personal and substantial;

(ii) Agency level boards, panels, or other advisory committees that review program milestones or evaluate and make recommendations regarding alternative technologies or approaches for satisfying broad agency level missions or objectives;

(iii) The performance of general, technical, engineering, or scientific effort having broad application not directly associated with a particular procurement, notwithstanding that such general, technical, engineering, or scientific effort subsequently may be incorporated into a particular procurement;

(iv) Clerical functions supporting the conduct of a particular procurement; and

(v) For procurements to be conducted under the procedures of OMB Circular A-76, participation in management studies, preparation of in-house cost estimates, preparation of *most efficient organization* analyses, and furnishing of data or technical support to be used by others in the development of performance standards, statements of work, or specifications.

(4) An employee of an agency does not become a procurement official for a particular procurement until the onset of the employee's personal and substantial participation in that particular procurement.

(i) *Property* means supplies as defined in 2.101.

(j)(1) *Proprietary information* means information contained in a bid or proposal or otherwise submitted to the Government by a competing contractor in response to the conduct of a particular Federal agency procurement, or in an unsolicited proposal, that has been marked by the competing contractors as proprietary information in accordance with applicable law and regulation.

(2) Information shall be considered proprietary information, for purposes of section 27 of the Act, only when—

(i) An attached transmittal document, such as a cover page or the label of a magnetic media storage container, is clearly marked with a restrictive legend; and

(ii) The specific portions of the information whose disclosure the competing contractor desires to restrict are clearly and separately marked.

(3) Proprietary information does not include information—

(i) That is otherwise available without restrictions to the Government, another competing contractor, or the public;

(ii) Contained in bid documents following bid opening (but see 14.404-4); or

(iii) That the contracting officer determines to release in accordance with 3.104-5(d).

(k)(1) *Source selection information* is information, including information stored in electronic, magnetic, audio or video formats, which is prepared or developed for use by the Government to conduct a particular procurement and—

(i) The disclosure of which to a competing contractor would jeopardize the integrity or successful completion of the procurement concerned; and

(ii) Is required by statute, regulation, or order to be secured in a source selection file or other facility to prevent disclosure.

(2) Source selection information is limited to—

(i) Bid prices submitted in response to a Federal agency solicitation for sealed bids, or lists of those bid prices prior to public bid opening;

(ii) Proposed costs or prices submitted in response to a Federal agency solicitation (for other than sealed bids), or lists of those proposed costs or prices;

(iii) Source selection plans;

(iv) Technical evaluation plans;

(v) Technical evaluations of proposals;

(vi) Cost or price evaluations of proposals;

(vii) Competitive range determinations which identify proposals that have a reasonable chance of being selected for award of a contract;

(viii) Rankings of bids, proposals, or competitors;

(ix) The reports and evaluations of source selection panels or boards or advisory councils; or

(x) Other information marked as "SOURCE SELECTION INFORMATION—SEE FAR 3.104" based upon a case-by-case determination by the Head of the Agency, his designee, or the contracting officer that the information meets the standards in subdivisions (k)(1) (i) and (ii) of this subsection.

(l) *Possible violation* means, for purposes of the certification requirements under 3.104-9, specifically identified or documented circumstances that provide a reasonable basis to believe that a violation of the Act may have occurred. Rumor and hearsay are not, by themselves, a reasonable basis to conclude that a possible violation exists.

[55 FR 36785, Sept. 6, 1990]

3.104-5 Disclosure, protection, and marking of proprietary and source selection information.

(a) Except as specifically provided for in this subsection, no person or other entity may disclose proprietary or source selection information to any person other than a person authorized by the Head of the Agency to receive such information. A person or entity who does not know if information is proprietary or source selection information, or does not know if the person or entity may disclose or receive such information, shall make the inquiries prescribed at 3.104-8(d).

(b)(1) Proprietary and source selection information shall be protected from unauthorized disclosure in accordance with 14.401, 15.411, 15.413, applicable law, and agency regulations.

(2) Information contained in a bid or proposal that bears the legend required by 3.104-4(j)(2) shall be considered to be proprietary information for

purposes of the Act. However, information contained in a bid or proposal that does not bear that legend shall remain subject to the restrictions on disclosure contained in 15.413, 15.509, 24.202, or as otherwise required by law.

(c) In determining whether particular information is source selection information under 3.104-4(k)(2)(x), the originator shall assure that the information meets the criteria in 3.104-4(k)(1) and consult with agency officials as appropriate. Individuals responsible for preparing material that may include information designated as source selection information in accordance with 3.104-4 (k)(2)(x) shall mark the cover page and each page that contains source selection information with the legend "SOURCE SELECTION INFORMATION—SEE FAR 3.104." Although the material described in 3.104-4(k)(2) (i) through (ix) is considered to be source selection information whether or not marked, all reasonable efforts shall be made to mark such material with this legend.

(d)(1) The head of the agency, or his or her designee, or the contracting officer, has the authority, in accordance with applicable agency regulations or procedures, to authorize persons, or classes of persons, to receive proprietary or source selection information when necessary to the conduct of the procurement.

(2) For contracts and contract modifications in excess of $100,000, the head of the agency, or his or her designee, shall establish procedures to assure that the names of all persons, identification of the classes of persons and, to the maximum extent practicable, the names of all individuals within a class of persons, authorized access to proprietary or source selection information at the contracting activity are listed in the contract file.

(3) For contracts and contract modifications expected to exceed $100,000, if proprietary or source selection information is authorized to be released to Government activities outside the contracting activity responsible for the conduct of the procurement, the head of the office receiving the information, or his or her designee, shall maintain a list of persons, a list of classes of persons and, to the maximum extent practicable, the names of all individuals within classes of persons, who have been authorized access to the proprietary or source selection information. The list shall be forwarded to the contracting office responsible for the conduct of the procurement to be included in the contract file.

(4) For release to other than Government employees, see 15.413-2. The names of those individuals shall also be listed in the contract file when the contract or contract modification is expected to exceed $100,000.

(5) The lists prescribed by this subsection shall be forwarded to the contracting officer for inclusion in the contract file within the time specified by the contracting officer.

(e)(1) Except as provided in subparagraph (e)(4) of this subsection, if the contracting officer believes that information marked as proprietary (see 3.104-4(j)) is not proprietary, the competing contractor that has affixed the marking shall be notified in writing and given an opportunity to justify the proprietary marking. If the competing contractor agrees that the material is not proprietary information, or does not respond within the time specified in the notice, the contracting officer may remove the proprietary marking and the information may be released.

(2) After reviewing any justification submitted by the competing contractor, if the contracting officer determines that the proprietary marking is not justified, the contracting officer shall so notify the competing contractor in writing.

(3) Information marked by the competing contractor as proprietary shall not be released until—

(i) The review of the contractor's justification has been completed; or

(ii) The period specified for the contractor's response has elapsed, whichever is earlier.

Thereafter, the contracting officer may release the information.

(4) With respect to technical data that are marked proprietary by a competing contractor, the contracting offi-

cer shall generally follow the procedures in 27.404(h).

(f) Nothing in 3.104 prohibits competing contractors from disclosing or authorizing the Government to disclose their company-specific proprietary information to any other person or entity where not otherwise prohibited by law.

(g) Proprietary markings under 3.104 do not limit the Government's use of technical data to which the Government has rights.

(h) Source selection or proprietary information that is properly in the possession of a competing contractor as a result of a prior disclosure that was not prohibited by the Act shall not be considered to have been solicited or obtained, directly or indirectly, in violation of the Act.

(i) Nothing in 3.104 shall be construed to authorize the withholding of any information pursuant to a proper request from the Congress, any committee or subcommittee thereof, a Federal agency, any board of contract appeals of a Federal agency, the Comptroller General, or an Inspector General of a Federal agency, except as otherwise authorized by law or regulation. Any such release which contains proprietary or source selection information shall clearly notify the recipient that the information or portions thereof are proprietary or source selection information related to the conduct of a Federal agency procurement whose disclosure is restricted by section 27 of the Act.

[55 FR 36787, Sept. 6, 1990]

3.104-6 Restrictions on employment or business opportunity discussions between competing contractors and procurement officials.

(a) *Applicability to procurement officials.* During the conduct of a Federal agency procurement, subsection 27(b)(1) of the Act prohibits an individual who has become a procurement official from knowingly, directly or indirectly, soliciting or accepting from or discussing with any officer, employee, representative, agent, or consultant of a competing contractor, future employment or business opportunity. Subsection 27(b)(1) of the Act also applies to individuals acting as procurement officials on behalf of the procuring agency who are, or are employed by, contractors, subcontractors, consultants, experts, or advisors (other than employees of a competing contractor). The prohibition in subsection 27(b)(1) does not apply to a procurement official—

(1) After the contract has been awarded, the procurement canceled, or the contract modification has been executed;

(2) After the procurement official leaves Government service;

(3) Who is, or is employed by, a contractor, subcontractor, consultant, expert, or advisor, after such procurement official ceases to act on behalf of, or provide advice to, the procuring agency concerning the procurement;

(4) Described in paragraph (c) of this subsection who has received written authorization for recusal from further participation in a procurement, and who has in fact discontinued participation in the procurement.

(5) Whose only communication with a competing contractor is for the purpose of—

(i) Rejecting an unsolicited offer of employment or business opportunity; or

(ii) Advising the competing contractor that he or she must seek recusal in accordance with paragraph (d) of this subsection prior to any discussions regarding the unsolicited offer. A procurement official who wishes to conduct such discussions with the competing contractor shall promptly submit a recusal proposal.

(b) *Applicability to competing contractors.* During the conduct of a Federal agency procurement, subsection 27(a)(1) of the Act prohibits a competing contractor from knowingly, directly or indirectly, offering or promising to, or discussing with, a procurement official any future business or employment opportunity. The prohibition does not apply to—

(1) An initial contact for the sole purpose of determining whether an individual or other entity is able to engage in discussions concerning future employment or business opportunity either because the individual or entity has been recused or is not a procurement official.

(2) A contact or discussion with an individual or other entity who may engage in such contact or discussion under subparagraphs (a)(1) through (a)(4) of this subsection.

(c) *Eligibility for recusal.* An individual or other entity who is a procurement official may be eligible for recusal if the individual or entity has not participated personally and substantially in—

(1) The evaluation of bids or proposals, the selection of sources, or the conduct of negotiations in connection with such solicitation or contract during the period beginning with the issuance of a procurement solicitation and ending with the award of a contract or cancellation of a procurement; or

(2) The evaluation of a proposed modification, or the conduct of negotiations during the period beginning with the negotiation of a modification of a contract and ending with an agreement to modify the contract or a decision not to modify the contract.

(d) *Recusal proposal.* An eligible procurement official who wishes to discuss future employment or business opportunities with a competing contractor during the conduct of a procurement shall submit to the Head of the Contracting Activity (HCA), or his or her designee, prior to initiating or engaging in such discussions, a written proposal of disqualification from further participation in the procurement which relates to that competing contractor. Concurrent copies of the written proposal shall be submitted to the contracting officer, the Source Selection Authority if the contracting officer is not the Source Selection Authority, and the procurement official's immediate supervisor. As a minimum, the proposal shall—

(1) Identify the procurement involved;

(2) Describe the nature of the procurement official's participation in the procurement and specify the approximate dates or time period of participation; and

(3) Identify the competing contractor and describe its interest in the procurement.

(e) *Suspension from participation in a procurement.* The contracting officer, or the Source Selection Authority if the contracting officer is not the Source Selection Authority, may suspend the individual's or entity's participation in the procurement pending evaluation of the recusal proposal. Notwithstanding submission of a recusal proposal or suspension from participation in a procurement, an individual or entity shall not solicit or engage in discussions of employment or business opportunity until authorized in writing by the HCA or his or her designee.

(f) *Evaluation of recusal proposal.* (1) If the HCA or his or her designee determines that the procurement official's further participation is not essential to the activity's conduct of the procurement and that recusal will not jeopardize the integrity of the procurement process, the HCA may, after consulting with the agency ethics official, grant written approval of the recusal proposal. In evaluating the recusal proposal, the HCA or his or her designee may consider any relevant factors, including—

(i) The importance of the procurement official's role to the completion of the procurement action;

(ii) The procurement official's prior participation in key procurement decisions and actions;

(iii) The timing of the proposal in relation to significant procurement milestones; and

(iv) Potential disruption to the procurement schedule as a result of the procurement official's recusal.

(2) The HCA or his or her designee may request that any person, including the procurement official, the Source Selection Authority, the contracting officer or the procurement official's immediate supervisor, provide any additional information necessary to evaluate the recusal proposal.

(3) Any rejection of the recusal proposal shall be in writing and shall state the basis for rejection. A determination by the HCA or his or her designee to reject a recusal proposal shall be final. Rejection of a Government officer's or employee's recusal proposal shall not be deemed to be an adverse personnel action or be subject to agency or negotiated grievance procedures.

(g) *Duration of recusal.* A procurement official whose recusal proposal has been approved shall be disqualified—

(1) As a minimum, for any period during which future employment or business opportunities with the competing contractor have not been rejected by either the procurement official or the competing contractor; or

(2) For the period the procurement official and competing contractor have an employment or business relationship or an arrangement concerning future employment or business relationships.

(h) *Reinstatement to participation in a procurement.* Subsequent to a period of disqualification, if an agency wishes to reinstate the procurement official to participation in the procurement, the HCA or his or her designee may authorize immediate reinstatement or, in his or her discretion, may authorize reinstatement following whatever additional period of disqualification he or she determines is necessary to ensure the integrity of the procurement process. It is within the discretion of the HCA, or his or her designee, to determine that the procurement official shall not be reinstated to participation in the procurement. In determining that any additional period of disqualification is necessary, the HCA or his or her designee shall consider any factors that might give rise to an appearance that the procurement official acted without complete impartiality with respect to issues involved in the procurement.

[55 FR 36788, Sept. 6, 1990]

3.104-7 Postemployment restrictions applicable to Government officers and employees serving as procurement officials and certifications required from procurement officials leaving Government service.

(a) Subsection 27(e)(4) of the Act provides that if a procurement official leaves the Government during the conduct of a procurement expected to result in a contract or modification in excess of $100,000, such official shall certify to the contracting officer that he or she understands the continuing obligation, during the conduct of the procurement, not to disclose propriety or source selection information related to such agency procurement. This certification requirement also applies to individuals acting as procurement officials on behalf of the procuring activity who are, or are employed by, contractors, subcontractors, consultants, experts, or advisors other than employees of the competing contractor when such individuals, during the conduct of the procurement, cease to function as procurement officials for the procurement.

(b) Subsection 27(f)(1)(A) of the Act prohibits a current or former Government officer or employee, as defined in 3.104-4(d), who was a procurement official with respect to a particular procurement, from knowingly participating in any manner in negotiations as an officer, employee, representative, agent, or consultant of a competing contractor leading to the award or modification of the contract for such procurement. This restriction not only includes representing the competing contractor in negotiations with the contracting activity, but also includes providing advice or information for the specific purpose of influencing negotiation strategies. For purposes of this restriction, "negotiation strategies" mean the contractor's approach to the preparation and presentation of its offer or the conduct of negotiations with the Government. This restriction does not apply to providing scientific, technical, or other advice that is unrelated to negotiation strategies. This restriction lasts for 2 years from the date of the individual's last personal and substantial participation in the Federal agency procurement.

(c) Subsection 27(f)(1)(B) of the Act prohibits a current or former Government officer or employee, as defined in 3.104-4(d), who was a procurement official with respect to a particular procurement, from knowingly participating personally and substantially on behalf of the competing contractor in performance of the contract. To participate "personally and substantially" requires the presence of both direct and significant involvement in the performance of the specific contract. The performance of general engineering, scientific or technical work, or providing general budgetary or policy advice, shall not be considered personal and substantial participation on behalf of a competing contractor in the performance of the contract for which the Government officer or employee is or was a procurement official. Where participation is on behalf of a competing contractor who is a subcontractor, the significance of that participation will be determined in relation to the prime contract. This restriction lasts for 2 years from the date of the last personal and substantial participation in the Federal agency procurement.

(d) The restrictions in paragraphs (b) and (c) of this subsection do not apply to—

(1) Individuals acting as procurement officials on behalf of the procuring agency who are or were, or who are or were employed by, contractors, subcontractors, consultants, experts, or advisors and who are not Government officers or employees as defined in 3.104-4(d).

(2) Participation in the negotiation or performance of any other contract of the competing contractor.

(3) General scientific and technical work on an independent research and development project, unless such work involves the negotiation or performance of a specific contract that the individual worked on as a Government employee.

(4) Participation with respect to a subcontractor who is a competing contractor unless—

(i) The subcontractor is a first or second tier subcontractor and the subcontract is for an amount that is in excess of $100,000; or

(ii) The subcontractor significantly assisted the prime contractor with respect to negotiation of the prime contract; or

(iii) The procurement official involved in the award or modification of the prime contract personally directed or recommended the particular subcontractor as a source for the subcontract; or

(iv) The procurement official personally reviewed and approved the award or modification of the subcontract. A contracting officer's consent, in accordance with part 44, to the placement of a subcontract or, with respect to architect-engineer contracts, the substitution of a subcontractor, associate, or consultant, does not constitute approval of the subcontract, subcontractor, associate, or consultant. Similarly, approval of a contractor's purchasing system does not constitute approval of a particular subcontract or subcontractor.

(5) An individual who has been granted a waiver by the President in accordance with subsection 27(f)(3) of the Act. Waivers under that subsection may be granted only to a civilian officer or employee of the Executive Office of the President who, after his or her Federal Government employment is terminated, is or will be engaged in activities at a Government-owned, contractor-operated entity at which he or she served as an officer or employee immediately before his or her Federal Government employment began.

(6) An individual whose only personal and substantial participation in the procurement occurred during the period December 1, 1989, through November 30, 1990.

[55 FR 36789, Sept. 6, 1990]

3.104-8 Knowing violations, duty to inquire, and ethics advisory opinions.

(a) *Knowing violations.* Neither a procurement official nor a competing contractor violates the restrictions set forth in 3.104-3 unless the prohibited conduct is engaged in knowingly. For these purposes, conduct is not *knowing* when—

(1) A competing contractor engages in specific conduct after having satisfied the duty to inquire under paragraphs (b), (c), and (d) of this subsection, or when the competing contractor engages in conduct based upon good faith reliance on an agency ethics advisory opinion issued to a current or former procurement official under paragraph (e) of this subsection.

(2) A procurement official engages in specific conduct after having satisfied the duty to inquire under paragraphs (b), (c), and (d) of this subsection or has acted in good faith reliance on an ethics advisory opinion obtained under paragraph (e) of this subsection.

(b) *Duty to inquire—general.* (1) For some procurements, neither competing contractors nor all procurement officials will have knowledge as to when the conduct of a particular procurement has begun. However, certain conduct and activities that are prohibited by the Act would be inappropriate at any time. There are prohibitions on the receipt of gratuities from agency contractors that apply without regard to whether an employee is involved in the conduct of a particular procurement. Similarly, potential contractors should not solicit, and agency personnel should not offer, proprietary or source selection information at any time. However, potential contractors may offer, and Government employees may solicit, employment except as prohibited by law.

(2) Agency personnel shall be presumed to know the procurements for which they are procurement officials. Contractor personnel are presumed to know the procurements for which the organization they represent is reasonably likely to be competing. Individuals who do not know whether they are procurement officials, or whether the organization they represent is or is reasonably likely to become a competing contractor, should defer any discussions regarding employment until these questions are resolved by consulting appropriate parties within their respective organizations. Agency personnel who cannot ascertain, after discussions with the contracting officer, or the Source Selection Authority if the contracting officer is not the Source Selection Authority, whether they are procurement officials, may request an ethics advisory opinion under paragraph (e) of this subsection for purposes of determining their status.

(b) *Duty to inquire—employment discussions.* (1) A contractor who wishes to discuss employment opportunities with an individual whose duties and functions may make that individual a procurement official (see 3.104-4(h)) should ask if that individual is a procurement official for a procurement for which the contractor is a competing contractor or is likely to become a competing contractor before conducting any discussion related to employment. A competing contractor shall not be considered to have knowingly violated the prohibitions set forth in subsection 27(a)(1) of the Act (see 3.104-3(a)(1)) if the contractor has made an inquiry in good faith of the possible procurement official and has been advised that the individual is not a procurement official for any procurement for which the contractor is or is reasonably likely to become a competing contractor, or is advised that the procurement official has been recused from participation in the procurement in accordance with 3.104-6.

(2) A procurement official may not solicit or engage in employment or business opportunity discussions with a competing contractor or a contractor who is reasonably likely to become a competing contractor unless the procurement official has been recused from participation in the procurement in accordance with the procurements at 3.104-6.

(3) A procurement official who wishes to solicit employment from, or discuss employment with, a contractor and does not know if the contractor is or is reasonably likely to become a competing contractor should ask whether the contractor is or is reasonably likely to become a competing contractor on any procurement for which the individual is serving as a procurement official. The procurement official—

(i) May rely on the contractor's representation that it is not or is not likely to become a competing contractor, and enter into employment or business opportunity dicussions with that contractor; or

(ii) Shall not, if the contractor represents that it is or is reasonably likely to become a competing contractor, enter into employment or business opportunity dicussions with that contractor. If the procurement official is an eligible procurement official as defined at 3.104-6(c), and desires to pursue dicussions with that contractor, the procurement official must first seek and obtain written authorization for recusal in accordance with the procedures at 3.104-6 before entering into further dicussions with that contractor.

(4) A procurement official shall not be considered to have knowingly violated the prohibitions set forth in sub-

section 27(b)(1) of the Act (see 3.104-3(b)(1)) if—

(i) The procurement official has made inquiry in good faith of the potential contractor, and has been advised that the contractor is not or will not be a competing contractor on a procurement under the responsibility of the procurement official; or

(ii) The procurement official has been recused from participation in the procurement.

(d) *Duty to inquire-proprietary and source selection information.* (1) A competing contractor shall not be considered to have knowingly violated the prohibitions in subsection 27(a)(3) of the Act (see 3.104-3(a)(3)) if, before proprietary or source selection information was solicited or obtained, the contractor—

(i) Had made an inquiry in good faith of the contracting officer (or, if a contracting officer has not been appointed, the Head of the Agency or his or her designee) regarding whether information was proprietary or source selection information; and

(ii) Had been advised by such official that the information was not proprietary or source selection information.

(2) A procurement official shall not be considered to have knowingly violated the prohibitions in subsection 27(b)(3) of the Act (see 3.104-3(b)(3)) if, prior to disclosing information, the procurement official had made an inquiry in good faith of the contracting officer (or, if a contracting officer has not been appointed, the Head of the Agency or his or her designee) and had been advised that—

(i) The information was not proprietary or source selection information; or

(ii) The information is proprietary or source selection information and the individual to whom the procurement official wishes to disclose the information has been authorized access to such information by the Head of the Agency or the contracting officer.

(3) No person who is given authorized or unauthorized access to proprietary or source selection information shall be considered to have knowingly violated the prohibition in subsection 27(d) or the Act (see 3.104-3(c)) if, before disclosing such information, the person:

(i) Had made an inquiry in good faith of the contracting officer (or, if a contracting officer has not been appointed, the Head of the Agency or his or her designee) as to whether or not the individual to whom he seeks to diclose the proprietary or source selection information has been authorized access to such information by the Head of the Agency or the contracting officer; and

(ii) Had been adivsed by such official that such individual has been so authorized.

(e) *Ethics advisory opinions.* (1) An employee or former employee of an agency who is or was a procurement official may request an ethics advisory opinion from the agency ethics official as to whether specific conduct which has not yet occurred woudl violate section 27 of the Act. An individual who cannot determine, after dicussions with the contracting officer (see subparagraph (b)(2) of this subsection), if he or she is or was a procurement official may request an ethics advisory opionion for the purpose of determining his or her status. Ethics advisory opinions may not be obtained, however, for the purpose of establishing whether—

(i) Prior to bid opening or receipt of proposals, a particular contractor is a competing contractor;

(ii) Items of information constitute proprietary or source selection information as defined in 3.104-4; or

(iii) Proprietary or source selection information may be disclosed.

Questions regarding proprietary and source selection information shall be referred to the contracting officer or, if a contracting officer has not been appointed, the Head of the Agency or his or her designee (se subparagraphs (d)(1) through (d)(3) of this subsection). Questions regarding a contractor's status as a competing contractor shall be resolved in accordance with subparagraph (c)(3) of this subsection.

(2) The request for an advisory opinion shall be submitted in writing, shall be dated and signed, and shall include all information reasonably available to the procurement official or former

procurement official that is relevant to the inquiry. As a minimum, the request shall include—

(i) Information about the procurement in which the individual was or is involved, including contract or solicitation numbers, dates of solictation or award, and a description of the goods or services procured or to be procured;

(ii) Information about the individual's participation in the procurement, including the dates or time periods of that participation, and the nature of the individual's duties or responsibilities;

(iii) Information about the competing contractor who would be a party to the proposed conduct, and the nature of the competing contractor's interest in the procurement.

(iv) A description of the possible gratuity or other thing of value if the request concerns conduct that might violate the prohibition of subsection 27(b)(2) of the Act. It shall be the responsibility of the individual requesting an advisory opinion to furnish an appraisal or good faith estimate of market value where the value of an item is in question.

(v) Specific information about the particular duties to be performed on behalf of the competing contractor if the request concerns conduct that might violate either or both of the prohibitions of subsection 27(f) of the Act. Where the issue concerns whether employment with a subcontractor is permissible under subsection 27(f)(2), the request shall include information about the subcontract level and dollar amount, the subcontractor's role in assisting the prime contractor in negotiating the prime contract, and the individual's role in directing or recommending the subcontractor to the prime contractor as a source for the subcontract or reviewing and approving the award or modification of the subcontract.

(3) Within 30 days after the date a request containing complete information is received, or as soon thereafter as practicable, the agency ethics official shall issue an opinion as to whether proposed conduct is proper or would violate section 27 of the Act.

(i) Where complete information is not included in the request, the agency ethics official may ask the requester to provide any information reasonably available to that person, and the 30-day period will run from the date that additional information is received. Additional information may also be requested from other persons, including the Source Selection Authority, the contracting officer, or the requester's immediate supervisor.

(ii) Where the opinion cannot be issued within 30 days, the reason for the delay will be documented in the file. Acceptable reasons for delay include, but are not limited to, the necessity for the agency ethics official to independently develop information not reasonable available to the requester, or to verify questionably information furnished by the requester.

(iii) In issuing an opinion, the agency ethics official may rely upon the accuracy of information furnished by the requester or other agency sources, unless he has reason to believe that the information is fraudulent, misleading, or otherwise incorrect.

(4) A copy of the request and ethics advisory opinion shall be retained for a period of 6 years. Agencies shall not provide copies of the advisory opinions to any person other than the requester, except with the express authorization of the requester or where release is otherwise permitted by law.

(5) Where the requester engages in conduct in good faith reliance upon an ethics advisory opinion, or a competing contractor engages in conduct based upon good faith reliance on the requester's ethics advisory opinion, neither the requester nor the competing contractor shall be found to have knowingly violated the restriction in issue. Where the requester or the competing contractor has actual knowledge or reason to believe that the opinion is based upon fraudulent, misleading, or otherwise incorrect information provided by the requester, their reliance upon the opinion will not be deemed to be in good faith.

[55 FR 36790, Sept. 6, 1990]

3.104-9 Certification requirements.

(a) *Applicability.* Subsection 27(e) of the Act requires certifications, prior to the award of a Federal agency contract or contract modification for property or services in excess of $100,000 awarded or executed on or after December 1, 1990, by the officer or employee of the contractor responsible for the offer or bid for that particular contract or contract modification for property or services, and by the contracting officer for that procurement.

(b) *Competing contractor certification.* (1) Except as provided in 3.104-9(f), contracting officers shall require the competing contractor to—

(i) Certify in writing to the contracting officer responsible for the procurement that, to the best of his or her knowledge and belief, such officer or employee of the competing contractor has no information concerning a violation or possible violation of subsections 27 (a), (b), (d), or (f) of the Act (see 3.104-3) as implemented in the FAR; or

(ii) Disclose to such contracting officer any and all such information, and certify in writing to such contracting officer that any and all such information has been disclosed; and

(iii) Certify in writing to such contracting officer that, to the best of his or her knowledge and belief, each officer, employee, agent, representative, and consultant of such competing contractor who, on or after December 1, 1990, has participated personally and substantially in the preparation or submission of such bid or offer, or in a modification of a contract, as the case may be, has certified in writing to such competing contractor that he or she—

(A) Is familiar with, and will comply with, the requirements of subsection 27(a) of the Act (see 3.104-3) as implemented in the FAR; and

(B) Will report immediately to the officer or employee of the competing contractor responsible for the offer or bid for any contract or the modification of a contract, as the case may be, any information concerning a violation or possible violation of subsections 27 (a), (b), or (f) of the Act (see 3.104-3), occuring on or after December 1, 1990, as implemented in the FAR.

(2) Subcontractors are not required to submit the certificate required by subsection 27(e)(1) of the Act. However, nothing in 3.104 precludes a competing contractor from requesting certifications from its subcontractors.

(3) The signed certifications prescribed in 3.104-10 shall be submitted as follows:

(i) *Procurements exceeding $100,000 using sealed bidding procedures:* (A) For procurements using sealed bidding procedures, the signed certifications shall be submitted by each bidder with the bid submission, except for procurements using two-step sealed bidding procedures (see subpart 14.5). For those procurements, the certifications shall be submitted with submission of the step two sealed bids. A certificate is not required for indefinite delivery contracts (see subpart 16.5) unless the total estimated value of all orders eventually to be placed under the contract is expected to exceed $100,000.

(B) For contracts and contract modifications which include options, a certificate is required when the aggregate value of the contract or contract modification and all options (see 3.104-4(e)) exceeds $100,000.

(C) Failure of a bidder to submit the signed certificate with its bid render the bid nonresponsive.

(ii) *Procurements exceeding $100,000 using other than sealed bidding procedures:* (A) For procurements, including contract modifications, made using procedures other than sealed bidding, the signed certifications shall be submitted by the successful offeror to the contracting officer within the time period specified by the contracting officer when requesting the certificates, except as provided in subdivisions (b)(3)(ii) (B) through (F) of this subsection. In no event shall the certificate be submitted subsequent to award of a contract or execution of a contract modification.

(B) For letter contracts, other unpriced contracts, or unpriced contract modifications, whether or not the unpriced contract or modification contains a maximum or not to exceed price, the signed certifications shall be submitted prior to the award of the letter contract, unpriced contract, or unpriced contract modification, and prior to the definitization of the letter contract or the establishment of the price of the unpriced contract or unpriced contract modification. The second certification shall apply only to the period between award of the letter contract and execution of the document definitizing the letter contract, or award of the unpriced contract or unpriced contract modification and execution of the document establishing the definitive price of such unpriced contract or unpriced contract modification.

(C) For basic ordering agreements—prior to the execution of a priced order; prior to the execution of an unpriced order, whether or not the unpriced order contains a maximum or not to exceed price; and prior to establishing the price of an unpriced order. The second certificate to be submitted for unpriced orders shall apply only to the period between award of the unpriced order and execution of the document establishing the definitive price for such order.

(D) A certificate is not required for indefinite delivery contracts (see subpart 16.5) unless the total estimated value of all orders eventually to be placed under the contract is expected to exceed $100,000.

(E) For contracts and contract modifications which include options, a certificate is required when the aggregate value of the contract or contract modification and all options exceeds $100,000.

(F) For purposes of contracts entered into under section 8(a) of the SBA, the business entity with whom the SBA contracts, and not the SBA, shall be required to comply with the certification requirements of subsection 27(e). The SBA shall obtain the signed certificate from the business entity, and forward the certificate to the contracting officer prior to the award of a contract to the SBA.

(G) Failure of an offeror to submit the signed certificate within the time prescribed by the contracting officer is a failure to comply with a material requirement of the solicitation and shall cause the offer to be rejected.

(c) *Contracting officer certifications.* (1) In accordance with subsection 27(e)(2) of the Act, a Federal agency may not award a contract for the procurement of property or services, or agree to a modification of any contract, if the contract or contract modification exceeds $100,000, unless the contracting officer responsible for such procurement—

(i) Certifies in writing to the head of such agency that, to the best of his or her knowledge and belief, the contracting officer has no information concerning a violation or possible violation of subsections 27 (a), (b), (d), or (f) of the Act (see 3.104-3), as implemented in the FAR, pertaining to such procurement; or

(ii) Discloses to the head of such agency any and all such information and certifies in writing that any and all such information has been disclosed.

(2) Immediately prior to contract award or execution of a contract modification, the contracting officer shall execute the following certificate and maintain the completed certificate in the contract file:

CONTRACTING OFFICER CERTIFICATE OF PROCUREMENT INTEGRITY

1. I, [*Name of contracting officer*], hereby certify that, to the best of my knowledge and belief, with the exception of any information described in this certificate, have no information concerning a violation or possible violation of subsection (a), (b), (d), or (f) of section 27 of the Office of Federal Procurement Policy Act* (41 U.S.C. 423), as implemented in the FAR, occurring during the conduct of this procurement (contract/modification number).

2. Violations or possible violations: (Continue on plain bond paper if necessary, and label Contracting Officer Certificate of Procurement Integrity (Continuation Sheet), ENTER "NONE" IF NONE EXISTS.)

____

____

____

(Signature of contracting officer and date)

*Section 27, as amended, became effective on December 1, 1990. THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER TITLE 18, UNITED STATES CODE, SECTION 1001.

(End of certification)

(d) *Additional certifications.* (1) Subsection 27(e)(3) of the Act provides that the head of a Federal agency may require any procurement official or any competing contractor, at any time during the conduct of any Federal agency procurement of property or services—

(i) To certify in writing that, to the best of his or her knowledge and belief, such procurement official or the officer or employee of the competing contractor responsible for the offer or bid for a contract or the modification of a contract, has no information concerning a violation or possible violation of subsections 27 (a), (b), (d), and (f) of the Act (see 3.104-3), as implemented in the FAR, occurring during the procurement; or

(ii) To disclose any and all such information and to certify in writing that any and all such information has been disclosed.

(2) In addition to the Head of the Agency, additional certifications may be required only by the HCA or his or her designee, provided that the designee is an individual of General Officer, Flag, SES or equivalent rank and is at least one organizational level above the contracting officer.

(3) Any additional certifications shall be submitted to the contracting officer unless another person is specified by the individual requiring the additional certifications.

(4) Each procurement official or competing contractor shall be afforded a reasonable time to comply with the additional certification requirements.

(5) A competing contractor's failure to submit any additional certifications that may be required shall cause the competing contractor's offer to be rejected.

(e) *Recordkeeping requirements.* (1) In accordance with subsections 27(e)(5) (A) and (B) and 27(e)(7)(A) of the Act, the contracting officer responsible for the award or modification of a contract in excess of $100,000 shall maintain, as part of the contract file—

(i) All competing contractor, contracting officer, and procurement official certifications required by subsections 27 (e)(1), (e)(2), and (e)(4) of the Act, and any additional certifications required by subsection 27(e)(3) of the Act for that particular procurement.

(ii) All certifications required by subsection 27(l) of the Act (see 3.104-12) from individuals acting as procurement officials on behalf of the procuring agency, who are, or are employed by, contractors, subcontractors, consultants, experts, or advisors (other than competing contractors).

(iii) A record of all persons who have been authorized by the Head of the Agency or the contracting officer to have access to proprietary or source selection information regarding the procurement. When classes of persons have been authorized, this record shall identify the class of persons so authorized and, to the maximum extent practicable, the names of the individuals within the class.

(2) Certifications obtained from Government officers or employees (see 3.104-4(d)) who are required to submit a certification under subsection 27(l) of the Act shall be maintained in accordance with agency procedures.

(3) Ethics advisory opinions shall be retained, in accordance with agency procedures, for a period of 6 years.

(f) *Exceptions to certification requirements.* Pursuant to subsection 27(e)(7)(B) of the Act, certification requirements set forth in 3.104-9 do not apply—

(1) To contracts with a foreign government or an international organization that are not required to be awarded using competitive procedures pursuant to section 303(c)(4) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(c)(4)), or section 2304(c)(4) of title 10 U.S.C.; or

(2) In an exceptional case, when the Head of the Agency concerned determines in writing that the certification requirement should be waived. This authority may not be delegated. The contracting officer shall submit the request for waiver in accordance with agency procedures. The request shall clearly identify the procurement or class of procurements and provide the rationale for the requested waiver. The decision of the agency head shall state the reasons for approving or disapproving the waiver. The agency

head shall promptly notify Congress in writing of each waiver approved. Procurements for which a waiver may be appropriate include—

(i) Where prices are set by law or regulation;

(ii) Where terms and conditions of a contract are specified by an agreement with a foreign government or governments;

(iii) Where supplies or services are provided by foreign nationals to United States facilities overseas for use outside the United States;

(iv) Where a foreign government specifies a particular U.S. contractor to satisfy its requirements (see 6.302-4(b)(1)).

[55 FR 36792, Sept. 6, 1990]

3.104-10 Solicitation provision and contract clauses.

(a) The contracting officer shall insert the provision at 52.203-8, Requirement for Certificate of Procurement Integrity, in all solicitations where the resultant contract award is expected to exceed $100,000, unless, pursuant to 3.104-9(f), a certification is not required or a waiver has been granted. For procurements using other than sealed bidding procedures, the contracting officer shall substitute Alternate I for paragraph (c) of that provision.

(b) The contracting officer shall insert the clause at 52.203-9, Requirement for Certificate of Procurement Integrity-Modification, in all solicitations where the resultant contract award is expected to exceed $100,000, all contracts in excess of $100,000, and modifications to contracts which do not already contain the clause when the modification is expected to exceed $100,000, unless, pursuant to 3.104-9(f), a certificate is not required or a waiver has been granted.

(c) The contracting officer shall insert the clause at 52.203-10, Price or Fee Adjustment for Illegal or Improper Activity, in all solicitations where the resultant contract award is expected to exceed the small purchase limitation (see 13.000) and all contracts and modifications to contracts exceeding that limitation which do not already contain the clause when the modification is expected to exceed that limitation.

(d) The contracting officer shall insert the clause at 52.203-13, Procurement Integrity-Service Contracting, in all solicitations and contracts where the Government is procuring or may order the services of contractor employees to serve as procurement officials for another agency procurement. In addition, the contracting officer shall insert the provisions and clauses at 52.203-8, 52.203-9, and 52.203-10 in such solicitations and contracts as prescribed in this subsection.

[55 FR 36793, Sept. 6, 1990]

3.104-11 Processing violations or possible violations.

(a) If the contracting officer makes or receives a disclosure of information pursuant to subsection 27(e) of the Act or otherwise receives or obtains information of a violation or possible violation of subsections 27 (a), (b), (d), or (f) of the Act (see 3.104-3), the contracting officer shall determine whether the reported violation or possible violation has any impact on the pending award or selection of the source therefor.

(1) If the contracting officer concludes that there is no impact on the procurement, the contracting officer shall forward the information concerning the violation or possible violation, accompanied by appropriate documentation supporting that conclusion, to an individual designated in accordance with agency procedures. With the concurrence of that individual, the contracting officer shall, without further approval, proceed with the procurement. The individual concurring with that conclusion shall forward all information relating to the violation or possible violation to the HCA, or his or her designee, to satisfy the disclosure requirements of subsection 27(e)(2) of the Act.

(2) If the individual reviewing the contracting officer's conclusion does not agree with that conclusion, he or she shall advise the contracting officer to withhold award and shall promptly forward the information and documentation to the HCA or his or her designee.

(3) If the contracting officer determines that the violation or possible violation impacts the procurement, the contracting officer shall promptly forward the information to the HCA or his or her designee.

(b) The HCA or his or her designee receiving any information describing an actual or possible violation of subsection 27 (a), (b), (d), or (f) of the Act, shall review all information available and take appropriate action in accordance with agency procedures, such as—

(1) Advising the contracting officer to continue with the procurement;

(2) Causing an investigation to be conducted;

(3) Referring the information disclosed to appropriate criminal investigative agencies;

(4) Determining that a violation occurred.

(c) Prior to determining that a competing contractor (see 3.104-4(b)) has violated the Act, the HCA or his or her designee may request information from appropriate parties regarding the violation or possible violation when considered in the best interests of the Government.

(d) If the HCA or his or her designee determines that the prohibitions of section 27 of the Act have been violated, then the HCA or his or her designee may direct the contracting officer to—

(1) If a contract has not been awarded, or a contract modification has not been executed—

(i) Cancel the procurement;

(ii) Disqualify an offeror; or

(iii) Take any other appropriate actions in the interests of the Government.

(2) If a contract has been awarded or a contract modification has been executed—

(i) Effect appropriate contractual remedies, including profit recapture as provided for in the clause at 52.203-10, Price or Fee Adjustment for Illegal or Improper Activity;

(ii) Void or rescind the contract, or contract modification; or

(iii) Take any other appropriate actions in the best interests of the Government.

(3) Refer the matter to the agency suspension and debarment official.

(e) The HCA or his or her designee shall, in his or her best judgment, recommend or direct an administrative or contractual remedy commensurate with the severity and effect of the violation.

(f) If the HCA or his or her designee receiving information concerning a violation or possible violation determines that award is justified by urgent and compelling circumstances, or is otherwise in the interests of the Government, he or she may authorize the contracting officer to award the contract or execute the contract modification after notification to the Head of the Agency in accordance with agency procedures.

(g) The designee of the HCA referenced in paragraphs (a), (b), (c), (d), and (e) of this subsection must be an individual at least one organizational level above the contracting officer and be of General Officer, Flag, SES or equivalent rank.

[55 FR 36794, Sept. 6, 1990]

3.104-12 Ethics program training requirements.

(a) Subsection 27(l) of the Act provides that the head of each Federal agency shall establish a procurement ethics training program for its procurement officials. The program shall, as a minimum—

(1) Provide for the distribution of a written explanation of subsections 27 (a) through (f) of the Act to such procurement officials; and

(2) Require each such procurement official, as a condition of serving as a procurement official, to certify in writing that he or she is familiar with the provisions of subsections 27 (b), (c), and (e) of the Act and will not engage in any conduct prohibited by such subsections, and will report immediately to the contracting officer any information concerning a violation or possible violation of subsection 27 (a), (b), (d), or (f) of the Act as implemented in the FAR.

(3) Certification made under section 27 as originally enacted and implemented in the FAR do not satisfy the certification requirements of subpara-

graph (a)(2) of this subsection. Agencies may use Optional Form 333 at 53.302-333 to obtain the certifications required by subparagraph (a)(2) of this subsection.

(b) Contractors, subcontractors, consultants, experts, or advisors (other than competing contractors) are responsible for establishing a procurement ethics training program for individuals in their employ who may serve as procurement officials on behalf of a Federal agency. The program shall, as a minimum, comply with subparagraphs (a)(1) and (a)(2) of this subsection.

[55 FR 36794, Sept. 6, 1990]

Subpart 3.2—Contractor Gratuities to Government Personnel

3.201 Applicability.

This subpart applies to all executive agencies, except that coverage concerning exemplary damages applies only to the Department of Defense (10 U.S.C. 2207).

3.202 Contract clause.

The contracting officer shall insert the clause at 52.203-3, Gratuities, in solicitations and contracts, except those for personal services and those between military departments or defense agencies and foreign governments that do not obligate any funds appropriated to the Department of Defense.

3.203 Reporting suspected violations of the Gratuities clause.

Agency personnel shall report suspected violations of the Gratuities clause to the contracting officer or other designated official in accordance with agency procedures. The agency reporting procedures shall be published as an implementation of this section 3.203 and shall clearly specify—

(a) What to report and how to report it; and

(b) The channels through which reports must pass, including the function and authority of each official designated to review them.

3.204 Treatment of violations.

(a) Before taking any action against a contractor, the agency head or a designee shall determine, after notice and hearing under agency procedures, whether the contractor, its agent, or another representative, under a contract containing the Gratuities clause—

(1) Offered or gave a gratuity (e.g., an entertainment or gift) to an officer, official, or employee of the Government; and

(2) Intended by the gratuity to obtain a contract or favorable treatment under a contract (intent generally must be inferred).

(b) Agency procedures shall afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents. The procedures should be as informal as practicable, consistent with principles of fundamental fairness.

(c) When the agency head or designee determines that a violation has occurred, the Government may—

(1) Terminate the contractor's right to proceed;

(2) Initiate debarment or suspension measures as set forth in subpart 9.4; and

(3) Assess exemplary damages, if the contract uses money appropriated to the Department of Defense.

Subpart 3.3—Reports of Suspected Antitrust Violations

3.301 General.

(a) Practices that eliminate competition or restrain trade usually lead to excessive prices and may warrant criminal, civil, or administrative action against the participants. Examples of anticompetitive practices are collusive bidding, follow-the-leader pricing, rotated low bids, collusive price estimating systems, and sharing of the business.

(b) Contracting personnel are an important potential source of investigative leads for antitrust enforcement and should therefore be sensitive to indications of unlawful behavior by offerors and contractors. Agency personnel shall report, in accordance with agency regulations, evidence of suspected antitrust violations in acquisitions for possible referral to (1) the Attorney General under 3.303 and (2) the agency office responsible for contractor debarment and suspension under subpart 9.4.

[48 FR 42108, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

3.302 Definitions.

Identical bids means bids for the same line item that are determined to be identical as to unit price or total line item amount, with or without the application of evaluation factors (e.g., discount or transportation cost).

Line item means an item of supply or service, specified in an invitation for bids, for which the bidder must bid a separate price.

[49 FR 12974, Mar. 30, 1984]

3.303 Reporting suspected antitrust violations.

(a) Agencies are required by 41 U.S.C. 253(B)(e) and 10 U.S.C. 2305(b)(5) to report to the Attorney General any bids or proposals that evidence a violation of the antitrust laws. These reports are in addition to those required by subpart 9.4.

(b) The antitrust laws are intended to ensure that markets operate competitively. Any agreement or mutual understanding among competing firms that restrains the natural operation of market forces is suspect. Paragraph (c) below identifies behavior patterns that are often associated with antitrust violations. Activities meeting the descriptions in paragraph (c) are not necessarily improper, but they are sufficiently questionable to warrant notifying the appropriate authorities, in accordance with agency procedures.

(c) Practices or events that may evidence violations of the antitrust laws include—

(1) The existence of an *industry price list* or *price agreement* to which contractors refer in formulating their offers;

(2) A sudden change from competitive bidding to identical bidding;

(3) Simultaneous price increases or follow-the-leader pricing;

(4) Rotation of bids or proposals, so that each competitor takes a turn in sequence as low bidder, or so that certain competitors bid low only on some sizes of contracts and high on other sizes;

(5) Division of the market, so that certain competitors bid low only for contracts let by certain agencies, or for contracts in certain geographical areas, or on certain products, and bid high on all other jobs;

(6) Establishment by competitors of a collusive price estimating system;

(7) The filing of a joint bid by two or more competitors when at least one of the competitors has sufficient technical capability and productive capacity for contract performance;

(8) Any incidents suggesting direct collusion among competitors, such as the appearance of identical calculation or spelling errors in two or more competitive offers or the submission by one firm of offers for other firms; and

(9) Assertions by the employees, former employees, or competitors of offerors, that an agreement to restrain trade exists.

(d) Identical bids shall be reported under this section if the agency has some reason to believe that the bids resulted from collusion.

(e) For offers from foreign contractors for contracts to be performed outside the United States, contracting officers may refer suspected collusive offers to the authorities of the foreign government concerned for appropriate action.

(f) Agency reports shall be addressed to the Attorney General, U.S. Department of Justice, Washington, DC 20530, Attention: Assistant Attorney General, Antitrust Division, and shall include—

(1) A brief statement describing the suspected practice and the reason for the suspicion; and

(2) The name, address, and telephone number of an individual in the agency who can be contacted for further information.

(g) Questions concerning this reporting requirement may be communicated by telephone directly to the Office of the Assistant Attorney General, Antitrust Division.

[48 FR 42108, Sept. 19, 1983, as amended at 49 FR 12974, Mar. 30, 1984; 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 25526, June 21, 1990]

Subpart 3.4—Contingent Fees

3.400 Scope of subpart.

This subpart prescribes policies and procedures that restrict contingent fee arrangements for soliciting or obtaining Government contracts to those permitted by 10 U.S.C. 2306(b) and 41 U.S.C. 254(a).

3.401 Definitions.

Bona fide agency, as used in this subpart, means an established commercial or selling agency, maintained by a contractor for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds itself out as being able to obtain any Government contract or contracts through improper influence.

Bona fide employee, as used in this subpart, means a person, employed by a contractor and subject to the contractor's supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds out as being able to obtain any Government contract or contracts through improper influence.

Contingent fee, as used in this subpart, means any commission, percentage, brokerage, or other fee that is contingent upon the success that a person or concern has in securing a Government contract.

Improper influence, as used in this subpart, means any influence that induces or tends to induce a Government employee or officer to give consideration or to act regarding a Government contract on any basis other than the merits of the matter.

3.402 Statutory requirements.

Contractors' arrangements to pay contingent fees for soliciting or obtaining Government contracts have long been considered contrary to public policy because such arrangements may lead to attempted or actual exercise of improper influence. In 10 U.S.C. 2306(b) and 41 U.S.C. 254(a), Congress affirmed this public policy but permitted certain exceptions. These statutes—

(a) Require in every negotiated contract a warranty by the contractor against contingent fees;

(b) Permit, as an exception to the warranty, contingent fee arrangements between contractors and bona fide employees or bona fide agencies; and

(c) Provide that, for breach or violation of the warranty by the contractor, the Government may annul the contract without liability or deduct from the contract price or consideration, or otherwise recover, the full amount of the contingent fee.

3.403 Applicability.

This subpart applies to all contracts. Statutory requirements for negotiated contracts are, as a matter of policy, extended to sealed bid contracts.

[48 FR 42108, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

3.404 Solicitation provision and contract clause.

(a) Prospective contractors are generally required to disclose contingent fee arrangements, other than those with full-time bona fide employees working solely for the prospective contractor, in order to permit the Government to evaluate the arrangements before award.

(b) The contracting officer shall insert the provision at 52.203-4, Contingent Fee Representation and Agreement, in solicitations, except when—

(1) Contracting by sealed bidding, and the contract amount is expected to be $25,000 or less;

(2) The contract amount is not expected to exceed the appropriate small purchase limitation in part 13;

(3) The solicitation is for perishable subsistence supplies, and the contract amount is expected to be $25,000 or less;

(4) The solicitation is for personal services to be paid for on a time basis;

(5) The solicitation is for utility services, at rates regulated by Federal,

State, or other regulatory bodies, from a public utility company that is the sole source;

(6) The award under the solicitation is to be made in a foreign country; or

(7) Any other Department of Defense contracts, individually or by class, have been designated by the Secretary for exception. Reports of such exceptions shall be filed promptly with the Administrator of General Services Administration.

(c) The contracting officer shall insert the clause at 52.203-5, Covenant Against Contingent Fees, in all solicitations and contracts.

[48 FR 42108, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

3.405 Review of Contingent Fee Representation and Agreement.

(a) Prospective contractors may not use any claimed professional or special relationship (other than that of a full-time bona fide employee working solely for the prospective contractor) as a basis for nondisclosure of contingent fee arrangements. The fact that a fee is for information does not exclude it from the definition of contingent fee.

(b) Contracting officers shall review each prospective contractor's offer or quotation and take the following actions:

(1) Ensure that the prospective contractor has completed both subparagraph (a)(1) and (a)(2) of the solicitation provision at 52.203-4, Contingent Fee Representation and Agreement.

(2) Consider failure to complete the representation a minor informality and afford the prospective contractor another opportunity to comply.

(3) If the prospective contractor still does not furnish the representation, reject the offer or quotation.

(4) If the prospective contractor answered subparagraphs (a)(1) and (a)(2) of the representation negatively, accept the representation, unless there is a reason to question its accuracy, and proceed with the contractual action.

(5) If the prospective contractor has answered subparagraph (a)(1) or (a)(2) affirmatively, secure a completed Standard Form 119, Statement of Contingent or Other Fees (see 53.301-119), or the statement authorized by the representation and agreement.

3.406 Award before receipt of the SF 119.

Contracting officers may award sealed bid contracts before receipt of the SF 119 or the statement. Negotiated contracts may not be awarded before receipt and evaluation of the SF 119 or statement, unless specifically approved by the chief of the contracting office.

[48 FR 42108, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

3.407 Failure or refusal to furnish the SF 119.

If the prospective contractor fails or refuses to furnish the SF 119 or the statement in response to the contracting officer's request, the chief of the contracting office shall determine whether to make further efforts to secure the SF 119 or statement or to initiate appropriate actions under 3.409.

3.408 Evaluation of the SF 119.

3.408-1 Responsibilities.

(a) The contracting officer shall evaluate the SF 119 and all related information to determine—

(1) Whether a contingent fee arrangement exists between the prospective contractor and a person or company other than a full-time bona fide employee working solely for the prospective contractor; and

(2) When such a contingent fee arrangement does exist, whether it meets the statutory exception permitting contingent fee arrangements with bona fide employees or agencies.

(b) The contracting officer's documentation of the evaluation, conclusion, and any proposed actions shall be reviewed at a level above the contracting officer in accordance with agency procedures.

3.408-2 Evaluation criteria.

(a) *Improper influence.* By definition (see 3.401), a bona fide employee or bona fide agency neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts. If the contracting officer decides that there is a reasonable basis to conclude that improper influence has been or will be exerted or proposed, or that the employee or agency has held out as being able to obtain any Government contract or contracts through improper influence, the employee or agency shall not be considered bona fide.

(b) *Bona fide employee.* An employee may be bona fide but not work on a full-time basis solely for the contractor (e.g., small business concerns may need to employ persons who also represent other concerns). Prospective contractors must disclose such arrangements in the representation and agreement and submit the SF 119 or the statement. However, contingent compensation arrangements with bona fide employees, customary in the trade, are within the statutory exception and are not prohibited. In determining whether an employee is bona fide, the contracting officer shall—

(1) Compare the employment arrangement to the definition of bona fide employee in 3.401;

(2) Consider the criteria in subparagraphs (c)(1), (2), and (5) below, as appropriate; and

(3) Consider the continuity of employment. The employment must contemplate some continuity and not be solely for obtaining one or more specific Government contracts.

(c) *Bona fide agency.* The following guidelines are intended to help contracting officers determine whether an agency is a *bona fide agency,* as defined in 3.401. They describe circumstances ordinarily existing in acceptable arrangements in which the agency is bona fide. However, the guidelines are not individually or collectively inviolable rules. The contracting officer must evaluate each arrangement in its totality, including attendant facts and circumstances.

(1) The fee should not be inequitable or exorbitant when compared to the services performed or to customary fees for similar services related to commercial business.

(2) The agency should have adequate knowledge of the contractor's products and business, as well as other qualifications necessary to sell the products or services on their merits.

(3) The contractor and the agency should have a continuing relationship or, in newly established relationships, should contemplate future continuity.

(4) The agency should be an established concern that has existed for a considerable period, or be a newly established going concern likely to continue in the future. The business of the agency should be conducted in the agency name and characterized by the customary indicia of the conduct of regular business.

(5) While an agency that confines its selling activities to Government contracts is not disqualified, the fact that an agency represents the contractor in Government and commercial sales should receive favorable consideration.

3.409 Misrepresentations or violations of the Covenant Against Contingent Fees.

(a) Government personnel who suspect or have evidence of attempted or actual exercise of improper influence, misrepresentation of a contingent fee arrangement, or other violation of the Covenant Against Contingent Fees shall report the matter promptly to the contracting officer or appropriate higher authority in accordance with agency procedures.

(b) When there is specific evidence or other reasonable basis to suspect one or more of the violations in paragraph (a) above, the chief of the contracting office shall review the facts and, if appropriate, take or direct one or more of the following, or other, actions:

(1) If before award, reject the bid or proposal.

(2) If after award, enforce the Government's right to annul the contract or to recover the fee.

(3) Initiate suspension or debarment action under subpart 9.4.

(4) Refer suspected fraudulent or criminal matters to the Department of Justice, as prescribed in agency regulations.

3.410 Records.

For enforcement purposes, agencies shall preserve any representation and the original SF 119 or statement, together with all other pertinent data, including a record of actions taken. Contracting offices shall not retire or destroy these records until it is certain that they are no longer needed for enforcement purposes. If the original record is maintained in a central file, a copy must be retained in the contract file.

Subpart 3.5—Other Improper Business Practices

3.501 Buying-in.

3.501-1 Definition.

Buying-in means submitting an offer below anticipated costs, expecting to—

(a) Increase the contract amount after award (e.g., through unnecessary or excessively priced change orders); or

(b) Receive follow-on contracts at artificially high prices to recover losses incurred on the buy-in contract.

3.501-2 General.

(a) Buying-in may decrease competition or result in poor contract performance. The contracting officer must take appropriate action to ensure buying-in losses are not recovered by the contractor through the pricing of (1) change orders or (2) follow-on contracts subject to cost analysis.

(b) The Government should minimize the opportunity for buying-in by seeking a price commitment covering as much of the entire program concerned as is practical by using—

(1) Multiyear contracting, with a requirement in the solicitation that a price be submitted only for the total multiyear quantity; or

(2) Priced options for additional quantities that, together with the firm contract quantity, equal the program requirements (see subpart 17.2).

(c) Other safeguards are available to the contracting officer to preclude recovery of buying-in losses (e.g., amortization of nonrecurring costs (see 15.804-6(f)) and treatment of unreasonable price quotations (see 15.803(d)).

3.502 Subcontractor kickbacks.

3.502-1 Definitions.

Kickback, as used in this section, means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided, directly or indirectly, to any prime contractor, prime contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a subcontract relating to a prime contract.

Person, as used in this section, means a corporation, partnerhsip, business association of any kind, trust, joint-stock company, or individual.

Prime contract, as used in this section, means a contract or contractual action entered into by the United States for the purpose of obtaining supplies, materials, equipment, or services of any kind.

Prime Contractor, as used in this section, means a person who has entered into a prime contract with the United States.

Prime Contractor employee, as used in this section, means any officer, partner, employee, or agent of a prime contractor.

Subcontract, as used in this section, means a contract or contractural action entered into by a prime contractor or subcontractor for the purpose of obtaining supplies, materials, equipment, or service of any kind under a prime contract.

Subcontractor, as used in this section, (a) means any person, other than the prime contractor, who offers to furnish or furnishes any supplies, materials, equipment, or services of any kind under a prime contract or a subcontract entered into in connection with such prime contract, and (b) includes any person who offers to furnish or furnishes general supplies to the prime contractor or a higher tier subcontractor.

Subcontractor employee, as used in this section, means any officer, partner, employee, or agent of a subcontractor.

[52 FR 6121, Feb. 27, 1987, as amended at 53 FR 34226, Sept. 2, 1988]

3.502-2 General.

The Anti-Kickback Act of 1986 (41 U.S.C. 51-58) was passed to deter subcontractors from making payments and contractors from accepting payments for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or a subcontract relating to a prime contract. The Act—

(a) Prohibits any person from—

(1) Providing, attempting to provide, or offering to provide any kickback;

(2) Soliciting, accepting, or attempting to accept any kickbacks; or

(3) Including, directly or indirectly, the amount of any kickback in the contract price charged by a subcontractor to a prime contractor or a higher tier subcontractor or in the contract price charged by a prime contractor to the United States.

(b) Imposes criminal penalties on any person who knowingly and willfully engages in the prohibited conduct addressed in paragraph (a) of this subsection.

(c) Provides for the recovery of civil penalties by the United States from any person who knowingly engages in such prohibited conduct and from any person whose employee, subcontractor, or subcontractor employee provides, accepts, or charges a kickback.

(d) Provides that—

(1) The contracting officer may offset the amount of a kickback against monies owed by the United States to the prime contractor under the prime contract to which such kickback relates;

(2) The contracting officer may direct a prime contractor to withhold from any sums owed to a subcontract under a subcontractor of the prime contract the amount of any kickback which was or may be offset against the prime contractor under subparagraph (d)(1) of this subsection; and

(3) An offset under subparagraph (d)(1) or a direction under subparagraph (d)(2) of this subsection is a claim by the Government for the purposes of the Contract Disputes Act of 1978.

(e) Authorizes contracting officers to order that sums withheld under subparagraph (d)(2) of this subsection be paid to the contracting agency, or if the sum has already been offset against the prime contractor, that it be retained by the prime contractor.

(f) Requires the prime contractor to notify the contracting officer when the withholding under subparagraph (d)(2) of this subsection has been accomplished unless the amount withheld has been paid to the Government.

(g) Requires a prime contractor or subcontractor to report in writing to the inspector general of the contracting agency, the head of the contracting agency if the agency does not have an inspector general, or the Department of Justice any possible violation of the Act when the prime contractor or subcontractor has reasonable grounds to believe such violation may have occurred.

(h) Provides that, for the purpose of ascertaining whether there has been a violation of the Act with respect to any prime contract, the General Accounting Office and the inspector general of the contracting agency, or a representative of such contracting agency designated by the head of such agency if the agency does not have an inspector general, shall have access to and may inspect the facilities and audit the books and records, including any electronic data or records, of any prime contractor or subcontractor under a prime contract awarded by such agency.

(i) Requires each contracting agency to include in each prime contract a requirement that the prime contractor shall—

(1) Have in place and follow reasonable procedures designed to prevent and detect violations of the Act in its own operations and direct business relationships (e.g., company ethics rules prohibiting kickbacks by employees, agents, or subcontractors; education programs for new employees and subcontractors, explaining policies against kickbacks, related company procedures and the consequences of detection; procedures requiring subcontractors to certify they have not paid kickbacks; procurement procedures to min-

imize the opportunity for kickbacks; audit procedures designed to detect kickbacks; periodic surveys of subcontractors to elicit information about kickbacks; procedures to report kickbacks to law enforcement officials; annual declarations by employees of gifts or gratuities received from subcontractors; annual employee declarations that they have violated no company ethics rules; personnel practices that document unethical or illegal behavior and make such information available to prospective employers); and

(2) Cooperate fully with any Federal agency investigating a possible violation of the Act.

[52 FR 6121, Feb. 27, 1987; 52 FR 9989, Mar. 27, 1987, as amended at 53 FR 34226, Sept. 2, 1988]

3.502-3 Contract clause.

The contracting officer shall insert the clause at 52.203-7, Anti-Kickback Procedures, in all solicitations and contracts.

[52 FR 6121, Feb. 27, 1987]

3.503 Unreasonable restrictions on subcontractor sales.

3.503-1 Policy.

10 U.S.C. 2402 and 41 U.S.C. 253(g) require that subcontractors not be unreasonably precluded from making direct sales to the Government of any supplies or services made or furnished under a contract. However, this does not preclude contractors from asserting rights that are otherwise authorized by law or regulation.

[50 FR 35475, Aug. 30, 1985, and 51 FR 27116, July 29, 1986]

3.503-2 Contract clause.

The clause at 52.203-6, Restrictions on Subcontractor Sales to the Government, shall be inserted in solicitations and contracts for supplies or services.

[50 FR 35475, Aug. 30, 1985, and 51 FR 27116, July 29, 1986]

Subpart 3.6—Contracts With Government Employees or Organizations Owned or Controlled by Them

3.601 Policy.

(a) Except as specified in 3.602, a contracting officer shall not knowingly award a contract to a Government employee or to a business concern or other organization owned or substantially owned or controlled by one or more Government employees. This policy is intended to avoid any conflict of interest that might arise between the employees' interests and their Government duties, and to avoid the appearance of favoritism or preferential treatment by the Government toward its employees.

(b) For purposes of this subpart, special Government employees (as defined in 18 U.S.C. 202) performing services as experts, advisors, or consultants, or as members of advisory committees, are not considered Government employees unless—

(1) The contract arises directly out of the individual's activity as a special Government employee;

(2) In the individual's capacity as a special Government employee, the individual is in a position to influence the award of the contract; or

(3) Another conflict of interest is determined to exist.

[55 FR 34864, Aug. 24, 1990]

3.602 Exceptions.

The agency head, or a designee not below the level of the head of the contracting activity, may authorize an exception to the policy in 3.601 only if there is a most compelling reason to do so, such as when the Government's needs cannot reasonably be otherwise met.

3.603 Responsibilities of the contracting officer.

(a) Before awarding a contract, the contracting officer shall obtain an authorization under 3.602 if—

(1) The contracting officer knows, or has reason to believe, that a prospective contractor is one to which award

is otherwise prohibited under 3.601; and

(2) There is a most compelling reason to make an award to that prospective contractor.

(b) The contracting officer shall comply with the requirements and guidance in subpart 9.5 before awarding a contract to an organization owned or substantially owned or controlled by Government employees.

Subpart 3.7—Voiding and Rescinding Contracts

SOURCE: 51 FR 27116, July 29, 1986, unless otherwise noted.

3.700 Scope of subpart.

(a) This subpart prescribes Governmentwide policies and procedures for exercising discretionary authority to declare void and rescind contracts in relation to which there has been a final conviction for bribery, conflict of interest, or similar misconduct, and to recover the amounts expended and property transferred therefor.

(b) This subpart does not prescribe policies or procedures for, or govern the exercise of, any other remedy available to the Government with respect to such contracts, including but not limited to, the common law right of avoidance, rescission, or cancellation.

3.701 Purpose.

This subpart provides a means to—

(a) Provide the Government with an administrative remedy with respect to contracts in relation to which there has been a final conviction for bribery, conflict of interest, or similar misconduct; and

(b) Deter similar misconduct in the future by those who are involved in the award, performance, and administration of Government contracts.

3.702 Definition.

Final conviction means a conviction, whether entered on a verdict or plea, including a plea of *nolo contendere*, for which sentence has been imposed.

3.703 Authority.

Section 1(e) of Pub. L. 87-849, 18 U.S.C. 218 (*the Act*), empowers the President or the heads of executive agencies acting under regulations prescribed by the President, to declare void and rescind contracts and other transactions enumerated in the Act, in relation to which there has been a final conviction for bribery, conflict of interest, or any other violation of Chapter 11 of Title 18 of the United States Code (18 U.S.C. 201-224). Executive Order 12448, November 4, 1983, delegates the President's authority under the Act to the heads of the executive agencies and military departments.

3.704 Policy.

(a) In cases in which there is a final conviction for any violation of 18 U.S.C. 201-224 involving or relating to contracts awarded by an agency, the agency head or designee shall consider the facts available and, if appropriate, may declare void and rescind contracts, and recover the amounts expended and property transferred by the agency in accordance with the policies and procedures of this subpart.

(b) Since a final conviction under 18 U.S.C. 201-224 relating to a contract also may justify the conclusion that the party involved is not presently responsible, the agency should consider initiating debarment proceedings in accordance with FAR subpart 9.4, Debarment, Suspension, and Ineligibility, if debarment has not been initiated or is not in effect at the time the final conviction is entered.

3.705 Procedures.

(a) *Reporting.* The facts concerning any final conviction for any violation of 18 U.S.C. 201-224 involving or relating to agency contracts shall be reported promptly to the agency head or designee for that official's consideration. The agency head or designee shall promptly notify the Civil Division, Department of Justice, that an action is being considered under this subpart.

(b) *Decision.* Following an assessment of the facts, the agency head or designee may declare void and rescind contracts with respect to which a final conviction has been entered, and recover the amounts expended and the property transferred by the agency under the terms of the contracts involved.

(c) *Decision-making process.* Agency procedures governing the voiding and rescinding decision-making process shall be as informal as is practicable, consistent with the principles of fundamental fairness. As a minimum, however, agencies shall provide the following:

(1) A notice of the proposed action to declare void and rescind the contract shall be made in writing and sent by certified mail, return receipt requested.

(2) A thirty calendar day period after receipt of the notice, for the contractor to submit pertinent information before any final decision is made.

(3) Upon request made within the period for submission of pertinent information, an opportunity shall be afforded for a hearing at which witnesses may be presented, and any witness the agency presents may be confronted. However, no inquiry shall be made regarding the validity of the conviction.

(4) If the agency head or designee decides to declare void and rescind the contracts involved, that official shall issue a written decision which—

(i) States that determination;

(ii) Reflects consideration of the fair value of any tangible benefits received and retained by the agency; and

(iii) States the amount due, and the property to be returned, to the agency.

(d) *Notice of proposed action.* The notice of the proposed action, as a minimum shall—

(1) Advise that consideration is being given to declaring void and rescinding contracts awarded by the agency, and recovering the amounts expended and property transferred therefor, under the provisions of 18 U.S.C. 218;

(2) Specifically identify the contracts affected by the action;

(3) Specifically identify the final conviction upon which the action is based;

(4) State the amounts expended and property transferred under each of the contracts involved, and the money and the property demanded to be returned;

(5) Identify any tangible benefits received and retained by the agency under the contract, and the value of those benefits, as calculated by the agency;

(6) Advise that pertinent information may be submitted within 30 calendar days after receipt of the notice, and that, if requested within that time, a hearing shall be held at which witnesses may be presented and any witness the agency presents may be confronted; and

(7) Advise that action shall be taken only after the agency head or designee issues a final written decision on the proposed action.

(e) *Final agency decision.* The final agency decision shall be based on the information available to the agency head or designee, including any pertinent information submitted or, if a hearing was held, presented at the hearing. If the agency decision declares void and rescinds the contract, the final decision shall specify the amounts due and property to be returned to the agency, and reflect consideration of the fair value of any tangible benefits received and retained by the agency. Notice of the decision shall be sent promptly by certified mail, return receipt requested. Rescission of contracts under the authority of the Act and demand for recovery of the amounts expended and property transferred therefor, is not a claim within the meaning of the Contract Disputes Act of 1978 (CDA), 41 U.S.C. 601-613, or part 33. Therefore, the procedures required by the CDA and the FAR for the issuance of a final contracting officer decision are not applicable to final agency decisions under this subpart, and shall not be followed.

Subpart 3.8—Limitations on the Payment of Funds to Influence Federal Transactions

SOURCE: 55 FR 3190, Jan. 30, 1990 (interim), unless otherwise noted.

3.800 Scope of subpart.

This subpart prescribes policies and procedures implementing section 319 of the Department of the Interior and Related Agencies Appropriations Act, Pub. L. 101-121, which added a new section 1352 to title 31 U.S.C., entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions" (the Act).

3.801 Definitions.

Agency, as used in this section, means an executive agency as defined in 2.101.

Covered Federal action, as used in this section, means any of the following Federal actions:

(a) The awarding of any Federal contract.

(b) The making of any Federal grant.

(c) The making of any Federal loan.

(d) The entering into of any cooperative agreement.

(e) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

Indian tribe and *tribal organization,* as used in this section, have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450B) and include Alaskan Natives.

Influencing or attempting to influence, as used in this section, means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

Local government, as used in this section, means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

Officer or employee of an agency, as used in this section, includes the following individuals who are employed by an agency:

(a) An individual who is appointed to a position in the Government under title 5, United States Code, including a position under a temporary appointment;

(b) A member of the uniformed services, as defined in subsection 101(3), title 37, United States Code;

(c) A special Government employee, as defined in section 202, title 18, United States Code; and

(d) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, United States Code, appendix 2.

Person, as used in this section, means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

Reasonable compensation, as used in this section, means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

Reasonable payment, as used in this section, means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

Recipient, as used in this section, includes the contractor and all subcontractors. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

Regularly employed, as used in this section, means, with respect to an officer or employee of a person requesting or receiving a Federal contract, an officer or employee who is employed by such person for at least 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract. An officer or employee who is employed by such person for less than 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

State, as used in this section, means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and multi-State, regional, or interstate entity having governmental duties and powers.

§ 3.802 Prohibitions.

(a) Section 1352 of title 31, United States Code, among other things, prohibits a recipient of a Federal contract, grant, loan, or cooperative agreement from using appropriated funds to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract; the making of any Federal grant; the making of any Federal loan; the entering into of any cooperative agreement; or, the modification of any Federal contract, grant, loan, or cooperative agreement.

(b) The Act also requires offerors to furnish a declaration consisting of both a certification and a disclosure. These requirements are contained in the provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, and the clause at 52.203-12, Limitation on Payments to Influence Certain Federal Transactions.

(1) By signing its offer, an offeror certifies that no appropriated funds have been paid or will be paid in violation of the prohibitions in 31 U.S.C. 1352.

(2) The disclosure shall identify if any funds other than Federal appropriated funds (including profit or fee received under a covered Federal action) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement.

(c) The prohibitions of the Act do not apply under the following conditions:

(1) *Agency and legislative liaison by own employees.* (i) The prohibition on the use of appropriated funds, in paragraph (a) of this section, does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(ii) For purposes of subdivision (c)(1)(i) of this section, providing any information specifically requested by an agency or Congress is permitted at any time.

(iii) The following agency and legislative liaison activities are permitted at any time where they are not related to a specific solicitation for any covered Federal action:

(A) Discussing with an agency the qualities and characteristics (including individual demonstrations) of the person's products or services, conditions or terms of sale, and service capabilities;

(B) Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.

(iv) The following agency and legislative liaison activities are permitted where they are prior to formal solicitation of any covered Federal action:

(A) Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

(B) Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and

(C) Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Pub. L. 95-507, and subsequent amendments.

(v) Only those activities expressly authorized by subparagraph (c)(1) of this section are permitted under this section.

(2) *Professional and technical services.* (i) The prohibition on the use of appropriated funds, in paragraph (a) of this section, does not apply in the case of—

(A) Payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action, if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action;

(B) Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action, if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action, or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(ii) For purposes of subdivision (c)(2)(i) of this section, "professional and technical services" shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(iii) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation and any other requirements in the actual award documents

(iv) Only those services expressly authorized by subdivisions (c)(2)(i) (A) and (B) of this section are permitted under this section.

(v) The reporting requirements of 3.803(a) shall not apply with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

3.803 Certification and disclosure.

(a) Any contractor who requests or receives a Federal contract exceeding $100,000 shall submit the certification and disclosures required by the provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, with its offer. Disclosures under this section shall be submitted to the contracting officer using OMB standard form LLL, Disclosure of Lobbying Activities.

(b) The contractor shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraph (a) of this section. An event that materially affects the accuracy of the information reported includes—

(1) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

(3) A change in the officer(s), employee(s), or Member(s) of Congress contacted to influence or attempt to influence a covered Federal action.

(c) The contractor shall require the submittal of a certification, *and* if required, a disclosure form, by any person who requests or receives any subcontract exceeding $100,000 under the Federal contract.

(d) All subcontractor disclosure forms (but not certifications), shall be forwarded from tier to tier until received by the prime contractor. The prime contractor shall submit all disclosure forms to the contracting officer at the end of the calendar quarter in which the disclosure form is submitted by the subcontractor. Each subcontractor certification shall be retained in the subcontract file of the awarding contractor.

[55 FR 3190, Jan. 30, 1990, as amended at 55 FR 38516, Sept. 18, 1990]

3.804 Policy.

(a) The contracting officer shall obtain certifications and disclosures as required by the provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, prior to the award of any contract exceeding $100,000.

(b) The contracting officer shall forward a copy of all contractor disclosures furnished pursuant to the clause at 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, to the official designated in accordance with agency procedures, for subsequent submission to Congress. The original of the disclosure shall be retained in the contract file.

3.805 Exemption.

The Secretary of Defense may exempt, on a case-by-case basis, a covered Federal action from the prohibitions of this section whenever the Secretary determines, in writing, that such an exemption is in the national interest. The Secretary shall transmit a copy of such exemption to Congress immediately after making such a determination.

3.806 Processing suspected violations.

Suspected violations of the requirements of the Act shall be referred to the official designated in agency procedures.

3.807 Civil penalties.

Agencies shall impose and collect civil penalties pursuant to the provisions of the Program Fraud and Civil Remedies Act, 31 U.S.C. 3803 (except subsection (c)), 3804-3408, and 3812, insofar as the provisions therein are not inconsistent with the requirements of this subpart.

3.808 Solicitation provision and contract clause.

(a) The provision at 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, shall be included in solicitations expected to exceed $100,000.

(b) The clause at 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, shall be included in solicitations and contracts expected to exceed $100,000.

SOURCE: 48 FR 42113, Sept. 19, 1983, unless otherwise noted.

4.000 Scope of part.

This part prescribes policies and procedures relating to the administrative aspects of contract execution, distribution, reporting, retention, and files.

Subpart 4.1—Contract Execution

4.101 Contracting officer's signature.

(a) Only contracting officers shall sign contracts on behalf of the United States. The contracting officer's name and official title shall be typed, stamped, or printed on the contract. The contracting officer normally signs the contract after it has been signed by the contractor. The contracting officer shall ensure that the signer(s) have authority to bind the contractor (see specific requirements in 4.102 below).

(b) Each signed or reproduced copy of the signed contract or modification that is intended to have the same force and effect as the signed original shall be marked "DUPLICATE ORIGINAL".

4.102 Contractor's signature.

(a) *Individuals.* A contract with an individual shall be signed by that individual. A contract with an individual doing business as a firm shall be signed by that individual, and the signature shall be followed by the individual's typed, stamped, or printed name and the words ", an individual doing business as ...." [*insert name of firm*].

(b) *Partnerships.* A contract with a partnership shall be signed in the partnership name. Before signing for the Government, the contracting officer shall obtain a list of all partners and ensure that the individual(s) signing for the partnership have authority to bind the partnership.

(c) *Corporations.* A contract with a corporation shall be signed in the corporate name, followed by the word "by" and the signature and title of the person authorized to sign. The contracting officer shall ensure that the person signing for the corporation has authority to bind the corporation.

(d) *Joint venturers.* A contract with joint venturers may involve any combination of individuals, partnerships, or corporations. The contract shall be signed by each participant in the joint venture in the manner prescribed in paragraphs (a) through (c) above for each type of participant. When a corporation is participating, the contracting officer shall obtain from the corporation secretary a certificate stating that the corporation is authorized to participate in the joint venture.

(e) *Agents.* When an agent is to sign the contract, other than as stated in paragraphs (a) through (d) above, the agent's authorization to bind the principal must be established by evidence satisfactory to the contracting officer.

4.103 Contract clause.

The contracting officer shall insert the clause at 52.204-1, Approval of Contract, in solicitations and contracts if required by agency procedures.

[49 FR 26741, June 29, 1984]

Subpart 4.2—Contract Distribution

4.201 Procedures.

Contracting officers shall distribute copies of contracts or modifications within 10 working days after execution by all parties. As a minimum, the contracting officer shall—

(a) Distribute simultaneously one signed copy or reproduction of the signed contract (see 4.101(b)), to the contractor and the paying office;

(b) When a contract is assigned to another office for contract administration (see subpart 42.2), provide to that office—

(1) One copy or reproduction of the signed contract and of each modification (stamped "DUPLICATE ORIGINAL"; see 4.101(b)); and

(2) A copy of the contract distribution list, showing those offices that should receive copies of modifications, and any changes to the list as they occur;

(c) Distribute one copy to each accounting and finance office (funding office) whose funds are cited in the contract;

(d) When the contract is not assigned for administration but contains a Cost Accounting Standards clause, provide one copy of the contract to the cognizant administrative contracting officer and mark the copy "FOR COST ACCOUNTING STANDARDS ADMINISTRATION ONLY" (see 30.401(b));

(e) Provide one copy of each contract or modification that requires audit service to the appropriate field audit office listed in the "Directory of Federal Contract Audit Offices" (copies of this directory can be ordered from the U.S. Government Printing Office, Superintendent of Documents, Washington, DC 20402, referencing stock numbers 008-007-03189-9 and 008-007-03190-2 for Volumes I and II, respectively); and

(f) Provide copies of contracts and modifications to those organizations required to perform contract administration support functions (e.g., when manufacturing is performed at multiple sites, the contract administration office cognizant of each location).

4.202 Agency distribution requirements.

Agencies shall limit additional distribution requirements to the minimum necessary for proper performance of essential functions. When contracts are assigned for administration to a contract administration office located in an agency different from that of the contracting office (see part 42), the two agencies shall agree on any necessary distribution in addition to that prescribed in 4.201 above.

4.203 Taxpayer identification number information.

If the contractor has furnished a taxpayer identification number when completing the solicitation provision at 52.204-3, Taxpayer Identification, the contracting officer shall, unless otherwise provided in agency procedures, attach a copy of the completed solicitation provision as the last page of the copy of the contract sent to the paying office.

[54 FR 34752, Aug. 21, 1989]

Subpart 4.3—[Reserved]

Subpart 4.4—Safeguarding Classified Information Within Industry

4.401 Definitions.

Classified acquisition means an acquisition that consists of one or more contracts in which offerors would be required to have access to classified information (Confidential, Secret, or Top Secret) to properly submit an offer or quotation, to understand the performance requirements of a classified contract under the acquisition, or to perform the contract.

Classified contract means any contract that requires, or will require, access to classified information (Confidential, Secret, or Top Secret) by the contractor or its employees in the performance of the contract. A contract may be a classified contract even though the contract document is not classified.

Classified information means any information or material, regardless of its physical form or characteristics, that is owned by, produced by or for, or under the control of the United States Government, and determined pursuant to Executive Order 12356, April 2, 1982 (47 FR 14874, April 6, 1982) or prior orders to require protection against unauthorized disclosure, and is so designated.

[48 FR 42113, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986]

4.402 General.

(a) Executive Order 10865, February 20, 1960 (25 FR 1583, February 25, 1960), entitled "Safeguarding Classified Information Within Industry," as amended by Executive Order 10909, January 17, 1961 (26 FR 508, January 20, 1961), forms the basis for agency regulations concerning safeguarding the release of classified information to U.S. industry.

(b) The Department of Defense (DOD) has incorporated the requirements of these Executive Orders into the Defense Industrial Security Program (DISP), administered by the Defense Investigative Service, 1900 Half Street, SW, Washington, DC 20324, (Director for Industrial Security). The following DOD publications implement the program:

(1) *Industrial Security Regulation* (ISR) (DOD 5220.22-R).

(2) *Industrial Security Manual for Safeguarding Classified Information* (ISM) (DOD 5220.22-M).

(c) Procedures for the protection of information relating to foreign classified contracts awarded to U.S. industry, and instructions for the protection of U.S. information relating to classified contracts awarded to foreign firms, are prescribed in Section VIII of the ISR.

(d) Part 27, Patents, Data, and Copyrights, contains policy and procedures for safeguarding classified information in patent applications and patents.

4.403 Responsibilities of contracting officers.

(a) *Presolicitation phase.* Contracting officers shall review all proposed solicitations to determine whether access to classified information may be required by offerors, or by a contractor during contract performance.

(1) If access to classified information of another agency may be required, the contracting officer shall—

(i) Determine if the agency is covered by the DISP; and

(ii) Follow that agency's procedures for determining the security clearances of firms to be solicited.

(2) If the classified information required is from the contracting officer's agency, the contracting officer shall follow agency procedures.

(b) *Solicitation phase.* Contracting officers shall—

(1) Ensure that the classified acquisition is conducted as required by the DISP or agency procedures, as appropriate; and

(2) Include (i) an appropriate Security Requirements clause in the solicitation (see 4.404), and (ii) as appropriate, in solicitations and contracts when the

contract may require access to classified information, a requirement for security safeguards in addition to those provided in the clause (52.204-2, Security Requirements).

(c) *Award phase.* Contracting officers shall inform contractors and subcontractors of the security classifications and requirements assigned to the various documents, materials, tasks, subcontracts, and components of the classified contract as follows:

(1) Agencies covered by the DISP shall use the Contract Security Classification Specification, DD Form 254. The contracting officer, or authorized representative, is the approving official for the form and shall ensure that it is prepared and distributed in accordance with Section VII of the ISR.

(2) Contracting officers in agencies not covered by the DISP shall follow agency procedures.

4.404 Contract clause.

(a) The contracting officer shall insert the clause at 52.204-2, Security Requirements, in solicitations and contracts when the contract may require access to classified information, unless the conditions specified in paragraph (d) below apply.

(b) If a cost contract (see 16.302) for research and development with an educational institution is contemplated, the contracting officer shall use the clause with its Alternate I.

(c) If a construction or architect-engineer contract where employee identification is required for security reasons is contemplated, the contracting officer shall use the clause with its Alternate II.

(d) If the contracting agency is not covered by the DISP and has prescribed a clause and alternates that are substantially the same as those at 52.204-2, the contracting officer shall use the agency-prescribed clause as required by agency procedures.

Subpart 4.5—[Reserved]

Subpart 4.6—Contract Reporting

4.600 Scope of subpart.

This subpart prescribes uniform reporting requirements for the Federal Procurement Data System (FPDS).

4.601 Record requirements.

(a) Each executive agency shall establish and maintain for a period of 5 years a computer file, by fiscal year, containing unclassified records of all procurements exceeding $25,000.

(b) With respect to each procurement carried out using competitive procedures, agencies shall be able to access from the computer file, as a minimum, the following information:

(1) The date of contract award.

(2) Information identifying the source to whom the contract was awarded.

(3) The property or services obtained by the Government under the procurement.

(4) The total cost of the procurement.

(5) Those procurements which result in the submission of a single bid or proposal so that they can be separately categorized and designated noncompetitive procurements using competitive procedures.

(c) In addition to paragraph (b) of this section with respect to each procurement carried out using procedures other than competitive procedures, agencies shall be able to access from the computer file—

(1) The reason under subpart 6.3 for the use of such procedures; and

(2) The identity of the organization or activity which conducted the procurement.

(d) This information shall be transmitted to the Federal Procurement Data System in accordance with agency procedures.

[50 FR 52429, Dec. 23, 1985, as amended at 52 FR 19802, May 27, 1987]

4.602 Federal Procurement Data System.

(a) The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies report data to the Federal Procurement Data Center (FPDC), which collects, processes, and disseminates official statistical data on Federal contracting. The data provide (1) a basis for recurring and special reports to the President, the Congress, the General Accounting Office, Federal executive agencies, and the general public; (2) a means of measuring and assessing the impact of Federal contracting on the Nation's economy and the extent to which small business concerns and small disadvantaged business concerns are sharing in Federal contracts; and (3) data for other policy and management control purposes.

(b) The *FPDS Reporting Manual* provides a complete list of reporting and nonreporting agencies and organizations. This manual (available at no charge from the Federal Procurement Data Center, General Services Administration, Suite 900, 4040 N. Fairfax Drive, Arlington, VA 22203, telephone (703) 235-2141) provides the necessary instruction to the data collection point in each agency as to what data are required and how often to provide the data.

(c) Data collection points in each agency report data on SF 279, Federal Procurement Data System (FPDS) Individual Contract Action Report, and SF 281, Federal Procurement Data System (FPDS) Summary Contract Action Report ($25,000 or Less), or computer-generated equivalent.

(d) The contracting officer shall obtain and report a Contractor Establishment Code for each awardee from information on file or available to the contracting office, or by using the procedures at 4.603. When appropriate, offerors shall be request to identify their Contractor Establishment Code, if available. If the apparent awardee does not identify its code, the contracting office or other designated agency office shall request a code using the procedures in the FPDS Reporting Manual or in accordance with agency procedures. Requests for codes shall be made by Government offices and only for the apparent awardees.

[48 FR 42113, Sept. 19, 1983. Redesignated at 50 FR 52429, Dec. 23, 1985, and amended at 54 FR 29280, July 11, 1989; 53 FR 43388, Oct. 26, 1988]

4.603 Solicitation provision.

The contracting officer shall insert the provision at 52.204-4, Contractor Establishment Code, in all solicitations exceeding the small purchase limitation in part 13 when there is a reasonable expectation that an award may be made to an offeror whose Contractor Establishment Code is not available to the contracting office but will be available to the offeror(s).

[54 FR 29280, July 11, 1989]

Subpart 4.7—Contractor Records Retention

4.700 Scope of subpart.

This subpart provides policies and procedures for retention of records by contractors to meet the records review requirements of the Government. In this subpart, the terms "contracts" and "contractors" include "subcontracts" and "subcontractors."

4.701 Purpose.

The purpose of this subpart is to generally describe records retention requirements and to allow reductions in the retention period for specific classes of records under prescribed circumstances.

4.702 Applicability.

(a) This subpart applies to records generated under contracts that contain one of the following clauses:

(1) Examination of Records by Comptroller General (52.215-1).

(2) Audit—Sealed Bidding (52.214-26).

(3) Audit—Negotiation (52.215-2).

(b) This subpart is not mandatory on Department of Energy contracts for which the Comptroller General allows alternative records retention periods. Apart from this exception, this subpart applies to record retention periods under contracts that are subject to Chapter 137, Title 10, U.S.C., and the Federal Property and Administrative Services Act of 1949, as amended, 40 U.S.C. 471 et seq.

[48 FR 42113, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

4.703 Policy.

(a) Except as stated in 4.703(b), contractors shall make available books, records, documents, and other supporting evidence to satisfy contract negotiation, administration, and audit requirements of the contracting agencies and the Comptroller General for (1) 3 years after final payment or, for certain records, (2) the period specified in 4.705 through 4.705-3, whichever of these periods expires first.

(b) Contractors shall make available the foregoing documents and supporting evidence for a longer period of time than is required in 4.703(a) if—

(1) A retention period longer than that cited in 4.703(a) is specified in any contract clause; or

(2) The contractor, for its own purposes, retains the foregoing documents and supporting evidence for a longer period. Under this circumstance, the retention period shall be the period of the contractor's retention or 3 years after final payment, whichever period expires first.

(3) The contractor does not meet the original 90-day due date for submission of final indirect cost rate proposals specified in subparagraph (d)(2) of the clause at 52.216-7, Allowable Cost and Payment, and subparagraph (c)(2) of the clause at 52.216-13, Allowable Cost and Payment—Facilities. Under these circumstances, the retention periods in 4.705 shall be automatically extended one day for each day the proposal is not submitted after the original 90-day due date.

(c) Contractors need not retain duplicate copies of records or supporting documents unless they contain significant information not shown on the record copy.

(d) If the information described in paragraph (a) of this section is maintained on a computer, contractors shall retain the computer data on a reliable medium for the time periods prescribed. Contractors may transfer computer data in machine readable form from one reliable computer medium to another. Contractors' computer data retention and transfer procedures shall maintain the integrity, reliability, and security of the original computer data. Contractors shall also retain an audit trail describing the data transfer. For the record retention time periods prescribed, contractors shall not destroy, discard, delete, or write over such computer data.

[48 FR 42113, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986; 53 FR 43388, Oct. 26, 1988; 54 FR 48982, Nov. 28, 1989]

4.704 Calculation of retention periods.

(a) The retention periods in 4.705 are calculated from the end of the contractor's fiscal year in which an entry is made charging or allocating a cost to a Government contract or subcontract. If a specific record contains a series of entries, the retention period is calculated from the end of the contractor's fiscal year in which the final entry is made. The contractor should cut off the records in annual blocks and retain them for block disposal under the prescribed retention periods.

(b) When records generated during a prior contract are relied upon by a contractor for cost or pricing data in negotiating a succeeding contract, the prescribed periods shall run from the date of the succeeding contract.

(c) If two or more of the record categories described in 4.705 are interfiled and screening for disposal is not practical, the contractor shall retain the entire record series for the longest period prescribed for any category of records.

4.705 Specific retention periods.

The contractor shall retain the records identified in 4.705-1 through 4.705-3 for the periods designated, provided retention is required under 4.702. Records are identified in this subpart in terms of their purpose or use and not by specific name or form number. Although the descriptive identifications may not conform to normal contractor usage or filing practices, these identifications apply to all contractor records that come within the description.

4.705-1 Financial and cost accounting records.

(a) Accounts receivable invoices, adjustments to the accounts, invoice registers, carrier freight bills, shipping orders, and other documents which detail the material or services billed on the related invoices: Retain 4 years.

(b) Material, work order, or service order files, consisting of purchase requisitions or purchase orders for material or services, or orders for transfer of material or supplies: Retain 4 years.

(c) Cash advance recapitulations, prepared as posting entries to accounts receivable ledgers for amounts of expense vouchers prepared for employees' travel and related expenses: Retain 4 years.

(d) Paid, canceled, and voided checks, other than those issued for the payment of salary and wages: Retain 4 years.

(e) Accounts payable records to support disbursements of funds for materials, equipment, supplies, and services, containing originals or copies of the following and related documents: remittance advices and statements, vendors' invoices, invoice audits and distribution slips, receiving and inspection reports or comparable certifications of receipt and inspection of material or services, and debit and credit memoranda: Retain 4 years.

(f) Labor cost distribution cards or equivalent documents: Retain 2 years.

(g) Petty cash records showing description of expenditures, to whom paid, name of person authorizing payment, and date, including copies of vouchers and other supporting documents: Retain 2 years.

4.705-2 Pay administration records.

(a) Payroll sheets, registers, or their equivalent, of salaries and wages paid to individual employees for each payroll period; change slips; and tax withholding statements: Retain 4 years.

(b) Clock cards or other time and attendance cards: Retain 2 years.

(c) Paid checks, receipts for wages paid in cash, or other evidence of payments for services rendered by employees: Retain 2 years.

4.705-3 Acquisition and supply records.

(a) Store requisitions for materials, supplies, equipment, and services: Retain 2 years.

(b) Work orders for maintenance and other services: Retain 4 years.

(c) Equipment records, consisting of equipment usage and status reports and equipment repair orders: Retain 4 years.

(d) Expendable property records, reflecting accountability for the receipt and use of material in the performance of a contract: Retain 4 years.

(e) Receiving and inspection report records, consisting of reports reflecting receipt and inspection of supplies, equipment, and materials: Retain 4 years.

(f) Purchase order files for supplies, equipment, material, or services used in the performance of a contract; supporting documentation and backup files including, but not limited to, invoices, and memoranda; e.g., memoranda of negotiations showing the principal elements of subcontract price negotiations (see 52.244-1 and 52.244-2): Retain 4 years.

(g) Production records of quality control, reliability, and inspection: Retain 4 years.

4.706 Microfilming records.

4.706-1 General.

(a) Contractors may use microfilm (e.g., film chips, jackets, aperture cards, microprints, roll film, and microfiche) for recordkeeping, subject to the limitations in this subpart.

(b) In the process of microfilming documents, the contractor shall also microfilm all relevant notes, worksheets, and other papers necessary for reconstructing or understanding the records.

(c) The contractor shall review all microfilm before destroying the hard-copy documents to ensure legibility and reproducibility of the microfilm.

(d) Unless earlier retirement of records is permitted by 4.705, or the administrative contracting officer agrees to a lesser retention period when the contractor has established adequate internal controls including continuing surveillance over the microfilm system, the contractor shall not destroy original records that have been microfilmed, until—

(1) All claims under the contract are settled;

(2) Eighteen months have passed since final payment; or

(3) The time original records are required to be kept by other laws or regulations has elapsed.

4.706-2 Filing and retrieval.

The contractor shall—

(a) Maintain an effective indexing system to permit timely and convenient access to the microfilmed records by the Government;

(b) Provide strict security measures to prevent the loss of microfilm and to safeguard classified information;

(c) Store microfilm in a fireproof cabinet in an environment ensuring the safety of these records for the specified retention periods; and

(d) Have adequate viewing equipment and provide printouts the approximate size of the original material.

4.706-3 Quality control.

(a) Microfilm, when displayed on a microfilm reader (viewer) or reproduced on paper, must exhibit a high degree of legibility and readability.

(b) The quality of the contractor's record microfilming process is subject to periodic review by the administrative contracting officer.

Subpart 4.8—Contract Files

4.800 Scope of subpart.

This subpart prescribes requirements for establishing, maintaining, and disposing of contract files for all contractual actions. The application of this subpart to small purchases and other simplified procedures covered by part 13 is optional. See also documentation requirements in 13.106(c).

4.801 General.

(a) The head of each office performing contracting, contract administration, or paying functions shall establish files containing the records of all contractual actions.

(b) The documentation in the files (see 4.803) shall be sufficient to constitute a complete history of the transaction for the purpose of—

(1) Providing a complete background as a basis for informed decisions at each step in the acquisition process;

(2) Supporting actions taken;

(3) Providing information for reviews and investigations; and

(4) Furnishing essential facts in the event of litigation or congressional inquiries.

(c) The files to be established include—

(1) A file for cancelled solicitations;

(2) A file for each contract; and

(3) A file such as a contractor general file, containing documents relating—for example—to (i) no specific contract, (ii) more than one contract, or (iii) the contractor in a general way (e.g., contractor's management systems, past performance, or capabilities).

4.802 Contract files.

(a) A contract file should generally consist of—

(1) The contracting office contract file, which shall document the basis for the acquisition and the award, the assignment of contract administration (including payment responsibilities), and any subsequent actions taken by the contracting office;

(2) The contract administration office contract file, which shall document actions reflecting the basis for and the performance of contract administration responsibilities; and

(3) The paying office contract file, which shall document actions prerequisite to, substantiating, and reflecting contract payments.

(b) Normally, each file should be kept separately; however, if appropriate, any or all of the files may be combined; e.g., if all functions or any combination of the functions are performed by the same office.

(c) Files shall be maintained at organizational levels that shall ensure—

(1) Effective documentation of contract actions;

(2) Ready accessibility to principal users;

(3) Minimal establishment of duplicate and working files;

(4) The safeguarding of classified documents; and

(5) Conformance with agency regulations for file location and maintenance.

(d) If the contract files or file segments are decentralized (e.g., by type or function) to various organizational elements or to other outside offices, responsibility for their maintenance shall be assigned. A central control and, if needed, a locator system should be established to ensure the ability to locate promptly any contract files.

(e) Contents of contract files that are proprietary or source selection information as defined in 3.104-4 shall be protected from disclosure to unauthorized persons (see 3.104-5).

[48 FR 42113, Sept. 19, 1983, as amended at 54 FR 20496, May 11, 1989; 55 FR 36794, Sept. 6, 1990]

4.803 Contents of contract files.

The following are examples of the records normally contained, if applicable, in contract files:

(a) *Contracting office contract file.* (1) Purchase request, acquisition planning information, and other presolicitation documents.

(2) Justifications and approvals, determinations and findings, and associated documents.

(3) Evidence of availability of funds.

(4) Synopsis of proposed acquisition as published in the Commerce Business Daily or reference thereto.

(5) The list of sources solicited, and a list of any firms or persons whose requests for copies of the solicitation were denied, together with the reasons for denial.

(6) Set-aside decision.

(7) Government estimate of contract price.

(8) A copy of the solicitation and all amendments thereto.

(9) Security requirements and evidence of required clearances.

(10) A copy of each offer or quotation, the related abstract, and records of determinations concerning late offers or quotations. Unsuccessful offers or quotations may be maintained separately, if cross-referenced to the contract file. The only portions of the unsuccessful offer or quotation that need be retained are—

(i) Completed solicitation sections A, B, and K;

(ii) Technical and management proposals;

(iii) Cost/price proposals;

(iv) Any other pages of the solicitation that the offeror or quoter has altered or annotated.

(11) Contractor's contingent fee representation and other certifications and representations.

(12) Preaward survey reports or reference to previous preaward survey reports relied upon.

(13) Source selection documentation.

(14) Contracting officer's determination of the contractor's responsibility.

(15) Small Business Administration Certificate of Competency.

(16) Records of contractor's compliance with labor policies including equal employment opportunity policies.

(17) Cost or pricing data and Certificates of Current Cost or Pricing Data or a required justification for waiver.

(18) Packaging and transportation data.

(19) Cost or price analysis.

(20) Audit reports or reasons for waiver.

(21) Record of negotiation.

(22) Justification for type of contract.

(23) Authority for deviations from this regulation, statutory requirements, or other restrictions.

(24) Required approvals of award and evidence of legal review.

(25) Notice of award.

(26) The original of (i) the signed contract or award, (ii) all contract modifications, and (iii) documents supporting modifications executed by the contracting office.

(27) Synopsis of award or reference thereto.

(28) Notice to unsuccessful quoters or offerors and record of any debriefing.

(29) Acquisition management reports (see subpart 4.6).

(30) Bid, performance, payment, or other bond documents, or a reference thereto, and notices to sureties.

(31) Report of postaward conference.

(32) Notice to proceed, stop orders, and any overtime premium approvals granted at the time of award.

(33) Documents requesting and authorizing modification in the normal assignment of contract administration functions and responsibility.

(34) Approvals or disapprovals of requests for waivers or deviations from contract requirements.

(35) Rejected engineering change proposals. These proposals may be filed separately for early disposal (see 4.805(h)).

(36) Royalty, invention, and copyright reports (including invention disclosures) or reference thereto.

(37) Contract completion documents.

(38) Documentation regarding termination actions for which the contracting office is responsible.

(39) Cross-references to pertinent documents that are filed elsewhere.

(40) Any additional documents on which action was taken or that reflect actions by the contracting office pertinent to the contract.

(41) A current chronological list identifying the awarding and successor contracting officers, with inclusive dates of responsibility.

(42) All certifications required by 3.104-9(e)(1).

(43) For contracts and contract modifications in excess of $100,000, a record of all persons or classes of persons authorized to have access to proprietary or source selection information and, to the maximum extent practicable, the names of all individuals within the class.

(b) *Contract administration office contract file.* (1) Copy of the contract and all modifications, together with official record copies of supporting documents executed by the contract administration office.

(2) Any document modifying the normal assignment of contract administration functions and responsibility.

(3) Security requirements.

(4) Cost and pricing data, Certificates of Current Cost or Pricing Data, cost or price analysis, and other documentation supporting contractual actions executed by the contract administration office.

(5) Preaward survey information.

(6) Purchasing system information.

(7) Consent to subcontract or purchase.

(8) Performance and payment bonds and surety information.

(9) Postaward conference records.

(10) Orders issued under the contract.

(11) Notice to proceed and stop orders.

(12) Insurance policies or certificates of insurance or references to them.

(13) Documents supporting advance or progress payments.

(14) Progressing, expediting, and production surveillance records.

(15) Quality assurance records.

(16) Property administration records.

(17) Documentation regarding termination actions for which the contract administration office is responsible.

(18) Cross reference to other pertinent documents that are filed elsewhere.

(19) Any additional documents on which action was taken or that reflect actions by the contract administration office pertinent to the contract.

(20) Contract completion documents.

(c) *Paying office contract file.* (1) Copy of the contract and any modifications.

(2) Bills, invoices, vouchers, and supporting documents.

(3) Record of payments or receipts.

(4) Other pertinent documents.

[48 FR 42113, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 5054, Jan. 31, 1989; 55 FR 36794, Sept. 6, 1990]

4.804 Closeout of contract files.

4.804-1 Closeout by the office administering the contract.

(a) Except as provided in paragraph (c) below, time standards for closing out contract files are as follows:

(1) Small purchase files should be considered closed when the contracting officer receives evidence of receipt of property and final payment, unless otherwise specified by agency regulation.

(2) Files for all firm-fixed-price contracts other than small purchases should be closed within 6 months of the month in which the contracting officer receives evidence of physical completion.

(3) Files for contracts requiring settlement of indirect cost rates should be closed within 36 months of the month in which the contracting officer receives evidence of physical completion.

(4) Files for all other contracts should be closed within 20 months of the month in which the contracting officer receives evidence of physical completion.

(b) When closing out the contract files at 4.804-1(a)(2), (3), and (4), the contracting officer shall use the closeout procedures at 4.804-5. However, these closeout actions may be modified to reflect the extent of administration that has been performed. Quick closeout procedures (see 42.708) should be used, when appropriate, to reduce administrative costs and to enable deobligation of excess funds.

(c) A contract file shall not be closed if (1) the contract is in litigation or under appeal, or (2) in the case of a termination, all termination actions have not been completed.

[48 FR 42113, Sept. 19, 1983, as amended at 54 FR 34752, Aug. 21, 1989]

4.804-2 Closeout of the contracting office files if another office administers the contract.

(a) Small purchase files should be considered closed when the contracting officer receives evidence of receipt of property and final payment, unless otherwise specified by agency regulation.

(b) All other contract files shall be closed as soon as practicable after the contracting officer receives a contract completion statement from the contract administration office. The contracting officer shall ensure that all contractual actions required have been completed and shall prepare a statement to that effect. This statement is authority to close the contract file and shall be made a part of the official contract file.

4.804-3 Closeout of paying office contract files.

The paying office shall close the contract file upon issuance of the final payment voucher.

4.804-4 Physically completed contracts.

(a) Except as provided in paragraph (b) below, a contract is considered to be physically completed when—

(1) (i) The contractor has completed the required deliveries and the Government has inspected and accepted the supplies;

(ii) The contractor has performed all services and the Government has accepted these services; and

(iii) All option provisions, if any, have expired; or

(2) The Government has given the contractor a notice of complete contract termination.

(b) Facilities contracts and rental, use, and storage agreements are considered to be physically completed when—

(1) The Government has given the contractor a notice of complete contract termination; or

(2) The contract period has expired.

4.804-5 Detailed procedures for closing out contract files.

(a) The office administering the contract is responsible for initiating (automated or manual) administrative closeout of the contract after receiving evidence of its physical completion. At the outset of this process, an initial contract funds status review shall be accomplished and, where appropriate, excess funds identified to the contracting office. When complete, the administrative closeout procedures shall ensure that—

(1) Disposition of classified material is completed;

(2) Final patent report is cleared;

(3) Final royalty report is cleared;

(4) There is no outstanding value engineering change proposal;

(5) Plant clearance report is received;

(6) Property clearance is received;

(7) All interim or disallowed costs are settled;

(8) Price revision is completed;

(9) Subcontracts are settled by the prime contractor;

(10) Prior year indirect cost rates are settled;

(11) Termination docket is completed;

(12) Contract audit is completed;

(13) Contractor's closing statement is completed;

(14) Contractor's final invoice has been submitted; and

(15) Contract funds review is completed and deobligation of any excess funds is recommended.

(b) When the actions in paragraph (a) above have been verified, the contracting officer administering the contract shall ensure that a contract completion statement, containing the following information, is prepared:

(1) Contract administration office name and address (if different from the contracting office).

(2) Contracting office name and address.

(3) Contract number.

(4) Last modification number.

(5) Last call or order number.

(6) Contractor name and address.

(7) Dollar amount of excess funds, if any.

(8) Voucher number and date, if final payment has been made.

(9) Invoice number and date, if the final approved invoice has been forwarded to a disbursing office of another agency or activity and the status of the payment is unknown.

(10) A statement that all required contract administration actions have been fully and satisfactorily accomplished.

(11) Name and signature of the contracting officer.

(12) Date.

(c) When the statement is completed, the contracting officer shall ensure that—

(1) The signed original is placed in the contracting office contract file (or forwarded to the contracting office for placement in the files if the contract administration office is different from the contracting office); and

(2) A signed copy is placed in the appropriate contract administration file if administration is performed by a contract administration office.

[48 FR 42113, Sept. 19, 1983, as amended at 54 FR 34752, Aug. 21, 1989]

4.805 Disposal of contract files.

Agencies shall prescribe procedures for the handling, storing, and disposing of contract files. However, such procedures shall include provisions that the documents specified below shall not be destroyed before the times indicated:

Document	Retention Period
(a) Records pertaining to exceptions or protests, claims for or against the United States, investigations, cases pending or in litigation, or similar matters.	Until final clearance or settlement, or until the retention period otherwise specified for the document in paragraphs (b) through (n) below is completed, whichever is later.
(b) Signed originals of (1) contracts and (2) modifications thereto.	6 years and 3 months after final payment.
(c) [Reserved]	
(d) Signed originals of justifications and approvals and determinations and findings required by part 6, and copies of supporting documents and data.	6 years and 3 months after final payment.
(e) Signed originals of small purchases and modifications thereto and construction contracts under $2,000.	3 years after final payment.
(f) All unsuccessful offers or quotations that pertain to contracts below the appropriate small purchase limitation in part 13.	Retain 1 year after date of award or until final payment, whichever is later; but if the contracting officer determines that the files have future value to the Government, retain as long as advisable.
(g) Contract status (progressing), expediting, and production surveillance records.	6 months after final payment.
(h) Rejected engineering change proposals.	6 months after final payment.
(i) Labor compliance records, including equal employment opportunity records.	3 years after final payment.
(j) Documents pertaining generally to the contractor as described at 4.801(c)(3).	Until superseded or obsolete.
(k) Records or documents other than those in paragraphs 4.805(a)–(j) above pertaining to contracts below the appropriate small purchase limitation in part 13.	1 year after final payment.
(l) Records or documents other than those in paragraphs 4.805(a)–(k) above pertaining to contracts above the appropriate small purchase limitation in part 13.	6 years and 3 months after final payment.
(m) Files for cancelled solicitations (see 4.801(c)(1)).	5 years after cancellation.
(n) Solicited and unsolicited unsuccessful offers and quotations above the appropriate small purchase limitation in part 13.	
(1) When filed separately from contract case files.	Until contract completion date.
(2) When filed with contract case files.	6 years and 3 months after final payment.

[48 FR 42113, Sept. 19, 1983, as amended at 50 FR 1727, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 5054, Jan. 31, 1989]

Subpart 4.9—Information Reporting To The Internal Revenue Service

SOURCE: 53 FR 43388, Oct. 26, 1988, unless otherwise noted.

4.900 Scope of subpart.

This subpart provides policies and procedures applicable to contract and payment information reporting to the Internal Revenue Service (IRS).

4.901 Definitions.

Common parent, as used in this subpart, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the offeror is a member.

Corporate status, as used in this subpart, means a designation as to whether the offeror is a corporate entity, an unincorporated entity, (e.g., sole proprietorship or partnership), or a corporation providing medical and health care services.

Taxpayer Identification Number (TIN), as used in this subpart, means the number required by the IRS to be used by the offeror in reporting income tax and other returns.

[53 FR 43388, Oct. 26, 1988, as amended at 54 FR 34752, Aug. 21, 1989]

4.902 General.

(a) 26 U.S.C. 6041 and 6041A, as implemented in 26 CFR, in part, require payors, including Federal Government agencies, to report to the IRS payments made to certain contractors.

(1) The following payments are exempt from this reporting requirement:

(i) Payments to corporations. However, payments to corporations providing medical and health care services or engaged in the billing and collecting of payments for such services are not exempted.

(ii) Payments for bills for merchandise, telegrams, telephone, freight, storage, and similar charges.

(iii) Payments of income required to be reported on an IRS Form W-2 (e.g., contracts for personal services).

(iv) Payments to a hospital or extended care facility described in 26 CFR 501(c)(3) that is exempt from taxation under 26 CFR 501(a).

(v) Payments to a hospital or extended care facility owned and operated by the United States, a state, the District of Columbia, a possession of the United States, or a political subdivision, agency, or instrumentality of any of the foregoing.

(vi) Payments for any contract with a state, the District of Columbia, a possession of the United States, or a political subdivision, agency, or instrumentality of any of the foregoing.

(2) The following information is required to provide report to IRS:

(i) Name, address, and TIN of contractor.

(ii) Corporate status (see 4.901).

(b) 26 U.S.C. 605M, as implemented in 26 CFR, requires heads of Federal Executive agencies to report to the IRS the following information for certain contracts in excess of $25,000:

(1) Name, address, and TIN of contractor.

(2) Name and TIN of common parent (if any).

(3) Date of the contract action.

(4) Amount obligated on the contract action.

(5) Estimated contract completion date.

4.903 Procedures.

The information reported to the IRS under 4.902(b) will be transmitted using the Federal Procurement Data System (see subpart 4.6 and implementing instructions). Requirements concerning information to be transmitted to paying offices are specified in 4.203.

[53 FR 43388, Oct. 26, 1988, as amended at 54 FR 34753, Aug. 21, 1989]

4.904 Solicitation provision.

The contracting officer shall insert the provision at 52.204-3, Taxpayer Identification, in all solicitations, unless the TIN of each offeror has previously been obtained and is known.

SUBCHAPTER B—ACQUISITION PLANNING

PART 5—PUBLICIZING CONTRACT ACTIONS

Sec.
5.000 Scope of part.
5.001 Definition.
5.002 Policy.

Subpart 5.1—Dissemination of Information

5.101 Methods of disseminating information.
5.102 Availability of solicitations.

Subpart 5.2—Synopses of Proposed Contract Actions

5.201 General.
5.202 Exceptions.
5.203 Publicizing and response time.
5.204 Presolicitation notices.
5.205 Special situations.
5.206 Publicizing subcontract opportunities.
5.207 Preparation and transmittal of synopses.

Subpart 5.3—Synopses of Contract Awards

5.301 General.
5.302 Preparation and transmittal of synopses of awards.
5.303 Announcement of contract awards.

Subpart 5.4—Release of Information

5.405 Exchange of acquisition information.

Subpart 5.5—Paid Advertisements

5.501 Definitions.
5.502 Authority.
5.503 Procedures.
5.504 Use of advertising agencies.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42119, Sept. 19, 1983, unless otherwise noted.

5.000 Scope of part.

This part prescribes policies and procedures for publicizing contract opportunities and award information.

5.001 Definition.

Contract action, as used in this part, means an action resulting in a contract, as defined in subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Change clause, or funding and other administrative changes.

[50 FR 1728, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985]

5.002 Policy.

Contracting officers shall publicize contract actions in order to—

(a) Increase competition;

(b) Broaden industry participation in meeting Government requirements; and

(c) Assist small business concerns, small disadvantaged business concerns, and labor surplus area concerns in obtaining contracts and subcontracts.

[50 FR 52429, Dec. 23, 1985]

Subpart 5.1—Dissemination of Information

5.101 Methods of disseminating information.

The Commerce Business Daily (CBD) is the public notification media by which U.S. Government agencies identify proposed contract actions and contract awards. The CBD is published in five or six daily editions weekly, as necessary.

(a) As required by the Small Business Act (15 U.S.C. 637(e)) and the Office of Federal Procurement Policy Act (41 U.S.C. 416), contracting officers shall disseminate information on proposed contract actions as follows:

(1) For contract actions expected to exceed $25,000, or $10,000 if there is not a reasonable expectation that at least two offers will be received from responsive and responsible offerors, by synopsizing in the Commerce Business Daily (CBD) (See subpart 5.201); and

(2) For proposed contract actions expected to exceed $10,000 ($5,000 for Defense activities), but not expected to exceed $25,000, by displaying in a public place at the contracting office issuing the solicitation, an unclassified notice of the solicitation or a copy of the solicitation satisfying the requirements of 5.207 (c) and (f). Such information shall be posted not later than the date the solicitation is issued and remain posted for at least 10 days regardless of the date of award. Such information shall remain posted until after offers have been opened.

(i) If solicitations are posted in lieu of a notice, various methods of satisfying the requirements of 5.207 (c) and (f) may be employed. For example, the requirements for 5.207 (c) and (f) may be met by stamping the solicitation, by a cover sheet to the solicitation, or by placing a general statement in the display room.

(ii) The contracting officer need not comply with the display requirements set forth above when the exemptions at 5.202(a) (1), (5) through (9), or (11) apply, or when oral solicitations are used.

(iii) Contracting officers shall post solicitations expected to exceed $25,000 if required by agency regulations.

(b) In addition, one or more of the following methods may be used:

(1) Preparing periodic handouts listing proposed contracts, and displaying them as in 5.101(a)(2).

(2) Assisting local trade associations in disseminating information to their members.

(3) Making brief announcements of proposed contracts to newspapers, trade journals, magazines, or other mass communication media for publication without cost to the Government.

(4) Placing paid advertisements in newspapers or other communications media, subject to the following limitations:

(i) Contracting officers shall place paid advertisements of proposed contracts only when it is anticipated that effective competition cannot be obtained otherwise (see 5.205(d)).

(ii) Contracting officers shall not place advertisements of proposed contracts in a newspaper published and printed in the District of Columbia unless the supplies or services will be furnished, or the labor performed, in the District of Columbia or adjoining counties in Maryland or Virginia (44 U.S.C. 3701).

(iii) Advertisements published in newspapers must be under proper written authority in accordance with 44 U.S.C. 3702 (see 5.502(a)).

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1728, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 27117, July 29, 1986; 52 FR 21885, June 9, 1987]

5.102 Availability of solicitations.

(a) The contracting officer shall—

(1) Maintain a reasonable number of copies of solicitations publicized in the CBD, including specifications and other pertinent information (upon request, potential sources not initially solicited shall be mailed or provided copies of solicitations, if available);

(2) Provide copies of a limited solicitation to firms requesting copies that were not initially solicited, but only after advising the requester of the determination to limit the solicitation to a specified firm or firms as authorized under part 6;

(3) Provide copies on a *first-come-first-served* basis, for pickup at the contracting office, to publishers, trade associations, information services, and other members of the public having a legitimate interest (for construction, see 36.211); and

(4) In addition to the methods of disseminating proposed contract information in 5.101(a) and (b), provide upon request to small business concerns, as required by 15 U.S.C. 637(b)—

(i) A copy of the solicitation and specifications;

(ii) The name and telephone number of an employee of the contracting office to answer questions on the solicitation; and

(iii) Adequate citations to each applicable major Federal law or agency rule with which small business concerns must comply in performing the contract.

(5) Retain a copy of the solicitation and other documents for review by and duplication for those requesting

copies after the initial number of copies is exhausted.

(6) Agencies may require payment of a fee, not exceeding the actual cost of duplication, for a copy of the solicitation documents.

(b) This section 5.102 applies to classified contracts to the extent consistent with agency security requirements (see 5.202(a)(1)).

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1728, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

Subpart 5.2—Synopses of Proposed Contract Actions

5.201 General.

(a) As required by the Small Business Act (15 U.S.C. 637(c)) and the Office of Federal Procurement Policy Act (41 U.S.C. 416), agencies shall furnish for publication in the Commerce Business Daily (CBD) notices of proposed contract actions as specified below.

(b) For acquisitions of supplies and services other than those covered by the exceptions in 5.202, and special situations in 5.205, the contracting officer shall transmit a notice to the CBD (synopsis) (see 5.207) for each proposed—

(1) Contract actions meeting the thresholds in 5.101(a)(1);

(2) Effort to locate private commercial sources for cost comparison purposes under OMB Circular A-76 (see 5.205(d));

(3) Modification to an existing contract for additional supplies or services that meets the thresholds in 5.101(a)(1); or

(4) Contract action in any amount when advantageous to industry or the Government.

(c) The primary purposes of the CBD notice are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities.

(d) Subcriptions to the CBD must be placed with the Superintendent of Documents, Government Printing Office, Washington, DC 20402 (Tel. 202-783-3238).

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1728, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 27117, July 29, 1986; 52 FR 21886, June 9, 1987]

5.202 Exceptions.

The contracting officer need not submit the notice required by 5.201 when—

(a) The contracting officer determines that—

(1) The synopsis cannot be worded to preclude disclosure of an agency's needs and such disclosure would compromise the national security (e.g., would result in disclosure of classified information). The fact that a proposed solicitation or contract action contains classified information, or that access to classified matter may be necessary to submit a proposal or perform the contract does not, in itself, justify use of this exception to synopsis;

(2) The contract action is made under the conditions described in 6.302-2 and the Government would be seriously injured if the agency complies with the time periods specified in 5.203;

(3) The contract action is one for which either the written direction of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government, or the terms of an international agreement or treaty between the United States and a foreign government or international organizations, has the effect of requiring that the acquisition shall be from specified sources;

(4) The contract action is expressly authorized or required by a statute to be made through another Government agency, including acquisitions from the Small Business Administration (SBA) using the authority of section 8(a) of the Small Business Act (but see 5.205(e)), or from a specific source such as a workshop for the blind under the rules of the Committee for the Purchase from the Blind and Other Severely Handicapped;

(5) The contract action is for utility services other than telecommunications services and only one source is available;

(6) The contract action is an order placed under a requirements contract;

(7) The contract action results from acceptance of a proposal under the Small Business Innovation Development Act of 1982 (Pub. L. 97-219);

(8) The contract action results from the acceptance of an unsolicited research proposal that demonstrates a unique and innovative concept (see 6.003) and publication of any notice complying with 5.207 would improperly disclose the originality of thought or innovativeness of the proposed research, or would disclose proprietary information associated with the proposal. This exception does not apply if the contract action results from an unsolicited research proposal and acceptance is based solely upon the unique capability of the source to perform the particular research services proposed (see 6.302-1(a)(2)(i);

(9) The contract action is made for perishable subsistence supplies, and advance notice is not appropriate or reasonable;

(10) The contract action is made under conditions described in 6.302-3, or 6.302-5 with regard to brand name commercial items for authorized resale, or 6.302-7, and advance notice is not appropriate or reasonable;

(11) The contract action is made under the terms of an existing contract that was previously synopsized in sufficient detail to comply with the requirements of 5.207 with respect to the current contract action; or

(12) The contract action is by a Defense agency and the contract action will be made and performed outside the United States, its possessions, or Puerto Rico, and only local sources will be solicited.

(b) The head of the agency determines in writing after consultation with the Administrator for Federal Procurement Policy and the Administrator of the Small Business Administration, that advance notice is not appropriate or reasonable.

[50 FR 1728, Jan. 11, 1985, as amended at 50 FR 52430, Dec. 23, 1985; 51 FR 27117, July 29, 1986; 53 FR 27463, July 20, 1988; 54 FR 46004, Oct. 31, 1989]

5.203 Publicizing and response time.

Whenever agencies are required to publish notice of contract actions under 5.201, they shall proceed as follows:

(a) A notice of the contract action shall be published in the CBD at least 15 days before issuance of a solicitation.

(b) Agencies shall allow at least 30 days response time for receipt of bids or proposals from the date of issuance of a solicitation.

(c) Agencies shall allow at least 30 days response time from the date of publication of a proper notice of intent to contract for architect-engineer services or before issuance of an order under a basic ordering agreement or similar arrangement.

(d) Agencies shall allow at least 45 days response time for receipt of bids or proposals from the date of publication of the notice required in 5.201 for contract actions categorized as research and development.

(e) Nothing in this subpart prohibits officers or employees of agencies from responding to requests for information.

(f) Contracting officers may, unless they have evidence to the contrary, presume that notice has been published 10 days (6 days if electronically transmitted) following transmittal of the synopsis to the CBD. This presumption is based on the CBD's confirmation that publication does occur within these timeframes. This presumption does not negate the mandatory waiting or response times specified in paragraphs (a) through (d) of this section. Upon learning that a particular notice has not in fact been published within the presumed timeframes, contracting officers should consider whether the date for receipt of offers can be extended or whether circumstances have become sufficiently compelling to justify proceeding with the contract action under the authority of 5.202(a)(2).

[50 FR 52430, Dec. 23, 1985, as amended at 51 FR 31425, Sept. 3, 1986]

5.204 Presolicitation notices.

Contracting officers shall publicize presolicitation notices in the CBD (see 15.404 and 36.302). Synopsizing is still required prior to issuance of any resulting solicitation (see 5.201 and 5.203).

[50 FR 1729, Jan. 11, 1985 and 50 FR 52429, Dec. 23, 1985]

5.205 Special situations.

(a) *Research and development (R&D) advance notice.* Contracting officers may publish in the CBD, advance notices of their interest in potential R&D programs whenever existing solicitation mailing lists do not include a sufficient number of concerns to obtain adequate competition. Advance notices shall not be used where security considerations prohibit such publication. Advance notices will enable potential sources to learn of R&D programs and provide their sources with an opportunity to submit information which will permit evaluation of their R&D capabilities. Potential sources which respond to advance notices shall be added to the appropriate solicitation mailing list for subsequent solicitation. Advance notices shall be titled "Research and Development Sources Sought," cite the appropriate Numbered Note, and include the name and telephone number of the contracting officer or other contracting activity official from whom technical details of the project can be obtained. This will enable sources to submit information for evaluation of their R&D capabilities. Contracting officers shall synopsize all subsequent solicitations for R&D contracts, including those resulting from a previously synopsized advance notice, unless one of the exceptions in 5.202 applies.

(b) *Federally Funded Research and Development Centers.* Before establishing a Federally Funded Research and Development Center (FFRDC) (see part 35) or before changing its basic purpose and mission, the sponsor shall place at least three notices over a 90-day period in the Commerce Business Daily and the FEDERAL REGISTER, indicating the agency's intention to sponsor an FFRDC or change the basic purpose and mission of an FFRDC. The notice shall indicate the scope and nature of the effort to be performed and request comments. Notice is not required where action is required by law.

(c) *General notices and announcements.* General notices and announcements of such matters as business fairs, pre-bid/pre-proposal conferences, meetings, availability of draft solicitations or draft specifications for review, etc., which are to be published in the CBD shall be transmitted in accordance with 5.207(a). Contracting officers shall prepare general announcement in the following format:

(1) *General.* Use conventional typing, with upper and lower case letters, standard punctuation, and commonly used abbreviations.

(2) *Spacing.* Begin lines in the text, except paragraph beginnings, flush with the left margin. Use double-spaced lines. Begin paragraphs five spaces from the left margin.

(3) *Contracting office and address.* Begin the name, address, and telephone number of the contracting office on the first line of the text. Do not abbreviate except for names of states. The address shall include an attention phrase that identifies the person(s) to contact for further information.

(4) *Description of the matter being announced.* Include a clear, complete description of the matter to be published.

(d) *Architect-engineering services.* Contracting officers shall publish notices of intent to contract for architect-engineering services as follows:

(1) Except when exempted by 5.202, synopsize each proposed contract action for which the total fee (including phases and options) is expected to exceed $25,000, or $10,000 if there is not reasonable expectation that at least two offers will be received from responsive and responsible offerors. Reference shall be made to the appropriate CBD Numbered Note.

(2) When the total fee is expected to exceed $10,000 ($5,000 for Defense activities), but not exceed $25,000, the contracting officer shall comply with 5.101(a)(2). When the contract action is not required to be synopsized under subparagraph (d)(1) of this section, the contracting officer shall display a notice of the solicitation or a copy of the solicitation in a public place at the contracting office. Other optional pub-

licizing methods are authorized in accordance with 5.101(b).

(e) *Effort to locate commercial sources under OMB Circular A-76.* When determining the availability of commercial sources under the procedures prescribed in subpart 7.3 and OMB Circular A-76, the contracting officer shall not arrive at a conclusion that there are no commercial sources capable of providing the required supplies or services until publicizing the requirement in the CBD at least three times in a 90 calendar-day period, with a minimum of 30 calendar days between each. When necessary to meet an urgent requirement, this may be limited to a total of two publications in the CBD in a 30 calendar-day period, with a minimum of 15 calendar days between each.

(f) *Section 8(a) competitive acquisition.* When a national buy requirement is being considered for competitive acquisition limited to eligible 8(a) concerns under Supart 19.8, the contracting officer shall transmit a synopsis of the proposed contract action to the CBD in accordance with 5.207. The synopsis may be transmitted to the CDB concurrent with submission of the agency offering (see 19.804-2) to the Small Business Administration (SBA). The synopsis should also include information—

(1) Advising that the acquisition is being offered for competition limited to eligible 8(a) concerns;

(2) Specifying the Standard Industrial Classification (SIC) code;

(3) Advising that eligibility to participate may be restricted to firms in either the developmental or transitional stage; and

(4) Encouraging interested 8(a) firms o request a copy of the solicitation as xpeditiously as possible since the solicitation will be issued without further notice upon SBA acceptance of he requirement for the section 8(a) rogram.

5.206 Publicizing subcontract opportunities.

Contracting officers shall encourage prime contractors and subcontractors to use the CBD to publicize subcontracting opportunities stemming from their Government business. Subcontract information should be mailed directly to the CBD under the heading *Subcontracting Assistance Wanted,* using the format in 5.207.

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1729, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 52 FR 19802, May 27, 1987; 54 FR 25061, June 12, 1989]

5.207 Preparation and transmittal of synopses.

(a) *Transmittal.* Contracting officers shall transmit synopses of actions identified under § 5.101 to the Commerce Business Daily by the most expeditious and reliable means available.

(1) *Electronic transmission.* All synopses transmitted by electronic means shall be in ASCII Code. Contact your agency's communications center for the appropriate transmission instructions or services.

(2) *Hard copy transmission.* When electronic transmission is not feasible, synopses should be sent to the CBD via mail or other physical delivery of hard copy and should be addressed to: U.S. Department of Commerce, Commerce Business Daily, P.O. Box 5999, Chicago, IL 60680.

(b) *Format.* The contracting officer shall prepare the synopsis in the following style and format to ensure timely processing of the synopsis by the Commerce Business Daily.

(1) *General.* Format for all synopses shall employ conventional typing with abbreviations, capitalization, and punctuation all grammatically correct. Each synopsis shall include all 17 format items. Do not include the title for the format item.

(2) *Spacing.* Begin each line flush left and use double spaced lines between each format line. If more than one synopsis is sent at one time, separate each synopsis with four line spaces and begin each new synopsis with format item number 1.

(3) *Abbreviations.* Minimize abbreviations or acronyms to commonly recognized abbreviations.

(4) *Standard format.* Prepare each synopsis in the following manner. Begin each format item with the number of the item followed by a period (e.g., 1.). Then make two spaces after the period. Next type the appropriate information for each format item. Then conclude each format item with two exclamation points (i.e., !!). Conclude each complete synopsis, following format item 17, with five asterisks (i.e., * * * * *).

FORMAT ITEM and Explanation/ Description of Entry

1. ACTION CODE

(A single alphabetic letter denoting the specific action related in the synopsis. Choices are limited to the following: P=Presolicitation Notice/Procurement; A=Award announcement; M=Modification of a previously announced procurement action (a correction to a previous CBD announcement); R=Sources Sought (includes A-76 services and architect-engineer contracts); F=Foreign procurement announcement or tender.)

2. DATE

(Date on which the synopsis is transmitted to the CBD for publication. Use a four digit number indicating month in two digits and date in two digits (MMDD). All four spaces must be used with preceding 0 for months January thru September. Format: 0225 for February 25.)

3. YEAR

(Two numeric digits denoting the calendar year of the synopsis. Format 85 for 1985.)

4. FEDERAL INFORMATION PROCESSING STANDARD (FIPS) NUMBER

(Agency code number identifying the sending agency. Normally a four or five character field. Usually numeric, but may contain one or more alphabetic characters. Reference is FIPS 95 publication by the National Bureau of Standards which identifies Federal Agencies and related organizations.)

5. CONTRACTING OFFICE ZIP CODE

(The geographic zip code for the contracting office. Up to nine characters may be entered. When using a nine digit zip code, separate the first five digits and last four digits with a dash. Format: 00000-0000.)

6. CLASSIFICATION CODE. (Service or supply code number; see 5.207(g). Each synopsis shall classify the contemplated contract action under the one classification code which most closely describes the acquisition. If the action is for a multiplicity of goods and/or services, the preparer should select the one category best describing the overall acquisition based upon value. Inclusion of more than one classification code, or failure to include a classification code, will result in rejection of the synopsis by the Commerce Business Daily).

7. CONTRACTING OFFICE ADDRESS

(The complete name and address of the contracting office. Field length is open, but generally not expected to exceed 90 alpha-numeric characters.)

8. SUBJECT

(Insert classification code for ITEM 6, and a brief title description of services, supplies, or project required by the agency. This will appear in the CBD as the bold faced title in the first line of the description.)

9. PROPOSED SOLICITATION NUMBER

(Agency number for control, tracking, identification. For solicitations; if not a solicitation, enter N/A.)

10. OPENING/CLOSING RESPONSE DATE

(For solicitations; if not a solicitation, enter N/A. Issuing agency deadline for receipt of bids, proposals or responses. Use a six digit date. Format: MMDDYY. Explanation may appear in text of synopsis in Item 17.)

11. CONTACT POINT/CONTRACTING OFFICER

(Include name and telephone number of contact. Also include name and telephone number of contracting officer if different. This will appear as the first item of information in the published entry. This entry may be alpha-numeric and up to 320 character blocks in length.)

12. CONTRACT AWARD AND SOLICITATION NUMBER

(For awards; if not an award, enter N/A. The award, solicitation or project reference number assigned by the agency to provide a reference for bidders/subcontractors. Seventy-two blocks available for alpha-numeric entries plus slashes and dashes.)

13. CONTRACT AWARD DOLLAR AMOUNT

(For awards; if not an award, enter N/A. A ten digit numeric field. Enter whole dollars only. Output will be preceded by a dollar sign ($).)

14. CONTRACT LINE ITEM NUMBER

(For awards—as desired; if not an award, enter N/A. The alpha-numeric field with dashes and slashes may not exceed 32 spaces. If sufficient space is not available, enter N/A and insert the contract line item number(s) in format item 17.)

15. CONTRACT AWARD DATE

(For awards; if not an award, enter N/A. A six digit entry showing the date the award is made or the contract let. Format: MMDDYY.)

16. CONTRACTOR

(For awards; if not an award, enter N/A. Name and address of successful offeror. Ninety character spaces allowed for full identification.)

17. DESCRIPTION

(This block of space is open ended for entry of the substantive description of the contract action. Suggested sequence of content and items for inclusion in a solicitation synopsis are contained in 5.207(c) below. (See 5.302(b) for award entries, and 5.207(c) for solicitation entries.) The last entry(ies) should include reference(s) to any numbered notes or conditions which are applicable and which should appear in the printed text.)

(5) *Nonapplicable format items.* When a format item is not applicable, type the item number, a period, two blank spaces, and "N/A" (e.g., 10. N/A!!).

(6) The following is an illustrative solicitation synopsis format:

1. P!!
2. 0925!!
3. 85!!
4. 57936!!
5. 19111-5096!!
6. 95!!
7. Defense Industrial Supply Center, 700 Robbins Ave., Philadelphia, PA 19111-5096!!
8. 95—metal plate steel!!
9. DLA500-86-B-0090!!
10. BOD, 111585!!
11. Contact, Mary Drake, 215/697-XXXX/Contracting Officer, Larry Bird, 215/697-XXXX!!
12. N/A!!
13. N/A!!
14. N/A!!
15. N/A!!
16. N/A!!
17. NSN9515-00-237-5342,—Spec MIL-S-226988,—0.1875 in thk, 96 in w. 240 in lg.—Carbon steel,—45,000 lbs.—Del to NSY Philadelphia, PA, NSC Norfolk, VA.—Del by 1 Oct 86.—When calling, be prepared to state name, address and solicitation number.—See note 9.—All responsible sources may submit an offer which will be considered.* * * * *

(c) *General format for Item 17, "Description."* (1) Prepare the synopsis to ensure that it includes a clear description of the supplies or services to be contracted for, and is not unnecessarily restrictive of competition and will allow a prospective offeror to make an informed business judgment as to whether a copy of the solicitation should be requested.

(2) Include the following elements to the extent applicable, in sequence, with each element separated by two hyphens. Do not include the Roman numeral designator preceding each element, and do not include the supply/service classification code.

(i) National Stock Number (NSN) if assigned.

(ii) Specification and whether an offeror, its product, or service must meet a qualification requirement in order to be eligible for award, and identification of the office from which additional information about the qualification requirement may be obtained (see subpart 9.2).

(iii) Manufacturer, including part number, drawing number, etc.

(iv) Size, dimensions, or other form, fit or functional description.

(v) Predominant material of manufacture.

(vi) Quantity, including any options for additional quantities.

(vii) Unit of issue.

(viii) Destination information.

(ix) Delivery schedule.

(x) Duration of the contract period.

(xi) For Architect-Engineer projects and other projects for which the supply or service codes are insufficient, provide brief details with respect to: location, scope of services required, cost range and limitations, type of contract, estimated starting and completion dates, and any significant evaluation factors.

(xii) Numbered notes (see 5.207(e)), including instructions for set-asides for small businesses and labor surplus area concerns.

(xiii) In the case of contract actions under subpart 6.3, insert a statement of the reason justifying other than full and open competition, and identify the intended source(s) (see 5.207(e)(3)).

(xiv) Insert a statement that all responsible sources may submit a bid, proposal, or quotation which shall be considered by the agency.

(xv) If the contracting office will accept requests for solicitations through alternate means (e.g., facsimile machine, Telex), provide the machine number and routing instructions.

(d) *Set-asides.* When the proposed acquisition provides for a total or partial small business or labor surplus area (LSA) set aside, the appropriate CBD Numbered Note will be cited.

(e) *CBD Numbered Notes.* (1) Numbered Notes are footnotes. The purpose of the Numbered Notes is to conserve space and simplify the identification of repetitive notices. An explanation of the Numbered Notes appears each week in the Monday edition of the CBD. If the Monday edition of the CBD is not printed because of a holiday, an explanation of the Numbered Notes will appear in the next day's issue. When one or more of the Notes applies to a synopsis, contracting officers should reference the note at the end of Item 17 of the synopsis; e.g., "See Note(s). . . ." Requests to add or change Notes will be submitted through channels for approval by the DAR Council and the CAA Council. The Councils will review the Numbered Notes periodically and, as appropriate, after consultation with the initiating agency, advise the Department of Commerce to delete or modify outdated or unused notes from the CBD. Contracting officers shall also include the substance of Numbered Notes whenever a proposed contract is publicized by means other than the CBD (see 5.101).

(2) If the acquisition is subject to the requirements of the Trade Agreements Act of 1979 (see part 25), Numbered Note 12 shall be referenced in the synopsis.

(3) If the synopsis is for a proposed contract action intended to be awarded on a sole source basis, the synopsis shall refer to Numbered Note 22. If it is anticipated that award will be made via a delivery order to an existing basic ordering agreement, the synopsis shall so state.

(f) *Information not covered by Numbered Notes.* To alert prospective contractors to information not covered by Numbered Notes, contracting officers should identify the following unusual circumstances in the synopsis:

(1) *Availability of specification, plans, drawing, or other technical data.* It is impracticable to distribute the applicable ———— [*insert 'specifications,' 'plans,' 'drawings,' or other appropriate words*] with the solicitation. These contract documents may be examined or obtained at ————

(2) *Availability of background research report.* This contract for basic research is a continuation of an effort conducted for the past ——— [*insert period*]. A research report containing findings to date is not available to the Government.

(3) *Production requirements.* The production of the supplies listed requires a substantial initial investment or an extended period of preparation for manufacture.

(4) *Place of performance unknown.* This contract is subject to the Service Contract Act and the place of performance is unknown. Wage determinations have been requested for (insert localities). The contracting officer will request wage determinations for additional localities if asked to do so in writing by (insert time and date).

(g) *Codes to be used in synopses to identify services or supplies.* (1) Contracting officers shall use one of the following classification codes when the contemplated contract action is for services or when the overall acquisition can best be described as services based upon value:

Code	Description
A	Experimental, developmental, test, and basic and applied research work.
H	Expert and consultant services.
J	Maintenance and repair of equipment.
K	Modification, alteration, and rebuilding of equipment.
L	Technical representative services (e.g., services of technical specialists required to assist with the installation, checking, operation, and maintenance of complex equipment).
M	Operation and maintenance of Government-owned facility.
N	Installation of equipment (use code K if the contract also involves modification, alteration, or rebuilding of the equipment).
O	Funeral and Chaplain services.
P	Salvage services (services required to salvage property of any kind).
Q	Medical services.
R	Architect-engineer services.
S	Housekeeping services; e.g.— Utilities (gas, electric, telephone, etc.); Laundry and dry cleaning; Custodial-janitorial; Insect and rodent control; Packing and crating;

Code	Description
	Storage;
	Garbage and trash collection;
	Food;
	Fueling;
	Fire protection;
	Building and grounds maintenance;
	Care of remains-funerals; and
	Guards.
T	Photographic, mapping, printing, and publication services; e.g.—
	Film processing;
	Cataloging;
	Charting;
	Reproduction;
	Technical writing;
	Art; and
	Printing.
U	Training.
V	Transportation services; e.g.—
	Passenger and cargo transportation;
	Vessel charter;
	Vessel operation;
	Tug service;
	Stevedoring;
	Vehicle hire; and
	Railway equipment charter.
W	Lease or rental, except transportation equipment; e.g.—
	Lease of ADP or EAM equipment; and
	Lease of earth-moving equipment.
X	Miscellaneous (includes all services not covered by any other code).
Y	Construction; i.e., new construction and major additions to existing buildings or facilities.
Z	Maintenance, repair, and alteration of real property; i.e. painting, building maintenance, alteration and repair, grounds maintenance and repair, roads maintenance and repair.

(2) Contracting officers shall use one of the following classification codes when the contemplated contract action is for supplies or when the overall acquisition can best be described as supplies based upon value:

Code	Description
10	Weapons.
11	Nuclear ordnance.
12	Fire control equipment.
13	Ammunition and explosives.
14	Guided missiles.
15	Aircraft and airframe structural components.
16	Aircraft components and accessories.
17	Aircraft launching, landing, and ground handling equipment.
18	Space vehicles.
19	Ships, small craft, pontoons, and floating docks.
20	Ship and marine equipment.
22	Railway equipment.
23	Motor vehicles, trailers, and cycles.
24	Tractors.
25	Vehicular equipment components.
26	Tires and tubes.
28	Engines, turbines, and components.
29	Engine accessories.
30	Mechanical power transmission equipment.
31	Bearings.
32	Woodworking machinery and equipment.
34	Metalworking machinery.
35	Service and trade equipment.
36	Special industry machinery.
37	Agricultural machinery and equipment.
38	Construction, mining, excavating, and highway maintenance equipment.
39	Materials handling equipment.
40	Rope, cable, chain, and fittings.
41	Refrigeration and air-conditioning equipment.
42	Fire fighting, rescue, and safety equipment.
43	Pumps and compressors.
44	Furnace, steam plant, and drying equipment and nuclear reactors.
45	Plumbing, heating, and sanitation equipment.
46	Water purification and sewage treatment equipment.
47	Pipe, tubing, hose, and fittings.
48	Valves.
49	Maintenance and repair shop equipment.
51	Hand tools.
52	Measuring tools.
53	Hardware and abrasives.
54	Prefabricated structures and scaffolding.
55	Lumber, millwork, plywood, and veneer.
56	Construction and building materials.
58	Communication equipment.
59	Electrical and electronic equipment components.
60	Fiber optics materials.
61	Electric wire, and power and distribution equipment.
62	Lighting fixtures and lamps.
63	Alarm and signal systems.
65	Medical, dental, and veterinary equipment and supplies.
66	Instruments and laboratory equipment.
67	Photographic equipment.
68	Chemicals and chemical products.
69	Training aids and devices.
70	General-purpose ADP equipment, software, supplies, and support equipment.
71	Furniture.
72	Household and commercial furnishings and appliances.
73	Food preparation and serving equipment.
74	Office machines.
75	Office supplies and devices.
76	Books, maps, and other publications.
77	Musical instruments, phonographs, and home-type radios.
78	Recreational and athletic equipment.
79	Cleaning equipment and supplies.
80	Brushes, paints, sealers, and adhesives.
81	Containers, packaging, and packing supplies.
83	Textiles, leather, furs, apparel and shoe findings, tents, and flags.
84	Clothing, individual equipment, and insignia.
85	Toiletries.
87	Agricultural supplies.
88	Live animals.
89	Subsistence.
91	Fuels, lubricants, oils, and waxes.
93	Nonmetallic fabricated materials.
94	Nonmetallic crude materials.
95	Metal bars, sheets, and shapes.
96	Ores, minerals, and their primary products.
99	Miscellaneous.

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1729, Jan. 11, 1985; 50 FR 4221, Jan. 30, 1985; 50 FR 52430, Dec. 23, 1985; 51 FR

27117, July 29, 1986; 53 FR 17856, May 18, 1988; 54 FR 19813, May 8, 1989; 54 FR 25061, June 12, 1989]

Subpart 5.3—Synopses of Contract Awards

5.301 General.

(a) Except for contract actions described in paragraph (b) of this section, contracting officers shall synopsize in the Commerce Business Daily (CBD) awards exceeding $25,000 that (1) are subject to the Trade Agreements Act (see 25.402 and 25.403), or (2) are likely to result in the award of any subcontracts. However, the dollar threshold is not a prohibition against publicizing an award of a smaller amount when publicizing would be advantageous to industry or to the Government.

(b) A notice is not required under paragraph (a) of this section if—

(1) The notice would disclose the executive agency's needs and the disclosure of such needs would compromise the national security;

(2) The award results from acceptance of an unsolicited research proposal that demonstrates a unique and innovative research concept and publication of any notice would disclose the originality of thought or innovativeness of the proposed research or would disclose proprietary information associated with the proposal;

(3) The award results from a proposal submitted under the Small Business Innovation Development Act of 1982 (Pub. L. 97-219);

(4) The contract action is an order placed under a requirements contract;

(5) The award is made for perishable subsistence supplies; or

(6) The award is for utility services, other than telecommunications services, and only one source is available.

(c) With respect to acquisitions subject to the Trade Agreements Act, contracting officers shall submit synopses in sufficient time to permit their publication in the CBD not later than 60 days after award.

[52 FR 19802, May 27, 1987, as amended at 53 FR 27463, July 20, 1988]

5.302 Preparation and transmittal of synopses of awards.

Contracting officers shall—

(a) Transmit synopses of contract awards in the same manner as prescribed in 5.207; and

(b) Complete synopsis format items defined in section 5.207, as appropriate. Under format item 17, include as relevant the following:

(1) The following details of f.o.b. destination contracts, when total shipments from origin to destination will exceed 200,000 pounds, and destinations are firm:

(i) Origin point of shipment when different from the address of the contractor.

(ii) Continental United States destination of shipment.

(iii) Scheduled delivery period (beginning and ending dates).

(2) A statement of the industries, crafts, processes, or component items for which subcontractors are desired in a geographic area indicated by the contractor. This information shall be included when requested by the prime contractor.

[48 FR 42119, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986]

5.303 Announcement of contract awards.

(a) *Public Announcement.* Contracting officers shall make information available on awards over $3 million (unless another dollar amount is specified in agency acquisition regulations) in sufficient time for the agency concerned to announce it by Washington, DC time on the day of award.Contracts excluded from this reporting requirement include those placed with (1) the Small Business Administration under section 8(a) of the Small Business Act, and (2) with foreign firms when the place of delivery or performance is outside the United States or its possessions. Agencies shall not release information on awards before the public release time of 4:00 p.m. Washington, DC time.

(b) *Local Announcement.* Agencies may also release information on contract awards to the local press or other media. When local announcements are made for contract awards in excess of the small purchase limitation in 13.000, they shall include—

(1) For awards after sealed bidding, a statement that the contract was awarded after competition by sealed bidding, the number of offers solicited and received, and the basis for selection (e.g., the lowest responsible bidder); or

(2) For awards after negotiation, the information prescribed by 15.1001(c), and after competitive negotiation (either price or design competition), a statement to this effect, and in general terms the basis for selection.

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1729, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 52 FR 30076, Aug. 12, 1987; 55 FR 3881, Feb. 5, 1990]

Subpart 5.4—Release of Information

5.401 General.

(a) A high level of business security must be maintained in order to preserve the integrity of the acquisition process. When it is necessary to obtain information from potential contractors and others outside the Government for use in preparing Government estimates, contracting officers shall ensure that the information is not publicized or discussed with potential contractors.

(b) Contracting officers may make available maximum information to the public, except information—

(1) On plans that would provide undue or discriminatory advantage to private or personal interests;

(2) Received in confidence from an offeror;

(3) Otherwise requiring protection under Freedom of Information Act (see subpart 24.2) or Privacy Act (see subpart 24.1); or

(4) Pertaining to internal agency communications (e.g., technical reviews, contracting authority or other reasons, or recommendations referring thereto).

(c) This policy applies to all Government personnel who participate directly or indirectly in any stage of the acquisition cycle.

5.402 General public.

Contracting officers shall process requests for specific information from the general public, including suppliers, in accordance with subpart 24.1 or 24.2, as appropriate.

5.403 Requests from Members of Congress.

(a) *Individual requests.* Contracting officers shall give Members of Congress, upon their request, detailed information regarding any particular contract. When responsiveness would result in disclosure of classified matter, business confidential information, or information prejudicial to competitive acquisition, the contracting officer shall refer the proposed reply, with full documentation, to the agency head and inform the legislative liaison office of the action.

(b) *Inclusion on solicitation mailing lists.* Upon request of a Congressional Committee or Subcommittee Chairperson, contracting officers shall place any member of a Committee or Subcommittee on the applicable solicitation mailing lists to receive automatic distribution of solicitations in the specific area of interest.

[48 FR 42119, Sept. 19, 1983, as amended at 50 FR 1729, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

5.404 Release of long-range acquisition estimates.

To assist industry planning and to locate additional sources of supply, it may be desirable to publicize estimates of unclassified long-range acquisition requirements. Estimates may be publicized as far in advance as possible.

5.404-1 Release procedures.

(a) *Application.* The agency head, or a designee, may release long-range acquisition estimates if the information will—

(1) Assist industry in its planning and facilitate meeting the acquisition requirements;

(2) Not encourage undesirable practices (e.g., attempts to corner the market or hoard industrial materials); and

(3) Not indicate the existing or potential mobilization of the industry as a whole.

(b) *Conditions.* The agency head shall ensure that—

(1) Classified information is released through existing security channels in accordance with agency security regulations;

(2) The information is publicized as widely as practicable to all parties simultaneously by any of the means described in this part;

(3) Each release states that (i) the estimate is based on the best information available, (ii) the information is subject to modification and is in no way binding on the Government, and (iii) more specific information relating to any individual item or class of items will not be furnished until the proposed acquisition is synopsized in the CBD, or the solicitation is issued;

(4) Each release contains the name and address of the contracting officer that will process the acquisition;

(5) Modifications to the original release are publicized as soon as possible, in the same manner as the original; and

(6) Each release—

(i) Is coordinated in advance with small business, public information, and public relations personnel, as appropriate;

(ii) Contains, if applicable, a statement that small business or LSA set-asides may be involved, but that a determination can be made only when acquisition action is initiated; and

(iii) Contains the name or description of the item, and the estimated quantity to be acquired by calendar quarter, fiscal year, or other period. It may also contain such additional information as the number of units last acquired, the unit price, and the name of the last supplier.

5.404-2 Announcements of long-range acquisition estimates.

Further publication, consistent with the needs of the individual case, may be accomplished by announcing in the CBD that long-range acquisition estimates have been published and are obtainable, upon request, from the contracting officer.

5.405 Exchange of acquisition information.

(a) When the same item or class of items is being acquired by more than one agency, or by more than one contracting activity within an agency, the exchange and coordination of pertinent information, particularly cost and pricing data, between these agencies or contracting activities is necessary to promote uniformity of treatment of major issues and the resolution of particularly difficult or controversial issues. The exchange and coordination of information is particularly beneficial during the period of acquisition planning, presolicitation, evaluation, and pre-award survey.

(b) When substantial acquisitions of major items are involved or when the contracting activity deems it desirable, the contracting activity shall request appropriate information (on both the end item and on major subcontracted components) from other agencies or contracting activities responsible for acquiring similar items. Each agency or contracting activity receiving such a request shall furnish the information requested. The contracting officer, early in a negotiation of a contract, or in connection with the review of a subcontract, shall request the contractor to furnish information as to the contractor's or subcontractor's previous Government contracts and subcontracts for the same or similar end items and major subcontractor components.

Subpart 5.5—Paid Advertisements

5.501 Definitions.

Advertisement, as used in this subpart, means any single message prepared for placement in communication media, regardless of the number of placements.

Publication, as used in this subpart, means (a) the placement of an advertisement in a newspaper, magazine, trade or professional journal, or any other printed medium, or (b) the broadcasting of an advertisement over radio or television.

5.502 Authority.

(a) *Newspapers*. Authority to approve the publication of paid advertisements in newspapers is vested in the head of each agency (44 U.S.C. 3702). This approval authority may be delegated (5 U.S.C. 302 (b)). Contracting officers shall obtain written authorization in accordance with agency procedures before advertising in newspapers.

(b) *Other media.* Unless the agency head determines otherwise, advance written authorization is not required to place advertisements in media other than newspapers.

5.503 Procedures.

(a) *General.* Orders for paid advertisements may be placed directly with the media or through an advertising agency. Contracting officers shall give small and disadvantaged business concerns maximum opportunity to participate in these acquisitions.

(b) *Rates.* Advertisements may be paid for at rates not over the commercial rates charged private individuals, with the usual discounts (44 U.S.C. 3703).

(c) *Forms.* (1) When contracting directly with the media for advertising, contrating officers shall—

(i) Use Standard Form 26, Award/Contract, or Standard Form 1447, Solicitation/Contract, when the dollar amount of the acquisition exceeds the small purchase dollar limitations (see 13.000); or

(ii) Use Optional Form 347, Order for Supplies or Services, or an approved agency form, when the dollar amount of the acquisition does not exceed the small purchase dollar limitations (see 13.000).

(2) When issuing a delivery order under a basic ordering agreement with an advertising agency for advertising, contracting officers should use Optional Form 347, or an approved agency form.

(d) *Proof of advertising.* Every invoice for advertising shall be accompanied by a copy of the advertisement or n affidavit of publication furnished y the publisher, radio or television tation, or advertising agency conerned (44 U.S.C. 3703). Paying offices hall retain the proof of advertising ntil the General Accounting Office ettles the paying office's account.

(e) *Payment.* Upon receipt of an invoice supported by proof of advertisg, the contracting officer shall tach a copy of the written authority (see 5.502(a)) and submit the invoice for payment under agency procedures.

[48 FR 42119, Sept. 19, 1983, as amended at 54 FR 48982, Nov. 28, 1989]

5.504 Use of advertising agencies.

(a) *General.* Basic ordering agreements may be placed with advertising agencies for assistance in producing and placing advertisements when a significant number will be placed in several publications and in national media. Services of advertising agencies include, but are not limited to, counseling as to selection of the media for placement of the advertisement, contacting the media in the interest of the Government, placing orders, selecting and ordering typography, copywriting, and preparing rough layouts.

(b) *Use of commission-paying media.* The services of advertising agencies in placing advertising with media often can be obtained at no cost to the Government, over and above the space cost, as many media give advertising agencies a commission or discount on the space cost that is not given to the Government.

(c) *Use of noncommission-paying media.* Some media do not grant advertising agencies a commission or discount, meaning the Government can obtain the same rate as the advertising agency. If the advertising agency agrees to place advertisements in noncommission-paying media as a no-cost service, the basic ordering agreement shall so provide. If the advertising agency will not agree to place advertisements at no cost, the agreement shall (1) provide that the Government may place orders directly with the media, or (2) specify an amount that the Government will pay if the agency places the orders.

(d) *Art work, supplies, and incidentals.* The basic ordering agreement also may provide for the furnishing by the advertising agency of art work, supplies, and incidentals, including brochures and pamphlets, but not their printing. *Incidentals* may include telephone calls, telegrams, and postage incurred by the advertising agency on behalf of the Government.

PART 6—COMPETITION REQUIREMENTS

Sec.
6.000 Scope of part.
6.001 Applicability.
6.002 Limitations.

6.303-1 Requirements.
6.303-2 Content.
6.304 Approval of the justification.
6.305 Availability of the justification.

Subpart 6.4—Sealed Bidding and Competitive Proposals

6.401 Sealed bidding and competitive proposals.

Subpart 6.5—Competition Advocates

6.501 Requirement.
6.502 Duties and responsibilities.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 50 FR 1729, Jan. 11, 1985 (interim rule), and 50 FR 52429, Dec. 23, 1985 (final rule), unless otherwise noted.

6.000 Scope of part.

This part prescribes policies and procedures to promote full and open competition in the acquisition process and to provide for full and open competition, full and open competition after exclusion of sources, other than full and open competition, and competition advocates. As used in this part, full and open competition is the process by which all responsible offerors are allowed to compete. This part does not deal with the results of competition (e.g., adequate price competition), which are addressed in other parts (e.g., part 15).

6.001 Applicability.

This part applies to all acquisitions except—

(a) Contracts awarded using the small purchase procedures of part 13;

(b) Contracts awarded using contracting procedures (other than those addressed in this part) that are expressly authorized by statute;

(c) Contract modifications that are within the scope and under the terms of an existing contract;

(d) Orders placed under requirements contracts or definite-quantity contracts; or

(e) Orders placed under indefinite-quantity contracts that were entered into pursuant to this part when—

(1) The contract was awarded under subpart 6.1 or 6.2 and all responsible sources were realistically permitted to compete for the requirements contained in the order; or

(2) The contract was awarded under subpart 6.3 and the required justification and approval adequately covers the requirements contained in the order.

[50 FR 52431, Dec. 23, 1985]

6.002 Limitations.

No agency shall contract for supplies or services from another agency for the purpose of avoiding the requirements of this part.

6.003 Definitions.

Full and open competition, when used with respect to a contract action, means that all responsible sources are permitted to compete.

Procuring activity, as used in this part, means a component of an executive agency having a significant acquisition function and designated as such by the head of the agency. Unless agency regulations specify otherwise, the term *procuring activity* shall be synonymous with *contracting activity* as defined in subpart 2.1.

Sole source acquisition means a contract for the purchase of supplies or services that is entered into or proposed to be entered into by an agency after soliciting and negotiating with only one source.

Unique and innovative concept, when used relative to an unsolicited research proposal, means that, in the opinion and to the knowledge of the Government evaluator, the meritorious proposal is the product of original thinking submitted in confidence by one source; contains new novel or changed concepts, approaches, or methods; was not submitted previously by another; and, is not otherwise available within the Federal Government. In this context, the term does not mean that the source has the sole capability of performing the research.

[50 FR 1729, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985, as amended at 53 FR 27463, July 20, 1988]

Subpart 6.1—Full and Open Competition

6.100 Scope of subpart.

This subpart prescribes the policy and procedures that are to be used to promote and provide for full and open competition.

6.101 Policy.

(a) 10 U.S.C. 2304 and 41 U.S.C. 253 require, with certain limited exceptions (see subparts 6.2 and 6.3), that contracting officers shall promote and provide for full and open competition in soliciting offers and awarding Government contracts.

(b) Contracting officers shall provide for full and open competition through use of the competitive procedure or combination of competitive procedures contained in this subpart that is best suited to the circumstances of the contract action. Contracting officers must use good judgment in selecting the procedure that best meets the needs of the Government.

6.102 Use of competitive procedures.

The competitive procedures available for use in fulfilling the requirement for full and open competition are as follows:

(a) *Sealed bids*. (See 6.401(a).)

(b) *Competitive proposals*. (See 6.401(b).) If sealed bids are not appropriated under (a) above, contracting officers shall request competitive proposals or use the other competitive procedures under (c) or (d) below.

(c) *Combination of competitive procedures*. If sealed bids are not appropriate, contracting officers may use any combination of competitive procedures (e.g., two-step sealed bidding).

(d) *Other competitive procedures*. (1) Selection of sources for architect-engineer contracts in accordance with the provisions of Pub. L. 92-582 (40 U.S.C. 541 *et seq.*) is a competitive procedure (see subpart 36.6 for procedures).

(2) Competitive selection of basic and applied research and that part of development not related to the development of a specific system or hardware procurement is a competitive procedure if award results from—

(i) A broad agency announcement that is general in nature identifying areas of research interest, including criteria for selecting proposals, and soliciting the participation of all offerors capable of satisfying the Government's needs; and

(ii) A peer of scientific review.

(3) Use of multiple award schedules issued under the procedures established by the Administrator of General Services consistent with the requirement of 41 U.S.C. 259 (b)(3)(A) for the multiple award schedule program of the General Services Administration is a competitive procedure if ordering offices follow the procedures in 8.405-1 in placing orders under this program.

[50 FR 1729, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985, as amended at 53 FR 27463, July 20, 1988]

Subpart 6.2—Full and Open Competition After Exclusion of Sources

6.200 Scope of subpart.

This subpart prescribes policies and procedures for providing for full and open competition after excluding one or more sources.

6.201 Policy.

Acquisitions made under this subpart require use of the competitive procedures prescribed in 6.102 after agencies have excluded a source or sources from participation in a contract action under the circumstances described in 6.202 or 6.203 below.

6.202 Establishing or maintaining alternative sources.

(a) Agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would—

(1) Increase or maintain competition and likely result in reduced overall costs for the acquisition, or for any anticipated acquisition, of such supplies or services;

(2) Be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the supplies or services in case of a national emergency or industrial mobilization; or

(3) Be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

(b)(1) Every proposed contract action under the authority of paragraph (a) above shall be supported by a determination and findings (D&F) (see subpart 1.7) signed by the head of the agency or designee. This D&F shall not be made on a class basis.

(2) Technical and requirements personnel are responsible for providing all necessary data to support their recommendation to exclude a particular source.

(3) When the authority in (a)(1) above is cited, the findings shall include a description of the estimated reduction in overall costs and how the estimate was derived.

6.203 Set-asides for small business and labor surplus area concerns.

(a) To fulfill the statutory requirements relating to small business concerns and labor surplus area concerns, contracting officers may set aside solicitations to allow only such business concerns to compete. This includes contract actions conducted under the Small Business Innovation Research Program established under Pub. L. 97-219.

(b) No separate justification or determination and findings is required under this part to set aside a contract action for small business or labor surplus area concerns.

(c) Subpart 19.5 prescribes policies and procedures that shall be followed with respect to small business set-asides.

(d) Subpart 20.2 prescribes policies and procedures that shall be followed with respect to labor surplus area set-asides.

6.204 Section 8(a) competition.

(a) To fulfill statutory requirements relating to section 8(a) of the Small Business Act, as amended by Pub. L. 100-656, contracting officers may limit competition to eligible 8(a) contractors (see subpart 19.8).

(b) No separate justification or determination and findings is required under this part to limit competition to eligible 8(a) contractors.

[54 FR 46005, Oct. 31, 1989]

Subpart 6.3—Other Than Full and Open Competition

6.300 Scope of subpart.

This subpart prescribes policies and procedures, and identifies the statutory authorities, for contracting without providing for full and open competition.

6.301 Policy.

(a) 41 U.S.C. 253(c) and 10 U.S.C. 2304(c) each authorize, under certain conditions, contracting without providing for full and open competition. The Department of Defense, Coast Guard, and National Aeronautics and Space Administration are subject to 10 U.S.C. 2304(c). Other executive agencies are subject to 41 U.S.C. 253(c). Contracting without providing for full and open competition or full and open competition after exclusion of sources is a violation of statute, unless permitted by one of the exceptions in 6.302.

(b) Each contract awarded without providing for full and open competition shall contain a reference to the specific authority under which it was so awarded. Contracting officers shall use the U.S. Code citation applicable to their agency. (See 6.302.)

(c) Contracting without providing for full and open competition shall not be justified on the basis of (1) a lack of advance planning by the requiring activity or (2) concerns related to the amount of funds available (e.g., funds will expire) to the agency or activity for the acquisition of supplies or services.

(d) When not providing for full and open competition, the contracting officer shall solicit offers from as many potential sources as is practicable under the circumstances.

(e) For contracts under this subpart, the contracting officer shall use the contracting procedures prescribed in 6.102 (a) or (b), if appropriate, or any other procedures authorized by this regulation.

6.302 Circumstances permitting other than full and open competition.

The following statutory authorities (including applications and limitations) permit contracting without providing for full and open competition. Requirements for justifications to support the use of these authorities are in 6.303.

[50 FR 52431, Dec. 23, 1985]

6.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(1) or 41 U.S.C. 253(c)(1).

(2) When the supplies or services required by the agency are available from only one responsible source, or, for DoD, NASA, and the Coast Guard, from only one or a limited number of responsible sources, and no other type of supplies or services will satisfy agency requirements, full and open competiton need not be provided for.

(i) Supplies or services may be considered to be available from only one source if the source has submitted an unsolicited research proposal that:

(A) Demonstrates a unique and innovative concept, or, demonstrates a unique capability of the source to provide the particular research services proposed;

(B) Offers a concept or services not otherwise available to the Government; and

(C) Does not resemble the substance of a pending competitive acquisition. (See 10 U.S.C. 2304(d)(1)(A) and 41 U.S.C. 253(d)(1)(A).)

(ii) Supplies may be deemed to be available only from the original source in the case of a follow-on contract for the continued development or production of a major system or highly specialized equipment, including major components thereof, when it is likely that award to any other source would result in (A) substantial duplication of cost to the Government that is not expected to be recovered through competition, or (B) unacceptable delays in fulfilling the agency's requirements. (See 10 U.S.C. 2304(d)(1)(B) or 41 U.S.C. 253(d)(1)(B).)

(iii) For DoD, NASA, and the Coast Guard, services may be deemed to be available only from the original source in the case of follow-on contracts for the continued provision of highly specialized services when it is likely that award to any other source would result in (A) substantial duplication of cost to the Government that is not expected to be recovered through competition, or (B) unacceptable delays in fulfilling the agency's requirements. (See 10 U.S.C. 2304(d)(1)(B)).

(b) *Application.* This authority shall be used, if appropriate, in preference to the authority in 6.302-7; it shall not be used when any of the other circumstances is applicable. Use of this authority may be appropriate in situations such as the following (these examples are not intended to be all-inclusive and do not consitute authority in and of themselves):

(1) When there is a reasonable basis to conclude that the agency's minimum needs can only be satisfied by (i) unique supplies or services available from only one source or only one supplier with unique capabilities; or, (ii) for DoD, NASA, and the Coast Guard, unique supplies or services available from only one or a limited number of sources or from only one or a limited number of suppliers with unique capabilities.

(2) The existence of limited rights in data, patent rights, copyrights, or secret processes; the control of basic raw material; or similar circumstances, make the supplies and services available from only one source (however, the mere existence of such rights or circumstances does not in and of itself justify the use of these authorities) (see part 27).

(3) When acquiring electric power or energy, gas (natural or manufactured), water, or other utility services, circumstances may dictate that only one supplier can furnish the service (see 8.304-5(d)); or when the contemplated contract is for construction of a part of a utility system and the utility company itself is the only source available to work on the system.

(4) When the agency head has determined in accordance with the agency's standardization program that only specified makes and models of technical equipment and parts will satisfy the agency's needs for additional units or replacement items, and only one source is available.

(c) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304.

(2) For contracts awarded using this authority, the notices required by 5.201 shall have been published and any bids and proposals must have been considered. (See 15.402(g).)

[50 FR 52431, Dec. 23, 1985, as amended at 52 FR 21886, June 9, 1987; 53 FR 27463, July 20, 1988]

6.302-2 Unusual and compelling urgency.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(2) or 41 U.S.C. 253(c)(2).

(2) When the agency's need for the supplies or services is of such an unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals, full and open competition need not be provided for.

(b) *Application.* This authority applies in those situations where (1) an unusual and compelling urgency precludes full and open competition, and (2) delay in award of a contract would result in serious injury, financial or other, to the Government.

(c) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304. These justifications may be made and approved after contract award when preparation and approval prior to award would unreasonably delay the acquisition.

(2) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

[50 FR 52431, Dec. 23, 1985]

6.302-3 Industrial mobilization; or engineering, developmental, or research capability.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(3) or 41 U.S.C. 253(c)(3).

(2) Full and open competition need not be provided for when it is necessary to award the contract to a particular source or sources in order (i) to maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization, or (ii) to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

(b) *Application.* (1) Use of the authority in paragraph (a)(2)(i) above may be appropriate when it is necessary to—

(i) Keep vital facilities or suppliers in business or make them available in the event of a national emergency;

(ii) Train a selected supplier in the furnishing of critical supplies or serv-

Reproduced from poor document.

best copy available

ices, prevent the loss of a supplier's ability and employees' skills, or maintain active engineering, research, or development work;

(iii) Maintain properly balanced sources of supply for meeting the requirements of acquisition programs in the interest of industrial mobilization (when the quantity required is substantially larger than the quantity that must be awarded in order to meet the objectives of this authority, that portion not required to meet such objectives will be acquired by providing for full and open competition as appropriate under this part);

(iv) Limit competition for current acquisition of selected supplies or servces approved for production planning under the Department of Defense Industrial Preparedness Program to planned producers with whom indusrial preparedness agreements for hose items exist, or limit award to oferors who agree to enter into indusrial preparedness agreements;

(v) Create or maintain the required domestic capability for production of ritical supplies by limiting competiion to items manufactured in the United States or the United States and Canada;

(vi) Continue in production, contracors that are manufacturing critical tems, where there would otherwise be break in production;

(vii) Divide current production reuirements among two or more conractors to provide for an adequate inustrial mobilization base; or

(viii) Acquire items covered by subart 8.2, Jewel Bearings and Related tems.

(2) Use of the authority in paraaph (a)(2)(ii) above may be approriate when it is necessary to—

(i) Establish or maintain an essential apability for theoretical analyses, exloratory studies, or experiments in ny field of science or technology;

(ii) Establish or maintain an essenal capability for engineering or develomental work calling for the practil application of investigative findgs and theories of a scientific or chnical nature; or

(iii) Contract for supplies or services are necessary incident to paraaphs (b)(2)(i) or (ii) above.

(c) *Limitations.* Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304.

[50 FR 52431, Dec. 23, 1985]

6.302-4 International agreement.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(4) or 41 U.S.C. 253(c)(4).

(2) Full and open competition need not be provided for when precluded by the terms of an international agreement or a treaty between the United States and a foreign government or international organization, or the written directions of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government.

(b) *Application.* This authority may be used in circumstances such as—

(1) When a contemplated acquisition is to be reimbursed by a foreign country that requires that the product be obtained from a particular firm as specified in official written direction such as a Letter of Offer and Acceptance; or

(2) When a contemplated acquisition is for services to be performed, or supplies to be used, in the sovereign territory of another country and the terms of a treaty or agreement specify or limit the sources to be solicited.

(c) *Limitations.* Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304.

[50 FR 52432, Dec. 23, 1985]

6.302-5 Authorized or required by statute.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(5) or 41 U.S.C. 253(c)(5).

(2) Full and open competition need not be provided for when (i) a statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source, or (ii) the agency's need is for a brand name commercial item for authorized resale.

(b) *Application.* This authority may be used when statutes, such as the following, expressly authorize or require that acquisition be made from a specified source or through another agency:

(1) Federal Prison Industries (UNICOR)—18 U.S.C. 4124 (see subpart 8.6);

(2) Qualified Nonprofit Agencies for the Blind or other Severely Handicapped—41 U.S.C. 46-48c (see subpart 8.7);

(3) Government Printing and Binding—44 U.S.C. 501-504, 1121 (see subpart 8.8); or

(4) Sole source awards under the 8(a) Program—15 U.S.C. 637 (see subpart 19.8).

(c) *Limitations.* (1) The authority in paragraph (a)(2)(ii) above may be used only for purchases of brand-name commercial items for resale through commissaries or other similar facilities. Ordinarily, these purchases will involve articles desired or preferred by customers of the selling activities (but see 6.301(d)).

(2) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304, except for—

(i) Contracts awarded under (a)(2)(ii), (b)(2), or (b)(4) of this subsection; or

(ii) Contracts awarded under (a)(2)(i) of this subsection when the statute expressly requires that the procurement be made from a specified source. (Justification and approval requirements apply when the statute authorizes, but does not require, that the procurement be made from a specified source.)

[50 FR 52432, Dec. 23, 1985, as amended at 51 FR 36971, Oct. 16, 1986; 54 FR 46005, Oct. 31, 1989]

6.302-6 National security.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(6) or 41 U.S.C. 253(c)(6).

(2) Full and open competition need not be provided for when the disclosure of the agency's needs would compromise the national security unless the agency is permitted to limit the number of sources from which it solicits bids or proposals.

(b) *Application.* This authority may be used for any acquisition when disclosure of the Government's needs would compromise the national security (e.g., would violate security requirements); it shall not be used merely because the acquisition is classified, or merely because access to classified matter will be necessary to submit a proposal or to perform the contract.

(c) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304.

(2) See 5.202(a)(1) for synopsis requirements.

(3) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

[50 FR 52432, Dec. 23, 1985]

6.302-7 Public interest.

(a) *Authority.* (1) Citations: 10 U.S.C. 2304(c)(7) or 41 U.S.C. 253(c)(7).

(2) Full and open competition need not be provided for when the agency head determines that it is not in the public interest in the particular acquisition concerned.

(b) *Application.* This authority may be used when none of the other authorities in 6.302 apply.

(c) *Limitations.* (1) A written determination to use this authority shall be made in accordance with subpart 1.7, by (i) the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Transportation for the Coast Guard, or the Administrator of the National Aeronautics and Space Administration; or (ii) the head of any other executive agency. This authority may not be delegated.

(2) The Congress shall be notified in writing of such determination not less than 30 days before award of the contract.

(3) If required by the head of the agency, the contracting officer shall perpare a justification to support the determination under paragraph (c)(1) above.

(4) This Determination and Finding (D & F) shall not be made on a class basis.

[50 FR 52432, Dec. 23, 1985]

6.303 Justifications.

6.303-1 Requirements.

(a) A contracting officer shall not commence negotiations for a sole source contract, commence negotiations for a contract resulting from an unsolicited proposal, or award any other contract without providing for full and open competition unless the contracting officer—

(1) Justifies, if required in 6.302, the use of such actions in writing;

(2) Certifies the accuracy and completeness of the justification; and

(3) Obtains the approval required by 6.304.

(b) Technical and requirements personnel are responsible for providing and certifying as accurate and complete necessary data to support their recommendation for other than full and open competition.

(c) Justifications required by paragraph (a) above may be made on an individual or class basis. Any justification for contracts awarded under the authority of 6.302-7 shall only be made on an individual basis. Whenever a justification is made and approved on a class basis, the contracting officer must ensure that each contract action taken pursuant to the authority of the class justification and approval is within the scope of the class justification and approval and shall document the contract file for each contract action accordingly.

(d) Contract actions subject to the Agreement on Government Procurement (see subpart 25.4, Foreign Acquisition) may be made without providing for full and open competition only when permitted and justified pursuant to this subpart. If, in such a contract action, the authority of 6.302-3(a)(2)(i) or 6.302-7 is being cited as a basis for not providing for full and open competition, a copy of the justification shall also be forwarded, in accordance with agency procedures, to the agency's point of contact with the Office of the Unied States Trade Representative.

(e) The justifications for contracts awarded under the authority cited in 6.302-2 may be prepared and approved within a reasonable time after contract award when preparation and approval prior to award would unreasonably delay the acquisitions.

[50 FR 1729, Jan. 11, 1985, as amended at 50 FR 52433, Dec. 23, 1985; 55 FR 25526, June 21, 1990]

6.303-2 Content.

(a) Each justification shall contain sufficient facts and rationale to justify the use of the specific authority cited. As a minimum, each justification shall include the following information:

(1) Identification of the agency and the contracting activity, and specific identification of the document as a "Justification for other than full and open competition."

(2) Nature and/or description of the action being approved.

(3) A description of the supplies or services required to meet the agency's needs (including the estimated value).

(4) An identification of the statutory authority permitting other than full and open competition.

(5) A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires use of the authority cited.

(6) A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable, including whether a CBD notice was or will be publicized as required by subpart 5.2 and, if not, which exception under 5.202 applies.

(7) A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

(8) A description of the market survey conducted (see 7.101) and the results or a statement of the reasons a market survey was not conducted.

(9) Any other facts supporting the use of other than full and open competition, such as:

(i) Explanation of why technical data packages, specifications, engineering descriptions, statements of work, or purchase descriptions suitable for full and open competition have not been developed or are not available.

(ii) When 6.302-1 is cited for follow-on acquisitions as described in 6.302-1(a)(2)(ii), an estimate of the cost to the Government that would be duplicated and how the estimate was derived.

(iii) When 6.302-2 is cited, data, estimated cost, or other rationale as to the extent and nature of the harm to the Government.

(10) A listing of the sources, if any, that expressed, in writing, an interest in the acquisition.

(11) A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

(12) Contracting officer certification that the justification is accurate and complete to the best of the contracting officer's knowledge and belief.

(b) Each justification shall include evidence that any supporting data that is the responsibility of technical or requirements personnel (e.g., verifying the Government's minimum needs or schedule requirements or other rationale for other than full and open competition) and which form a basis for the justification have been certified as complete and accurate by the technical or requirements personnel.

[50 FR 1729, Jan. 11, 1985, as amended at 50 FR 52433, Dec. 23, 1985]

6.304 Approval of the justification.

(a) Except for paragraph (b) of this section, the justification for other than full and open competition shall be approved in writing—

(1) For a proposed contract not exceeding $100,000, the contracting officer's certification required by 6.303-2(a)(12) will serve as approval unless a higher approving level is established in agency procedures.

(i) Contracts under the authority cited in 6.302-4 or 6.302-5;

(ii) Contracts for electric power or energy, gas (natural or manufactured), water, or other utility services when such services are available from only one source;

(iii) Contracts for educational services from nonprofit institutions; or

(iv) Contracts not exceeding $25,000.

(2) For a proposed contract over $100,000 but not exceeding $1,000,000, by the competition advocate for the procuring activity designated pursuant to 6.501. This authority is not delegable.

(3) For a proposed contract over $1,000,000 but not exceeding $10,000,000, by the head of the procuring activity, or a designee who—

(i) If a member of the armed forces, is a general or flag officer; or

(ii) If a civilian, is serving in a position in grade GS 16 or above under the General Schedule (or in a comparable or higher position under another schedule).

(4) For a proposed contract over $10,000,000, by the senior procurement executive of the agency designated pursuant to the OFPP Act (41 U.S.C. 414(3)) in accordance with agency procedures. Except as provided in 10 U.S.C. 2304(f)(1)(B)(iii), which applies to the Department of Defense, this authority is not delegable.

(b) Any justification for a contract awarded under the authority of 6.302-7, regardless of dollar amount, shall be considered approved when the determination required by 6.302-7(c)(1) is made.

(c) A class justification for other than full and open competition shall be approved in writing in accordance with agency procedures. The approval level shall be determined by the estimated total value of the class.

(d) The estimated dollar value of all options shall be included in determining the approval level of a justification.

[50 FR 1729, Jan. 11, 1985, as amended at 50 FR 52433, Dec. 23, 1985; 54 FR 13023, Mar. 29, 1989; 55 FR 3881, Feb. 5, 1990]

6.305 Availability of the justification.

(1) The justification required by 6.303-1 and any related information shall be made available for public inspection as required by 10 U.S.C. 2304(f)(4) and 41 U.S.C. 303(f)(4). Contracting officers shall carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before making the justifications available for public inspection. Contracting officers shall also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act (5 U.S.C. 552)

in determining whether other data should be removed.

(2) If a Freedom of Information request is received, contracting officers shall comply with subpart 24.2.

Subpart 6.4—Sealed Bidding and Competitive Proposals

6.401 Sealed bidding and competitive proposals.

Sealed bidding and competitive proposals, as described in parts 14 and 15, are both acceptable procedures for use under subparts 6.1, 6.2, and when appropriate, under subpart 6.3. Contracting officers shall exercise good judgment in selecting the method of contracting that best meets the needs of the Government. If the choice is to use competitive proposals rather than sealed bidding, the contracting officer shall briefly explain, in writing, which of the four conditions in paragraph (a) of this section has not been met. No additional documentation or justification is required.

(a) *Sealed bids.* (See part 14 for procedures.) Contracting officers shall solicit sealed bids if—

(1) Time permits the solicitation, submission, and evaluation of sealed bids;

(2) The award will be made on the basis of price and other price-related factors;

(3) It is not necessary to conduct discussions with the responding offerors about their bids; and

(4) There is reasonable expectation of receiving more than one sealed bid.

(b) *Competitive proposals.* (See part 15 for procedures.)

(1) Contracting officers may request competitive proposals if sealed bids are not appropriate under paragraph (a) above.

(2) Because of differences in areas such as law, regulations, and business practices, it is generally necessary to conduct discussions with offerors relative to proposed contracts to be made and performed outside the United States, it possessions, or Puerto Rico. Competitive proposals will therefore be used for these contracts unless discussions are not required and the use of sealed bids is otherwise appropriate.

[50 FR 1729, Jan. 11, 1985; 50 FR 4221, Jan. 30, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 5054, Jan. 31, 1989]

Subpart 6.5—Competition Advocates

6.501 Requirement.

As required by section 20 of the Office of Federal Procurement Policy Act, the head of each executive agency shall designate a competition advocate for the agency and for each procuring activity of the agency. The competition advocates shall—

(a) Be in positions other than that of the agency senior procurement executive;

(b) Not be assigned any duties or responsibilities that are inconsistent with 6.502 below; and

(c) Be provided with staff or assistance (e.g., specialists in engineering, technical operations, contract administration, financial management, supply management, and utilization of small and disadvantaged business concerns), as may be necessary to carry out the advocate's duties and responsibilities.

6.502 Duties and responsibilities.

(a) Agency competition advocates shall—

(1) Be responsible for challenging barriers to and promoting full and open competition in the acquisition of supplies and services by the agency;

(2) Review the contracting operations of the agency and identify and report to the agency senior procurement executive—

(i) Opportunities and actions taken to achieve full and open competition in the contracting operations of the agency; and

(ii) Any condition or action that has the effect of unnecessarily restricting competition in the contract actions of the agency.

(3) Prepare and submit an annual report to the agency senior procurement executive, in accordance with agency procedures, describing—

(i) Such advocate's activities under this subpart;

(ii) New initiatives required to increase competition;

(iii) Any barriers to full and open competition that remain; and

(iv) Other ways in which the agency has emphasized competition in areas such as acquisition training and research.

(4) Recommend to the senior procurement executive of the agency goals and plans for increasing competition on a fiscal year basis; and

(5) Recommend to the senior procurement executive of the agency a system of personal and organizational accountability for competition, which may include the use of recognition and awards to motivate program managers, contracting officers, and others in authority to promote competition in acquisition.

(b) Procuring activity competition advocates designated pursuant to 6.501 shall be responsible for—

(1) Promoting full and open competition in the procuring activity; and

(2) Challenging barriers to such competition, including unnecessarily detailed specifications and unnecessarily restrictive statements of need.

PART 7—ACQUISITION PLANNING

Sec.

7.000 Scope of part.

Subpart 7.1—Acquisition Plans

7.101 Definitions.
7.102 Policy.
7.103 Agency-head responsibilities.
7.104 General procedures.

7.106 Additional requirements for major systems.

Subpart 7.2—Planning for the Purchase of Supplies in Economic Quantities

7.200 Scope of subpart.
7.201 [Reserved]
7.202 Policy.
7.203 Solicitation provision.
7.204 Responsibilities of contracting officers.

Subpart 7.3—Contractor Versus Government Performance

7.300 Scope of subpart.
7.301 Policy.
7.302 General.
7.303 Determining availability of private commercial sources.
7.304 Procedures.

Sec.

7.305 Solicitation provisions and contract clause.
7.306 Evaluation.
7.307 Appeals.

Subpart 7.4—Equipment Lease or Purchase

7.400 Scope of subpart.
7.401 Acquisition considerations.
7.402 Acquisition methods.
7.403 General Services Administration assistance.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42124, Sept. 19, 1983, unless otherwise noted.

7.000 Scope of part.

This part prescribes policies and procedures for—

(a) Developing acquisition plans;

(b) Determining whether to use commercial or Government resources for acquisition of supplies or services; and

(c) Deciding whether it is more economical to lease equipment rather than purchase it.

Subpart 7.1—Acquisition Plans

7.101 Definitions.

Acquisition planning means the process by which the efforts of all personnel responsible for an acquisition are coordinated and integrated through a comprehensive plan for fulfilling the agency need in a timely manner and at a reasonable cost. It includes developing the overall strategy for managing the acquisition.

Acquisition streamlining, as used in this subpart means any effort that results in more efficient and effective use of resources to design and develop, or produce quality systems. This includes ensuring that only necessary and cost-effective requirements are included, at the most appropriate time in the acquisition cycle, in solicitations and resulting contracts for the design, development, and production of new systems, or for modifications to existing systems that involve redesign of systems or subsystems.

Design-to-cost is a concept that establishes cost elements as management goals to achieve the best balance between life-cycle cost, acceptable performance, and schedule. Under this concept, cost is a design constraint during the design and development phases and a management discipline throughout the acquisition and operation of the system or equipment.

Life-cycle cost means the total cost to the Government of acquiring, operating, supporting, and (if applicable) disposing of the items being acquired.

Market survey means attempts to ascertain whether other qualified sources capable of satisfying the Government's requirement exist. This testing of the marketplace may range from written or telephone contacts with knowledgeable federal and nonfederal experts regarding similar or duplicate requirements, and the results of any market test recently undertaken, to the more formal sources-sought announcements in pertinent publications (e.g., technical/scientific journals, or the Commerce Business Daily), or solicitations for information or planning purposes. (See 15.405)

Planner, as used in this subpart, means the designated person or office responsible for developing and maintaining a written plan, or for the planning function in those acquisitions not requiring a written plan.

[48 FR 42124, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 34226, Sept. 2, 1988]

7.102 Policy.

Agencies shall perform acquisition planning and conduct market surveys for all acquisitions in order to promote and provide for full and open competition (see part 6), or, when full and open competition is not required in accordance with part 6, to obtain competition to the maximum extent practicable, with due regard to the nature of the supplies and services to be acquired (10 U.S.C. 2301(a)(5) and 41 U.S.C. 253A(a)(1)). This planning shall integrate the efforts of all personnel responsible for significant aspects of the acquisition. The purpose of this planning is to ensure that the Government meets its needs in the most effective, economical, and timely manner. Agencies that have a detailed acquisition planning system in place that generally meets the requirements of 7.104 and 7.105 need not revise their system to specifically meet all of these requirements.

[50 FR 52433, Dec. 23, 1985]

7.103 Agency-head responsibilities.

The agency head or a designee shall prescribe procedures for—

(a) Ensuring that in no case is a contract entered into without full and open competition on the basis of a lack of acquisition planning or concerns related to the amount of funds available to the agency for acquisitions (10 U.S.C. 2304(f)(5) and 41 U.S.C. 253(f)(5)(A)).

(b) Ensuring that acquisition planners address the requirement to specify needs, develop specifications, and to solicit offers in such a manner to promote and provide for full and open competition with due regard to the nature of the supplies and services to be acquired (10 U.S.C. 2305(a)(1)(A) and 41 U.S.C. 253A(a)(1)). (See part 6 and 10.002.)

(c) Establishing criteria and thresholds at which increasingly greater detail and formality in the planning process is required as the acquisition becomes more complex and costly, specifying those cases in which a written plan shall be prepared;

(d) Writing plans either on a system basis or on an individual contract basis, depending upon the acquisition;

(e) Ensuring that the principles of this subpart are used, as appropriate, for those acquisitions that do not require a written plan as well as for those that do;

(f) Designating planners for acquisitions;

(g) Reviewing and approving acquisition plans and revisions to these plans;

(h) Establishing criteria and thresholds at which design-to-cost and life-cycle-cost techniques will be used;

(i) Establishing standard acquisition plan formats, if desired, suitable to agency needs; and

(j) Waiving requirements of detail and formality, as necessary, in planning for acquisitions having compressed delivery or performance schedules because of the urgency of the need.

(k) Assuring that the contracting officer, prior to contracting, reviews:

(1) The acquisition history of the supplies and services; and

(2) A description of the supplies, including, when necessary for adequate description, a picture, drawing, diagram, or other graphic representation.

[48 FR 42124, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 27561, July 3, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 27116, July 29, 1986]

7.104 General procedures.

(a) Acquisition planning should begin as soon as the agency need is identified, preferably well in advance of the fiscal year in which contract award is necessary. In developing the plan, the planner shall form a team consisting of all those who will be responsible for significant aspects of the acquisition, such as contracting, fiscal, legal, and technical personnel. The planner should review previous plans for similar acquisitions and discuss them with the key personnel involved in those acquisitions. At key dates specified in the plan or whenever significant changes occur, and no less often than annually, the planner shall review the plan and, if appropriate, revise it.

(b) Requirements and logistics personnel should avoid issuing requirements on an urgent basis or with unrealistic delivery or performance schedules, since it generally restricts competition and increases prices. Early in the planning process, the planner should consult requirements and logistics personnel who determine type, quality, quantity, and delivery requirements.

(c) The planner shall coordinate with and secure the concurrence of the contracting officer in all acquisition planning. If the plan proposes using other than full and open competition, the plan shall also be coordinated with the cognizant competition advocate.

[48 FR 42124, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 52433, Dec. 23, 1985]

7.105 Contents of written acquisition plans.

In order to facilitate attainment of the acquisition objectives, the plan must identify those milestones at which decisions should be made (see subparagraph (b)(19) below). The plan shall address all the technical, business, management, and other significant considerations that will control the acquisition. The specific content of plans will vary, depending on the nature, circumstances, and stage of the acquisition. In preparing the plan, the planner shall follow the applicable instructions in paragraphs (a) and (b) below, together with the agency's implementing procedures.

(a) *Acquisition background and objectives*—(1) *Statement of need.* Introduce the plan by a brief statement of need. Summarize the technical and contractual history of the acquisition. Discuss feasible acquisition alternatives and any related in-house effort.

(2) *Applicable conditions.* State all significant conditions affecting the acquisition, such as (i) requirements for compatibility with existing or future systems or programs and (ii) any known cost, schedule, and capability or performance constraints.

(3) *Cost.* Set forth the established cost goals for the acquisition and the rationale supporting them, and discuss related cost concepts to be employed, including, as appropriate, the following items:

(i) *Life-cycle cost.* Discuss how life-cycle cost will be considered. If it is not used, explain why. If appropriate, discuss the cost model used to develop life-cycle-cost estimates.

(ii) *Design-to-cost.* Describe the design-to-cost objective(s) and underlying assumptions, including the rationale for quantity, learning-curve, and economic adjustment factors. Describe how objectives are to be applied, tracked, and enforced. Indicate specific related solicitation and contractual requirements to be imposed.

(iii) *Application of should-cost.* Describe the application of should-cost analysis to the acquisition (see 15.810).

(4) *Capability or performance.* Specify the required capabilities or performance characteristics of the supplies or services being acquired and state how they are related to the need.

(5) *Delivery or performance-period requirements.* Describe the basis for establishing delivery or performance-period requirements (see subpart 12.1).

Explain and provide reasons for any urgency if it results in concurrency of development and production or constitutes justification for not providing for full and open competition.

(6) *Trade-offs.* Discuss the expected consequences of trade-offs among the various cost, capability or performance, and schedule goals.

(7) *Risks.* Discuss technical, cost, and schedule risks and describe what efforts are planned or underway to reduce risk and the consequences of failure to achieve goals. If concurrency of development and production is planned, discuss its effects on cost and schedule risks.

(8) *Acquisition streamlining.* If specifically designated by the requiring agency as a program subject to acquisition streamlining, discuss plans and procedures to:

(i) Encourage industry participation by using draft solicitations, presolicitation conferences, and other means of stimulating industry involvement during design and development in recommending the most appropriate application and tailoring of contract requirements;

(ii) Select and tailor only the necessary and cost-effective requirements; and

(iii) State the timeframe for identifying which of those specifications and standards, originally provided for guidance only, shall become mandatory (see 10.002(c)).

(b) *Plan of action.* (1) *Sources.* Indicate the prospective sources of supplies and/or services that can meet the need. Consider required sources of supplies and services (see part 8). Include consideration of small business, small disadvantaged business, and labor surplus area concerns (see parts 19 and 20). If the acquisition or a part of it is for commercial or commercial-type products (see part 11), address the results of market research and analysis and indicate their impact on the various elements of the plan. If the acquisition or part of it is for other than commercial or commercial-type products, address the extent and results of the market survey conducted or the reasons one was not or will not be conducted.

(2) *Competition.* (i) Describe how competition will be sought, promoted, and sustained throughout the course of the acquisition. If full and open competition is not contemplated cite the authority in 6.302, discuss the basis for the application of that authority, identify the source(s), and discuss why full and open competition cannot be obtained.

(ii) Identify the major components or subsystems. Discuss component breakout plans relative to these major components or subsystems. Describe how competition will be sought, promoted, and sustained for these components or subsystems.

(iii) Describe how competition will be sought, promoted, and sustained for spares and repair parts. Identify the key logistic milestones, such as technical data delivery schedules and acquisition method coding conferences, that affect competition.

(iv) When effective subcontract competition is both feasible and desirable, describe how such subcontract competition will be sought, promoted, and sustained throughout the course of the acquisition. Identify any known barriers to increasing subcontract competition and address how to overcome them.

(3) *Source-selection procedures.* Discuss the source-selection procedures for the acquisition, including the timing for submission and evaluation of proposals, and the relationship of evaluation factors to the attainment of the acquisition objectives (see subpart 15.6).

(4) *Contracting considerations.* For each contract contemplated, discuss contract type selection (see part 16); use of multiyear contracting, options, or other special contracting methods (see part 17); any special clauses, special solicitation provisions, or FAR deviations required (see subpart 1.4); whether sealed bidding or negotiation will be used and why; whether equipment will be acquired by lease or purchase (see subpart 7.4) and why; and any other contracting considerations.

(5) *Budgeting and funding.* Describe how budget estimates were derived and discuss the schedule for obtaining adequate funds at the time when they are required (see subpart 32.7).

(6) *Product descriptions.* In accordance with part 10, explain the choice of product description types to be used in the acquisition.

(7) *Priorities, allocations, and allotments.* When urgency of the requirement dictates a particularly short delivery or performance schedule, certain priorities may apply. If so, specify the method for obtaining and using priorities, allocations, and allotments, and the reasons for them (see subpart 12.3).

(8) *Contractor versus Government performance.* Address the consideration given to OMB Circular No. A-76 (see subpart 7.3).

(9) *Management information requirements.* Discuss, as appropriate, what management system will be used by the Government to monitor the contractor's effort.

(10) *Make or buy.* Discuss any consideration given to make-or-buy programs (see subpart 15.7).

(11) *Test and evaluation.* To the extent applicable, describe the test program of the contractor and the Government. Describe the test program for each major phase of a major system acquisition. If concurrency is planned, discuss the extent of testing to be accomplished before production release.

(12) *Logistics considerations.* Describe—

(i) The assumptions determining contractor or agency support, both initially and over the life of the acquisition, including consideration of contractor or agency maintenance and servicing (see subpart 7.3) and distribution of commercial products (see part 11);

(ii) The reliability, maintainability, and quality assurance requirements, including any planned use of warranties (see part 46); and

(iii) The requirements for contractor data (including repurchase data) and data rights, their estimated cost, and the use to be made of the data (see part 27).

(iv) Standardization concepts, including the necessity to designate, in accordance with agency procedures, technical equipment as *standard* so that future purchases of the equipment can be made from the same manufacturing source.

(13) *Government-furnished property.* Indicate any property to be furnished to contractors, including material and facilities, and discuss any associated considerations, such as its availability or the schedule for its acquisition (see part 45).

(14) *Government-furnished information.* Discuss any Government information, such as manuals, drawings, and test data, to be provided to prospective offerors and contractors.

(15) *Environmental considerations.* Discuss environmental issues associated with the acquisition, the applicability of an environmental assessment or environmental impact statement (see 40 CFR part 1502), the proposed resolution of environmental issues, and any environment-related requirements to be included in solicitations and contracts.

(16) *Security considerations.* For acquisitions dealing with classified matters, discuss how adequate security will be established, maintained, and monitored (see subpart 4.4).

(17) *Other considerations.* Discuss, as applicable, energy conservation measures, standardization concepts, the industrial readiness program, the Defense Production Act, the Occupational Safety and Health Act, foreign sales implications, and any other matters germane to the plan not covered elsewhere.

(18) *Milestones for the acquisition cycle.* Address the following steps and any others appropriate:

Acquisition plan approval.

Statement of work.

Specifications.

Data requirements.

Completion of acquisition-package preparation.

Purchase request.

Justification and approval for other than full and open competition where applicable and/or any required D&F approval.

Issuance of synopsis.

Issuance of solicitation.

Evaluations of proposals, audits, and field reports.

Beginning and completion of negotiations.

Contract preparation, review, and clearance.

Contract award.

i9) *Identification of participants in*
uisition plan preparation. List the
ividuals who participated in prepar-
the acquisition plan, giving contact
ormation for each.

FR 42124, Sept. 19, 1983, as amended at

988]

4 Additional requirements for major
systems.

) In planning for the solicitation of
ajor system (see part 34) develop-
nt contract, planners shall consider
uiring offerors to include, in their
ers, proposals to incorporate in the
ign of a major system—
) Items which are currently avail-
within the supply system of the
ncy responsible for the major
tem, available elsewhere in the na-
al supply system, or commercially
ilable from more than one source;

) Items which the Government will
ble to acquire competitively in the
ure if they are likely to be needed
substantial quantities during the
tem's service life.
) In planning for the solicitation of
ajor system (see part 34) produc-
contract, planners shall consider
uiring offerors to include, in their
ers, proposals identifying opportu-
es to assure that the Government
be able to obtain, on a competitive
s, items acquired in connection
the system that are likely to be
uired in substantial quantities
ing the service life of the system.
posals submitted in response to
requirements may include the
owing:
) Proposals to provide the Govern-
t the right to use technical data to
provided under the contract for
petitive future acquisitions, to-
er with the cost to the Govern-
t, if any, of acquiring such techni-
data and the right to use such

) Proposals for the qualification or
lopment of multiple sources of
ly for competitive future acquisi-

) In determining whether to apply
graphs (a) and (b) above, planners

shall consider the purposes for which the system is being acquired and the technology necessary to meet the system's required capabilities. If such proposals are required, the contracting officer shall consider them in evaluating competing offers. In noncompetitive awards, the factors in paragraphs (a) and (b) above, may be considered by the contracting officer as objectives in negotiating the contract.

[50 FR 27561, July 3, 1985 and 51 FR 27116, July 29, 1986]

Subpart 7.2—Planning for the Purchase of Supplies in Economic Quantities

SOURCE: 50 FR 35475, Aug. 30, 1985, unless otherwise noted.

7.200 Scope of subpart.

This subpart prescribes policies and procedures for gathering information from offerors to assist the Government in planning the most advantageous quantities in which supplies should be purchased.

7.201 [Reserved]

7.202 Policy.

(a) Agencies are required by 10 U.S.C. 2384(a) and 41 U.S.C. 253(f) to procure supplies in such quantity as (1) will result in the total cost and unit cost most advantageous to the Government, where practicable, and (2) does not exceed the quantity reasonably expected to be required by the agency.

(b) Each solicitation for a contract for supplies is required, if practicable, to include a provision inviting each offeror responding to the solicitation (1) to state an opinion on whether the quantity of the supplies proposed to be acquired is economically advantageous to the Government, and (2) if applicable, to recommend a quantity or quantities which would be more economically advantageous to the Government. Each such recommendation is required to include a quotation of the total price and the unit price for supplies procured in each recommended quantity.

7.203 Solicitation provision.

Contracting officers shall insert the provision at 52.207-4, Economic Purchase Quantity—Supplies, in solicitations for supplies. The provision need not be inserted if the solicitation is for a contract under the General Services Administration's multiple award schedule contract program, or if the contracting officer determines that (a) the Government already has the data, (b) the data is otherwise readily available, or (c) it is impracticable for the Government to vary its future requirements.

[52 FR 30076, Aug. 12, 1987]

7.204 Responsibilities of contracting officers.

(a) Contracting officers are responsible for transmitting offeror responses to the solicitation provision at 52.207-4 to appropriate inventory management/requirements development activities in accordance with agency procedures. The economic purchase quantity data so obtained are intended to assist inventory managers in establishing and evaluating economic order quantities for supplies under their cognizance.

(b) In recognition of the fact that economic purchase quantity data furnished by offerors are only one of many data inputs required for determining the most economical order quantities, contracting officers should generally take no action to revise quantities to be acquired in connection with the instant procurement. However, if a significant price variation is evident from offeror responses, and the potential for significant savings is apparent, the contracting officer shall consult with the cognizant inventory manager or requirements development activity before proceeding with an award or negotiations. If this consultation discloses that the Government should be ordering an item of supply in different quantities and the inventory manager/requirements development activity concurs, the solicitation for the item should be amended or canceled and a new requisition should be obtained.

Subpart 7.3—Contractor Versus Government Performance

7.300 Scope of subpart.

This subpart prescribes policies and procedures for use in acquisitions of commercial or industrial products and services subject to (a) OMB Circular No. A-76 (the Circular), Policies for Acquiring Commercial or Industrial Products and Services Needed by the Government, and (b) the Supplement to OMB Circular No. A-76.

[48 FR 42124, Sept. 19, 1983, as amended at 55 FR 25526, June 21, 1990]

7.301 Policy.

The Circular provides that it is the policy of the Government to (a) rely generally on private commercial sources for supplies and services, if certain criteria are met, while recognizing that some functions are inherently Governmental and must be performed by Government personnel, and (b) give appropriate consideration to relative cost in deciding between Government performance and performance under contract. In comparing the costs of Government and contractor performance, the Circular provides that agencies shall base the contractor's cost of performance on firm offers.

7.302 General.

The Circular and the Supplement—

(a) Prescribe the overall policies and detailed procedures required of all agencies in making cost comparisons between contractor and Government performance. In making cost comparisons, agencies shall—

(1) Prepare an estimate of the cost of Government performance based on the same work statement and level of performance as apply to offerors; and

(2) Compare the total cost of Government performance to the total cost of contracting with the potentially successful offeror.

(b) Provide that solicitations and synopses of the solicitations issued to obtain offers for comparison purposes shall state that they will not result in a contract if Government performance is determined to be more advanta-

s (see the solicitation provisions
.207-1 and 52.207-2);
Provide that each cost compari-
hall be reviewed by an activity in-
ndent of the activity which pre-
l the cost analysis to ensure con-
ance with the instructions in the
lement; and
Provide that, ordinarily, agencies
ld not incur the delay and ex-
e of conducting cost comparison
es to justify a Government com-
ial or industrial activity involving
fewer full-time equivalents as de-
in OMB Circular No. A-76. Ac-
es below this threshold should be
rmed by contract unless in-house
rmance is justified. However, if
is reason to believe that inad-
te competition or other factors
causing commercial prices to be
asonable, a cost comparison study
be conducted.

R 35475, Aug. 30, 1985, as amended at
17856, May 18, 1988; 55 FR 25526,
21, 1990]

**Determining availability of private
ommercial sources.**

During acquisition planning re-
, contracting officers shall assist
dentifying private commercial
es.
In making all reasonable efforts
entify such sources, the contract-
fficer shall assist in—
Synopsizing the requirement in
Commercial Business Daily until a
nable number of potential
es are identified. If necessary,
osis shall be submitted at least
times in a 90-day period with a
num of 30 days between notices,
when necessary to meet an
t requirement, this notification
be limited to a total of two no-
in a 30-day period with a mini-
of 15 days between them). If suf-
t sources are not identified
gh synopses or from subpara-
(b)(2) of this section, a finding
no commercial source is available
e made and the cost comparison
led; and
Requesting assistance from the
Business Administration, the
tment of Commerce, and the
al Services Administration.

[48 FR 42124, Sept. 19, 1983, as amended at 55 FR 25526, June 21, 1990]

7.304 Procedures.

(a) *Work statement.* When private commercial sources are available and a cost comparison is required, the Government's functional managers responsible for the comparison or another group shall prepare a comprehensive, performance work statement. The work statement must—

(1) Accurately reflect the actual Government requirement, stating adequately *what* is to be done without prescribing *how* it is to be done;

(2) Include performance standards that can be used to ensure a comparable level of performance for both Government and contractor and a common basis for evaluation; and

(3) Be reviewed by the contracting officer to ensure that it is adequate and appropriate to serve as a basis for solicitation and award.

(b) *Cost estimate.* The agency personnel who develop the cost estimate for Government performance—

(1) Enter on a cost-comparison form (see Part IV of the Supplement) the cost estimate and the other elements required to accomplish a cost comparison;

(2) Review the estimate for completeness and accuracy and have the estimate audited; and

(3) Submit to the contracting officer the completed form and all necessary detailed supporting data in a sealed, dated envelope not later than the time established for receipt of initial proposals or bid opening. If more time is needed to develop the Government's cost estimate, the contracting officer shall amend the opening date of the solicitation.

(c) *Solicitation.* (1) The contracting officer shall issue a solicitation based on the work statement prepared in accordance with paragraph (a) above. Prepriced option prices in existing contracts will not be used instead of issuing a new solicitation when conducting a cost comparison under a new start.

(2) Firm offers shall be required for the period covered by the cost comparison, by using (i) a base contract period and any applicable priced op-

tions to total the amount of time represented by the cost estimate for Government performance (see subpart 17.2), or (ii) a multiyear contract when appropriate (see subpart 17.1).

(3) Solicitations shall not, unless a proper determination to the contrary is made, limit award to U.S. offerors.

(d) *Integrity of cost comparison.* (1) The confidentiality of (i) the cost estimate for Government performance and (ii) the bids in sealed bid cost comparisons shall be maintained until the time of bid opening, to ensure that they are completely independent.

(2) For cost comparisons conducted using the results of negotiation procedures, confidentiality and independence shall be maintained until after negotiations are completed and the most advantageous offer has been selected.

(3) Personnel who have knowledge of the cost figures in the cost estimate for Government performance shall not participate in the offer-evaluation process unless the contract file is adequately documented to show that no other qualified personnel were available.

[48 FR 42124, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 25526, June 21, 1990]

7.305 Solicitation provisions and contract clause.

(a) The contracting officer shall, when contracting by sealed bidding, insert in solicitations issued for the purpose of comparing the costs of contractor and Government performance the provision at 52.207-1, Notice of Cost Comparison (Sealed-Bid).

(b) The contracting officer shall, when contracting by negotiation, insert in requests for proposals issued for the purpose of comparing the costs of contractor and Government performance the provision at 52.207-2, Notice of Cost Comparison (Negotiated).

(c) The contracting officer shall insert the clause at 52.207-3, Right of First Refusal of Employment, in all solicitations which may result in a conversion from in-house performance to contract performance of work currently being performed by the Government and in contracts that result from the solicitations, whether or not a cost comparison is conducted.

[48 FR 42124, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 52 FR 9037, Mar. 20, 1987]

7.306 Evaluation.

The evaluation procedure to be followed after the contracting officer receives the cost estimate for Government performance (see 7.304(b)) and the responses to the solicitation differs from conventional contracting procedures as follows:

(a) *Sealed bidding.* (1) At the public bid opening, after recording of bids, the contracting officer shall—

(i) Open the sealed envelope containing the cost-comparison form on which the cost estimate for Government performance has been entered;

(ii) Enter on the cost-comparison form the price of the apparent low bidder;

(iii) Announce the result, based on the initial cost-comparison form, stating that this result is subject to required agency processing, including evaluation for responsiveness and responsibility, completion and audit of the cost-comparison form (see Supplement, Part IV, Illustration 1), and resolution of any requests for review under the appeals procedure (see 7.307);

(iv) State that no final determination for performance by the Government or under contract will be made during the public review period specified in the solicitation (at least 15 working days, up to a maximum of 30 working days if the contracting officer considers the action to be complex; the public review period begins when the documents identified in (v) below are available to interested parties), plus any additional time required for the appeals procedure; and

(v) Make available for this public review by interested parties the abstract of bids, completed cost-comparison form, and detailed data supporting the cost estimate for Government performance.

(2) After evaluation of bids (see subpart 14.4) and determinations of responsibility, the contracting officer shall provide the price of the low re-

sponsive, responsible bidder to the preparer of the cost estimate for Government performance, for final Government review of the cost-comparison form.

(3) Upon completion of the review process, including resolution of any request under 7.307, the responsible agency official shall make the final determination for performance by the Government or under contract and provide written notification to the contracting officer, who shall either award a contract or cancel the solicitation as required.

(4) The contracting officer shall make the completed and approved cost-comparison analysis available to interested parties upon request.

(b) *Negotiation.* The contracting officer shall receive proposals, evaluate them (see subpart 15.6), conduct negotiations, and select the most advantageous proposal in accordance with normal contracting procedures (see part 15). The contracting officer shall, before public announcement, open the sealed estimate in the presence of the preparer, enter the amount of the most advantageous proposal on the cost-comparison form, and return the form to the preparer of the cost estimate for Government performance for completion. The preparer shall give due consideration to all types of costs which could add or subtract from the cost of either mode of performance.

(1) If the result of the cost comparison favors performance under contract and the responsible agency official approves the result, the contracting officer shall award a contract in accordance with agency procedures. Concurrently with the award, the contracting officer shall publicly—

(i) Notify interested parties of the result of the cost comparison;

(ii) Inform interested parties that the completed cost-comparison form and detailed supporting data are available for review;

(iii) Announce the contractor's name; and

(iv) Advise interested parties that contractor preparations for performance are conditioned upon completion of the public review period specified in the solicitation plus any additional period required by the appeals procedure.

(2) If the result of the cost comparison favors Government performance, the contracting officer shall—

(i) Notify interested parties of the result of the cost comparison;

(ii) Inform interested parties that the completed cost-comparison form and detailed supporting data relative to the Government cost estimate are available for public review (see subparagraph (3) below); and

(iii) Announce the price of the offer most advantageous to the Government.

(3) The public review period shall begin with the contracting officer's announcement of the cost-comparison result and availability of the cost comparison forms and detailed supporting data to interested parties. The review period shall last for the period specified in the solicitation (at least 15 working days, up to a maximum of 30 working days if the contracting officer considers the action to be complex). Upon completion of the public review period and resolution of any questions raised under 7.307, the responsible agency official shall provide the contracting officer written notification of the final cost comparison decision. The contracting officer shall then, in the case of subparagraph (1) above, give the contractor notice to commence or cancel the contract as appropriate or, in the case of subparagraph (2) above, cancel the solicitation or award the contract, as appropriate.

[48 FR 42124, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 34125, Sept. 3, 1986; 53 FR 661, Jan. 11, 1988; 55 FR 25526, June 21, 1990]

7.307 Appeals.

(a) The Circular provides that each agency shall establish an appeals procedure for informal administrative review of the initial cost-comparison result. The appeals procedure shall provide for an independent, objective review of the initial result by an official at the same level as, or at a higher level than, the official who approved that result. This review must be completed within 30 days after the deciding official receives a request under paragraph (b) of this section. The purpose is to protect the rights of affected parties and to ensure that final agency determinations are fair, equitable, and in accordance with established policy.

(b) The Circular provides that the appeals procedure shall be used only to resolve questions concerning the calculation of the cost comparison and shall not apply to questions concerning selection of one contractor in preference to another, which shall be treated as prescribed in 14.407-8, Protests against award. Directly affected parties may request review of any discrepancy in the cost comparison. Any such requests shall be made in writing to the contracting officer, who shall forward them in accordance with agency procedures. Such requests shall be considered only if based on specific objections and received within the public review period stated in the solicitation.

[48 FR 42124, Sept. 19, 1983, as amended at 55 FR 25527, June 21, 1990]

Subpart 7.4—Equipment Lease or Purchase

7.400 Scope of subpart.

This subpart provides guidance pertaining to the decision to acquire equipment by lease or purchase. It applies to both the initial acquisition of equipment and the renewal or extension of existing equipment leases.

7.401 Acquisition considerations.

(a) Agencies should consider whether to lease or purchase equipment based on a case-by-case evaluation of comparative costs and other factors. The following factors are the minimum that should be considered:

(1) Estimated length of the period the equipment is to be used and the extent of use within that period.

(2) Financial and operating advantages of alternative types and makes of equipment.

(3) Cumulative rental payments for the estimated period of use.

(4) Net purchase price.

(5) Transportation and installation costs.

(6) Maintenance and other service costs.

(7) Potential obsolescence of the equipment because of imminent technological improvements.

(b) The following additional factors should be considered, as appropriate depending on the type, cost, complexity, and estimated period of use of the equipment:

(1) Availability of purchase options.

(2) Potential for use of the equipment by other agencies after its use by the acquiring agency is ended.

(3) Trade-in or salvage value.

(4) Imputed interest.

(5) Availability of a servicing capability, especially for highly complex equipment; e.g., can the equipment be serviced by the Government or other sources if it is purchased?

7.402 Acquisition methods.

(a) *Purchase method.* (1) Generally, the purchase method is appropriate if the equipment will be used beyond the point in time when cumulative leasing costs exceed the purchase costs.

(2) Agencies should not rule out the purchase method of equipment acquisition in favor of leasing merely because of the possibility that future technological advances might make the selected equipment less desirable.

(b) *Lease method.* (1) The lease method is appropriate if it is to the Government's advantage under the circumstances. The lease method may also serve as an interim measure when the circumstances—

(i) Require immediate use of equipment to meet program or system goals; but

(ii) Do not currently support acquisition by purchase.

(2) If a lease is justified, a lease with option to purchase is preferable.

(3) Generally, a long term lease should be avoided, but may be appropriate if an option to purchase or other favorable terms are included.

7.403 General Services Administration assistance.

(a) When requested by an agency, the General Services Administration (GSA) will assist in lease or purchase decisions by providing information such as—

(1) Pending price adjustments to Federal Supply Schedule contracts;

(2) Recent or imminent technological developments;

(3) New techniques; and

(4) Industry or market trends.

(b) Agencies may request information from the following GSA offices:

(1) Office of Information Resources Management Policy (KMA), Washington, DC 20405, for information on automatic data processing and telecommunications equipment acquisitions.

(2) Office of Commodity Management (FC), Washington, DC 20406, for information on other types of equipment.

[48 FR 42124, Sept. 19, 1983, as amended at 54 FR 29280, July 11, 1989]

PART 8—REQUIRED SOURCES OF SUPPLIES AND SERVICES

Sec.
8.000 Scope of part.
8.001 Priorities for use of Government supply sources.
8.002 Use of other Government supply sources.

Subpart 8.1—Excess Personal Property

8.101 Definition.
8.102 Policy.

SOURCE: 48 FR 42129, Sept. 19, 1983, unless otherwise noted.

8.000 Scope of part.

This part deals with the acquisition of supplies and services from or through Government supply sources.

8.001 Priorities for use of Government supply sources.

(a) Except as required by 8.002, or as otherwise provided by law, agencies shall satisfy requirements for supplies and services from or through the sources and publications listed below in descending order of priority as prescribed in 41 CFR 101-26.107:

(1) *Supplies*. (i) Agency inventories;

(ii) Excess from other agencies (see subpart 8.1);

(iii) Federal Prison Industries, Inc. (see subpart 8.6);

(iv) Procurement lists of products available from the Committee for Purchase from the Blind and Other Severely Handicapped (see subpart 8.7);

(v) Wholesale supply sources, such as stock programs of the General Services Administration (GSA) (see 41 CFR 101-26.3), the Defense Logistics Agency (see 41 CFR 101-26.6), the Department of Veterans Affairs (see 41 CFR 101-26.704), and military inventory control points;

(vi) Mandatory Federal Supply Schedules (see subpart 8.4);

(vii) Optional use Federal Supply Schedules (see subpart 8.4); and

(viii) Commercial sources (including educational and nonprofit institutions).

(2) *Services*. (i) Procurement lists of services available from the Committee for Purchase from the Blind and Other Severely Handicapped (see subpart 8.7);

(ii) Mandatory Federal Supply Schedules (see subpart 8.4) and mandatory GSA term contracts for personal property rehabilitation (see 41 CFR 101-42.1);

(iii) Optional use Federal Supply Schedules (see subpart 8.4) and optional use GSA term contracts for personal property rehabilitation (see 41 CFR 101-42.1); and

(iv) Federal Prison Industries, Inc. (see subpart 8.6), or other commercial sources (including educational and nonprofit institutions).

(b) Sources other than those listed in paragraph (a) may be used as prescribed in 41 CFR 101-26.301 and in an unusual and compelling urgency as prescribed in 6.302-2 and in 41 CFR 101-25.101-5.

[48 FR 42129, Sept. 19, 1983, as amended at 50 FR 1735, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 29280, July 11, 1989]

8.002 Use of other Government supply sources.

Agencies shall satisfy requirements for the following supplies or services from or through specified sources, as applicable:

(a) Jewel bearings and related items (see subpart 8.2);

(b) Public utility services (see subpart 8.3);

(c) Printing and related supplies (see subpart 8.8);

(d) Automatic data processing and telecommunications acquisitions (see part 39);

(e) Leased motor vehicles (see subpart 8.11);

(f) Strategic and critical materials from excess GSA inventories (See 41 CFR 101-14.2); and

(g) Helium (see 30 CFR parts 601 and 602).

Subpart 8.1—Excess Personal Property

.101 Definition.

Excess personal property means any personal property (see 45.601) under the control of a Federal agency that the agency head or a designee determines is not required for its needs and for the discharge of its responsibilities.

.102 Policy.

When it is practicable to do so, agencies shall use excess personal property as the first source of supply in fulfillng their requirements and those of their cost-reimbursement contractors. Accordingly, agencies shall ensure that all personnel make positive efforts to satisfy agency requirements by obtaining and using excess personal property (including that suitable for adaptation or substitution) before initiating contracting action.

.103 Information on available excess personal property.

Information regarding the availabilty of excess personal property can be obtained through—

(a) Review of excess personal property catalogs and bulletins issued by the General Services Administration (GSA);

(b) Personal contact with GSA or the activity holding the property;

(c) Submission of supply requirements to the regional offices of GSA GSA Form 1539, Request for Excess Personal Property, is available for this purpose); and

(d) Examination and inspection of reports and samples of excess personal roperty in GSA regional offices.

8.104 Obtaining nonreportable property.

GSA will assist agencies in meeting their requirements for supplies of the types excepted from reporting as excess by the Federal Property Management Regulations (41 CFR 101-43.312). Federal agencies requiring such supplies should contact the appropriate GSA regional office.

Subpart 8.2—Jewel Bearings and Related Items

8.201 Definitions.

Jewel bearing means a piece of synthetic corundum (sapphire or ruby) of any shape, except a phonograph needle, that has one or more polished surfaces to provide supporting surfaces or low-friction contact areas for revolving, oscillating, or sliding parts in an instrument, mechanism, subassembly, or part. A jewel bearing may be unmounted or may be mounted into a ring or bushing. Examples are watch holes—olive, watch holes—straight, pallet stones, roller jewels (jewel pins), endstones (caps), vee (cone) jewels, instrument rings, cups, and double cups.

Plant, as used in this subpart, means the Government-owned, contractor-operated William Langer Plant, Rolla, ND.

Related item, as used in this subpart, means a piece of synthetic corundum (sapphire or ruby), other than a jewel bearing, that (a) is made from material produced by the Verneuil flame fusion process, (b) has a geometric shape up to a maximum of 1 inch in any dimension, (c) requires extremely close tolerances and highly polished surfaces identical to those involved in manufacturing jewel bearings, and (d) is either mounted in a retaining or supporting structure or unmounted. Examples are window, nozzle, guide, knife edge, knife edge plate, insulator domed pin, slotted insulator, sphere, ring gauge, spacer, disc, valve seat, rod, vee groove, D-shaped insulator, and notched plate.

8.202 Policy.

Except as otherwise provided in this subpart, (a) jewel bearings shall be acquired from the Plant and (b) related items shall be acquired either from domestic manufacturers or from the Plant.

8.203 Procedures.

8.203-1 Contract clause and solicitation provision.

(a) The contracting officer shall insert the clause at 52.208-1, Required Sources for Jewel Bearings and Related Items, in solicitations and contracts that may involve items (or any subassembly, component, or part of such items) in the Federal supply classes and groups listed in paragraph (b) below, except for—

(1) Small purchases under part 13;

(2) Items purchased and used outside the United States, its possessions, and Puerto Rico; or

(3) Items that the contracting officer knows do not contain jewel bearings or related items (the contractor's certification required by 8.203-2 does not in itself satisfy this requirement).

(b) Federal supply classes and groups:

(1)	Federal Supply Classes
6605	Navigational Instruments
6610	Flight Instruments
6615	Autopilot Mechanisms and Airborne Gyro Components
6620	Engine Instruments
6625	Electrical- and Electronic-Properties Measuring and Testing Instruments
6630	Chemical-Analysis Instruments
6635	Physical-Properties Testing Equipment
6636	Environmental Chambers and Related Equipment
6640	Laboratory Equipment and Supplies
6645	Time-Measuring Instruments
6650	Optical Instruments
6655	Geophysical and Astronomical Instruments
6660	Meteorological Instruments and Apperatus
6665	Hazard-Detecting Instruments and Apparatus
6670	Scales and Balances
6675	Drafting, Surveying, and Mapping Instruments
6680	Liquid- and Gas-Flow, Liquid-Level, and Mechanical-Motion Measuring Instruments
6685	Pressure-, Temperature-, and Humidity-Measuring and Controlling Instruments
6695	Combination and Miscellaneous Instruments

(2)	Federal Supply Groups
12	Fire-Control Equipment
14	Guided Missiles
15	Aircraft, Airframe Structural Components
16	Aircraft Components and Accessories
18	Space Vehicles
23	Motor Vehicles and Motorcycles
25	Vehicular Equipment Components
42	Firefighting, Rescue, and Safety Equipment
52	Measuring Tools
58	Communications Equipment
59	Electrical and Electronic Equipment Components
63	Alarm and Signal Systems
65	Medical, Dental, and Veterinary Equipment and Supplies
67	Photographic Equipment
69	Training Aids and Devices

(c) The contracting officer shall insert the solicitation provision at 52.208-2, Jewel Bearings and Related Items Certificate (see 8.203-2 following), in solicitations that contain the clause at 52.208-1, Required Sources for Jewel Bearings and Related Items, except those for research and development.

8.203-2 Offeror's certification.

(a) The provision at 52.208-2 requires the offeror to (1) certify as to whether or not jewel bearings and/or related items will be incorporated into contract end items, (2) accept certain purchase requirements, and (3) attach an estimate of the jewel bearings and related items required. While failure to submit the certificate set forth in the provision with the offer does not make the offer nonresponsive, the contracting officer must obtain the certificate before award.

(b) The contracting officer shall annotate any affirmative certificate from a successful offeror with (1) the number of the contract awarded that offeror, (2) identification of the contract administration office cognizant of that contract, and (3) the date of award. The contracting officer shall forward one copy of the certificate and the attachment it calls for to the Plant and one copy of the certificate and attachment to the cognizant contract administration office. The Plant will compare the attachment with actual orders and notify the contract administration office of any serious discrepancies.

(c) The contract administration office shall review contractor records and require corrective action, if necessary, if (1) the Plant informs it of serious discrepancies between certifications and orders or (2) the contract administration office believes that there is noncompliance with the clause at 52.208-1, Required Sources for Jewel Bearings and Related Items.

8.203-3 Declination or rejection of orders.

(a) The Plant may initially decline to accept a contractor's or subcontractor's order because of the customer's current excessive and overdue indebtedness to the Plant. The Plant's declination under these circumstances is not in itself justification for (1) a waiver of the requirement to purchase from the Plant and (2) adjustment in the contract price. If the contractor or subcontractor disagrees with the Plant as to this indebtedness, the contracting officer may require the Plant to accept the order and to make shipment on a cash-on-delivery (c.o.d.) basis.

(b) Rejection of orders by the Plant—or by any other domestic manufacturer—for reasons other than those in paragraph (a) above shall not provide relief from the requirement to purchase from the Plant or other domestic manufacturer, unless the contracting officer determines that such relief is in the Government's best interest. The contracting officer shall evaluate the impact of the rejection and make an equitable adjustment in the contract price, in the delivery schedule, or in both, if one is warranted.

Subpart 8.3—Acquisition of Utility Services

.300 Scope of subpart.

This subpart prescribes policies and rocedures for the acquisition of utiliy services. Agency policies and proceures predating the effective date of he Federal Acquisition Regulation FAR) may continue to be used. Howver, any new or changed policies or rocedures must be approved in adance by the appropriate FAR council.

8 FR 42129, Sept. 19, 1983, as amended at FR 12293, Apr. 9, 1986; 51 FR 36971, Oct. , 1986]

8.301 Definitions.

Areawide contract, as used in this subpart, means a master contract entered into between the General Services Administration (GSA) and a utility service supplier to cover the utility service acquisitions of all Federal agencies from the particular utility service supplier for a period not to exceed 10 years. Federal agencies, including the Department of Defense (DOD), are covered when an authorization attached to the areawide contract is completed and accepted by the utility service supplier and executed by the agency and the utility service supplier.

Authorization, as used in this subpart, means the ordering document under an areawide contract.

Connection charge, as used in this subpart, means a payment by an agency for special or local facilities on either one or both sides of the delivery point that are required to make connections with the nearest point of supply and are usually installed, owned, and operated by a utility service supplier.

Separate contract, as used in this subpart, means a utility services contract executed for a period not to exceed 10 years, to cover the utility services to a specific facility.

Termination liability, as used in this subpart, means a contingent obligation to pay the unamortized portion of special or local connecting facilities, usually installed, owned, and operated by the utility service supplier, if an agency terminates the utility service contract before expiration of its term specified in the contract or tariff of the utility service supplier.

Utility service, as used in this subpart, means a service such as the furnishing of electricity, gas, water, steam and sewerage that is available to the general public and performed by governmental entities or private companies. Utility services are ordinarily subject to governmental regulation. The term also includes services such as snow removal and removal or disposal of garbage, rubbish, and trash that are performed on a contractual basis, which may or may not be subject to government or public regulation. This term does not include telecommunications services (see part 39).

8.302 Applicability.

(a) Except as provided in paragraph (b) below, this subpart applies to the acquisition of utility services or connection charges costing $10,000 or more, by agencies in the United States, its possessions, and the Commonwealth of Puerto Rico.

(b) This subpart does not apply to—

(1) Utility services produced, distributed, or sold by a Federal agency (other than consolidated purchase, joint use, or cross service); or

(2) Utility services (other than those required for administrative purposes) obtained by purchase, exchange, or otherwise by a Federal power or water marketing agency incident to that agency's marketing or distribution program.

(c) The Statement of Areas of Understanding between Department of Defense and General Services Administration (15 FR 8227, as amended at 22 FR 871) governs the acquisition of utility services by DoD. Therefore, DoD shall not be subject to this subpart as specifically indicated within this subpart.

(d)(1) Section 8093 of the Department of Defense Appropriations Act, 1988, contained in Pub. L. 100-202, provides that none of the funds appropriated by that Act or any other Act with respect to any fiscal year by any Department, agency, or instrumentality of the United States, may be used for the purchase of electricity by the Government in any manner that is inconsistent with the state law governing the providing of electric utility service, including state utility commission rulings and electric utility franchises or service territories established pursuant to state statute, state regulation, or state-approved territorial agreements.

(2) The Act does not preclude—

(i) The head of a Federal agency from entering into a contract pursuant to 42 U.S.C. 8287 (which pertains to the subject of shared energy savings);

(ii) The Secretary of a military department from entering into a contract pursuant to 10 U.S.C. 2394 (which pertains to contracts for energy or fuel for military installations); or

(iii) The Secretary of a military department from purchasing electricity from any provider when the utility or utilities having applicable state-owned franchise or other service authorizations are found by the Secretary to be unwilling or unable to meet unusual standards for service reliability that are necessary for purposes of national defense.

[48 FR 42129, Sept. 19, 1983, as amended at 53 FR 43389, Oct. 26, 1988]

8.303 General.

(a) Except as otherwise specified, agencies shall submit all information required by GSA under this subpart to General Services Administration, Public Buildings Service, Office of Public Utilities (PU), Washington, DC 20405.

(b) Agencies requiring technical or consulting assistance in the acquisition of utility services, including assistance in negotiating with a potential supplier (see 8.304-3), may contact GSA at the address given in paragraph (a) above.

(c) GSA will, upon request, furnish the services provided for in this subpart to any Federal agency, mixed ownership Government corporation, the District of Columbia, the Senate, the House of Representatives, or the Architect of the Capitol and any activity under its direction.

8.304 Acquiring utility services.

8.304-1 GSA long-term contracts.

(a) GSA has statutory authority to enter into long-term contracts for utility services for periods not to exceed a term of 10 years (40 U.S.C. 481). These contracts may be in the form of an areawide contract or a separate contract. GSA may delegate this authority to other agencies that have qualified staffs.

(b) A long-term contract may be justified and is usually required by any of the following circumstances:

(1) The Government will obtain lower rates, larger discounts, or more favorable conditions of service.

(2) A proposed connection charge, ermination liability, or any other fa- ilities charge to be paid by the Gov- rnment will be reduced or eliminated.

(3) The utility service supplier re- uses to render the desired service xcept under a long-term contract.

(c) Other conditions for acquisitions nder long-term contracts shall be de- ermined by the specific delegation of uthority to the agency from GSA.

.304-2 GSA areawide contracts.

(a) GSA enters into areawide con- racts with suppliers for the furnish- ng of utility services to Federal agen- ies located within the service areas of hose suppliers.

(b) An areawide contract requires he utility service supplier to furnish he needed services—

(1) Upon bilateral execution of the uthorization under the contract;

(2) Without further negotiation;

(3) At the published or unpublished urrent rate schedules and tariffs ap- licable to the classes and characteris- ics of the services;

(4) Subject to all terms of the reawide contract; and

(5) To all Government-owned or overnment-leased facilities as long as he agency pays the bills directly to he utility service supplier and not the easor as part of its lease agreement.

(c) An agency in an area covered by n areawide contract shall acquire tility services under that contract nless the agency determines that (1) nore advantageous competing services re available from another supplier ithout an effective areawide con- ract, or (2) it is in the Government's nterest to negotiate special rates or pecial services under a separate con- ract which departs from the pub- shed or unpublished current rate chedules of the utility service suppli- r.

(d) Upon request, GSA will furnish gencies a list of the current areawide ontracts showing the kinds of utility rvices, the suppliers, and the areas rved. GSA will also provide a copy of y areawide contract upon request. ch contract includes an authoriza- on form for requesting service, serv- connection, disconnection, or ange.

(e) When utility services are acquired under an areawide contract, the agency shall use the authorization attached to the appropriate GSA areawide contract. The form prescribed for ordering may be modified to satisfy the fiscal and administrative requirements of the agency and to contain any necessary additional contract terms. The authorization shall not be modified, however, to be used as a public voucher in lieu of Standard Form 1034, Public Voucher for Purchases and Services Other than Personal.

(f) All agencies acquiring utility services under an areawide contract shall furnish to GSA an executed copy of the authorization requesting service, service connection, disconnection, or change within 30 days after execution by the agency.

(g) When, pursuant to paragraph (c) above, an agency determines it appropriate to acquire utility services under a separate contract, 8.304-3 shall apply to the acquisition, except that DOD may acquire the services under its own regulations implementing the Statement of Areas of Understanding (see 8.302(c)).

8.304-3 Separate contracts.

(a) When GSA initiates or is requested to negotiate a separate contract, the acquiring agency shall furnish the following information to GSA:

(1) The technical and acquisition data required in 8.307-1(a) and 8.307-4; and

(2) Such other technical data as GSA may request to complete the contract.

(b) Other conditions for acquisition of utility services under separate contracts shall be determined by the specific delegation of authority to the agency from GSA in accordance with 8.307-3.

(c) In determining whether to negotiate special rates or special services in an area not covered by an areawide contract, consideration should be given to the following:

(1) The public utility supplier's tariff and rate schedules in light of the magnitude of the services required.

(2) Any unusual characteristics of services required which are not provided for under the supplier's tariffs and current rate schedules.

(3) Any special equipment or facility requirements which are not provided for under the supplier's tariffs and current rate schedules.

(4) Any special technical contract terms required by the agency which are not provided for under the supplier's tariff and current rate schedule.

8.304-4 Consolidated purchase, joint use, or cross-service.

(a) Agencies shall use consolidated purchase, joint use, or cross-service to acquire utility services or facilities when advantageous to the Government and in accordance with the policies and procedures at subpart 17.5, Interagency Acquistions under the Economy Act. This requirement is not applicable if utility services are furnished without charge by another Government agency as part of space acquisition.

(b) The agencies involved under paragraph (a) above shall use a memorandum of understanding or other appropriate document to specify the services or facilities to be supplied, the estimated costs, and other conditions under which they will be acquired.

(c) These memorandums shall be subject to on-site post reviews or periodic reporting as may be required by GSA. (see 8.306). This paragraph (c) does not apply to DoD.

8.304-5 Agency acquisition.

(a) This subsection 8.304-5 does not apply to DoD. DoD contracting offices shall proceed in accordance with agency procedures.

(b) In the absence of areawide contracts for a particular location, GSA separate contracts, consolidated purchases, joint use, or cross-service arrangements, or as otherwise authorized in this section 8.304, agencies may acquire utility services and facilities and pay related connection charges within the scope of their authority, subject to the policy and procedures of this subpart.

(c) The contracting officer shall determine the appropriate contracting method in accordance with the instructions of parts 6 and 13 through 15 of this regulation. Except as authorized by 8.304-5(h), agencies shall use a utility service contract instead of standard utility services supplier application forms or similar documents (also see 8.304-5(g)).

(d) The contracting officer shall determine if more than one supplier can furnish the needed utility services. Although unusual, when such competition exists, the contracting officer shall solicit sealed bids or competitive proposals for the services.

(e) The contracting officer shall acquire utility services by bilateral written contract, whether or not rates or conditions of service are fixed or adjusted by a Federal, State, or other public regulatory body, if—

(1) The supplier requires the execution of a contract;

(2) The utility service is available from more than one source (see paragraph (d) above);

(3) The annual cost of the service at the time of initiation or annual review is estimated to exceed the appropriate small purchase limitation in part 13;

(4) A proposed connection charge, termination liability, purchase cost, cumulative leasing cost, or any other facilities charge (whether or not refundable) to be paid by the agency is estimated to exceed the appropriate small purchase limitation in part 13; or

(5) The contracting officer determines that a bilateral written contract would be in the Government's interest.

(f) The contracting officer may acquire utility services by purchase order except when a bilateral written contract is required under paragraph (e) above.

(g) If a utility service supplier refuses to execute a contract, the agency shall notify GSA of the supplier's refusal to execute a contract, and forward full documentation including a copy of the record of negotiations. The agency may then acquire services by use of a Government purchase order or other written request for service, after a written definite and final refusal is received from a corporate officer of the supplier.

(h) When the utility supplier refuses to execute a contract (see 8.304-5(g)), the contracting officer may use the commercial forms and clauses of the utility companies in acquiring utility services by bilateral contract (except see paragraph (c) above). The contracting officer must take precautions to delete from such forms any language that may be contrary to Federal law and regulations. The contracting officer shall also comply with the requirements of 8.309 concerning the insertion of mandatory clauses in the contract.

(i) Each agency shall provide GSA (upon GSA's request) with duplicate copies of the agency's utility bills.

[48 FR 42129, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

8.305 Rate increases.

(a) This section 8.305 does not apply to DOD.

(b) When a supplier proposes increases in rates by filing for approval with the regulatory body controlling the supplier's rates, the agency should forward the matter, including percentage of increase and amount of increase, to GSA for appropriate action.

(c) When the regulatory body approves the utility supplier's rate increase, further modification of any utility contract is not necessary, since copies of the utility supplier's new rate schedules as approved by the regulatory body will serve as the authority to pay the increased or decreased rates.

8.306 Post contract review or periodic reporting.

All acquisition documents and supporting records retained in accordance with 4.805 shall be subject to any onsite postreview or periodic reporting that may be required by GSA. See 8.307 concerning prior review of certain acquisitions. This section 8.306 does not apply to DOD.

8.307 Precontract acquisition reviews.

This section 8.307 does not apply to DOD.

8.307-1 General.

(a) Either GSA or the acquiring agency, if authorized under this section 8.307, shall review certain proposed utility services acquisitions before the contracting officer executes a binding contract. The review shall apply to—

(1) Proposed authorizations under GSA areawide contracts;

(2) Proposed memorandums of understanding or interagency agreements for consolidated purchase, joint use, or cross-service by one agency for another; and

(3) Proposed separate utility service contracts.

(b) The review is required when—

(1) The annual cost of the service to be acquired is estimated by the using agency, at the time of initiation of the service or annual review, to exceed $150,000 for separate contracts or $250,000 for authorizations under effective areawide contracts; or

(2) A proposed connection charge, termination liability, or other facilities charge to be paid by the agency (whether or not refundable) is estimated to exceed $75,000 for separate contracts or $125,000 for authorizations under effective areawide contracts.

(c) Approval of a proposed acquisition after review shall be based on written determinations and findings from the acquiring agency that all of the following criteria, as a minimum, are met:

(1) The proposed supplier is either the sole source of the required service or has been selected after consideration of more than one source of supply.

(2) The service to be provided is adequate in terms of quantity, quality, and delivery schedule to meet the acquiring agency's needs.

(3) The selected rate schedule is the most advantageous of the rate schedules available to the agency in terms of economy, efficiency, or service and is based upon the class, conditions, and characteristics of services being rendered to the agency.

(4) The proposed facilities charge, if any, is (i) necessary to secure the required service, (ii) based on current

cost or pricing data, and (iii) reasonable in total amount, and may be certified for payment by the agency.

(5) The proposed acquisition meets the requirements of this subpart.

8.307-2 Precontract review by GSA.

(a) Each agency shall refer applicable proposed acquisitions of utility services to GSA for review unless an agency has its own program of prior review under 8.307-3.

(b) GSA shall acknowledge the date of receipt of the referral from the agency.

(c) If GSA does not provide comments to the referring agency within 20 workdays after a proposed utility services acquisition is received for review (or within a lesser period if agreed upon), the referring agency may complete negotiations and execute the contract.

(d) Proposed acquisitions forwarded for GSA prior review shall contain the technical and acquisition data required by 8.307-1(c) and 8.307-4.

8.307-3 Precontract review by acquiring agency.

(a) Agencies having authorization from GSA by direct delegation of authority may conduct their own programs of utility acquisition reviews in accordance with this subpart.

(b) Agencies that do not have the authorization indicated in paragraph (a) above, but that have the qualified technical personnel to conduct an agency review program, may seek a direct delegation of authority to conduct such a program from the Office of Public Utilities, at the address stated in 8.303(a).

(c) Agency authority to conduct prior reviews shall not preclude the referral of any specific case to GSA for assistance, if desired by the agency.

(d) Any agency having responsibility for review shall provide by agency procedure for uniform application of the guidelines in 8.307-4.

8.307-4 Guidelines and data for precontract review.

(a) The office proposing to acquire utility services shall assemble and furnish complete information relating to each proposed acquisition sufficiently in advance to permit a complete review by either GSA or the acquiring agency.

(b) The information furnished for review shall include—

(1) A technical description or specifications of the type, quantity, and quality of service required; and

(2) A copy of any service proposal or proposed contract.

(c) If not included in the foregoing, a copy of the following additional documents and data shall be furnished, if applicable:

(1) A complete copy or copies of the published or unpublished current rate schedules and tariffs of the utility supplier.

(2) The following data concerning quantity, quality, and delivery schedule of required services when new or initial services are to commence:

(i) The date initial service is required.

(ii) Data, for the first calendar year of full service, on estimated maximum demand, monthly consumption, and estimated annual cost of the service and connection charges to be paid by the agency.

(iii) Known or estimated time schedule for growth to ultimate requirements.

(iv) Estimated ultimate maximum demand and ultimate monthly consumption.

(v) A simple schematic diagram or line drawing showing the meter locations and the location of the new utility facilities to be constructed by the Government and the new connecting facilities to be constructed by the utility supplier to provide the new services.

(vi) Accounting and appropriation data to cover the required utility services and any connection charges required to be paid by the agency to receive such utility services.

(3) Identification of all available sources or methods of supply, the cost effectiveness of each, and a statement of the ability of each source to provide the required services, including the location and a description of each available supplier's facilities at the nearest point of service.

(4) Identification of any unusual factors affecting the acquisition.

(5) The following data concerning proposed facilities and related charges or costs:

(i) Proposed refundable or nonrefundable connection charge, termination liability, or other facilities charge to be paid by the Government, together with a description of the supplier's proposed facilities and estimated construction costs entering into the determination of the proposed connection charge, termination liability, or facilities charge.

(ii) The basis for the connection charge including the tariff provisions or written policy of the utility supplier.

(iii) A statement by the supplier that any proposed facilities charge is not in excess of the charge that other customers would be required to pay for ike facilities under similar class and ondition of service.

(iv) A copy of the acquiring agency's stimate to make its own connection o the supplier's facilities, in lieu of aying the connection charge proposed by the utility supplier. In the ase of proposed water and sewage ontracts, the acquiring agency shall rovide its estimates to construct and perate its own utility facilities in lieu f participating in a cost-sharing construction program with the proposed tility supplier.

(d) For existing utility services, the gency shall furnish the data required bove under 8.307-4(a), (b), (c)(1) and he following additional information:

(1) A copy of the monthly bills covering the most recent 12 months.

(2) A tabulation, by months, for the ost recent 12 months, showing the tility demands, consumption and harges, fuel adjustment charges and he average monthly cost per unit of onsumption.

(3) A tabulation by months, for the ext 12 months showing the same ata as requested in (2) above.

(4) Accounting and appropriation ata to cover the costs for the continuation of utility services.

(5) A simple schematic diagram or ne drawing suitable to be included in he utility services contract showing e meter locations.

(6) For electric service contracts, ate if the transformer at the point of delivery is owned by the Government or the utility supplier and if the metering is made on the primary or secondary side of such transformer.

8.308 Capital credits.

Capital credits are a form of cash reimbursement or offset of billings by Reconstruction Electrification Administration-financed Cooperatives to their customers. See 41 CFR 101-33.3 for procedures on processing these capital credits.

8.309 Contract clauses.

(a) The contracting officer shall insert the clause at 52.208-3, Conflicts, in solicitations and contracts for utility services.

(b) The contracting officer shall also insert in solicitations and contracts for utility services the provisions and clauses prescribed elsewhere in the FAR, as appropriate for each acquisition, depending on the conditions that are applicable.

Subpart 8.4—Ordering From Federal Supply Schedules

8.401 General.

(a) The Federal Supply Schedule program, directed and managed by the General Services Administration (GSA), provides Federal agencies with a simplified process for obtaining commonly used supplies and services at prices associated with volume buying. Indefinite delivery contracts (including requirements contracts) are established with commercial firms to provide supplies and services at stated prices for given periods of time. The schedule contracting office issues publications, titled Federal Supply Schedules, containing the information necessary for placing delivery orders with the contractors. Ordering offices issue delivery orders directly to the schedule contractors for the required supplies or services. Similar systems of schedule-type contracting are used for automatic data processing equipment and services, for telecommunications equipment and services and for military items managed by the Department of Defense. These systems are not included in the Federal Supply

Schedule program covered by this subpart.

(b) Ordering offices may request copies of schedules by completing GSA Form 457, FSS Publications Mailing List Application, and mailing it to the GSA Centralized Mailing Lists Services, 819 Taylor Street, P.O. Box 17077, Fort Worth, TX 76102-0077. Copies of GSA Form 457 and the GSA publication titled "GSA Supply Catalog" (which includes a listing of schedules and information on the use of schedules) may also be obtained from the above address.

[48 FR 42129, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 29280, July 11, 1989]

8.402 Applicability.

(a) This subpart applies to—

(1) Federal agencies ordering supplies or services from Federal Supply Schedules on either a mandatory or optional (nonmandatory) basis (see 8.404);

(2) Civilian and military commissaries and nonappropriated fund activities authorized by a Federal agency to use Federal Supply Schedules for their own use, not for resale; and

(3) Contractors authorized under part 51 to order from schedules.

(b) This subpart does not apply to agencies placing orders for automatic data processing and telecommunications items or services from schedules. See part 39 for policies and procedures for placing orders for those items or services.

8.403 Types of Federal Supply Schedules.

8.403-1 Single-award schedules.

Single-award schedules cover contracts made with one supplier at a stated price for delivery to a geographic area as defined in the schedule. Most schedules contain all information necessary for placing orders. Some schedules specify that contractor catalogs must be used for additional ordering information to aid in the selection of fabrics, colors, and similar variables.

8.403-2 Multiple-award schedules.

Multiple-award schedules cover contracts made with more than one supplier for comparable supplies and services. Contracts are awarded to suppliers of the same generic types of items at varying prices for delivery within the same geographic area. Contractor catalogs and pricelists must be used with the schedules to prepare delivery orders. The catalogs and pricelists contain information such as item descriptions, prices and discounts, order limitations, and delivery.

8.403-3 New Item Introductory Schedule.

The New Item Introductory Schedule (NIIS) provides the means to introduce new or improved products into the Federal Supply System. The schedule lists brand names of products available from various suppliers. With the exception of GSA, the only mandatory user of this schedule, Federal agencies and agencies authorized by law or agreement may use the NIIS on an optional basis. Ordering offices must use contractor catalogs and pricelists with the schedule to prepare delivery orders.

8.403-4 International Federal Supply Schedule.

(a) The International Federal Supply Schedule (IFSS) provides sources of supply (supplies and services) at reasonable prices to U.S. Government activities located overseas. The use of the schedule is mandatory only on GSA.

(b) The schedule is divided into two sections. Section A includes those items which were awarded under sealed bid procedures, while Section B covers items that were awarded under negotiated procedures.

(c) Ordering offices need to review the information in the schedule and any applicable contractor's catalogs/price lists to ensure the proper placement of orders. Orders are placed directly with the contractors.

(d) Ordering offices shall forward copies of any orders (at the time the orders are issued) to the contracting office designated in the IFSS.

[51 FR 19713, May 30, 1986]

8.404 Using schedules.

(a) The planning, solicitation, and award phases of Federal Supply

Schedules comply with FAR requirements. Consequently, contracting officers need not seek further competition, synopsize the solicitation or award, determine fair and reasonable pricing, or consider small business-small purchase set-aside procedures when placing an order under a Federal Supply Schedule.

(b) Before soliciting commercial sources, executive agencies shall determine if the required supplies or services, or similar supplies or services fulfilling the same purpose, are available from schedules (see FIRMR 101-26.4). If so, the ordering office shall proceed in accordance with the procedure of 8.404-1 or 8.404-2, as appropriate.

(c) In the case of mandatory schedules, ordering offices shall not (1) solicit bids, proposals, quotations, or otherwise test the market solely for the purpose of seeking alternative sources to Federal Supply Schedules; or (2) request formal or informal quotations from Federal Supply Schedule contractors for the purpose of price comparisons.

[48 FR 42129, Sept. 19, 1983, as amended at 54 FR 29280, July 11, 1989; 55 FR 38516, Sept. 18, 1990]

8.404-1 Mandatory use.

Schedules identify executive agencies required to use them as mandatory sources of supply. The single-award schedule shall be used as a primary source and the multiple-award schedule as a secondary source. The following are exceptions to the mandatory-use requirement:

(a) *Urgent requirements.* When an ordering office requires supplies or services with a shorter delivery time than specified in the schedules, and time permits, the ordering office shall request the contractor by letter, telegram, mailgram, or telephone conversation (confirmed in writing) to state the best delivery time that can be met under the circumstances and subject to all other terms and conditions of the schedule contract. The contractor shall be instructed to reply to the inquiry within not more than 3 workdays after receipt, by the same or a faster communications medium than the one by which the inquiry was received. If the contractor offers accelerated delivery acceptable to the ordering office, orders shall obligate the contractor to make the shorter delivery under all other terms and conditions of the contract. When the contractor fails to reply, or the best delivery time does not meet the ordering office's requirements, use of the schedule is not mandatory.

(b) *Small requirements.* Dollar or quantity minimums are established for most schedules, below which ordering offices are not obligated to order and contractors are not obligated to accept orders. Ordering offices may submit orders below established minimums, subject to the contractor's acceptance. Once an order is accepted, the contractor is obligated to perform according to all the terms and conditions of the contract. Some schedules require the contractor to accept orders below the dollar or quantity minimum, but authorize the contractor to include a service charge up to a certain dollar amount. In these cases, the schedule will contain specific obligations and entitlements.

(c) *Maximum order limitation.* (1) Most schedules stipulate a dollar amount or unit quantity above which agencies shall not submit orders and contractors shall not accept orders. There may be a maximum order limitation (MOL) for each item as well as for the total order. Ordering offices should not reduce or split their requirements simply to avoid an MOL. Rather, ordering offices should consolidate their requirements whenever possible to take advantage of lower prices normally obtainable through definite quantity contracts for quantities exceeding the MOL.

(2) Ordering offices shall submit requirements exceeding the MOL in FEDSTRIP/MILSTRIP format, as applicable, to the GSA support region in accordance with FPMR 101-26.401-4(c), unless specified otherwise in the schedule. Optional schedule users may use this procedure.

(d) *Geographic coverage.* Each schedule defines geographic areas of coverage on a national, zonal, regional, or other basis. Ordering offices shall place orders with contractors serving the geographic areas in which consignees are located. When a consignee is located outside the geographic area of coverage, mandatory use is not applicable.

(e) *Lower prices for identical items.* (1) When an ordering office finds that an identical product (make and model) included on a multiple-award schedule is available from another source at a price lower than the schedule price, the office may purchase the item subject to the requirements to obtain competition.

(2) All cost and related considerations for lower priced products shall be evaluated, including but not limited to comparisons of warranties, transportation costs (origin and destinations), and delivery terms.

(3) When products are purchased from commercial sources on the open market (i.e., not under an existing Government contract) at delivered prices that are lower than the prices provided by multiple-award schedule contracts, ordering offices shall forward the following information, at the time the orders are issued, to the contracting office designated in the multiple-award schedule that was not used:

(i) Copy of the order.

(ii) Identification of the Federal Supply Schedule.

(iii) Name of the schedule contractor.

(iv) Applicable schedule contract number.

(v) Schedule contract price.

(vi) Schedule special item number (SIN).

(vii) Manufacturer's model and /or part number.

(f) *Report documentation.* Documentation of subdivisions (e)(3)(ii) through (e)(3)(vii) of this section may be provided as attachment(s) to the order, annotated directly on the order, or a combination of both. Interagency Report Control Number 0262-GSA-AR has been assigned to this report.

(g) *Absence of follow-on award.* Ordering offices, after any consultation required by the schedule, are not required to forgo or postpone their legitimate needs pending the award or renewal of any schedule contract.

[48 FR 42129, Sept. 19, 1983, as amended at 51 FR 19713, May 30, 1986]

8.404-2 Optional use.

(a) The following optional users may order from schedules and contractors may accept their orders:

(1) All executive agencies not specified in the schedules as mandatory users.

(2) All other agencies and activities of the Government, including legislative and judicial agencies as provided by law or agreement, nonappropriated fund activities as prescribed in 41 CFR 101-26.000, and the Government of the District of Columbia.

(3) Government contractors authorized to order under part 51.

(4) Mixed-ownership Government corporations as defined in the Government Corporation Control Act (31 U.S.C. 9101).

(b) If a contractor accepts an order from an optional user under a schedule contract, all terms of the schedule contract apply to that order. Acceptance may be by written notice, delivery or performance, or failure to return the order within the time specified in the contract (usually 7 workdays).

[48 FR 42129, Sept. 19, 1985, as amended at 51 FR 2649, Jan. 17, 1986]

8.404-3 Requests for waivers.

(a) When an ordering office that is a mandatory user under a schedule determines that items available from the schedule will not meet its specific needs, but similar items from another source will, it shall submit a request for waiver to the Commissioner, Federal Supply Service (F), GSA, Washington, DC 20406, except as provided in (b) below. Requests shall contain the following information:

(1) A complete description of the required items, whenever possible; e.g., descriptive literature such as cuts, illustrations, drawings, and brochures that explain the characteristics and/ or construction.

(2) A comparison of prices and the technical differences between the requested item and the schedule item, identifying as a minimum the—

(i) Inadequacies of the schedule item to perform required functions; and

(ii) Technical, economic, or other advantages of the item requested.

(3) Quantity required.

(4) Estimated annual usage or a statement that the requirement is nonrecurrent or unpredictable.

(b) Ordering offices shall not initiate action to acquire similar items from nonschedule sources until a request for waiver is approved, except as otherwise provided in interagency agreements.

[48 FR 42129, Sept. 19, 1983, as amended at 54 FR 29280, July 11, 1989]

8.405 Ordering office responsibilities.

Ordering offices shall place orders directly with contractors and shall perform contract administration on individual orders. Ordering offices should deal directly with contractors concerning contract performance (see 41 CFR 101–26.403–1).

8.405–1 Ordering from multiple-award schedules.

When ordering from multiple-award schedules, ordering offices shall use the procedures set forth below. When these procedures are followed, orders placed against schedules will result in the lowest overall cost alternative to meet the needs of the Government.

(a) Orders should be placed with the schedule contractor offering the lowest delivered price available. However, the ordering office shall fully justify in their contract file, any orders over $1,000 per line item placed at other than the lowest price. Justification for ordering a higher priced item may be based on such considerations as—

(1) Delivery time in terms of actual need that cannot be met by a contractor offering a lower price;

(2) Specific or unusual requirements such as differences in performance characteristics;

(3) Compatibility with existing equipment or systems;

(4) Trade-in considerations that favor a higher priced item and produce the lowest net cost; and

(5) Special features of one item not provided by comparable items that are required in effective program performance.

(b) When two or more items at the same delivered price will meet an ordering office's needs, the ordering office shall give preference to the items of small business and/or labor surplus area concerns by following the order of priority in 14.407–6 for equal low bids.

(c) When a schedule lists both foreign and domestic items that will meet the ordering office's needs, the ordering office shall apply the procedures of part 25, Foreign Acquisition.

(d) If an item available from a multiple-award schedule is ordered from the schedule contractor at a price lower than the schedule price, the ordering office shall notify the schedule contracting office within 10 days.

[48 FR 42129, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 661, Jan. 11, 1988]

8.405–2 Order placement.

Ordering offices may use Optional Form 347, or an agency-prescribed form, to order items from schedules and shall place orders directly with the contractor within the limitations specified in each schedule. Orders shall include, at a minimum, the following information in addition to any information required by the schedule:

(a) Complete shipping and billing addresses.

(b) Contract number and date.

(c) Agency order number.

(d) F.o.b. delivery point; i.e., origin or destination.

(e) Discount terms.

(f) Delivery time.

(g) Special item number or national stock number.

(h) Brief, complete description of each item (when ordering by model number, features and options such as color, finish, and electrical characteristics, if available, must be specified).

(i) Quantity and any variation in quantity.

(j) Number of units.

(k) Unit price.

(l) Total price of order.

(m) Points of inspection and acceptance.

(n) Other pertinent data; e.g., delivery instructions or receiving hours and size-of-truck limitation.

(o) Marking requirements.

(p) Level of preservation, packaging, and packing.

8.405-3 Inspection and acceptance.

(a) Consignees shall inspect supplies at destination except when—

(1) The schedule provides for the schedule contracting agency to perform source inspection (in this case, the schedule will indicate that mandatory source inspection is required); or

(2) A schedule item is covered by a product description, and the ordering office determines that the schedule contracting agency's inspection assistance is needed (inspection assistance may be based on the ordering volume, the complexity of items, or the past performance of the supplier).

(b) When the schedule contracting agency performs the inspection, as specified in the schedule, the ordering office will provide two copies of the order specifying source inspection to the schedule contracting agency. The schedule contracting agency will notify the ordering office of acceptance or rejection of the supplies.

(c) Material inspected at source by the schedule contracting agency, and determined to conform with the product description of the schedule, shall not be reinspected for the same purpose. The consignee shall limit inspection to quantity and condition on receipt.

(d) Unless otherwise provided in the schedule, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

8.405-4 Delinquent performance.

When the contractor fails to perform on the order, the ordering office may terminate the order for default or give the contractor further opportunity to perform by modifying the order to establish a new delivery date (obtaining consideration as necessary).

8.405-5 Termination for default.

(a) (1) An ordering office may terminate any one or more orders for default in accordance with part 49, Termination of Contracts. The schedule contracting office shall be notified of all cases where an ordering office has declared a Federal Supply Schedule contractor in default or fraud is suspected.

(2) Should the contractor claim that the failure was excusable, the ordering office shall promptly refer the matter to the schedule contracting office. In the absence of a decision by the schedule contracting office (or by the head of the schedule contracting agency, on appeal) excusing the failure, the ordering office may charge the contractor with excess costs resulting from repurchase.

(3) Any repurchase shall be made at as reasonable a price as possible considering the quality required by the Government, delivery requirement, and administrative expenses. Copies of all repurchase orders, except the copy furnished to the contractor or any other commercial concern, shall include the notation "Repurchase against the account of ——— under Delivery Order ——— under Contract ———"

(4) When excess costs are anticipated, the ordering office may withhold funds due the contractor as offset security. Ordering offices shall minimize excess costs to be charged against the contractor and collect or setoff any excess costs owed.

(5) If an ordering office is unable to collect excess costs, it shall take the following actions:

(i) Notify the schedule contracting office within 60 days after final payment to the replacement contractor The notice shall include the following information about the defaulted order

(A) Name and address of the contractor.

(B) Schedule, contract, and order number.

(C) National stock or special item number(s), and a brief description of the item(s).

(D) Cost of schedule items involved

(E) Excess costs to be collected.

(F) Other pertinent data.

(ii) In addition to the above, the notice shall include the following information about the replacement contract:

(A) Name and address of the contractor.

(B) Item repurchase cost.

(C) Repurchase order number and date of payment.

(D) Contract number, if any.

(E) Other pertinent data.

(b) Only the schedule contracting officer may terminate for default any or all items covered by the schedule contract. When notified of default action by the schedule contracting officer with respect to defaulted items, ordering offices shall—

(1) Refuse to accept further performance by the contractor;

(2) Not place further orders with the contractor;

(3) Repurchase against the contractor in default from sources designated by the schedule contracting officer; or

(4) Proceed as otherwise directed by the schedule contracting officer.

(c) All actions taken regarding terminations for default shall comply with the applicable requirements in part 49.

8.405-6 Termination for convenience.

(a) Ordering offices may terminate individual orders for the convenience of the Government. Only the schedule contracting officer may terminate any or all items covered by the schedule contract for the convenience of the Government.

(b) Before terminating orders for convenience, the ordering office shall endeavor to enter into a "no cost" cancellation agreement with the contractor.

(c) All actions taken regarding terminations for convenience shall comply with the applicable requirements in part 49.

8.405-7 Disputes.

The ordering office shall refer all unresolved disputes under orders to the schedule contracting office for action under the Disputes clause of the contract.

8.406 Blanket purchase agreements.

Ordering offices should consider using a Blanket Purchase Agreement (BPA) with schedule contractors to reduce the number of orders and billing and payment documents required for repetitive orders. When the schedule provides for quantity discounts, considerable savings may be effected by establishing a BPA for items for which there is a foreseeable demand. Ordering offices shall comply with subpart 13.2 and the schedule when establishing a BPA. When establishing dollar limitations for BPA's established against Federal Supply Schedules pursuant to 13.204(b), the limitations apply to individual orders placed under the BPA and are those prescribed in the Maximum Order Limitation clause for the particular schedule contract. No limitation is imposed on the total BPA unless specified by agency procedures.

[48 FR 42129, Sept. 19, 1983, as amended at 54 FR 29280, July 11, 1989]

8.407 Delivery.

(a) *Destination delivery.* Destination delivery (store-door) in a schedule means delivery to the door (unloading dock) of the location specified by the ordering office. This delivery is not subject to additional charges except when there is a specified charge for store-door delivery in the tariff of the delivering carrier. When destination delivery is subject to a charge, the contractor or carrier shall be instructed to annotate bills of lading or freight bills "Delivery service requested," and to show a separate item on the invoice for the charge. The ordering office may request delivery to a railroad siding at no additional cost. When destination delivery cannot be accomplished, delivery will be made to the freight station nearest the consignee at no additional cost.

(b) *Delivery within consignee's premises.* Delivery within consignee's premises is sometimes available at an additional cost. This service may be requested on an optional basis by ordering offices but contractors may refuse to provide it. Some schedules provide instructions for requesting the service, provide a means for determining the cost, and establish a time limit for the contractor to refuse. Under other schedules, when contractors refuse to deliver within the consignees' premises, ordering offices must make their own arrangements.

(c) *Shipping point/origin delivery.* Shipping point/origin delivery requires ordering offices to pay transportation costs unless delivery is requested within the commercial zone of the shipping point, as prescribed by the Interstate Commerce Commission in 49 CFR part 1048. When the carrier accepts supplies from the contractor, title for the supplies passes to the ordering office. Payment should be made upon the contractor's submission of invoices and proof of shipment.

(d) *Special transportation.* Ordering offices may request premium methods of transportation on items delivered f.o.b. destination. When this is done, ordering offices must pay the difference between "freight" and the requested mode. Transportation details such as these are subject to agreement between ordering offices and the schedule contractors.

8.408 Deficiencies or discrepancies in shipments.

Ordering offices shall process deficiencies or discrepancies in shipments as follows:

(a) The ordering office and contractor shall resolve complaints concerning the quality of material inspected at destination. However, the ordering office should report significant instances of poor quality to the schedule contracting officer.

(b) When it is established that the contractor is at fault for nonconforming supplies or services, the following options are available to the ordering office:

(1) Require the nonconforming supplies or services to be corrected in place or removed for correction, by and at the expense of the contractor.

(2) Accept the supplies or services with an agreed reduction in price.

(3) Terminate the order for default.

(c) When items are covered by warranty, quality deficiencies shall be handled as provided in subpart 46.7.

(d) Discrepancies concerning other than the quality of the material; e.g., overages, shortages, or damages, shall be—

(1) Processed as provided in 41 CFR 101-40.7 or as directed by the schedule contracting agency, when there are discrepancies in quantity or condition of material received from that shown on the covering bill of lading (transportation-type discrepancy); or

(2) Resolved between the ordering office and the contractor when there exists any discrepancy in quantity or condition of material received from that shown on the covering invoices or shipment packing list.

[48 FR 42129, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986]

Subpart 8.5—[Reserved]

Subpart 8.6—Acquisition From Federal Prison Industries, Inc.

8.601 General.

(a) Federal Prison Industries, Inc. (FPI), also referred to as UNICOR, is a self-supporting, wholly owned Government corporation of the District of Columbia.

(b) FPI provides training and employment for prisoners confined in Federal penal and correctional institutions through the sale of its products and services to Government agencies (18 U.S.C. 4121-4128).

(c) FPI diversifies its products and services to prevent private industry from experiencing unfair competition from prison workshops or activities.

8.602 Policy.

(a) Agencies shall purchase required supplies of the classes listed in the Schedule of Products made in Federal Penal and Correctional Institutions (referred to in this subpart as *the Schedule*) at prices not to exceed current market prices, using the procedures in this subpart.

(b) Agencies are encouraged to use the facilities of FPI to the maximum extent practicable in purchasing (1) supplies that are not listed in the Schedule, but that are of a type manufactured in Federal penal and correctional institutions, and (2) services that are listed in the Schedule.

(c) Agencies should ask FPI whether unlisted products of the type normally produced by FPI can be added to the Schedule.

8.603 Purchase priorities.

(a) FPI and the Workshops for the Blind and Other Severely Handicapped may produce identical supplies or services. When this occurs, ordering offices shall purchase supplies and services in the following priorities:

(1) Supplies:

(i) Federal Prison Industries, Inc. (41 U.S.C. 48).

(ii) Workshops.

(iii) Commercial sources.

(2) Services:

(i) Workshops.

(ii) Federal Prison Industries, Inc.

(iii) Commercial sources.

(b) Supplies and services manufactured or performed by FPI are in strict conformity with Federal Specifications. These supplies and services are listed in the Schedule. Copies of the Schedule are available from Federal Prison Industries, Inc., Department of Justice, Washington, DC 20534.

8.604 Ordering procedures.

(a) Contracting officers shall order (1) less-than-carload lots of common-use items (Schedule A of the Schedule) from the regional warehouses of GSA, unless it is more practical and economical to purchase directly from FPI, and (2) carload lots of common-use items, and other items listed in the Schedule, from FPI.

(b) Contracting officers shall prepare orders to FPI using the procedures in the Schedule.

(c) When the contracting officer believes that the FPI price exceeds the market price, the matter may be referred to the cognizant product division identified in the Schedule or to the FPI Washington office for resolution.

8.605 Clearances.

(a) Clearance is required from FPI before products on the Schedule are acquired from other sources, except when the conditions in 8.606 apply. FPI clearances ordinarily are of the following types:

(1) General or blanket clearances issued when classes of articles or services are not available from FPI.

(2) Formal clearances issued in response to requests from offices desiring to acquire, from other sources, supplies listed in the Schedule and not covered by a general clearance. Requests should be addressed to Federal Prison Industries, Inc., Department of Justice, Washington, DC 20534.

(b) Purchases from other sources because of a lower price are not normally authorized, and clearances will not be issued on this basis except as a result of action taken to resolve questions of price under 8.604(c).

(c) Disputes regarding price, quality, character, or suitability of products produced by FPI are subject to arbitration as specified in 18 U.S.C. 4124. The statute provides that the arbitration shall be conducted by a board consisting of the Comptroller General of the United States, the Administrator of General Services, and the Director of the Office of Management and Budget, or their representatives. The decisions of the board are final and binding on all parties.

8.606 Exceptions.

FPI clearances are not required when—

(a) Public exigency requires immediate delivery or performance;

(b) Suitable used or excess supplies are available;

(c) Purchases are made from GSA of less-than-carload lots of common-use items stocked by GSA (see Schedule A of the Schedule);

(d) The products are acquired and used outside the United States; or

(e) Orders are for listed items totaling $25 or less that require delivery within 10 days.

Subpart 8.7—Acquisition From the Blind and Other Severely Handicapped

8.700 Scope of subpart.

This subpart prescribes the policies and procedures for implementing the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c), referred to in this subpart as *the Act*, and the rules of the Committee for Purchase from the Blind and Other Severely Handicapped (41 CFR part 51).

8.701 Definitions.

Allocation, as used in this subpart, means an action taken by a central nonprofit agency to designate the workshops that will produce definite quantities of supplies or perform specific services upon receipt of orders from ordering offices.

Central nonprofit agency, as used in this subpart, means the National Industries for the Blind, which has been designated to represent workshops serving blind individuals; or the National Industries for the Severely Handicapped, which has been designated to represent workshops serving severely handicapped individuals other than blind.

Committee, as used in this subpart, means the Committee for Purchase from the Blind and Other Severely Handicapped.

Government or *entity of the Government* means any entity of the legislative or judicial branch, any executive agency, military department, Government corporation, or independent establishment, the U.S. Postal Service, or any nonappropriated-fund instrumentality of the Armed Forces.

Ordering office means any activity in an entity of the Government that places orders for the purchase of supplies or services.

Procurement List, as used in this subpart, means a list of supplies (including military resale commodities) and services that the Committee has determined are suitable for purchase by the Government under the Javits-Wagner-O'Day Act.

Workshop for the blind or *workshop for the other severely handicapped* (referred to jointly as workshops) means a qualified nonprofit agency for the blind or for the other severely handicapped approved by the Committee to produce a commodity for or provide a service to the Government under the Act.

8.702 General.

The Committee is an independent Government activity with members appointed by the President of the United States. It is responsible for—

(a) Determining those supplies and services to be purchased by all entities of the Government from workshops for the blind and other severely handicapped;

(b) Establishing prices for the supplies and services; and

(c) Establishing rules and regulations to implement the Act.

8.703 Procurement List.

(a) The Committee publishes a Procurement List of all the supplies and services required to be purchased from the workshops. Copies of the Procurement List may be obtained by submitting GSA Form 457 to the General Services Administration, Building 41, Denver Federal Center, Denver, CO 80225. Mailing code OOSC-0002 applies.

(b) The Procurement List identifies—

(1) Workshop supplies available from the General Services Administration (GSA) stocks at supply distribution facilities and the Defense Logistics Agency (DLA) system; and

(2) Supplies that are also available from Federal Prison Industries, Inc.

[48 FR 42129, Sept. 19, 1983, as amended at 51 FR 19713, May 30, 1986]

8.704 Purchase priorities.

(a) The Act requires the Government to purchase supplies or services on the Procurement List, at prices established by the Committee, from qualified workshops if they are available within the period required. When identical supplies or services are on the Procurement List and the Schedule of Products issued by Federal Prison Industries, Inc., ordering offices shall purchase supplies and services in the following priorities:

(1) Supplies:

(i) Federal Prison Industries, Inc. (41 U.S.C. 48).

(ii) Workshops.

(iii) Commercial sources.

(2) Services:

(i) Workshops.

(ii) Federal Prison Industries, Inc.

(iii) Commercial sources.

(b) No other provision of the FAR shall be construed as permitting an exception to the mandatory purchase of items on the Procurement List.

(c) The Procurement List identifies those supplies for which the ordering office must obtain a formal clearance (8.605) from Federal Prison Industries, Inc., before making any purchases from workshops.

[48 FR 42129, Sept. 19, 1983, as amended at 51 FR 19713, May 30, 1986]

8.705 Procedures.

8.705-1 General.

(a) Ordering offices shall obtain supplies and services on the Procurement List from the central nonprofit agency or its designated workshops, except that supplies identified on the Procurement List as available from DLA or GSA supply distribution facilities shall be obtained through DLA or GSA procedures. If a distribution facility cannot provide the supplies, it shall inform the ordering office, which shall then order from the workshop designated by the Committee.

(b) Supply distribution facilities in DLA and GSA shall obtain supplies on the Procurement List from the central nonprofit agency identified or its designated workshops.

8.705-2 Direct-order process.

Central nonprofit agencies may authorize ordering offices to transmit orders for specific supplies or services directly to a workshop. The written authorization remains valid until it is revoked by the central nonprofit agency or the Committee. The central nonprofit agency shall specify the normal delivery or performance leadtime required by the workshop. The ordering office shall reflect this leadtime in its orders.

8.705-3 Allocation process.

(a) When the direct order process has not been authorized, the ordering office shall submit a letter request for allocation (requesting the designation of the workshop to produce the supplies or perform the service) to the central nonprofit agency designated in the Procurement List. Ordering offices shall request allocations in sufficient time for a reply, for orders to be placed, and for the workshop to produce the supplies or provide the service within the required delivery or performance schedule.

(b) The ordering office's request to the central nonprofit agency for allocation shall include the following information:

(1) For supplies—Item name, stock number, latest specification, quantity, unit price, date delivery is required, and destination to which delivery is to be made.

(2) For services—Type and location of service required, latest specification, work to be performed, estimated volume, and required date or dates for completion.

(3) Other requirements; e.g., packing, marking, as necessary.

(c) When an allocation is received, the ordering office shall promptly issue an order to the specified workshop or to the central nonprofit agency, as instructed by the allocation. If the issuance of an order is to be delayed for more than 15 days beyond receipt of the allocation, or canceled, the ordering office shall advise the central nonprofit agency immediately.

(d) Ordering offices may issue orders without limitation as to dollar amount and shall record them upon issuance as obligations. Each order shall include, as a minimum, the information contained in the request for allocation. Ordering offices shall also include additional instructions necessary for performance under the order; e.g., on the handling of Government-furnished property, reports required, and notification of shipment.

8.705-4 Compliance with orders.

(a) The central nonprofit agency shall inform the ordering office of changes in leadtime experienced by its workshops to minimize requests for extensions once the ordering office places an order.

(b) The ordering office shall grant a request by a central nonprofit agency or workshop for revision in the delivery or completion schedule, if feasible. If extension of the delivery or completion date is not feasible, the ordering office shall notify the appropriate central nonprofit agency and request that it reallocate the order, or grant a purchase exception authorizing acquisition from commercial sources.

(c) When a workshop fails to perform under the terms of an order, the ordering office shall make every effort to resolve the noncompliance with the workshop involved and to negotiate an adjustment before taking action to cancel the order. If the problem cannot be resolved with the workshop, the ordering office shall refer the matter for resolution first to the central nonprofit agency and then, if necessary, to the Committee.

(d) When, after complying with 8.705-4(c), the ordering office determines that it must cancel an order, it shall notify the central nonprofit agency and, if practical, request a reallocation of the order. When the central nonprofit agency cannot reallocate the order, it shall grant a purchase exception permitting use of commercial sources, subject to approval by the Committee when the value of the purchase exception is $2,500 or more.

8.706 Purchase exceptions.

(a) Ordering offices may acquire supplies or services listed on the Procurement List from commercial sources only if the acquisition is specifically authorized in a purchase exception granted by the designated central nonprofit agency.

(b) The central nonprofit agency shall promptly grant purchase exceptions when—

(1) The workshops cannot provide the supplies or services within the time required, and commercial sources can provide them earlier in the quantities required; or

(2) The quantity required cannot be produced or provided economically by the workshops.

(c) The central nonprofit agency granting the exception shall specify the quantity and delivery or performance period covered by the exception.

(d) When a purchase exception is granted, the contracting officer shall—

(1) Initiate purchase action within 15 days following the date of the exception or any extension granted by the central nonprofit agency; and

(2) Provide a copy of the solicitation to the central nonprofit agency when it is issued.

(e) The Committee may also grant a purchase exception, under any circumstances it considers appropriate.

8.707 Prices.

(a) The prices on the Procurement List are fair market prices established by the Committee. All prices for supplies ordered under this subpart are f.o.b. origin.

(b) Prices for supplies are normally adjusted semiannually. Prices for services are normally adjusted annually.

(c) The Committee may request the agency responsible for acquiring the supplies or service to assist it in establishing or revising the fair market price. The Committee has the authority to establish prices without prior coordination with the responsible contracting office.

(d) Price changes shall normally apply to all orders received by the workshop on or after the effective date of the change. In special cases, after considering the views of the ordering office, the Committee may make price changes applicable to orders received by the workshop prior to the effective date of the change.

(e) If an ordering office desires packing, packaging, or marking of supplies other than the standard pack as provided on the Procurement List, any difference in costs shall be included as a separate item on the workshop's invoice. The ordering office shall reimburse the workshop for these costs.

(f) Ordering offices may make recommendations to the Committee at any time for price revisions for supplies and services on the Procurement List.

8.708 Shipping.

(a) Delivery is accomplished when a shipment is placed aboard the vehicle of the initial carrier. The time of delivery is the date shipment is released to and accepted by the initial carrier.

(b) Shipment is normally under Government bills of lading. However, for small orders, ordering offices may specify other shipment methods.

(c) When shipments are under Government bills of lading, the bills of lading may accompany orders or be otherwise furnished promptly. Failure of an ordering office to furnish bills of lading or to designate a method of transportation may result in an excusable delay in delivery.

(d) Workshops shall include transportation costs for small shipments paid by workshops as an item on the

oice. The ordering office shall reim-
se the workshop for these costs.

FR 42129, Sept. 19, 1983, as amended at
R 19713, May 30, 1986]

9 Payments.

he ordering office shall normally
ke payments for supplies or services
the Procurement List within 20
s, but no later than 30 days after
oment or after receipt of a correct
oice or voucher.

0 Quality of merchandise.

upplies and services provided by
kshops shall comply with the ap-
able Government specifications
standards cited in the order.
en no specifications or standards
t—
) Supplies shall be of the highest
lity and equal to similar items
ilable on the commercial market;

) Services shall conform to good
mercial practices.

1 Quality complaints.

) When the quality of supplies or
ices received is unsatisfactory, the
g activity shall take the following
ons:
) For supplies received from DLA
ply centers or GSA supply distribu-
facilities, notify the supplying
ncy.
) For supplies or services received
n workshops for the blind or other
erely handicapped, address com-
nts to the workshop involved, with
py to the appropriate central non-
fit agency.
) When quality problems cannot
resolved by the workshop and the
ering office, the ordering office
ll first contact the central nonprof-
gency and then, if necessary, the
mittee for resolution.

2 Specification changes.

) The contracting activity shall
fy the workshop and appropriate
ral nonprofit agency of any
nge in specifications or descrip-
s. In the absence of such written
fication, the workshop shall
luce the supplies or provide the
services under the specification or description cited in the order.

(b) The contracting activity shall provide 90-days advance notification to the Committee and the central nonprofit agency on actions that affect supplies on the Procurement List and shall permit them to comment before action is taken, particularly when it involves—

(1) Changes that require new national stock numbers or item designations;

(2) Deleting items from the supply system;

(3) Standardization; or

(4) Developing new items to replace items on the Procurement List.

(c) For services, the contracting activity shall notify the workshop and central nonprofit agency concerned at least 90 days prior to the date that any changes in the scope of work or other conditions will be required.

(d) When, in order to meet its emergency needs, a contracting activity is unable to give the 90-day notification required in paragraphs (b) and (c) of this section, the contracting activity shall, at the time it places the order or change notice, inform the workshop and the central nonprofit agency in writing of the reasons that it cannot meet the 90-day notification requirement.

[48 FR 42129, Sept. 19, 1983, as amended at 51 FR 19714, May 30, 1986]

8.713 Optional acquisition of supplies and services.

(a) Ordering offices may acquire supplies and services not included on the Procurement List from a workshop that is the low responsive, responsible offeror under a solicitation issued by other authorized acquisition methods.

(b) Ordering offices should forward solicitations to workshops that may be qualified to provide the supplies or services required.

8.714 Communications with the central nonprofit agencies and the Committee.

(a) The addresses of the central nonprofit agencies are contained in the current issue of the Procurement List.

(b) Any matter requiring referral to the Committee shall be addressed to the Executive Director of the Committee at the address contained in the current issue of the Procurement List.

8.715 Replacement commodities.

When a commodity on the Procurement List is replaced by another commodity which has not been previously acquired, and a qualified workshop can produce the replacement commodity in accordance with the Government's quality standards and delivery schedules and at a fair market price, the replacement commodity is automatically on the Procurement List and shall be acquired from the workshop designated by the Committee. The commodity being replaced shall continue to be included on the Procurement List until there is no longer a requirement for that commodity.

[51 FR 19714, May 30, 1986]

Subpart 8.8—Acquisition of Printing and Related Supplies

8.800 Scope of subpart.

This subpart provides policy for the acquisition of Government printing and related supplies.

[52 FR 9037, Mar. 20, 1987]

8.801 Definitions.

Government printing means printing, binding, and blankbook work for the use of an executive department, independent agency, or establishment of the Government.

Related supplies, as used in this subpart, means supplies that are used and equipment that is usable in printing and binding operations.

[48 FR 42129, Sept. 19, 1983, as amended at 52 FR 9037, Mar. 20, 1987]

8.802 Policy.

(a) Government printing must be done by or through the Government Printing Office (GPO) (44 U.S.C. 501), unless—

(1) The GPO cannot provide the printing service (44 U.S.C. 504);

(2) The printing is done in field printing plants operated by an executive agency (44 U.S.C. 501(2));

(3) The printing is acquired by an executive agency from allotments for contract field printing (44 U.S.C. 501(2)); or

(4) The printing is specifically authorized by statute to be done other than by the GPO.

(b) The head of each agency shall designate a central printing authority; that central printing authority may serve as the liaison with the Congressional Joint Committee on Printing (JCP) and the Public Printer on matters related to printing. Contracting officers shall obtain approval from their designated central printing authority before contracting in any manner, whether directly or through contracts for other supplies or services, for the items defined in 8.801 and for composition, platemaking, presswork, binding, and micrographics (when used as a substitute for printing).

(c) Further, 44 U.S.C. 1121 provides that the Public Printer may acquire and furnish paper and envelopes (excluding envelopes printed in the course of manufacture) in common use by two or more Government departments, establishments, or services within the District of Columbia, and provides for reimbursement of the Public Printer from available appropriations or funds. Paper and envelopes that are furnished by the Public Printer may not be acquired in any other manner.

[48 FR 42129, Sept. 19, 1983, as amended at 52 FR 9037, Mar. 20, 1987; 54 FR 48982, Nov. 28, 1989]

Subparts 8.9—8.10 [Reserved]

Subpart 8.11—Leasing of Motor Vehicles

8.1100 Scope of subpart.

This subpart covers the procedures for the leasing, from commercial concerns, of motor vehicles that comply with Federal Motor Vehicle Safety Standards and applicable State motor vehicle safety regulations. It does not apply to motor vehicles leased outside the United States.

8.1101 Definitions.

Leasing, as used in this subpart, means the acquisition of motor vehi-

es, other than by purchase from pri-
te or commercial sources, and in-
udes the synonyms *hire* and *rent*.
Motor vehicle means an item of
uipment, mounted on wheels and
signed for highway and/or land use,
at (a) derives power from a self-con-
ined power unit or (b) is designed to
towed by and used in conjunction
th self-propelled equipment.

102 Presolicitation requirements.

a) Except as specified in 8.1102(b),
fore preparing solicitations for leas-
g of motor vehicles, contracting offi-
rs shall obtain from the requiring
tivity a written certification that—
1) The vehicles requested are of
ximum fuel efficiency and mini-
m body size, engine size, and equip-
ent (if any) necessary to fulfill oper-
onal needs, and meet prescribed
el economy standards;
2) The head of the requiring
ency, or a designee, has certified
at the requested passenger automo-
es (sedans and station wagons)
ger than Type IA, IB, or II (small,
bcompact, or compact) are essential
the agency's mission;
3) Internal approvals have been re-
ved; and
4) The General Services Adminis-
tion has advised that it cannot fur-
h the vehicles.
b) With respect to requirements fo
sing motor vehicles for a period of
s than 60 days, the contracting offi-
need not obtain the certification
cified in 8.1102(a)—
1) If the requirement is for type 1A,
, or II vehicles, which are by defini-
n fuel efficient; or
2) If the requirement is for passen-
vehicles larger than 1A, 1B, or II,
d the agency has established proce-
res for advance approval, on a case-
case basis, of such requirements.
c) Generally, solicitations shall not
limited to current-year production
dels. However, with the prior ap-
val of the head of the contracting
ice, solicitations may be limited to
rent models on the basis of overall
nomy.

FR 42129, Sept. 19, 1983, as amended at
R 25527, June 21, 1990]

8.1103 Contract requirements.

Contracting officers shall include the following items in each contract for leasing motor vehicles:

(a) Scope of contract.

(b) Method of computing payments.

(c) A listing of the number and type of vehicles required, and the equipment and accessories to be provided with each vehicle.

(d) Responsibilities of the contractor or the Government for furnishing gasoline, motor oil, antifreeze, and similar items.

(e) Unless it is determined that it will be more economical for the Government to perform the work, a statement that the contractor shall perform all maintenance on the vehicles.

(f) A statement as to the applicability of pertinent State and local laws and regulations, and the responsibility of each party for compliance with them.

(g) Responsibilities of the contractor or the Government for emergency repairs and services.

8.1104 Contract clauses.

The contracting officer shall insert the following clauses in solicitations and contracts for leasing of motor vehicles, unless the motor vehicles are leased in foreign countries:

(a) The clause at 52.208-4, Vehicle Lease Payments.

(b) The clause at 52.208-5, Condition of Leased Vehicles.

(c) The clause at 52.208-6, Marking of Leased Vehicles.

(d) A clause substantially the same as the clause at 52.208-7, Tagging of Leased Vehicles, for vehicles leased over 60 days (see 41 CFR 101-38.6).

(e) The provisions and clauses prescribed elsewhere in the FAR for solicitations and contracts for supplies when a fixed-price contract is contemplated, but excluding—

(1) The clause at 52.212-9, Variation in Quantity;

(2) The clause at 52.232-1, Payments;

(3) The clause at 52.222-20, Walsh-Healey Public Contracts Act; and

(4) The clause at 52.246-16, Responsibility for Supplies.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42142, Sept. 19, 1983, unless otherwise noted.

9.000 Scope of part.

This part prescribes policies, standards, and procedures pertaining to prospective contractors' responsibility; debarment, suspension, and ineligibility; qualified products; first article testing and approval; contractor team arrangements; defense production pools and research and development pools; and organizational conflicts of interest.

Subpart 9.1—Responsible Prospective Contractors

9.100 Scope of subpart.

This subpart prescribes policies, standards, and procedures for determining whether prospective contractors and subcontractors are responsible.

9.101 Definitions.

Preaward survey means an evaluation by a surveying activity of a prospective contractor's capability to perform a proposed contract.

Responsible prospective contractor means a contractor that meets the standards in 9.104.

Surveying activity means the cognizant contract administration office or, if there is no such office, another organization designated by the agency to conduct preaward surveys.

9.102 Applicability.

(a) This subpart applies to all proposed contracts with any prospective contractor that is located—

(1) In the United States, its possessions, or Puerto Rico; or

(2) Elsewhere, unless application of the subpart would be inconsistent with the laws or customs where the contractor is located.

(b) This subpart does not apply to proposed contracts with (1) foreign, State, or local governments; (2) other U.S. Government agencies or their instrumentalities; or (3) agencies for the blind or other severely handicapped (see subpart 8.7).

9.103 Policy.

(a) Purchases shall be made from, and contracts shall be awarded to, responsible prospective contractors only.

(b) No purchase or award shall be made unless the contracting officer makes an affirmative determination of responsibility. In the absence of information clearly indicating that the prospective contractor is responsible, the contracting officer shall make a determination of nonresponsibility. If the prospective contractor is a small business concern, the contracting officer shall comply with subpart 19.6, Certificates of Competency and Determinations of Eligibility. (If Section 8(a) of the Small Business Act (15 U.S.C. 637) applies, see subpart 19.8.)

(c) The award of a contract to a supplier based on lowest evaluated price alone can be false economy if there is subsequent default, late deliveries, or other unsatisfactory performance resulting in additional contractual or administrative costs. While it is important that Government purchases be made at the lowest price, this does not require an award to a supplier solely because that supplier submits the lowest offer. A prospective contractor must affirmatively demonstrate its responsibility, including, when necessary, the responsibility of its proposed subcontractors.

9.104 Standards.

9.104-1 General standards.

To be determined responsible, a prospective contractor must—

(a) Have adequate financial resources to perform the contract, or the ability to obtain them (see 9.104-3(b));

(b) Be able to comply with the required or proposed delivery or performance schedule, taking into consideration all existing commercial and governmental business commitments;

(c) Have a satisfactory performance record (see 9.104-3(c));

(d) Have a satisfactory record of integrity and business ethics;

(e) Have the necessary organization, experience, accounting and operational controls, and technical skills, or the ability to obtain them (including, as appropriate, such elements as production control procedures, property control systems, and quality assurance measures applicable to materials to be produced or services to be performed by the prospective contractor and subcontractors) (see 9.104-3(b));

(f) Have the necessary production, construction, and technical equipment and facilities, or the ability to obtain them (see 9.104-3(b)); and

(g) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

[48 FR 42142, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986]

9.104-2 Special standards.

(a) When it is necessary for a particular acquisition or class of acquisitions, the contracting officer shall develop, with the assistance of appropriate specialists, special standards of responsibility. Special standards may be particularly desirable when experience has demonstrated that unusual expertise or specialized facilities are needed for adequate contract performance. The special standards shall be set forth in the solicitation (and so identified) and shall apply to all offerors.

(b) Contracting officers shall award contracts for subsistence only to those prospective contractors that meet the general standards in 9.104-1 and are approved in accordance with agency sanitation standards and procedures.

9.104-3 Application of standards.

(a) *Manufacturer or regular dealer.* (See 22.608-2.)

(b) *Ability to obtain resources.* Except to the extent that a prospective contractor has sufficient resources or proposes to perform the contract by subcontracting, the contracting officer shall require acceptable evidence of the prospective contractor's ability to obtain required resources (see 9.104-1(a), (e), and (f)). Acceptable evidence normally consists of a commitment or explicit arrangement, that will be in existence at the time of contract award, to rent, purchase, or otherwise acquire the needed facilities, equipment, other resources, or personnel.

(c) *Satisfactory performance record.* A prospective contractor that is or recently has been seriously deficient in contract performance shall be presumed to be nonresponsible, unless the contracting officer determines that the circumstances were properly beyond the contractor's control or that the contractor has taken appropriate corrective action. Past failure to apply sufficient tenacity and perseverance to perform acceptably is strong evidence of nonresponsibility. The contracting officer shall consider the number of contracts involved and extent of deficiency of each in making this evaluation. Prior compliance with subcontracting plans required by subpart 19.7 shall be considered in determining the responsibility of an offeror bidding on a contract requiring a subcontracting plan.

(d) *Affiliated concerns.* Affiliated concerns (see *Affiliates* and *Concerns* in 19.101) are normally considered separate entities in determining whether the concern that is to perform the contract meets the applicable standards for responsibility. However, the contracting officer shall consider the affiliate's past performance and integrity when they may adversely affect the prospective contractor's responsibility.

(e) *Small business concerns.* If a small business concern's offer that would otherwise be accepted is to be rejected because of a determination of nonresponsibility, the contracting officer shall refer the matter to the Small Business Administration, which will decide whether or not to issue a Certificate of Competency (see subpart 19.6).

[48 FR 42142, Sept. 19, 1983, as amended at 53 FR 27463, July 20, 1988; 53 FR 34226, Sept. 2, 1988]

9.104-4 Subcontractor responsibility.

(a) Generally, prospective prime contractors are responsible for determining the responsibility of their prospective subcontractors (but see 9.405 and

9.405-2 regarding debarred, ineligible, or suspended firms). Determinations of prospective subcontractor responsibility may affect the Government's determination of the prospective prime contractor's responsibility. A prospective contractor may be required to provide written evidence of a proposed subcontractor's responsibility.

(b) When it is in the Government's interest to do so, the contracting officer may directly determine a prospective subcontractor's responsibility (e.g., when the prospective contract involves medical supplies, urgent requirements, or substantial subcontracting). In this case, the same standards used to determine a prime contractor's responsibility shall be used by the Government to determine subcontractor responsibility.

9.105 Procedures.

9.105-1 Obtaining information.

(a) Before making a determination of responsibility, the contracting officer shall possess or obtain information sufficient to be satisfied that a prospective contractor currently meets the applicable standards in 9.104.

(b) (1) Generally, the contracting officer shall obtain information regarding the responsibility of prospective contractors, including requesting preaward surveys when necessary (see 9.106), promptly after a bid opening or receipt of offers. However, in negotiated contracting, especially when research and development is involved, the contracting officer may obtain this information before issuing the request for proposals. Requests for information shall ordinarily be limited to information concerning (i) the low bidder or (ii) those offerors in range for award.

(2) Preaward surveys shall be managed and conducted by the surveying activity.

(i) If the surveying activity is a contract administration office—

(A) That office shall advise the contracting officer on prospective contractors' financial competence and credit needs; and

(B) The administrative contracting officer shall obtain from the auditor any information required concerning the adequacy of prospective contractors' accounting systems and these systems' suitability for use in administering the proposed type of contract.

(ii) If the surveying activity is not a contract administration office, the contracting officer shall obtain from the auditor any information required concerning prospective contractors' financial competence and credit needs, the adequacy of their accounting systems, and these systems' suitability for use in administering the proposed type of contract.

(3) Information on financial resources and performance capability shall be obtained or updated on as current a basis as is feasible up to the date of award.

(c) The contracting officer should use the following sources of information to support determinations of responsibility or nonresponsibility:

(1) The list entitled Parties Excluded from Procurement Programs (list of contractors debarred, suspended, proposed for debarment, and declared ineligible) maintained in accordance with subpart 9.4.

(2) Records and experience data, including verifiable knowledge of personnel within the contracting office, audit offices, contract administration offices, and other contracting offices.

(3) The prospective contractor—including bid or proposal information, questionnaire replies, financial data, information on production equipment, and personnel information.

(4) Preaward survey reports (see 9.106).

(5) Other sources such as publications; suppliers, subcontractors, and customers of the prospective contractor; financial institutions; Government agencies; and business and trade associations.

(6) If the contract is for construction, the contracting officer may consider performance evaluation reports (see 36.201(c)(2)).

(d) Contracting offices and cognizant contract administration offices that become aware of circumstances casting doubt on a contractor's ability to perform contracts successfully shall promptly exchange relevant information.

[48 FR 42142, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986; 52 FR 9038, Mar. 20, 1987; 54 FR 19813, May 8, 1989]

9.105-2 Determinations and documentation.

(a) *Determinations.* (1) The contracting officer's signing of a contract constitutes a determination that the prospective contractor is responsible with respect to that contract. When an offer on which an award would otherwise be made is rejected because the prospective contractor is found to be nonresponsible, the contracting officer shall make, sign, and place in the contract file a determination of nonresponsibility, which shall state the basis for the determination.

(2) If the contracting officer determines and documents that a responsive small business lacks certain elements of responsibility, the contracting officer shall comply with the procedures in subpart 19.6. When a certificate of competency is issued for a small business concern (see subpart 19.6), the contracting officer may accept the factors covered by the certificate without further inquiry.

(b) *Support documentation.* Documents and reports supporting a determination of responsibility or nonresponsibility, including any preaward survey reports and any applicable Certificate of Competency, must be included in the contract file.

9.105-3 Disclosure of preaward information.

(a) Except as provided in subpart 24.2, Freedom of Information Act, information (including the preaward survey report) accumulated for purposes of determining the responsibility of a prospective contractor shall not be released or disclosed outside the Government.

(b) The contracting officer may discuss preaward survey information with the prospective contractor before determining responsibility. After award, the contracting officer or, if it is appropriate, the head of the surveying activity or a designee may discuss the findings of the preaward survey with the company surveyed.

(c) Preaward survey information may contain proprietary and/or source selection information and should be marked with the appropriate legend and protected accordingly (see 3.104-4 (j) and (k)).

[48 FR 42142, Sept. 19, 1983, as amended by 54 FR 20496, May 11, 1989]

Effective Date Note: At 54 FR 50718, Dec. 8, 1989, paragraph (c) in section 9.105-3 was suspended for the period December 1, 1989, through November 30, 1990.

9.106 Preaward surveys.

9.106-1 Conditions for preaward surveys.

(a) A preaward survey is normally required when the information on hand or readily available to the contracting officer is not sufficient to make a determination regarding responsibility. However, if the contemplated contract (1) will be for $25,000 or less or (2) will have a fixed price of less than $100,000 and will involve commercial products (see 11.001) only, the contracting officer should *not* request a preaward survey unless circumstances justify its cost.

(b) When a cognizant contract administration office becomes aware of a prospective award to a contractor about which unfavorable information exists and no preaward survey has been requested, it shall promptly obtain and transmit details to the contracting officer.

(c) Before beginning a preaward survey, the surveying activity shall ascertain whether the prospective contractor is debarred, suspended, or ineligible (see subpart 9.4). If the prospective contractor is debarred, suspended, or ineligible, the surveying activity shall advise the contracting officer promptly and not proceed with the preaward survey unless specifically requested to do so by the contracting officer.

[48 FR 42142, Sept. 19, 1983, as amended at 51 FR 27489, July 31, 1986]

9.106-2 Requests for preaward surveys.

The contracting officer's request to the surveying activity (Preaward Survey of Prospective Contractor (General), SF 1403) shall—

(a) Identify additional factors about which information is needed;

(b) Include the complete solicitation package (unless it has previously been furnished), and any information indicating prior unsatisfactory performance by the prospective contractor;

(c) State whether the contracting office will participate in the survey;

(d) Specify the date by which the report is required. This date should be consistent with the scope of the survey requested and normally shall allow at least 7 working days to conduct the survey; and

(e) When appropriate, limit the scope of the survey.

9.106-3 Interagency preaward surveys.

(a) When the contracting office and the surveying activity are in different agencies, the procedures of this section 9.106 and subpart 42.1 shall be followed along with the regulations of the agency in which the surveying activity is located, except that reasonable special requests by the contracting office shall be accommodated.

(b) For contracts or contract modifications expected to exceed $100,000, the surveying activity shall furnish with its report a list of all persons, classes of persons, and to the maximum extent practicable, the names of all individuals within the class, who have been provided access to the proprietary or source selection information (see 3.104-5(d)) at or by the surveying activity.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 20496, May 11, 1989; 55 FR 36795, Sept. 6, 1990]

9.106-4 Reports.

(a) The surveying activity shall complete the applicable parts of SF 1403, Preaward Survey of Prospective Contractor (General); SF 1404, Preaward Survey of Prospective Contractor—Technical; SF 1405, Preaward Survey of Prospective Contractor—Production; SF 1406, Preaward Survey of Prospective Contractor—Quality Assurance; SF 1407, Preaward Survey of Prospective Contractor—Financial Capability; and SF 1408, Preaward Survey of Prospective Contractor—Accounting System; and provide a narrative discussion sufficient to support both the evaluation ratings and the recommendations.

(b) When the contractor surveyed is a small business that has received preferential treatment on an ongoing contract under Section 8(a) of the Small Business Act (15 U.S.C. 637) or has received a Certificate of Competency during the last 12 months, the surveying activity shall consult the appropriate Small Business Administration field office before making an affirmative recommendation regarding the contractor's responsibility or nonresponsibility.

(c) When a preaward survey discloses previous unsatisfactory performance, the surveying activity shall specify the extent to which the prospective contractor plans, or has taken, corrective action. Lack of evidence that past failure to meet contractual requirements was the prospective contractor's fault does not necessarily indicate satisfactory performance. The narrative shall report any persistent pattern of need for costly and burdensome Government assistance (e.g., engineering, inspection, or testing) provided in the Government's interest but not contractually required.

(d) When the surveying activity possesses information that supports a recommendation of complete award without an on-site survey and no special areas for investigation have been requested, the surveying activity may provide a short-form preaward survey report. The short-form report shall consist solely of the Preaward Survey of Prospective Contractor (General), SF 1403. Sections III and IV of this form shall be completed and block 21 shall be checked to show that the report is a short-form preaward report.

Subpart 9.2—Qualifications Requirements

SOURCE: 50 FR 35476, Aug. 30, 1985, unless otherwise noted.

9.200 Scope of subpart.

This subpart implements 10 U.S.C. 2319 and 41 U.S.C. 253(e) and prescribes policies and procedures regarding qualification requirements and the acquisitions that are subject to such requirements.

9.201 Definitions.

Procuring activity, as used in this part or subpart, means a component of an executive agency having a significant acquisition function and designated as such by the head of the agency. Unless agency regulations specify otherwise, the term *procuring activity* shall be synonymous with *contracting activity* as defined in subpart 2.1.

Qualification requirement means a Government requirement for testing or other quality assurance demonstration that must be completed before award of a contract.

Qualified bidders list (QBL) means a list of bidders who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product or have otherwise satisfied all applicable qualification requirements.

Qualified manufacturers list (QML) means a list of manufacturers who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product.

Qualified products list (QPL) means a list of products which have been examined, tested, and have satisfied all applicable qualification requirements.

[50 FR 35476, Aug. 30, 1985, as amended at 53 FR 34227, Sept. 2, 1988]

9.202 Policy.

(a)(1) The head of the agency or designee shall, before establishing a qualification requirement, prepare a written justification—

(i) Stating the necessity for establishing the qualification requirement and specifying why the qualification requirement must be demonstrated before contract award;

(ii) Estimating the likely costs for testing and evaluation which will be incurred by the potential offeror to become qualified; and

(iii) Specifying all requirements that a potential offeror (or its product) must satisfy in order to become qualified. Only those requirements which are the least restrictive to meet the purposes necessitating the establishment of the qualification requirements shall be specified.

(2) Upon request to the contracting activity, potential offerors shall be provided—

(i) All requirements that they or their products must satisfy to become qualified;

(ii) At their expense (but see 9.204(a)(2) with regard to small businesses), a prompt opportunity to demonstrate their abilities to meet the standards specified for qualification using qualified personnel and facilities of the agency concerned, or of another agency obtained through interagency agreements, or under contract, or other methods approved by the agency (including use of approved testing and evaluation services not provided under contract to the agency).

(3) If the services in (a)(2)(ii) above are provided by contract, the contractors selected to provide testing and evaluation services shall be—

(i) Those that are not expected to benefit from an absence of additional qualified sources; and

(ii) Required by their contracts to adhere to any restriction on technical data asserted by the potential offeror seeking qualification.

(4) A potential offeror seeking qualification shall be promptly informed as to whether qualification is attained and, in the event it is not, promptly furnished specific reasons why qualification was not attained.

(b) When justified under the circumstances, the agency activity responsible for establishing a qualification requirement shall submit to the competition advocate for the procuring activity responsible for purchasing the item subject to the qualification requirement, a determination that it is unreasonable to specify the standards for qualification which a prospective offeror (or its product) must satisfy. After considering any comments of the competition advocate reviewing the determination, the head of the procuring activity may waive the requirements of 9.202(a)(1)(ii) through (4) above for up to 2 years with respect to the item subject to the qualification requirement. A copy of the waiver shall be furnished to the head of the agency or other official responsible for actions under 9.202(a)(1). The waiver authority provided in this paragraph does not apply with respect to qualification requirements contained in a QPL, QML, or QBL.

(c) If a potential offeror can demonstrate to the satisfaction of the contracting officer that the potential offeror (or its product) meets the standards established for qualification or can meet them before the date specified for award of the contract, a potential offeror may not be denied the opportunity to submit and have considered an offer for a contract solely because the potential offeror—

(1) Is not on a QPL, QML, or QBL maintained by the Department of Defense (DOD) or the National Aeronautics and Space Administration (NASA); or

(2) Has not been identified as meeting a qualification requirement established after October 19, 1984, by DOD or NASA; or

(3) Has not been identified as meeting a qualification requirement established by a civilian agency (not including NASA).

(d) The procedures in subpart 19.6 for referring matters to the Small Business Administration are not mandatory on the contracting officer when the basis for a referral would involve a challenge by the offeror to either the validity of the qualification requirement or the offeror's compliance with such requirement.

(e) The contracting officer need not delay a proposed award in order to provide a potential offeror with an opportunity to demonstrate its ability to meet the standards specified for qualification. In addition, when approved by the head of an agency or designee, a procurement need not be delayed in order to comply with 9.202(a).

(f) Within 7 years following enforcement of a QPL, QML, or QBL by DOD or NASA, or within 7 years after any qualification requirement was originally established by a civilian agency other than NASA, the qualification requirement shall be examined and revalidated in accordance with the requirements of 9.202(a). For DOD and NASA, qualification requirements, other than QPL's, QML's, and QBL's, shall be examined and revalidated within 7 years after establishment of the requirement under 9.202(a). Any periods for which a waiver under 9.202(b) is in effect shall be excluded in computing the 7 years within which review and revalidation must occur.

[50 FR 35476, Aug. 30, 1985, as amended at 53 FR 34227, Sept. 2, 1988]

9.203 QPL's, QML's, and QBL's.

(a) Qualification and listing in a QPL, QML, or QBL is the process by which products are obtained from manufacturers or distributors, examined and tested for compliance with specification requirements, or manufacturers or potential offerors, are provided an opportunity to demonstrate their abilities to meet the standards specified for qualification. The names of successful products, manufacturers, or potential offerors are included on lists evidencing their status. Generally, qualification is performed in advance and independently of any specific acquisition action. After qualification, the products, manufacturers, or potential offerors are included in a Federal or Military QPL, QML, or QBL. (See 9.202(a)(2) with regard to any product, manufacturer, or potential offeror not yet included on an applicable list.)

(b) Specifications requiring a qualified product are included in the following publications:

(1) GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.

(2) Department of Defense Index of Specifications and Standards.

(c) Instructions concerning qualification procedures are included in the following publications:

(1) Federal Standardization Handbook, FPMR 101-29, Chapter IV.

(2) Defense Standardization Manual 4120.3-M, Chapter IV, as amended by Military Standards 961 and 962.

(d) The publications listed in paragraphs (b) and (c) above are sold to the public by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Civil agencies may obtain the publications from the General Services Administration, Specifications Section (WFSIS), Washington, DC 20407. Defense agencies may obtain the publications from the Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA 19120.

[50 FR 35476, Aug. 30, 1985, as amended at 53 FR 17857, May 18, 1988]

9.204 Responsibilities for establishment of a qualification requirement.

The responsibilities of agency activities that establish qualification requirements include the following:

(a) Arranging publicity for the qualification requirements. If active competition on anticipated future qualification requirements is likely to be fewer than two manufacturers or the products of two manufacturers, the activity responsible for establishment of the qualification requirements shall—

(1) Periodically publish notice in the Commerce Business Daily soliciting additional sources or products to seek qualification unless the contracting officer determines that such publication would compromise the national security.

(2) Bear the cost of conducting the specified testing and evaluation (excluding the costs associated with producing the item or establishing the production, quality control, or other system to be tested and evaluated) for a small business concern or a product manufactured by a small business concern which has met the standards specified for qualification and which could reasonably be expected to compete for a contract for that requirement. However, such costs may be borne only if it is determined in accordance with agency procedures that such additional qualified sources or products are likely to result in cost savings from increased competition for future requirements sufficient to amortize the costs incurred by the agency within a reasonable period of time, considering the duration and dollar value of anticipated future requirements. A prospective contractor requesting the United States to bear testing and evaluation costs must certify as to its status as a small business concern under section 3 of the Small Business Act in order to receive further consideration.

(b) Qualifying products that meet specification requirements.

(c) Listing manufacturers and suppliers whose products are qualified in accordance with agency procedures.

(d) Furnishing QPL's, QML's, or QBL's or the qualification requirements themselves to prospective offerors and the public upon request (see 9.202(a)(2)(i) above).

(e) Clarifying, as necessary, qualification requirements.

(f) In appropriate cases, when requested by the contracting officer, providing concurrence in a decision not to enforce a qualification requirement for a solicitation.

(g) Withdrawing or omitting qualification of a listed product, manufacturer or offeror, as necessary.

(h) Advising persons furnished any list of products, manufacturers or offerors meeting a qualification requirement and suppliers whose products are on any such list that—

(1) The list does not constitute endorsement of the product, manufacturer, or other source by the Government;

(2) The products or sources listed have been qualified under the latest applicable specification;

(3) The list may be amended without notice;

(4) The listing of a product or source does not release the supplier from compliance with the specification; and

(5) Use of the list for advertising or publicity is permitted. However, it must not be stated or implied that a particular product or source is the only product or source of that type qualified, or that the Government in any way recommends or endorses the products or the sources listed.

(i) Reexamining a qualified product or manufacturer when—

(1) The manufacturer has modified its product, or changed the material or the processing sufficiently so that the validity of previous qualification is questionable;

(2) The requirements in the specification have been amended or revised sufficiently to affect the character of the product; or

(3) It is otherwise necessary to determine that the quality of the product is

aintained in conformance with the
ecification.

**205 Opportunity for qualification before
award.**

(a) If an agency determines that a
alification requirement is necessary,
e agency activity responsible for es-
blishing the requirement shall urge
anufacturers and other potential
urces to demonstrate their ability to
eet the standards specified for quali-
ation and, when possible, give suffi-
ent time to arrange for qualification
fore award. The responsible agency
tivity shall, before establishing any
alification requirement, furnish
tice to the U.S. Department of Com-
erce, Office of Field Operations, P.O.
x 5999, Chicago, Illinois 60680, for
ropsis in the Commerce Business
ily. The notice shall include—

1) Intent to establish a qualification
quirement;

2) The specification number and
me of the product;

3) The name and address of the ac-
ity to which a request for the infor-
ation and opportunity described in
02(a)(2) should be submitted;

4) The anticipated date that the
ency will begin awarding contracts
bject to the qualification require-
ent;

5) A precautionary notice that
en a product is submitted for quali-
ation testing, the applicant must
rnish any specific information that
y be requested of the manufacturer
fore testing will begin; and

6) The approximate time period fol-
ving submission of a product for
lification testing within which the
plicant will be notified whether the
duct passed or failed the qualifica-
n testing (see 9.202(a)(4)).

b) The activity responsible for es-
lishing a qualification requirement
ll keep any list maintained of those
ady qualified open for inclusion of
itional products, manufacturers, or
er potential sources, including eli-
e products from designated coun-
s under terms of the International
eement on Government Procure-
t (see subpart 25.4).

9.206 Acquisitions subject to qualification requirements.

9.206-1 General.

(a) Agencies may not enforce any QPL, QML, or QBL without first complying with the requirements of 9.202(a). However, qualification requirements themselves, whether or not previously embodied in a QPL, QML, or QBL, may be enforced without regard to 9.202(a) if they are in either of the following categories:

(1) Any qualification requirement established by statute prior to October 30, 1984, for civilian agencies (not including NASA); or

(2) Any qualification requirement established by statute or administrative action prior to October 19, 1984, for DOD or NASA. Qualification requirements established after the above dates must comply with 9.202(a) to be enforceable.

(b) Except when the agency head or designee determines that an emergency exists, whenever an agency elects, whether before or after award, not to enforce a qualification requirement which it established, the requirement may not thereafter be enforced unless the agency complies with 9.202(a).

(c) If a qualification requirement applies, the contracting officer need consider only those offers identified as meeting the requirement or included on the applicable QPL, QML, or QBL, unless an offeror can satisfactorily demonstrate to the contracting officer that it or its product or its subcontractor or its product can meet the standards established for qualification before the date specified for award.

(d) If a product subject to a qualification requirement is to be acquired as a component of an end item, the contracting officer must assure that all such components and their qualification requirements are properly identified in the solicitation since the product or source must meet the standards specified for qualification before award.

(e) In acquisitions subject to qualification requirements, the contracting officer shall take the following steps:

(1) Use presolicitation notices in appropriate cases to advise potential sup-

pliers before issuing solicitations involving qualification requirements. The notices shall identify the specification containing the qualification requirement and establish an allowable time period, consistent with delivery requirements, for prospective offerors to demonstrate their abilities to meet the standards specified for qualification. The notice shall be publicized in accordance with 5.204. Whether or not a presolicitation notice is used, the general synopsizing requirements of subpart 5.2 apply.

(2) Distribute solicitations to prospective contractors whether or not they have been identified as meeting applicable qualification requirements.

(3) When appropriate, request in accordance with agency procedures that a qualification requirement not be enforced in a particular acquisition and, if granted, so specify in the solicitation (see 9.206-1(b)).

(4) Forward requests from potential suppliers for information on a qualification requirement to the agency activity responsible for establishing the requirement.

(5) Allow the maximum time, consistent with delivery requirements, between issuing the solicitation and the contract award. As a minimum, contracting officers shall comply with the time frames specified in 5.203 when applicable.

[50 FR 35476, Aug. 30, 1985, as amended at 53 FR 34227, Sept. 2, 1988]

9.206-2 Contract clause.

The contracting officer shall insert the clause at 52.209-1, Qualification Requirements, in solicitations and contracts when the acquisition is subject to a qualification requirement.

[53 FR 34227, Sept. 2, 1988]

9.206-3 Competition.

(a) *Presolicitation.* If a qualification requirement applies to an acquisition, the contracting officer shall review the applicable QPL, QML, or QBL or other identification of those sources which have met the requirement before issuing a solicitation to ascertain whether the number of sources is adequate for competition. (See 9.204(a) for duties of the agency activity responsible for establishment of the qualification requirement.) If the number of sources is inadequate, the contracting officer shall request the agency activity which established the requirement to—

(1) Indicate the anticipated date on which any sources presently undergoing evaluation will have demonstrated their abilities to meet the qualification requirement so that the solicitation could be rescheduled to allow as many additional sources as possible to qualify; or

(2) Indicate whether a means other than the qualification requirement is feasible for testing or demonstrating quality assurance.

(b) *Postsolicitation.* The contracting officer shall submit to the agency activity which established the qualification requirement the names and addresses of concerns which requested copies of the solicitation but are not included on the applicable QPL, QML, or QBL or identified as meeting the qualification requirement. The activity will then assist interested concerns in meeting the standards specified for qualification (see 9.202(a) (2) and (4)).

9.207 Changes in status regarding qualification requirements.

(a) The contracting officer shall promptly report to the agency activity which established the qualification requirement any conditions which may merit removal or omission from a QPL, QML, or QBL or affect whether a source should continue to be otherwise identified as meeting the requirement. These conditions exist when—

(1) Products or services are submitted for inspection or acceptance that do not meet the qualification requirement;

(2) Products or services were previously rejected and the defects were not corrected when resubmitted for inspection or acceptance;

(3) A supplier fails to request reevaluation following change of location or ownership of the plant where the product which met the qualification requirement was manufactured (see the clause at 52.209-1, Qualification Requirements);

(4) A manufacturer of a product
/hich met the qualification require-
ient has discontinued manufacture of
he product;

(5) A source requests removal from a
PL, QML, or QBL;

(6) A condition of meeting the quali-
ication requirement was violated; e.g.,
dvertising or publicity contrary to
.204(h)(5);

(7) A revised specification imposes a
ew qualification requirement;

(8) Manufacturing or design changes
ave been incorporated in the qualifi-
ation requirement;

(9) The source is on the Consolidat-
d List of Debarred, Suspended, and
neligible Contractors (see subpart
4); or

(10) Performance of a contract sub-
ct to a qualification requirement is
therwise unsatisfactory.

(b) After considering any of the
bove or other conditions reasonably
elated to whether a product or source
ontinues to meet the standards speci-
ed for qualification, an agency may
ke appropriate action without ad-
ance notification. The agency shall,
owever, promptly notify the affected
arties if a product or source is re-
oved from a QPL, QML, or QBL, or
ill no longer be identified as meeting
e standards specified for qualifica-
on. This notice shall contain specific
formation why the product or source
o longer meets the qualification re-
irement.

0 FR 35476, Aug. 30, 1985, as amended at
FR 34227, Sept. 2, 1988]

bpart 9.3—First Article Testing and Approval

01 Definitions.

Approval, as used in this subpart,
eans the contracting officer's written
tification to the contractor accept-
g the test results of the first article.

First article, as used in this subpart,
eans preproduction models, initial
oduction samples, test samples, first
s, pilot lots, and pilot models.

irst article testing means testing
d evaluating the first article for con-
mance with specified contract re-
irements before or in the initial
ge of production.

9.302 General.

First article testing and approval (hereafter referred to as testing and approval) ensures that the contractor can furnish a product that conforms to all contract requirements for acceptance. Before requiring testing and approval, the contracting officer shall consider the—

(a) Impact on cost or time of delivery;

(b) Risk to the Government of foregoing such test; and

(c) Availability of other, less costly, methods of ensuring the desired quality.

9.303 Use.

Testing and approval may be appropriate when—

(a) The contractor has not previously furnished the product to the Government;

(b) The contractor previously furnished the product to the Government, but—

(1) There have been subsequent changes in processes or specifications;

(2) Production has been discontinued for an extended period of time; or

(3) The product acquired under a previous contract developed a problem during its life.

(c) The product is described by a performance specification; or

(d) It is essential to have an approved first article to serve as a manufacturing standard.

9.304 Exceptions.

Normally, testing and approval is not required in contracts for—

(a) Research or development;

(b) Products requiring qualification before award (e.g., when an applicable qualified products list exists (see subpart 9.2));

(c) Products normally sold in the commercial market; or

(d) Products covered by complete and detailed technical specifications, unless the requirements are so novel or exacting that it is questionable whether the products would meet the requirements without testing and approval.

9.305 Risk.

Before first article approval, the acquisition of materials or components, or commencement of production, is normally at the sole risk of the contractor. To minimize this risk, the contracting officer shall provide sufficient time in the delivery schedule for acquisition of materials and components, and for production after receipt of first article approval. When Government requirements preclude this action, the contracting officer may, before approval of the first article, authorize the contractor to acquire specific materials or components or commence production to the extent essential to meet the delivery schedule (see Alternate II of the clause at 52.209-3, First Article Approval—Contractor Testing, and Alternate II of the clause at 52.209-4, First Article Approval—Government Testing. Costs incurred based on this authorization are allocable to the contract for (1) progress payments and (2) termination settlements if the contract is terminated for the convenience of the Government.

9.306 Solicitation requirements.

Solicitations containing a testing and approval requirement shall—

(a) Provide, in the circumstance where the contractor is to be responsible for the first article approval testing—

(1) The performance or other characteristics that the first article must meet for approval;

(2) The detailed technical requirements for the tests that must be performed for approval; and

(3) The necessary data that must be submitted to the Government in the first article approval test report.

(b) Provide, in the circumstance where the Government is to be responsible for the first article approval testing—

(1) The performance or other characteristics that the first article must meet for approval; and

(2) The tests to which the first article will be subjected for approval.

(c) Inform offerors that the requirement may be waived when supplies identical or similar to those called for have previously been delivered by the offeror and accepted by the Government (see 52.209-3(h) and 52.209-4(i));

(d) Permit the submission of alternative offers, one including testing and approval and the other excluding testing and approval (if eligible under 9.306(c));

(e) State clearly the first article's relationship to the contract quantity (see paragraph (e) of the clause at 52.209-3, First Article Approval—Contractor Testing, or 52.209-4, First Article Approval—Government Testing);

(f) Contain a delivery schedule for the production quantity (see 12.104). The delivery schedule may—

(1) Be the same whether or not testing and approval is waived; or

(2) Provide for earlier delivery when testing and approval is waived and the Government desires earlier delivery. In the latter case, any resulting difference in delivery schedules shall not be a factor in evaluation for award. The clause at 52.209-4, First Article Approval—Government Testing, shall contain the delivery schedule for the first article;

(g) Provide for the submission of contract numbers, if any, to document the offeror's eligibility under 9.306(c);

(h) State whether the approved first article will serve as a manufacturing standard; and

(i) Include, when the Government is responsible for first article testing, the Government's estimated testing costs as a factor for use in evaluating offers (when appropriate).

(j) Inform offerors that the prices for first articles and first article tests in relation to production quantities shall not be materially unbalanced (see 15.814) if first article test items or tests are to be separately priced.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 34753, Aug. 21, 1989; 55 FR 25527, June 21, 1990]

9.307 Government administration procedures.

(a) Before the contractor ships the first article, or the first article test report, to the Government laboratory or other activity responsible for approval at the address specified in the contract, the contract administration office shall provide that activity with

uch advance notification as is fea-
of the forthcoming shipment,
—

Advise that activity of the con-
tual requirements for testing and
oval, or evaluation, as appropri-

Call attention to the notice re-
ement in paragraph (b) of the
se at 52.209-3, First Article Ap-
al— Contractor Testing, or 52.209-
rst Article Approval—Government
ing; and

Request that the activity inform
contract administration office of
date when testing or evaluation
oe completed.

The Government laboratory or
r activity responsible for first arti-
esting or evaluation shall inform
contracting office whether to ap-
e. conditionally approve, or disap-
e the first article. The contracting
er shall then notify the contrac-
f the action taken and furnish a
of the notice to the contract ad-
stration office. The notice shall
de the first article shipment
ber, when available, and the appli-
contract line item number. Any
ges in the drawings, designs, or
fications determined by the con-
ing officer to be necessary shall
nade under the Changes clause,
not by the notice of approval, con-
nal approval, or disapproval fur-
d the contractor.

Contract clauses.

1 Testing performed by the contrac-
r.

(1) The contracting officer shall
the clause at 52.209-3, First Ar-
Approval—Contractor Testing, in
tations and contracts when a
-price contract is contemplated
is intended that the contract re-
(i) first article approval and (ii)
he contractor be required to con-
he first article testing.

If it is intended that the contrac-
required to produce the first ar-
and the production quantity at
me facility, the contracting offi-
all use the clause with its Alter-
.

f it is necessary to authorize the
ctor to purchase material or to

commence production before first article approval, the contracting officer shall use the clause with its Alternate II.

(b) (1) The contracting officer shall insert a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, in solicitations and contracts when a cost-reimbursement contract is contemplated and it is intended that the contract require (i) first article approval and (ii) that the contractor be required to conduct the first article test.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, the contracting officer shall use a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the contracting officer shall use a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, with its Alternate II.

9.308-2 Testing performed by the Government.

(a) (1) The contracting officer shall insert the clause at 52.209-4, First Article Approval—Government Testing, in solicitations and contracts when a fixed-price contract is contemplated and it is intended that the contract require first article approval and that the Government will be responsible for conducting the first article test.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, the contracting officer shall use the basic clause with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the, contracting officer shall use the basic clause with its Alternate II.

(b) (1) The contracting officer shall insert a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, in solicitations and contracts when a cost-reimbursement contract is contemplated and it is intended that the contract require first article approval and that the Government be responsible for conducting the first article test.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, the contracting officer shall use a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the contracting officer shall use a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, with its Alternate II.

Subpart 9.4—Debarment, Suspension, and Ineligibility

9.400 Scope of subpart.

(a) This subpart—

(1) Prescribes policies and procedures governing the debarment and suspension of contractors by agencies for the causes given in 9.406-2 and 9.407-2;

(2) Provides for the listing of contractors debarred, suspended, proposed for debarment, and declared ineligible (see the definition of *ineligible* in 9.403); and

(3) Sets forth the consequences of this listing.

(b) Although this subpart does cover the listing of ineligible contractors (9.404) and the effect of this listing (9.405(b)), it does not prescribe policies and procedures governing declarations of ineligibility.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 19814, May 8, 1989]

9.401 Applicability.

This subpart does not apply to the exclusion of participants or principals from Federal financial or nonfinancial assistance programs and benefits pursuant to Executive Order 12549. Such exclusions are contained within the list entitled Parties Excluded from Nonprocurement Programs of the lists of Parties Excluded from Federal Procurement or Nonprocurement Programs.

[54 FR 19814, May 8, 1989]

9.402 Policy.

(a) Agencies shall solicit offers from, award contracts to, and consent to subcontracts with responsible contractors only. Debarment and suspension are discretionary actions that, taken in accordance with this subpart, are appropriate means to effectuate this policy.

(b) The serious nature of debarment and suspension requires that these sanctions be imposed only in the public interest for the Government's protection and not for purposes of punishment. Agencies shall impose debarment or suspension to protect the Government's interest and only for the causes and in accordance with the procedures set forth in this subpart.

(c) When more than one agency has an interest in the debarment or suspension of a contractor, consideration shall be given to designating one agency as the lead agency for making the decision. Agencies are encouraged to establish methods and procedures for coordinating their debarment or suspension actions.

(d) Agencies shall establish appropriate procedures to implement the policies and procedures of this subpart.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 19814, May 8, 1989]

9.403 Definitions.

Adequate evidence means information sufficient to support the reasonable belief that a particular act or omission has occurred.

Affiliates. Business concerns, organizations, or individuals are affiliates of each other if, directly or indirectly, (a) either one controls or has the power to control the other, or (b) a third party controls or has the power to control both. Indicia of control include, but are not limited to, interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the debarment, suspension, or proposed debarment of a contractor which has the same or similar management, ownership, or principal employees as the contract or that was debarred, suspended, or proposed for debarment.

Agency, as used in this subpart, means any executive department, military department or defense agency, or other agency or independent establishment of the executive branch.

Civil judgment means a judgment or finding of a civil offense by any court of competent jurisdiction.

Contractor, as used in this subpart, means any individual or other legal entity that (a) submits offers for or is awarded, or reasonably may be expected to submit offers for or be awarded, a Government contract, including a contract for carriage under Government or commercial bills of lading, or a subcontract under a Government contract or (b) conducts business with the government as an agent or representative of another contractor.

Conviction means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.

Debarment, as used in this subpart, means action taken by a debarring official under 9.406 to exclude a contractor from Government contracting and Government-approved subcontracting for a reasonable, specified period; a contractor so excluded is *debarred.*

Debarring official means (a) an agency head or (b) a designee authorized by the agency head to impose debarment.

Indictment means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

Ineligible, as used in this subpart, means excluded from Government contracting (and subcontracting, if appropriate) pursuant to statutory, Executive order, or regulatory authority other than this regulation and its implementing and supplementing regulations; for example, pursuant to the Davis-Bacon Act and its related statutes and implementing regulations, the Service Contract Act, the Equal Employment Opportunity Acts and Executive orders, the Walsh-Healey Public Contracts Act, the Buy American Act, or the Environmental Protection Acts and Executive orders.

Legal proceedings means any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term includes appeals from such proceedings.

Parties Excluded from Procurement Programs, formerly referred to as the Consolidated List of Debarred, Suspended, and Ineligible Contractors means a list compiled, maintained, and distributed by the General Services Administration, in accordance with 9.404, containing the names of contractors debarred, suspended, or proposed for debarment by agencies under the procedures of this subpart, as well as contractors declared ineligible under other statutory or regulatory authority other than Executive Order 12549. The list of Parties Excluded from Procurement Programs is contained within the lists of Parties Excluded from Federal Procurement or Nonprocurement Programs.

Preponderance of the evidence means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Suspending official means (a) an agency head or (b) a designee authorized by the agency head to impose suspension.

Suspension, as used in this subpart, means action taken by a suspending official under 9.407 to disqualify a contractor temporarily from Government contracting and Government-approved subcontracting; a contractor so disqualified is *suspended.*

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 19814, May 8, 1989]

9.404 Parties excluded from procurement programs.

(a) The General Services Administration (GSA) shall—

(1) Compile and maintain a current, consolidated list of all contractors debarred, suspended, proposed for debarment, or declared ineligible by agencies or by the General Accounting Office;

(2) Periodically revise and distribute the list and issue supplements, if necessary, to all agencies and the General Accounting Office; and

(3) Include in the list the name and telephone number of the official responsible for its maintenance and distribution.

(b) The list entitled Parties Excluded from Procurement Programs shall indicate—

(1) The names and addresses of all contractors debarred, suspended, proposed for debarment, or declared ineligible, in alphabetical order, with cross-references when more than one name is involved in a single action;

(2) The name of the agency or other authority taking the action;

(3) The cause for the action (see 9.406-2 and 9.407-2 for causes authorized under this subpart) or other statutory or regulatory authority;

(4) The effect of the action;

(5) The termination date for each listing;

(6) The DUNS No.; and

(7) The name and telephone number of the point of contact for the action.

(c) Each agency shall—

(1) Notify GSA of the information required by paragraph (b) above within 5 working days after the action becomes effective;

(2) Notify GSA within 5 working days after modifying or rescinding an action;

(3) Notify GSA of the names and addresses of agency organizations that are to receive the consolidated list and the number of copies to be furnished to each;

(4) In accordance with internal retention procedures, maintain records relating to each debarment, suspension, or proposed debarment taken by the agency;

(5) Establish procedures to provide for the effective use of the Parties Excluded from Procurement Programs, including internal distribution thereof, to ensure that the agency does not solicit offers from, award contracts to, or consent to subcontracts with contractors on the Parties Excluded from Procurement Programs, except as otherwise provided in this subpart; and

(6) Direct inquiries concerning listed contractors to the agency or other authority that took the action.

(d) The public may obtain a subscription to the list from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or by calling the Government Printing Office Order and Inquiry Desk at (202) 783-3238.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 19814, May 8, 1989]

9.405 Effect of listing.

(a) Contractors debarred, suspended, or proposed for debarment are excluded from receiving contracts, and agencies shall not solicit offers from, award contracts to, or consent to subcontracts with these contractors, unless the acquiring agency's head or designee determines that there is a compelling reason for such action (see 9.405-2, 9.406-1(c), 9.407-1(d), and 23.50(e)). Contractors debarred, suspended or proposed for debarment are also excluded from conducting business with the Government as agents or representatives of other contractors.

(b) Contractors included on the Parties Excluded from Procurement Programs as having been declared ineligible on the basis of statutory or other regulatory procedures are excluded from receiving contracts, and if applicable, subcontracts, under the conditions and for the period set forth in the statute or regulation. Agencies shall not solicit offers from, award contracts to, or consent to subcontracts with these contractors under those conditions and for that period.

(c) Contractors debarred, suspended, or proposed for debarment are excluded from acting as individual sureties (see part 28).

[48 FR 42142, Sept. 19, 1983, as amended at 52 FR 9038, Mar. 20, 1987; 54 FR 19814, May 8, 1989; 54 FR 48982, Nov. 28, 1989; 55 FR 21707, May 25, 1990]

9.405-1 Continuation of current contracts.

(a) Notwithstanding the debarment, suspension, or proposed debarment of a contractor, agencies may continue contracts or subcontracts in existence at the time the contractor was debarred, suspended, or proposed for debarment unless the acquiring agency's head or a designee directs otherwise. A decision as to the type of termination action, if any, to be taken should be made only after review by agency contracting and technical personnel and by counsel to ensure the propriety of the proposed action.

(b) Agencies shall not renew or otherwise extend the duration of current contracts, or consent to subcontracts, with contractors debarred, suspended, or proposed for debarment, unless the acquiring agency's head or a designee states in writing the compelling reasons for renewal or extension.

[54 FR 19815, May 8, 1989]

9.405-2 Restrictions on subcontracting.

(a) When a contractor debarred, suspended, or proposed for debarment is proposed as a subcontractor for any subcontract subject to Government consent (see subpart 44.2), contracting officers shall not consent to subcontracts with such contractors unless the acquiring agency's head or a designee states in writing the compelling reasons for this approval action. (See 9.405(b) concerning declarations of ineligibility affecting subcontracting.)

(b) The Government suspends or debars contractors to protect the Government's interests. Contractors shall not enter into any subcontract equal to or in excess of $25,000 with a contractor that has been debarred, suspended, or proposed for debarment unless there is a compelling reason to do so. If a contractor intends to subcontract with a party that is debarred, suspended, or proposed for debarment as evidenced by the parties' inclusion on the list of Parties Excluded from Procurement Programs (see 9.404), a corporate officer or designee of the contractor is required by operation of the clause at 52.209-6, Protecting the Government's Interests when Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment, to notify the contracting officer, in writing, before entering into such subcontract. The notice must provide the following:

(1) The name of the subcontractor;

(2) The contractor's knowledge of the reasons for the subcontractor being on the list of Parties Excluded from Procurement Programs;

(3) The compelling reason(s) for doing business with the subcontractor notwithstanding its inclusion on the list of Parties Excluded from Procurement Programs; and

(4) The systems and procedures the contractor has established to ensure that it is fully protecting the Government's interests when dealing with such subcontractor in view of the specific basis for the party's debarment, suspension, or proposed debarment.

(c) The contractor's compliance with the requirements of 52.209-6 will be reviewed during Contractor Purchasing System Reviews (see subpart 44.3).

[54 FR 19815, May 8, 1989]

9.406 Debarment.

9.406-1 General.

(a) The debarring official may, in the public interest, debar a contractor for any of the causes in 9.406-2, using the procedures in 9.406-3. The existence of a cause for debarment, however, does not necessarily *require* that the contractor be debarred; the seriousness of the contractor's acts or omissions and any mitigating factors should be considered in making any debarment decision. In this connection, the supplying of information by the contractor to the Government pursuant to the Anti-Kickback Act of 1986 (see 3.502) shall be favorable evidence of the contractor's responsibility.

(b) Debarment constitutes debarment of all divisions or other organizational elements of the contractor, unless the debarment decision is limited by its terms to specific divisions, organizational elements, or commodities. The debarring official may extend the debarment decision to include any affiliates of the contractor if they are (1) specifically named and (2) given written notice of the proposed debarment and an opportunity to respond (see 9.406-3(c)).

(c) A contractor's debarment, or proposed debarment, shall be effective throughout the executive branch of the Government, unless an acquiring agency's head or a designee (except see 23.506(e)) states in writing the compelling reasons justifying continued business dealings between that agency and the contractor.

(d)(1) When the debarring official has authority to debar contractors from both acquisition contracts pursuant to this regulation and contracts for the purchase of Federal personal property pursuant to the Federal Property Management Regulations (FPMR) 101-45.6, that official shall consider simultaneously debarring the contractor from the award of acquisition contracts and from the purchase of Federal personal property.

(2) When debarring a contractor from the award of acquisition contracts and from the purchase of Federal personal property, the debarment notice shall so indicate and the appropriate FAR and FPMR citations shall be included.

[48 FR 42142, Sept. 19, 1983, as amended at 52 FR 6121, Feb. 27, 1987; 54 FR 19815, May 8, 1989; 55 FR 21707, May 25, 1990; 55 FR 30465, July 26, 1990]

9.406-2 Causes for debarment.

(a) The debarring official may debar a contractor for a conviction of or civil judgment for—

(1) Commission of fraud or a criminal offense in connection with (i) obtaining, (ii) attempting to obtain, or (iii) performing a public contract or subcontract;

(2) Violation of Federal or State antitrust statutes relating to the submission of offers;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a Government contractor or subcontractor.

(b) The debarring official may debar a contractor, based upon a preponderance of the evidence, for—

(1) Violation of the terms of a Government contract or subcontract so serious as to justify debarment, such as—

(i) Willful failure to perform in accordance with the terms of one or more contracts; or

(ii) A history of failure to perform, or of unsatisfactory performance of, one or more contracts.

(2) Violations of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690), as indicated by—

(i) The offeror's submission of a false certification;

(ii) The contractor's failure to comply with its certification; or

(iii) Such a number of contractor employees having been convicted of violations of criminal drug statutes occurring in the workplace, as to indicate that the contractor has failed to make a good faith effort to provide a drug-free workplace (see 23.504).

(c) Any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 4968, Jan. 31 ,1989; 54 FR 19815, May 8, 1989; 55 FR 21707, May 25, 1990]

9.406-3 Procedures.

(a) *Investigation and referral.* Agencies shall establish procedures for the prompt reporting, investigation, and referral to the debarring official of matters appropriate for that official's consideration.

(b) *Decisionmaking process.* (1) Agencies shall establish procedures governing the debarment decisionmaking process that are as informal as is practicable, consistent with principles of fundamental fairness. These procedures shall afford the contractor (and any specifically named affiliates) an opportunity to submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment.

(2) In actions not based upon a conviction or civil judgment, if it is found that the contractor's submission in opposition raises a genuine dispute over facts material to the proposed debarment, agencies shall also—

(i) Afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents; and

(ii) Make a transcribed record of the proceedings and make it available at cost to the contractor upon request, unless the contractor and the agency, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of proposal to debar.* A notice of proposed debarment shall be issued by the debarring official advising the contractor and any specifically named affiliates, by certified mail, return receipt requested—

(1) That debarment is being considered;

(2) Of the reasons for the proposed debarment in terms sufficient to put the contractor on notice of the conduct or transaction(s) upon which it is based;

(3) Of the cause(s) relied upon under 9.406-2 for proposing debarment;

(4) That, within 30 days after receipt of the notice, the contractor may submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment, including any additional specific information that raises a genuine dispute over the material facts;

(5) Of the agency's procedures governing debarment decisionmaking;

(6) Of the effect of the issuance of the notice of proposed debarment; and

(7) Of the potential effect of an actual debarment.

(d) *Debarring official's decision.* (1) In actions based upon a conviction or judgment, or in which there is no genuine dispute over material facts, the debarring official shall make a decision on the basis of all the information in the administrative record, including any submission made by the contractor. If no suspension is in effect, the decision shall be made within 30 working days after receipt of any information and argument submitted by the contractor, unless the debarring official extends this period for good cause.

(2) (i) In actions in which additional proceedings are necessary as to disputed material facts, written findings of fact shall be prepared. The debarring official shall base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(ii) The debarring official may refer matters involving disputed material facts to another official for findings of fact. The debarring official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(iii) The debarring official's decision shall be made after the conclusion of the proceedings with respect to disputed facts.

(3) In any action in which the proposed debarment is not based upon a conviction or civil judgment, the cause for debarment must be established by a preponderance of the evidence.

(e) *Notice of debarring official's decision.* (1) If the debarring official decides to impose debarment, the contractor and any affiliates involved shall be given prompt notice by certified mail, return receipt requested—

(i) Referring to the notice of proposed debarment;

(ii) Specifying the reasons for debarment;

(iii) Stating the period of debarment, including effective dates; and

(iv) Advising that the debarment is effective throughout the executive branch of the Government unless the head of an acquiring agency or a designee makes the statement called for by 9.406-1(c).

(2) If debarment is not imposed, the debarring official shall promptly notify the contractor and any affiliates involved, by certified mail, return receipt requested.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 19815, May 8, 1989]

9.406-4 Period of debarment.

(a) Debarment shall be for a period commensurate with the seriousness of the cause(s). Generally, debarment should not exceed 3 years, except that debarment for violation of the provisions of the Drug-Free Workplace Act of 1988 (see 23.506) may be for a period not to exceed 5 years. If suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(b) The debarring official may extend the debarment for an additional period, if that official determines that an extension is necessary to protect the Government's interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of 9.406-3 above shall be followed to extend the debarment.

(c) The debarring official may reduce the period or extent of debarment, upon the contractor's request, supported by documentation, for reasons such as—

(1) Newly discovered material evidence;

(2) Reversal of the conviction or civil judgment upon which the debarment was based;

(3) Bona fide change in ownership or management;

(4) Elimination of other causes for which the debarment was imposed; or

(5) Other reasons the debarring offical deems appropriate.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 4968, Jan. 31 ,1989; 54 FR 19815, May 8, 1989; 55 FR 21707, May 25, 1990]

9.406-5 Scope of debarment.

(a) The fraudulent, criminal, or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with a contractor may be imputed to the contractor when the conduct occurred in connection with the individual's performance of duties for or on behalf of the contractor, or with the contractor's knowledge, approval, or acquiescence. The contractor's acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

(b) The fraudulent, criminal, or other seriously improper conduct of a contractor may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the contractor who participated in, knew of, or had reason to know of the contractor's conduct.

(c) The fraudulent, criminal, or other seriously improper conduct of one contractor participating in a joint venture or similar arrangement may be imputed to other participating contractors if the conduct occurred for or on behalf of the joint venture or similar arrangement, or with the knowledge, approval, or acquiescence of these contractors. Acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

9.407 Suspension.

9.407-1 General.

(a) The suspending official may, in the public interest, suspend a contractor for any of the causes in 9.407-2, using the procedures in 9.407-3.

(b) Suspension is a serious action to be imposed on the basis of adequate evidence, pending the completion of investigation or legal proceedings, when it has been determined that immediate action is necessary to protect the Government's interest. In assessing the adequacy of the evidence, agencies should consider how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as contracts, inspection reports, and correspondence.

(c) Suspension constitutes suspension of all divisions or other organizational elements of the contractor, unless the suspension decision is limited by its terms to specific divisions, organizational elements, or commodities. The suspending official may extend the suspension decision to include any affiliates of the contractor if they are (1) specifically named and (2) given written notice of the suspension and an opportunity to respond (see 9.407-3(c)).

(d) A contractor's suspension shall be effective throughout the executive branch of the Government, unless an acquiring agency's head or a designee (except see 23.506(e)) states in writing the compelling reasons justifying continued business dealings between that agency and the contractor.

(e)(1) When the suspending official has authority to suspend contractors from both acquisition contracts pursuant to this regulation and contracts for the purchase of Federal personal property pursuant to FPMR 101-45.6, that official shall consider simultaneously suspending the contractor from the award of acquisition contracts and from the purchase of Federal personal property.

(2) When suspending a contractor from the award of acquisition contracts and from the purchase of Federal personal property, the suspension notice shall so indicate and the appropriate FAR and FPMR citations shall be included.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 4968, Jan. 31 ,1989; 54 FR 19816, May 8, 1989; 55 FR 21707, May 25, 1990]

9.407-2 Causes for suspension.

(a) The suspending official may suspend a contractor suspected, upon adequate evidence, of—

(1) Commission of fraud or a criminal offense in connection with (i) obtaining, (ii) attempting to obtain, or (iii) performing a public contract or subcontract;

(2) Violation of Federal or State antitrust statutes relating to the submission of offers;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or

(4) Violations of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690), as indicated by—

(i) The offeror's submission of a false certification;

(ii) The contractor's failure to comply with its certification; or

(iii) Such a number of contractor employees having been convicted of violations of criminal drug statutes occurring in the workplace, as to indicate that the contractor has failed to make a good faith effort to provide a drug-free workplace (see 23.504).

(5) Commission of any other offense ndicating a lack of business integrity r business honesty that seriously and irectly affects the present responsiility of a Government contractor or ubcontractor.

(b) Indictment for any of the causes n paragraph (a) above constitutes dequate evidence for suspension.

(c) The suspending official may upon adequate evidence also suspend a contractor for any other cause of so serious or compelling a nature that it affects the present responsibility of a Government contractor or subcontractor.

[48 FR 42142, Sept. 19, 1983, as amended at 54 FR 4968, Jan. 31, 1989; 55 FR 21707, May 25, 1990]

9.407-3 Procedures.

(a) *Investigation and referral.* Agencies shall establish procedures for the prompt reporting, investigation, and referral to the suspending official of matters appropriate for that official's consideration.

(b) *Decisionmaking process.* (1) Agencies shall establish procedures governing the suspension decisionmaking process that are as informal as is practicable, consistent with principles of fundamental fairness. These procedures shall afford the contractor (and any specifically named affiliates) an opportunity, following the imposition of suspension, to submit, in person, in writing, or through a representative, information and argument in opposition to the suspension.

(2) In actions not based on an indictment, if it is found that the contractor's submission in opposition raises a genuine dispute over facts material to the suspension and if no determination has been made, on the basis of Department of Justice advice, that substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced, agencies shall also—

(i) Afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents; and

(ii) Make a transcribed record of the proceedings and make it available at cost to the contractor upon request, unless the contractor and the agency, by mutual agreement, waive the requirement for a transcript.

(c) *Notice of suspension.* When a contractor and any specifically named affiliates are suspended, they shall be immediately advised by certified mail, return receipt requested—

(1) That they have been suspended and that the suspension is based on an indictment or other adequate evidence that the contractor has committed irregularities (i) of a serious nature in business dealings with the Government or (ii) seriously reflecting on the propriety of further Government dealings with the contractor—any such irregularities shall be described in terms sufficient to place the contractor on notice without disclosing the Government's evidence;

(2) That the suspension is for a temporary period pending the completion of an investigation and such legal proceedings as may ensue;

(3) Of the cause(s) relied upon under 9.407-2 for imposing suspension;

(4) Of the effect of the suspension;

(5) That, within 30 days after receipt of the notice, the contractor may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over the material facts; and

(6) That additional proceedings to determine disputed material facts will be conducted unless (i) the action is based on an indictment or (ii) a determination is made, on the basis of Department of Justice advice, that the substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(d) *Suspending official's decision.* (1) In actions (i) based on an indictment, (ii) in which the contractor's submission does not raise a genuine dispute over material facts, or (iii) in which additional proceedings to determine disputed material facts have been denied on the basis of Department of Justice advice, the suspending official's decision shall be based on all the information in the administrative record, including any submission made by the contractor.

(2) (i) In actions in which additional proceedings are necessary as to disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the contractor and any other information in the administrative record.

(ii) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(iii) The suspending official's decision shall be made after the conclusion of the proceedings with respect to disputed facts.

(3) The suspending official may modify or terminate the suspension or leave it in force (for example, see 9.406-4(c) for the reasons for reducing the period or extent of debarment). However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of (i) suspension by any other agency or (ii) debarment by any agency.

(4) Prompt written notice of the suspending official's decision shall be sent to the contractor and any affiliates involved, by certified mail, return receipt requested.

[48 FR 42142, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986]

9.407-4 Period of suspension.

(a) Suspension shall be for a temporary period pending the completion of investigation and any ensuing legal proceedings, unless sooner terminated by the suspending official or as provided in this subsection.

(b) If legal proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General requests its extension, in which case it may be extended for an additional 6 months. In no event may a suspension extend beyond 18 months, unless legal proceedings have been initiated within that period.

(c) The suspending official shall notify the Department of Justice of the proposed termination of the suspension, at least 30 days before the 12-month period expires, to give that Deartment an opportunity to request an xtension.

8 FR 42142, Sept. 19, 1983, as amended at FR 2649, Jan. 17, 1986]

407-5 Scope of suspension.

The scope of suspension shall be the me as that for debarment (see 9.406- , except that the procedures of 407-3 shall be used in imposing suspension.

408 Certification regarding debarment, suspension, proposed debarment, and other responsibility matters.

(a) When an offeror, in compliance ith the provision at 52.209-5, Certifition Regarding Debarment, Suspenon, Proposed Debarment, and Other esponsibility Matters, indicates an dictment, charge, civil judgment, nviction, suspension, debarment, oposed debarment, ineligibility, or fault of a contract, the contracting ficer shall—

(1) Request such additional informaon from the offeror as the contract- g officer deems necessary in order to ake a determination of the offeror's sponsibility (but see 9.405); and

(2) Notify, prior to proceeding with ard, in accordance with agency produres (see 9.406-3(a) and 9.407-3(a)), e agency official responsible for initing debarment or suspension tion, where an offeror indicates the istence of an indictment, charge, nviction, or civil judgment.

(b) Offerors who do not furnish the rtification or such information as ay be requested by the contracting ficer shall be given an opportunity remedy the deficiency. Failure to rnish the certification or such information may render the offeror nonreonsible.

4 FR 19816, May 8, 1989]

09 Solicitation provision and contract clause.

a) The contracting officer shall ert the provision at 52.209-5, Certiation Regarding Debarment, Sussion, Proposed Debarment, and her Responsibility Matters, in solicilons where the contract value is exted to exceed $25,000.

(b) The contracting officer shall insert the clause at 52.209-6, Protecting the Government's Interests when Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment, in solicitations and contracts where the contract value exceeds $25,000.

[54 FR 19816, May 8, 1989]

Subpart 9.5—Organizational Conflicts of Interest

9.500 Scope of subpart.

This subpart prescribes responsibilities, general rules, and procedures for identifying, evaluating, and resolving organizational conflicts of interest. It also provides examples to assist contracting officers in applying these rules and procedures to individual contracting situations.

9.501 Definition.

An *organizational conflict of interest* exists when the nature of the work to be performed under a proposed Government contract may, without some restriction on future activities, (a) result in an unfair competitive advantage to the contractor or (b) impair the contractor's objectivity in performing the contract work.

9.502 Applicability.

(a) This subpart applies to contracts with either profit or nonprofit organizations, including nonprofit organizations created largely or wholly with Government funds.

(b) The applicability of this subpart is not limited to any particular kind of acquisition. However, organizational conflicts of interest are more likely to occur in contracts involving—

(1) Management support services;

(2) Consultant or other professional services;

(3) Contractor performance of or assistance in technical evaluations; or

(4) Systems engineering and technical direction work performed by a contractor that does not have overall contractual responsibility for development or production.

9.503 Waiver.

The agency head or a designee may waive any general rule or procedure of this subpart by determining that its application in a particular situation would not be in the Government's interest. Any request for waiver must be in writing, shall set forth the extent of the conflict, and requires approval by the agency head or a designee. Agency heads shall not delegate waiver authority below the level of head of a contracting activity.

9.504 Contracting officer responsibilities.

(a) Using the general rules, procedures, and examples in this subpart, contracting officers shall analyze planned acquisitions in order to—

(1) Identify and evaluate potential organizational conflicts of interest as early in the acquisition process as possible; and

(2) Avoid, neutralize, or mitigate significant potential conflicts before contract award.

(b) Contracting officers should obtain the advice of counsel and the assistance of appropriate technical specialists in evaluating potential conflicts and in developing any necessary solicitation provisions and contract clauses (see 9.508).

(c) Before issuing a solicitation for a contract that may involve a significant potential conflict, the contracting officer shall recommend to the head of the contracting activity a course of action for resolving the conflict (see 9.507).

(d) In fulfilling their responsibilities for identifying and resolving potential conflicts, contracting officers should avoid creating unnecessary delays, burdensome information requirements, and excessive documentation. The contracting officer's judgment need be formally documented only when a substantive issue concerning potential organizational conflict of interest exists.

9.505 General rules.

The general rules in 9.505-1 through 9.505-4 prescribe limitations on contracting as the means of avoiding, neutralizing, or mitigating organizational conflicts of interest that might otherwise exist in the stated situations. Some illustrative examples are provided in 9.509. Conflicts may arise in situations not expressly covered in this section 9.505 or in the examples in 9.509. Each individual contracting situation should be examined on the basis of its particular facts and the nature of the proposed contract. The exercise of common sense, good judgment, and sound discretion is required in both the decision on whether a significant potential conflict exists and, if it does, the development of an appropriate means for resolving it. The two underlying principles are—

(a) Preventing the existence of conflicting roles that might bias a contractor's judgment; and

(b) Preventing unfair competitive advantage.

9.505-1 Providing systems engineering and technical direction.

(a) A contractor that provides systems engineering and technical direction for a system but does not have overall contractual responsibility for its development, its integration, assembly, and checkout, or its production shall not (1) be awarded a contract to supply the system or any of its major components or (2) be a subcontractor or consultant to a supplier of the system or any of its major components.

(b) Systems engineering includes a combination of substantially all of the following activities: determining specifications, identifying and resolving interface problems, developing test requirements, evaluating test data, and supervising design. Technical direction includes a combination of substantially all of the following activities: developing work statements, determining parameters, directing other contractors' operations, and resolving technical controversies. In performing these activities, a contractor occupies a highly influential and responsible position in determining a system's basic concepts and supervising their execution by other contractors. Therefore this contractor should not be in a position to make decisions favoring its own products or capabilities.

5-2 Preparing specifications or work statements.

a) (1) If a contractor prepares and
nishes complete specifications cov-
g nondevelopmental items, to be
d in a competitive acquisition, that
tractor shall not be allowed to fur-
n these items, either as a prime
tractor or as a subcontractor, for a
sonable period of time including, at
st, the duration of the initial pro-
tion contract. This rule shall not
ly to—

) Contractors that furnish at Gov-
ment request specifications or data
arding a product they provide, even
ugh the specifications or data may
e been paid for separately or in the
e of the product; or

i) Situations in which contractors,
ng as industry representatives,
o Government agencies prepare,
ne, or coordinate specifications, re-
dless of source, provided this assist-
e is supervised and controlled by
vernment representatives.

) If a single contractor drafts com-
e specifications for nondevelop-
ntal equipment, it should be elimi-
ed for a reasonable time from com-
tion for production based on the
cifications. This should be done in
er to avoid a situation in which the
tractor could draft specifications
oring its own products or capabili-
. In this way the Government can
assured of getting unbiased advice
o the content of the specifications
can avoid allegations of favoritism
he award of production contracts.

) In development work, it is
mal to select firms that have done
most advanced work in the field.
se firms can be expected to design
develop around their own prior
wledge. Development contractors
frequently start production earlier
more knowledgeably than firms
did not participate in the develop-
t, and this can affect the time and
lity of production, both of which
important to the Government. In
y instances the Government may
e financed the development. Thus,
le the development contractor has
ompetitive advantage, it is an un-
dable one that is not considered
air; hence no prohibition should be
osed.

(b) (1) If a contractor prepares, or assists in preparing, a work statement to be used in competitively acquiring a system or services—or provides material leading directly, predictably, and without delay to such a work statement—that contractor may not supply the system, major components of the system, or the services unless—

(i) It is the sole source;

(ii) It has participated in the development and design work; or

(iii) More than one contractor has been involved in preparing the work statement.

(2) Agencies should normally prepare their own work statements. When contractor assistance is necessary, the contractor might often be in a position to favor its own products or capabilities. To overcome the possibility of bias, contractors are prohibited from supplying a system or services acquired on the basis of work statements growing out of their services, unless excepted in subparagraph (1) above.

(3) For the reasons given in 9.505-2(a)(3), no prohibitions are imposed on development and design contractors.

9.505-3 Providing technical evaluation or advisory and assistance services.

Contracts involving (a) technical evaluations of other contractors' offers or products or (b) advisory and assistance services (see 37.201) shall not generally be awarded to a contractor that would evaluate, or advise the Government concerning, its own products or activities, or those of a competitor, without proper safeguards to ensure objectivity and protect the Government's interests. In this connection, OMB Circular No. A-120, Guidelines for the Use of Advisory and Assistance Services, and implementing agency regulations, should be consulted for additional guidance.

[48 FR 42142, Sept. 19, 1983, as amended at 53 FR 43389, Oct. 26, 1988]

9.505-4 Obtaining access to proprietary information.

(a) A contractor that gains access to proprietary information of other companies in performing advisory services for the Government must agree with the other companies to (1) protect their information from unauthorized use or disclosure for as long as it remains proprietary and (2) refrain from using the information for any purpose other than that for which it was furnished. The contracting officer shall obtain copies of these agreements and ensure that they are properly executed.

(b) Proprietary information is information considered so valuable by its owners that it is held secret by them and their licensees. When a contractor requires such information from others to perform a Government contract and can use the leverage of the contract to obtain it, the contractor may gain an unfair competitive advantage unless restrictions are imposed. These restrictions protect the information and encourage companies to provide it when necessary for contract performance. They are not intended to protect information (1) furnished voluntarily without limitations on its use or (2) available to the Government or contractor from other sources without restriction.

9.506 Information sources.

When information concerning prospective contractors is necessary to identify and evaluate potential organizational conflicts of interest or to develop recommended actions, contracting officers should first seek it from within the Government or from other readily available sources. Government sources include the files and the knowledge of personnel within the contracting office, other contracting offices, the cognizant contract administration and audit activities, and offices concerned with contract financing. Non-Government sources include publications and commercial services, such as credit rating services, trade and financial journals, and business directories and registers.

9.507 Procedures.

(a) If the contracting officer initially decides that a particular acquisition involves a significant potential organizational conflict of interest, before issuing the solicitation the contracting officer shall submit for approval to the chief of the contracting office (unless a higher level official is designated by the agency)—

(1) A written analysis, including a recommended course of action for avoiding, neutralizing, or mitigating the conflict, based on the general rules in 9.505 or on another basis not expressly stated in that section;

(2) A draft solicitation provision (see 9.508-1); and,

(3) If appropriate, a proposed contract clause (see 9.508-2).

(b) The approving official shall—

(1) Review the contracting officer's analysis and recommended course of action, including the draft provision and any proposed clause;

(2) Consider the benefits and detriments to the Government and prospective contractors; and

(3) Approve, modify, or reject the recommendation in writing.

(c) The contracting officer shall—

(1) Include the approved provision and any approved clause in the solicitation;

(2) Consider additional information provided by prospective contractors in response to the solicitation or during negotiations; and,

(3) Before awarding the contract, resolve the potential conflict in a manner consistent with the approval or other direction by the head of the contracting activity; or,

(4) If the prospective contractor disagrees and requests higher level review, provide the decision and the contractor's position to the agency head or a designee for review and final decision.

(d) If, during the effective period of any restriction (see 9.508), a contracting office transfers acquisition responsibility for the item or system involved, it shall notify the successor contracting office of the restriction, sending a copy of the contract under which the restriction was imposed.

[48 FR 42142, Sept. 19, 1983, as amended at 53 FR 43390, Oct. 26, 1988]

9.508 Solicitation provision and contract clause.

9.508-1 Solicitation provision.

As indicated in the general rules in 9.505, significant potential organiza-

nal conflicts of interest are normal-
resolved by imposing some restraint,
propriate to the nature of the con-
t, upon the contractor's eligibility
future contracts or subcontracts.
erefore, affected solicitations shall
tain a provision that—
a) Invites offerors' attention to this
part 9.5;
b) States the nature of the poten-
l conflict as seen by the contracting
icer;
c) States the nature of the proposed
traint upon future contractor ac-
ities; and,
d) Depending on the nature of the
uisition, states whether or not the
ms of any proposed clause and the
plication of this subpart to the con-
ct are subject to negotiation.

08-2 Contract clause.

a) If, as a condition of award, the
tractor's eligibility for future
me contract or subcontract awards
l be restricted or the contractor
st agree to some other restraint,
solicitation shall contain a pro-
sed clause that specifies both the
ture and duration of the proposed
traint. The contracting officer shall
lude the clause in the contract, first
gotiating the clause's final terms
h the successful offeror, if it is ap-
priate to do so (see 9.508-1(d)
ove).
b) The restraint imposed by a
use shall be limited to a fixed term
reasonable duration, sufficient to
id the circumstance of unfair com-
itive advantage or potential bias.
is period varies. It might end, for
mple, when the first production
tract using the contractor's specifi-
ions or work statement is awarded,
it might extend through the entire
of a system for which the contrac-
has performed systems engineering
l technical direction. In every case,
restriction shall specify termina-
n by a specific date or upon the oc-
rence of an identifiable event.

9 Examples.

he examples in paragraphs (a)
ough (i) following illustrate situa-
ns in which questions concerning
anizational conflicts of interest
y arise. They are not all inclusive,
but are intended to help the contracting officer apply the general rules in 9.505 to individual contract situations.

(a) Company A agrees to provide systems engineering and technical direction for the Navy on the powerplant for a group of submarines (i.e., turbines, drive shafts, propellers, etc.). Company A should not be allowed to supply any powerplant components. Company A can, however, supply components of the submarine unrelated to the powerplant (e.g., fire control, navigation, etc.). In this example, the system is the powerplant, not the submarine, and the ban on supplying components is limited to those for the system only.

(b) Company A is the systems engineering and technical direction contractor for system X. After some progress, but before completion, the system is canceled. Later, system Y is developed to achieve the same purposes as system X, but in a fundamentally different fashion. Company B is the systems engineering and technical direction contractor for system Y. Company A may supply system Y or its components.

(c) Company A develops new electronic equipment and, as a result of this development, prepares specifications. Company A may supply the equipment.

(d) XYZ Tool Company and PQR Machinery Company, representing the American Tool Institute, work under Government supervision and control to refine specifications or to clarify the requirements of a specific acquisition. These companies may supply the item.

(e) Before an ADP equipment acquisition is conducted, Company A is awarded a contract to prepare data system specifications and equipment performance criteria to be used as the basis for the equipment competition. Since the specifications are the basis for selection of commercial hardware, a potential conflict of interest exists. Company A should be excluded from the initial follow-on ADP hardware acquisition.

(f) Company A receives a contract to define the detailed performance characteristics an agency will require for purchasing rocket fuels. Company A has not developed the particular fuels. When the definition contract is awarded, it is clear to both parties that the agency will use the performance characteristics arrived at to choose competitively a contractor to develop or produce the fuels. Company A may not be awarded this follow-on contract.

(g) Company A receives a contract to prepare a detailed plan for scientific and technical training of an agency's personnel. It suggests a curriculum that the agency endorses and incorporates in its request for proposals to institutions to establish and conduct the training. Company A may not be awarded a contract to conduct the training.

(h) Company A is selected to study the use of lasers in communications. The agency intends to ask that firms doing research in the field make proprietary information available to Company A. The contract must require Company A to (1) enter into agreements with these firms to protect any proprietary information they provide and (2) refrain from using the information in supplying lasers to the Government or for any purpose other than that for which it was intended.

(i) An agency that regulates an industry wishes to develop a system for evaluating and processing license applications. Contractor X helps develop the system and process the applications. Contractor X should be prohibited from acting as a consultant to any of the applicants during its period of performance and for a reasonable period thereafter.

Subpart 9.6—Contractor Team Arrangements

9.601 Definition.

Contractor team arrangement means an arrangement in which—

(a) Two or more companies form a partnership or joint venture to act as a potential prime contractor; or

(b) A potential prime contractor agrees with one or more other companies to have them act as its subcontractors under a specified Government contract or acquisition program.

9.602 General.

(a) Contractor team arrangements may be desirable from both a Government and industry standpoint in order to enable the companies involved to (1) complement each other's unique capabilities and (2) offer the Government the best combination of performance, cost, and delivery for the system or product being acquired.

(b) Contractor team arrangements may be particularly appropriate in complex research and development acquisitions, but may be used in other appropriate acquisitions, including production.

(c) The companies involved normally form a contractor team arrangement before submitting an offer. However, they may enter into an arrangement later in the acquisition process, including after contract award.

9.603 Policy.

The Government will recognize the integrity and validity of contractor team arrangements; *provided*, the arrangements are identified and company relationships are fully disclosed in an offer or, for arrangements entered into after submission of an offer, before the arrangement becomes effective. The Government will not normally require or encourage the dissolution of contractor team arrangements.

9.604 Limitations.

Nothing in this subpart authorizes contractor team arrangements in violation of antitrust statutes or limits the Government's rights to—

(a) Require consent to subcontracts (see subpart 44.2);

(b) Determine, on the basis of the stated contractor team arrangement, the responsibility of the prime contractor (see subpart 9.1);

(c) Provide to the prime contractor data rights owned or controlled by the Government;

(d) Pursue its policies on competitive contracting, subcontracting, and component breakout after initial production or at any other time; and

(e) Hold the prime contractor fully responsible for contract performance, regardless of any team arrangement between the prime contractor and its subcontractors.

Subpart 9.7—Defense Production Pools and Research and Development Pools

9.701 Definition.

Pool, as used in this subpart, means a group of concerns (see 19.001) that have—

(a) Associated together in order to obtain and perform, jointly or in conjunction with each other, defense production or research and development contracts;

(b) Entered into an agreement governing their organization, relationship, and procedures; and

(c) Obtained approval of the agreement by either—

(1) The Small Business Administration (SBA) under section 9 or 11 of the Small Business Act (15 U.S.C. 638 or 640) (see 13 CFR part 125); or

(2) A designated official under Part V of Executive Order 10480, August 14, 1953 (18 FR 4939, August 20, 1953) and section 708 of the Defense Production Act of 1950 (50 U.S.C. App. 2158).

[48 FR 42142, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986]

9.702 Contracting with pools.

(a) Except as specified in this subpart, a pool shall be treated the same as any other prospective or actual contractor.

(b) The contracting officer shall not award a contract to a pool unless the offer leading to the contract is submitted by the pool in its own name or by an individual pool member expressly stating that the offer is on behalf of the pool.

(c) Upon receipt of an offer submitted by a group representing that it is a pool, the contracting officer shall verify its approved status with the SBA District Office Director or other approving agency and document the contract file that the verification was made.

(d) Contracts with pools are exempt from the *manufacturer or regular dealer* requirement of the Walsh-Healey Public Contracts Act (41 U.S.C. 35) (see subparts 9.1 and 22.6 and 41 CFR 50-201.604(d)).

(e) Pools approved by the SBA under the Small Business Act are entitled to the preferences and privileges accorded to small business concerns. Approval under the Defense Production Act does not confer these preferences and privileges.

(f) Before awarding a contract to an unincorporated pool, the contracting officer shall require each pool member participating in the contract to furnish a certified copy of a power of attorney identifying the agent authorized to sign the offer or contract on that member's behalf. The contracting officer shall attach a copy of each power of attorney to each signed copy of the contract retained by the Government.

9.703 Contracting with individual pool members.

(a) Pool members may submit individual offers, independent of the pool. However, the contracting officer shall not consider an independent offer by a pool member if that pool member participates in a competing offer submitted by the pool.

(b) If a pool member submits an individual offer, independent of the pool, the contracting officer shall consider the pool agreement, along with other factors, in determining whether that pool member is a responsible prospective contractor under subpart 9.1.

PART 10—SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

Sec.
10.000 Scope of part.
10.001 Definitions.
10.002 Policy.

10.009 User satisfaction.
10.010 Acquiring used or reconditioned material, former Government surplus property, and residual inventory.

Sec.
10.011 Solicitation provisions and contract clauses.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42155, Sept. 19, 1983, unless otherwise noted.

10.000 Scope of part.

This part prescribes policies and procedures for using specifications, standards, and other purchase descriptions, and related considerations of acquisition streamlining (see 7.101).

[53 FR 34227, Sept. 2, 1988]

10.001 Definitions.

Brand-name description means a purchase description that identifies a product by its brand name and model or part number or other appropriate nomenclature by which the product is offered for sale.

Department of Defense Index of Specifications and Standards (DoDISS) means the Department of Defense (DoD) publication that lists unclassified Federal and military specifications and standards, related standardization documents, and voluntary standards approved for use by DoD.

Federal specification or standard means a specification or standard issued or controlled by the General Services Administration (GSA) and listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.

General Services Administration Index of Federal Specifications, Standards and Commercial Item Descriptions means the GSA publication that lists Federal specifications and standards, including supplements, that have been implemented for use by all Federal agencies.

Market research means the process used for collecting and analyzing information about the entire market available to satisfy the minimum agency needs to arrive at the most suitable approach to acquiring, distributing, and supporting supplies and services.

Purchase description means a description of the essential physical characteristics and functions required to meet the Government's minimum needs.

Responsible agency means the agency controlling the index in which a particular specification or standard is listed.

Specification means a description of the technical requirements for a material, product, or service that includes the criteria for determining whether these requirements are met. Specifications shall state only the Government's actual minimum needs and be designed to promote full and open competition, with due regard to the nature of the supplies or services to be acquired.

Standard means a document that establishes engineering and technical limitations and applications of items, materials, processes, methods, designs, and engineering practices. It includes any related criteria deemed essential to achieve the highest practical degree of uniformity in materials or products, or interchangeability of parts used in those products. Standards may be used in specifications, invitations for bids, proposals, and contracts.

Voluntary standard means a standard established by a private sector body and available for public use. The term does not include private standards of individual firms. For further guidance, see OMB Circular No. A-119, Federal Participation in Development and Use of Voluntary Standards.

[48 FR 42155, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 10233, Mar. 14, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 17857, May 18, 1988]

10.002 Policy.

(a) In fulfilling requirements of 10 U.S.C. 2305(a)(1) and 41 U.S.C. 253a(a) regarding the preparation for acquisition of supplies and services:

(1) Agencies shall specify needs in a manner designed to promote full and open competition (see part 6) for acquisitions.

(2) Agencies shall develop specifications and purchase descriptions using market research in a manner designed to promote full and open competition, with due regard to the nature of the supplies or services to be acquired.

(3) In solicitations, agencies shall include specifications and purchase descriptions that—

(i) Permit full and open competition; and

(ii) Include restrictive provisions or conditions only to the extent necessary to satisfy the minimum needs of the agency or as authorized by law.

(4) Agencies shall prepare specifications and purchase descriptions which reflect the minimum needs of the agency and the market available to satisfy such needs. Specifications and purchase descriptions may be stated in terms of—

(i) Function, so that a variety of products or services may qualify;

(ii) Performance, including specifications of the range of acceptable characteristics or of the minimum acceptable standards; or

(iii) Design requirements.

(b) Acquisition policies and procedures shall require descriptions of agency requirements, whenever practicable, to be stated in terms of functions to be performed or performance required.

(c) Requiring agencies, for programs which they have designated as subject to acquisition streamlining, should apply specifications standards, and related documents initially for guidance only, making final decisions on the application and tailoring of these documents as a product of the design and development process. Requiring agencies should not dictate detailed design solutions prematurely. The objective of acquisition streamlining is to reduce the time and cost, and improve the quality of systems acquisitions, by ensuring that contracts contain only those necessary specifications, standards, and related documents which have been tailored for application at the most appropriate time in the system acquisition cycle. To the extent practicable, contractors should be involved in recommending application and tailoring of such specifications, standards, and related documents in one phase for proposed application to the succeeding phase of the acquisition cycle.

[48 FR 42155, Sept. 19, 1983, as amended at 50 FR 52433, Dec. 23, 1985; 53 FR 34227, Sept. 2, 1988; 54 FR 48982, Nov. 28, 1989]

10.003 Responsibilities.

(a) The Administrator of GSA, under separate authority and regulations, prepares, maintains, and controls specifications and standards covering products commonly used by Government agencies, and lists those descriptions in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions.

(b) The Secretary of Defense, under separate authority and regulations, prepares, maintains, and controls military specifications, standards, and other documents unique to DoD and lists those product descriptions in the DoDISS.

[48 FR 42155, Sept. 19, 1983, as amended at 53 FR 17857, May 18, 1988]

10.004 Selecting specifications or descriptions for use.

(a) (1) Plans, drawings, specifications, standards, or purchase descriptions for acquisitions shall state only the Government's actual minimum needs and describe the supplies and/or services in a manner designed to promote full and open competition.

(2) Items to be acquired shall be described (i) by citing the applicable specifications and standards or (ii) by a description containing the necessary requirements.

(3) Specifications and standards shall be selectively applied and tailored in their application.

(i) *Selective application* is the process of reviewing and selecting from available specifications, standards, and related documents those which have application to a particular acquisition.

(ii) *Tailoring* is the process by which individual sections, paragraphs or sentences of the selected specifications, standards, and related document are reviewed and modified so that each one selected states only the Government's minimum requirements. Such tailoring need not be made a part of the basic specification or standard but will vary with each application, dependent upon the nature of the acquisition.

(b) (1) When authorized by 10.006(a), or when no applicable specification exists, agencies may use a purchase description, subject to pertinent restrictions on repetitive use. An adequate purchase description should set forth the essential physical and functional characteristics of the materials or services required. As many of the following characteristics as are necessary to express the Government's minimum requirements should be used in preparing purchase descriptions:

(i) Common nomenclature.

(ii) Kind of material; i.e., type, grade, alternatives, etc.

(iii) Electrical data, if any.

(iv) Dimensions, size, or capacity.

(v) Principles of operation.

(vi) Restrictive environmental conditions.

(vii) Intended use, including—

(A) Location within an assembly, and

(B) Essential operating condition.

(viii) Equipment with which the item is to be used.

(ix) Other pertinent information that further describes the item, material, or service required.

(2) Purchase descriptions shall not be written so as to specify a product, or a particular feature of a product, peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, unless it is determined, in accordance with agency procedures, that the particular feature is essential to the Government's requirements, and that other companies' similar products lacking the particular feature would not meet the minimum requirements for the item.

(3) Generally, the minimum acceptable purchase description is the identification of a requirement by use of brand name followed by the words *or equal.* This technique should be used only when an adequate specification or more detailed description cannot feasibly be made available by means other than inspection and analysis in time for the acquisition under consideration. Agencies should provide detailed guidance and necessary clauses for use by contracting activities when using this technique.

(4) Purchase descriptions of services should outline to the greatest degree practicable the specific services the contractor is expected to perform.

(c) Except as provided in (b) above, when considering the acquisition of products sold or traded to the general public in the course of normal business operations at prices based on established catalog or market prices, agencies should consult part 11 and implementing agency regulations for guidance on acquiring commercial products.

(d) *Foreign purchase descriptions.* Unless precluded by law, products that are acquired overseas may be acquired by using purchase descriptions prepared by foreign governments or foreign industry associations, if the description will satisfy the agency's actual minimum requirements.

(e) *Packing, packaging, and marking requirements.* In accordance with agency regulations, contracting offices shall require adequate packaging and marking of supplies to prevent deterioration and damage during shipping, handling, and storage. In acquiring commercial products, contracting offices should consult part 11 and implementing agency regulations.

[48 FR 42155, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

10.005 Management of purchase descriptions.

(a) Responsible agencies shall ensure compliance with the policies prescribed in this part for all specifications and standards listed in their indexes.

(b) When a responsible agency determines, in accordance with its established procedures and criteria, that a listed specification or standard does not meet a particular minimum need of the Government, applicable amendments, revisions, or new descriptions shall be prepared and used. (See 10.007 with regard to deviations.)

(c) Recommendations for changes in specifications and standards listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions should be submitted to the General Services Administration, Federal Supply Service, Item Management Division, Washington, DC 20406. Recommendations for changes in military specifications and standards and other standardization documents listed in the DoDISS should be submitted to the cognizant preparing activity.

[48 FR 42155, Sept. 19, 1983, as amended at 53 FR 17857, May 18, 1988]

10.006 Using specifications and standards.

(a) *Mandatory specifications and standards.* (1) Unless otherwise authorized by law or approved under 10.007(a) below, specifications and standards listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions are mandatory for use by all agencies acquiring supplies or services covered by such specifications and standards, except when the acquisition is—

(i) Required under an unusual and compelling urgency, and using the indexed product description would delay obtaining the requirement;

(ii) Under the small purchase limitation in 13.000;

(iii) For products acquired and used overseas;

(iv) For items, excluding military clothing, acquired for authorized resale; or

(v) For construction or new installations of equipment, where nationally recognized industry or technical source specifications and standards are available.

(2) Military specifications and standards are mandatory for use by the Department of Defense (DoD), as are voluntary standards adopted by DoD and listed in the DoDISS, except when any of the exceptions in (a)(1) above apply.

(b) *Commercial exception.* (1) In addition to the exceptions given in paragraph (a) above, agencies should consider stating their needs in a purchase description, when appropriate under part 11 and implementing agency regulations, even though there is an indexed specification.

(2) The agency responsible for a specification may designate it as one for which this exception cannot be used, if the agency head or a designee determines this to be necessary.

[48 FR 42155, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 17857, May 18, 1988; 54 FR 48982, Nov. 28, 1989]

10.007 Deviations.

When the exceptions in 10.006 above do not apply and an existing specification does not meet an agency's minimum needs, agencies may authorize deviations as follows:

(a) Each agency taking deviations shall establish procedures whereby a designated official having substantial contracting responsibility shall be responsible for ensuring that—

(1) Federal specifications are used, and requirements for exceptions and deviations are complied with;

(2) Justification for exceptions and deviations are subject to competent review before authorization, and that such justifications can be fully substantiated if post audit is required;

(3) Major or repeated deviations are not taken except as prescribed in (b) below; and

(4) Notification of deviation or recommendation for change in the specification is sent promptly in duplicate to the General Services Administration (FCM), Washington, DC 20406. (A statement of the deviations with a justification and, where applicable, recommendation for revision or amendment of the specification shall be included. A notification is required for major deviations such as those that will result in the introduction of a new item of supply as evidenced by the development of a new item identification, or when a deviation is taken repeatedly.)

(b) Deviations taken and reported by the agency in accordance with (a) above may not be continued, except under the following conditions:

(1) When an agency submits notification of major or repeated deviations that have been taken but makes no recommendation for change in the specification, GSA will notify the agency as to whether such deviations may be continued in subsequent contracting. In cases where continued deviations are not approved and the agency contracting has progressed to a point where it would be impracticable to amend or cancel the action, such action may be completed, but the deviation shall not be continued by the agency in subsequent contracts.

(2) When an agency has recommended changing the specification consistent with the deviations it has taken and reported, those deviations may be continued until such time as the recommended change is incorporated in the specification. When coordination with Federal agencies and industry does not result in acceptance of the change, such deviations shall not be continued by the agency in subsequent contracts.

(c) Deviations from military specifications shall be in accordance with any applicable DoD regulations.

[48 FR 42155, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986]

10.008 Identification and availability of specifications.

(a) Solicitations citing specifications listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, DoDISS, or other agency index shall identify each specification's approval date and the dates of any applicable amendments and revisions. Contracting offices will not normally furnish these cited specifications with the solicitation, except when—

(1) The product being acquired will be so complex that the specification must be furnished with the solicitation to enable prospective contractors to make a competent initial evaluation of the solicitation;

(2) In the judgment of the contracting officer, it would be impracticable for prospective contractors to obtain the specifications in reasonable time to respond to the solicitation; or

(3) A prospective contractor who has not previously bid on the product requests a copy of the specification.

(b) Solicitations shall not contain general identification references such as *the issue in effect on the date of the solicitation.*

(c) Solicitations citing voluntary standards shall advise offerors to obtain the standards from the publisher.

(d) Contracting offices shall clearly identify in the solicitation specifications and any other pertinent documents not listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions or DoDISS and normally furnish them with the solicitation.

(e) When specifications refer to other specifications, such references shall (1) be restricted to documents, or appropriate portions of documents that shall apply in the acquisition; (2) cite the extent of their applicability; (3) not conflict with other specifications and provisions of the solicitation, and (4) identify all applicable first tier references.

(f) Contracting offices shall furnish with the solicitation any brand name or equal description used.

(g) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions and DoDISS may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

[48 FR 42155, Sept. 19, 1983, as amended at 53 FR 17857, May 18, 1988]

10.009 User satisfaction.

(a) Agencies shall encourage users to communicate with acquisition organizations on—

(1) The adequacy of specifications to communicate the user's minimum needs;

(2) Product capability;

(3) Product failures and deficiencies; and

(4) Suggestions for corrective actions.

(b) Whenever practicable, the agency may provide affected industry an opportunity to comment on the critiques.

(c) Acquisition organizations shall consider user critiques and take appropriate action on bona fide complaints and suggestions.

10.010 Acquiring used or reconditioned material, former Government surplus property, and residual inventory.

(a) Generally, all contractually furnished supplies and their components, including former Government property, will be new, including recycled (see subpart 23.4 for policy on recovered materials). However, agencies may acquire used or reconditioned material, former Government surplus property, or residual inventory conforming to the solicitation's requirements, if the contracting officer determines that it is acceptable. When such a determination is made, the solicitation shall clearly identify the supplies or their components that need not be new, along with the necessary details on their acceptability. Offerors wishing to provide such used or reconditioned material, former Government surplus property, or residual inventory shall do so in accordance with the clause at 52.210-5, New Material, or the provision at 52.210-6, Listing of Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property, and the clause at 52.210-7, Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property, as appropriate.

(b) Contracting officers shall consider the following when determining whether used or reconditioned materials, former Government surplus property, or residual inventory are acceptable:

(1) Safety of persons or property.

(2) Total cost to the Government (including maintenance, inspection, testing, and useful life).

(3) Performance requirements.

(4) Availability and cost of new materials and components.

(c) With regard to former Government surplus property, the contracting officer shall ensure that the prices paid for such items are reasonable considering overall cost savings to the Government. When a contract calls for material to be furnished at cost, the allowable charge for former Government surplus property shall not exceed the cost at which the contractor acquired the property.

10.011 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the provision at 52.210-1, Availability of Specifications Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, in solicitations that (i) are issued by civilian agency contracting offices and (ii) cite specifications listed in the Index that are not furnished with the solicitation.

(b) The contracting officer shall insert the provision at 52.210-2, Availability of Specifications Listed in the DoD Index of Specifications and Standards (DoDISS), in solicitations that (i) are issued by DoD contracting offices and (ii) cite specifications listed in the DoDISS that are not furnished with the solicitation.

(c) The contracting officer shall insert a provision substantially the same as the provision at 52.210-3, Availability of Specifications Not Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, in solicitations that cite specifications that are not listed in the Index and are not furnished with the solicitation, but may be obtained from a designated source.

(d) The contracting officer shall insert a provision substantially the same as the provision at 52.210-4, Availability for Examination of Specifications Not Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, in solicitations that cite specifications that are not listed in the Index and are available for examination at a specified location.

(e) (1) The contracting officer shall insert the clause at 52.210-5, New Material, in solicitations and contracts for supplies, unless, in the judgment of the contracting officer, the clause would serve no useful purpose.

(2) The contracting officer may insert the clause in solicitations and contracts for services that may involve the incidental furnishing of parts.

(f) (1) The contracting officer shall insert the provision at 52.210-6, Listing of Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property, in solicitations for supplies, unless, in the judgment of the contracting officer, the provision would serve no useful purpose.

(2) The contracting officer may insert the provision in solicitations for services that may involve the incidental furnishing of parts.

(g) (1) The contracting officer shall insert the clause at 52.210-7, Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property, in solicitations and contracts for supplies, unless, in the judgment of the contracting officer, the clause would serve no useful purpose.

(2) The contracting officer may insert the clause in solicitations and contracts for services that may involve the incidental furnishing of parts.

[48 FR 42155, Sept. 19, 1983, as amended at 53 FR 17857, May 18, 1988]

PART 11—ACQUISITION AND DISTRIBUTION OF COMMERCIAL PRODUCTS

Sec.

11.000 Scope of part.
11.001 Definitions.
11.002 Policy.
11.003 General.
11.004 Market research and analysis.
11.005 Acceptability.
11.006 Evaluation.
11.007 Distribution options.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42158, Sept. 19, 1983, unless otherwise noted.

11.000 Scope of part.

This part prescribes policies and procedures for the acquisition of commercial products and the use of commercial distribution systems.

11.001 Definitions.

Commercial product means a product, such as an item, material, component, subsystem, or system, sold or traded to the general public in the course of normal business operations at prices based on established catalog or market prices (see 15.804-3(c) for explanation of terms).

Commercial-type product means a commercial product (a) modified to meet some Government-peculiar physical requirement or addition or (b) otherwise identified differently from its normal commercial counterparts.

[48 FR 42158, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

11.002 Policy.

In a manner consistent with statutes, Executive Orders, and the requirements of part 6 regarding maximum competition, agencies shall acquire commercial products and use commercial distribution systems whenever these products or distribution systems adequately satisfy the Government's needs (except see part 8, Required Sources of Supplies and Services). In a manner consistent with statutes, Executive Orders, and the requirements of part 6 regarding competition, agencies shall acquire commercial products and use commercial distribution systems whenever these products or distribution systems adequately satisfy the Government's needs (except see part 8, Required Sources of Supplies and Services). DoD, NASA, and the Coast Guard are required by 10 U.S.C. 2301(b) to promote the use of commercial products whenever practicable consistent with the requirements of part 6.

[48 FR 42158, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

11.003 General.

Acquisition of commercial products begins with a description of the Government's needs stated in functional terms in sufficient detail so that market research and analysis can be used to help determine whether commercial products, distribution systems, and logistics support are available to fill those needs.

11.004 Market research and analysis.

(a) *General.* Once the Government's needs have been functionally described, market research and analysis shall be conducted to ascertain the availability of commercial products to meet those needs and to identify the market practices, including warranty terms, of firms engaged in producing, distributing, and supporting these products.

(b) *Requirements.* Agencies shall conduct market research and analysis as needed to ensure full and open competition and that the Government's needs are met in a cost effective manner. The extent of market research and analysis will vary depending upon such factors as urgency, estimated dollar value, complexity, and past experience.

(c) *Developing information.* Market research and analysis involves obtain-

ng the following information, as ap-
ropriate:

(1) The availability of products suit-
ble, as is or with minor modification,
or meeting the need.

(2) The terms and conditions and
varranty practices under which com-
nercial sales of the products are
nade.

(3) The requirements of controlling
aws and regulations.

(4) The number of sales and length
f time over which they must occur to
rovide reasonable assurance that a
articular product is reliable.

(5) The distribution and support ca-
abilities of potential suppliers, in-
luding alternative arrangements and
ost estimates.

(6) The potential cost of modifying
ommercial products to meet particu-
r needs, if required.

(d) *Information sources.* The infor-
nation described in paragraph (c)
bove may be acquired from the fol-
owing sources, among others:

(1) Source lists for items of a similar
ature maintained at contracting ac-
ivities.

(2) Catalogs published by manufac-
urers, distributors, and dealers.

(3) Informational requests for quota-
ions.

(4) Responses to advance notices and
olicitation synopses published in
ommerce Business Daily.

(5) GSA Federal Supply Schedules.

(6) Other Federal agencies.

**8 FR 42158, Sept. 19, 1983, as amended at
) FR 1736, Jan. 11, 1985; 50 FR 52429, Dec.
, 1985]**

.005 Acceptability.

(a) The acceptability of commercial
roducts to meet Government needs
epends upon reliability, performance,
gistics support requirements, and
ost, among other things.

(b) When products meeting detailed
ecifications have satisfied user needs
the past, solicitations for commer-
al or commercial-type products to fill
e same requirement should include
rovisions allowing the former produc-
s to be considered for award under
e detailed specifications as long as
e specifications are current and all
otential suppliers are competing on a
milar basis.

11.006 Evaluation.

To establish that a product offered is a commercial or commercial-type product, certain information may be required from each offeror. This information should cover the minimum period of time identified by market research and analysis as necessary to establish reliability. Requested information may include:

(a) Catalogue identification.

(b) Total sales of the same or similar items to the public.

(c) Length of time the product has been sold in the commercial market place.

(d) Period covered by the information.

(e) Other pertinent information necessary to determine that the product is a commercial or commercial-type product.

11.007 Distribution options.

Market research and analysis should examine what commercial distribution systems are available in the market place. If these systems offer economic advantages to the Government, provide adequate logistics support, and are compatible with competitive contracting, they should be considered for use in conjunction with commercial purchases.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42159, Sept. 19, 1983, unless otherwise noted.

12.000 Scope of part.

This part prescribes policies and procedures relating to delivery or performance under contracts for supplies, services, and construction.

Subpart 12.1—Delivery or Performance Schedules

12.101 General.

(a) The time of delivery or performance is an essential contract element and shall be clearly stated in solicitations. Contracting officers shall ensure that delivery or performance schedules are realistic and meet the requirements of the acquisition. Schedules that are unreasonably tight or difficult of attainment (1) tend to restrict competition, (2) are inconsistent with small business policies, and (3) may result in higher contract prices.

(b) Solicitations shall, except when clearly unnecessary, inform bidders or offerors of the basis on which their bids or proposals will be evaluated with respect to time of delivery or performance.

(c) If timely delivery or performance is unusually important to the Government, liquidated damages clauses may be used (see subpart 12.2).

12.102 Factors to consider in establishing schedules.

(a) *Supplies or services.* When establishing a contract delivery or performance schedule, consideration shall be given to applicable factors such as the—

(1) Urgency of need;

(2) Production time;

(3) Market conditions;

(4) Transportation time;

(5) Industry practices;

(6) Capabilities of small business concerns;

(7) Administrative time for obtaining and evaluating offers and for awarding contracts;

(8) Time for contractors to comply with any conditions precedent to contract performance; and

(9) Time for the Government to perform its obligations under the contract; e.g., furnishing Government property.

(b) *Construction.* When scheduling the time for completion of a construction contract, the contracting officer shall consider applicable factors such as the—

(1) Nature and complexity of the project;

(2) Construction seasons involved;

(3) Required completion date;

(4) Availability of materials and equipment;

(5) Capacity of the contractor to perform; and

(6) Use of multiple completion dates. (In any given contract, separate completion dates may be established for separable items of work. When multiple completion dates are used, requests for extension of time must be evaluated with respect to each item, and the affected completion dates modified when appropriate.)

12.103 Supplies or services.

(a) The contracting officer may express contract delivery or performance schedules in terms of—

(1) Specific calendar dates;

(2) Specific periods from the date of the contract; i.e., from the date of award or acceptance by the Government, or from the date shown as the effective date of the contract;

(3) Specific periods from the date of
ceipt by the contractor of the notice
award or acceptance by the Govern-
ent (including notice by receipt of
ntract document executed by the
overnment); or

(4) Specific time for delivery after
ceipt by the contractor of each indi-
dual order issued under the contract,
in indefinite delivery type contracts
d GSA schedules.

(b) The time specified for contract
erformance should not be curtailed
the prejudice of the contractor be-
use of delay by the Government in
ving notice of award.

(c) If the delivery schedule is based
the date of the contract, the con-
acting officer shall mail or otherwise
rnish to the contractor the contract,
tice of award, acceptance of propos-
, or other contract document not
ter than the date of the contract.

(d) If the delivery schedule is based
the date the contractor receives the
tice of award, or if the delivery
hedule is expressed in terms of spe-
fic calendar dates on the assumption
at the notice of award will be re-
ived by a specified date, the con-
acting officer shall send the con-
act, notice of award, acceptance of
oposal, or other contract document
certified mail, return receipt re-
ested, or by any other method that
ll provide evidence of the date of re-
ipt.

(e) In invitations for bids, if the de-
very schedule is based on the date of
e contract, and a bid offers delivery
sed on the date the contractor re-
ives the contract or notice of award,
e contracting officer shall evaluate
e bid by adding 5 days (as represent-
the normal time for arrival
rough ordinary mail). If the offered
livery date computed with mailing
me is later than the delivery date re-
ired by the invitation for bids, the
d shall be considered nonresponsive
d rejected. If award is made, the de-
very date will be the number of days
fered in the bid after the contractor
tually receives the notice of award.

.104 Contract clauses.

(a) *Supplies or services.* (1) The con-
acting officer may use a time of de-
very clause to set forth a required delivery schedule and to allow an offeror to propose an alternative delivery schedule. The clauses and their alternates may be used in solicitations and contracts substantially as shown, they may be changed, or new clauses may be written.

(2) The contracting officer may insert in solicitations and contracts for supplies or services a clause substantially the same as the clause at 52.212-1, Time of Delivery, if the Government requires delivery by a particular time and the delivery schedule is to be based on the date of the contract. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may use the clause with its Alternate I. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor will receive notice of award, the contracting officer may use the clause with its Alternate II. If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may use the clause with its Alternate III.

(3) The contracting officer may insert in solicitations and contracts for supplies or services a clause substantially the same as the clause at 52.212-2, Desired and Required Time of Delivery, if the Government desires delivery by a certain time but requires delivery by a specified later time, and the delivery schedule is to be based on the date of the contract. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may use the clause with its Alternate I. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor will receive notice of award, the contracting officer may use the clause with its Alternate II. If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may use the clause with its Alternate III.

(b) *Construction.* The contracting officer shall insert the clause at

52.212-3, Commencement, Prosecution, and Completion of Work, in solicitations and contracts when a fixed-price construction contract is contemplated. The clause may be changed to accommodate the issuance of orders under indefinite-delivery contracts. If the completion date is expressed as a specific calendar date, computed on the basis of the contractor receiving the notice to proceed by a certain day, the contracting officer may use the clause with its Alternate I.

Subpart 12.2—Liquidated Damages

12.201 General.

This subpart provides policies and procedures for the use of liquidated damages clauses in solicitations and contracts for supplies, services, and construction.

[48 FR 42159, Sept. 19, 1983, as amended at 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

12.202 Policy.

(a) Liquidated damages clauses should be used only when both (1) the time of delivery or performance is such an important factor in the award of the contract that the Government may reasonably expect to suffer damage if the delivery or performance is delinquent, and (2) the extent or amount of such damage would be difficult or impossible to ascertain or prove. In deciding whether to include a liquidated damage clause in a contract, the contracting officer should consider the probable effect on such matters as pricing, competition, and the costs and difficulties of contract administration.

(b) The rate of liquidated damages used must be reasonable and considered on a case-by-case basis since liquidated damages fixed without any reference to probable actual damages may be held to be a penalty, and therefore unenforceable. The contract may also include an overall maximum dollar amount or period of time, or both, during which liquidated damages may be assessed, to ensure that the result is not an unreasonable assessment of liquidated damages.

(c) The contracting officer shall take all reasonable steps to mitigate liquidated damages. If a liquidated damages clause is included in a contract and a basis for termination for default exists, the contracting officer should take appropriate action expeditiously to obtain performance by the contractor or to terminate the contract (see subpart 49.4). If delivery or performance is desired after termination for default, efforts must be made to obtain the delivery or performance elsewhere within a reasonable time. Efficient administration of contracts containing a liquidated damages clause is imperative to prevent undue loss to defaulting contractors and to protect the interests of the Government.

(d) If a contract provides for liquidated damages for delay, the Comptroller General, on the recommendation of the head of the agency concerned, is authorized and empowered by law to make a remission, that in the discretion of the Comptroller General is just and equitable, of the whole or any part of such damages.

12.203 Procedures.

(a) If a liquidated damages clause is to be used in a contract, the applicable clause and appropriate rate(s) of liquidated damages shall be included in the solicitation.

(b) If a liquidated damages clause is used in a construction contract, the rate(s) of liquidated damages to be assessed against the contractor should be for each day of delay and the rate(s) should as a minimum cover the estimated cost of inspection and superintendence for each day of delay in completion. Whenever the Government will suffer other specific losses due to the failure of the contractor to complete the work on time, the rate(s) should also include an amount for these items. Examples of specific losses are—

(1) The cost of substitute facilities;

(2) The rental of buildings and/or equipment; or

(3) The continued payment of quarters allowances.

(c) If appropriate to reflect the probable damages, considering that the Government can terminate for default or take other appropriate action, the rate of assessment of liquidated dam-

may be in two or more incre-
s which provide a declining rate
sessment as the delinquency con-
s. The contract may also include
erall maximum dollar amount or
d of time, or both, during which
dated damages may be assessed,
sure that the result is not an un-
nable assessment of liquidated
ges.

Contract clauses.

The contracting officer may
t the clause at 52.212-4, Liquidat-
amages—Supplies, Services, or Re-
h and Development, in solicita-
and contracts when a fixed-price
act is contemplated for supplies,
ces, or research and development
2.202).

The contracting officer may
t the clause at 52.212-5, Liquidat-
amages—Construction, in solicita-
and contracts for construction,
t construction contracts on a
plus-fixed-fee basis (see 12.202). If
rent completion dates are speci-
n the contract for separate parts
ages of the work, the contracting
r shall use the clause with its Al-
te I.

The contracting officer shall
t the clause at 52.212-6, Time Ex-
ons, in solicitations and contracts
onstruction in which the clause at
2-5, Liquidated Damages—Con-
tion, is used with its Alternate I.

Subpart 12.3—Priorities and Allocations

ace: 51 FR 19714, May 30, 1986, unless
wise noted.

Scope of subpart.

is subpart implements the De-
Priorities and Allocations
m (DPAS), a Department of
merce (DOC) regulation in sup-
of authorized national defense
ams (see 15 CFR part 350).

Definitions.

horized program, as used in this
rt, means a program approved by
Federal Emergency Management
y (FEMA) for priorities and allo-
s support under the Defense
ction Act of 1950, as amended
(50 U.S.C. app. 2061, *et seq.*), to promote the national defense. Schedule I of the DPAS lists currently authorized programs.

Controlled materials, as used in this subpart, means the various shapes and forms of steel, copper, aluminum, and nickel alloys specified in Schedule II, and defined in Schedule III, of the DPAS.

Delegate Agency, as used in this subpart, means an agency of the U.S. Government authorized by delegation from DOC to place priority ratings on contracts that support authorized programs. Schedule I of the DPAS lists the Delegate Agencies.

Rated order means a prime contract for any product, service, or material (including controlled materials) placed by a Delegate Agency under the provisions of the DPAS in support of an authorized program and which requires preferential treatment, and includes subcontracts and purchase orders resulting under such contracts.

12.302 General.

(a) Under Title I of the Defense Production Act of 1950, as amended (50 U.S.C. app. 2061, *et seq.*), the President is authorized (1) to require that contracts in support of the national defense be accepted and performed on a preferential or priority basis over all other contracts, and (2) to allocate materials and facilities in such a manner as to promote the national defense.

(b) The Office of Industrial Resource Administration (OIRA), DOC, is responsible for administering and enforcing a system of priorities and allocations to carry out Title I of the Defense Production Act for industrial items. The DPAS has been established to promote the timely availability of the necessary industrial resources to meet current national defense requirements and to provide a framework to facilitate rapid industrial mobilization in case of national emergency.

(c) The Delegate Agencies (see Schedule I of the DPAS) have been given authority by DOC to place rated orders in support of authorized programs. Other government agencies, Canada, and other friendly foreign nations may apply for special rating authority in support of authorized programs (see 15 CFR 350.55).

(d) Rated orders shall be placed in accordance with the procedures in the DPAS. Contracting officers responsible for acquisitions in support of authorized programs shall be familiar with the DPAS and should provide guidance on the DPAS to contractors and suppliers receiving rated orders. Agency heads shall ensure compliance with the DPAS by contracting activities within their agencies.

(e) Under the Defense Production Act, any willful violation of the Act, the DPAS, or any official action taken by DOC under the DPAS, is a crime punishable by a maximum fine of $10,000, one year in prison, or both (see 15 CFR 350.70 and 15 CFR 350.74).

12.303 Procedures.

(a) There are two levels of priority for rated orders established by the DPAS, identified by the rating symbols "DO" and "DX." All DO rated orders have equal priority with each other and take preference over unrated orders. All DX rated orders have equal priority with each other and take preference over DO rated and unrated orders. DX ratings are used for special defense programs designated by the President to be of the highest national priority.

(b) DOC may issue a Directive to compel a contractor or supplier to accept a rated order, to rearrange production or delivery schedules, or to improve shipments against particular rated orders. Directives issued by DOC take precedence over all rated and unrated orders as stated in the Directive.

(c) In addition to any other contractual requirements, a valid rated order must contain (see 15 CFR 350.12) the following:

(1) A priority rating consisting of the appropriate DO or DX rating symbol and a program of identification symbol to indicate the authorized program (see Schedule I of the DPAS).

(2) A required delivery date or delivery dates.

(3) The signature of an individual authorized by the agency to sign rated orders.

(d) The DPAS has the following three basic elements which are essential to the operation of the system:

(1) *Mandatory acceptance of rated orders.* A rated order shall be accepted by a contractor or supplier unless rejected for the reasons provided for mandatory rejection in 15 CFR 350.13(b), or for optional rejection in 15 CFR 350.13(c).

(2) *Mandatory extension of priority ratings throughout the acquisition chain.* Contractors and suppliers receiving rated orders shall extend priority ratings to subcontractors or vendors when acquiring items to fill the rated orders (see 15 CFR 350.15).

(3) *Priority scheduling of production and delivery.* Contractors and suppliers receiving rated orders shall give the rated orders priority over other contracts as needed to meet delivery requirements (see 15 CFR 350.14).

(e) Agencies shall provide contracting activities with specific guidance on the issuance of rated orders in support of agency programs.

(f) Contracting officers shall follow agency procedural instructions concerning the use of rated orders in support of agency programs.

(g) Contracting officers, contractors, or subcontractors at any tier, that experience difficulty placing rated orders, obtaining timely delivery under rated orders, locating a contractor or supplier to fill a rated order, ensuring that rated orders receive preferential treatment by contractors or suppliers, or require rating authority for items not automatically ratable under the DPAS, should promptly seek special priorities assistance in accordance with agency procedures (see 15 CFR 350.50–350.55).

(h) Contracting officers shall report promptly any violations of the DPAS to DOC in accordance with agency procedures.

12.304 Solicitation provision and contract clause.

(a) Contracting officers shall insert the provision at 52.212-7, Notice of Priority Rating for National Defense Use, in solicitations when the contract to be awarded will be a rated order.

(b) Contracting officers shall insert the clause at 52.212-8, Defense Priority and Allocation Requirements, in contracts that are rated orders.

Subpart 12.4—Variation in Quantity

12.401 Supply contracts.

(a) A fixed-price supply contract may authorize Government acceptance of a variation in the quantity of items called for if the variation is caused by conditions of loading, shipping, or packing, or by allowances in manufacturing processes. Any permissible variation shall be stated as a percentage and it may be an increase, a decrease, or a combination of both; however, contracts for subsistence items may use other applicable terms of variation in quantity.

(b) There should be no standard or usual variation percentage. The overrun or underrun permitted in each contract should be based upon the normal commercial practices of a paricular industry for a particular item, and the permitted percentage should e no larger than is necessary to afford a contractor reasonable protecion. The permissible variation shall not exceed plus or minus 10 percent unless a different limitation is estabished in agency regulations. Consideration shall be given to the quantity to which the percentage variation applies. For example, when delivery will e made to multiple destinations and t is desired that the quantity variaion apply to the item quantity for ach destination, this requirement must be stated in the contract.

(c) Contractors are responsible for elivery of the specified quantity of ems in a fixed-price contract, within llowable variations, if any. If a conractor delivers a quantity of items in xcess of the contract requirements lus any allowable variation in quantity, particularly small dollar value vershipments, it results in unnecesary administrative costs to the Govrnment in determining disposition of he excess quantity. Accordingly, the ontract may include the clause at 2.212-10, Delivery of Excess Quanties, to provide that—

(1) Excess quantities of items totalg up to $250 in value may be retained without compensating the contractor; and

(2) Excess quantities of items totaling over $250 in value may, at the Government's option, be either returned at the contractor's expense or retained and paid for at the contract unit price.

[48 FR 42159, Sept. 19, 1983, as amended at 54 FR 34753, Aug. 21, 1989]

12.402 Construction contracts.

Construction contracts may authorize a variation in estimated quantities of unit-priced items. When the variation between the estimated quantity and the actual quantity of a unit-priced item is more than plus or minus 15 percent, an equitable adjustment in the contract price shall be made upon the demand of either the Government or the contractor. The contractor may request an extension of time if the quantity variation is such as to cause an increase in the time necessary for completion. The contracting officer must receive the request in writing within 10 days from the beginning of the period of delay. However, the contracting officer may extend this time limit before the date of final settlement of the contract. The contracting officer shall ascertain the facts and make any adjustment for extending the completion date that the findings justify.

12.403 Contract clauses.

(a) The contracting officer shall insert the clause at 52.212-9, Variation in Quantity, in solicitations and contracts, when a fixed-price supply contract is contemplated for supplies, and for services that involve the furnishing of supplies.

(b) The contracting officer may insert the clause at 52.212-10, Delivery of Excess Quantities, in solicitations and contracts, when a fixed-price supply contract is contemplated.

(c) The contracting officer shall insert the clause at 52.212-11, Variation in Estimated Quantity, in solicitations and contracts when a fixed-price construction contract is contemplated that authorizes a variation in the estimated quantity of unit-priced items.

Subpart 12.5—Suspension of Work, Stop-Work Orders, and Government Delay of Work

[48 FR 42159, Sept. 19, 1983, as amended at 54 FR 34753, Aug. 21, 1989]

12.501 General.

Situations may occur during contract performance that cause the Government to order a suspension of work, or a work stoppage. This subpart provides clauses to meet these situations and a clause for settling contractor claims for unordered Government caused delays that are not otherwise covered in the contract.

12.502 Suspension of work.

A suspension of work under a construction or architect-engineer contract may be ordered by the contracting officer for a reasonable period of time. If the suspension is unreasonable, the contractor may submit a written claim for increases in the cost of performance, excluding profit.

12.503 Stop-work orders.

(a) Stop-work orders may be used, when appropriate, in any negotiated fixed-price or cost-reimbursement supply, research and development, or service contract if work stoppage may be required for reasons such as advancement in the state-of-the-art, production or engineering breakthroughs, or realignment of programs.

(b) Generally, a stop-work order will be issued only if it is advisable to suspend work pending a decision by the Government and a supplemental agreement providing for the suspension is not feasible. Issuance of a stop-work order shall be approved at a level higher than the contracting officer. Stop-work orders shall not be used in place of a termination notice after a decision to terminate has been made.

(c) Stop-work orders should include—

(1) A description of the work to be suspended;

(2) Instructions concerning the contractor's issuance of further orders for materials or services;

(3) Guidance to the contractor on action to be taken on any subcontracts; and

(4) Other suggestions to the contractor for minimizing costs.

(d) Promptly after issuing the stop-work order, the contracting officer should discuss the stop-work order with the contractor and modify the order, if necessary, in light of the discussion.

(e) As soon as feasible after a stop-work order is issued, but before its expiration, the contracting officer shall take appropriate action to—

(1) Terminate the contract;

(2) Cancel the stop-work order (any cancellation of a stop-work order shall be subject to the same approvals as were required for its issuance); or

(3) Extend the period of the stop-work order if it is necessary and if the contractor agrees (any extension of the stop-work order shall be by a supplemental agreement).

12.504 Government delay of work.

(a) The clause at 52.212-15, Government Delay of Work, provides for the administrative settlement of contractor claims that arise from delays and interruptions in the contract work caused by the acts, or failures to act, of the contracting officer. This clause is not applicable if the contract otherwise specifically provides for an equitable adjustment because of the delay or interruption; e.g., when the Changes clause is applicable.

(b) The clause does not authorize the contracting officer to order a suspension, delay, or interruption of the contract work and it shall not be used as the basis or justification of such an order.

(c) If the contracting officer has notice of an unordered delay or interruption covered by the clause, the contracting officer shall act to end the delay or take other appropriate action as soon as practicable.

(d) The contracting officer shall retain in the file a record of all negotiations leading to any adjustment made under the clause, and related cost or pricing data.

12.505 Contract clauses.

(a) The contracting officer shall insert the clause at 52.212-12, Suspension of Work, in solicitations and contracts when a fixed-price construction or architect-engineer contract is contemplated.

(b)(1) The contracting officer may, when contracting by negotiation, insert the clause at 52.212-13, Stop-Work Order, in solicitations and contracts for supplies, services, or research and development.

(2) If a cost-reimbursement contract is comtemplated, the contracting officer shall use the clause with its Alternate I.

(c) The contracting officer shall insert the clause at 52.212-14, Stop-Work Order—Facilities, in solicitations and contracts when a facilities acquisition contract or a consolidated facilities contract is contemplated.

(d) The contracting officer shall insert the clause at 52.212-15, Government Delay of Work, in solicitations and contracts when a fixed-price contract is contemplated for supplies other than commercial or modified-commercial items. The clause use is optional when a fixed-price contract is contemplated for services, or for supplies that are commercial or modified-commercial items.

[48 FR 42159, Sept. 19, 1983, as amended at 50 FR 2270, Jan. 15, 1985; 50 FR 25680, June 20, 1985]

SOURCE: 48 FR 42163, Sept. 19, 1983, unless otherwise noted.

13.000 Scope of part.

This part prescribes policies and procedures for the acquisition of supplies, nonpersonal services, and construction from commercial sources, the aggregate amount of which does not exceed $25,000.

[49 FR 12974, Mar. 30, 1984]

Subpart 13.1—General

13.101 Definitions.

Bulk funding means a system whereby a contracting officer receives authorization from a fiscal and accounting officer to obligate funds on purchase documents against a specified lump sum of funds reserved for the purpose for a specified period of time rather than obtaining individual obligational authority on each purchase document.

Delivery Order, as used in this part, means an order for supplies or services placed against an established contract or with Government sources of supply.

Purchase Order, as used in this part, means an offer by the Government to buy certain supplies or nonpersonal services and construction from commercial sources, upon specified terms and conditions, the aggregate amount of which does not exceed the small purchase limit. The Optional Form

347, Order for Supplies or Services, is designed for this purpose.

Small purchase means an acquisition of supplies, nonpersonal services, and construction in the amount of $25,000 or less using the procedures prescribed in this part.

Small purchase procedures means the methods prescribed in this part for making small purchases using imprest funds, purchase orders, and blanket purchase agreements. The term excludes—

(a) Requirements obtained through the use of Delivery Orders;

(b) Contracts with the Small Business Administration (SBA) under Section 8(a) of the Small Business Act (see part 19); and

(c) Contracts awarded through (1) sealed bidding (see part 14), (2) the negotiation procedures in part 15, or (3) small business or labor surplus area set-asides (see part 19 and 20), other than small business-small purchase set-asides prescribed in 13.105.

[48 FR 42163, Sept. 19, 1983, as amended at 49 FR 12974, Mar. 30, 1984; 50 FR 1736, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

13.102 Purpose.

The purpose of this part is to prescribe simplified procedures for small purchases in order to (1) reduce administrative costs and (2) improve opportunities for small business concerns and small disadvantaged business concerns to obtain a fair proportion of Government contracts.

13.103 Policy.

(a) The procedures prescribed in this part shall be used to the maximum extent practicable for all purchases of supplies or services not exceeding the small purchase limitation unless requirements can be met by using required sources of supply (see part 8).

(b) Small purchase procedures shall not be used in the acquisition of supplies and services initially estimated to exceed the small purchase limitation even though resulting awards do not exceed that limit. Requirements aggregating more than the small purchase dollar limitation shall not be broken down into several purchases that are less than the limit merely to permit the use of small purchase procedures.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 52433, Dec. 23, 1985]

13.104 Procedures.

(a) Contracting officers shall use the small purchase procedure that is most suitable, efficient, and economical in the circumstances of each acquisition. Contracting officers may use the procedures in this part in acquisitions from Government supply sources (see part 8), if their use is authorized by the basic contract or concurred in by the source.

(b) Related items (such as small hardware items or spare parts for vehicles) may be included in one solicitation and the award made on an *all-or-none* basis if suppliers are so advised when quotations are requested.

(c) Agencies shall use bulk funding to the maximum extent practicable to reduce processing time, handling, and documentation. Bulk funding is particularly appropriate if numerous purchases using the same type of funds are to be made during a given period.

(d) Agencies shall inspect items or services acquired under small purchase procedures as prescribed in 46.404.

(e) Agencies shall use United States-owned foreign currency, if appropriate, in making payments for small purchases (see subpart 25.3).

(f) This part does not preclude using (1) Standard Form 1442, Solicitation, Offer and Award (Construction, Alteration, or Repair), for construction contracts (see 36.701(b)) or (2) negotiated two-party contracts (see part 15), for acquisitions not exceeding the small purchase limitation.

(g) When proposed purchases covered by this part are required to be publicized under 5.201, the contracting officer shall proceed in accordance with 5.203. See 5.101 (a)(2) for public display requirements.

(h) When a quotation, oral or written, is to be rejected because a small business firm is determined to be not responsible (see subpart 9.1), see 19.6 with respect to Certificates of Competency.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 27489, July 31, 1986; 52 FR 21886, June 9, 1987]

13.105 Small business-small purchase set-asides.

(a) Except as provided in paragraphs (b), (c), and (d) below, each acquisition of supplies or services that has an anticipated dollar value of $25,000 or less and is subject to small purchase procedures, shall be reserved exclusively for small business concerns. This shall be accomplished by using the category of set-asides established by Pub. L. 95-507, specifically for small purchases, identified as small business-small purchase set-asides established by section 15(j) of the Small Business Act (15 U.S.C. 644(j)) (see Pub. L. 95-507).

(b) The requirements of this section 13.105 apply only to purchases in the United States, its territories and possessions, Puerto Rico, and the Trust Territory of the Pacific Islands (see 19.000(b)). Foreign concerns shall not be solicited or awarded acquisitions reserved for small business concerns.

(c) The requirement for small business-small purchase set-asides does not affect the responsibility of agencies to make purchases from required sources of supply, such as Federal Prison Industries, Industries for the Blind and Other Severely Handicapped, and mandatory multiple-award Federal Supply Schedule contracts.

(d) (1) Each written solicitation under a small business-small purchase set-aside shall contain the provision at 52.219-4, Notice of Small Business-Small Purchase Set-Aside. If the solicitation is oral, however, information substantially identical to that which is in the provision shall be given to potential quoters.

(2) If the contracting officer determines there is no reasonable expectation of obtaining quotations from two or more responsible small business concerns (or at least one if the purchase does not exceed the dollar threshold, prescribed in 13.106, for obtaining competition and price reasonableness) that will be competitive in terms of market price, quality, and delivery, the contracting officer need not proceed with the small business-small purchase set-aside and may purchase on an unrestricted basis. If the SBA procurement center representative disagrees with a contracting officer's decision not to proceed with a small business-small purchase set-aside, the SBA procurement center representative may appeal the decision in accordance with the procedures set forth in 19.505.

(3) If the contracting officer proceeds with the small business-small purchase set-aside and receives a quotation from only one responsible small business concern at a reasonable price (see 13.106(c)), the contracting officer shall make an award to that concern. However, if the contracting officer does not receive a reasonable quotation from a responsible small business concern, the contracting officer may cancel the small business- small purchase set-aside and complete the purchase on an unrestricted basis.

(4) When proceeding under 13.105(d)(1) or (3), the contracting officer shall ascertain the availability of small business suppliers by telephone or other informal means (see 13.106(b)(4)).

(5) If the purchase is on an unrestricted basis under 13.105(d)(2), the contracting officer shall document in the file the reason for the unrestricted purchase.

(e) Policy concerning nonmanufacturers under small business-small purchase set-asides is prescribed in 19.501(f)(2).

[48 FR 42163, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986; 51 FR 36971, Oct. 16, 1986; 52 FR 21886, June 9, 1987]

13.106 Competition and price reasonableness.

(a) *Purchases not over 10 percent of the small purchase limitation.* (1) Purchases not exceeding this limit may be made without securing competitive quotations if the contracting officer considers the prices to be reasonable.

(2) Such purchases shall be distributed equitably among qualified suppliers.

(3) If practical, a quotation shall be solicited from other than the previous supplier before placing a repeat order.

(4) The administrative cost of verifying the reasonableness of the price of purchases not exceeding 10 percent of the small purchase limitation may more than offset potential savings from detecting instances of overpric-

g. Therefore, action to verify price
asonableness need be taken only
hen—
(i) The buyer or contracting officer
spects or has information (e.g., com-
rison to previous prices paid or per-
nal knowledge of the item involved)
indicate that the price may not be
asonable; or
ii) Purchasing an item for which no
mparable pricing information is
adily available (e.g., an item that is
t the same as, or is not similar to,
her items that have been recently
rchased on a competitive basis).
b) *Purchase over 10 percent of the*
all purchase limitation. (1) Con-
cting officers shall solicit quota-
ns from a reasonable number of
rces to promote competition to the
ximum extent practicable and
ure that the purchase is advanta-
us to the Government, price and
er factors considered, including the
ministrative cost of the purchase.
icitations may only be limited to
source if the contracting officer
ermines that only one source is rea-
ably available.
2) Generally, quotations should be
cited orally except that written so-
tations shall be used for construc-
contracts over $2,000. Written so-
tations should be used when obtain-
oral quotations is not considered
nomical or practical.
) Maximum practicable competi-
for small purchases ordinarily can
obtained without soliciting quota-
s from sources outside the trade
in which the purchasing office is
ated. Contracting officers shall not
t solicitations to suppliers of well
wn and widely distributed makes
brands, nor shall quotations be so-
ed on a personal preference basis.
supply sources, disclosed through
e journals or other media, shall be
tinuously reviewed and, if appro-
te, added to the list of available
rces.
) (i) Unless exempted from this re-
ement by the head of the con-
ting activity, each contracting
e shall maintain a small purchase
ce list (or lists, if more conven-
) and shall record on the list the
us of each source (when the status
is made known to the contracting office) in the following categories:

(A) Small business.

(B) Small disadvantaged business.

(C) Certified in a labor surplus area.

(ii) The status information shall be used to ensure that small business concerns are given opportunities to submit quotations in response to small purchase solicitations. The names of additional concerns may be obtained from the Small and Disadvantaged Business Utilization Specialist who, in turn, may request support from the SBA Procurement Center Representative or other Federal and private sources which maintain lists of small business concerns. (See subpart 19.1 for pertinent definitions.)

(5) Generally, solicitation of at least three sources may be considered to promote competition to the maximum extent practicable. If practicable, two sources not included in the previous solicitation should be requested to furnish quotations.

(6) The following factors influence the number of quotations required in connection with any particular purchase:

(i) The nature of the article or service to be purchased and whether it is highly competitive and readily available in several makes or brands, or is relatively noncompetitive.

(ii) Information obtained in making recent purchases of the same or similar item.

(iii) The urgency of the proposed purchase.

(iv) The dollar value of the proposed purchase.

(v) Past experience concerning specific dealers' prices.

(7) If suppliers furnish standing price quotations on supplies or services required on an intermittent and recurring basis, the information may be used in lieu of obtaining individual quotations each time a purchase is contemplated. The buyer shall ensure that the price information is current and that the Government obtains the benefit of maximum discounts.

(8) Occasionally an item can be obtained only from a supplier who quotes a minimum order price or quantity that either unreasonably exceeds stated quantity requirements or

results in an unreasonable price for the quantities required. In these instances, the contracting officer should inform the requiring activity of all facts regarding the quotation and request it to confirm or alter its requirement. The file shall be documented to support the final action taken.

(9) Notification to unsuccessful suppliers shall be given only if requested.

(c) *Data to support small purchases over 10 percent of the small purchase limitation.* (1) The determination that a proposed price is reasonable should be based on competitive quotations. If only one response is received, or the price variance between multiple responses reflects lack of adequate competition, a statement shall be included in the contract file giving the basis of the determination of fair and reasonable price. The determination may be based on a comparison of the proposed price with prices found reasonable on previous purchases, current price lists, catalogs, advertisements, similar items in a related industry, value analysis, the contracting officer's personal knowledge of the item being purchased, or any other reasonable basis. In any case, the contracting officer should gain as much knowledge as practicable of the physical and material characteristics and intended use of the item to be purchased as an aid to determine price reasonableness.

(2) If only one source is solicited, an additional notation shall be made to explain the absence of competition, except for acquisition of utility services available only from one source or of educational services from nonprofit institutions.

(3) The following illustrate the extent to which quotation information should be recorded:

(i) *Oral solicitations.* The contracting office shall establish and maintain informal records of oral price quotations in order to reflect clearly the propriety of placing the order at the price paid with the supplier concerned. In most cases, this will consist merely of showing the names of the suppliers contacted and the prices and other terms and conditions quoted by each. Handwritten notations on the purchase requisition are satisfactory for this purpose.

(ii) *Written solicitations.* Writte records of solicitations may be limite to notes or abstracts to show price delivery, references to printed pric lists used, the vendor or vendors contacted, and other pertinent data.

(4) Purchasing offices shall retai data supporting small purchases t the minimum extent and duration necessary for management review purposes. (See subpart 4.8, Contrac Files.)

[48 FR 42163, Sept. 19, 1983, as amended a 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec 23, 1985; 52 FR 19803, May 27, 1987; 55 F 25527, June 21, 1990]

13.107 Solicitation and evaluation of quotations.

(a) *Forms.* (1) Except when quotations are solicited orally, Standar Form 18, Request for Quotations (illustrated in 53.301-18), is designed fo use in obtaining price, delivery, and related information from suppliers.

(2) Standard Form 18 is available fo use by all agencies, and shall be used when using the form is considered economical and efficient for obtaining written quotations for small purchases.

(3) Optional Form 336, Continuation Sheet, may be used with Standard Form 18 when additional space i needed.

(4) If Standard Form 18 is not used for written solicitations, contracting officers may request quotations using an agency-designed form, an agency-approved automated format, or teletype.

(5) Each agency-designed request for quotations form shall conform with Standard Form 18, insofar as practical

(6) When using a teletype for transmission of a request for quotations the provisions and clauses applicable to the solicitation shall be incorporated by reference.

(b) *Discounts.* Consistent with the applicable principles in 14.407-3, contracting officers shall make every effort to obtain trade and prompt payment discounts. However, prompt payment discounts shall not be considered in the evaluation of quotations.

(c) *Transportation charges.* Contracting officers shall evaluate quota ons inclusive of transportation charges from the shipping point of the supplier to the delivery destination.

(d) *Economic purchase quantities (supplies).* Contracting officers shall comply with the economic purchase quantity planning requirements for supplies in subpart 7.2. If quotations are solicited in writing, contracting officers shall comply with 7.203 and 7.204. If quotations are solicited orally, contracting officers shall orally request the information covered by the provision at 52.207-4 in accordance with the instructions at 7.203 and then comply with 7.204.

[48 FR 42163, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986; 52 FR 30076, Aug. 12, 1987]

13.108 Legal effect of quotations.

(a) A quotation is not an offer and, consequently, cannot be accepted by the Government to form a binding contract (see 15.402(e)). Therefore, issuance by the Government of an order for supplies or services in response to a supplier's quotation does not establish a contract. The order is an offer by the Government to the supplier to buy certain supplies or services upon specified terms and conditions. A contract comes into being when the supplier accepts the offer.

(b) When appropriate, the contracting officer may request the supplier to indicate acceptance of an order by notification to the Government, preferably in writing. In other circumstances, the supplier may indicate acceptance by furnishing the supplies or services ordered or by proceeding with the work to the point where substantial performance has occurred.

(c) If the Government issues an order resulting from a quotation, the Government may (by written notice to the supplier, at any time before acceptance occurs) withdraw, amend, or cancel its offer. (See 13.504 for procedures on termination or cancellation of purchase orders.)

13.109 Agency use of indefinite delivery contracts.

Small purchase costs and processing time may be reduced through the use of indefinite delivery contracts (see subpart 16.5) that permit delivery orders to be placed by several contracting or ordering offices in one or more executive agencies. Therefore, contracting offices are encouraged to seek opportunities to cooperate with each other to achieve small purchase efficiency and economy through the use of indefinite delivery contracts.

Subpart 13.2—Blanket Purchase Agreements

13.201 General.

(a) A blanket purchase agreement (BPA) is a simplified method of filling anticipated repetitive needs for supplies or services by establishing *charge accounts* with qualified sources of supply (see subpart 16.7 for additional coverage of agreements).

(b) BPA's are designed to reduce administrative costs in accomplishing small purchases by eliminating the need for issuing individual purchase documents.

(c) BPA's should be established at the appropriate level responsible for providing supplies for its own operations or for other offices, installations, projects, or functions. Such levels, for example, may be organized supply points, separate independent or detached field parties, or one-person posts or activities.

(d) The use of BPA's does not exempt the agency from responsibility for keeping obligations and expenditures within available funds, but this should be done by using simplified methods and by avoiding formal fiscal recording of individual deliveries and transactions.

13.202 [Reserved]

13.203 Establishment of Blanket Purchase Agreements.

13.203-1 General.

(a) The following are circumstances under which contracting officers may establish BPA's:

(1) If there is a wide variety of items in a broad class of goods (e.g., hardware) that are generally purchased but the exact items, quantities, and delivery requirements are not known in advance and may vary considerably.

(2) If there is a need to provide commercial sources of supply for one or more offices or projects in a given area that do not have or need authority to purchase otherwise.

(3) In any other case in which the writing of numerous purchase orders can be avoided through the use of this procedure.

(b) A BPA should be established without a purchase requisition.

(c) A BPA shall not cite accounting and appropriation data (but see 13.204(e)(4)).

(d) BPA's should be made with firms from which numerous individual purchases will likely be made in a given period. For example, if past experience has shown that certain firms are dependable and consistently lower in price than other firms dealing in the same commodities, and if numerous small purchases are usually made from such suppliers, it would be advantageous to establish BPA's with those firms.

(e) To the extent practical, BPA's for items of the same type should be placed concurrently with more than one supplier. All competitive sources should be given an equal opportunity to furnish supplies or services under BPA's.

(f) BPA's may also be established with Federal Supply Schedule contractors (see subpart 8.4) and GSA Nonmandatory ADP Schedule contractors (see part 39), if not inconsistent with the terms of the applicable schedule contract.

(g) If it is determined that BPA's would be advantageous, suppliers should be contacted to make the necessary arrangements for securing maximum discounts, documenting the individual purchase transactions, periodic billing, and other necessary details.

(h) A BPA may be limited to furnishing individual items or commodity groups or classes, or it may be unlimited for all items or services that the source of supply is in a position to furnish.

(i) BPA's shall be prepared and issued on any agency-authorized purchase order form.

(j) BPA's shall contain the following terms and conditions:

(1) *Description of agreement.* A statement that the supplier shall furnish supplies or services, described in general terms, if and when requested by the contracting officer (or the authorized representative of the contracting officer) during a specified period and within a stipulated aggregate amount, if any.

(2) *Extent of obligation.* A statement that the Government is obligated only to the extent of authorized purchases actually made under the BPA.

(3) *Pricing.* A statement that the prices to the Government shall be as low or lower than those charged the supplier's most favored customer for comparable quantities under similar terms and conditions, in addition to any discounts for prompt payment.

(4) *Purchase limitation.* A statement that specifies the dollar limitation for each individual purchase under the BPA (see 13.204(b)).

(5) *Notice of individuals authorized to purchase under the BPA and dollar limitations by title of position or name.* A statement that a list of individuals authorized to purchase under the BPA, identified either by title of position or by name of individual, organizational component, and the dollar limitation per purchase for each position title or individual shall be furnished to the supplier by the contracting officer.

(6) *Delivery tickets.* A requirement that all shipments under the agreement, except subscriptions and other charges for newspapers, magazines, or other periodicals, shall be accompanied by delivery tickets or sales slips which shall contain the following minimum information:

(i) Name of supplier.

(ii) BPA number.

(iii) Date of purchase.

(iv) Purchase number.

(v) Itemized list of supplies or services furnished.

(vi) Quantity, unit price, and extension of each item, less applicable discounts (unit prices and extensions need not be shown when incompatible with the use of automated systems; *provided*, that the invoice is itemized to show this information).

(vii) Date of delivery or shipment.

Invoices. One of the following
nents (except that statement (iii)
d not be used if the accumulation
individual invoices by the Gov-
ent materially increases the ad-
trative costs of this purchase
od):
A summary invoice shall be sub-
d at least monthly or upon expi-
of this BPA, whichever occurs
for all deliveries made during a
period, identifying the delivery
s covered therein, stating their
dollar value, and supported by
ted copies of the delivery tickets.
An itemized invoice shall be sub-
at least monthly or upon expi-
of this BPA, whichever occurs
for all deliveries made during a
period and for which payment
ot been received. These invoices
not be supported by copies of de-
tickets.
When billing procedures provide
individual invoice for each de-
these invoices shall be accumu-
provided, that—
A consolidated payment will be
for each specified period; and
The period of any discounts will
ence on the final date of the bill-
riod or on the date of receipt of
s for all deliveries accepted
the billing period, whichever is

An invoice for subscriptions or
charges for newspapers, maga-
or other periodicals shall show
arting and ending dates and
tate either that ordered sub-
ons have been placed in effect
be placed in effect upon receipt
nent.
PA's in which the fast payment
ure is used shall include the re-
ents stated under 13.303(b).

42163, Sept. 19, 1983, as amended at
036, Mar. 20, 1987; 53 FR 661, Jan.
53 FR 43390, Oct. 26, 1988]

Clauses.

The contracting officer shall
n each BPA the clauses pre-
elsewhere in the FAR that are
for or applicable to the par-
BPA.
Unless a clause prescription
otherwise, (e.g., see
)(1), 22.605(a)(5), or 22.1006),
if the prescription includes a dollar threshold, the amount to be compared to that threshold is that of any particular order under the BPA.

13.204 Purchases under Blanket Purchase Agreements.

(a) The use of a BPA does not authorize purchases that are not otherwise authorized by law or regulation. For example, the blanket purchase agreement, being a method of simplifying the making of individual small purchases, shall not be used to avoid the small purchase limitation.

(b) Unless otherwise specified in agency regulations, individual purchases under BPA's, except those BPA's established in accordance with 13.203-1(f), shall not exceed the dollar limitation for small purchases (see 13.103).

(c) The existence of a BPA does not justify from only one source purchasing or avoiding small business-small purchase set-asides. The requirements of 13.106 and 13.107 also apply to each order under a BPA.

(d) If there is an insufficient number of BPA's to ensure maximum practicable competition for a particular purchase, the contracting officer shall—

(1) Solicit quotations from other sources and make the purchase as appropriate; and

(2) Establish additional BPA's to facilitate future purchases if (i) recurring requirements for the same or similar items or services seem likely, (ii) qualified sources are willing to accept BPA's, and (iii) it is otherwise practical to do so.

(e) Documentation of purchases under BPA's shall be limited to essential information and forms, as follows:

(1) Purchases under BPA's generally should be made orally, but a purchase document may be issued if written communications are necessary to ensure that the vendor and the purchaser agree concerning the transaction.

(2) If a purchase document is not issued, the essential elements (e.g., date, vendor, items or services, price, delivery date) shall be recorded on the purchase requisition, in an informal

memorandum, or on a form developed locally for the purpose.

(3) If a purchase document is issued, informal correspondence, an authorized purchase form, or a form developed locally for the purpose, may be used.

(4) Documentation of individual purchases under BPA's shall also cite the pertinent purchase requisitions and the accounting and appropriation data.

(5) When delivery is made or the services are performed, the vendor's sales document, delivery document, or invoice may (if it reflects the essential elements) be used for the purpose of recording receipt and acceptance of the items or services. However, if the purchase is assigned to another activity for administration, receipt and acceptance of supplies or services shall be documented by signature and date on the agency specified form by the authorized Government representative after verification and notation of any exceptions.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 31426, Sept. 3, 1986]

13.205 Review procedures.

(a) The contracting officer placing orders under a BPA, or the designated representative of the contracting officer, shall review a sufficient random sample of the BPA files at least annually to ensure that authorized procedures are being followed.

(b) The contracting officer that entered into the BPA shall—

(1) Ensure that each BPA is reviewed at least annually and, if necessary, updated at that time; and

(2) Maintain awareness of changes in market conditions, sources of supply, and other pertinent factors that may warrant making new arrangements with different suppliers or modifying existing arrangements.

(c) If an office other than the purchasing office that established a BPA is authorized to make purchases under that BPA, the agency that has jurisdiction over the office authorized to make the purchases shall ensure that the procedures in paragraph (a) above are being followed.

[48 FR 42163, Sept. 19, 1983, as amended at 53 FR 43390, Oct. 26, 1988]

13.206 Completion of Blanket Purchase Agreements.

An individual BPA is considered complete when the purchases under it equal its total dollar limitation, if any, or when its stated time period expires.

Subpart 13.3—Fast Payment Procedure

13.301 General.

The fast payment procedure allows payment under limited conditions to a contractor prior to the Government's verification that supplies have been received and accepted. The procedure provides for payment for supplies based on the contractor's submission of an invoice that constitutes a representation that—

(a) The supplies have been delivered to a post office, common carrier, or point of first receipt by the Government; and

(b) The contractor agrees to replace, repair, or correct supplies not received at destination, damaged in transit, or not conforming to purchase agreements.

[48 FR 42163, Sept. 19, 1983, as amended at 53 FR 27463, July 20, 1988]

13.302 Conditions for use.

If the conditions in paragraphs (a) through (f) of this section are present, the fast payment procedure may be used, provided that use of the procedure is consistent with the other conditions of the purchase. The conditions for use of the fast payment procedure are as follows:

(a) Individual orders do not exceed $25,000 except that executive agencies may permit higher dollar limitations for specified activities or items on a case-by-case basis.

(b) Deliveries of supplies are to occur at locations where there is both a geographical separation and a lack of adequate communications facilities between Government receiving and disbursing activities that will make it impractical to make timely payment based on evidence of Government acceptance. Use of the fast payment pro-

Reproduced from poor document.

best copy available

cedure would not be indicated, for example, for small purchases by an activity if material being purchased is destined for use at that activity and contract administration will be performed by the purchasing office at that activity.

(c) Title to the supplies will vest in the Government (1) upon delivery to a post office or common carrier for mailing or shipment to destination, or (2) upon receipt by the Government if the shipment is by means other than Postal Service or common carrier.

(d) The supplier agrees to replace, repair, or correct supplies not received at destination, damaged in transit, or not conforming to purchase requirements.

(e) The purchasing instrument is a firm-fixed-price contract, a purchase order, or a delivery order for supplies.

(f) A system is in place to ensure: (1) documenting evidence of contractor performance under fast payment acquisitions, (2) timely feedback to the contracting officer in case of contractor deficiencies, and (3) identification of suppliers who have a current history of abusing the fast payment procedure. (Also see subpart 9.1.)

[48 FR 42163, Sept. 19, 1983, as amended at 53 FR 27463, July 20, 1988]

13.303 Preparation and execution of orders.

(a) Orders incorporating the fast payment procedure shall be issued on Optional Form 347, Order for Supplies or Services, or other agency authorized purchase order form (but see 13.204(e) for purchases under BPA's). Orders may be either priced or unpriced.

(b) Contracts, purchase orders, or BPA's using the fast payment procedure shall include the following:

(1) A requirement that the supplies be shipped transportation or postage prepaid.

(2) A requirement that invoices be submitted directly to the finance or other office designated in the order, or in the case of unpriced purchase orders, to the contracting officer (see 13.502(c)).

(3) The following statement on consignee's copy: *Consignee's Notification to Purchasing Activity of Nonreceipt, Damage, or Nonconformance.* The consignee shall notify the purchasing office promptly after the specified date of delivery of supplies not received, damaged in transit, or not conforming to specifications of the purchase order. Unless extenuating circumstances exist, the notification should be made not later than 60 days after the specified date of delivery.

(4) A requirement that the contractor mark outer shipping containers "FAST PAY".

13.304 Responsibility for collection of debts.

The contracting officer shall be primarily responsible for collecting debts resulting from failure of contractors to properly replace, repair, or correct supplies lost, damaged, or not conforming to purchase requirements (see 32.605(b) and 32.606).

13.305 Contract clause.

The contracting officer shall insert the clause at 52.213-1, Fast Payment Procedure, in solicitations and contracts when the conditions in 13.302 are applicable and it is intended that the fast payment procedure be used in the contract (in the case of BPA's, the contracting officer may elect to insert the clause either in the BPA or in orders under the BPA).

Subpart 13.4—Imprest Fund

13.401 Definition.

Imprest fund, as used in this subpart, means a cash fund of a fixed amount established by an advance of funds, without charge to an appropriation, from an agency finance or disbursing officer to a duly appointed cashier, for disbursement as needed from time to time in making payment in cash for relatively small purchases.

13.402 General.

This subpart prescribes policies and procedures for using imprest funds to make small purchases of supplies or services. Related policies and regulations concerning the establishment of and accounting for imprest funds, including the responsibilities of designated cashiers and alternates, are contained in part IV of the Treasury Financial Manual for Guidance of Departments and Agencies, Title 7 of the General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies, and the agency implementing regulations. Agencies shall also be guided by the Manual of Procedures and Instructions for Cashiers, issued by the Financial Management Service, Department of the Treasury.

[48 FR 42163, Sept. 19, 1983, as amended at 52 FR 19803, May 27, 1987]

13.403 Agency responsibilities.

Each agency using imprest funds shall—

(a) Periodically review and determine whether there is continuing need for each fund established, and that amounts of those funds are not in excess of actual needs;

(b) Take prompt action to have imprest funds adjusted to a level commensurate with demonstrated needs whenever circumstances warrant such action; and

(c) Develop and issue appropriate implementing regulations. These regulations shall include (but are not limited to) procedures covering—

(1) Designation of personnel authorized to make purchases using imprest funds; and

(2) Documentation of purchases using imprest funds, including documentation of (i) receipt and acceptance of supplies and services by the Government, (ii) receipt of cash payments by the suppliers, and (iii) cash advances and reimbursements.

13.404 Conditions for use.

Imprest funds may be used for small purchases when—

(a) The transaction does not exceed $500 or such other limits as have been approved by the agency head;

(b) The use of imprest funds is considered to be advantageous to the Government; and

(c) The use of imprest funds for the transaction otherwise complies with any additional conditions established by agencies and with the policies and regulations referenced in 13.402.

[48 FR 42129, Sept. 19, 1983, as amended at 51 FR 19715, May 30, 1986]

13.405 Procedures.

(a) Each purchase using imprest funds shall be based upon an authorized purchase requisition.

(b) Normally, orders to suppliers should be placed orally and without soliciting competition if prices are considered reasonable.

(c) Purchases shall be distributed equitably among qualified suppliers (see 13.105).

(d) Prompt payment discounts shall be solicited.

(e) Any agency-authorized purchase order form or Standard Form 1165, Receipt for Cash-Subvoucher, may be used if a written order is considered necessary; e.g., if required by the supplier for discount, tax exemption, or other reasons. If a purchase order is used for this purpose, it shall be endorsed "Payment to be made from Imprest Fund."

(f) The individual authorized to make purchases using imprest funds shall—

(1) Furnish to the imprest fund cashier a copy of the purchase requisition annotated to reflect (i) that an imprest fund purchase has been made, (ii) the unit prices and extensions, (iii) the supplier's name and address, and (iv) the date of anticipated delivery; and

(2) Require the supplier to include with delivery of the supplies an invoice, packing slip, or other sales instrument giving (i) the supplier's name and address, (ii) list and quantity of items, (iii) unit prices and extensions, and (iv) cash discount, if any.

Subpart 13.5—Purchase Orders

13.501 General.

(a) Except as provided under the unpriced purchase order method (see 13.502), purchase orders (1) shall be issued on a fixed-price basis, and (2) shall not contain economic price adjustment or redetermination clauses.

(b) Purchase orders shall include any trade and prompt payment discounts that are offered, consistent with the applicable principles in 14.407-3.

(c) Purchase orders shall specify the quantity of supplies or services ordered (but see subpart 12.4).

(d) Inspections under small purchases shall be as prescribed in part 46. Orders generally shall provide that inspection and acceptance will be at destination and source inspection should be specified only if required by part 46. If inspection and acceptance are to be performed at destination, advance copies of the purchase order shall be furnished to consignee(s) for material receipt purposes. Receiving reports shall be accomplished immediately upon receipt and acceptance of material.

(e) F.o.b. destination shall be specified for supplies to be delivered within the United States, except Alaska and Hawaii, unless there are valid reasons to the contrary.

(f) Each purchase order shall contain a determinable date by which delivery of supplies or performance of services is required.

(g) The contracting officer's signature on purchase orders shall be in accordance with 4.101. Facsimile signature may be used in the production of purchase orders by automated methods.

(h) Distribution of copies of purchase orders and related forms shall be limited to those copies required for essential administration and transmission of contractual information.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 23606, June 4, 1985; 53 FR 17857, May 18, 1988]

13.502 Unpriced purchase orders.

(a) An unpriced purchase order is an order for supplies or services, the price of which is not established at the time of issuance of the order.

(b) An unpriced purchase order may be used only when—

(1) It is anticipated that the transaction will not exceed the small purchase limit;

(2) It is impractical to obtain pricing in advance of issuance of the purchase order; and

(3) The purchase is for—

(i) Repairs to equipment requiring disassembly to determine the nature and extent of repairs;

(ii) Material available from only one source and for which cost cannot be readily established; or

(iii) Supplies or services for which prices are known to be competitive but exact prices are not known (e.g., miscellaneous repair parts, maintenance agreements).

(c) Unpriced purchase orders may be issued by using written purchase orders or written telecommunications (see 13.506). A realistic monetary limitation, either for each line item or for the total order, shall be placed on each unpriced purchase order (see 13.507(d)). The monetary limitation shall be an obligation subject to adjustment when the firm price is established. The contracting office shall follow-up each order to ensure timely pricing. The contracting officer or the contracting officer's designated representative shall review the invoice price and, if reasonable (see 13.106(c)), process the invoice for payment.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

13.503 Obtaining contractor acceptance and modifying purchase orders.

(a) When it is desired to consummate a binding contract between the parties before the contractor undertakes performance, the contracting officer shall require written acceptance of the purchase order by the contractor.

(b) A purchase order may be modified by use of (1) Standard Form 30, Amendment of Solicitation/Modification of Contract; (2) an agency-designed form or an agency-approved automated format; or (3) if not prohibited by agency regulations, a purchase order form.

(c) Each purchase order modification shall identify the order it modifies and shall contain an appropriate modification number.

(d) Contracting officers need not obtain a contractor's written acceptance of a purchase order modification, unless the written acceptance is—

(1) Determined by the contracting officer to be necessary to ensure the contractor's compliance with the purchase order as revised; or

(2) Required by agency regulations.

13.504 Termination or cancellation of purchase orders.

(a) If a purchase order that has been accepted in writing by the contractor is to be terminated, the contracting officer shall process the termination action as prescribed by part 49.

(b) If a purchase order that has not been accepted in writing by the contractor is to be cancelled, the contracting officer shall notify the contractor in writing that the purchase order has been cancelled, request the contractor's written acceptance of the cancellation, and proceed as follows:

(1) If the contractor accepts the cancellation and does not claim that costs were incurred as a result of beginning performance under the purchase order, no further action is required; i.e., the purchase order shall be considered cancelled.

(2) If the contractor does not accept the cancellation or claims that costs were incurred as a result of beginning performance under the purchase order, the contracting officer shall process the termination action as prescribed by part 49.

13.505 Purchase order and related forms.

13.505-1 Optional Form (OF) 347, Order for Supplies or Services, and Optional Form 348, Order for Supplies or Services Schedule-Continuation.

(a) *General.* (1) Optional Form 347 (illustrated in 53.302-347) and Optional Form 348 (illustrated in 53.302-348) are multipurpose forms designed for the following uses:

(i) Negotiated purchases of supplies or services not in excess of the small purchase limit.

(ii) A delivery order for ordering or scheduling deliveries against established contracts or from Government sources of supply.

(iii) A receiving and inspection report.

(iv) An invoice.

(2) Optional Forms 347 and 348, may be used when the agency concerned considers it economical and efficient to do so (also see 13.505-2).

(b) *Clauses.* (1) Clauses generally suitable for most small purchases are incorporated by reference on the reverse of Optional Form 347, (but see 13.507).

(2) Agencies may add (i) other clauses prescribed by the FAR, as appropriate, and (ii) agency clauses, if they do not conflict with clauses prescribed by the FAR and are designated as agency clauses.

13.505-2 Agency order forms in lieu of Optional Forms 347 and 348.

(a) Order forms used in lieu of Optional Forms 347 and 348 shall conform insofar as practicable with the forms illustrated in 53.302-347 and 53.302-348.

(b) Agencies using agency order forms in lieu of Optional Form 347 may print on those forms the clauses they consider to be generally suitable for most of their small purchases. The clauses, however, (1) should include the clauses incorporated by reference on the reverse of Optional Form 347, (2) may include clauses not listed on the reverse of Optional Form 347 that are prescribed by the FAR, and (3) may include agency clauses, if they do not conflict with clauses prescribed by the FAR and are designated as agency clauses (see 13.507).

13.505-3 Standard Form 44, Purchase Order-Invoice-Voucher.

(a) Standard Form 44, Purchase Order-Invoice-Voucher (illustrated in 53.301-44) is a pocket-size purchase order form designed primarily for on-the-spot, over-the-counter purchases of supplies and nonpersonal services while away from the purchasing office or at isolated activities. It is a multipurpose form that can be used as a purchase order, receiving report, invoice, and public voucher.

(b) Standard Form 44 may be used if all of the following conditions are satisfied:

(1) Except for purchases made under unusual and compelling urgency, the amount of the purchase is not over $2,500. Agencies may establish higher dollar limitations for specific activities or items.

(2) The supplies or services are immediately available.

(3) One delivery and one payment will be made.

(4) Its use is determined to be more economical and efficient than use of other small purchase methods.

(c) General procedural instructions governing the use of Standard Form 44 are printed on the form and on the inside front cover of each book of forms.

(d) Agencies shall provide adequate safeguards regarding the control of forms and accounting for purchases.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

13.506 Purchase orders via written telecommunications.

(a) A written telecommunicated purchase order is an order for supplies or services that is electrically transmitted to a supplier and is not signed by the contracting officer.

(b) A written telecommunicated purchase order may be used only when all of the following conditions are present:

(1) Its use is more advantageous to the Government than any other small purchase technique.

(2) An unsigned transmitted order is acceptable to the supplier.

(3) The order is approved by the contracting officer before its transmission.

(4) The order does not require written acceptance by the supplier.

(5) The purchasing office retains all contract administration functions.

(c) When a written telecommunicated purchase order is used—

(1) Clauses appropriate to the purchase order shall be incorporated by reference in the transmitted order;

(2) Administrative information that is not needed by the supplier should not be transmitted but should be placed only on copies intended for internal distribution;

(3) The same distribution shall be made of the transmitted order as is made of written purchase orders; and

(4) No purchase order form shall be issued.

(d) A written telecommunicated purchase order may be unpriced if it meets the conditions in 13.502.

13.507 Clauses.

(a) Except as provided in paragraph (b) below, each purchase order (and each purchase order modification (see 13.503)) shall incorporate all clauses required for or applicable to the particular acquisition. The clauses listed on Optional Form 347, are not necessarily all that are required.

(b) Since there is, for all practical purposes, simultaneous placing of purchase orders on Standard Form 44 and delivery of the items ordered, clauses are not required for purchases using this form.

(c) The contracting officer shall insert the clause at 52.213-2, Invoices, in purchase orders that authorize advance payments (see 31 U.S.C. 3324 (d)(2)) for subscriptions or other charges for newspapers, magazines, periodicals, or other publications (i.e., any publication printed, microfilmed, photocopied, or magnetically or otherwise recorded for auditory or visual usage).

(d) The contracting officer shall insert the clause at 52.213-3, Notice to Supplier, in unpriced purchase orders.

[48 FR 42163, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986]

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42171, Sept. 19, 1983, unless otherwise noted.

14.000 Scope of part.

This part prescribes (a) the basic requirements of contracting for supplies and services (including construction) by sealed bidding, (b) the information to be included in the solicitation (invitation for bids), (c) procedures concerning the submission of bids, (d) requirements for opening and evaluating bids and awarding contracts, and (e) procedures for two-step sealed bidding.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

Subpart 14.1—Use of Sealed Bidding

14.101 Elements of sealed bidding.

Sealed bidding is a method of contracting that employs competitive bids, public opening of bids, and awards. The following steps are involved:

(a) *Preparation of invitations for bids.* Invitations must describe the requirements of the Government clearly, accurately, and completely. Unnecessarily restrictive specifications or requirements that might unduly limit the number of bidders are prohibited. The invitation includes all documents (whether attached or incorporated by reference) furnished prospective bidders for the purpose of bidding.

(b) *Publicizing the invitation for bids.* Invitations must be publicized through distribution to prospective bidders, posting in public places, and such other means as may be appropriate. Publicizing must occur a sufficient time before public opening of bids to enable prospective bidders to prepare and submit bids.

(c) *Submission of bids.* Bidders must submit sealed bids to be opened at the time and place stated in the solicitation for the public opening of bids.

(d) *Evaluction of bids.* Bids shall be evaluated without discussions.

(e) *Contract award.* After bids are publicly opened, an award will be made with reasonable promptness to that responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Government, considering only price and the price-related factors included in the invitation.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.102 [Reserved]

14.103 Policy.

14.103-1 General.

(a) Sealed bidding shall be used whenever the conditions in 6.401(a) are met. This requirement applies to any proposed contract action under part 6.

(b) Current lists of bidders shall be maintained in accordance with 14.205.

(c) Sealed bidding may be used for classified acquisitions (see 4.401) if its use does not violate agency security requirements.

(d) The policy for pricing modifications of sealed bid contracts appears in 15.804-2.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.103-2 Limitations.

No awards shall be made as a result of sealed bidding unless—

(a) Bids have been solicited as required by subpart 14.2;

(b) Bids have been submitted as required by subpart 14.3;

(c) The requirements of 1.602-1(b) and part 6 have been met; and

(d) An award is made to the responsible bidder (see 9.1) whose bid is responsive to the terms of the invitation for bids and is most advantageous to the Government, considering only price and the price-related factors included in the invitation, as provided in subpart 14.4.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.104 Types of contracts.

Firm-fixed-price contracts shall be used when the method of contracting is sealed bidding, except that fixed-price contracts with economic price adjustment clauses may be used if authorized in accordance with 16.203 when some flexibility is necessary and feasible. Such clauses must afford all bidders an equal opportunity to bid.

[48 FR 42171, Sept 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.105 Solicitations for informational or planning purposes.

See 15.405.

Subpart 14.2—Solicitation of Bids

14.201 Preparation of invitations for bids.

14.201-1 Uniform contract format.

(a) Contracting officers shall prepare invitations for bids and contracts using the uniform contract format outlined in Table 14-1 to the maximum practicable extent. The use of the format facilitates preparation of the solicitation and contract as well as reference to, and use of, those documents by bidders and contractors. It need not be used for acquisition of the following:

(1) Construction (see part 36).

(2) Shipbuilding (including design, construction, and conversion), ship overhaul, and ship repair.

(3) Subsistence items.

(4) Supplies or services requiring special contract forms prescribed elsewhere in this regulation that are inconsistent with the uniform contract format.

(5) Firm-fixed-price or fixed-price with economic price adjustment acquisitions that use the simplified contract format (see 14.201-9).

(b) Information suitable for inclusion in invitations for bids under the uniform contract format shall also be included in invitations for bids not subject to that format if applicable.

(c) Solicitations to which the uniform contract format applies shall include Parts I, II, III, and IV. If any section of the uniform contract format does not apply, the contracting officer should so mark that section in the solicitation. Upon award, the contracting officer shall not physically include Part IV in the resulting contract, but shall retain it in the contract file. Award by acceptance of a bid on the award portion of Standard Form 33, Solicitation Offer and Award (SF 33), Standard Form 26, Award/Contract (SF 26), or Standard Form 1447, Solicitation/Contract (SF 1447), incorporates Section K, Representations, certifications, and other statements of bidders, in the resultant contract even though not physically attached.

TABLE 14-1

Uniform Contract Format

Section	Title
	Part I—The Schedule
A	Solicitation/contract form
B	Supplies or services and prices
C	Description/specifications
D	Packaging and marking
E	Inspection and acceptance
F	Deliveries or performance
G	Contract administration data
H	Special contract requirements
	Part II—Contract Clauses
I	Contract clauses
	Part III—List of Documents, Exhibits, and Other Attachments
J	List of documents, exhibits, and other attachments
	Part IV—Representations and instructions
K	Representations, certifications, and other statements of bidders
L	Instructions, conditions, and notices to bidders
M	Evaluation factors for award

[48 FR 42171, Sept. 19, 1983, as amended at 54 FR 48982, Nov. 28, 1989]

14.201-2 Part I—The Schedule.

The contracting officer shall prepare the Schedule as follows:

(a) *Section A, Solicitation/contract form.* (1) Prepare the invitation for bids on SF 33, or the SF 1447, unless otherwise permitted by this regulation. The SF 33 is the first page of the solicitation and includes Section A of the uniform contract format. When the SF 1447 is used as the solicitation document, the information in subdivisions (a)(2)(i) and (a)(2)(iv) of this subsection shall be inserted in block 9 of the SF 1447.

(2) When the SF 33 or SF 1447 is not used, include the following on the first page of the invitation for bids:

(i) Name, address, and location of issuing activity, including room and building where bids must be submitted.

(ii) Invitation for bids number.

(iii) Date of issuance.

(iv) Time specified for receipt of bids.

(v) Number of pages.

(vi) Requisition or other purchase authority.

(vii) Requirement for bidder to provide its name and complete address, including street, city, county, State, and ZIP code.

(viii) A statement that bidders should include in the bid the address to which payment should be mailed, if that address is different from that of the bidder.

(b) *Section B, Supplies or services and prices.* Include a brief description of the supplies or services; e.g., item number, national stock number/part number if applicable, title or name identifying the supplies or services, and quantities (see part 10, Specifications, Standards, and Other Product Descriptions). The SF 33 and SF 1447 may be supplemented as necessary by the Optional Form 336 (OF 336), Continuation Sheet (53.302-336).

(c) *Section C, Description/specifications.* Include any description or specifications needed in addition to Section B to permit full and open competition (see part 10, Specifications, Standards, and Other Product Descriptions).

(d) *Section D, Packaging and marking.* Provide packaging, packing, preservation, and marking requirements, if any (see 10.004(e)).

(e) *Section E, Inspection and acceptance.* Include inspection, acceptance, quality assurance, and reliability requirements (see part 46, Quality Assurance).

(f) *Section F, Deliveries or performance.* Specify the requirements for time, place, and method of delivery or performance (see part 12, Contract Delivery or Performance).

(g) *Section G, Contract administration data.* Include any required accounting and appropriation data and any required contract administration information or instructions other than those on the solicitation form.

(h) *Section H, Special contract requirements.* Include a clear statement of any special contract requirements that are not included in Section I, Contract clauses, or in other sections of the uniform contract format.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 27119, July 29, 1986; 54 FR 48982, Nov. 28, 1989; 55 FR 38516, Sept. 18, 1990]

14.201-3 Part II—Contract clauses.

Section I, Contract clauses. The contracting officer shall include in this section the clauses required by law or by this regulation and any additional clauses expected to apply to any resulting contract, if these clauses are not required to be included in any other section of the uniform contract format.

[48 FR 42171, Sept. 19, 1983, as amended at 53 FR 17857, May 18, 1988]

14.201-4 Part III—Documents, exhibits, and other attachments.

Section J, List of documents, exhibits, and other attachments. The contracting officer shall list the title, date, and number of pages for each attached document.

14.201-5 Part IV—Representations and instructions.

The contracting officer shall prepare the representations and instructions as follows:

(a) *Section K, Representations, certifications, and other statements of bidders.* Include in this section those solicitation provisions that require representations, certifications, or the submission of other information by bidders.

(b) *Section L, Instructions, conditions, and notices to bidders.* Insert in this section solicitation provisions and other information and instructions not required elsewhere to guide bidders. Invitations shall include the time and place for bid openings, and shall advise bidders that bids will be evaluated without discussions (see 52.214-10 and for construction contracts, 52.214-19).

(c) *Section M, Evaluation factors for award.* Identify the price-related factors other than the bid price that will be considered in evaluating bids and awarding the contract. (See 14.201-8.)

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 17857, May 18, 1988]

14.201-6 Solicitation provisions.

(a) The provisions prescribed in this subsection are limited to subjects that are general in nature, do not come under other subject areas of the FAR, and pertain to the preparation and submission of bids.

(b) The contracting officer shall insert in all invitations for bids the provisions at—

(1) 52.214-1, Solicitation Definitions—Sealed Bidding;

(2) 52.214-2, Type of Business Organization—Sealed Bidding;

(3) 52.214-3, Amendments to Invitations for Bids; and

(4) 52.214-4, False Statements in Bids.

(c) The contracting officer shall insert the following provisions in invitations for bids:

(1) 52.214-5, Submission of Bids.

(2) 52.214-6, Explanation to Prospective Bidders.

(3) 52.214-7, Late Submissions, Modifications, and Withdrawals of Bids, for solicitations issued in the United States and Canada for submission of bids to a contracting office in the United States or Canada.

(4) 52.214-32, Late Submissions, Modifications, and Withdrawals of Bids (Overseas), for solicitations under which bids are to be submitted to a contracting office outside the United States or Canada.

(d) [Reserved]

(e) The contracting officer shall insert in invitations for bids, except those for construction, the provisions at—

(1) 52.214-9, Failure to Submit Bid; and

(2) 52.214-10, Contract Award—Sealed Bidding.

(f) The contracting officer shall insert in invitations for bids to which the uniform contract format applies, the provision at 52.214-12, Preparation of Bids.

(g)(1) The contracting officer shall insert the provision at 52.214-13, Telegraphic Bids, in invitations for bids if the contracting officer decides to authorize telegraphic bids.

(2) The contracting officer shall insert the basic provision with its Alternate I in invitations for bids that are for perishable subsistence, and when the contracting officer considers that offerors will be unwilling to provide acceptance periods long enough to allow written confirmation.

(h) The contracting officer shall insert the provision at 52.214-14, Place of Performance—Sealed Bidding, in invitations for bids except those in which the place of performance is specified by the Government.

(i) The contracting officer shall insert the provision at 52.214-15, Period for Acceptance of Bids, in invitations for bids (IFB's) that are not issued on SF 33 or SF 1447 except IFB's (1) for construction work or (2) in which the Government specifies a minimum acceptance period.

(j) The contracting officer shall insert the provision at 52.214-16, Minimum Bid Acceptance Period, in invitations for bids, except for construction, if the contracting officer determines that a minimum acceptance period must be specified.

(k) The contracting officer shall insert the provision at 52.214-17, Affiliated Bidders, in invitations for bids if the contracting officer determines that disclosure of affiliated bidders is necessary to prevent practices prejudicial to full and open competition, such as improper multiple bidding.

(l) The contracting officer shall insert the provision at 52.214-18, Preparation of Bids—Construction, in invitations for bids for construction work.

(m) The contracting officer shall insert the provision at 52.214-19, Contract Award—Sealed Bidding—Construction, in all invitations for bids for construction work.

(n) Use of the provision at 52.215-4, Notice of Possible Standardization, may be appropriate in invitations for bids involving supplies that are likely to become standardized. See 15.407(b) regarding use of this provision in sealed bidding.

(o) (1) The contracting officer shall insert the provision at 52.214-20, Bid Samples, in invitations for bids if bid samples are required.

(2) If it appears that the conditions in 14.202-4(f)(1) will apply and the contracting officer anticipates granting waivers thereunder and—

(i) If the nature of the required product *does not* necessitate limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, the contracting officer shall use the provision with its Alternate I; or

(ii) If the nature of the required product necessitates limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, the contracting officer shall use the provision with its Alternate II.

(3) See 14.202-4(f)(2) regarding waiving the requirement for all bidders.

(p) (1) The contracting officer shall insert the provision at 52.214-21, Descriptive Literature, in invitations for bids if (i) descriptive literature is required to evaluate the technical acceptability of an offered product and (ii) the required information will not be readily available unless it is submitted by bidders.

(2) Use the basic clause with its Alternate I if the possibility exists that the contracting officer may waive the requirement for furnishing descriptive literature for a bidder offering a previously supplied product that meets specification requirements of the current solicitation.

(3) See 14.202-5(e)(2) regarding waiving the requirement for all bidders.

(q) The contracting officer shall insert the provision at 52.214-22, Evaluation of Bids for Multiple Awards, in invitations for bids if the contracting officer determines that multiple awards might be made if doing so is economically advantageous to the Government.

(r) The contracting officer shall insert the provision at 52.214-23, Late Submissions, Modifications, and Withdrawals of Technical Proposals under Two-Step Sealed Bidding, in solicitations for technical proposals in step one of two-step sealed bidding issued in the United States and Canada for submission of technical proposals to a contracting office in the United States or Canada.

(s) The contracting officer shall insert the provision at 52.214-24, Multiple Technical Proposals, in solicitations for technical proposals in step one of two-step sealed bidding if the contracting officer permits the submission of multiple technical proposals.

(t) The contracting officer shall insert the provision at 52.214-25, Step Two of Two-Step Sealed Bidding, in invitations for bids issued under step two of two-step sealed bidding.

(u) The contracting officer shall insert the provision at 52.214-30, Annual Representations and Certifications-Sealed Bidding, in invitations for bids if annual representations and certifications are used (see 14.213).

(v) The contracting officer shall insert the provision at 52.214-33, Late Submissions, Modifications, and Withdrawals of Technical Proposals under Two-Step Sealed Bidding (Overseas), in solicitations for technical proposals in step one of two-step sealed bidding under which technical proposals are to be submitted to a contracting office outside the United States or Canada.

(w) The contracting officer shall insert the provision at 52.214-31, Facsimile Bids, in solicitations if facsimile bids are authorized (see 14.202-7).

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1737, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2649, Jan. 17, 1986; 53 FR 43390, Oct. 26, 1988; 54 FR 5054, Jan. 31, 1989; 54 FR 48982, Nov. 28, 1989; 55 FR 25527, June 21, 1990]

14.201-7 Contract clauses.

(a) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-26, Audit—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed $100,000.

(b)(1) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-27, Price Reduction for Defective Cost or Pricing Data—Modifications—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed $100,000.

(2) In exceptional cases, the head of the contracting activity may waive the requirement for inclusion of the clause in a contract with a foreign government or agency of that government. The authorizations for the waiver and the reasons for granting it shall be in writing.

(c)(1) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-28, Subcontractor Cost or Pricing Data—Modifications—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed $100,000.

(2) In exceptional cases, the head of the contracting activity may waive the requirement for inclusion of the clause in a contract with a foreign government or agency of that government. The authorizations for the waiver and

the reasons for granting it shall be in writing.

(d) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-29, Order of Precedence—Sealed Bidding, in solicitations and contracts to which the uniform contract format applies.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2649, Jan. 17, 1986]

14.201-8 Price-related factors.

The factors set forth in paragraphs (a) through (e) below may be applicable in evaluation of bids for award and shall be included in the solicitation when applicable. (See 14.201-5(c).)

(a) Foreseeable costs or delays to the Government resulting from such factors as differences in inspection, locations of supplies, and transportation. If bids are on an f.o.b. origin basis (see 47.303 and 47.305), transportation costs to the designated points shall be considered in determining the lowest cost to the Government.

(b) Changes made, or requested by the bidder, in any of the provisions of the invitation for bids, if the change does not constitute a ground for rejection under 14.404.

(c) Advantages or disadvantages to the Government that might result from making more than one award (see 14.201-6(q)). The contracting officer shall assume, for the purpose of making multiple awards, that $500 would be the administrative cost to the Government for issuing and administering each contract awarded under a solicitation. Individual awards shall be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

(d) Federal, State, and local taxes (see part 29).

(e) Origin of supplies, and, if foreign, the application of the Buy American Act or any other prohibition on foreign purchases (see part 25).

[50 FR 1738, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985; 55 FR 25527, June 21, 1990]

14.201-9 Simplified contract format.

Policy. For firm-fixed-price or fixed-price with economic price adjustment acquisitions of supplies and services, the contracting officer may use the simplified contract format in lieu of the uniform contract format (see 14.201-1). The contracting officer has flexibility in preparation and organization of the simplified contract format. However, the following format should be used to the maximum practical extent:

(a) *Solicitation/contract form.* Standard Form (SF) 1447, Solicitation/Contract, shall be used as the first page of the solicitation.

(b) *Contract schedule.* Include the following for each contract line item:

(1) Contract line item number.

(2) Description of supplies or services, or data sufficient to identify the requirement.

(3) Quantity and unit of issue.

(4) Unit price and amount.

(5) Packaging and marking requirements.

(6) Inspection and acceptance, quality assurance, and reliability requirements.

(7) Place of delivery, performance and delivery dates, period of performance, and F.o.b. point.

(8) Other item-peculiar information as necessary (e.g., individual fund citations).

(c) *Clauses.* Include the clauses required by this regulation. Additional clauses shall be incorporated only when considered absolutely necessary to the particular acquisition.

(d) *List of documents and attachments.* Include if necessary.

(e) *Representations and instructions*—(1) *Representations and certifications.* Insert those solicitation provisions that require representations, certifications, or the submission of other information by offerors.

(2) *Instructions, conditions, and notices.* Include the solicitation provisions required by 14.201-6. Include any other information/instructions necessary to guide offerors.

(3) *Evaluation factors for award.* Insert all necessary evaluation factors for award.

(4) Upon award, the contracting officer need not physically include the provisions in subparagraphs (e)(1), (2), and (3) of this subsection in the resulting contract, but shall retain them in the contract file. Award by acceptance of a bid on the award portion of SF 1447 incorporates the representations, certifications, and other statements of bidders in the resultant contract even though not physically attached.

[54 FR 48983, Nov. 28, 1989]

14.202 General rules for solicitation of bids.

14.202-1 Bidding time.

(a) *Policy.* A reasonable time for prospective bidders to prepare and submit bids shall be allowed in all invitations, consistent with the needs of the Government. (For construction contracts, see 36.303(a).) A bidding time (i.e., the time between issuance of the solicitation and opening of bids) of at least 30 calendar days shall be provided when synopsis is required by subpart 5.2.

(b) *Factors to be considered.* Because of unduly limited bidding time, some potential sources may be precluded from bidding and others may be forced to include amounts for contingencies that, with additional time, could be eliminated. To avoid unduly restricting competition or paying higher-than-necessary prices, consideration shall be given to such factors as the following in establishing a reasonable bidding time: (1) degree of urgency; (2) complexity of requirement; (3) anticipated extent of subcontracting; (4) whether use was made of presolicitation notices; (5) geographic distribution of bidders; and (6) normal mailing time for both invitations and bids.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.202-2 Telegraphic bids.

(a) Telegraphic bids and mailgrams shall be authorized only when—

(1) The date for the opening of bids will not allow bidders sufficient time to submit bids on the prescribed forms; or

(2) Prices are subject to frequent changes.

(b) If telegraphic bids are to be authorized, see 14.201-6(g). Unauthorized telegraphic bids shall not be considered (see 14.301(b)).

14.202-3 Bid envelopes.

(a) Postage or envelopes bearing *Postage and Fees Paid* indicia shall not be distributed with the invitation for bids or otherwise supplied to prospective bidders.

(b) To provide for ready identification and proper handling of bids, Optional Form 17, Sealed Bid Label, may be furnished with each bid set. The form may be obtained from the General Services Administration (see 53.107).

14.202-4 Bid samples.

(a) *Definition. Bid sample* means a sample to be furnished by a bidder to show the characteristics of the product offered in a bid.

(b) *Policy.* (1) Bidders shall not be required to furnish bid samples unless there are characteristics of the product that cannot be described adequately in the specification or purchase description.

(2) Bid samples will be used only to determine the responsiveness of the bid and will not be used to determine a bidder's ability to produce the required items.

(3) Bid samples may be examined for any required characteristic, whether or not such characteristic is adequately described in the specification, if listed in accordance with subdivision (e)(1)(ii) below.

(4) Bids will be rejected as nonresponsive if the sample fails to conform to each of the characteristics listed in the invitation.

(c) *When to use.* The use of bid samples would be appropriate for products that must be suitable from the standpoint of balance, facility of use, general "feel," color, pattern, or other characteristics that cannot be described adequately in the specification. However, when more than a minor portion of the characteristics of the product cannot be adequately described in the specification, products should be acquired by two-step sealed bidding or negotiation, as appropriate.

(d) *Justification.* The reasons why acceptable products cannot be acquired without the submission of bid samples shall be set forth in the contract file, except where the submission is required by the formal specifications (Federal, Military, or other) applicable to the acquisition.

(e) *Requirements for samples in invitations for bids.* (1) Invitations for bids shall—

(i) State the number and, if appropriate, the size of the samples to be submitted and otherwise fully describe the samples required; and

(ii) List all the characteristics for which the samples will be examined.

(2) If bid samples are required, see 14.201-6(o).

(f) *Waiver of requirement for bid samples.* (1) The requirement for furnishing bid samples may be waived when a bidder offers a product previously or currently being contracted for or tested by the Government and found to comply with specification requirements conforming in every material respect with those in the current invitation for bids. When the requirement may be waived, see 14.201-6(o)(2).

(2) Where samples required by a Federal, Military, or other formal specification are not considered necessary and a waiver of the sample requirements of the specification has been authorized, a statement shall be included in the invitation that notwithstanding the requirements of the specification, samples will not be required.

(g) *Unsolicited samples.* Bid samples furnished with a bid that are not required by the invitation generally will not be considered as qualifying the bid and will be disregarded. However, the bid sample will not be disregarded if it is clear from the bid or accompanying papers that the bidder's intention was to qualify the bid. (See 14.404-2(d) if the qualification does not conform to the solicitation.)

(h) *Handling of bid samples.* (1) Samples that are not destroyed in testing shall be returned to bidders at their request and expense, unless otherwise specified in the invitation.

(2) Disposition instructions shall be requested from bidders and samples disposed of accordingly.

(3) Samples ordinarily will be returned collect to the address from which received if disposition instructions are not received within 30 days. Small items may be returned by mail, postage prepaid.

(4) Samples that are to be retained for inspection purposes in connection with deliveries shall be transmitted to the inspecting activity concerned, with instructions to retain the sample until completion of the contract or until disposition instructions are furnished.

(5) Where samples are consumed or their usefulness is impaired by tests, they will be disposed of as scrap unless the bidder requests their return.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.202-5 Descriptive literature.

(a) *Definition. Descriptive literature* means information, such as cuts, illustrations, drawings, and brochures, which shows the characteristics or construction of a product or explains its operation. It is furnished by bidders as a part of their bids to describe the products offered. The term includes only information required to determine acceptability of the product. It excludes other information such as that furnished in connection with the qualifications of a bidder or for use in operating or maintaining equipment.

(b) *Policy.* Bidders shall not be required to furnish descriptive literature unless the contracting office needs it to determine before award whether the products offered meet the specification and to establish exactly what the bidder proposes to furnish.

(c) *Justification.* The reasons why product acceptability cannot be determined without the submission of descriptive literature shall be set forth in the contract file, except when such submission is required by formal specifications (Federal, Military, or other) applicable to the acquisition.

(d) *Requirements of invitation for bids.* (1) The invitation shall clearly state (i) what descriptive literature is to be furnished, (ii) the purpose for which it is required, (iii) the extent to which it will be considered in the evaluation of bids, and (iv) the rules that will apply if a bidder fails to furnish the literature before bid opening or if the literature furnished does not comply with the requirements of the invitation.

(2) If bidders are to furnish descriptive literature, see 14.201-6(p).

(e) *Waiver of requirements for descriptive literature.* (1) The requirement for furnishing descriptive literature may be waived if—

(i) The bidder states in the bid that the product being offered is the same as a product previously or currently being furnished to the contracting activity; and

(ii) The contracting officer determines that the product offered by the bidder complies with the specification requirements of the current invitation for bids. When the requirement may be waived, see 14.201-6(p)(2).

(2) When descriptive literature is not considered necessary and a waiver of literature requirements of a Federal, Military, or other formal specification has been authorized, a statement shall be included in the invitation that, notwithstanding the requirements of the specifications, descriptive literature will not be required.

(3) If the solicitation provides for a waiver, a bidder may submit a bid on the basis of either the descriptive literature to be furnished or a previously furnished product. If the bid is submitted on one basis, the bidder is precluded from having it considered on the other basis after bids are opened.

(f) *Unsolicited descriptive literature.* If descriptive literature is furnished when not required by the invitation for bids, the procedures set forth in 14.202-4(g) shall be followed.

14.202-6 Final review of invitations for bids.

Each invitation for bids shall be thoroughly reviewed before issuance to detect and correct discrepancies or ambiguities that could limit competition or result in the receipt of nonresponsive bids. Contracting officers are responsible for the reviews.

14.202-7 Facsimile bids.

(a) Unless prohibited or otherwise restricted by agency procedures, contracting officers may authorize facsimile bids (see 14.201-6(w)). In determining whether or not to authorize facsimile bids, the contracting officer shall consider factors such as—

(1) Anticipated bid size and volume;

(2) Urgency of the requirement;

(3) Frequency of price changes;

(4) Availability, reliability, speed, and capacity of the receiving facsimile equipment; and

(5) Adequacy of administrative procedures and controls for receiving, identifying, recording, and safeguarding facsimile bids, and ensuring their timely delivery to the bids opening location.

(b) If facsimile bids are authorized, contracting officers may, after the date set for bid opening, request the apparently successful offeror to provide the complete original signed bid.

[54 FR 48983, Nov. 28, 1989]

14.203 Methods of soliciting bids.

14.203-1 Mailing or delivery to prospective bidders.

Invitations for bids or presolicitation notices shall be mailed or delivered to prospective bidders as specified in 14.205, and shall be provided to others in accordance with 5.102. When a contracting office is located in the United States, any solicitation sent to a prospective bidder located at a foreign address shall be sent by international air mail if security classification permits.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.203-2 Dissemination of information concerning invitations for bids.

(a) Procedures concerning display of invitations for bids in a public place, information releases to newspapers and trade journals, paid advertisements, and synopsizing in the Commerce Business Daily are set forth in 5.101 and 5.2.

(b) For procedures that apply to publishing notices in the Commerce Business Daily to determine whether commercial sources are available, as prescribed by OMB Circular A-76, see 5.205(d) and 7.303(b).

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 48983, Nov. 28, 1989]

14.203-3 Master solicitation.

(a) *Definition. Master solicitation,* as used in this subsection, means a document containing special clauses and provisions that have been identified as essential for the acquisition of a specific type of supply or service that is acquired repetitvely.

(b) *Use.* The master solicitation is provided to potential sources who are requested to retain it for continued and repetitive use. Individual solicitations shall reference the date of the current master solicitation and any changes thereto. Copies of the master solicitation shall be made available on request. Cognizant contract administration activities shall be provided a current copy of the master solicitation.

[54 FR 29280, July 11, 1989]

14.204 Records of invitations for bids and records of bids.

(a) Each contracting office shall retain a record of each invitation that it issues and each abstract or record of bids. Contracting officers shall review and utilize the information available in connection with subsequent acquisitions of the same or similar items.

(b) The file for each invitation shall show the distribution that was made and the date the invitation was issued. The names and addresses of prospective bidders who requested the invitation and were not included on the original solicitation list shall be added to the list and made a part of the record.

14.205 Solicitation mailing lists.

14.205-1 Establishment of lists.

(a) Solicitation mailing lists shall be established by contracting activities to assure access to adequate sources of supplies and services. This rule need not be followed, however, when the requirements of the contracting office can be obtained within the local trade area through use of the small purchase procedures (see part 13), or are nonrecurring. Lists may be established as (1) a central list for use by all contracting offices within the contracting activity or (2) local lists maintained by each contracting office.

(b) All eligible and qualified concerns that have submitted solicitation mailing list applications, or that the contracting office considers capable of filling the requirements of a particular acquisition, shall be placed on the appropriate solicitation mailing list. See also 5.403(b). Planned producers under the Industrial Preparedness Planning Program shall be included on lists for their planned items. Prospective bidders shall be notified that they have been added to solicitation mailing lists in accordance with agency procedures. The issuance of a solicitation within a reasonable time may be considered appropriate notification. Applicants shall be notified if they do not meet the criteria for placement on the list.

(c) The names of prospective bidders who are furnished invitations in response to their requests shall be added to the list of those initially mailed copies of a particular solicitation, so that they will be furnished copies of any solicitation amendments, etc. However, when it is known that the request was made by a person or an organization that is known not to be a prospective bidder, no entry shall be made on the list.

(d) (1) Standard Form 129, Solicitation Mailing List Application, shall be used for obtaining information needed to establish and maintain lists. Supplemental information, where required, may be obtained as specified in agency implementing regulations.

(2) The application shall be submitted and signed by the supplier (the manufacturer or regular dealer), as distinguished from an agent of the supplier. However, suppliers are not precluded from designating, in the Standard Form 129, their agents to receive solicitations.

(3) In order to enable suppliers to indicate readily the items on which they will generally desire to submit bids, there shall be attached to Standard Form 129 forwarded to suppliers for completion, a list of items, or item groups, or an index to such listing of

the items, acquired by the contracting activity maintaining the list, which are considered applicable to the supplier's type of business.

(e) Business concerns listed on solicitation mailing lists shall be identified by size in accordance with 19.102. Size status should be established before listing a business concern on a list. Disadvantaged business concern designations shall be shown on the list whenever noted on the Standard Form 129 submitted by a particular concern.

14.205-2 Removal of names from solicitation mailing lists.

(a) The name of each concern failing to either (1) submit a bid, (2) respond to a presolicitation notice (see 14.205-4(c)), or (3) otherwise respond to an invitation for bids may be removed from the solicitation mailing list without notice to the concern. However, the removal shall be limited to the items involved in the invitation or notice. When a concern fails to respond to two consecutive invitations or presolicitation notices, its name shall be removed from the list to the extent indicated in this paragraph. However, in individual cases, concerns failing to respond may be retained on a list if retention is in the best interest of the Government. Both actual bids and written requests for retention on the lists shall be deemed to be *responses* to invitations for bids or presolicitation notices. If this procedure results in limited solicitation mailing lists, the contracting officer should request an explanation from the concerns that did not respond.

(b) Concerns that have been debarred from Government contracts or otherwise determined to be ineligible to receive an award shall be removed from solicitation mailing lists to the extent required by the debarment, suspension, or other determination of ineligibility.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.205-3 Reinstatement on solicitation mailing lists.

Concerns that have been removed from solicitation mailing lists may be reinstated (a) upon written request, (b) by filing a new application on Standard Form 129, or (c) by the submission of a bid. Debarred or suspended firms shall not be reinstated during the period of a debarment or suspension.

14.205-4 Excessively long solicitation mailing lists.

(a) *General.* Solicitation mailing lists should be used to promote competition commensurate with the dollar value of the proposed contract. As much of the solicitation mailing list shall be used as is compatible with efficiency and economy in securing competition. Where the number of bidders on a mailing list is excessive in relation to a specific acquisition, the list may be reduced consistent with this paragraph and paragraphs (b) and (c) below. Nonetheless, solicitations should be furnished to others upon request, in accordance with 5.102. Also, bids shall not be disregarded merely because the bidder was not formally invited to bid.

(b) *Rotation of lists.* By using different portions of a list for separate acquisitions, solicitation mailing lists may be rotated. However, considerable judgment must be exercised in determining whether the size of the acquisiton justifies the rotation. The use of a presolicitation notice (see paragraph (c) below), time permitting, also should be considered. In rotating a list, the interests of small businesses (see 19.202-4) and labor surplus areas (see 20.104(e) and (f)) shall be considered. Whenever a list is rotated, bids shall be solicited from (1) the previously successful bidder, (2) prospective suppliers who have been added to the solicitation mailing list since the last solicitation, and (3) concerns on the segment of the list selected for use in a particular acquisition. However, the rule does not apply when such action would be precluded by use of a total set-aside (see parts 19 and 20).

(c) *Presolicitation notices.* In lieu of initially forwarding complete bid sets, the contracting officer may send presolicitation notices to concerns on the solicitation mailing list. The notice shall (1) specify the final date for receipt of requests for a complete bid set, (2) briefly describe the requirement and furnish other essential information to enable concerns to determine whether they have an interest in the invitation, and (3) notify concerns that, if no bid is to be submitted, they should advise the issuing office in writing if future invitations are desired for the type of supplies or services involved. Drawings, plans, and specifications normally will not be furnished with the presolicitation notice. The return date of the notice must be sufficiently in advance of the mailing date of the invitation for bids to permit an accurate estimate of the number of bid sets required. Bid sets shall be sent to concerns that request them in response to the notice. This procedure is particularly suitable when invitations for bids and solicitation mailing lists are lengthy.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.205-5 Release of solicitation mailing lists.

(a) Contracting activities shall make the central and local solicitation mailing lists established under this part available to the public in response to written requests made in accordance with agency regulations implementing subpart 24.2.

(b) When invitations for bids for construction contracts have been issued, trade journals, prospective subcontractors, material suppliers, bidders, and others having a bona fide interest will be supplied upon request with a list of all prospective bidders furnished copies of the plans and specifications. Contracting offices may require written requests and establish appropriate procedures.

[48 FR 42171, Sept. 19, 1983, as amended at 52 FR 38189, Oct. 14, 1987; 53 FR 661, Jan. 11, 1988; 53 FR 43390, Oct. 26, 1988]

14.206 Small business and labor surplus area set-asides.

See parts 19 and 20.

14.207 Pre-bid conference.

A pre-bid conference may be used, generally in a complex acquisition, as a means of briefing prospective bidders and explaining complicated specifications and requirements to them as early as possible after the invitation has been issued and before the bids are opened. It shall never be used as a substitute for amending a defective or ambiguous invitation. The conference shall be conducted in accordance with the procedure prescribed in 15.409.

14.208 Amendment of invitation for bids.

(a) If it becomes necessary to make changes in quantity, specifications, delivery schedules, opening dates, etc., or to correct a defective or ambiguous invitation, such changes shall be accomplished by amendment of the invitation for bids using Standard Form 30, Amendment of Solicitation/Modification of Contract. The fact that a change was mentioned at a pre-bid conference does not relieve the necessity for issuing an amendment. Amendments shall be sent, before the time for bid opening, to everyone to whom invitations have been furnished and shall be displayed in the bid room.

(b) Before amending an invitation for bids, the period of time remaining until bid opening and the need to extend this period shall be considered. When only a short time remains before the time set for bid opening, consideration should be given to notifying bidders of an extension of time by telegrams or telephone. Such extension must be confirmed in the amendment.

(c) Any information given to a prospective bidder concerning an invitation for bids shall be furnished promptly to all other prospective bidders as an amendment to the invitation (1) if such information is necessary for bidders to submit bids or (2) if the lack of such information would be prejudicial to uninformed bidders. The information shall be furnished even though a pre-bid conference is held. No award shall be made on the invitation unless such amendment has been issued in sufficient time to permit all prospective bidders to consider such information in submitting or modifying their bids.

14.209 Cancellation of invitations before opening.

(a) The cancellation of an invitation for bids usually involves a loss of time, effort, and money spent by the Government and bidders. Invitations should not be cancelled unless cancellation is clearly in the public interest; e.g., (1) where there is no longer a requirement for the supplies or services or (2) where amendments to the invitation would be of such magnitude that a new invitation is desirable.

(b) When an invitation is cancelled, bids that have been received shall be returned unopened to the bidders and a notice of cancellation shall be sent to all prospective bidders to whom invitations were issued.

(c) The notice of cancellation shall (1) identify the invitation for bids by number and short title or subject matter, (2) briefly explain the reason the invitation is being cancelled, and (3) where appropriate, assure prospective bidders that they will be given an opportunity to bid on any resolicitation of bids or any future requirements for the type of supplies or services involved. Cancellations shall be recorded in accordance with 14.403(d).

14.210 Qualified products.

See subpart 9.2.

14.211 Release of acquisition information.

(a) *Before solicitation.* Information concerning proposed acquisition shall not be released outside the Government before solicitation except for presolicitation notices in accordance with 14.205-4(c) or 36.302, or long-range acquisition estimates in accordance with 5.404, or synopses in accordance with 5.201. Within the Government, such information shall be restricted to those having a legitimate interest. Releases of information shall be made (1) to all prospective bidders, and (2) as nearly as possible at the same time, so that one prospective bidder shall not be given unfair advantage over another. See 3.104 regarding requirements for proprietary and source selection information including access to and disclosure thereof.

(b) *After solicitation.* Discussions with prospective bidders regarding a solicitation shall be conducted and technical or other information shall be transmitted only by the contracting officer or superiors having contractual authority or by others specifically authorized. Such personnel shall not furnish any information to a prospective bidder that alone or together with other information may afford an advantage over others. However, general information that would not be prejudicial to other prospective bidders may be furnished upon request; e.g., explanation of a particular contract clause or a particular condition of the schedule in the invitation for bids, and more specific information or clarifications may be furnished by amending the solicitation (see 14.208).

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 36795, Sept. 6, 1990]

14.212 Economic purchase quantities (supplies).

Contracting officers shall comply with the economic purchase quantity planning requirements for supplies in subpart 7.2. See 7.203 for instructions regarding use of the provision at 52.207-4, Economic Purchase Quantity—Supplies, and 7.204 for guidance on handling responses to that provision.

[50 FR 35479, Aug. 30, 1985]

14.213 Annual submission of representations and certifications.

(a) Submission of offeror representations and certifications on an annual basis, as an alternative to submission in each solicitation, may be authorized by agencies subject to the requirements of this section. The decision to use annual representations and certifications shall be made in accordance with agency procedures.

(b) In accordance with agency procedures, each contracting office utilizing annual representations and certifications shall establish procedures and assign responsibilities for centrally requesting, receiving, storing, verifying and updating offeror's annual submissions. Generally, the representations and certifications shall be effective for a period of 1 year from date of signature.

(c) The contracting officer shall not include in individual solicitations the full text of provisions that are contained in the annual representations and certifications.

(d) Offerors shall make changes that affect only one solicitation by completing the appropriate section of the provision at 52.214-30, Annual Representations and Certifications—Sealed Bidding.

[54 FR 48983, Nov. 28, 1989]

14.214 Commercial pricing certificates.

Sealed bid acquisitions of parts or components as defined in 15.813-2 are subject to the requirements of 15.813, Commercial pricing certificates, including the solicitation provision and contract clause prescription in 15.813-7, when conditions specified therein are applicable.

[55 FR 25527, June 21, 1990]

Subpart 14.3—Submission of Bids

14.301 Responsiveness of bids.

(a) To be considered for award, a bid must comply in all material respects with the invitation for bids. Such compliance enables bidders to stand on an equal footing and maintain the integrity of the sealed bidding system.

(b) Telegraphic bids shall not be considered unless permitted by the invitation. The term *telegraphic bids* means bids submitted by telegram or by mailgram.

(c) Facsimile bids shall not be considered unless permitted by the solicitation (see 14.202-7).

(d) Bids should be filled out, executed, and submitted in accordance with the instructions in the invitation. If a bidder uses its own bid form or a letter to submit a bid, the bid may be considered only if (1) the bidder accepts all the terms and conditions of the invitation and (2) award on the bid would result in a binding contract with terms and conditions that do not vary from the terms and conditions of the invitation.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 48983, Nov. 28, 1989]

14.302 Bid submission.

(a) Bids shall be submitted so that they will be received in the office designated in the invitation for bids (referred to in paragraphs (b) and (c) below as the *designated office*) not later than the exact time set for opening of bids.

(b) Except as specified in paragraph (c) below, if telegraphic bids are authorized, a telegraphic bid that is communicated by means of a telephone call to the designated office shall be considered if—

(1) Agency regulations authorize such consideration;

(2) The telephone call is made by the telegraph office that received the telegraphic bid;

(3) The telephone call is received by the designated office not later than the time set for the bid opening;

(4) The telegraph office that received the telegraphic bid sends the designated office the telegram that formed the basis for the telephone call;

(5) The telegram indicates on its face that it was received in the telegraph office before the telephone call was received by the designated office; and

(6) The bid in the telegram is identical in all essential respects to the bid received in the telephone call from the telegraph office.

(c) If the conditions in paragraph (b) above apply and the bid received by telephone is the apparent low bid, award may not be made until the telegram is received by the designated office; however, if the telegram is not received by the designated office within 5 days after the bid opening date, the bid shall be rejected.

14.303 Modification or withdrawal of bids.

(a) Bids may be modified or withdrawn by written or telegraphic notice received in the office designated in the invitation for bids not later than the exact time set for opening of bids. Unless proscribed by agency regulations, a telegraphic modification or withdrawal of a bid received in such office by telephone from the receiving telegraph office shall be considered. However, the message shall be confirmed by the telegraph company by sending a copy of the written telegram that formed the basis for the telephone call. If the solicitation authorizes facsimile bids, bids may be modified or withdrawn via facsimile received at any time before the exact time set for receipt of bids, subject to the conditions specified in the provision prescribed in 14.201-6(w). Modifications received by telephone (including a record of those telephoned by the telegraph company) or facsimile shall be sealed in an envelope by a proper official. The official shall write on the envelope (1) the date and time of receipt and by whom, and (2) the number of the invitation for bids, and shall sign the envelope. No information contained in the envelope shall be disclosed before the time set for bid opening.

(b) A bid may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for opening of bids, the identity of the persons requesting withdrawal is established and that person signs a receipt for the bid.

[48 FR 42171, Sept. 19, 1983, as amended at 54 FR 48983, Nov. 28, 1989]

14.304 Late bids, late modifications of bids, or late withdrawal of bids.

14.304-1 General.

Bids received in the office designated in the invitation for bids after the exact time set for opening are *late bids*.

(a) A late bid, modification of bid, or withdrawal of bid shall not be considered unless received before contract award, and either—

(1) It was sent to a contracting office in the United States or Canada by registered or certified mail not later than 5 calendar days before the bid receipt date specified;

(2) It was sent by mail (or, if authorized by the solicitation, was sent by telegram or via facsimile) and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation; or

(3) It was sent to a contracting office in the United States or Canada by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee not later than 5:00 PM at the place of mailing 2 working days prior to the date specified for receipt of bids. The term *working days* excludes weekends and Federal holidays.

(b) The only acceptable evidence to establish the date of mailing of a late bid, modification, or withdrawal sent to a contracting office in the United States or Canada either by registered or certified mail is a U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date, or the bid, modification, or withdrawal shall be deemed to have been mailed late. (The term *postmark* means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed on the date of mailing by employees of the U.S. or Canadian Postal Service. Therefore, bidders should request the postal clerk to place a legible hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.)

(c) The only acceptable evidence to establish the time of receipt at the Government installation is the time/date stamp of such installation on the bid wrapper or other documentary evidence of receipt maintained by the installation.

(d) The only acceptable evidence to establish the date of mailing of a late bid, modification, or withdrawal sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee is the date entered by the post office receiving clerk on the *Express Mail Next Day Service-Post Office to Addressee* label and the postmark on the envelope or wrapper and on the original receipt from the U.S. Postal Service. *Postmark* has the same meaning as defined in paragraph (b) of this subsection, excluding postmarks of the Canadian Postal Service. Therefore, bidders should request the postal clerks to place a legible hand cancellation bull's-eye postmark on both the receipt and the envelope or wrapper.

(e) Notwithstanding the above, a late modification of an otherwise successful bid which makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

[48 FR 42171, Sept. 19, 1983, as amended at 54 FR 48984, Nov. 28, 1989]

14.304-2 Notification to late bidders.

When a bid, modification of bid, or withdrawal of bid is received late and it is clear from available information that it cannot be considered, the contracting officer shall promptly notify the bidder accordingly. However, when a late bid, modification of bid, or withdrawal of bid is transmitted to a contracting office in the United States or Canada by registered or certified mail or by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee and is received before award, the bidder shall be promptly notified substantially as follows: Your bid in response to Invitation for Bids Number —— dated —— for —— [*insert subject matter or short title*] was received after the time for opening specified in the Invitation. Accordingly, your bid will not be opened or considered for award unless there is received from you by —— [*insert date*] the original post office receipt for (*insert one of the following, as appropriate*):

(a) Registered or certified mail showing a date of mailing not later than the fifth calendar day before the date specified for opening (e.g., a bid submitted in response to a solicitation requiring receipt of bids by the 20th of the month must have been mailed by the 15th or earlier); or

(b) U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee showing a date of mailing not later than 5:00 PM two Federal working days prior to the date specified for opening.

[54 FR 48984, Nov. 28, 1989]

14.304-3 Disposition of late submissions.

Late bids, modification of bids, or withdrawal of bids that are not considered for award shall be held unopened, unless opened for identification, until after award and then retained with other unsuccessful bids. However, any bid bond or guarantee shall be returned.

14.304-4 Records.

The following shall, if available, be included in the contracting office files with respect to each late bid, modification of bid, or withdrawal of bid:

(a) A statement of the date and hour of mailing, filing, or delivery.

(b) A statement of the date and hour of receipt.

(c) The determination, with supporting facts, as to whether or not the late bid was considered for award.

(d) A statement of the disposition of the late bid.

(e) The envelope, or other covering, if the late bid was considered for award.

Subpart 14.4—Opening of Bids and Award of Contract

14.400 Scope of subpart.

This subpart contains procedures for the receipt, handling, opening, and disposition of bids including mistakes in bids, and subsequent award of contract.

14.401 Receipt and safeguarding of bids.

(a) All bids (including modifications) received before the time set for the opening of bids shall be kept secure. Except as provided in paragraph (b) below, the bids shall remain unopened in a locked bid box or safe. If an invitation for bids is cancelled, bids shall be returned to the bidders. Necessary precautions shall be taken to ensure the security of the bid box or safe. Before bid opening, information concerning the identity and number of bids received shall be made available only to Government employees. Such disclosure shall be only on a *need to know* basis. When bid samples are submitted, they shall be handled with sufficient care to prevent disclosure of characteristics before bid opening.

(b) Envelopes marked as bids but not identifying the bidder or the solicitation may be opened solely for the purpose of identification, and then only by an official designated for this purpose. If a sealed bid is opened by mistake (e.g., because it is not marked as being a bid), the envelope shall be signed by the opener, whose position shall also be written thereon, and delivered to the designated official. This official shall immediately write on the envelope (1) an explanation of the opening, (2) the date and time opened, and (3) the invitation for bids number, and shall sign the envelope. The official shall then immediately reseal the envelope.

14.402 Opening of bids.

14.402-1 Unclassified bids.

(a) The bid opening officer shall decide when the time set for opening bids has arrived and shall inform those present of that decision. The officer shall then (1) personally and publicly open all bids received before that time, (2) if practical, read the bids aloud to the persons present, and (3) have the bids recorded. The original of each bid shall be carefully safeguarded, particularly until the abstract of bids required by 14.403 has been made and its accuracy verified.

(b) Performance of the procedure in paragraph (a) above may be delegated to an assistant, but the bid opening officer remains fully responsible for the actions of the assistant.

(c) Examination of bids by interested persons shall be permitted if it does not interfere unduly with the conduct of Government business. Original bids shall not be allowed to pass out of the hands of a Government official unless a duplicate bid is not available for public inspection. The original bid may be examined by the public only under the immediate supervision of a Government official and under conditions that preclude possibility of a substitution, addition, deletion, or alteration in the bid.

14.402-2 Classified bids.

The opening of classified bids shall not be accessible to the general public. Openings may be witnessed and the results recorded by those bidder representatives (a) who have been previously cleared from a security standpoint and (b) who represent bidders who were invited to bid. Bids shall be made available to those persons authorized to attend the opening of bids. No public record shall be made of bids or bid prices received in response to classified invitations for bids.

14.402-3 Postponement of openings.

(a) A bid opening may be postponed even after the time scheduled for bid opening (but otherwise in accordance with 14.208) and—

(1) The contracting officer has reason to believe that the bids of an important segment of bidders have been delayed in the mails for causes beyond their control and without their fault or negligence (e.g., flood, fire, accident, weather conditions, or strikes); or

(2) Emergency or unanticipated events interrupt normal governmental processes so that the conduct of bid openings as scheduled is impractical.

(b) At the time of a determination to postpone a bid opening under subparagraph (a)(1) above, an announcement of the determination shall be publicly posted. If practical before issuance of a formal amendment of the invitation, the determination shall be otherwise communicated to prospective bidders who are likely to attend the scheduled bid opening.

(c) In the case of subparagraph (a)(2) above, the contracting officer may proceed with the bid opening as soon as practical after the time scheduled without prior amendment to the invitation for bids or notice to bidders, whenever the delay incident to the amendment or notice is not in the Government's interest. In such cases, the time of actual bid opening shall be deemed to be the time set for bid opening for the purpose of determining *late bids* under 14.303. A note should be made on the abstract of bids or otherwise added to the file explaining the circumstances of the postponement.

14.403 Recording of bids.

(a) Standard Form 1409, Abstract of Offers, or Optional Form 1419, Abstract of Offers—Construction (or automated equivalent), shall be completed and certified as to its accuracy by the bid opening officer as soon after bid opening as practicable. Where bid items are too numerous to warrant complete recording of all bids, abstract entries for individual bids may be limited to item numbers and bid prices. In preparing these forms, the extra columns and SF 1410, Abstract of Offers—Continuation, and OF 1419A, Abstract of Offers—Construction, Continuation Sheet, may be used to label and record such information as the contracting activity deems necessary.

(b) Abstracts of offers for unclassified acquisitions shall be available for public inspection. Such abstracts shall not contain information regarding failure to meet minimum standards of responsibility, apparent collusion of bidders, or other notations properly exempt from disclosure to the public in accordance with agency regulations implementing subpart 24.2.

(c) The forms identified in paragraph (a) above need not be used by the Defense Fuel Supply Center for acquisitions of coal or petroleum products or by the Defense Personnel Support Center for perishable subsistence items.

(d) If an invitation for bids is cancelled before the time set for bid opening, this fact shall be recorded together with a statement of the number of bids invited and the number of bids received.

[48 FR 42171, Sept. 19, 1983, as amended at 54 FR 29280, July 11, 1989]

14.404 Rejection of bids.

14.404-1 Cancellation of invitations after opening.

(a) (1) Preservation of the integrity of the competitive bid system dictates that, after bids have been opened, award must be made to that responsible bidder who submitted the lowest responsive bid, unless there is a compelling reason to reject all bids and cancel the invitation.

(2) Every effort shall be made to anticipate changes in a requirement before the date of opening and to notify all prospective bidders of any resulting modification or cancellation. This will permit bidders to change their bids and prevent unnecessary exposure of bid prices.

(3) As a general rule, after the opening of bids, an invitation should not be cancelled and resolicited due solely to increased requirements for the items being acquired. Award should be made on the initial invitation for bids and the additional quantity should be treated as a new acquisition.

(b) When it is determined before award but after opening that the requirements of 10.008 (relating to the availability and identification of specifications) have not been met, the invitation shall be cancelled.

(c) Invitations may be cancelled and all bids rejected before award but after opening when, consistent with paragraph (a)(1) above, the agency head determines in writing that—

(1) Inadequate or ambiguous specifications were cited in the invitation;

(2) Specifications have been revised;

(3) The supplies or services being contracted for are no longer required;

(4) The invitation did not provide for consideration of all factors of cost to the Government, such as cost of transporting Government-furnished property to bidders' plants;

(5) Bids received indicate that the needs of the Government can be satisfied by a less expensive article differing from that for which the bids were invited;

(6) All otherwise acceptable bids received are at unreasonable prices, or only one bid is received and the contracting officer cannot determine the reasonableness of the bid price, or no responsive bid has been received from a responsible bidder;

(7) The bids were not independently arrived at in open competition, were collusive, or were submitted in bad faith (see subpart 3.3 for reports to be made to the Department of Justice);

(8) A cost comparison as prescribed in OMB Circular A-76 and subpart 7.3 shows that performance by the Government is more economical; or

(9) For other reasons, cancellation is clearly in the public's interest.

(d) Should administrative difficulties be encountered after bid opening that may delay award beyond bidders' acceptance periods, the several lowest bidders whose bids have not expired (irrespective of the acceptance period specified in the bid) should be requested, before expiration of their bids, to extend in writing the bid acceptance period (with consent of sureties, if any) in order to avoid the need for resoliciting.

(e) Under some circumstances, completion of the acquisition after cancellation of the invitation for bids may be appropriate.

(1) If the invitation for bids has been cancelled for the reasons specified in paragraphs (c) (6) or (7) above, and the agency head has authorized in the determination in (c) the completion of the acquisition through negotiation, the contracting officer shall proceed in accordance with 15.103.

(2) If the invitation for bids has been cancelled for the reasons specified in paragraphs (c) (1), (2), (4), (5), or (9), or for the reasons in (c) (6) or (7) and completion through negotiation is not authorized under paragraph (e)(1), the contracting officer shall proceed with a new acquisition.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.404-2 Rejection of individual bids.

(a) Any bid that fails to conform to the essential requirements of the invitation for bids shall be rejected.

(b) Any bid that does not conform to the applicable specifications shall be rejected unless the invitation authorized the submission of alternate bids and the supplies offered as alternates meet the requirements specified in the invitation.

(c) Any bid that fails to conform to the delivery schedule or permissible alternates stated in the invitation shall be rejected.

(d) A bid shall be rejected when the bidder imposes conditions that would modify requirements of the invitation or limit the bidder's liability to the Government, since to allow the bidder to impose such conditions would be prejudicial to other bidders. For example, bids shall be rejected in which the bidder—

(1) Protects against future changes in conditions, such as increased costs, if total possible costs to the Government cannot be determined;

(2) Fails to state a price and indicates that price shall be *price in effect at time of delivery*;

(3) States a price but qualifies it as being subject to *price in effect at time of delivery*;

(4) When not authorized by the invitation, conditions or qualifies a bid by stipulating that it is to be considered only if, before date of award, the bidder receives (or does not receive) award under a separate solicitation;

(5) Requires that the Government is to determine that the bidder's product meets applicable Government specifications; or

(6) Limits rights of the Government under any contract clause.

(e) A low bidder may be requested to delete objectionable conditions from a bid provided the conditions do not go to the substance, as distinguished from the form, of the bid, or work an injustice on other bidders. A condition goes to the substance of a bid where it affects price, quantity, quality, or delivery of the items offered.

(f) Any bid may be rejected if the contracting officer determines in writing that it is unreasonable as to price. Unreasonableness of price includes not only the total price of the bid, but the prices for individual line items as well.

(g) Any bid may be rejected if the prices for any line items or subline items are materially unbalanced (see 15.814).

(h) Bids received from any person or concern that is suspended, debarred, or ineligible (see subpart 9.4) shall be rejected if the period of suspension, debarment, or ineligibility has not expired as of the bid opening date.

(i) Low bids received from concerns determined to be not responsible pursuant to subpart 9.1 shall be rejected (but if a bidder is a small business concern, see 19.6 with respect to certificates of competency).

(j) When a bid guarantee is required and a bidder fails to furnish the guarantee in accordance with the requirements of the invitation for bids, the bid shall be rejected, except as otherwise provided in 28.101-4.

(k) The originals of all rejected bids, and any written findings with respect to such rejections, shall be preserved with the papers relating to the acquisition.

(l) After submitting a bid, if all of a bidder's assets or that part related to the bid are transferred during the period between the bid opening and the award, the transferee may not be able to take over the bid. Accordingly, the contracting officer shall reject the bid unless the transfer is effected by merger, operation of law, or other means not barred by 41 U.S.C. 15 or 31 U.S.C. 3727.

(m) A bid shall be rendered nonresponsive and rejected if the bidder fails to submit the signed certificate (see 3.104-9) required by section 27 of the Office of Federal Procurement Policy Act, as amended (42 U.S.C. 423), with its bid.

[48 FR 42171, Sept. 19, 1983, as amended at 51 FR 2649, Jan. 17, 1986; 55 FR 25527, June 21, 1990; 55 FR 36795, Sept. 6, 1990]

14.404-3 Notice to bidders of rejection of all bids.

When it is determined necessary to reject all bids, the contracting officer shall notify each bidder that all bids have been rejected and shall state the reason for such action.

14.404-4 Restrictions on disclosure of descriptive literature.

When a bid is accompanied by descriptive literature (as defined in 14.202-5(a)), and the bidder imposes a restriction that prevents the public disclosure of such literature, the restriction may render the bid nonresponsive. The restriction renders the bid nonresponsive if it prohibits the disclosure of sufficient information to permit competing bidders to know the essential nature and type of the products offered or those elements of the bid that relate to quantity, price, and delivery terms. The provisions of this paragraph do not apply to unsolicited descriptive literature submitted by a bidder if such literature does not qualify the bid (see 14.202-5(f)).

14.404-5 All or none qualifications.

Unless the solicitation provides otherwise, a bid may be responsive notwithstanding that the bidder specifies that award will be accepted only on all, or a specified group, of the items. Bidders shall not be permitted to withdraw or modify *all or none* qualifications after bid opening since such qualifications are substantive and affect the rights of other bidders.

14.405 Minor informalities or irregularities in bids.

A minor informality or irregularity is one that is merely a matter of form and not of substance. It also pertains to some immaterial defect in a bid or variation of a bid from the exact requirements of the invitation that can be corrected or waived without being prejudicial to other bidders. The defect or variation is immaterial when the effect on price, quantity, quality, or delivery is negligible when contrasted with the total cost or scope of the supplies or services being acquired. The contracting officer either shall give the bidder an opportunity to cure any deficiency resulting from a minor informality or irregularity in a bid or waive the deficiency, whichever is to the advantage of the Government. Examples of minor informalities or irregularities include failure of a bidder to—

(a) Return the number of copies of signed bids required by the invitation;

(b) Furnish required information concerning the number of its employees;

(c) Sign its bid, but only if—

(1) The unsigned bid is accompanied by other material indicating the bidder's intention to be bound by the unsigned bid (such as the submission of a bid guarantee or a letter signed by the bidder, with the bid, referring to and clearly identifying the bid itself); or

(2) The firm submitting a bid has formally adopted or authorized, before the date set for opening of bids, the execution of documents by typewritten, printed, or stamped signature and submits evidence of such authorization and the bid carries such a signature;

(d) Acknowledge receipt of an amendment to an invitation for bids, but only if—

(1) The bid received clearly indicates that the bidder received the amendment, such as where the amendment added another item to the invitation and the bidder submitted a bid on the item; or

(2) The amendment involves only a matter of form or has either no effect or merely a negligible effect on price.

quantity, quality, or delivery of the item bid upon;

(e) Furnish affidavits concerning parent company and affiliates, if required pursuant to the clause at 52.214-17, Affiliated Bidders; and

(f) Execute the certifications with respect to Equal Opportunity and Affirmative Action Programs, as set forth in the clauses at 52.222-22, Previous Contracts and Compliance Reports, and 52.222-25, Affirmative Action Compliance.

[48 FR 42171, Sept. 19, 1983, as amended at 55 FR 25527, June 21, 1990]

14.406 Mistakes in bids.

14.406-1 General.

After the opening of bids, contracting officers shall examine all bids for mistakes. In cases of apparent mistakes and in cases where the contracting officer has reason to believe that a mistake may have been made, the contracting officer shall request from the bidder a verification of the bid, calling attention to the suspected mistake. If the bidder alleges a mistake, the matter shall be processed in accordance with this section 14.406. Such actions shall be taken before award.

14.406-2 Apparent clerical mistakes.

(a) Any clerical mistake, apparent on its face in the bid, may be corrected by the contracting officer before award. The contracting officer first shall obtain from the bidder a verification of the bid intended. Examples of apparent mistakes are—

(1) Obvious misplacement of a decimal point;

(2) Obviously incorrect discounts (for example, 1 percent 10 days, 2 percent 20 days, 5 percent 30 days);

(3) Obvious reversal of the price f.o.b. destination and price f.o.b. origin; and

(4) Obvious mistake in designation of unit.

(b) Correction of the bid shall be effected by attaching the verification to the original bid and a copy of the verification to the duplicate bid. Correction shall not be made on the face of the bid; however, it shall be reflected in the award document.

14.406-3 Other mistakes disclosed before award.

In order to minimize delays in contract awards, administrative determinations may be made as described in this 14.406-3 in connection with mistakes in bids alleged after opening of bids and before award. The authority to permit correction of bids is limited to bids that, as submitted, are responsive to the invitation and may not be used to permit correction of bids to make them responsive. This authority is in addition to that in 14.406-2 or that may be otherwise available.

(a) If a bidder requests permission to correct a mistake and clear and convincing evidence establishes both the existence of the mistake and the bid actually intended, the agency head may make a determination permitting the bidder to correct the mistake; *provided*, that if this correction would result in displacing one or more lower bids, such a determination shall not be made unless the existence of the mistake and the bid actually intended are ascertainable substantially from the invitation and the bid itself.

(b) If (1) a bidder requests permission to withdraw a bid rather than correct it, (2) the evidence is clear and convincing both as to the existence of a mistake and as to the bid actually intended, and (3) the bid, both as uncorrected and as corrected, is the lowest received, the agency head may make a determination to correct the bid and not permit its withdrawal.

(c) If, under paragraph (a) or (b) of this subsection,

(1) The evidence of a mistake is clear and convincing only as to the mistake but not as to the intended bid, or

(2) The evidence reasonably supports the existence of a mistake but is not clear and convincing, an official above the contracting officer, unless otherwise provided by agency procedures, may make a determination permitting the bidder to withdraw the bid.

(d) If the evidence does not warrant a determination under paragraph (a), (b), or (c) above, the agency head may make a determination that the bid be neither withdrawn nor corrected.

(e) Heads of agencies may delegate their authority to make the determinations under paragraphs (a), (b), (c), and (d) of this 14.406-3 to a central authority, or a limited number of authorities as necessary, in their agencies, without power of redelegation.

(f) Each proposed determination shall have the concurrence of legal counsel within the agency concerned before issuance.

(g) Suspected or alleged mistakes in bids shall be processed as follows. A mere statement by the administrative officials that they are satisfied that an error was made is insufficient.

(1) The contracting officer shall immediately request the bidder to verify the bid. Action taken to verify bids must be sufficient to reasonably assure the contracting officer that the bid as confirmed is without error, or to elicit the allegation of a mistake by the bidder. To assure that the bidder will be put on notice of a mistake suspected by the contracting officer, the bidder should be advised as appropriate—

(i) That its bid is so much lower than the other bids or the Government's estimate as to indicate a possibility of error;

(ii) Of important or unusual characteristics of the specifications;

(iii) Of changes in requirements from previous purchases of a similar item; or

(iv) Of any other information, proper for disclosure, that leads the contracting officer to believe that there is a mistake in bid.

(2) If the bid is verified, the contracting officer shall consider the bid as originally submitted. If the time for acceptance of bids is likely to expire before a decision can be made, the contracting officer shall request all bidders whose bids may become eligible for award to extend the time for acceptance of their bids in accordance with 14.404-1(d). If the bidder whose bid is believed erroneous does not (or cannot) grant an extension of time, the bid shall be considered as originally submitted (but see subparagraph (5) below). If the bidder alleges a mistake, the contracting officer shall advise the bidder to make a written request to withdraw or modify the bid. The request must be supported by statements (sworn statements, if possible) and shall include all pertinent evidence such as the bidder's file copy of the bid, the original worksheets and other data used in preparing the bid, subcontractors' quotations, if any, published price lists, and any other evidence that establishes the existence of the error, the manner in which it occurred, and the bid actually intended.

(3) When the bidder furnishes evidence supporting an alleged mistake, the contracting officer shall refer the case to the appropriate authority (see paragraph (e) above) together with the following data:

(i) A signed copy of the bid involved.

(ii) A copy of the invitation for bids and any specifications or drawings relevant to the alleged mistake.

(iii) An abstract or record of the bids received.

(iv) The written request by the bidder to withdraw or modify the bid, together with the bidder's written statement and supporting evidence.

(v) A written statement by the contracting officer setting forth—

(A) A description of the supplies or services involved;

(B) The expiration date of the bid in question and of the other bids submitted;

(C) Specific information as to how and when the mistake was alleged;

(D) A summary of the evidence submitted by the bidder;

(E) In the event only one bid was received, a quotation of the most recent contract price for the supplies or services involved or, in the absence of a recent comparable contract, the contracting officer's estimate of a fair price for the supplies or services;

(F) Any additional pertinent evidence; and

(G) A recommendation that either the bid be considered for award in the form submitted, or the bidder be authorized to withdraw or modify the bid.

(4) When time is of the essence because of the expiration of bids or otherwise, the contracting officer may refer the case by telegraph or telephone to the appropriate authority. Ordinarily, the contracting officer will

not refer mistake in bid cases by telegraph or telephone to the appropriate authority when the determination set forth in paragraphs (a) or (b) above is applicable, since actual examination is generally necessary to determine whether the evidence presented is clear and convincing.

(5) Where the bidder fails or refuses to furnish evidence in support of a suspected or alleged mistake, the contracting officer shall consider the bid as submitted unless (i) the amount of the bid is so far out of line with the amounts of other bids received, or with the amount estimated by the agency or determined by the contracting officer to be reasonable, or (ii) there are other indications of error so clear, as to reasonably justify the conclusion that acceptance of the bid would be unfair to the bidder or to other bona fide bidders. Attempts made to obtain the information required and the action taken with respect to the bid shall be fully documented.

(h) Each agency shall maintain records of all determinations made in accordance with this subsection 14.406-3, the facts involved, and the action taken in each case. Copies of all such determinations shall be included in the file.

(i) Nothing contained in this subsection 14.406-3 prevents an agency from submitting doubtful cases to the Comptroller General for advance decision.

[48 FR 42171, Sept. 19, 1983, as amended at 53 FR 17857, May 18, 1988; 54 FR 13023, Mar. 29, 1989]

14.406-4 Mistakes after award.

If a contractor's discovery and request for correction of a mistake in bid is not made until after the award, it shall be processed under the procedures of subpart 33.2 and the following:

(a) When a mistake in a contractor's bid is not discovered until after award, the mistake may be corrected by contract amendment if correcting the mistake would be favorable to the Government without changing the essential requirements of the specifications.

(b) In addition to the cases contemplated in paragraph (a) above or as otherwise authorized by law, agencies are authorized to make a determination—

(1) To rescind a contract;

(2) To reform a contract (i) to delete the items involved in the mistake or (ii) to increase the price if the contract price, as corrected, does not exceed that of the next lowest acceptable bid under the original invitation for bids; or

(3) That no change shall be made in the contract as awarded, if the evidence does not warrant a determination under subparagraphs (1) or (2) above.

(c) Determinations under subparagraphs (b)(1) and (2) above may be made only on the basis of clear and convincing evidence that a mistake in bid was made. In addition, it must be clear that the mistake was (1) mutual, or (2) if unilaterally made by the contractor, so apparent as to have charged the contracting officer with notice of the probability of the mistake.

(d) Each proposed determination shall be coordinated with legal counsel in accordance with agency procedures.

(e) Mistakes alleged or disclosed after award shall be processed as follows:

(1) The contracting officer shall request the contractor to support the alleged mistake by submission of written statements and pertinent evidence, such as (i) the contractor's file copy of the bid, (ii) the contractor's original worksheets and other data used in preparing the bid, (iii) subcontractors' and suppliers' quotations, if any, (iv) published price lists, and (v) any other evidence that will serve to establish the mistake, the manner in which the mistake occurred, and the bid actually intended.

(2) The case file concerning an alleged mistake shall contain the following:

(i) All evidence furnished by the contractor in support of the alleged mistake.

(ii) A signed statement by the contracting officer—

(A) Describing the supplies or services involved;

(B) Specifying how and when the mistake was alleged or disclosed;

(C) Summarizing the evidence submitted by the contractor and any additional evidence considered pertinent;

(D) Quoting, in cases where only one bid was received, the most recent contract price for the supplies or services involved, or in the absence of a recent comparable contract, the contracting officer's estimate of a fair price for the supplies or services and the basis for the estimate;

(E) Setting forth the contracting officer's opinion whether a bona fide mistake was made and whether the contracting officer was, or should have been, on constructive notice of the mistake before the award, together with the reasons for, or data in support of, such opinion;

(F) Setting forth the course of action with respect to the alleged mistake that the contracting officer considers proper on the basis of the evidence, and if other than a change in contract price is recommended, the manner by which the supplies or services will otherwise be acquired; and

(G) Disclosing the status of performance and payments under the contract, including contemplated performance and payments.

(iii) A signed copy of the bid involved.

(iv) A copy of the invitation for bids and any specifications or drawings relevant to the alleged mistake.

(v) An abstract of written record of the bids received.

(vi) A written request by the contractor to reform or rescind the contract, and copies of all other relevant correspondence between the contracting officer and the contractor concerning the alleged mistake.

(vii) A copy of the contract and any related change orders or supplemental agreements.

(f) Each agency shall include in the contract file a record of (1) all determinations made in accordance with this 14.406-4, (2) the facts involved, and (3) the action taken in each case.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1738, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.407 Award.

14.407-1 General.

(a) The contracting officer shall make a contract award (1) by written notice, (2) within the time for acceptance specified in the bid or an extension (see 14.404-1(d)), and (3) to that responsible bidder whose bid, conforming to the invitation, will be most advantageous to the Government, considering only price and the price-related factors (see 14.201-8) included in the invitation. Award shall not be made until all required approvals have been obtained and the award otherwise conforms with 14.103-2.

(b) If less than three bids have been received, the contracting officer shall examine the situation to ascertain the reasons for the small number of responses. Award shall be made notwithstanding the limited number of bids. However, the contracting officer shall initiate, if appropriate, corrective action to increase competition in future solicitations for the same or similar items, and include a notation of such action in the records of the invitation for bids (see 14.204).

(c) (1) Award shall be made by mailing or otherwise furnishing a properly executed award document to the successful bidder.

(2) When a notice of award is issued, it shall be followed as soon as possible by the formal award.

(3) When more than one award results from any single invitation for bids, separate award documents shall be suitably numbered and executed.

(4) When an award is made to a bidder for less than all of the items that may be awarded to that bidder and additional items are being withheld for subsequent award, the award shall state that the Government may make subsequent awards on those additional items within the bid acceptance period.

(5) All provisions of the invitation for bids, including any acceptable additions or changes made by a bidder in the bid, shall be clearly and accurately set forth (either expressly or by reference) in the award document. The award is an acceptance of the bid, and

the bid and the award constitute the contract.

(d)(1) Award is generally made by using the Award portion of Standard Form (SF) 33, Solicitation, Offer, and Award, or SF 1447, Solicitation/Contract (see 53.214). If an offer on an SF 33 leads to further changes, the resulting contract shall be prepared as a bilateral document on SF 26, Award/Contract.

(2) Use of the Award portion of SF 33, SF 26, or SF 1447, does not preclude the additional use of informal documents, including telegrams, as notices of awards.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 48984, Nov. 28, 1989; 55 FR 3881, Feb. 5, 1990]

14.407-2 Responsible bidder—reasonableness of price.

(a) The contracting officer shall determine that a prospective contractor is responsible (see subpart 9.1) and that the prices offered are reasonable before awarding the contract. The price analysis techniques in 15.805-2 may be used as guidelines. In each case the determination shall be made in the light of all prevailing circumstances. Particular care must be taken in cases where only a single bid is received.

(b) The price analysis shall consider whether bids are materially unbalanced (see 15.814).

[48 FR 42171, Sept. 19, 1983, as amended at 55 FR 25527, June 21, 1990]

14.407-3 Prompt payment discounts.

(a) Prompt payment discounts shall not be considered in the evaluation of bids. However, any discount offered will form a part of the award, and will be taken by the payment center if payment is made within the discount period specified by the bidder. As an alternative to indicating a discount in conjunction with the offer, bidders may prefer to offer discounts on individual invoices.

(b) See 32.111(c)(1), which prescribes the contract clause at 52.232-8, Discounts for Prompt Payment.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

14.407-4 Economic price adjustment.

(a) *Bidder proposes economic price adjustment.*

(1) When a solicitation does not contain an economic price adjustment clause but a bidder proposes one with a ceiling that the price will not exceed, the bid shall be evaluated on the basis of the maximum possible economic price adjustment of the quoted base price.

(2) If the bid is eligible for award, the contracting officer shall request the bidder to agree to the inclusion in the award of an approved economic price adjustment clause (see 16.203) that is subject to the same ceiling. If the bidder will not agree to an approved clause, the award may be made on the basis of the bid as originally submitted.

(3) Bids that contain economic price adjustments with no ceiling shall be rejected unless a clear basis for evaluation exists.

(b) *Government proposes economic price adjustment.*

(1) When an invitation contains an economic price adjustment clause and no bidder takes exception to the provisions, bids shall be evaluated on the basis of the quoted prices without the allowable economic price adjustment being added.

(2) When a bidder increases the maximum percentage of economic price adjustment stipulated in the invitation or limits the downward economic price adjustment provisions of the invitation, the bid shall be rejected as nonresponsive.

(3) When a bid indicates deletion of the economic price adjustment clause, the bid shall be rejected as nonresponsive since the downward economic price adjustment provisions are thereby limited.

(4) When a bidder decreases the maximum percentage of economic price adjustment stipulated in the invitation, the bid shall be evaluated at the base price on an equal basis with bids that do not reduce the stipulated ceiling. However, after evaluation, if the bidder offering the lower ceiling is in a position to receive the award, the award shall reflect the lower ceiling.

14.407-5 [Reserved]

14.407-6 Equal low bids.

(a) Contracts shall be awarded in the following order of priority when two or more low bids are equal in all respects:

(1) Small business concerns that are also labor surplus area concerns.

(2) Other small business concerns.

(3) Other business concerns that are also labor surplus area concerns.

(4) Other business concerns.

(b) If two or more bidders still remain equally eligible after application of paragraph (a) above, award shall be made by a drawing by lot limited to those bidders. If time permits, the bidders involved shall be given an opportunity to attend the drawing. The drawing shall be witnessed by at least three persons, and the contract file shall contain the names and addresses of the witnesses and the person supervising the drawing.

(c) When an award is to be made by using the priorities under this 14.407-6, the contracting officer shall include a written agreement in the contract that the contractor will perform, or cause to be performed, the contract in accordance with the circumstances justifying the priority used to break the tie or select bids for a drawing by lot.

14.407-7 Documentation of award.

(a) The contracting officer shall document compliance with 14.103-2 in the contract file.

(b) The documentation shall either state that the accepted bid was the lowest bid received, or list all lower bids with reasons for their rejection in sufficient detail to justify the award.

(c) When an award is made after receipt of equal low bids, the documentation shall describe how the tie was broken.

14.407-8 Protests against award.

See subpart 33.1, Protests.

[50 FR 23606, June 4, 1985]

14.408 Information to bidders.

14.408-1 Award of unclassified contracts.

(a)(1) The contracting officer shall as a minimum (subject to any restrictions in subpart 9.4)—

(i) Notify unsuccessful bidders promptly that their bids were not accepted;

(ii) Extend appreciation for the interest the unsuccessful bidders have shown in submitting a bid; and

(iii) When award is made to other than a low bidder, state the reason for rejection in the notice to each of the unsuccessful low bidders.

(2) For acquisitions subject to the Trade Agreements Act (see 25.405(e)), within 7 working days after a contract award, agencies shall give unsuccessful offerors from designated countries written notice stating—

(i) That their offers were not accepted;

(ii) That a contract has been awarded;

(iii) The dollar amount of the successful offer; and

(iv) The name and address of the successful offeror.

(b) Notification to unsuccessful bidders may be oral or in writing through the use of a form postal card or other appropriate means.

(c) Should additional information be requested, the contracting officer shall provide the unsuccessful bidders with the name and address of the successful bidder, the contract price, and the location where a copy of the abstract of offers is available for inspection. However, when multiple awards have been made and furnishing information on the successful bids would require so much work as to interfere with normal operations of the contracting office, only information concerning location of the abstract of offers need be given.

(d) When a request is received concerning an unclassified invitation from an inquirer who is neither a bidder nor a representative of a bidder, the contracting officer should make every effort to furnish the names of successful bidders and, if requested, the prices at which awards were made. However, when such requests require so much work as to interfere with the normal operations of the contracting office, the inquirer will be advised where a copy of the abstract of offers may be seen.

(e) Requests for records shall be governed by agency regulations implementing subpart 24.2.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 27463, July 20, 1988]

14.408-2 Award of classified contracts.

In addition to 14.408-1, if classified information was furnished or created in connection with the solicitation, the contracting officer shall advise the unsuccessful bidders, including any who did not bid, to take disposition action in accordance with agency procedures. The name of the successful bidder and the contract price will be furnished to unsuccessful bidders only upon request. Information regarding a classified award shall not be furnished by telephone.

Subpart 14.5—Two-Step Sealed Bidding

14.501 General.

Two-step sealed bidding is a combination of competitive procedures designed to obtain the benefits of sealed bidding when adequate specifications are not available. An objective is to permit the development of a sufficiently descriptive and not unduly restrictive statement of the Government's requirements, including an adequate technical data package, so that subsequent acquisitions may be made by conventional sealed bidding. This method is especially useful in acquisitions requiring technical proposals, particularly those for complex items. It is conducted in two steps:

(a) Step one consists of the request for, submission, evaluation, and (if necessary) discussion of a technical proposal. No pricing is involved. The objective is to determine the acceptability of the supplies or services offered. As used in this context, the word *technical* has a broad connotation and includes, among other things, the engineering approach, special manufacturing processes, and special testing techniques. It is the proper step for clarification of questions relating to technical requirements. Conformity to the technical requirements is resolved in this step, but not responsibility as defined in 9.1.

(b) Step two involves the submission of sealed priced bids by those who submitted acceptable technical proposals in step one. Bids submitted in step two are evaluated and the awards made in accordance with subparts 14.3 and 14.4.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.502 Conditions for use.

(a) Unless other factors require the use of sealed bidding, two-step sealed bidding may be used in preference to negotiation when all of the following conditions are present:

(1) Available specifications or purchase descriptions are not definite or complete or may be too restrictive without technical evaluation, and any necessary discussion, of the technical aspects of the requirement to ensure mutual understanding between each source and the Government.

(2) Definite criteria exist for evaluating technical proposals.

(3) More than one technically qualified source is expected to be available.

(4) Sufficient time will be available for use of the two-step method.

(5) A firm-fixed-price contract or a fixed-price contract with economic price adjustment will be used.

(b) None of the following precludes the use of two-step sealed bidding:

(1) Multi-year contracting.

(2) Government-owned facilities or special tooling to be made available to the successful bidder.

(3) A total small business and/or labor surplus area set-aside (see 19.502-2 and 20.201).

(4) A first or subsequent production quantity is being acquired under a performance specification.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

14.503 Procedures.

14.503-1 Step one.

(a) Requests for technical proposals shall be distributed in accordance with 14.203-1. In addition, requests shall be synopsized in accordance with part 5. The request must include, as a minimum, the following:

(1) A description of the supplies or services required.

(2) A statement of intent to use the two step method.

(3) The requirements of the technical proposal.

(4) The evaluation criteria.

(5) A statement that the technical proposals shall not include prices or pricing information.

(6) The date, or date and hour, by which the proposal must be received (see 14.201-6(r)).

(7) A statement that (i) in the second step, only bids based upon technical proposals determined to be acceptable, either initially or as a result of discussions, will be considered for awards and (ii) each bid in the second step must be based on the bidder's own technical proposals.

(8) A statement that (i) offerors should submit proposals that are acceptable without additional explanation or information, (ii) the Government may make a final determination regarding a proposal's acceptability solely on the basis of the proposal as submitted, and (iii) the Government may proceed with the second step without requesting further information from any offeror; however, the Government may request additional information from offerors of proposals that it considers reasonably susceptible of being made acceptable, and may discuss proposals with their offerors.

(9) A statement that a notice of unacceptability will be forwarded to the offeror upon completion of the proposal evaluation and final determination of unacceptability.

(10) A statement either that only one technical proposal may be submitted by each offeror or that multiple technical proposals may be submitted. When specifications permit different technical approaches, it is generally in the Government's interest to authorize multiple proposals. If multiple proposals are authorized, see 14.201-6(s).

(b) Information on delivery or performance requirements may be of assistance to bidders in determining whether or not to submit a proposal and may be included in the request. The request shall also indicate that the information is not binding on the Government and that the actual delivery or performance requirements will be contained in the invitation issued under step two.

(c) Upon receipt, the contracting officer shall—

(1) Safeguard proposals against disclosure to unauthorized persons;

(2) Accept and handle data marked in accordance with 15.413 as provided in that section; and

(3) Remove any reference to price or cost.

(d) The contracting officer shall establish a time period for evaluating technical proposals. The period may vary with the complexity and number of proposals involved. However, the evaluation should be completed quickly.

(e) (1) Evaluations shall be based on the criteria in the request for proposals but not consideration of responsibility as defined in 9.1. Proposals shall be categorized as—

(i) Acceptable;

(ii) Reasonably susceptible of being made acceptable; or

(iii) Unacceptable.

(2) Any proposal which modifies, or fails to conform to the essential requirements or specifications of, the request for technical proposals shall be considered nonresponsive and categorized as unacceptable.

(f) (1) The contracting officer may proceed directly with step two if there are sufficient acceptable proposals to ensure adequate price competition under step two, and if further time, effort and delay to make additional proposals acceptable and thereby increase competition would not be in Government's interest. If this is not the case, the contracting officer shall request bidders whose proposals may be made acceptable to submit additional clarifying or supplementing information. The contracting officer shall identify the nature of the deficiencies in the proposal or the nature of the additional information required. The contracting officer may also arrange discussions for this purpose. No proposal shall be discussed with any offeror other than the submitter.

(2) In initiating requests for additional information, the contracting officer shall fix an appropriate time for bidders to conclude discussions, if any, submit all additional information, and incorporate such additional information as part of their proposals submitted. Such time may be extended in the discretion of the contracting officer. If the additional information incorporated as part of a proposal within the final time fixed by the contracting officer establishes that the proposal is acceptable, it shall be so categorized. Otherwise, it shall be categorized as unacceptable.

(g) When a technical proposal is found unacceptable (either initially or after clarification), the contracting officer shall promptly notify the offeror of the basis of the determination and that a revision of the proposal will not be considered. Upon written request and as soon as possible after award, the contracting officer shall debrief unsuccessful offerors (see 15.1002).

(h) Late technical proposals are governed by 15.412.

(i) If it is necessary to discontinue two-step sealed bidding, the contracting officer shall include a statement of the facts and circumstances in the contract file. Each offeror shall be notified in writing. When step one results in no acceptable technical proposal or only one acceptable technical proposal, the acquisition may be continued by negotiation.

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2649, Jan. 17, 1986]

14.503-2 Step two.

(a) Sealed bidding procedures shall be followed except that invitations for bids shall—

(1) Be issued only to those offerors submitting acceptable technical proposals in step one;

(2) Include the provision prescribed in 14.201-6(t);

(3) Prominently state that the bidder shall comply with the specifications and the bidder's technical proposal; and

(4) Not be synopsized in the Commerce Business Daily as an acquisition opportunity nor publicly posted (see 5.101(a)).

(b) The names of firms that submitted acceptable proposals in step one will be listed in the Commerce Business Daily for the benefit of prospective subcontractors (see 5.206(a)(2)).

[48 FR 42171, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

PART 15—CONTRACTING BY NEGOTIATION

Sec.
15.000 Scope of part.

Subpart 15.1—General Requirements for Negotiation

15.100 Scope of subpart.
15.101 Definition.
15.102 General.
15.103 Converting from sealed bidding to negotiation procedures.
15.104—15.105 [Reserved]
15.106 Contract clauses.
15.106-1 Examination of Records clause.
15.106-2 Audit—Negotiation clause.

Subparts 15.2—15.3 [Reserved]

Subpart 15.4—Solicitation and Receipt of Proposals and Quotations

15.400 Scope of subpart.
15.401 Applicability.
15.402 General.
15.403 Solicitation mailing lists.
15.404 Presolicitation notices and conferences.
15.405 Solicitations for information or planning purposes.
15.405-1 General.
15.405-2 Solicitation provision.
15.406 Preparing requests for proposals (RFP's) and requests for quotations (RFQ's).
15.406-1 Uniform contract format.
15.406-2 Part I—The Schedule.
15.406-3 Part II—Contract clauses.
15.406-4 Part III—List of documents, exhibits, and other attachments.
15.406-5 Part IV—Representations and instructions.
15.407 Solicitation provisions.
15.408 Issuing solicitations.

Sec.
15.409 Pre-proposal conferences.
15.410 Amendment of solicitations before closing date.
15.411 Receipt of proposals and quotations.
15.412 Late proposals and modifications.
15.413 Disclosure and use of information before award.
15.413-1 Alternate I.
15.413-2 Alternate II.
15.414 Forms.
15.415 Economic purchase quantities (supplies).
15.416 Simplified contract format.

Subpart 15.5—Unsolicited Proposals

15.500 Scope of subpart.
15.501 Definitions.
15.502 Policy.
15.503 General.
15.504 Advance guidance.
15.505 Content of unsolicited proposals.
15.506 Agency procedures.
15.506-1 Receipt and initial review.
15.506-2 Evaluation.
15.507 Contracting methods.
15.508 Prohibitions.
15.509 Limited use of data.

Subpart 15.6—Source Selection

15.600 Scope of subpart.
15.601 Definitions.
15.602 Applicability.
15.603 Purpose.
15.604 Responsibilities.
15.605 Evaluation factors.
15.606 Changes in Government requirements.
15.607 Disclosure of mistakes before award.
15.608 Proposal evaluation.
15.609 Competitive range.
15.610 Written or oral discussion.
15.611 Best and final offers.
15.612 Formal source selection.
15.613 Alternative source selection procedures.

Subpart 15.7—Make-or-Buy Programs

15.700 Scope of subpart.
15.701 Definitions.
15.702 General.
15.703 Acquisitions requiring make-or-buy programs.
15.704 Items and work included.
15.705 Solicitation requirements.
15.706 Evaluation, negotiation, and agreement.
15.707 Incorporating make-or-buy programs in contracts.
15.708 Contract clause.

Subpart 15.8—Price Negotiation

15.800 Scope of subpart.
Sec.
15.801 Definitions.
15.802 Policy.
15.803 General.
15.804 Cost or pricing data.
15.804-1 General.
15.804-2 Requiring certified cost or pricing data.
15.804-3 Exemptions from or waiver of submission of certified cost or pricing data.
15.804-4 Certificate of Current Cost or Pricing Data.
15.804-5 [Reserved]
15.804-6 Procedural requirements.
15.804-7 Defective cost or pricing data.
15.804-8 Contract clauses.
15.805 Proposal analysis.
15.805-1 General.
15.805-2 Price analysis.
15.805-3 Cost analysis.
15.805-4 Technical analysis.
15.805-5 Field pricing support.
15.806 Subcontract pricing considerations.
15.806-1 General.
15.806-2 Prospective subcontractor cost or pricing data.
15.806-3 Field pricing reports.
15.807 Prenegotiation objectives.

Subpart 15.10—Preaward, Award, and Postaward Notifications, Protests, and Mistakes

15.1001 Notifications to unsuccessful offerors.
15.1002 Notification to successful offeror.
15.1003 Debriefing of unsuccessful offerors.
15.1004 Protests against award.
15.1005 Discovery of mistakes.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42187, Sept. 19, 1983, unless otherwise noted.

15.000 Scope of part.

This part prescribes policies and procedures governing contracting for supplies and services by negotiation.

Subpart 15.1—General Requirements for Negotiation

15.100 Scope of subpart.

This subpart covers general requirements regarding negotiated contracts. Detailed and specific requirements appear throughout this regulation.

15.101 Definition.

Negotiation means contracting through the use of either competitive or other-than-competitive proposals and discussions. Any contract awarded without using sealed bidding procedures is a negotiated contract (see 14.101).

[50 FR 1739, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985]

15.102 General.

Negotiation is a procedure that includes the receipt of proposals from offerors, permits bargaining, and usually affords an opportunity to revise their offers before award of a contract. Bargaining—in the sense of discussion, persuasion, alteration of initial assumptions and positions, and give-and-take—may apply to price, schedule, technical requirements, type of contract, or other terms of a proposed contract.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.103 Converting from sealed bidding to negotiation procedures.

When the agency head has determined, in accordance with 14.404-1(e)(1), that an invitation for bids is to be cancelled and that use of negotiation is appropriate to complete the acquisition, the contracting officer may negotiate without issuing a new solicitation subject to the following conditions—

(a) Prior notice of intention to negotiate and a reasonable opportunity to negotiate have been given by the contracting officer to each responsible bidder that submitted a bid in response to the invitation for bids;

(b) The negotiated price is the lowest negotiated price offered by any responsible bidder; and

(c) The negotiated price is lower than the lowest rejected bid price of a responsible bidder that submitted a bid in response to the invitation for bids.

[50 FR 1739, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985]

15.104—15.105 [Reserved]

15.106 Contract clauses.

15.106-1 Examination of Records clause.

(a) This subsection implements 10 U.S.C. 2313(b) and (c) and 41 U.S.C. 254(c).

(b) When contracting by negotiation, the contracting officer shall insert the clause at 52.215-1, Examination of Records by Comptroller General, in solicitations and contracts, except when—

(1) Making small purchases (see part 13);

(2) Contracting for utility services at rates not exceeding those established to apply uniformly to the public, plus any applicable reasonable connection charge; or

(3) Making contracts with foreign contractors for which the agency head authorizes omission under subpart 25.9.

(c) In connection with administration of the clause in research and development contracts with nonprofit institutions, including subcontracts under these contracts, the Comptroller General does not require original documentation of transportation costs (exclusive of travel).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.106-2 Audit—Negotiation clause.

(a) This subsection implements 10 U.S.C. 2313(a), 41 U.S.C. 254(b), and 10 U.S.C. 2306(f).

(b) The contracting officer shall, when contracting by negotiation, insert the clause at 52.215-2, Audit—Negotiation, in solicitations and contracts, unless the acquisition is a small purchase under part 13. In facilities contracts, the contracting officer shall use the clause with its Alternate I.

Subparts 15.2—15.3 [Reserved]

Subpart 15.4—Solicitation and Receipt of Proposals and Quotations

15.400 Scope of subpart.

This subpart prescribes policies and procedures for (a) preparing and issuing requests for proposals (RFP's) and requests for quotations (RFQ's) and (b) receiving proposals and quotations.

15.401 Applicability.

This subpart applies to solicitations issued when contracting by negotiation, except—

(a) Small purchases (see part 13); and

(b) Two-step sealed bidding (see subpart 14.5).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.402 General.

(a) Requests for proposals (RFP's) or requests for quotations (RFQ's) are used in negotiated acquisitions to communicate Government requirements to prospective contractors and to solicit proposals or quotations from them. Except as permitted by paragraph (f) below, contracting officers shall issue written solicitations. Solicitations shall contain the information necessary to enable prospective contractors to prepare proposals or quotations properly. Solicitation provisions and contract clauses may be incorporated into solicitations and contracts by reference, when authorized by subpart 52.1.

(b) Contracting officers shall furnish identical information concerning a proposed acquisition to all prospective contractors. Government personnel shall not provide the advantage of advance knowledge concerning a future solicitation to any prospective contractor (but see 5.404, 15.404, and 15.405).

(c) Except for solicitations for information or planning purposes (see subparagraph (e)(1) below and 15.405), contracting officers shall solicit proposals or quotations only when there is a definite intention to award a contract. Subpart 7.3 provides additional instructions for solicitations involving cost comparisons between Government and contractor performance.

(d) A proposal received in response to an RFP is an offer that can be accepted by the Government to create a binding contract, either following negotiations or, when authorized by 15.610, without discussion. Contracting officers should normally issue RFP's when they consider it reasonable to expect prospective contractors to respond with offers, even though they anticipate negotiations after receipt of offers. An RFP shall not be used for a solicitation for information or planning purposes. Solicitations involving cost comparisons between Government and contractor performance (see 7.302(b)) are not for information or planning purposes.

(e) A quotation received in response to an RFQ is not an offer and cannot be accepted by the Government to create a binding contract. It is informational in character. An RFQ may be used when the Government does not intend to award a contract on the basis of the solicitation but wishes to obtain price, delivery, or other market information for planning purposes (see 15.405).

(f) Oral solicitations are authorized for perishable subsistence. An oral solicitation may also be used when processing a written solicitation would delay the acquisition of supplies or services to the detriment of the Government. Use of an oral solicitation does not relieve the contracting officer from complying with other requirements of this regulation. In addition to other applicable documentation requirements (see subpart 4.1), documentation of oral solicitations shall include—

(1) A justification for use of an oral solicitation;

(2) Item description, quantity, and delivery schedule;

(3) Sources solicited, including the date, time, name of individual contacted, and prices quoted; and

(4) The solicitation number provided to the prospective contractors.

(g) Unless prohibited by agency regulations, letter RFP's may be used for acquisitions conducted under 6.302, Circumstances permitting other than full and open competition. When this technique is used, contracting officers must still comply with other portions of this regulation, such as subparts 5.2, Synopses of Proposed Contract Actions, and 15.8, Price Negotiation. Letter RFP's should be as clear and concise as possible; exclude any unnecessary verbiage or notices; and, as a minimum, contain the following:

(1) RFP number and date.

(2) Name and address of contracting office.

(3) Type of contract contemplated.

(4) Quantity, description, and required delivery for the item.

(5) Applicable certifications and representations.

(6) Contract terms and conditions (reference to prior contract or updates should be provided, as applicable).

(7) Offer due date.

(8) Other relevant information; e.g., incentives, variations in delivery schedule, any peculiar or different requirements, cost proposal support, and different data requirements.

(h) If, after considering any responses to a proper notice of proposed sole source contract action (see 5.207(d)(3)), the contracting officer determines that more than one source can meet the Government's needs, the contracting officer shall solicit offers using competitive procedures. The contracting officer shall proceed in accordance with 5.203 for publicizing and response times.

(i) Unless prohibited or otherwise restricted by agency procedures, contracting officers may authorize facsimile proposals (see 15.407(j)). In determining whether or not to authorize facsimile proposals, the contracting officer shall consider such factors as—

(1) Anticipated proposal size and volume;

(2) Urgency of the requirement;

(3) Frequency of price changes;

(4) Availability, reliability, speed, and capacity of the receiving facsimile equipment; and

(5) Adequacy of administrative procedures and controls for receiving, identifying, recording, and safeguarding facsimile proposals, and ensuring their timely delivery to the proposal opening location.

(j) If facsimile proposals are authorized, contracting officers may, after the date set for receipt of proposal, request offeror(s) to provide the complete original signed proposal.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 17857, May 18, 1988; 54 FR 48984, Nov. 28, 1989; 55 FR 25527, June 21, 1990]

15.403 Solicitation mailing lists.

Contracting offices shall establish, maintain, and use lists of potential sources in accordance with 14.205.

15.404 Presolicitation notices and conferences.

(a) *General.* Presolicitation notices and conferences may be used as preliminary steps in negotiated acquisitions in order to—

(1) Develop or identify interested sources;

(2) Request preliminary information based on a general description of the supplies or services involved;

(3) Explain complicated specifications and requirements to interested sources; and

(4) Aid prospective contractors in later submitting proposals without undue expenditure of effort, time, and money.

(b) *Presolicitation notices.* (1) When presolicitation notices are used, the contracting officer shall prepare and issue the notice to potential sources and shall synopsize the notice in accordance with subpart 5.2.

(2) Each presolicitation notice shall—

(i) Define as explicitly as possible the information to be furnished in the response;

(ii) Indicate whether it is contemplated that the presolicitation notice will be followed by a conference and a formal solicitation; and

(iii) Request an expression of interest in the contemplated acquisition by a specified date.

(3) In complex acquisitions, the presolicitation notice may also request information pertaining to management, engineering, and production capabilities. Detailed drawings, specifications, or plans will not normally be included with a presolicitation notice.

(4) The contracting officer shall furnish copies of the solicitation to (i) all those responding affirmatively to the presolicitation notice and (ii) other prospective contractors upon their request (but see subpart 9.4, Debarment, Suspension, and Ineligibility).

(c) *Presolicitation conferences.* (1) The presolicitation conference may be used only when approved at a level higher than the contracting officer. It shall not be used as a method for prequalification of offerors.

(2) The contracting officer shall—

(i) Advise all organizations responding to the presolicitation notice of the details of any pending presolicitation conference;

(ii) Conduct the conference and arrange for technical and legal personnel to attend, as appropriate; and

(iii) Furnish copies of the solicitation to all organizations attending the conference, unless they decline to participate in the acquisition.

15.405 Solicitations for information or planning purposes.

15.405-1 General.

When information necessary for planning purposes cannot be obtained from potential sources by more economical and less formal means, the contracting officer may determine in writing that a solicitation for information or planning purposes is justified. If this determination is approved, in accordance with agency procedures, at a level higher than that of the contracting officer, the contracting officer shall then issue the solicitation.

15.405-2 Solicitation provision.

The contracting officer shall insert on the face of each solicitation (other than those excluded by 15.401) issued for information or planning purposes the provision at 52.215-3, Solicitation for Information or Planning Purposes.

15.406 Preparing requests for proposals (RFP's) and requests for quotations (RFQ's).

15.406-1 Uniform contract format.

(a) Contracting officers shall prepare solicitations and resulting contracts using the uniform contract format outlined in Table 15-1. The format facilitates preparation of the solicitation and contract, as well as reference to and use of those documents by offerors and contractors. The uniform contract format is optional for acquisitions outside the United States, its possessions, its territories, and Puerto Rico. It does not apply to the following:

(1) Basic agreements (see 16.702).

(2) Construction and architect-engineer contracts (see part 36).

(3) Shipbuilding (including design, construction, and conversion), ship overhauls, and ship repairs.

(4) Subsistence.

(5) Contracts requiring special contract forms prescribed elsewhere in this regulation that are inconsistent with the uniform contract format.

(6) Letter Request for Proposals (see 15.402).

(7) Contracts exempted by the agency head or a designee.

(8) Contracts utilizing the simplified contract format (see 15.416).

(b) Solicitations to which the uniform contract format applies shall include Parts I, II, III, and IV (see 15.406-2 through 15.406-5). Upon award, contracting officers shall not physically include Part IV in the resulting contract, but shall retain in their contract file Section K, Representations, certifications, and other statements of offerors, as completed by the contractor. Award by acceptance of a proposal on the award portion of SF 33, SF 26, or SF 1447 incorporates Section K by reference in the resultant contract. Contracts requiring a bilateral document shall incorporate Section K by reference in the signed contract.

TABLE 15-1

Uniform Contract Format

Section	Title

M	Evaluation factors for award

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1739, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 17857, May 16, 1988; 54 FR 48984, Nov. 28, 1989]

15.406-2 Part I—The Schedule.

The contracting officer shall prepare the contract Schedule as follows:

(a) *Section A, Solicitation/contract form.*

(1) Prepare RFP's on Standard Form 33, Solicitation, Offer and Award (53.301-33) or Standard Form 1447, Solicitation/Contract (53.301-1447), unless otherwise permitted by this regulation. The first page of the SF 33 or SF 1447 is the first page of the solicitation. The first page of the SF 33 includes section A of the uniform contract format. When the SF 1447 is used as the solicitation document, ensure the information in subdivisions (a)(3)(i) and (a)(3)(iv) of this subsection are inserted in block 9 of the SF 1447.

(2) Prepare RFQ's on Standard Form 18, Request for Quotations (53.301-18). Agencies may overprint the SF 18 to provide for Section A of the uniform contract format.

(3) When other than SF 33, SF 18, or SF 1447 is used, include the following on the first page of the solicitation:

(i) Name, address, and location of issuing activity, including room and building where proposals or quotations must be submitted.

(ii) Solicitation number.

(iii) Date of issuance.

(iv) Closing date and time.

(v) Number of pages.

(vi) Requisition or other purchase authority.

(vii) Brief description of item or service.

(viii) Requirement for the offeror or quoter to provide its name and complete address, including street, city, county, State, and Zip Code.

(ix) A statement that offerors or quoters should include in the offer or quotation the address to which payment should be mailed, if that address is different from that shown for the offeror or quoter.

(b) *Section B, Supplies or services and prices/costs.* Include on the second page of the solicitation brief descriptions of the supplies or services; e.g., item number, national stock number/part number if applicable, nouns, and quantities. (This includes incidental deliverables such as manuals and reports.) The second page may be supplemented as necessary by Optional Form 336, Continuation Sheet (53.302-336).

(c) *Section C, Description/specifications/work statement.* Include any description or specifications needed in addition to Section B (see part 10, Specifications, Standards, and Other Product Descriptions).

(d) *Section D, Packaging and marking.* Provide packaging, packing, preservation, and marking requirements, if any (see 10.004(e)).

(e) *Section E, Inspection and acceptance.* Include inspection, acceptance, quality assurance, and reliability requirements (see part 46, Quality Assurance).

(f) *Section F, Deliveries or performance.* Specify the requirements for time, place, and method of delivery or performance (see part 12, Contract

Delivery or Performance, and 47.301-1).

(g) *Section G, Contract administration data.* Include any required accounting and appropriation data and any required contract administration information or instructions other than those on the solicitation form.

(h) *Section H, Special contract requirements.* Include a clear statement of any special contract requirements that are not included in Section I, Contract clauses, or in other sections of the uniform contract format.

[48 FR 42187, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986; 53 FR 17857, May 18, 1988; 54 FR 29281, July 11, 1989; 54 FR 48985, Nov. 28, 1989; 55 FR 38516, Sept. 18, 1990]

15.406-3 Part II—Contract clauses.

(a) *Section I, Contract clauses.* The contracting officer shall include in this section the clauses required by law or by this regulation and any additional clauses expected to be included in any resulting contract, if these clauses are not required in any other section of the uniform contract format.

(b) When contracting by negotiation, the contracting officer shall insert the clause at 52.215-33, Order of Precedence, in solicitations and contracts to which the uniform contract format applies.

(c) Any alteration pertaining to the contract shall be included in this section as part of the clause at 52.252-4, Alterations in Contract. See part 52, Solicitation Provisions and Contract Clauses.

[51 FR 2649, Jan. 17, 1986, as amended at 53 FR 17858, May 18, 1988]

15.406-4 Part III—List of Documents, exhibits, and other attachments.

Section J, List of attachments. The contracting officer shall list the title, date, and number of pages for each attached document, exhibit, and other attachment.

15.406-5 Part IV—Representations and instructions.

The contracting officer shall prepare the representations and instructions as follows:

(a) *Section K, Representations, certifications, and other statements of offerors or quoters.* Include in this section those solicitation provisions that require representations, certifications, or the submission of other information by offerors or quoters.

(b) *Section L, Instructions, conditions, and notices to offerors or quoters.* Insert in this section solicitation provisions and other information and instructions not required elsewhere to guide offerors or quoters in preparing proposals or quotations. Any alteration pertaining to the solicitation shall be included in this section as part of the provision at 52.252-3, Alterations in Solicitation. Prospective offerors or quoters may be instructed to submit technical proposals in severable parts to meet agency requirements. The severable parts should provide for separation of technical and cost or pricing data. The instructions may specify further organization of proposal or quotation parts, such as (1) administrative, (2) management, (3) technical, and (4) cost or pricing data.

(c) *Section M, Evaluation factors for award.* Identify all factors, including price or cost, and any significant subfactors that will be considered in awarding the contract (see 15.605(e) and (f) and the multiple award provision at 52.215-34) and state the relative importance the Government places on those evaluation factors and subfactors.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 19715, May 30, 1986; 53 FR 17858, May 18, 1988]

15.407 Solicitation provisions.

(a) *Solicitations,* as used in this section, means requests for proposals (RFP's) and requests for quotations (RFQ's) other than those excluded by 15.401 and those for information or planning purposes. See 15.405-2 for the solicitation provision used with solicitations for information or planning purposes.

(b) The contracting officer may, upon the approval of the chief of the contracting office, insert the provision at 52.215-4, Notice of Possible Standardization, in solicitations for supplies that subsequently might be standardized. See 14.201-6(n) regarding use of the provision in invitations for bids.

(c) The contracting officer shall insert in solicitations the provisions at—

(1) 52.215-5, Solicitation Definitions;

(2) 52.215-6, Type of Business Organization;

(3) 52.215-7, Unnecessarily Elaborate Proposals or Quotations;

(4) 52.215-8, Amendments to Solicitations;

(5) 52.215-9, Submission of Offers;

(6) 52.215-10, Late Submissions, Modifications, and Withdrawals of Proposals, for solicitations issued in the United States and Canada for submission of offers to a contracting office in the United States or Canada;

(7) 52.215-11, Authorized Negotiators; and

(8) 52.215-12, Restriction on Disclosure and Use of Data; and

(9) 52.215-36, Late Submissions, Modifications, and Withdrawals of Proposals (Overseas), for solicitations under which offers are to be submitted to a contracting office outside the United States or Canada.

(d) The contracting officer shall insert in RFP's the provisions at—

(1) 52.215-13, Preparation of Offers;

(2) 52.215-14, Explanation to Prospective Offerors;

(3) 52.215-15, Failure to Submit Offer; and

(4) 52.215-16, Contract Award.

(e)(1) The contracting officer shall insert the provision at 52.215-17, Telegraphic Proposals, in solicitations that authorize telegraphic proposals or quotations.

(2) The contracting officer shall insert the basic provision with its Alternate 1 in solicitations that are for perishable subsistence and when the contracting officer considers that offerors will be unwilling to provide acceptance periods long enough to allow written confirmation.

(f) The contracting officer shall insert the provision at 52.215-19, Period for Acceptance of Offer, in RFP's that are not issued on SF 33 or SF 1447 except those (1) for construction work or (2) in which the Government specifies a minimum acceptance period.

(g) The contracting officer shall insert the provision at 52.215-20, Place of Performance, in solicitations except those in which the place of performance is specified by the Government.

(h) The contracting officer shall insert the provision at 52.215-34, Evaluation of Offers for Multiple Awards, in requests for proposals if the contracting officer determines that multiple awards might be made if doing so is economically advantageous to the Government.

(i) The contracting officer shall insert the provision at 52.215-35, Annual Representations and Certifications—Negotiation, in requests for proposals if annual representations and certifications are utilized (see 14.213).

(j) The contracting officer shall insert the provision at 52.215-18, Facsimile Proposals, in solicitations if facsimile proposals are authorized (see 15.402(i)).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2650, Jan. 17, 1986; 51 FR 19715, May 30, 1986; 53 FR 43390, Oct. 26, 1988; 54 FR 5054, Jan. 31, 1989; 54 FR 48985, Nov. 28, 1989]

15.408 Issuing solicitations.

(a) The contracting officer shall issue unclassified solicitations to potential sources in conformance with the policy and procedures in parts 5 and 6.

(b) Solicitations involving classified information shall be handled as prescribed by agency regulations.

(c) If the contracting office is located in the United States and the security classification permits, any solicitation or related correspondence sent to a foreign address shall be sent by international air mail. Similarly, if the security classification permits, contracting offices located outside the United States shall use international air mail in appropriate circumstances.

(d) A master solicitation may be used for negotiated acquisitions, subject to the criteria and procedures in 14.203-3.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 29281, July 11, 1989]

15.409 Pre-proposal conferences.

(a) A pre-proposal conference may be held to brief prospective offerors after a solicitation has been issued but before offers are submitted. Generally, the Government uses these conferences in complex negotiated acquisitions to explain or clarify complicated specifications and requirements.

(b) The contracting officer shall decide if a pre-proposal conference is required and make the necessary arrangements, including the following:

(1) If notice was not in the solicitation, give all prospective offerors who received the solicitation adequate notice of the time, place, nature, and scope of the conference.

(2) If time allows, request prospective offerors to submit written questions in advance. Prepared answers can then be delivered during the conference.

(3) Arrange for technical and legal personnel to attend the conference, if appropriate.

(c) The contracting officer or a designated representative shall conduct the pre-proposal conference, furnish all prospective offerors identical information concerning the proposed acquisition, make a complete record of the conference, and promptly furnish a copy of that record to all prospective offerors. Conferees shall be advised that—

(1) Remarks and explanations at the conference shall not qualify the terms of the solicitation; and

(2) Terms of the solicitation and specifications remain unchanged unless the solicitation is amended in writing.

15.410 Amendment of solicitations before closing date.

(a) After issuance of a solicitation, but before the date set for receipt of proposals, it may be necessary to (1) make changes to the solicitation, including, but not limited to, significant changes in quantity, specifications, or delivery schedules, (2) correct defects or ambiguities, or (3) change the closing date for receipt of proposals. Standard Form 30, Amendment of Solicitation/Modification of Contrac (53.301-30), shall be used for amendin a request for proposals (RFP).

(b) The contracting officer shall determine if the closing date needs to b changed when amending a solicitation If the time available before closing i insufficient, prospective offerors o quoters shall be notified by telegram or telephone of an extension of th closing date, and the notification shal be confirmed in the written amendment to the solicitation. The contracting officer shall not award a contrac unless any amendments made to an RFP have been issued in sufficient time to be considered by prospective offerors.

(c) Any information given to a prospective offeror or quoter shall be furnished promptly to all other prospective offerors or quoters as a solicitation amendment if (1) the information is necessary in submitting proposals o quotations or (2) the lack of such information would be prejudicial to prospective offeror or quoter.

15.411 Receipt of proposals and quotations.

(a) The procedures for receipt an handling of proposals and quotation in negotiated acquisitions should b similar to the receipt and safeguardin of bids in sealed bidding (see 14.401) Proposals and quotations shall b marked with the date and time of receipt.

(b) After receipt, proposals and quotations shall be safeguarded from unauthorized disclosure. Classified proposals and quotations shall be handle in accordance with agency regulation Also see OMB Circular No. A-76, th supplemental Handbook, and subpar 7.3, Contractor Versus Governmen Performance, for safeguarding cost comparison information.

[48 FR 42187, Sept. 19, 1983, as amended a 50 FR 1740, Jan. 11, 1985; 50 FR 52429, De 23, 1985]

15.412 Late proposals and modifications.

(a) *Modification*, as used in this section, means a modification of a proposal, including a final modification in response to the contracting officer's request for *best and final* offers. The term does not include normal revisions of offers made during the conduct of negotiations by offerors selected for discussion.

(b) Offerors are responsible for submitting offers, and any modifications to them, so as to reach the Government office designated in the solicitation on time. Unless the solicitation states a specific time, the time for receipt is 4:30 p.m., local time for the designated Government office on the date that proposals are due.

(c) Proposals, and modifications to them, that are received in the designated Government office after the exact time specified are *late* and shall be considered only if (1) they are received before award is made, and (2) the circumstances, including acceptable evidence of date of mailing or receipt at the Government installation, meet the specific requirements of the provision at 52.215-10, Late Submissions, Modifications, and Withdrawals of Proposals.

(d) When a late proposal or modification is received and it is clear from available information that it cannot be considered for award, the contracting officer shall promptly notify the offeror that it was received late and will not be considered. The notice need not be given when the proposed contract is to be awarded within a few days and the notice prescribed in 15.1001(c)(1) would suffice.

(e) When a late proposal or modification is transmitted to a contracting officer in the United States or Canada by registered or certified mail or by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee and is received before award, the offeror shall be promptly notified substantially in accordance with the notice in 14.304-2, appropriately modified to relate to proposals.

(f) Late proposals and modifications that are not considered shall be held unopened, unless opened for identification, until after award and then retained with other unsuccessful proposals.

(g) The following shall, if available, be included in the contracting office files for each late proposal, quotation, or modification:

(1) The date of mailing, filing, or delivery.

(2) The date and hour of receipt.

(3) Whether or not considered for award.

(4) The envelope, wrapper, or other evidence of date of submission.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 23606, June 4, 1985; 54 FR 48985, Nov. 28, 1989]

15.413 Disclosure and use of information before award.

See 3.104 for statutory and regulatory requirements related to the disclosure of proprietary and source selection information.

[55 FR 36795, Sept. 6, 1990]

15.413-1 Alternate I.

(a) After receipt of proposals, none of the information contained in them or concerning the number or identity of offerors shall be made available to the public or to anyone in the Government except as otherwise authorized in accordance with 3.104 (for procedures regarding requests for information from Members of Congress, see 5.403).

(b) During the preaward or preacceptance period of a negotiated acquisition, only the contracting officer, the contracting officer's superiors having contractual authority, and others specifically authorized shall transmit technical or other information and conduct discussions with prospective contractors. Information shall not be furnished to a prospective contractor if, alone or together with other information, it may afford the prospective contractor an advantage over others (see 15.610, Written and oral discussion). However, general information that is not prejudicial to others may be furnished upon request.

(c) Prospective contractors and subcontractors may place restrictions on the disclosure and use of data in proposals and quotations (see 3.104 and the provision at 52.215-12, Restriction on Disclosure and Use of Data). Contracting officers shall not exclude proposals from consideration merely because they restrict disclosure and use of data, nor shall they be prejudiced by that restriction. The portions of the proposal that are so restricted (except for information that is also obtained from another source without restriction) shall be used only for evaluation and shall not be disclosed outside the Government without permission of the prospective contractor (but see subpart 24.2, Freedom of Information Act).

[48 FR 42187, Sept. 19, 1983, as amended at 55 FR 36795, Sept. 6, 1990]

15.413-2 Alternate II.

Agency regulations may provide that the following alternate procedures may be used instead of those specified in 15.413-1.

(a) Proposals furnished to the Government are to be used for evaluation purposes only. Disclosure outside the Government for evaluation is permitted only to the extent authorized by, and in accordance with the procedures in, 15.413-2(f).

(b) While the Government's limited use of proposals does not require that the proposal bear a restrictive notice, proposers should, if they desire to maximize protection of their trade secrets or confidential or privileged commercial and financial information contained in them, apply the restrictive notice prescribed in the provision at 52.215-12, Restriction on Disclosure and Use of Data, to such information (also see 15.407(c)(8)). In any event, information contained in proposals will be protected to the extent permitted by law, but the Government assumes no liability for the use or disclosure of information (data) not made subject to such notice in accordance with the provision at 52.215-12.

(c) If proposals are received with more restrictive conditions than those in the provision at 52.215-12, the contracting officer or coordinating officer shall inquire whether the submitter is willing to accept the conditions of the provision of 52.215-12. If the submitter does not, the contracting officer or coordinating officer shall, after consultation with counsel, either return the proposal or accept it as marked. Contracting officers shall not exclude from consideration any proposals merely because they contain an authorized or agreed-to notice, nor shall they be prejudiced by such notice.

(d) Release of proposal information (data) before decision as to the award of a contract, or the transfer of valuable and sensitive information between competing offerors during the competitive phase of the acquisition process, would seriously disrupt the Government's decision-making process and undermine the integrity of the competitive acquisition process, thus adversely affecting the Government's ability to solicit competitive proposals and award a contract which would best meet the Government's needs and serve the public interest. Therefore, to the extent permitted by law, none of the information (data) contained in proposals (except as authorized in agency regulations) is to be disclosed outside the Government before the Government's decision as to the award of a contract. In the event an outside evaluation is to be obtained, it shall be only to the extent authorized by, and in accordance with the procedures of, 15.413-2(f).

(e) In order to assure that solicited proposals (whether bearing a restrictive notice or not) are properly handled, agency implementing regulations may require the following Government notice to be placed on the cover sheet upon their receipt. (This notice is required for all unsolicited proposals, see 15.508.) This is a Government notice for internal handling purposes and does not affect any obligations or rights the Government may have with regard to the use or disclosure of any information (data) contained in the proposal or quotation.

GOVERNMENT NOTICE FOR HANDLING PROPOSALS

This proposal shall be used and disclosed for evaluation purposes only, and a copy of this Government notice shall be applied to any reproduction or abstract thereof. Any authorized restrictive notices which the submitter places on this proposal shall also be strictly complied with. Disclosure of this proposal outside the Government for evaluation purposes shall be made only to the extent authorized by, and in accordance with, the procedures in (cite agency regulations implementing 15.413-2(f)).

If agency implementing regulations do not authorize release of proposals outside the Government for evaluation purposes, the last sentence of the foregoing Government notice is to be deleted.

(f) If authorized in agency implementing regulations, agencies may release proposals outside the Government for evaluation, consistent with the following:

(1) Decisions to release proposals outside the Government for evaluation purposes shall be made by the agency head or designee;

(2) Written agreement must be obtained from the evaluator that the information (data) contained in the proposal will be used only for evaluation purposes and will not be further disclosed;

(3) Any authorized restrictive legends placed on the proposal by the prospective contractor or subcontractor or by the Government shall be applied to any reproduction or abstracted information made by the evaluator;

(4) Upon completing the evaluation, all copies of the proposal, as well as any abstracts thereof, shall be returned to the Government office which initially furnished them for evaluation; and

(5) All determinations to release the proposal outside the Government take into consideration requirements for avoiding organizational conflicts of interest and the competitive relationship, if any, between the prospective contractor or subcontractor and the prospective outside evaluator.

(6) Prior to release of a proposal, the contracting officer obtains from the evaluator the certificate(s) required by 3.104-12.

(g) The submitter of any proposal shall be provided notice adequate to afford an opportunity to take appropriate action before release of any information (data) contained therein pursuant to a request under the Freedom of Information Act (5 U.S.C. 552); and, time permitting, the submitter should be consulted to obtain assistance in determining the eligibility of the information (data) in question as an exemption under the Act. (See also subpart 24.2, Freedom of Information Act.)

[48 FR 42187, Sept. 19, 1983, as amended at 55 FR 36795, Sept. 6, 1990]

15.414 Forms.

(a) Standard Form 33 (SF 33), Solicitation, Offer and Award (see 53.301-33), shall be used in connection with the solicitation and award of negotiated contracts. Award may be made using the Award portion of SF 33, except as provided in paragraph (b) of this section.

(b) Standard Form 26 (SF 26), Award/Contract (see 53.301-26), shall be used when entering into negotiated contracts when the prospective contractor has amended its offer, unless—

(1) The contract is for the construction, alteration, or repair of buildings, bridges, roads, or other real property;

(2) The acquisition is one for which the FAR prescribes special contract forms; or

(3) Use of a purchase order is appropriate.

(c) Standard Form 1447 (SF 1447), Solicitation/Contract (see 53.301-1447), shall be used in connection with negotiated acquisitions that use the simplified contract format and may be used in lieu of the SF 26 or SF 33 for other acquisitions. Award is generally made using the award portion of the SF 1447 (see 53.215-1).

[54 FR 48985, Nov. 28, 1989]

15.415 Economic purchase quantities (supplies).

Contracting officers shall comply with the economic purchase quantity planning requirements for supplies in subpart 7.2. See 7.203 for instructions regarding use of the provision at 52.207-4, Economic Purchase Quantity—Supplies, and 7.204 for guidance on handling responses to that provision.

[50 FR 35479, Aug. 30, 1985]

15.416 Simplified contract format.

For firm-fixed-price or fixed-price with economic price adjustment acquisitions of supplies and services, the contracting officer may use the simplified contract format in lieu of the uniform contract format (see 14.201-1).

[54 FR 48985, Nov. 28, 1989]

Subpart 15.5—Unsolicited Proposals

15.500 Scope of subpart.

This subpart prescribes policies and procedures for submission, receipt, evaluation, and acceptance of unsolicited proposals. It does not govern the competitive selection of basic research proposals (see 6.102(d)(2)).

[50 FR 52433, Dec. 23, 1985]

15.501 Definitions.

Advertising material, as used in this subpart, means material designed to acquaint the Government with a prospective contractor's present products or potential capabilities, or to determine the Government's interest in buying these products.

Commercial product offer means an offer of a commercial product that is usually sold to the general public and that the vendor wishes to see introduced in the Government's supply system as an alternate or replacement for an existing supply item.

Contribution, as used in this subpart, means a concept, suggestion, or idea presented to the Government for its use with no indication that the source intends to devote any further effort to it on the Government's behalf.

Coordinating office, as used in this subpart, means a point of contact established within the agency to coordinate the receipt, evaluation, and disposition of unsolicited proposals.

Technical correspondence, as used in this subpart, means written requests for information regarding Government interest in research areas, submissions of research descriptions, preproposal explorations, and other written technical inquiries.

Unsolicited proposal means a written proposal that is submitted to an agency on the initative of the submitter for the purpose of obtaining a contract with the Government and which is not in response to a formal or informal request (other than an agency request constituting a publicized general statement of needs).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.502 Policy.

Agencies may accept unsolicited proposals in accordance with 15.507. To award a contract based on an unsolicited proposal without providing for full and open competition requires that appropriate authority exists in subpart 6.3. In this connection, 6.302-1(a)(2)(i) provides special authority for unsolicited research proposals.

[50 FR 52433, Dec. 23, 1985]

15.503 General.

(a) Unsolicited proposals are a valuable means for Government agencies to obtain innovative or unique methods or approaches to accomplishing their missions from sources outside the Government.

(b) Advertising material, commercial product offers, contributions, or technical correspondence as defined in 15.501 are not unsolicited proposals.

(c) A valid unsolicited proposal must—

(1) Be innovative and unique;

(2) Be independently originated and developed by the offeror;

(3) Be prepared without Government supervision;

(4) Include sufficient detail to permit a determination that Government support could be worthwhile and the proposed work could benefit the agency's research and development or other mission responsibilities; and

(5) Not be an advance proposal for a known agency requirement that can be acquired by competitive methods.

(d) Unsolicited proposals in response to a publicized general statement of agency needs are considered to be independently originated.

(e) Agencies that receive unique and innovative unsolicited proposals not related to their missions may identify for the offeror other agencies whose missions bear a reasonable relationship to the proposal's subject matter.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 51 FR 52433, Dec. 23, 1985]

15.504 Advance guidance.

(a) Agencies shall encourage potential offerors to make preliminary contacts with appropriate agency personnel before expending extensive effort on a detailed unsolicited proposal or submitting proprietary data to the Government. These preliminary contacts should include—

(1) Inquiries as to the general need for the type of effort contemplated; and

(2) Contacts with agency technical personnel for the limited purpose of obtaining an understanding of the agency mission and responsibilities relative to the type of effort contemplated.

(b) Agencies shall make available to potential offerors of unsolicited proposals at least the following free written information:

(1) Definition (see 15.501), and content (see 15.505), of an unsolicited proposal acceptable for formal evaluation.

(2) Requirements concerning responsible prospective contractors (see subpart 9.1), and organizational conflicts of interest (see subpart 9.5).

(3) Role of technical correspondence before proposal preparation.

(4) Agency contact points for information regarding advertising, contributions, solicitation mailing lists, and other types of transactions frequently mistaken for unsolicited proposals.

(5) Procedures for submission and evaluation of unsolicited proposals.

(6) Information sources on agency objectives and areas of potential interest.

(7) Instructions for identifying and marking proprietary information so that restrictive legends conform to 15.509.

(c) Agency personnel shall conduct personal contacts without making any agency commitments concerning the acceptance of unsolicited proposals.

15.505 Content of unsolicited proposals.

Unsolicited proposals should contain the following information to permit consideration in an objective and timely manner:

(a) Basic information including—

(1) Offeror's name and address and type of organization; e.g., profit, nonprofit, educational, small business;

(2) Names and telephone numbers of technical and business personnel to be contacted for evaluation or negotiation purposes;

(3) Identity of proprietary data to be used only for evaluation purposes;

(4) Names of other Federal, State, local agencies, or parties receiving the proposal or funding the proposed effort;

(5) Date of submission; and

(6) Signature of a person authorized to represent and contractually obligate the offeror.

(b) Technical information including—

(1) Concise title and abstract (approximately 200 words) of the proposed effort;

(2) A reasonably complete discussion stating the objectives of the effort or activity, the method of approach and extent of effort to be employed, the nature and extent of the anticipated results, and the manner in which the work will help to support accomplishment of the agency's mission;

(3) Names and biographical information on the offeror's key personnel who would be involved, including alternates; and

(4) Type of support needed from the agency; e.g., facilities, equipment, materials, or personnel resources.

(c) Supporting information including—

(1) Proposed price or total estimated cost for the effort in sufficient detail for meaningful evaluation;

(2) Period of time for which the proposal is valid (a six month minimum is suggested);

(3) Type of contract preferred;

(4) Proposed duration of effort;

(5) Brief description of the organization, previous experience in the field, and facilities to be used; and

(6) Required statements, if applicable, about organizational conflicts of interest, security clearances, and environmental impacts.

15.506 Agency procedures.

(a) Agencies shall establish procedures, including assurance of accountability, for controlling the receipt, evaluation, and timely disposition of proposals consistent with the requirements of this subpart. The procedures shall include controls on the reproduction and disposition of proposal material, particularly data identified by the offeror as subject to duplication, use, or disclosure restrictions.

(b) Agencies shall establish contact points (see 15.504) to coordinate the receipt and handling of unsolicited proposals. Contact points outside agency contracting offices shall coordinate with qualified contracting personnel.

[48 FR 42187, Sept. 19, 1983, as amended at 55 FR 38516, Sept. 18, 1990]

15.506-1 Receipt and initial review.

(a) Before initiating a comprehensive evaluation, the agency contact point shall determine if the unsolicited proposal—

(1) Contains sufficient technical and cost information;

(2) Has been approved by a responsible official or other representative authorized to contractually obligate the offeror; and

(3) Complies with the marking requirements of 15.509.

(b) If the proposal meets these requirements, the contact point shall promptly acknowledge and process the proposal. If it does not, the contact point shall provide the offeror an opportunity to submit the required data.

(c) Agencies are not required to perform comprehensive evaluations of unsolicited proposals not related to their missions. If such proposals are received, the agency contact point shall promptly reply to the offeror, state how the agency interprets the proposal, and why it is not being evaluated.

15.506-2 Evaluation.

(a) Comprehensive evaluations shall be coordinated by the agency contact point, who shall attach or imprint on each unsolicited proposal circulated for evaluation the legend required by 15.509(d). When performing a comprehensive evaluation of an unsolicited proposal, evaluators shall consider the following factors, in addition to any others appropriate for the particular proposal:

(1) Unique and innovative methods, approaches, or concepts demonstrated by the proposal.

(2) Overall scientific, technical, or socio-economic merits of the proposal.

(3) Potential contribution of the effort to the agency's specific mission.

(4) The offeror's capabilities, related experience, facilities, techniques, or unique combinations of these which are integral factors for achieving the proposal objectives.

(5) The qualifications, capabilities, and experience of the proposed principal investigator, team leader, or key personnel who are critical in achieving the proposal objectives.

(b) The evaluators shall notify the coordinating office of their conclusions and recommendations when the evaluation is completed.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.507 Contracting methods.

(a) A favorable comprehensive evaluation of an unsolicited proposal does not, in itself, justify awarding a contract without providing for full and open competition. Agency contact points shall return an unsolicited proposal to the offeror, citing reasons, when its substance—

(1) Is available to the Government without restriction from another source;

(2) Closely resembles a pending competitive acquisition requirement; or

(3) Does not demonstrate an innovative and unique method, approach, or concept.

(b) The contracting officer may commence negotiation only when—

(1) The unsolicited proposal has received a favorable comprehensive evaluation;

(2) The unsolicited proposal is not of the character described in 15.507(a);

(3) The agency technical office sponsoring the contract supports its recommendation with facts and circumstances that preclude competition, including consideration of the evaluation factors in 15.506-2(a), furnishes the necessary funds, and provides the certification required by 6.303-2(b);

(4) The contracting officer has complied with the synopsis requirements of subpart 5.2; and

(5) The contracting officer has executed any justification and obtained any approval or determination and findings that is required by subpart 6.3. (For unsolicited research propos-

als, see 6.302-1(a)(2)(i). A valid unsolicited proposal for other than research may be accepted only if otherwise permissible under other provisions of subpart 6.3.)

(c) If the unsolicited proposal is acceptable for award without competition, the agency and offeror shall use the proposal as the basis for negotiation.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52433, Dec. 23, 1985]

15.508 Prohibitions.

(a) Government personnel shall not use any data, concept, idea, or other part of an unsolicited proposal as the basis, or part of the basis, for a solicitation or in negotiations with any other firm unless the offeror is notified of and agrees to the intended use. However, this prohibition does not preclude using any data, concept, or idea available to the Government from other sources without restriction.

(b) Government personnel shall not disclose restrictively marked information (see 15.509 and 3.104) included in an unsolicited proposal. The disclosure of such information concerning trade secrets, processes, operations, style of work, apparatus, and other matters, except as authorized by law, may result in criminal penalties under 18 U.S.C. 1905.

[48 FR 42187, Sept. 19, 1983, as amended at 55 FR 36795, Sept. 6, 1990]

15.509 Limited use of data.

(a) An unsolicited proposal may include data that the offeror does not want disclosed for any purpose other than evaluation. If the offeror wishes to restrict the proposal, the title page must be marked with the following legend:

USE AND DISCLOSURE OF DATA

The data in this proposal shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed in whole or in part for any purpose other than to evaluate the proposal; *provided*, that if a contract is awarded to this offeror as a result of or in connection with the submission of these data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the contract. This restriction does not limit the Government's right to use information contained in the data if it is obtainable from another source without restriction. The data subject to this restriction are contained in Sheets ———————.

(b) The offeror shall also mark each restricted sheet with the following legend:

Use or disclosure of proposal data is subject to the restriction on the title page of this Proposal.

(c) The coordinating office shall return to the offeror any unsolicited proposal marked with a legend different from that provided in 15.509(a). The return letter will state that the proposal cannot be considered because it is impracticable for the Government to comply with the legend and that the agency will consider the proposal if it is resubmitted with the proper legend.

(d) The coordinating office shall place a cover sheet on the proposal or clearly mark it as follows, unless the offeror clearly states in writing that no restrictions are imposed on the disclosure or use of the data contained in the proposal:

UNSOLICITED PROPOSAL
USE OF DATA LIMITED

All Government personnel must exercise extreme care to ensure that the information in this proposal is not disclosed to an individual who has not been authorized access to such data in accordance with 3.104, and is not duplicated, used, or disclosed in whole or in part for any pupose other than evaluation of the proposal, without the written permission of the offeror. If a contract is awarded on the basis of this proposal, the terms of the contract shall control disclosure and use.

This notice does not limit the Government's right to use information contained in the proposal if it is obtainable from another source without restriction.

This is a Government notice, and shall not by itself be construed to impose any liability upon the Government or Government personnel for disclosure or use of data contained in this proposal.

(e) The above notice is used solely as a manner of handling unsolicited proposals that will be compatible with this subpart. However, the use of this notice shall not be used to justify the withholding of a record nor to improperly deny the public access to a record where an obligation is imposed on an agency by the Freedom of Information Act, 5 U.S.C. 552, as amended. A prospective offeror should identify trade secrets, commercial or financial information, and privileged or confidential information to the Government (see 15.509(a)).

(f) When an agency receives an unsolicited proposal without any restrictive legend from an educational or nonprofit organization or institution, and an evaluation outside the Government is necessary, the coordinating office shall—

(1) Attach a cover sheet clearly marked with the legend in 15.509(d);

(2) Change the beginning of this legend to read *"All Government and non-Government personnel...."*;

(3) Delete the words *"is not disclosed outside the Government and"*; and

(4) Require any non-Government evaluator to give a written agreement stating that data in the proposal will not be disclosed to others outside the Government, and to complete the certification required by 3.104-9.

(g) If the proposal is received with the restrictive legend (15.509(a)), the modified cover sheet shall also be used and permission shall be obtained from the offeror before release of the proposal for outside evaluation.

(h) When an agency receives an unsolicited proposal with or without a restrictive legend from other than an educational or nonprofit organization or institution, and evaluation by Government personnel outside the agency or by experts outside of the Government is necessary, written permission must be obtained from the offeror before release of the proposal for evaluation. The coordinating office shall—

(1) Clearly mark the cover sheet with the legend in 15.509(d) or as modified in 15.509(f);

(2) Obtain a written agreement from any non-Government evaluator stating that data in the proposal will not be disclosed to persons outside the Government; and

(3) Obtain the certifications required by 3.104-9 and a listing of all persons authorized access to proprietary information by the activity performing the evaluation.

[48 FR 42187, Sept. 19, 1983, as amended at 55 FR 36795, Sept. 6, 1990]

Subpart 15.6—Source Selection

15.600 Scope of subpart.

This subpart prescribes policies and procedures for selection of a source or sources in competitive negotiated acquisitions. Formal source selection procedures, involving boards, councils, or other groups for proposal evaluation, are in 15.612. Alternative procedures that limit discussions with offerors during the competition are discussed in 15.613.

15.601 Definitions.

Clarification, as used in this subpart, means communication with an offeror for the sole purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the proposal. It is achieved by explanation or substantiation, either in response to Government inquiry or as initiated by the offeror. Unlike discussion (see definition below), clarification does not give the offeror an opportunity to revise or modify its proposal, except to the extent that correction of apparent clerical mistakes results in a revision.

Deficiency, as used in this subpart, means any part of a proposal that fails to satisfy the Government's requirements.

Discussion, as used in this subpart, means any oral or written communication between the Government and an offeror (other than communications conducted for the purpose of minor clarification), whether or not initiated by the Government, that (a) involves information essential for determining the acceptability of a proposal, or (b) provides the offeror an opportunity to revise or modify its proposal.

Source selection authority means the Government official in charge of selecting the source. This title is most often used when the selection process is formal and the official is someone other than the contracting officer.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.602 Applicability.

(a) This subpart applies to negotiated contracting when source selection is based on—

(1) Cost or price competition between proposals that meet the Government's minimum requirements stated in the solicitation; or

(2) Competition involving an evaluation and comparison of cost or price and other factors.

(b) This subpart does not apply to small purchases under part 13.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.603 Purpose.

Source selection procedures are designed to—

(a) Maximize competition;

(b) Minimize the complexity of the solicitation, evaluation, and the selection decision;

(c) Ensure impartial and comprehensive evaluation of offerors' proposals; and

(d) Ensure selection of the source whose proposal has the highest degree of realism and whose performance is expected to best meet stated Government requirements.

15.604 Responsibilities.

(a) Agency heads or their designees are responsible for source selection.

(b) The cognizant technical official is responsible for the technical requirements related to the source selection process.

(c) The contracting officer is responsible for contractual actions related to the source selection process, including—

(1) Issuing solicitations to which this subpart applies in accordance with subpart 15.4 and this subpart;

(2) Conducting or coordinating cost or price analyses as prescribed in subpart 15.8;

(3) Conducting or controlling all negotiations concerning cost or price, technical requirements, and other terms and conditions; and

(4) Selecting the source for contract award, unless another official is designated as the source selection authority.

15.605 Evaluation factors.

(a) The factors that will be considered in evaluating proposals should be tailored to each acquisition and include only those factors that will have an impact on the source selection decision.

(b) The evaluation factors that apply to an acquisition and the relative importance of those factors are within the broad discretion of agency acquisition officials. However, price or cost to the Government shall be included as an evaluation factor in every source selection. Quality also shall be addressed in every source selection. In evaluation factors, quality may be expressed in terms of technical excellence management capability, personnel qualifications, prior experience, past performance, and schedule compliance. Any other relevant factors, such as cost realism, may also be included.

(c) While the lowest price or lowest total cost to the Government is properly the deciding factor in many source selections, in certain acquisitions the Government may select the source whose proposal offers the greatest value to the Government in terms of performance and other factors. This may be the case, for example, in the acquisition of research and development or professional services, or when cost-reimbursement contracting is anticipated.

(d) In awarding a cost-reimbursement contract, the cost proposal should not be controlling, since advance estimates of cost may not be valid indicators of final actual costs. There is no requirement that cost-reimbursement contracts be awarded on the basis of lowest proposed cost, lowest proposed fee, or the lowest total proposed cost plus fee. The award of cost-reimbursement contracts primarily on the basis of estimated costs may encourage the submission of unrealistically low estimates and increase the likelihood of cost overruns. The primary consideration should be which offeror can perform the contract in a manner most advantageous to the Government, as determined by evaluation of proposals according to the established evaluation criteria.

(e) The solicitation shall clearly state the evaluation factors, including price or cost and any significant subfactors, that will be considered in making the source selection and their relative importance (see 15.406-5(c)). Numerical weights, which may be employed in the evaluation of proposals, need not be disclosed in solicitations. The solicitation shall inform offerors of minimum requirements that apply to particular evaluation factors and significant subfactors.

(f) In addition to other factors, offers will be evaluated on the basis of advantages and disadvantages to the Government that might result from making more than one award (see 15.407(h)). The contracting officer shall assume for the purpose of making multiple awards that $500 would be the administrative cost to the Government for issuing and administering each contract awarded under a solicitation. Individual awards shall be for the items or combination of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 19715, May 30, 1986; 52 FR 21886, June 9, 1987; 52 FR 28225, July 28, 1987; 53 FR 27462, July 20, 1988; 55 FR 38516, Sept. 18, 1990]

15.606 Changes in Government requirements.

(a) When, either before or after receipt of proposals, the Government changes, relaxes, increases, or otherwise modifies its requirements, the contracting officer shall issue a written amendment to the solicitation. When time is of the essence, oral advice of changes may be given if the changes involved are not complex and all firms to be notified (see paragraph (b) below) are notified as near to the same time as possible. The contracting officer shall make a record of the oral advice and promptly confirm that advice in writing (see 15.410).

(b) In deciding which firms to notify of a change, the contracting officer shall consider the stage in the acquisition cycle at which the change occurs and the magnitude of the change, as follows:

(1) If proposals are not yet due, the amendment shall be sent to all firms that have received a solicitation.

(2) If the time for receipt of proposals has passed but proposals have not yet been evaluated, the amendment should normally be sent only to the responding offerors.

(3) If the competitive range (see 15.609(a)) has been established, only those offerors within the competitive range shall be sent the amendment.

(4) If a change is so substantial that it warrants complete revision of a solicitation, the contracting officer shall cancel the original solicitation and issue a new one, regardless of the stage of the acquisition. The new solicitation shall be issued to all firms originally solicited and to any firms added to the original list.

(c) If the proposal considered to be most advantageous to the Government (as determined according to the established evaluation criteria) involves a departure from the stated requirements, the contracting officer shall provide all offerors an opportunity to submit new or amended proposals on the basis of the revised requirements; *provided*, that this can be done without revealing to the other offerors the solution proposed in the original departure or any other information that is entitled to protection (see 15.407(c)(8) and 15.610(d)).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.607 Disclosure of mistakes before award.

(a) Contracting officers shall examine all proposals for minor informalities or irregularities and apparent clerical mistakes (see 14.405 and 14.406). Communication with offerors to resolve these matters is clarification, not discussion within the meaning of 15.610. However, if the resulting communication prejudices the interest of other offerors, the contracting officer shall not make award without discussions with all offerors within the competitive range.

(b) Except as indicated in paragraph (c) below, mistakes not covered in paragraph (a) above are usually resolved during discussion (see 15.610).

(c) When award without discussion is contemplated, the contracting officer shall comply with the following procedure:

(1) If a mistake in a proposal is suspected, the contracting officer shall advise the offeror (pointing out the suspected mistake or otherwise identifying the area of the proposal where the suspected mistake is) and request verification. If the offeror verifies its proposal, award may be made.

(2) If an offeror alleges a mistake in its proposal, the contracting officer shall advise the offeror that it may withdraw the proposal or seek correction in accordance with subparagraph (3) below.

(3) If an offeror requests permission to correct a mistake in its proposal, the agency head (or a designee not below the level of chief of the contracting office) may make a written determination permitting the correction; *provided*, that (i) both the existence of the mistake and the proposal actually intended are established by clear and convincing evidence from the solicitation and the proposal and (ii) legal review is obtained before making the determination.

(4) If the determination under subparagraph (3) above cannot be made, and the contracting officer still contemplates award without discussion, the offeror shall be given a final opportunity to withdraw or to verify its proposal.

(5) Verification, withdrawal, or correction under subparagraphs (c)(1) through (4) above is not considered discussion within the meaning of 15.610. If, however, correction of a mistake requires reference to documents, worksheets, or other data outside the solicitation and proposal in order to establish the existence of the mistake, the proposal intended, or both, the mistake may be corrected only through discussions under 15.610.

15.608 Proposal evaluation.

(a) Proposal evaluation is an assessment of both the proposal and the offeror's ability (as conveyed by the proposal) to successfully accomplish the prospective contract. An agency shall evaluate competitive proposals solely on the factors specified in the solicitation.

(1) *Cost or price evaluation.* The contracting officer shall use cost or price analysis (see subpart 15.8) to evaluate the cost estimate or price, not only to determine whether it is reasonable, but also to determine the offeror's understanding of the work and ability to perform the contract. The contracting officer shall document the cost or price evaluation.

(2) *Technical evaluation.* If any technical evaluation is necessary beyond ensuring that the proposal meets the minimum requirements in the solicitation, the cognizant technical official, in documenting the technical evaluation, shall include—

(i) The basis for evaluation;

(ii) An analysis of the technically acceptable and unacceptable proposals, including an assessment of each offeror's ability to accomplish the technical requirements;

(iii) A summary, matrix, or quantitative ranking of each technical proposal in relation to the best rating possible; and

(iv) A summary of findings.

(b) All proposals received in response to a solicitation may be rejected if the agency head determines in writing that—

(1) All otherwise acceptable proposals received are at unreasonably prices;

(2) The proposals were not independently arrived at in open competition, were collusive, or were submitted in bad faith (see subpart 3.3 for reports to be made to the Department of Justice);

(3) A cost comparison as prescribed in OMB Circular A-76 and subpart 7.3 shows that performance by the Government is more economical; or

(4) For other reasons, cancellation is clearly in the Government's interest.

(5) A violation or possible violation of section 27 of the Office of Federal Procurement Policy Act, as amended (41 U.S.C. 423), has occurred (see 3.104).

(c) The requirements of 14.407-3, Prompt payment discounts, are applicable to negotiated acquisitions.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1740, Jan. 11, 1985; 50 FR 26903, June 28, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 36795, Sept. 6, 1990]

15.609 Competitive range.

(a) The contracting officer shall determine which proposals are in the competitive range for the purpose of conducting written or oral discussion (see 15.610(b)). The competitive range shall be determined on the basis of cost or price and other factors that were stated in the solicitation and shall include all proposals that have a reasonable chance of being selected for award. When there is doubt as to whether a proposal is in the competitive range, the proposal should be included.

(b) If the contracting officer, after complying with 15.610(b), determines that a proposal no longer has a reasonable chance of being selected for contract award, it may no longer be considered for selection.

(c) The contracting officer shall notify in writing an unsuccessful offeror at the earliest practicable time that its proposal is no longer eligible for award (see 15.1001(b)).

(d) If the contracting officer initially solicits unpriced technical proposals, they shall be evaluated to determine which are acceptable to the Government or could, after discussion, be made acceptable. After necessary discussion of these technical proposals is completed, the contracting officer shall (1) solicit price proposals for all the acceptable technical proposals which offer the greatest value to the Government in terms of performance and other factors and (2) make award to the low responsible offeror, either without or following discussion, as appropriate. Except in acquisition of architect-engineer services (see subpart 36.6), a competitive range determination must include cost or price proposals.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.610 Written or oral discussion.

(a) The requirement in paragraph (b) below for written or oral discussion need not be applied in acquisitions—

(1) In which prices are fixed by law or regulation;

(2) Of the set-aside portion of a partial set-aside; or

(3) In which it can be clearly demonstrated from the existence of full and open competition or accurate prior cost experience with the product or service that acceptance of the most favorable initial proposal without discussion would result in the lowest overall cost to the Government at a fair and reasonable price; *provided,* That—

(i) The solicitation notified all offerors of the possibility that award might be made without discussion; and

(ii) The award is in fact made without any written or oral discussion with any offeror.

(b) Except as provided in paragraph (a) above, the contracting officer shall conduct written or oral discussion with all responsible offerors who submit proposals within the competitive range. The content and extent of the discussions is a matter of the contracting officer's judgment, based on the particular facts of each acquisition (but see paragraphs (c) and (d) below).

(c) The contracting officer shall—

(1) Control all discussions;

(2) Advise the offeror of deficiencies in its proposal so that the offeror is given an opportunity to satisfy the Government's requirements;

(3) Attempt to resolve any uncertainties concerning the technical proposal and other terms and conditions of the proposal;

(4) Resolve any suspected mistakes by calling them to the offeror's attention as specifically as possible without disclosing information concerning other offerors' proposals or the evaluation process (see 15.607 and part 24); and

(5) Provide the offeror a reasonable opportunity to submit any cost or price, technical, or other revisions to its proposal that may result from the discussions.

(d) The contracting officer and other Government personnel involved shall not engage in technical leveling (i.e., helping an offeror to bring its proposal up to the level of other proposals through successive rounds of discussion, such as by pointing out weaknesses resulting from the offeror's lack of diligence, competence, or inventiveness in preparing the proposal).

(e) The following conduct may constitute prohibited conduct under section 27 of the Office of Federal Procurement Policy Act, as amended (41 U.S.C. 423), and subpart 3.104 to which civil and criminal penalties and administrative remedies apply.

(1) Technical transfusion (i.e., Government disclosure of technical information pertaining to a proposal that results in improvement of a competing proposal); or

(2) Auction techniques, such as—

(i) Indicating to an offeror a cost or price that it must meet to obtain further consideration;

(ii) Advising an offeror of its price standing relative to another offeror (however, it is permissible to inform an offeror that its cost or price is considered by the Government to be too high or unrealistic); and

(iii) Otherwise furnishing information about other offerors' prices.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 36795, Sept. 6, 1990]

15.611 Best and final offers.

(a) Upon completion of discussions, the contracting officer shall issue to all offerors still within the competitive range a request for best and final offers. Oral requests for best and final offers shall be confirmed in writing.

(b) The request shall include—

(1) Notice that discussions are concluded;

(2) Notice that this is the opportunity to submit a best and final offer;

(3) A common cutoff date and time that allows a reasonable opportunity for submission of written best and final offers; and

(4) Notice that if any modification is submitted, it must be received by the date and time specified and is subject to the Late Submissions, Modifications, and Withdrawals of Proposals provision of the solicitation (see 15.412).

(c) After receipt of best and final offers, the contracting officer should not reopen discussions unless it is clearly in the Government's interest to do so (e.g., it is clear that information available at that time is inadequate to reasonably justify contractor selection and award based on the best and final offers received). If discussions are reopened, the contracting officer shall issue an additional request for best and final offers to all offerors still within the competitive range.

(d) Following evaluation of the best and final offers, the contracting officer (or other designated source selection authority) shall select that source whose best and final offer is most advantageous to the Government, considering price and the other factors included in the solicitation (but see 15.608(b)).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 19715, May 30, 1986; 55 FR 38516, Sept. 18, 1990]

15.612 Formal source selection.

(a) *General.* A source selection process is considered *formal* when a specific evaluation group structure is established to evaluate proposals and select the source for contract award. This approach is generally used in high-dollar-value acquisitions and may be used in other acquisitions as prescribed in agency regulations. The source selection organization typically consists of an evaluation board, advisory council, and designated source selection authority at a management level above that of the contracting officer.

(b) *Responsibilities.* When using formal source selection, the agency head or a designee shall ensure that—

(1) The official to be responsible for the source selection is formally designated as the source selection authority;

(2) The source selection authority formally establishes an evaluation group structure appropriate to the requirements of the particular solicitation; and

(3) Before conducting any presolicitation conferences (see 15.404) or issu-

ing the solicitation, the source selection authority approves a source selection plan.

(c) *Source Selection Plan.* As a minimum, the plan shall include—

(1) A description of the organization structure;

(2) Proposed presolicitation activities;

(3) A summary of the acquisition strategy;

(4) A statement of the proposed evaluation factors and their relative importance;

(5) A description of the evaluation process, methodology, and techniques to be used; and

(6) A schedule of significant milestones.

(d) *Source Selection Decision.* The source selection authority shall use the factors established in the solicitation (see 15.605) to make the source selection decision.

(1) The source selection authority shall consider any rankings and ratings, and, if requested, any recommendations prepared by evaluation and advisory groups.

(2) The supporting documentation prepared for the selection decision shall show the relative differences among proposals and their strengths, weaknesses, and risks in terms of the evaluation factors. The supporting documentation shall include the basis and reasons for the decision.

(e) *Safeguarding information.* Consistent with part 24 and subpart 3.104, agencies shall exercise particular care to protect source selection information.

(1) During the source selection process, disclosure of proprietary or source selection information shall be governed by 3.104-5 and applicable agency regulations. After the source selection, releasing authority shall be as prescribed in agency procedures. In all cases, agency procedures should prescribe the releasing authority.

(2) Government personnel shall not contact or visit a contractor regarding a proposal under source selection evaluation, without the prior approval of the source selection authority (see 3.104 for additional restrictions).

(f) *Postaward notices and debriefings.* See 15.1001(c) and 15.1003.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 36795, Sept. 6, 1990]

15.613 Alternative source selection procedures.

(a) The National Aeronautics and Space Administration (NASA) and the Department of Defense (DoD) have developed, and use in appropriate situations, source selection procedures that limit discussions with offerors during the competition, and that differ from other procedures prescribed in subpart 15.6. The procedures are the NASA Source Evaluation Board procedures and the DoD *Four-Step* Source Selection Procedures. Detailed coverage of these procedures is in the respective agency acquisition regulations.

(b) Other agencies may use either the NASA or DoD procedure as a model in developing their own procedures, including applicability criteria, consistent with mission needs.

Subpart 15.7—Make-or-Buy Programs

15.700 Scope of subpart.

This subpart prescribes policies and procedures for obtaining, evaluating, negotiating, and agreeing to prime contractors' proposed make-or-buy programs and for incorporating make-or-buy programs into contracts. Consent to subcontracts and review of contractors' purchasing systems are separate actions covered in part 44, Subcontracting Policies and Procedures.

15.701 Definitions.

Buy item means an item or work effort to be produced or performed by a subcontractor.

Make item means an item or work effort to be produced or performed by the prime contractor or its affiliates, subsidiaries, or divisions.

Make-or-buy program means that part of a contractor's written plan for a contract identifying (a) those major items to be produced or work efforts to be performed in the prime contractor's facilities and (b) those to be subcontracted.

15.702 General.

The prime contractor is responsible for managing contract performance, including planning, placing, and administering subcontracts as necessary to ensure the lowest overall cost and technical risk to the Government. Although the Government does not expect to participate in every management decision, it may reserve the right to review and agree on the contractor's make-or-buy program when necessary to ensure (a) negotiation of reasonable contract prices, (b) satisfactory performance, or (c) implementation of socioeconomic policies.

15.703 Acquisitions requiring make-or-buy programs.

(a) Contracting officers shall require prospective contractors to submit make-or-buy programs for all negotiated acquisitions whose estimated value is $5 million or more, except when the proposed contract—

(1) Is for research or development and—if prototypes or hardware are involved—no significant follow-on production under the same contract is anticipated;

(2) Is priced on the basis of (i) adequate price competition or (ii) established catalog or market prices of commercial items sold in substantial quantities to the general public, or has only prices set by law or regulation (see 15.804-3); or

(3) Involves only work that the contracting officer determines is not complex.

(b) Contracting officers may require prospective contractors to submit make-or-buy programs for negotiated acquisitions whose estimated value is under $5 million only if the contracting officer (1) determines that the information is necessary and (2) documents the reasons in the contract file.

[48 FR 42187, Sept. 19, 1983, as amended at 54 FR 34753, Aug. 21, 1989]

15.704 Items and work included.

The information required from a prospective contractor in a make-or-buy program shall be confined to those major items or work efforts that would normally require company management review of the make-or-buy decision because they are complex, costly, needed in large quantities, or require additional facilities to produce. Raw materials, commercial products (see 11.001), and off-the-shelf items (see 46.101) shall not be included, unless their potential impact on contract cost or schedule is critical. As a rule, make-or-buy programs should not include items or work efforts estimated to cost less than (a) 1 percent of the total estimated contract price or (b) any minimum dollar amount set by the agency, whichever is less.

[48 FR 42187, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986; 52 FR 9038, Mar. 20, 1987]

15.705 Solicitation requirements.

When prospective contractors are required to submit proposed make-or-buy programs (see 15.703), the solicitation shall include—

(a) A statement that the program and required supporting information must accompany the offer;

(b) A description of factors to be used in evaluating the proposed program, such as capability, capacity, availability of small business and labor surplus area concerns for subcontracting, establishment of new facilities in or near labor surplus areas, delivery or performance schedules, control of technical and schedule interfaces, proprietary processes, technical superiority or exclusiveness, and technical risks involved; and

(c) A requirement that the offeror's program include or be supported by the following information:

(1) A description of each major item or work effort (see 15.704).

(2) Categorization of each major item or work effort as *must make*, *must buy*, or *can either make or buy*.

(3) For each item or work effort categorized as *can either make or buy*, a proposal either to *make* or to *buy*.

(4) Reasons for (i) categorizing items and work efforts as *must make* or *must buy* and (ii) proposing to *make* or to *buy* those categorized as *can either make or buy*. The reasons must include the consideration given to the evaluation factors described in the solicitation and be in sufficient detail to permit the contracting officer to

evaluate the categorization or proposal.

(5) Designation of the plant or division proposed to make each item or perform each work effort and a statement as to whether the existing or proposed new facility is in or near a labor surplus area.

(6) Identification of proposed subcontractors, if known, and their location and size status (see also subpart 19.7 for subcontracting plan requirements).

(7) Any recommendations to defer make-or-buy decisions when categorization of some items or work efforts is impracticable at the time of submission.

(8) Any other information the contracting officer requires in order to evaluate the program.

15.706 Evaluation, negotiation, and agreement.

(a) Contracting officers shall evaluate and negotiate proposed make-or-buy programs as soon as practicable after their receipt and before contract award. When the program is to be incorporated in the contract (see 15.707) and the design status of the product being acquired does not permit accurate precontract identification of major items or work efforts, the contracting officer shall notify the prospective contractor in writing that these items or efforts, when identifiable, shall be added under the clause at 52.215-21, Changes or Additions to Make-or-Buy Program.

(b) In preparing to evaluate and negotiate prospective contractors' make-or-buy programs, the contracting officer shall request the recommendations of appropriate personnel, including technical and program management personnel, and the activity small and disadvantaged business utilization specialist. The proposed program shall also be made available to the Small Business Administration representative, if any, for review and recommendation. The contracting officer shall request these recommendations early enough to consider them fully before (1) agreeing to a make-or-buy program or (2) consenting to a change in a make-or-buy program already incorporated in a contract.

(c) The contractor has the basic responsibility for make-or-buy decisions. Therefore, its recommendations should be accepted unless they are inconsistent with Government interests or policy.

(d) Contracting officers shall give primary consideration to the effect of the proposed make-or-buy program on price, quality, delivery, and performance, including technical or financial risk involved. The evaluation of *must make* and *must buy* items should normally be confined to ensuring that they are properly categorized. The effect of the following factors on the Government's interests shall also be considered:

(1) Whether the contractor has justified performing work in plant that differs significantly from its normal operations.

(2) Whether the contractor's recommended program requires Government investment in new or other facilities in order for the contractor to perform the work in plant. (This additional cost to the Government would not be reflected in the contract price.)

(3) The impact of the contractor's projected plant work loading on indirect costs.

(4) The contractor's consideration of the competence, ability, experience, and capacity available in other firms, especially small business, small disadvantaged business, or labor surplus area concerns.

(5) The projected location of any required additional facilities in or near labor surplus areas.

(6) The contractor's make-or-buy history regarding the type of item concerned.

(7) The scope of proposed subcontracts, including the type and level of technical effort involved.

(8) Other factors such as future requirements, engineering, tooling, starting load costs, market conditions, technical superiority, and the availability of personnel and materials.

(e) Contracting officers shall not normally agree to proposed *make items* when the products or services are (1) not regularly manufactured or provided by the contractor and are available—quality, quantity, delivery, and other essential factors considered—from another firm at equal or lower prices or when they are (2) regularly manufactured or provided by the contractor, but available—quality, quantity, delivery, and other essential factors considered— from another firm at lower prices. However, the contracting officer may agree to these as *make items* if their categorization as *buy items* would increase the Government's overall cost for the contract or acquisition program.

15.707 Incorporating make-or-buy programs in contracts.

(a) After agreement is reached, the contracting officer may incorporate the make-or-buy program in negotiated contracts for—

(1) Major systems (see part 34) or their subsystems or components, regardless of contract type; or

(2) Other supplies and services if (i) the contract is a cost-reimbursable contract, or a cost-sharing contract in which the contractor's share of the cost is less than 25 percent, and (ii) the contracting officer determines that technical or cost risks justify Government review and approval of changes or additions to the make-or-buy program.

(b) It may be necessary to incorporate some items of significant value in the make-or-buy program as *make* or, alternatively, as *buy* even though the opposite categorization would result in greater economy for the Government. If this situation occurs in any fixed-price incentive or cost-plus-incentive-fee contract, the contracting officer shall specify these items in the contract and state that they are subject to paragraph (d) of the clause at 52.215-21, Changes or Additions to Make-or-Buy Program (see 15.708 below). If the contractor proposes to reverse the categorization of such items during contract performance, the contract price shall be subject to equitable reduction.

15.708 Contract clause.

The contracting officer shall insert the clause at 52.215-21, Changes or Additions to Make-or-Buy Program, in solicitations and contracts when it is contemplated that a make-or-buy program will be incorporated in the contract. If a less economical *make* or *buy* categorization is selected for one or more items of significant value, the contracting officer shall use the clause with (a) its Alternate I, if a fixed-price incentive contract is contemplated, or (b) its Alternate II, if a cost-plus-incentive-fee contract is contemplated.

Subpart 15.8—Price Negotiation

15.800 Scope of subpart.

This subpart prescribes the cost and price negotiation policies and procedures applicable to initial and revised pricing of (a) negotiated prime contracts (including subcontract pricing under them when required) and (b) contract modifications (including modifications to contracts awarded by sealed bidding).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.801 Definitions.

Cost analysis means the review and evaluation of the separate cost elements and proposed profit of (a) an offeror's or contractor's cost or pricing data and (b) the judgmental factors applied in projecting from the data to the estimated costs in order to form an opinion on the degree to which the proposed costs represent what the cost of the contract should be, assuming reasonable economy and efficiency.

Cost or pricing data means all facts as of the date of price agreement that prudent buyers and sellers would reasonably expect to affect price negotiations significantly. Cost or pricing data are factual, not judgmental, and are therefore verifiable. While they do not indicate the accuracy of the prospective contractor's judgment about estimated future costs or projections, they do include the data forming the basis for that judgment. Cost or pricing data are more than historical accounting data; they are all the facts that can be reasonably expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred. They also include such factors as (a) vendor quotations; (b) nonrecurring costs; (c) information on changes in production methods and in production or purchasing volume; (d) data supporting projections of business prospects and objectives and related operations costs; (e) unit-cost trends such as those associated with labor efficiency; (f) make-or-buy decisions; (g) estimated resources to attain business goals; and (h) information on management decisions that could have a significant bearing on costs.

Field pricing support means a review and evaluation of the contractor's or subcontractor's proposal by any or all field pricing support personnel (see 15.805-5(a)(2)).

Forward pricing rate agreement means a written agreement negotiated between a contractor and the Government to make certain rates available during a specified period for use in pricing contracts or modifications. Such rates represent reasonable projections of specific costs that are not easily estimated for, identified with, or generated by a specific contract, contract end item, or task. These projections may include rates for labor, indirect costs, material obsolescence and usage, spare parts provisioning, and material handling.

Price, as used in this subpart, means cost plus any fee or profit applicable to the contract type.

Price analysis means the process of examining and evaluating a proposed price without evaluating its separate cost elements and proposed profit.

Technical analysis, as used in this subpart, means the examination and evaluation by personnel having specialized knowledge, skills, experience, or capability in engineering, science, or management of proposed quantities and kinds of materials, labor, processes, special tooling, facilities, and associated factors set forth in a proposal in order to determine and report on the need for and reasonableness of the proposed resources assuming reasonable economy and efficiency.

[48 FR 42187, Sept. 1983, as amended at 51 FR 36971, Oct. 16, 1986; 53 FR 10829, Apr. 1, 1988]

15.802 Policy.

(a) 10 U.S.C. 2306a and 41 U.S.C. 254(d) provide that all executive agencies shall require a prime contractor or any subcontractor to submit and certify cost or pricing data under certain circumstances. The Acts also require inclusion of contract clauses that provide for reduction of the contract price by any significant amounts that such price was increased because of submission of contractor or subcontractor defective cost or pricing data.

(b) Contracting officers shall—

(1) Purchase supplies and services from responsible sources at fair and reasonable prices;

(2) Price each contract separately and independently and not (i) use proposed price reductions under other contracts as an evaluation factor or (ii) consider losses or profits realized or anticipated under other contracts; and

(3) Not include in a contract price any amount for a specified contingency to the extent that the contract provides for price adjustment based upon the occurrence of that contingency.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 10829, Apr. 1, 1988]

15.803 General.

(a) Since information from sources other than an offeror's or contractor's records may significantly affect the Government's negotiating position, Government personnel shall not disclose to an offeror or contractor any conclusions, recommendations, or portions of administrative contracting officer or auditor reports regarding the offeror's or contractor's proposal without the concurrence of the contracting officer responsible for negotiation. This prohibition does not preclude disclosing discrepancies or mistakes of fact (such as duplications, omissions, and errors in computation) contained in the cost or pricing data supporting the proposal.

(b) Before issuing a solicitation, the contracting officer shall (when it is feasible to do so) develop an estimate of the proper price level or value of the supplies or services to be purchased. Estimates can range from simple budgetary estimates to complex estimates based on inspection of the product itself and review of such items as drawings, specifications, and prior data.

(c) Price negotiation is intended to permit the contracting officer and the offeror to agree on a fair and reasonable price. Price negotiation does not require that agreement be reached on every element of cost. Reasonable compromises may be necessary, and it may not be possible to negotiate a price that is in accord with all the contributing specialists' opinions or with the contracting officer's prenegotiation objective. The contracting officer is responsible for exercising the requisite judgment and is solely responsible for the final pricing decision. The recommendations and counsel of contributing specialists, including auditors, are advisory only. However, the contracting officer should include comments in the price negotiation memorandum when significant audit or other specialist recommendations are not adopted.

(d) The contracting officer's primary concern is the price the Government actually pays; the contractor's eventual cost and profit or fee should be a secondary concern. The contracting officer's objective is to negotiate a contract of a type and with a price providing the contractor the greatest incentive for efficient and economical performance. The negotiation of a contract type and a price are related and should be considered together with the issues of risk and uncertainty to the contractor and the Government. Therefore the contracting officer should not become preoccupied with any single element and should balance the contract type, cost, and profit or fee negotiated to achieve a total result and price fair and reasonable to both the Government and the contractor. If, however, the contractor insists on a price or demands a profit or fee that the contracting officer considers unreasonable and the contracting officer has taken all authorized actions (including determining the feasibility of developing an alternative source) without success, the contracting officer shall then refer the contract action to higher authority. Disposition of the action by higher authority should be documented.

15.804 9Cost or pricing data.

15.804-1 General.

(a) Cost or pricing data submitted by an offeror or contractor enable the Government to perform cost or price analysis and ultimately enable the Government and the contractor to negotiate fair and reasonable prices. Cost or pricing data may be submitted actually or by specific identification in writing.

(b) The Armed Services Procurement Manual for Contract Pricing (ASPM No. 1) was issued by the Department of Defense to guide pricing and negotiating personnel. It provides detailed discussions and examples applying pricing policies to pricing problems. ASPM No. 1 is available for use for instruction and professional guidance. However, it is not directive, and its references to Department of Defense forms and regulations should be considered informational only. Copies of ASPM No. 1 (Stock No. 008-000-00221-5) may be purchased from the Superintendent of Documents, Attn: Mail List Section, U.S. Government Printing Office, Washington, DC 20402.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.804-2 Requiring certified cost or pricing data.

(a) (1) Except as provided in 15.804-3, certified cost or pricing data are required before accomplishing any of the following actions:

(i) The award of any negotiated contract (except for unpriced actions such as letter contracts) expected to exceed $100,000.

(ii) The modification of any sealed bid or negotiated contract (whether or not cost or pricing data were initially required) when the modification involves a price adjustment expected to exceed $100,000. (For example, a $30,000 modification resulting from a reduction of $70,000 and an increase of $40,000 is a pricing adjustment exceeding $100,000.) This requirement does not apply when unrelated and separately priced changes for which cost or pricing data would not otherwise be required are included for adminstrative convenience in the same modification.

(iii) The award of a subcontract at any tier, if the contractor and each higher tier subcontractor have been required to furnish certified cost or pricing data, when the subcontract is expected to exceed $100,000. (But see 15.804-3(i).)

(iv) The modification of any subcontract covered by subdivision (iii) above, when the price adjustment (see subdivision (ii) above) is expected to exceed $100,000.

(2) If certified cost or pricing data are needed for pricing actions over $25,000 and not in excess of $100,000, they may be obtained. There should be relatively few instances where certified cost or pricing data and inclusion of defective pricing clauses would be justified in awards between $25,000 and $100,000. The data which the contracting officer requires to be submitted shall be limited to that data necessary to determine the reasonableness of the price. Whenever certified cost or pricing data are required for pricing actions of $100,000 or less, the contracting officer shall document the file to justify the requirement. When awarding a contract of $25,000 or less, the contracting officer shall not require certified cost or pricing data.

(b) When certified cost or pricing data are required, the contracting officer shall require the contractor or prospective contractor to submit to the contracting officer (and to have any subcontractor or prospective subcontractor submit to the prime contractor or appropriate subcontractor tier) the following in support of any proposal:

(1) The cost or pricing data.

(2) A certificate of current cost or pricing data, in the format specified in 15.804-4, certifying that to the best of its knowledge and belief, the cost or pricing data were accurate, complete, and current as of the date of final agreement on price.

(c) The requirements of this section also apply to contracts entered into by the head of an agency on behalf of a foreign government.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 10829, Apr. 1, 1988]

15.804-3 Exemptions from or waiver of submission of certified cost or pricing data.

(a) *General.* Except as provided in paragraphs (b) and (c) below, the contracting officer shall not require submission or certification of cost or pricing data when the contracting officer determines that prices are—

(1) Based on adequate price competition (see paragraph (b) below);

(2) Based on established catalog or market prices of commercial items sold in substantial quantities to the general public (see paragraph (c) below); or

(3) Set by law or regulation (see paragraph (d) below).

(b) *Adequate price competition.* (1) Price competition exists if—

(i) Offers are solicited;

(ii) Two or more responsible offerors that can satisfy the Government's requirements submit priced offers responsive to the solicitation's expressed requirements; and

(iii) These offerors compete independently for a contract to be awarded to the responsible offeror submitting the lowest evaluated price.

(2) If price competition exists, the contracting officer shall presume that it is adequate unless—

(i) The solicitation is made under conditions that unreasonably deny to one or more known and qualified offerors an opportunity to compete;

(ii) The low offeror has such a decided advantage that it is practically immune from competition; or

(iii) There is a finding, supported by a statement of the facts and approved at a level above the contracting officer, that the lowest price is unreasonable.

(3) A price is *based on* adequate price competition if it results directly from price competition or if price analysis alone clearly demonstrates that the proposed price is reasonable in comparison with current or recent prices for the same or substantially the same items purchased in comparable quantities, terms, and conditions under contracts that resulted from adequate price competition.

(c) *Established catalog or market prices.* A proposal is exempt from the requirement for submission of certified cost or pricing data if the prices are, or are based on, established catalog or established market prices of commercial items sold in substantial quantities to the general public. In order to qualify for this exemption, the terms of the proposed purchase, such as quantity and delivery requirements, should be sufficiently similar to those of the commercial sales that the catalog or market price will be fair and reasonable.

(1) *Established catalog prices* must be recorded in a form regularly maintained by the manufacturer or vendor. This form may be a catalog, price list, schedule, or other verifiable and established record. The record must (i) be published or otherwise available for customer inspection and (ii) state current or last sales price to a significant number of buyers constituting the general public (see subparagraph (5) below).

(2) *Established market prices* are current prices that (i) are established in the course of ordinary and usual trade between buyers and sellers free to bargain and (ii) can be substantiated by data from sources independent of the manufacturer or vendor.

(3) *Commercial items* are supplies or services regularly used for other than Government purposes and sold or traded to the general public in the course of normal business operations.

(4) An item is *sold in substantial quantities* only when the quantities regularly sold are sufficient to constitute a real commercial market. Nominal quantities, such as models, samples, prototypes, or experimental units, do not meet this requirement. For services to be sold in substantial quantities, they must be customarily provided by the offeror, using personnel regularly employed and equipment (if any is necessary) regularly maintained solely or principally to provide the services.

(5) The *general public* is a significant number of buyers other than the Government or affiliates of the offeror; the item involved must not be for Government end use. For the purpose of this subsection 15.804-3, items acquired for *Government end use* include items acquired for foreign military sales.

(6) A price is *based on* a catalog or market price only if the item being purchased is sufficiently similar to the catalog- or market-priced commercial item to ensure that any difference in prices can be identified and justified without resort to cost analysis.

(7) If an item is substantially similar to a commercial item for which there is an established catalog or market price at which substantial quantities are sold to the general public, but the price proposed is not *based on* this catalog or market price (see subparagraph (6) above), the contracting officer may, if doing so will result in a fair and reasonable price, limit any requirement for cost or pricing data to those data that pertain to the differences between the items. When the difference between the catalog or market price of an item or items and the proposed total contract price is $100,000 or more, the contracting officer shall require submission of certified cost or pricing data to identify and justify that difference unless an exemption or waiver is granted.

(8) Even though there is an established catalog or market price of commercial items sold in substantial quantities to the general public, the contracting officer may require cost or pricing data if (i) the contracting officer makes a written finding that the price is not reasonable, including the facts upon which the finding is based, and (ii) the finding is approved at a level above the contracting officer.

(d) *Prices set by law or regulation.* A price set by law or regulation is exempt from the requirement for submission of certified cost or pricing data. Pronouncements in the form of periodic rulings, reviews, or similar actions of a governmental body, or embodied in the laws, are sufficient to establish the price.

(e) *Claiming and granting exemption.* To receive an exemption under paragraph (c) or (d) above, the offeror must ordinarily claim it on Standard Form 1412, Claim for Exemption from Submission of Certified Cost or Pricing Data, when the total proposed amount exceeds $100,000 and more than one catalog item for which an exemption is claimed exceeds $25,000. When an exemption is claimed for more than one item in a proposal, a separate SF 1412 is required for each such item exceeding $25,000 except as otherwise provided in the solicitation. The contracting officer may grant an exemption and need not require the submission of SF 1412 when—

(1) The Government has acted favorably on an exemption claim for the same item or similar items within the past year. In that case, except as otherwise directed by the contracting officer, the offeror may furnish a copy of the prior claim and related Government action. The offeror must also submit a statement to the effect that to its knowledge since the prior submission, except as expressly set forth in the statement, there have been no changes in the catalog price or discounts, volume of actual sales, or the ratio of sales for Government end use to sales in other categories which would cause a cumulative change in price exceeding $25,000;

(2) Special arrangements for the submission of exemption claims have been made in anticipation of repetitive acquisitions of catalog items; or

(3) There is evidence, before solicitation, that the item has an acceptable established catalog or market price or a price set by law or regulation. Evidence may include (i) recent submissions by offerors or (ii) the contracting officer's knowledge of market conditions, prevailing prices, or sources.

(f) *Verification.* (1) When a prospective contractor requests exemption from submission of certified cost or pricing data, the contracting officer shall ensure that applicable criteria in either paragraph (c) or (d) above, as appropriate, are satisfied before issuing the exemption.

(2) SF 1412 lists three categories of sales related to the established catalog price of a commercial item sold in substantial quantities to the general public: A, Sales to the U.S. Government or to contractors for U.S. Government use; B, Sales at catalog price to the general public; and C, Sales to the general public at other than catalog price. Although *substantial quantities* cannot be precisely defined (see subparagraph (c)(4) above), the following guidelines are provided for determining whether exemption claims submitted under the catalog price provision of SF 1412 meet the *substantial quantities* criterion:

(i) Sales to the general public are normally regarded as substantial if (A) Category B and C sales are not negligible in themselves and comprise at least 55 percent of total sales of the item and (B) Category B sales comprise at least 75 percent of the total of Category B and C sales.

(ii) Sales to the general public are rarely considered substantial enough to grant an exemption if (A) Category B and C sales comprise less than 35 percent of total sales of the item or (B) Category B sales comprise less than 55 percent of the total of Category B and C sales.

(iii) When percentages fall between those above, the contracting officer should analyze the individual situation in order to determine whether or not an exemption is justified.

(3) The contracting officer may verify or obtain verification (including audit or contract administration assistance) of the submitted data pertaining to catalog or market prices or prices set by law or regulation. Access to the prospective contractor's records is limited to access to the facts bearing directly on the exemption claimed. It does not extend to cost, profit, or other data relevant solely to the reasonableness of the catalog or proposed price.

(g) *Individual or class exemptions.* The chief of the contracting office may authorize individual or class exemptions for exceptional cases when the contracting officer recommends that an exemption should be made even though the case does not strictly meet all the criteria for catalog- or market-price exemption. The quantity and prices of actual commercial sales compared with prices offered to the Government, and price relationships as influenced by prevailing trade practices, are the important factors for consideration. The Government's need and the prospective contractor's resistance are not appropriate considerations.

(h) *Price analysis.* Even though an item qualifies for exemption from the requirement for submission of certified cost or pricing data, the contracting officer shall make a price analysis to determine the reasonableness of the price and any need for further negotiation. Unless information is available from Government sources, it may be necessary to obtain from the prospective contractor information such as that regarding—

(1) The supplier's marketing system (e.g., use of jobbers, brokers, sales agencies, or distributors);

(2) The services normally provided commercial purchasers (e.g., engineering, financing, or advertising or promotion);

(3) Normal quantity per order; and

(4) Annual volume of sales to largest customers.

(i) *Waiver for exceptional cases.* The agency head (or, if the contract is with a foreign government or agency, the head of the contracting activity) may, in exceptional cases, waive the requirement for submission of certified cost or pricing data. The authorization for the waiver and the reasons for granting it shall be in writing. The agency head may delegate this authority. When the agency head or designee has waived the requirement for submission of certified cost or pricing data, the contractor or higher-tier subcontractor to whom the waiver relates shall be considered as having been required to make available cost or pricing data for purposes of 15.804-2(a)(1)(iii). Consequently, award of any lower-tier subcontract expected to exceed $100,000 requires the submission of certified cost or pricing data unless exempt or waived under this subsection 15.804-3.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2650, Jan. 17, 1986; 53 FR 10829, Apr. 1, 1988]

15.804-4 Certificate of Current Cost or Pricing Data.

(a) When certified cost or pricing data are required under 15.804-2, the contracting officer shall require the contractor to execute a Certificate of Current Cost or Pricing Data, shown below, and shall include the executed certificate in the contract file. The certificate states that the cost or pricing data are accurate, complete, and current as of the date the contractor and the Government agreed on a price. Only one certificate shall be required; the contractor shall submit it as soon as practicable after price agreement is reached.

CERTIFICATE OF CURRENT COST OR PRICING DATA

This is to certify that, to the best of my knowledge and belief, the cost or pricing data (as defined in section 15.801 of the Federal Acquisition Regulation (FAR) and required under FAR subsection 15.804-2) submitted, either actually or by specific identification in writing, to the contracting officer or to the contracting officer's representative in support of ————* are accurate, complete, and current as of ————**. This certification includes the cost or pricing data supporting any advance agreements and forward pricing rate agreements between the offeror and the Government that are part of the proposal.

Firm ————————————————
Name ————————————————
Title ————————————————
Date of execution*** ————————

*Identify the proposal, quotation, request for price adjustment, or other submission involved, giving the appropriate identifying number (e.g., RFP No.).

**Insert the day, month, and year when price negotiations were concluded and price agreement was reached.

***Insert the day, month, and year of signing, which should be as close as practicable to the date when the price negotiations were concluded and the contract price was agreed to.

(End of certificate)

(b) The certificate does not constitute a representation as to the accuracy of the contractor's judgment on the estimate of future costs or projections. It does apply to the data upon which the judgment or estimate was based. This distinction between fact and judgment should be clearly understood. If the contractor had information reasonably available at the time of agreement showing that the negotiated price was not based on accurate, complete, and current data, the contractor's responsibility is not limited by any lack of personal knowledge of the information on the part of its negotiators.

(c) Closing or cutoff dates should be included as part of the data submitted with the proposal. Certain data may not be reasonably available before normal periodic closing dates (e.g., actual indirect costs). Before agreement on price, the contractor shall update all data as of the latest dates for which information is reasonably available. Data within the contractor's or a subcontractor's organization on matters significant to contractor management and to the Government will be treated as reasonably available. What is significant depends upon the circumstances of each acquisition.

(d) Possession of a Certificate of Current Cost or Pricing Data is not a substitute for examining and analyzing the contractor's proposal.

(e) Even though the solicitation may have requested cost or pricing data, the contracting officer shall not require a Certificate of Current Cost or Pricing Data when the resulting award is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation (see 15.804-3(a) through (d)).

(f) The exercise of an option at the price established in the initial negotiation in which certified cost or pricing data were used does not require recertification.

(g) Contracting officers shall not require certification at the time of agreement for data supplied in support of forward pricing rate agreements (see 15.809) or other advance agreements. When a forward pricing rate agreement or other advance agreement is used in partial support of a later contractual action that requires a certificate, the price proposal certificate shall cover (1) the data originally supplied to support the forward pricing rate agreement or other advance agreement and (2) all data required to update the price proposal to the time of agreement on contract price.

(h) Negotiated final pricing actions (such as termination settlements and total final price agreements for fixed-price incentive and redeterminable contracts) are contract modifications requiring certified cost or pricing data if (1) the total final price agreement for such settlements or agreements exceeds $100,000 or (2) the partial termination settlement plus the estimate to complete the continued portion of the contract exceeds $100,000 (see 49.105(c)(15)).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.804-5 [Reserved]

15.804-6 Procedural requirements.

(a) The contracting officer shall specify (1) whether or not cost or pricing data are required, (2) whether or not certification will be required, (3) the extent of cost or pricing data required if complete data are not necessary, and (4) the form (see paragraph (b) below) in which the cost or pricing data shall be submitted. Even if the solicitation does not so specify, however, the contracting officer is not precluded from requesting such data if they are later found necessary.

(b) (1) Cost or pricing data shall be submitted on Standard Form 1411 (SF 1411), Contract Pricing Proposal Cover Sheet, unless required to be submitted on one of the termination forms specified in subpart 49.6. Data supporting forward pricing rate agreements or final indirect cost proposals shall be submitted in a format acceptable to the contracting officer.

(2) Contract pricing proposals submitted on SF 1411 with supporting attachments shall be prepared to satisfy the instructions and appropriate format of Table 15-2.

TABLE 15-2 INSTRUCTIONS FOR SUBMISSION OF A CONTRACT PRICING PROPOSAL

1. SF 1411 provides a vehicle for the offeror to submit to the Government a pricing proposal of estimated and/or incurred costs by contract line item with supporting information, adequately cross-referenced, suitable for detailed analysis. A cost-element breakdown, using the applicable format prescribed in 7A, B, or C below, shall be attached for each proposed

line item and must reflect any specific requirements established by the contracting officer. Supporting breakdowns must be furnished for each cost element, consistent with offeror's cost accounting system. When more than one contract line item is proposed, summary total amounts covering all line items must be furnished for each cost element. If agreement has been reached with Government representatives on use of forward pricing rates/factors, identify the agreement, include a copy, and describe its nature. Depending on offeror's system, breakdowns shall be provided for the following basic elements of cost, as applicable:

Materials—Provide a consolidated priced summary of individual material quantities included in the various tasks, orders, or contract line items being proposed and the basis for pricing (vendor quotes, invoice prices, etc.). Include raw materials, parts, components, assemblies, and services to be produced or performed by others. For all items proposed, identify the item and show the source, quantity, and price.

Competitive Methods—For those acquisitions (e.g. subcontracts, purchase orders, material orders, etc.) over $100,000 priced on a competitive basis, also provide data showing degree of competition, and the basis for establishing the source and reasonableness of price. For interorganizational transfers priced at other than cost of the comparable competitive commercial work of the division, subsidiary, or affiliate of the contractor, explain the pricing method (see 31.205-26(e)).

Established Catalog or Market Prices/Prices Set by Law or Regulation—When an exemption from the requirement to submit cost or pricing data is claimed, whether the item was produced by others or by the offeror, provide justification for the exemption as required by 15.804-3(e).

Noncompetitive Methods—For those acquisitions (e.g. subcontracts, purchase orders, material orders, etc.) over $100,000 priced on a noncompetitive basis, also provide data showing the basis for establishing source and reasonableness of price. For standard commercial items fabricated by the offeror that are generally stocked in inventory, provide a separate cost breakdown if priced based on cost. For interorganizational transfers priced at cost, provide a separate breakdown of cost by elements. As required by 15.806-2(a), provide a copy of cost or pricing data submitted by the prospective source in support of each subcontract, or purchase order that is either: (i) $1,000,000 or more, or (ii) both more than $100,000 and more than 10 percent of the prime contractor's proposed price. The contracting officer may require submission of cost or pricing data in support of proposals in lower amounts. Submit the results of the analysis of the prospective source's proposal as required by 15.806. When the submission of a prospective source's cost or pricing data is required as described above, it shall be included as part of the offeror's initial pricing proposal.

Direct Labor—Provide a time-phased (e.g., monthly, quarterly, etc.) breakdown of labor hours, rates, and cost by appropriate category, and furnish bases for estimates.

Indirect Costs—Indicate how offeror has computed and applied offeror's indirect costs, including cost breakdowns, and showing trends and budgetary data, to provide a basis for evaluating the reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation.

Other Costs—List all other costs not otherwise included in the categories described above (e.g., special tooling, travel, computer and consultant services, preservation, packaging and packing, spoilage and rework, and Federal excise tax on finished articles) and provide bases for pricing.

Royalties—If more than $250, provide the following information on a separate page for each separate royalty or license fee: name and address of licensor; date of license agreement; patent numbers, patent application serial numbers, or other basis on which the royalty is payable; brief description (including any part or model numbers of each contract item or component on which the royalty is payable); percentage or dollar rate of royalty per unit; unit price of contract item; number of units; and total dollar amount of royalties. In addition, if specifically requested by the contracting officer, provide a copy of the current license agreement and identification of applicable claims of specific patents. (See FAR 27.204 and 31.205-37).

Facilities Capital Cost of Money—When the offeror elects to claim facilities capital cost of money as an allowable cost, the offeror must submit Form CASB-CMF and show the calculation of the proposed amount (see FAR 31.205-10).

2. As part of the specific information required, the offeror must submit with offeror's proposal, and clearly identify as such, cost or pricing data (that is, data that are verifiable and factual and otherwise as defined at FAR 15.801). In addition, submit with offeror's proposal any information reasonably required to explain offeror's estimating process, including—

a. The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and

b. The nature and amount of any contingencies included in the proposed price.

3. There is a clear distinction between submitting cost or pricing data and merely making available books, records, and other documents without identification. The requirement for submission of cost or pricing data is met when all accurate cost or pricing data reasonably available to the offeror have been submitted, either actually or by specific identification, to the contracting officer or an authorized representative. As later information comes into the offeror's possession, it should be promptly submitted to the contracting officer. The requirement for submission of cost or pricing data continues up to the time of final agreement on price.

4. In submitting offeror's proposal, offeror must include an index, appropriately referenced, of all the cost or pricing data and information accompanying or identified in the proposal. In addition, any future additions and/or revisions, up to the date of agreement on price, must be annotated on a supplemental index.

5. By submitting offeror's proposal, the offeror, if selected for negotiation, grants the contracting officer or an authorized representative the right to examine, at any time before award, those books, records, documents, and other types of factual information, regardless of form or whether such supporting information is specifically referenced or included in the proposal as the basis for pricing, that will permit an adequate evaluation of the proposed price.

6. As soon as practicable after final agreement on price, but before the award resulting from the proposal, the offeror shall, under the conditions stated in FAR 15.804-4, submit a Certificate of Current Cost or Pricing Data.

7. HEADINGS FOR SUBMISSION OF LINE-ITEM SUMMARIES:

A. New Contracts (including Letter contracts).

COST ELEMENTS (1)	PROPOSED CONTRACT ESTIMATE—TOTAL COST (2)	PROPOSED CONTRACT ESTIMATE—UNIT COST (3)	REFERENCE (4)

Under Column (1)—Enter appropriate cost elements.

Under Column (2)—Enter those necessary and reasonable costs that in offeror's judgment will properly be incurred in efficient contract performance. When any of the costs in this column have already been incurred (e.g., under a letter contract or unpriced order), describe them on an attached supporting schedule. When preproduction or startup costs are significant, or when specifically requested to do so by the contracting officer, provide a full identification and explanation of them.

Under Column (3)—Optional, unless required by the contracting officer.

Under Column (4)—Identify the attachment in which the information supporting the specific cost element may be found. Attach separate pages as necessary.

B. Change Orders (modifications).

COST ELEMENTS (1)	ESTIMATED COST OF ALL WORK DELETED (2)	COST OF DELETED WORK ALREADY PERFORMED (3)	NET COST TO BE DELETED (4)	COST OF WORK ADDED (5)	NET COST OF CHANGE (6)	REFERENCE (7)

Under Column (1)—Enter appropriate cost elements.

Under Column (2)—Include (i) current estimates of what the cost would have been to complete deleted work not yet performed, and (ii) the cost of deleted work already performed.

Under Column (3)—Include the incurred cost of deleted work already performed, actually computed if possible, or estimated in the contractor's accounting records. Attach a detailed inventory of work, materials, parts, components, and hardware already purchased, manufactured, or performed and deleted by the change, indicating the cost and proposed disposition of each line item. Also, if offeror desires to retain these items or any portion of them, indicate the amount offered for them.

Under Column (4)—Enter the net cost to be deleted which is the estimated cost of all deleted work less the cost of deleted work already performed. Column (2) less Column (3) = Column (4).

Under Column (5)—Enter the offeror's estimate for cost of work added by the change. When nonrecurring costs are significant, or when specifically requested to do so by the contracting officer, provide a full identification and explanation of them.

Under Column (6)—Enter the net cost of change which is the cost of work added, less the net cost to be deleted. When the result is negative, place the amount in parentheses. Column (4) less Column (5) = Column (6).

Under Column (7)—Identify the attachment in which the information supporting the specific cost element may be found. Attach separate pages as necessary.

C. Price Revision/Redetermination.

CUTOFF DATE (1)	NUMBER OF UNITS COMPLETED (2)	NUMBER OF UNITS TO BE COMPLETED (3)	CONTRACT AMOUNT (4)	REDETERMINATION PROPOSAL AMOUNT (5)	DIFFERENCE (6)

COST ELEMENTS (7)	INCURRED COST—PREPRODUCTION (8)	INCURRED COST—COMPLETED UNITS (9)	INCURRED COST—WORK IN PROCESS (10)	TOTAL INCURRED COST (11)	ESTIMATED COST TO COMPLETE (12)	ESTIMATED TOTAL COST (13)	REFERENCE (14)

Under Column (1)—Enter the cutoff date required by the contract, if applicable.

Under Column (2)—Enter the number of units completed during the period for which experienced costs of production are being submitted.

Under Column (3)—Enter the number of units remaining to be completed under the contract.

Under Column (4)—Enter the cumulative contract amount.

Under Column (5)—Enter the offeror's redetermination proposal amount.

Under Column (6)—Enter the difference between the contract amount and the redetermination proposal amount. When this result is negative, place the amount in parentheses. Column (4) less Column (5) = Column (6).

Under Column (7)—Enter appropriate cost elements. When residual inventory exists, the final costs established under fixed-price-incentive and fixed-price-redeterminable arrangements should be net of the fair market value of such inventory. In support of subcontract costs, submit a listing of all subcontracts subject to repricing action, annotated as to their status.

Under Column (8)—Enter all costs incurred under the contract before starting production and other nonrecurring costs (usually referred to as startup costs) from offeror's books and records as of the cutoff date. These include such costs as preproduction engineering, special plant rearrangement, training program, and any identifiable nonrecurring costs such as initial rework, spoilage, pilot runs, etc. In the event the amounts are not segregated in or otherwise available from offeror's records, enter in this column offeror's best estimates. Explain the basis for each estimate and how the costs are charged on offeror's accounting records (e.g., included in production costs as direct engineering labor, charged to manufacturing overhead, etc.). Also show how the costs would be allocated to the units at their various stages of contract completion.

Under Columns (9) and (10)—Enter in Column (9) the production costs from offeror's books and records (exclusive of preproduction costs reported in Column (8)) of the units completed as of the cutoff date. Enter in Column (10) the costs of work in process as determined from offeror's records or inventories at the cutoff date. When the amounts for work in process are not available in contractor's records but reliable estimates for them can be made, enter the estimated amounts in Column (10) and enter in Column (9) the differences between the total incurred costs (exclusive of preproduction costs) as of the cutoff date and these estimates. Explain the basis for the estimates, including identification of any provision for experienced or anticipated allowances, such as shrinkage, rework, design changes, etc. Furnish experienced unit or lot costs (or labor hours) from inception of contract to the cutoff date, improvement curves, and any other available production cost history pertaining to the item(s) to which offeror's proposal relates.

Under Column (11)—Enter total incurred costs (Total of Columns (8), (9), and (10)).

Under Column (12)—Enter those necessary and reasonable costs that in contractor's judgment will properly be incurred in completing the remaining work to be performed under the contract with respect to the item(s) to which contractor's proposal relates.

Under Column (13)—Enter total estimated cost (Total of Columns (11) and (12)).

Under Column (14)—Identify the attachment in which the information supporting the specific cost element may be found. Attach separate pages as necessary.

(c) Closing or cutoff dates should be included as part of the data submitted with the proposal. If possible, the contracting officer and offeror should reach a prior understanding on criteria for establishing closing or cutoff dates (see 15.804-4(c)).

(d) The requirement for submission of cost or pricing data is met if all cost or pricing data reasonably available to the offeror are either submitted or identified in writing by the time of agreement on price. However, there is a clear distinction between submitting cost or pricing data and merely making available books, records, and other documents without identification. The latter does not constitute *submission* of cost or pricing data.

(e) If cost or pricing data and information required to explain the estimating process are required and the offeror initially refuses to provide necessary data, or the contracting officer determines that the data provided is so deficient as to preclude adequate analysis and evaluation, the contracting officer shall again attempt to secure the data and/or elicit corrective action. If the offeror still persists in refusing to provide the needed data or to take corrective action, the contracting officer shall withhold the award or price adjustment and refer the contract action to higher authority, including details of the attempts made to resolve the matter and a statement of the practicability of obtaining the supplies or services from another source.

(f) Preproduction and startup costs include costs such as preproduction engineering, special tooling, special plant rearrangement, training programs, and such nonrecurring costs as initial rework, initial spoilage, and pilot runs. When these costs may be a significant cost factor in an acquisition, the contracting officer shall require in the solicitation that the offeror provide (1) an estimate of total preproduction and startup costs, (2) the extent to which these costs are included in the proposed price, and (3) the intent to absorb, or plan for recovery of, any remaining costs. If a successful offeror has indicated an intent to absorb any portion of these costs, the contract shall expressly provide that such portion will not be charged to the Government in any future noncompetitive pricing action.

(g) The requirements for contractors to obtain cost or pricing data from prospective subcontractors, to analyze these data and to submit the results of the analyses are prescribed in 15.806.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 27119, July 29, 1986; 53 FR 17858, May 18, 1988; 54 FR 34753, Aug. 21, 1989]

15.804-7 Defective cost or pricing data.

(a) If, before agreement on price, the contracting officer learns that any cost or pricing data submitted are inaccurate, incomplete, or noncurrent, the contracting officer shall immediately bring the matter to the attention of the prospective contractor, whether the defective data increase or decrease the contract price. The contracting officer shall negotiate, using any new data submitted or making satisfactory allowance for the incorrect data. The price negotiation memorandum shall reflect the revised facts.

(b)(1) If, after award, cost or pricing data are found to be inaccurate, incomplete, or noncurrent as of the date of final agreement on price given on the contractor's or subcontractor's Certificate of Current Cost or Pricing Data, the Government is entitled to a price adjustment, including profit or fee, of any significant amount by which the price was increased because of the defective data. This entitlement is ensured by including in the contract one of the clauses prescribed in 15.804-8 and set forth at 52.215-22, Price Reduction for Defective Cost or Pricing Data, and 52.215-23, Price Reduction for Defective Cost or Pricing Data—Modifications. The clauses give the Government the right to a price adjustment for defects in cost or pricing data submitted by the contractor, a prospective subcontractor, or an actual subcontractor.

(2) In arriving at a price adjustment, the contracting officer shall consider (i) the time by which the cost or pricing data became reasonably available to the contractor and (ii) the extent to which the Government relied upon the defective data.

(3) The clauses referred to in paragraph (b)(1) of this section recognize that the Government's right to a price adjustment is not affected by any of the following circumstances:

(i) The contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position;

(ii) The contracting officer should have known that the cost or pricing data in issue were defective even though the contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the contracting officer;

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each such item procured under such contract; or

(iv) The prime contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data relating to the contract.

(4) Subject to paragraphs (b)(5) and (b)(6) of this section, the contracting officer shall allow an offset for any understated cost or pricing data submitted in support of price negotia-

tions, up to the amount of the Government's claim for overstated pricing data arising out of the same pricing action (for example, the initial pricing of the same contract or the pricing of the same change order).

(5) An offset shall be allowed only in an amount supported by the facts and if the contractor (i) certifies to the contracting officer that, to the best of the contractor's knowledge and belief, the contractor is entitled to the offset in the amount requested, and (ii) proves that the cost or pricing data were available before the date of agreement on price but were not submitted. Such offsets need not be in the same cost groupings (e.g., material, direct labor, or indirect costs).

(6) An offset shall not be allowed if (i) the understated data was known by the contractor to be understated when the Certificate of Current Cost or Pricing Data was signed, or (ii) the Government proves that the facts demonstrate that the price would not have increased in the amount to be offset even if the available data had been submitted before the date of agreement on price.

(c) If, after award, the contracting officer learns or suspects that the data furnished were not accurate, complete, and current, or were not adequately verified by the contractor as of the time of negotiation, the contracting officer shall request an audit to evaluate the accuracy, completeness, and currency of the data. Only if the audit reveals that the data certified by the contractor were defective may the Government evaluate the profit-cost relationships. The contracting officer shall not reprice the contract solely because the profit was greater than forecast or because some contingency specified in the submission failed to materialize.

(d) For each advisory audit received based on a postaward review which indicates defective pricing, the contracting officer shall make a determination as to whether or not the data submitted were defective and relied upon. Before making such a determination, the contracting officer should give the contractor an opportunity to support the accuracy, completeness, and currency of the data in question. The contracting officer shall prepare a memorandum indicating (1) the contracting officer determination as to whether or not the submitted data were accurate, complete, and current as of the certified date and whether or not the Government relied on the data, and (2) the results of any contractual action taken. The contracting officer shall send one copy of this memorandum to the auditor and, if the contract has been assigned for administration, one copy to the administrative contracting officer (ACO). The contracting officer shall notify the contractor by copy of this memorandum, or otherwise, of the determination.

(e) If (1) both contractor and subcontractor submitted and (2) the contractor certified, or should have certified, cost or pricing data, the Government has the right, under the clauses at 52.215-22, Price Reduction for Defective Cost or Pricing Data, and 52.215-23, Price Reduction for Defective Cost or Pricing Data—Modifications, to reduce the prime contract price if it was significantly increased because a subcontractor submitted defective data. This right applies whether these data supported subcontract cost estimates or supported firm agreements between subcontractor and contractor.

(f) If Government audit discloses defective subcontractor cost or pricing data, the information necesssary to support a reduction in prime contract and subcontract prices may be available only from the Government. To the extent necessary to secure a prime contract price reduction, the contracting officer should make this information available to the prime contractor or appropriate subcontractors upon request. If release of the information would compromise Government security or disclose trade secrets or confidential business information, the contracting officer shall release it only under conditions that will protect it from improper disclosure. Information made available under this paragraph shall be limited to that used as the basis for the prime contract price reduction. In order to afford an opportunity for corrective action, the contracting officer should give the prime contractor reasonable advance notice before determining to reduce the prime contract price.

(1) When a prime contractor includes defective subcontract data in arriving at the price but later awards the subcontract to a lower priced subcontractor (or does not subcontract for the work), any adjustment in the prime contract price due to defective subcontract data is limited to the difference (plus applicable indirect cost and profit markups) between (i) the subcontract price used for pricing the prime contract and (ii) either the actual subcontract price or the actual cost to the contractor, if not subcontracted, provided the data on which the actual subcontract price is based are not themselves defective.

(2) Under cost-reimbursement contracts and under all fixed-price contracts except (i) firm-fixed-price contracts and (ii) contracts with economic price adjustment, payments to subcontractors that are higher than they would be had there been no defective subcontractor cost or pricing data shall be the basis for disallowance or nonrecognition of costs under the clauses prescribed in 15.804-8. The Government has a continuing and direct financial interest in such payments that is unaffected by the initial agreement on prime contract price.

[48 FR 42187, Sept. 19, 1983, as amended at 53 FR 10829, Apr. 1, 1988]

15.804-8 Contract clauses.

(a) *Price reduction for defective cost or pricing data.* The contracting officer shall, when contracting by negotiation, insert the clause at 52.215-22, Price Reduction for Defective Cost or Pricing Data, in solicitations and contracts when it is contemplated that cost or pricing data will be required from the contractor or any subcontractor (see 15.804-2).

(b) *Price reduction for defective cost or pricing data—modifications.* The contracting officer shall, when contracting by negotiation, insert the clause at 52.215-23, Price Reduction for Defective Cost or Pricing Data—Modifications, in solicitations and contracts when (1) it is contemplated that cost or pricing data will be required from the contractor or any subcontractor (see 15.804-2) for the pricing of contract modifications, and (2) the clause prescribed in paragraph (a) of this subsection has not been included.

(c) *Subcontractor cost or pricing data.* The contracting officer shall insert the clause at 52.215-24, Subcontractor Cost or Pricing Data, in solicitations and contracts when the clause prescribed in paragraph (a) above is included.

(d) *Subcontractor cost or pricing data—modifications.* The contracting officer shall insert the clause at 52.215-25, Subcontractor Cost or Pricing Data—Modifications, in solicitations and contracts when the clause prescribed in paragraph (b) above is included.

(e) *Termination of Defined Benefit Pension Plans.* The contracting officer shall insert the clause at 523.215-27, Termination of Defined Benefit Pension Plans, in all solicitations and contracts for which it is anticipated that certified cost or pricing data will be required and for which any preaward or post-award cost determinations will be subject to subpart 31.2.

[48 FR 42187, Sept. 19, 1983, as amended at 53 FR 10830, Apr. 1, 1988; 54 FR 34753, Aug. 21, 1989]

15.805 Proposal analysis.

15.805-1 General.

(a) The contracting officer, exercising sole responsibility for the final pricing decision, shall, as appropriate, coordinate a team of experts and request and evaluate the advice of specialists in such fields as contracting, finance, law, contract audit, packaging, quality control, engineering traffic management, and contract pricing. The contracting officer should have appropriate specialists attend the negotiations when complex problems involving significant matters will be addressed. The contracting officer may assign responsibility to a negotiator or price analyst for (1) determining the extent of specialists' advice needed and evaluating that advice, (2) coordinating a team of experts, (3) consolidating pricing data and developing a prenegotiation objective (see 15.807), and (4) conducting negotiations.

(b) When cost or pricing data are required, the contracting officer shall make a cost analysis to evaluate the reasonableness of individual cost elements. In addition, the contracting officer should make a price analysis to ensure that the overall price offered is fair and reasonable. When cost or pricing data are not required, the contracting officer shall make a price analysis to ensure that the overall price offered is fair and reasonable.

(c) The contracting officer shall require prospective contractors to perform (1) price analysis for all significant proposed subcontracts and purchase orders and (2) cost analysis when the prospective subcontractor is required to submit cost or pricing data or the contractor is unable to perform an adequate price analysis (see 15.806(a)).

15.805-2 Price analysis.

The contracting officer is responsible for selecting and using whatever price analysis techniques will ensure a fair and reasonable price. One or more of the following techniques may be used to perform price analysis:

(a) Comparison of proposed prices received in response to the solicitation.

(b) Comparison of prior proposed prices and contract prices with current proposed prices for the same or similar end items.

(c) Application of rough yardsticks (such as dollars per pound or per horsepower, or other units) to highlight significant inconsistencies that warrant additional pricing inquiry.

(d) Comparison with competitive published price lists, published market prices of commodities, similar indexes, and discount or rebate arrangements.

(e) Comparison of proposed prices with independent Government cost estimates (see 15.803(b)).

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.805-3 Cost analysis.

The contracting officer shall, as appropriate, use the techniques and procedures outlined in paragraphs (a) through (f) below to perform cost analysis:

(a) Verification of cost or pricing data and evaluation of cost elements, including—

(1) The necessity for and reasonableness of proposed costs, including allowances for contingencies;

(2) Projection of the offeror's cost trends, on the basis of current and historical cost or pricing data;

(3) A technical appraisal of the estimated labor, material, tooling, and facilities requirements and of the reasonableness of scrap and spoilage factors; and

(4) The application of audited or negotiated indirect cost rates (see subpart 42.7), labor rates, and cost of money or other factors.

(b) Evaluating the effect of the offeror's current practices on future costs. In conducting this evaluation, the contracting officer shall ensure that the effects of inefficient or uneconomical past practices are not projected into the future. In pricing production of recently developed, complex equipment, the contracting officer should make a trend analysis of basic labor and materials even in periods of relative price stability.

(c) Comparison of costs proposed by the offeror for individual cost elements with—

(1) Actual costs previously incurred by the same offeror;

(2) Previous cost estimates from the offeror or from other offerors for the same or similar items;

(3) Other cost estimates received in response to the Government's request;

(4) Independent Government cost estimates by technical personnel; and

(5) Forecasts or planned expenditures.

(d) Verification that the offeror's cost submissions are in accordance with the contract cost principles and procedures in part 31 and, when applicable, the requirements and procedures in part 30, Cost Accounting Standards.

(e) Review to determine whether any cost or pricing data necessary to make the contractor's proposal accurate, complete, and current have not been either submitted or identified in writing by the contractor. If there are such data, the contracting officer shall attempt to obtain them and negotiate, using them or making satisfactory allowance for the incomplete data.

(f) Analysis of the results of any make-or-buy program reviews, in evaluating subcontract costs.

15.805-4 Technical analysis.

When cost or pricing data are required, the contracting officer should generally request a technical analysis of proposals, asking that requirements, logistics, or other appropriate qualified personnel review and assess, as a minimum—

(a) The quantities and kinds of material proposed;

(b) The need for the number and kinds of labor hours and the labor mix;

(c) The special tooling and facilities proposed;

(d) The reasonableness of proposed scrap and spoilage factors; and

(e) Any other data that may be pertinent to the cost or price analysis.

15.805-5 Field pricing support.

(a)(1) When cost or pricing data are required, contracting officers shall request a field pricing report (which may include an audit review by the cognizant contract audit activity) before negotiating any contract or modification resulting from a proposal in excess of $500,000, except as otherwise authorized under agency procedures, unless information available to the contracting officer is considered adequate to determine the reasonableness of the proposed cost or price. When available data are considered adequate for a reasonableness determination, the contracting officer shall document the contract file to reflect the basis of the determination.

(2) Field pricing reports are intended to give the contracting officer a detailed analysis of the proposal, for use in contract negotiations. Field pricing support personnel include, but are not limited to, administrative contracting officers, contract auditors, price analysts, quality assurance personnel, engineers, and small business and legal specialists.

(b) Contracting officers should not request field pricing support for proposed contracts or modifications of an amount less than that specified in subparagraph (a)(1) above. An exception may be made when a reasonable pricing result cannot be established, because of (1) lack of knowledge of the particular contractor, (2) sensitive conditions, or (3) an inability to evaluate the price reasonableness through price analysis or cost analysis of existing data.

(c)(1) When initiating field pricing support, the contracting officer shall do so by sending a request to the cognizant administrative contracting officer (ACO). When field pricing support is not available, or is exempted by agency regulations, the contracting officer may initiate an audit by sending the request directly to the cognizant audit office. In both cases, the contracting officer shall, in the request, (i) prescribe the extent of the support needed, (ii) state the specific areas for which input is required, (iii) include the information necessary to perform the review (such as the offeror's proposal and the applicable portions of the solicitation, particularly those describing requirements and delivery schedules), and (iv) assign a realistic deadline for receipt of the report.

(2) Assignment of unrealistically short deadlines may reduce the quality of the audit and field pricing reports and may make it impossible to establish the fairness and reasonableness of the price.

(3) Agency field pricing procedures shall not preclude free and open communication among the contracting officer, ACO, and auditor.

(d) Only the auditor shall have general access to the offeror's books and financial records. This limitation does not preclude the contracting officer, the ACO, or their representatives from requesting any data from or reviewing offeror records necessary to the discharge of their responsibilities. The duties of auditors and those of other specialists may require both to evaluate the same elements of estimated costs. They shall review the data jointly or concurrently when possible, the auditor rendering services within the audit area of responsibility and the other specialists rendering services within their own areas of responsibility. The ACO or auditor, as appropriate, shall orally notify the contracting officer immediately of data provided that is so deficient as to preclude review and any denial of access to records or to cost or pricing data considered essential to the performance of satisfactory review. The oral notification shall be promptly confirmed in writing to the contracting officer describing the deficient or denied data or records, with copies of the deficient data if requested by the contracting officer, the need for the evidence, and the costs unsupported as a result of the denial. The contracting officer shall review the written notification and shall take immediate action to obtain the data needed. If the offeror persists in refusing to provide the data, and the contracting officer determines that the data is essential for a fair and reasonable price determination, then the contracting officer shall proceed with the action outlined in 15.804-6(e).

(e) The auditor shall begin the audit as soon as possible after receiving the contracting officer's request. The auditor is responsible for the scope and depth of the audit. As a minimum, the audit report shall include the following:

(1) The findings on specific areas listed in the contracting officer's request.

(2) An explanation of the basis and method used by the offeror in proposal preparation.

(3) An identification of the original proposal and of all subsequent written formal and other identifiable submissions by which cost or pricing data were either submitted or identified.

(4) A description of cost or pricing data coming to the attention of the auditor that were not submitted but that may have a significant effect on the proposed cost or price.

(5) A list of any cost or pricing data submitted that are not accurate, complete and current and of any cost representations that are unsupported. When the result of deficiencies is so great that the auditor cannot perform an audit or considers the proposal unacceptable as a basis for negotiation, the contracting officer shall be orally notified so that prompt corrective action may be taken, as provided by 15.805-5(d). The auditor will immediately confirm the notification in writing, explaining the deficiencies and the cost impact on the proposal.

(6) The originals of all technical analyses received by the auditor and a quantification of the dollar effect of the technical analysis findings.

(7) If the auditor believes that the offeror's estimating methods or accounting system are inadequate to support the proposal or to permit satisfactory administration of the contract contemplated, a statement to that effect.

(8) A statement of the extent to which the auditor has discussed discrepancies or mistakes of fact in the proposal with the offeror.

(f) The auditor shall not discuss auditor conclusions or recommendations on the offeror's estimated or projected costs with the offeror unless specifically requested to do so by the contracting officer.

(g) If field pricing support was not requested, the auditor shall send the completed audit report directly to the contracting officer. If field pricing support was requested, the auditor shall send the completed audit report to the ACO for forwarding, without change, with the field pricing report. The ACO shall consolidate the field pricing report inputs and send a field pricing report, accompanied by the original copy of the audit report, to the contracting officer by the assigned date. The ACO shall send the auditor a copy of the field pricing report (without the audit report and technical analysis). Audit and field pricing reports shall be made a part of the official contract file.

(h) If any information is disclosed after submission of a proposal that may significantly affect the audit findings, the contracting officer shall require the offeror to provide concurrent copies to the appropriate field pricing office (ACO and audit offices). In that case, the ACO or auditor, as appropriate, will be requested to immediately review the disclosed information and orally report the findings to the contracting officer, followed by a supplemental report when considered necessary.

(i) The requirements for field pricing support reports for subcontracts are prescribed in 15.806.

(j) Field pricing reports, including audit and technical reports, may contain proprietary and/or source selection information (see 3.104–4 (j) and (k)), and the cover page and all pages containing such information should be marked with the appropriate legend and protected accordingly.

(k) For contracts and contract modifications expected to exceed $100,000, activities submitting field pricing reports, including audit and technical reports, shall furnish with each report a list of all persons, or classes of persons, and, to the maximum extent practicable, the names of the individuals within the class, who have been provided access to the proprietary or source selection information (see 3.104–5(d)) at or by the activity.

[48 FR 42187, Sept. 19, 1983, as amended at 51 FR 27119, July 29, 1986; 51 FR 36971, Oct. 16, 1986; 54 FR 20496, May 11, 1989; 54 FR 34753, Aug. 21, 1989; 55 FR 36796, Sept. 6, 1990]

Effective Date Note: At 54 FR 50718, Dec. 8, 1989, paragraph (j) in section 15.805–5 was suspended for the period December 1, 1989, through November 30, 1990.

15.806 Subcontract pricing considerations.

[48 FR 42187, Sept. 19, 1983, as amended at 54 FR 34753, Aug. 21, 1989]

15.806–1 General.

(a)(1) The contracting officer is responsible for the determination of price reasonableness for the prime contract. In order to make this determination, it is required that an analysis be conducted of all the relevant facts and data including subcontractor cost or pricing data required to be submitted, results of the prime or higher tier subcontractor's analyses of subcontractor proposals, the field pricing support (if any), and historical pricing data. The fact that a contractor or higher tier subcontractor has an approved purchasing system or performs an analysis of subcontractor cost or pricing data does not in any way relieve the contracting officer or field pricing support team from the responsibility to analyze the prime contractor's submission, including the subcontractor cost or pricing data. However, the prime contractor or higher tier subcontractor is responsible for conducting appropriate price and cost analysis before awarding any subcontract.

(2) Subcontractors must submit to the contractor or higher tier subcontractor, cost or pricing data or claims for exemption from the requirement to submit them. The contractor and the higher tier subcontractor shall:

(i) Conduct price analyses and, when the subcontractor is required to submit cost or pricing data, or if the contractor or higher tier subcontractor is unable to perform an adequate price analysis, cost analyses for all subcontracts,

(ii) Include the results of these analyses as part of their own cost or pricing data submission, and

(iii) When required, in accordance with 15.806–2(a), submit the subcontractor cost or pricing data as part of their own cost or pricing data submission.

(b) Except when the subcontract prices are based on adequate price competition, on established catalog or market prices of commercial items sold in substantial quantities to the general public, or are set by law or regulation, any contractor required to submit certified cost or pricing data also shall obtain certified cost or pricing data before awarding any subcontract or purchase order expected to exceed $100,000, or issuing any modification involving a price adjustment expected to exceed $100,000 (see example of pricing adjustment at 15.804–2(a)(1)(ii)). To waive subcontractor cost or pricing data, follow the procedures at 15.804–3(i).

(c) The requirements in paragraphs (a) and (b) of this subsection, modified to relate to higher tier subcontractors rather than to the prime contractor, shall apply to lower tier subcontracts for which subcontractor cost or pricing data are required.

(d) If the prime contractor negotiates subcontract prices before negotiating the prime contract, such subcontract prices must nevertheless be reviewed and analyzed by the Government. In no instance should such negotiated subcontract prices be accepted as the sole evidence that these prices are fair and reasonable.

[54 FR 34754, Aug. 21, 1989]

15.806-2 Prospective subcontractor cost or pricing data.

(a) The contracting officer shall require a contractor that is required to submit certified cost or pricing data also to submit to the Government (or cause the submission of) accurate, complete, and current cost or pricing data from prospective subcontractors in support of each subcontract cost estimate that is:

(1) $1,000,000 or more,

(2) Both more than $100,000 and more than 10 percent of the prime contractor's proposed price, or

(3) Considered to be necessary for adequately pricing the prime contract. These subcontract cost or pricing data may be submitted using a Standard Form 1411 (SF 1411), Contract Pricing Proposal Cover Sheet.

(b) The contracting officer shall require the prospective contractor to support subcontractor cost estimates below the threshold in 15.806-1(b) with any data or information (including other subcontractor quotations) needed to establish a reasonable price.

(c) If the prospective contractor satisfies the contracting officer that a subcontract will be priced on the basis of one of the exemptions in 15.804-3, the contracting officer normally shall not require submission of subcontractor cost or pricing data to the Government in that case. If the subcontract estimate is based upon the cost or pricing data of the prospective subcontractor most likely to be awarded the subcontract, the contracting officer shall not require submission to the Government of data from more than one proposed subcontractor for that subcontract.

(d) Subcontractor cost or pricing data shall be accurate, complete, and current as of the date of final price agreement given on the contractor's Certificate of Current Cost or Pricing Data. The prospective contractor shall be responsible for updating a prospective subcontractor's data.

(e) In exceptional cases, the contracting officer may, with the approval of the chief of the contracting office, excuse a prospective contractor from submitting subcontractor cost or pricing data and the required related analyses before completion of negotiations of the prime contract. The prime contractor must, however, obtain this cost or pricing data before award of the subcontract in question. Any request from a prospective contractor to be excused from submitting subcontractor data before completion of negotiations of the prime contract must be supported by an explanation as to why the data and analyses cannot be submitted in a timely manner. If excusing the prospective contractor appears to be appropriate, the contracting officer shall provide the chief of the contracting office with the prospective contractor's explanation, the contracting officer's supporting rationale, and a discussion of how the subcontract price will be determined to be fair and reasonable or what steps will be taken to protect the interest of the Government, e.g., include a contract clause that provides for negotiating an adjustment to the prime contract amount after award.

[54 FR 34754, Aug. 21, 1989]

15.806-3 Field pricing reports.

(a) When obtaining field pricing support on a prime contractor proposal in accordance with 15.805-5, the contracting officer should request audit or field pricing support to analyze and evaluate the proposal of a subcontractor at any tier (notwithstanding availability of data or analyses performed by the prime contractor) if the contracting officer believes that such support is necessary to ensure reasonableness of the total proposed price. This step may be appropriate when, for example—

(1) There is a business relationship between the contractor and subcontractor not conducive to independence and objectivity;

(2) The contractor is a sole source and the subcontract costs represent a substantial part of the contract cost;

(3) The contractor has been denied access to the subcontractor's records; or

(4) The contracting officer determines that, because of factors such as

the size of the proposed subcontract price, audit or field pricing support for a subcontract or subcontracts at any tier is critical to a fully detailed analysis of the prime contract proposal.

(b) When the contracting officer requests the cognizant ACO or auditor to review a subcontractor's cost estimates, the request shall include, when available, a copy of any review prepared by the prime contractor or higher tier subcontractor, the subcontractor's proposal, cost or pricing data provided by the subcontractor, and the results of the prime contractor's cost or price analysis.

(c) When the Government performs the subcontract analysis, the Government shall furnish to the prime contractor or higher tier subcontractor, with the consent of the subcontractor reviewed, a summary of the analysis performed in determining any unacceptable costs, by element, included in the subcontract proposal. If the subcontractor withholds consent, the Government shall furnish a range of unacceptable costs for each element in such a way as to prevent disclosure of subcontractor proprietary data.

[54 FR 34753, Aug. 21, 1989]

15.807 Prenegotiation objectives.

(a) The process of determining prenegotiation objectives helps the contracting officer to judge the overall reasonableness of proposed prices and to negotiate a fair and reasonable price or cost and fee. In setting the prenegotiation objectives, the contracting officer shall analyze the offeror's proposal, taking into account the field pricing report, if any; any audit report and technical analysis whether or not part of a field pricing report; and other pertinent data such as independent Government cost estimates and price histories. This process may include fact-finding sessions with the offeror when the contracting officer deems appropriate.

(b) The contracting officer shall establish prenegotiation objectives before the negotiation of any pricing action. The scope and depth of the analysis supporting the objectives should be directly related to the dollar value, importance, and complexity of the pricing action. When cost analysis is required, the analysis shall address (1) the pertinent issues to be negotiated, (2) the cost objectives, and (3) a profit or fee objective.

(c) The Government's cost objective and proposed pricing arrangement directly affect the profit or fee objective. Because profit or fee is only one of several interrelated variables, the contracting officer shall not agree on profit or fee without concurrent agreement on cost and type of contract. Specific agreement on the exact values or weights assigned to individual profit-analysis factors (see 15.905) is not required during negotiations and should not be attempted.

15.808 Price negotiation memorandum.

(a) At the conclusion of each negotiation of an initial or revised price, the contracting officer shall promptly prepare a memorandum of the principal elements of the price negotiation. The memorandum shall be included in the contract file and shall contain the following minimum information:

(1) The purpose of the negotiation.

(2) A description of the acquisition, including appropriate identifying numbers (e.g., RFP No.).

(3) The name, position, and organization of each person representing the contractor and the Government in the negotiation.

(4) The current status of the contractor's purchasing system when material is a significant cost element.

(5) If certified cost or pricing data were required, the extent to which the contracting officer—

(i) Relied on the cost or pricing data submitted and used them in negotiating the price; and

(ii) Recognized as inaccurate, incomplete, or noncurrent any cost or pricing data submitted; the action taken by the contracting officer and the contractor as a result; and the effect of the defective data on the price negotiated.

(6) If cost or pricing data were not required in the case of any price negotiation over $100,000, the exemption or waiver used and the basis for claiming or granting it.

(7) If certified cost or pricing data were required in the case of any price

negotiation under $100,000, the rationale for such requirement.

(8) A summary of the contractor's proposal, the field pricing report recommendations, and the reasons for any pertinent variances from the field pricing report recommendations. Where the determination of price reasonableness is based on cost analysis, the summary shall address the amount of each major cost element: (i) Proposed by the contractor, (ii) recommended by the field or other pricing assistance report (if any), (iii) contained in the Government's negotiation objective, and (iv) considered negotiated as a part of the price.

(9) The most significant facts or considerations controlling the establishment of the prenegotiation price objective and the negotiated price including an explanation of any significant differences between the two positions. To the extent such direction is received, the price negotiation memorandum (PNM) shall discuss and quantify the impact of direction given by Congress, other agencies, and higher level officials (i.e., officials who would not normally exercise authority during the award and review process for the instant contract action) if the direction has had a significant effect on the action.

(10) The basis for determining the profit or fee prenegotiation objective and the profit or fee negotiated.

(b) Whenever a field pricing report has been submitted, the contracting officer shall forward a copy of the price negotiation memorandum (PNM) to the cognizant audit office and a copy to the cognizant administrative contracting officer. When appropriate, information on how the advisory services of the field pricing support team can be made more effective should be provided separately.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 52 FR 19803, May 27, 1987]

15.809 Forward pricing rate agreements.

(a) Negotiation of forward pricing rate agreements (FPRA's) may be requested by the contracting officer or the contractor or initiated by the administrative contracting officer (ACO). In determining whether or not to establish such an agreement, the ACO should consider whether the benefits to be derived from the agreement are commensurate with the effort of establishing and monitoring it. Normally, FPRA's should be negotiated only with contractors having a significant volume of Government contract proposals. The cognizant contract administration agency shall determine whether an FPRA will be established.

(b) The ACO shall obtain the contractor's proposal and require that it include cost or pricing data that are accurate, complete, and current as of the date of submission. The ACO shall invite the cognizant contract auditor and contracting offices having a significant interest to participate in developing a Government objective and in the negotiations. Upon completing negotiations, the ACO shall prepare a price negotiation memorandum (PNM) (see 15.808) and forward copies of the PNM and FPRA to the cognizant auditor and to all contracting offices that are known to be affected by the FPRA. A Certificate of Current Cost or Pricing Data shall not be required at this time (see 15.804-4(g)).

(c) The FPRA shall provide specific terms and conditions covering expiration, application, and data requirements for systematic monitoring to assure the validity of the rates. The agreement shall provide for cancellation at the option of either party and shall require the contractor to submit to the ACO and to the cognizant contract auditor any significant change in cost or pricing data.

(d) Offerors are required (see 15.804-4(g)) to describe any FPRA's in each specific pricing proposal to which the rates apply and identify the latest cost or pricing data already submitted in accordance with the agreement. All data submitted in connection with the agreement, updated as necessary, form a part of the total data that the offeror certifies to be accurate, complete, and current at the time of agreement on price for an initial contract or for a contract modification.

(e) Contracting officers will use FPRA rates as bases for pricing all contracts, modifications, and other contractual actions to be performed during the period covered by the agreement, unless the ACO determines that changed conditions have invalidated part or all of the agreement. Conditions that may affect the agreement's validity shall be promptly reported to the ACO.

(1) If the ACO determines that the agreement is still valid, the ACO shall notify the individual or agency that reported the changed conditions.

(2) If the ACO determines that a changed condition has invalidated the agreement, the ACO shall notify all interested parties of the extent of its effect and initiate revision of the agreement.

(f) When an FPRA has been invalidated, the contractor, ACO, and contracting officer shall reflect the changed condition in proposals, cost analyses, and negotiations, pending revision of the agreement.

15.810 Should-cost analysis.

(a) Should-cost analysis is a specialized form of cost analysis which is used to evaluate the cost of production programs by evaluating and challenging a contractor's management and operating systems or portions thereof. It does not assume the use of the contractor's existing workforce, methods, materials, facilities, or management and operating systems. It addresses significant cost drivers and may be tailored to a specific part of the contractor's operations, for example, indirect expense activities, factory layout, etc. This analysis is accomplished by an integrated team of Government contracting, contract administration, pricing, audit, and engineering representatives. The objective of should-cost analysis is to promote both short- and long-range improvements in the contractor's economy and efficiency by evaluating and challenging the contractor's existing workforce, methods, materials, facilities, or management and operating systems to identify uneconomical or inefficient practices. In addition, by providing rationale for any recommendations and quantifying their impact on cost, the Government will be better able to develop realistic price objectives for negotiation.

(b) A should-cost analysis should be considered, particularly in the case of a major system acquisition (see part 34), when—

(1) Some initial production has already taken place;

(2) The contract will be awarded on a sole-source basis;

(3) There are future year production requirements for substantial quantities of like items;

(4) The items being acquired have a history of increasing costs;

(5) The work is sufficiently defined to permit an effective analysis and major changes are unlikely;

(6) Sufficient time is available to plan and conduct the should-cost analysis adequately; and

(7) Personnel with the required skills are available or can be assigned for the duration of the should-cost analysis.

(c) The scope of a should-cost analysis can range from a large-scale review examining the contractor's entire operation (including plant-wide overhead and selected major subcontractors) to a small-scale review examining specific portions of a contractor's operation. When a should-cost analysis is conducted relative to a contractor proposal, a separate audit report on the proposal is required. In determining the team size for the review, the various factors outlined in this paragraph (c) should be considered.

(d) The contracting officer should decide which elements of the contractor's operation have the greatest potential for cost savings and assign the available personnel resources accordingly. While the particular elements to be analyzed are a function of the contract work task, elements such as manufacturing, pricing and accounting, management and organization, and subcontract and vendor management are normally reviewed in a should-cost analysis.

(e) In acquisitions for which a should-cost analysis is conducted, a separate should-cost analysis team report, prepared in accordance with agency procedures, is required. Field pricing reports are required only to the extent that they contribute to the combined team position. The contracting officer shall consider the findings and recommendations contained in the should-cost analysis team report when negotiating the contract price. After completing the negotiation, the contracting officer shall provide the administrative contracting officer a report of any identified uneconomical or inefficient practices, together with a report of correction or disposition agreements reached with the contractor. The contracting officer shall establish a follow-up plan to monitor the correction of the uneconomical or inefficient practices.

(f) When a should-cost analysis is planned, the contracting officer should state this fact (1) in the acquisition plan (see subpart 7.1) and (2) in the solicitation.

[48 FR 42187, Sept. 19, 1983, as amended at 51 FR 36971, Oct. 16, 1986]

15.811 Estimating systems.

(a) The consistent preparation of proposals using an acceptable estimating system benefits both the Government and the contractor by increasing the accuracy and reliability of individual proposals. Cognizant audit activities, when it is appropriate to do so, shall establish and manage regular programs for reviewing selected contractors' estimating systems or methods, in order to (1) reduce the scope of reviews to be performed on individual proposals, (2) expedite the negotiation process, and (3) increase the reliability of proposals. The results of estimating system reviews shall be documented in survey reports.

(b) The auditor shall send a copy of the estimating system survey report and a copy of the official notice of corrective action required to each contracting office and contract administration office having substantial business with that contractor. Significant deficiencies not corrected by the contractor shall be a consideration in subsequent proposal analyses and negotiations.

(c) In determining the acceptability of a contractor's estimating system, the auditor should consider—

(1) The source of data for estimates and the procedures for ensuring that the data are accurate, complete, and current;

(2) The documentation developed and maintained in support of the estimate;

(3) The assignment of responsibilities for originating, reviewing, and approving estimates;

(4) The procedures followed for developing estimates for direct and indirect cost elements;

(5) The extent of coordination and communication between organizational elements responsible for the estimate; and

(6) Management support, including estimate approval, establishment of controls, and training programs.

15.812 Unit prices.

15.812-1 General.

(a) Direct and indirect costs are generally allocated to contracts in accordance with the Cost Accounting Standards of part 30 (when applicable) and the Contract Cost Principles and Procedures of part 31. However, for the purpose of pricing all items of supplies, distribution of those costs within contracts shall be on a basis that ensures the unit prices are in proportion to the item's base cost (e.g., manufacturing or acquisition costs. Any method of distributing costs to line items that distorts the unit prices shall not be used. For example, distributing costs equally among line items is not acceptable except when there is little or no variation in base cost.

(b) However, the policy in paragraph (a) of this subsection does not apply to any Department of Defense (DoD) or National Aeronautics and Space Administration (NASA) contract or subcontract item of supply for which the price is, or is based on, an established catalog or market price of a commercial item sold in substantial quantities to the general public. A price is "based on" a catalog or market price only if the item is sufficiently similar to the catalog or market price commercial item to ensure that any difference in price can be identified and justified without resort to cost analysis.

(c) In addition, when contracting by negotiation without full and open competition, contracting officers shall require that offerors identify in their proposals those items of supply which they will not manufacture or to which they will not contribute significant value. The contracting officer shall require similar information when contracting by negotiation with full and open competition if adequate price competition is not expected (see 15.804-3(b)). The information need not be requested in connection with the award of contracts under the General Services Administration's competitive Multiple Award Schedule Program. For DoD and NASA contracts, the information shall not be requested for commercial items sold in substantial quantities to the general public when the prices are, or are based on, established catalog or market prices. Such information is to be used to determine whether the intrinsic value of an item has been distorted, such as through the application of overhead, and whether such items should be considered for breakout. The contracting officer may require such information in any other negotiated contracts when appropriate.

[51 FR 27120, July 29, 1986 as amended at; 52 FR 21886, June 9, 1987; 53 FR 27462, July 20, 1988]

15.812-2 Contract clause.

(a) The contracting officer shall insert the clause at 52.215-26, Integrity of Unit Prices, in all solicitations and contracts for other than—

(1) Small purchases under part 13;

(2) Construction or architect-engineer services under part 36;

(3) Utility services under subpart 8.3; or

(4) Service contracts where supplies are not required.

(b) The contracting officer shall insert the clause with its *Alternate I* when contracting without full and open competition or when prescribed by agency regulations.

[51 FR 27120, July 29, 1986, as amended at 52 FR 21887, June 9, 1987]

15.813 Commercial pricing certificates.

15.813-1 Scope and applicability.

This section prescribes policies and procedures for obtaining certificates from contractors relating to prices offered for parts or components as defined in 15.813-2. It implements the statutory provisions in 41 U.S.C. 253e for civilian agencies and in 10 U.S.C. 2323 for the Department of Defense, the National Aeronautics and Space Administration, and the Coast Guard.

[55 FR 25527, June 21, 1990]

15.813-2 Definitions.

Lowest commercial price, as used in this section, means the lowest price at which a sale was made to the general public of a particular part or component. The term does not include the price at which a sale was made to—

(a) Any agency of the United States;

(b) Customers located outside the United States;

(c) A subsidiary, affiliate, or parent business organization of the contractor or any other branch of the same business entity; and

(d) For contracts awarded by the Department of Defense, the National Aeronautics and Space Administration, and the Coast Guard, such term also does not include the sale to any customer—

(1) For resale after such customer performs a service or function in connection with such part or component that increases the cost of the part or component unless the agency procuring the part or component can demonstrate that the agency is procuring the part or component before such service or function has been performed by any such customer (see 15.813-6(c)); or

(2) At a price that, for the purpose of making a donation, has been substantially discounted below the fair market value or regular price of such part or component.

Part or component, as used in this section, means—

(a) For acquisitions of the Department of Defense, the National Aeronautics and Space Administration, and the Coast Guard, any individual piece, part, subassembly, or component which is furnished for the logistic support or repair of an end item and not as an end item itself; or

(b) For acquisitions of civilian agencies other than the National Aeronautics and Space Administration and the Coast Guard, any individual part, component, subassembly, assembly, or subsystem integral to a major system, and other property which may be replaced during the service life of the system, and includes spare parts and replenishment spare parts, but does not include packaging or labeling associated with shipment or identification of a part or component.

[55 FR 25527, June 21, 1990]

15.813-3 Policy.

Contracts entered into using other than full and open competition may not result in prices for parts or components (as defined in 15.813-2) offered for sale to the general public that exceed the contractor's lowest commercial prices for such parts or components unless the price difference is clearly justified by the seller or the contracting officer has determined to exempt the contractor from the requirement under 15.813-5(d). To this end, 41 U.S.C. 253e and 10 U.S.C. 2323 require offerors to certify that prices offered for parts or components are not more than their lowest commercial prices, or to submit a written statement specifying the amount of the difference between their lowest commercial prices for the parts or components and the prices offered, and providing justification for those differences. Because the forces of the competitive marketplace usually ensure that the Government does not pay an unreasonable price for commercial parts or components, commercial pricing certificates are necessary only when these forces are not present in a particular contract action.

[55 FR 25528, June 21, 1990]

15.813-4 Requirements for submission of commercial pricing certificates.

Unless a contract is exempt from the requirement pursuant to 15.813-5, commercial pricing certificates are required to be submitted with any offer/proposal that—

(a) Includes any parts or components that are offered for sale to the general public; and

(b) Is submitted in connection with any of the following:

(1) Offers/proposals in connection with contracts to be awarded with other than full and open competition.

(2) Contract modifications, including contract modifications for additional parts or components, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause (but see subparagraph (b)(5) of this subsection), or funding and other administrative modifications.

(3) Orders under the provisioning line item of a contract, a basic ordering agreement, or similar arrangement if the order is being placed with other than full and open competition.

(4) Definitization of price on a letter contract, unpriced order, or other contract, modification, or order awarded without a definitive price. (The commercial pricing certificate is not required before the initial award, but rather shall be submitted with the proposal to definitize.)

(5) Any modification issued pursuant to the Changes clause that results in the providing of new or different parts or components.

[55 FR 25528, June 21, 1990]

15.813-5 Exemption from the requirement to submit commercial pricing certificates.

A contract is exempt from the requirement that a commercial pricing certificate be submitted if—

(a) The simplified small purchase procedures of part 13 are used;

(b) An acquisition is being made under the procedures established by the General Services Administration for its multiple award schedule program; or

(c) An order is placed under an indefinite delivery type contract. (However, a certificate is required in connection with the award with other than full and open competition of an indefinite delivery type contract.); or

(d) The contracting officer determines that obtaining the commercial pricing certificate is not appropriate because of—

(1) National security considerations; or

(2) Significant differences between the terms of the commercial sales of the parts or components to be acquired under the contract and the terms of the contract, including differences in quantity, quality, delivery requirements, or other terms and conditions.

[55 FR 25528, June 21, 1990]

§ 15.813-6 Procedures.

(a) If a commercial pricing certificate is required in accordance with 15.813-4, the contracting officer shall ensure that the certificate set forth in paragraph (b) of the clause at 52.215-32, Certification of Commercial Pricing for Parts or Components, is submitted with each offer/proposal. Notice of the requirement and requests for submission of a certificate in the solicitation are accomplished through use of the solicitation provision of 52.215-37. Contracting officers are encouraged to enter into advance agreements with contractors to consolidate submission requirements when detailed repetitive certifications and justifications would otherwise be required.

(b) When requested pursuant to paragraph (a) of this subsection, offerors/contractors are required to submit the commercial pricing certificate with their proposals unless the contracting officer determines to grant an exemption pursuant to 15.813-5(d). Exemptions from the requirement to submit a commercial pricing certificate should not be granted pursuant to 15.813-5(d)(2) unless the contracting officer has sufficient information to verify that the contractor's lowest commercial price for parts or components offered for sale to the general public are subject to such substantial differences (in quantity, quality, delivery, or other terms and conditions) from Government contract terms so as to warrant the exemption. If the contracting officer determines that use of the lowest commercial price for a part or component is not appropriate for a contract under 15.813-5(d), this determination should be communicated to the offeror/contractor in writing. Contracting officers may accept information supporting possible exemptions from offerors/contractors at any time prior to agreement on price. Exemptions relieve the offerors/contractors from the statutory and contractual submission requirement.

(c) For the Department of Defense, the National Aeronautics and Space Administration, and the Coast Guard, a contracting officer may make a determination that the definition of "Lowest Commercial Price" in the clause of 52.215-32 shall include the price at which a sale was made to any person or corporation for resale by the person or corporation. In making this determination, the contracting officer must be able to demonstrate that the parts or components are being procured by the contracting officer under the same terms and conditions at which a sale was made to the person or corporation for resale.

(d) The contracting officer shall request submission of a new certificate when the validity of the certificate originally submitted with an offer/proposal becomes doubtful before award because of submission of a new or revised proposal or as a result of discussions.

(e) If, after award, the contracting officer learns or suspects that a certificate was inaccurate, incomplete, or misleading, the contracting officer shall request an audit under the authority of paragraph (c) of the clause of 52.215-32. If the contracting officer determines that a certificate is inaccurate, incomplete, or misleading, the Government is entitled to a price adjustment for any overcharge (see paragraph (d) of the clause at 52.215-32).

(f) Individual or class determinations made under 15.813-5(d) (1) or (2), and advance agreements made under paragraph (a) of this subsection, shall be documented in the contract file.

(g) Possession of a commercial pricing certificate is not a substitute for examining a contractor's proposal and determining that the prices offered are fair and reasonable. The certificate represents a tool to assist the contracting officer in the determination. The contracting officer shall obtain sufficient information with regard to commercial parts or components to permit an understanding of the contractor's commercial pricing structure and where within that structure the acquisition fits. (See 15.804-3(h) and data obtained on the Standard Form 1412, Claim for Exemption from Submission of Certified Cost or Pricing Data.)

[55 FR 25528, June 21, 1990]

15.813-7 Solicitation provision and contract clause.

(a)(1) The contracting officer shall insert the clause at 52.215-32, Certification of Commercial Pricing for Parts or Components, in solicitations and contracts if a commercial pricing certificate is required by 15.813-4.

(2) The contracting officer shall insert the clause with its Alternate I in solicitations and contracts for sealed bids or negotiated acquisitions involving the furnishing of parts or components using full and open competition.

(b) The contracting officer shall insert the provision at 52.215-37, Commercial Pricing Certificate—Notice, in solicitations if a commercial pricing certificate is required by 15.813-4.

[55 FR 25529, June 21, 1990]

15.814 Unbalanced offers.

(a) Offers shall also be analyzed to determine whether they are unbalanced with respect to prices or separately priced line items. This is particularly important when evaluating the relationship of the price for first article tests or test items to the price for the production units, and in evaluating the prices for options in relationship to the prices for the basic requirement.

(b) An offer is mathematically unbalanced if it is based on prices which are significantly less than cost for some contract line items and significantly overstated in relation to cost for others. An offer is materially unbalanced if it is mathematically unbalanced, and if—

(1) There is a reasonable doubt that the offer would result in the lowest overall cost to the Government, even though it is the lowest evaluated offer; or

(2) The offer is so grossly unbalanced that its acceptance would be tantamount to allowing an advance payment.

(c) Offers that are materially unbalanced may be rejected.

(d) Depending on the nature of the acquisition, contracting officers shall use either price analysis or cost analysis techniques, or a combination of the two techniques, to determine if offers are materially unbalanced. The following are examples of techniques that can be used to determine if an offer is unbalanced. Although these examples specifically relate to first article testing, they may also be used for other procurements where unbalanced offers may be of concern.

(1) Compare all offers to determine if the offerors have significantly higher prices for the first articles than for the production units. The comparison should consider whether the Government or the contractor will perform the first article test.

(2) For an individual offer, compare the relationship of first article prices to prices for production items. The cost to the offeror for first articles may be estimated (i) By comparing the total price offered, including the first article to an alternate proposal by the same offeror which does not include first article testing (see 9.306(d)); or (ii) if cost data has been submitted, by reviewing certain elements of cost to determine, for instance, whether manufacturing and special tooling, and test equipment costs, are prorated among the first articles and the production units, or are only applied to the first articles. If cost data are not available, it may be necessary for contracting officers to estimate contractor cost.

[55 FR 25529, June 21, 1990]

Subpart 15.9—Profit

15.900 Scope of subpart.

This subpart—

(a) Prescribes policies for establishing the profit or fee portion of the Government prenegotiation objective;

(b) Applies to price negotiations based on cost analysis;

(c) Prescribes policies for agencies' development and use of a structured approach for determining the profit or fee prenegotiation objective (see 15.905 for the contents of a structured approach); and

(d) Specifies (1) situations requiring contracting officers to analyze profit and (2) considerations for that analysis.

15.901 General.

(a) Profit or fee prenegotiation objectives do not necessarily represent net income to contractors. Rather, they represent that element of the potential total remuneration that contractors *may* receive for contract performance over and above allowable costs. This potential remuneration element and the Government's estimate of allowable costs to be incurred in contract performance together equal the Government's total prenegotiation objective. Just as actual costs may vary from estimated costs, the contractor's actual realized profit or fee may vary from negotiated profit or fee, because of such factors as efficiency of performance, incurrence of costs the Government does not recognize as allowable, and contract type.

(b) It is in the Government's interest to offer contractors opportunities for financial rewards sufficient to (1) stimulate efficient contract performance, (2) attract the best capabilities of qualified large and small business concerns to Government contracts, and (3) maintain a viable industrial base.

(c) Both the Government and contractors should be concerned with profit as a motivator of efficient and effective contract performance. Negotiations aimed merely at reducing prices by reducing profit, without proper recognition of the function of profit, are not in the Government's interest. Negotiation of extremely low profits, use of historical averages, or automatic application of predetermined percentages to total estimated costs do not provide proper motivation for optimum contract performance. With the exception of statutory ceilings in 15.903(d) on profit and fee, agencies shall not (1) establish administrative ceilings or (2) create administrative procedures that could be represented to contractors as de facto ceilings.

15.902 Policy.

(a) Structured approaches (see 15.905) for determining profit or fee prenegotiation objectives provide a discipline for ensuring that all relevant factors are considered. Subject to the authorities in 1.301(c), agencies making noncompetitive contract awards over $100,000 totaling $50 million or more a year—

(1) Shall use a structured approach for determining the profit or fee objective in those acquisitions that require cost analysis; and

(2) May prescribe specific exemptions for situations in which mandatory use of a structured approach would be clearly inappropriate.

(b) Agencies may use another agency's structured approach.

15.903 Contracting officer responsibilities.

(a) When the price negotiation is not based on cost analysis, contracting officers are not required to analyze profit.

(b) When the price negotiation is based on cost analysis, contracting officers in agencies that have a structured approach shall use it to analyze profit. When not using a structured approach, contracting officers shall comply with 15.905-1 in developing profit or fee prenegotiation objectives.

(c) Contracting officers shall use the Government prenegotiation cost objective amounts as the basis for calculating the profit or fee prenegotiation objective. Before the allowability of facilities capital cost of money, this cost was included in profits or fees. Therefore, before applying profit or fee factors, the contracting officer shall exclude any facilities capital cost of money included in the cost objective amounts. If the prospective contractor fails to identify or propose facilities capital cost of money in a proposal for a contract that will be subject to the cost principles for contracts with commercial organizations (see subpart 31.2), facilities capital cost of money will not be an allowable cost in any resulting contract (see 15.904).

(d) (1) The contracting officer shall not negotiate a price or fee that exceeds the following statutory limitations, imposed by 10 U.S.C. 2306(d) and 41 U.S.C. 254(b):

(i) For experimental, developmental, or research work performed under a cost-plus-fixed-fee contract, the fee shall not exceed 15 percent of the contract's estimated cost, excluding fee.

(ii) For architect-engineering services for public works or utilities, the contract price or the estimated cost and fee for production and delivery of designs, plans, drawings, and specifications shall not exceed 6 percent of the estimated cost of construction of the public work or utility, excluding fees.

(iii) For other cost-plus-fixed-fee contracts, the fee shall not exceed 10 percent of the contract's estimated cost, excluding fee.

(2) The limitations in subdivisions (1)(i) and (iii) above shall apply also to the maximum fees on cost-plus-incentive-fee and cost-plus-award-fee contracts. However, a deviation to the maximum-fee limitation for a specific cost-plus-incentive-fee or cost-plus-award-fee contract may be authorized in accordance with subpart 1.4.

(e) The contracting officer shall not require any prospective contractor to submit details of its profit or fee objective but shall consider them if they are submitted voluntarily.

(f) If a change or modification (1) calls for essentially the same type and mix of work as the basic contract and (2) is of relatively small dollar value compared to the total contract value, the contracting officer may use the basic contract's profit or fee rate as the prenegotiation objective for that change or modification.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 23606, June 4, 1985]

15.904 Solicitation provision and contract clause.

(a) The contracting officer shall insert the provision at 52.215-30, Facilities Capital Cost of Money, in solicitations expected to result in contracts that are subject to the cost principles for contracts with commercial organizations (see subpart 31.2).

(b) If the propsective contractor does not propose facilities capital cost of money in its offer, insert the clause at 52.215-31, Waiver of Facilities Capital Cost of Money, in the resulting contract.

[52 FR 35613, Sept. 22, 1987]

15.905 Profit-analysis factors.

15.905-1 Common factors.

Unless it is clearly inappropriate or not applicable, each factor outlined in paragraphs (a) through (f) following shall be considered by agencies in developing their structured approaches and by contracting officers in analyzing profit whether or not using a structured approach.

(a) *Contractor effort.* This factor measures the complexity of the work and the resources required of the prospective contractor for contract performance. Greater profit opportunity should be provided under contracts requiring a high degree of professional and managerial skill and to prospective contractors whose skills, facilities, and technical assets can be expected to lead to efficient and economical contract performance. Subfactors (1) through (4) following shall be considered in determining contractor effort, but they may be modified in specific situations to accommodate differences in the categories used by prospective contractors for listing costs:

(1) *Material acquisition.* This subfactor measures the managerial and technical effort needed to obtain the required purchased parts and material, subcontracted items, and special tooling. Considerations include (i) the complexity of the items required, (ii) the number of purchase orders and subcontracts to be awarded and administered, (iii) whether established sources are available or new or second sources must be developed, and (iv) whether material will be obtained through routine purchase orders or through complex subcontracts requiring detailed specifications. Profit consideration should correspond to the managerial and technical effort involved.

(2) *Conversion direct labor.* This subfactor measures the contribution of direct engineering, manufacturing, and other labor to converting the raw materials, data, and subcontracted items into the contract items. Considerations include the diversity of engineering, scientific, and manufacturing labor skills required and the amount and quality of supervision and coordi-

nation needed to perform the contract task.

(3) *Conversion-related indirect costs.* This subfactor measures how much the indirect costs contribute to contract performance. The labor elements in the allocable indirect costs should be given the profit consideration they would receive if treated as direct labor. The other elements of indirect costs should be evaluated to determine whether they (i) merit only limited profit consideration because of their routine nature or (ii) are elements that contribute significantly to the proposed contract.

(4) *General management.* This subfactor measures the prospective contractor's other indirect costs and general and administrative (G&A) expense, their composition, and how much they contribute to contract performance. Considerations include (i) how labor in the overhead pools would be treated if it were direct labor, (ii) whether elements within the pools are routine expenses or instead are elements that contribute significantly to the proposed contract, and (iii) whether the elements require routine as opposed to unusual managerial effort and attention.

(b) *Contract cost risk.* (1) This factor measures the degree of cost responsibility and associated risk that the prospective contractor will assume (i) as a result of the contract type contemplated and (ii) considering the reliability of the cost estimate in relation to the complexity and duration of the contract task. Determination of contract type should be closely related to the risks involved in timely, cost-effective, and efficient performance. This factor should compensate contractors proportionately for assuming greater cost risks.

(2) The contractor assumes the greatest cost risk in a closely priced firm-fixed-price contract under which it agrees to perform a complex undertaking on time and at a predetermined price. Some firm-fixed-price contracts may entail substantially less cost risk than others because, for example, the contract task is less complex or many of the contractor's costs are known at the time of price agreement, in which case the risk factor should be reduced accordingly. The contractor assumes the least cost risk in a cost-plus-fixed-fee level-of-effort contract, under which it is reimbursed those costs determined to be allocable and allowable, plus the fixed fee.

(3) In evaluating assumption of cost risk, contracting officers shall, except in unusual circumstances, treat time-and-materials, labor-hour, and firm-fixed-price, level-of-effort term contracts as cost-plus-fixed-fee contracts.

(c) *Federal socioeconomic programs.* This factor measures the degree of support given by the prospective contractor to Federal socioeconomic programs, such as those involving small business concerns, small business concerns owned and controlled by socially and economically disadvantaged individuals, handicapped sheltered workshops, labor surplus areas, and energy conservation. Greater profit opportunity should be provided contractors who have displayed unusual initiative in these programs.

(d) *Capital investments.* This factor takes into account the contribution of contractor investments to efficient and economical contract performance.

(e) *Cost-control and other past accomplishments.* This factor allows additional profit opportunities to a prospective contractor that has previously demonstrated its ability to perform similar tasks effectively and economically. In addition, consideration should be given to (1) measures taken by the prospective contractor that result in productivity improvements and (2) other cost-reduction accomplishments that will benefit the Government in follow-on contracts.

(f) *Independent development.* Under this factor, the contractor may be provided additional profit opportunities in recognition of independent development efforts relevant to the contract end item without Government assistance. The contracting officer should consider whether the development cost was recovered directly or indirectly from Government sources.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 23606, June 4, 1985]

15.905-2 Additional factors.

In order to foster achievement of program objectives, each agency may include additional factors in its structured approach or take them into account in the profit analysis of individual contract actions.

Subpart 15.10—Preaward, Award and Postaward Notifications, Protests, and Mistakes

15.1001 Notifications to unsuccessful offerors.

(a) *General.* The Contracting officer shall promptly notify each offeror whose proposal is determined to be unacceptable or whose offer is not selected for award, unless disclosure might prejudice the Government's interest.

(b) *Preaward notices.* (1) When the proposal evaluation period for a solicitation estimated to exceed the small purchase limitation in part 13 is expected to exceed 30 days, or when a limited number of offerors have been selected as being within the competitive range (see 15.609), the contracting officer, upon determining that a proposal is unacceptable, shall promptly notify the offeror. The notice shall at least state (i) in general terms the basis for the determination and (ii) that a revision of the proposal will not be considered.

(2) In a small business set-aside (see subpart 19.5), upon completion of negotiations and determinations of responsibility, but prior to award, the contracting officer shall inform each unsuccessful offeror in writing of the name and location of the apparent successful offeror. The notice shall also state that (i) the Government will not consider subsequent revisions of the unsuccessful proposal and (ii) no response is required unless a basis exists to challenge the small business size status of the apparently successful offeror. The notice is not required when the contracting officer determines in writing that the urgency of the requirement necessitates award without delay.

(c) *Postaward notices.* (1) Promptly after award of contracts resulting from solicitations exceeding the small purchase limitation in part 13, the contracting officer shall notify unsuccessful offerors in writing, unless preaward notice was given under paragraph (b) above. The notice shall include—

(i) The number of offerors solicited;

(ii) The number of proposals received;

(iii) The name and address of each offeror receiving an award;

(iv) The items, quantities, and unit prices of each award (if the number of items or other factors makes listing unit prices impracticable, only the total contract price need be furnished); and

(v) In general terms, the reason the offeror's proposal was not accepted, unless the price information in (iv) above readily reveals the reason. In no event shall an offeror's cost breakdown, profit, overhead rates, trade secrets, manufacturing processes and techniques, or other confidential business information be disclosed to any other offeror.

(2) For acquisitions subject to the Trade Agreements Act (see 25.405(e)), provide the information in subparagraph (c)(1) of this section within 7 working days after a contract award to unsuccessful offerors from designated countries.

(3) Upon request, the contracting officer shall furnish the information described in 15.1001(c)(1)(i) through (v) above to unsuccessful offerors in solicitations not exceeding the small purchase limitation in part 13.

[48 FR 42187, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 23606, June 4, 1985; 50 FR 52433, Dec. 23, 1985; 53 FR 27464, July 20, 1988]

15.1002 Notification to successful offeror.

The contracting officer shall award a contract with reasonable promptness to the successful offeror (selected in accordance with 15.611(d)) by transmitting written notice of the award to that offeror (but see 15.608(b)). When an award is made to an offeror for less than all of the items that may be awarded to that offeror and additional items are being withheld for subsequent award, each notice shall state that the Government may make subsequent awards on those additional items within the offer acceptance period.

[50 FR 1741, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985, as amended at 55 FR 3881, Feb. 5, 1990]

15.1003 Debriefing of unsuccessful offerors.

(a) When a contract is awarded on a basis other than price alone (see subpart 15.6), unsuccessful offerors, upon their written request, shall be debriefed and furnished the basis for the selection decision and contract award.

(b) Debriefing information shall include the Government's evaluation of the significant weak or deficient factors in the proposal; however, point-by-point comparisons with other offerors' proposals shall not be made. Debriefing shall not reveal the relative merits or technical standing of competitors or the evaluation scoring. Moreover, debriefing shall not reveal any information that is not releasable under the Freedom of Information Act; for example—

(1) Trade secrets;

(2) Privileged or confidential manufacturing processes and techniques; and

(3) Commercial and financial information that is privileged or confidential, including cost breakdowns, profit, indirect cost rates, and similar information.

(c) The contracting officer shall include a summary of the debriefing in the contract file.

[48 FR 42187, Sept. 19, 1983. Redesignated and amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

15.1004 Protests against award.

Protests against award in negotiated acquisitions shall be treated substantially the same as in sealed bidding (see subpart 33.1).

[48 FR 42187, Sept. 19, 1983. Redesignated and amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2650, Jan. 17, 1986]

15.1005 Discovery of mistakes.

For treatment of mistakes in an offeror's proposal that are discovered before award, see 15.607. Mistakes in a contractor's proposal that are disclosed after award shall be processed in accordance with 14.406-4.

[48 FR 42187, Sept. 19, 1983. Redesignated at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

SOURCE: 48 FR 42219, Sept. 19, 1983, unless otherwise noted.

16.000 Scope of part.

This part describes types of contracts that may be used in acquisitions other than small purchases under part 13. It prescribes policies and procedures and provides guidance for selecting a contract type appropriate to the circumstances of the acquisition.

Subpart 16.1—Selecting Contract Types

16.101 General.

(a) A wide selection of contract types is available to the Government and contractors in order to provide needed flexibility in acquiring the large variety and volume of supplies and services required by agencies. Contract types vary according to (1) the degree and timing of the responsibility assumed by the contractor for the costs of performance and (2) the amount and nature of the profit incentive offered to the contractor for achieving or exceeding specified standards or goals.

(b) The contract types are grouped into two broad categories: fixed-price contracts (see subpart 16.2) and cost-reimbursement contracts (see subpart 16.3). The specific contract types range from firm-fixed-price, in which the contractor has full responsibility for the performance costs and resulting profit (or loss), to cost-plus-fixed-fee, in which the contractor has minimal responsibility for the performance costs and the negotiated fee (profit) is fixed. In between are the various incentive contracts (see subpart 16.4), in which the contractor's responsibility for the performance costs and the profit or fee incentives offered are tailored to the uncertainties involved in contract performance.

16.102 Policies.

(a) Contracts resulting from sealed bidding shall be firm-fixed-price contracts or fixed-price contracts with economic price adjustment.

(b) Contracts negotiated under part 15 may be of any type or combination of types that will promote the Government's interest, except as restricted in this part (see 10 U.S.C. 2306(a) and 41 U.S.C. 254(a)). Contract types not described in this regulation shall not be used, except as a deviation under subpart 1.4.

(c) The cost-plus-a-percentage-of-cost system of contracting shall not be used (see 10 U.S.C. 2306(a) and 41 U.S.C. 254(b)). Prime contracts (including letter contracts) other than firm-fixed-price contracts shall, by an appropriate clause, prohibit cost-plus-a-percentage-of-cost subcontracts (see clauses prescribed in subpart 44.2 for cost-reimbursement contracts and subparts 16.2 and 16.4 for fixed-price contracts).

(d) No contract may be awarded before the execution of any determination and findings (D&F's) required by this part. Minimum requirements for the content of D&F's required by this part are specified in 1.704.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1741, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

16.103 Negotiating contract type.

(a) Selecting the contract type is generally a matter for negotiation and requires the exercise of sound judgment. Negotiating the contract type and negotiating prices are closely related and should be considered together. The objective is to negotiate a contract type and price (or estimated cost and fee) that will result in reasonable contractor risk and provide the contractor with the greatest incentive for efficient and economical performance.

(b) A firm-fixed-price contract, which best utilizes the basic profit motive of business enterprise, shall be used when the risk involved is minimal or can be predicted with an acceptable degree of certainty. However, when a reasonable basis for firm pricing does not exist, other contract types should be considered, and negotiations should be directed toward selecting a contract type (or combination of types) that will appropriately tie profit to contractor performance.

(c) In the course of an acquisition program, a series of contracts, or a single long-term contract, changing circumstances may make a different contract type appropriate in later periods than that used at the outset. In particular, contracting officers should avoid protracted use of a cost-reimbursement or time-and-materials contract after experience provides a basis for firmer pricing.

(d) Each contract file shall include documentation to show why the particular contract type was selected. Exceptions to this requirement are: (1) Small purchases under part 13, (2) contracts on a firm fixed-price basis other than those for major systems or research and development, and (3) awards on the set-aside portion of sealed bid partial set-asides for small business or labor surplus area concerns.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 5054, Jan. 31, 1989]

16.104 Factors in selecting contract types.

There are many factors that the contracting officer should consider in selecting and negotiating the contract type. They include the following:

(a) *Price competition.* Normally, effective price competition results in realistic pricing, and a fixed-price contract is ordinarily in the Government's interest.

(b) *Price analysis.* Price analysis, with or without competition, may provide a basis for selecting the contract type. The degree to which price analysis can provide a realistic pricing standard should be carefully considered. (See 15.808-2.)

(c) *Cost analysis.* In the absence of effective price competition and if price analysis is not sufficient, the cost estimates of the offeror and the Government provide the bases for negotiating contract pricing arrangements. It is essential that the uncertainties involved in performance and their possible impact upon costs be identified and evaluated, so that a contract type that places a reasonable degree of cost responsibility upon the contractor can be negotiated.

(d) *Type and complexity of the requirement.* Complex requirements, particularly those unique to the Government, usually result in greater risk assumption by the Government. This is especially true for complex research and development contracts, when performance uncertainties or the likelihood of changes makes it difficult to estimate performance costs in advance. As a requirement recurs or as quantity production begins, the cost risk should shift to the contractor, and a fixed-price contract should be considered.

(e) *Urgency of the requirement.* If urgency is a primary factor, the Government may choose to assume a greater proportion of risk or it may offer incentives to ensure timely contract performance.

(f) *Period of performance or length of production run.* In times of economic uncertainty, contracts extending over a relatively long period may require economic price adjustment terms.

(g) *Contractor's technical capability and financial responsibility.*

(h) *Adequacy of the contractor's accounting system.* Before agreeing on a contract type other than firm-fixed-price, the contracting officer shall ensure that the contractor's accounting system will permit timely development of all necessary cost data in the form required by the proposed contract type. This factor may be critical when the contract type requires price revision while performance is in progress, or when a cost-reimbursement contract is being considered and all current or past experience with the contractor has been on a fixed-price basis.

(i) *Concurrent contracts.* If performance under the proposed contract involves concurrent operations under other contracts, the impact of those contracts, including their pricing arrangements, should be considered.

(j) *Extent and nature of proposed subcontracting.* If the contractor proposes extensive subcontracting, a contract type reflecting the actual risks to the prime contractor should be selected.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

16.105 Solicitation provision.

The contracting officer shall complete and insert the provision at 52.216-1, Type of Contract, in requests for proposals and in requests for quotations unless the solicitation is for (a) a small purchase (see part 13) or (b) information or planning purposes (see 15.405).

Subpart 16.2—Fixed-Price Contracts

16.201 General.

Fixed-price types of contracts provide for a firm price or, in appropriate cases, an adjustable price. Fixed-price contracts providing for an adjustable price may include a ceiling price, a target price (including target cost), or both. Unless otherwise specified in the contract, the ceiling price or target price is subject to adjustment only by operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

16.202 Firm-fixed-price contracts.

16.202-1 Description.

A firm-fixed-price contract provides for a price that is not subject to any adjustment on the basis of the contractor's cost experience in performing the contract. This contract type places upon the contractor maximum risk and full responsibility for all costs and resulting profit or loss. It provides maximum incentive for the contractor to control costs and perform effectively and imposes a minimum administrative burden upon the contracting parties.

16.202-2 Application.

A firm-fixed-price contract is suitable for acquiring commercial products or commercial-type products (see 11.001) or for acquiring other supplies or services on the basis of reasonably definite functional or detailed specifications (see 10.001) when the contracting officer can establish fair and reasonable prices at the outset, such as when—

(a) There is adequate price competition;

(b) There are reasonable price comparisons with prior purchases of the same or similar supplies or services made on a competitive basis or supported by valid cost or pricing data;

(c) Available cost or pricing information permits realistic estimates of the probable costs of performance; or

(d) Performance uncertainties can be identified and reasonable estimates of their cost impact can be made, and the contractor is willing to accept a firm fixed price representing assumption of the risks involved.

16.203 Fixed-price contracts with economic price adjustment.

16.203-1 Description.

A fixed-price contract with economic price adjustment provides for upward and downward revision of the stated contract price upon the occurrence of specified contingencies. Economic price adjustments are of three general types:

(a) *Adjustments based on established prices.* These price adjustments are based on increases or decreases from an agreed-upon level in published or otherwise established prices of specific items or the contract end items.

(b) *Adjustments based on actual costs of labor or material.* These price adjustments are based on increases or decreases in specified costs of labor or material that the contractor actually experiences during contract performance.

(c) *Adjustments based on cost indexes of labor or material.* These price adjustments are based on increases or decreases in labor or material cost standards or indexes that are specifically identified in the contract.

16.203-2 Application.

A fixed-price contract with economic price adjustment may be used when (i) there is serious doubt concerning the stability of market or labor conditions that will exist during an extended period of contract performance, and (ii) contingencies that would otherwise be included in the contract price can be identified and covered separately in the contract. Price adjustments based on established prices should normally be restricted to industry-wide contingencies. Price adjustments based on labor and material costs should be limited to contingencies beyond the contractor's control. For use of economic price adjustment in sealed bid contracts, see 14.407-4.

(a) In establishing the base level from which adjustment will be made, the contracting officer shall ensure that contingency allowances are not duplicated by inclusion in both the base price and the adjustment requested by the contractor under economic price adjustment clause.

(b) In contracts that do not require submission of cost or pricing data, the contracting officer shall obtain adequate information to establish the base level from which adjustment will be made and may require verification of data submitted.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

16.203-3 Limitations.

A fixed-price contract with economic price adjustment shall not be used unless the contracting officer determines that it is necessary either to protect the contractor and the Government against significant fluctuations in labor or material costs or to provide for contract price adjustment in the event of changes in the contractor's established prices.

16.203-4 Contract clauses.

(a) *Adjustment based on established prices—standard supplies.* (1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-2, Economic Price Adjustment—Standard Supplies, or an agency-prescribed clause as authorized in subparagraph (2) below, in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) The requirement is for standard supplies that have an established catalog or market price, verified using the criteria in 15.804-3.

(iii) The contracting officer has made the determination specified in 16.203-3.

(2) If all the conditions in subparagraph (a)(1) above apply and the contracting officer determines that the use of the clause at 52.216-2 is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at 52.216-2.

(3) If the negotiated unit price reflects a net price after applying a trade discount from a catalog or list price, the contracting officer shall document in the contract file both the catalog or list price and the discount. (This does not apply to prompt payment or cash discounts.)

Reproduced from poor document.

best copy available

(b) *Adjustment based on established prices—semistandard supplies.* (1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-3, Economic Price Adjustment—Semistandard Supplies, or an agency-prescribed clause as authorized in subparagraph (2) below, in solicitations and contracts when all of the following conditions apply:

(i) A fixed price contract is contemplated.

(ii) The requirement is for semistandard supplies for which the prices can be reasonably related to the prices of nearly equivalent standard supplies that have an established catalog or market price, verified using the criteria in 15.804-3.

(iii) The contracting officer has made the determination specified in 16.203-3.

(2) If all conditions in subparagraph (b)(1) above apply and the contracting officer determines that the use of the clause at 52.216-3 is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at 52.216-3.

(3) If the negotiated unit price reflects a net price after applying a trade discount from a catalog or list price, the contracting officer shall document in the contract file both the catalog or list price and the discount. (This does not apply to prompt payment or cash discounts.)

(4) Before entering into the contract, the contracting officer and contractor must agree in writing on the identity of the standard supplies and the corresponding contract line items to which the clause applies.

(5) If the supplies are standard, except for preservation, packaging, and packing requirements, the clause prescribed in 16.203-4(a), shall be used rather than this clause.

(c) *Adjustments based on actual cost of labor or material.* (1) The contracting officer shall, when contracting by negotiation, insert a clause that is substantially the same as the clause at 52.216-4, Economic Price Adjustment—Labor and Material, or an agency-prescribed clause as authorized in subparagraph (2) below, in solicitation and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) There is no major element of design engineering or development work involved.

(iii) One or more identifiable labor or material cost factors are subject to change.

(iv) The contracting officer has made the determination specified in 16.203-3.

(2) If all conditions in subparagraph (c)(1) above apply and the contracting officer determines that the use of the clause at 52.216-4 is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at 52.216-4.

(3) The contracting officer shall describe in detail in the contract Schedule—

(i) The types of labor and materials subject to adjustment under the clause;

(ii) The labor rates, including fringe benefits (if any) and unit prices of materials that may be increased or decreased; and

(iii) The quantities of the specified labor and materials allocable to each unit to be delivered under the contract.

(4) In negotiating adjustments under the clause, the contracting officer shall—

(i) Consider work in process and materials on hand at the time of changes in labor rates, including fringe benefits (if any) or material prices;

(ii) Not include in adjustments any indirect cost (except fringe benefits as defined in 31.205-6(m)) or profit; and

(iii) Consider only those fringe benefits specified in the contract Schedule.

(d) *Adjustments based on cost indexes of labor or material.* The contracting officer should consider using an economic price adjustment clause based on cost indexes of labor or material under the circumstances and subject to approval as described in subparagraphs (1) and (2) below.

(1) A clause providing adjustment based on cost indexes of labor or materials may be appropriate when—

(i) The contract involves an extended period of performance with significant costs to be incurred beyond 1 year after performance begins;

(ii) The contract amount subject to adjustment is substantial; and

(iii) The economic variables for labor and materials are too unstable to permit a reasonable division of risk between the Government and the contractor, without this type of clause.

(2) Any clause using this method shall be prepared and approved under agency procedures. Because of the variations in circumstances and clause wording that may arise, no standard clause is prescribed.

[48 FR 42219, Sept. 19, 1983, as amended at 52 FR 19803, May 27, 1987]

16.204 Fixed-price incentive contracts.

A fixed-price incentive contract is a fixed-price contract that provides for adjusting profit and establishing the final contract price by a formula based on the relationship of final negotiated total cost to total target cost. Fixed-price incentive contracts are covered in subpart 16.4, Incentive Contracts. See 16.403 for more complete descriptions and for application, limitations, and prescribed clauses for these contracts.

16.205 Fixed-price contracts with prospective price redetermination.

16.205-1 Description.

A fixed-price contract with prospective price redetermination provides for (a) a firm fixed price for an initial period of contract deliveries or performance and (b) prospective redetermination, at a stated time or times during performance, of the price for subsequent periods of performance.

16.205-2 Application.

A fixed-price contract with prospective price redetermination may be used in acquisitions of quantity production or services for which it is possible to negotiate a fair and reasonable firm fixed price for an initial period, but not for subsequent periods of contract performance.

(a) The initial period should be the longest period for which it is possible to negotiate a fair and reasonable firm fixed price. Each subsequent pricing period should be at least 12 months.

(b) The contract may provide for a ceiling price based on evaluation of the uncertainties involved in performance and their possible cost impact. This ceiling price should provide for assumption of a reasonable proportion of the risk by the contractor and, once established, may be adjusted only by operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

16.205-3 Limitations.

This contract type shall not be used unless—

(a) Negotiations have established that (1) the conditions for use of a firm-fixed-price contract are not present (see 16.202-2), and (2) a fixed-price incentive contract would not be more appropriate;

(b) The contractor's accounting system is adequate for price redetermination;

(c) The prospective pricing periods can be made to conform with operation of the contractor's accounting system; and

(d) There is reasonable assurance that price redetermination actions will take place promptly at the specified times.

16.205-4 Contract clause.

The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-5, Price Redetermination—Prospective, in solicitations and contracts when a fixed-price contract is contemplated and the conditions specified in 16.205-2 and 16.205-3(a) through (d) apply.

16.206 Fixed-ceiling-price contracts with retroactive price redetermination.

16.206-1 Description.

A fixed-ceiling-price contract with retroactive price redetermination provides for (a) a fixed ceiling price and (b) retroactive price redetermination within the ceiling after completion of the contract.

16.206-2 Application.

A fixed-ceiling-price contract with retroactive price redetermination is appropriate for research and development contracts estimated at $100,000 or less when it is established at the outset that a fair and reasonable firm fixed price cannot be negotiated and that the amount involved and short performance period make the use of any other fixed-price contract type impracticable.

(a) A ceiling price shall be negotiated for the contract at a level that reflects a reasonable sharing of risk by the contractor. The established ceiling price may be adjusted only if required by the operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

(b) The contract should be awarded only after negotiation of a billing price that is as fair and reasonable as the circumstances permit.

(c) Since this contract type provides the contractor no cost control incentive except the ceiling price, the contracting officer should make clear to the contractor during discussion before award that the contractor's management effectiveness and ingenuity will be considered in retroactively redetermining the price.

16.206-3 Limitations.

This contract type shall not be used unless—

(a) The contract is for research and development and the estimated cost is $100,000 or less;

(b) The contractor's accounting system is adequate for price redetermination;

(c) There is reasonable assurance that the price redetermination will take place promptly at the specified time; and

(d) The head of the contracting activity (or a higher-level official, if required by agency procedures) approves its use in writing.

16.206-4 Contract clause.

The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-6, Price Redetermination–Retroactive, in solicitations and contracts when a fixed-price contract is contemplated and the conditions in 16.206-2 and 16.206-3(a) through (d) apply.

16.207 Firm-fixed-price, level-of-effort term contracts.

16.207-1 Description.

A firm-fixed-price, level-of-effort term contract requires (a) the contractor to provide a specified level of effort, over a stated period of time, on work that can be stated only in general terms and (b) the Government to pay the contractor a fixed dollar amount.

16.207-2 Application.

A firm-fixed-price, level-of-effort term contract is suitable for investigation or study in a specific research and development area. The product of the contract is usually a report showing the results achieved through application of the required level of effort. However, payment is based on the effort expended rather than on the results achieved.

16.207-3 Limitations.

This contract type may be used only when—

(a) The work required cannot otherwise be clearly defined;

(b) The required level of effort is identified and agreed upon in advance;

(c) There is reasonable assurance that the intended result cannot be achieved by expending less than the stipulated effort; and

(d) The contract price is $100,000 or less, unless approved by the chief of the contracting office.

Subpart 16.3—Cost-Reimbursement Contracts

16.301 General.

16.301-1 Description.

Cost-reimbursement types of contracts provide for payment of allowable incurred costs, to the extent prescribed in the contract. These contracts establish an estimate of total cost for the purpose of obligating funds and establishing a ceiling that the contractor may not exceed (except at its own risk) without the approval of the contracting officer.

16.301-2 Application.

Cost-reimbursement contracts are suitable for use only when uncertainties involved in contract performance do not permit costs to be estimated with sufficient accuracy to use any type of fixed-price contract.

16.301-3 Limitations.

A cost-reimbursement contract may be used only when—

(a) The contractor's accounting system is adequate for determining costs applicable to the contract;

(b) Appropriate Government surveillance during performance will provide reasonable assurance that efficient methods and effective cost controls are used; and

(c) A determination and findings has been executed, in accordance with agency procedures, showing that (1) this contract type is likely to be less costly than any other type or (2) it is impractical to obtain supplies or services of the kind or quality required without the use of this contract type (see 10 U.S.C. 2306(c), 2310(b), and 2311 or 41 U.S.C. 254(b), 257(b), and 257(a)).

(d) See 15.903(d) for statutory limitations on price or fee.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

16.302 Cost contracts.

(a) *Description.* A cost contract is a cost-reimbursement contract in which the contractor receives no fee.

(b) *Application.* A cost contract may be appropriate for research and development work, particularly with nonprofit educational institutions or other nonprofit organizations, and for facilities contracts.

(c) *Limitations.* See 16.301-3.

16.303 Cost-sharing contracts.

(a) *Description.* A cost-sharing contract is a cost-reimbursement contract in which the contractor receives no fee and is reimbursed only for an agreed-upon portion of its allowable costs.

(b) *Application.* A cost-sharing contract may be used when the contractor agrees to absorb a portion of the costs, in the expectation of substantial compensating benefits.

(c) *Limitations.* See 16.301-3.

16.304 Cost-plus-incentive-fee contracts.

A cost-plus-incentive-fee contract is a cost-reimbursement contract that provides for an initially negotiated fee to be adjusted later by a formula based on the relationship of total allowable costs to total target costs. Cost-plus-incentive-fee contracts are covered in subpart 16.4, Incentive Contracts. See 16.404-1 for a more complete description and discussion of application of these contracts. See 16.301-3 for limitations.

16.305 Cost-plus-award-fee contracts.

A cost-plus-award-fee contract is a cost-reimbursement contract that provides for a fee consisting of (a) a base amount (which may be zero) fixed at inception of the contract and (b) an award amount, based upon a judgmental evaluation by the Government, sufficient to provide motivation for excellence in contract performance. Cost-plus-award-fee contracts are covered in subpart 16.4, Incentive Contracts. See 16.404-2 for a more complete description and discussion of application of these contracts. See 16.301-3 and 16.404-2(c) for limitations.

16.306 Cost-plus-fixed-fee contracts.

(a) *Description.* A cost-plus-fixed-fee contract is a cost-reimbursement contract that provides for payment to the contractor of a negotiated fee that is fixed at the inception of the contract. The fixed fee does not vary with actual cost, but may be adjusted as a result of changes in the work to be performed under the contract. This contract type permits contracting for efforts that might otherwise present too great a risk to contractors, but it provides the contractor only a minimum incentive to control costs.

(b) *Application.* (1) A cost-plus-fixed-fee contract is suitable for use when the conditions of 16.301-2 are present and, for example—

(i) The contract is for the performance of research or preliminary exploration or study, and the level of effort required is unknown; or

(ii) The contract is for development and test, and using a cost-plus- incentive-fee contract is not practical.

(2) A cost-plus-fixed-fee contract normally should not be used in development of major systems (see part 34) once preliminary exploration, studies, and risk reduction have indicated a high degree of probability that the development is achievable and the Government has established reasonably firm performance objectives and schedules.

(c) *Limitations.* No cost-plus-fixed-fee contract shall be awarded unless—

(1) All limitations in 16.301-3 are complied with; and

(2) The agency head or designee has signed a determination and findings establishing the basis for application of the statutory price or fee limitation (see 15.903(d)).

(d) *Completion and term forms.* A cost-plus-fixed-fee contract may take one of two basic forms—completion or term.

(1) The completion form describes the scope of work by stating a definite goal or target and specifying an end product. This form of contract normally requires the contractor to complete and deliver the specified end product (e.g., a final report of research accomplishing the goal or target) within the estimated cost, if possible, as a condition for payment of the entire fixed fee. However, in the event the work cannot be completed within the estimated cost, the Government may require more effort without increase in fee, provided the Government increases the estimated cost.

(2) The term form describes the scope of work in general terms and obligates the contractor to devote a specified level of effort for a stated time period. Under this form, if the performance is considered satisfactory by the Government, the fixed fee is payable at the expiration of the agreed-upon period, upon contractor certification that the level of effort specified in the contract has been expended in performing the contract work. Renewal for further periods of performance is a new acquisition that involves new cost and fee arrangements.

(3) Because of the differences in obligation assumed by the contractor, the completion form is preferred over the term form whenever the work, or specific milestones for the work, can be defined well enough to permit development of estimates within which the contractor can be expected to complete the work.

(4) The term form shall not be used unless the contractor is obligated by the contract to provide a specific level of effort within a definite time period.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

16.307 Contract clauses.

(a) The contracting officer shall insert the clause at 52.216-7, Allowable Cost and Payment, in solicitations and contracts when a cost-reimbursement contract (other than a facilities contract) is contemplated. If the contract is with an educational institution, modify the clause by deleting from paragraph (a) the words "subpart 31.2" and substituting for them "subpart 31.3." If the contract is with a State or local government, modify the clause by deleting from paragraph (a) the words "subpart 31.2" and substituting for them "subpart 31.6." If the contract is with a nonprofit organization other than an educational institution, a State or local government, or a nonprofit organization exempted under OMB Circular No. A-122, modify the clause by deleting from paragraph (a) the words "subpart 31.2" and substituting for them "subpart 31.7."

(b) The contracting officer shall insert the clause at 52.216-8, Fixed Fee, in solicitations and contracts when a cost-plus-fixed-fee contract (other than a facilities contract or a construction contract) is contemplated.

(c) The contracting officer shall insert the clause at 52.216-9, Fixed-Fee—Construction, in solicitations and contracts when a cost-plus-fixed-fee construction contract, is contemplated.

(d) The contracting officer shall insert the clause at 52.216-10, Incentive Fee, in solicitations and contracts when a cost-plus-incentive-fee contract (other than a facilities contract) is contemplated.

(e)(1) The contracting officer shall insert the clause at 52.216-11, Cost Contract—No Fee, in solicitations and contracts when a cost-reimbursement contract is contemplated that provides no fee and is not a cost-sharing contract or a facilities contract.

(2) If a cost-reimbursement research and development contract with an educational institution or a nonprofit organization that provides no fee or other payment above cost and is not a cost-sharing contract is contemplated, and if the contracting officer determines that withholding of a portion of allowable costs is not required, the contracting officer shall use the clause with its Alternate I.

(f)(1) The contracting officer shall insert the clause at 52.216-12, Cost-Sharing Contract—No Fee, in solicitations and contracts when a cost-sharing contract (other than a facilities contract) is contemplated.

(2) If a cost-sharing research and development contract with an educational institution or a nonprofit organization is contemplated, and if the contracting officer determines that withholding of a portion of allowable costs is not required, the contracting officer shall use the clause with its Alternate I.

(g)(1) The contracting officer shall insert the clause at 52.216-13, Allowable Cost and Payment—Facilities, in solicitations and contracts when a cost-reimbursement consolidated facilities contract or a cost-reimbursement facilities acquisition contract (see 45.302-6) is contemplated.

(2) If a facilities acquisition contract is contemplated and, in the judgment of the contracting officer, it may be necessary to withhold payment of an amount to protect the Government's interest, the contracting officer shall use the clause with its Alternate I.

(h) The contracting officer shall insert the clause at 52.216-14, Allowable Cost and Payment—Facilities Use, in solicitations and contracts when a facilities use contract is contemplated.

(i) The contracting officer shall insert the clause at 52.216-15, Predetermined Indirect Cost Rates, in solicitations and contracts when a cost-reimbursement research and development contract with an educational institution (see 42.705-3(b)) is contemplated and predetermined indirect cost rates are to be used.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 23606, June 4, 1985]

Subpart 16.4—Incentive Contracts

16.401 General.

(a) Incentive contracts as described in this subpart are appropriate when a firm-fixed-price contract is not appropriate and the required supplies or services can be acquired at lower costs and, in certain instances, with improved delivery or technical performance, by relating the amount of profit or fee payable under the contract to the contractor's performance. Incentive contracts are designed to obtain specific acquisition objectives by—

(1) Establishing reasonable and attainable targets that are clearly communicated to the contractor; and

(2) Including appropriate incentive arrangements designed to (i) motivate contractor efforts that might not otherwise be emphasized and (ii) discourage contractor inefficiency and waste.

(b) When predetermined, formula-type incentives on technical performance or delivery are included, increases in profit or fee are provided only for achievement that surpasses the targets, and decreases are provided for to the extent that such targets are not met. The incentive increases or decreases are applied to performance targets rather than minimum performance requirements.

(c) The two basic categories of incentive contracts are fixed-price incentive contracts (see 16.403) and cost-reimbursement-incentive contracts (see 16.404). Since it is usually to the Government's advantage for the contractor to assume substantial cost responsibility and an appropriate share of the cost risk, fixed-price incentive contracts are preferred when contract costs and performance requirements are reasonably certain. Cost-reimbursement incentive contracts are subject to the overall limitations in 16.301 that apply to all cost-reimbursement contracts.

16.402 Application of predetermined, formula-type incentives.

16.402-1 Cost incentives.

(a) Most incentive contracts include only cost incentives, which take the form of a profit or fee adjustment formula and are intended to motivate the contractor to effectively manage costs. No incentive contract may provide for other incentives without also providing a cost incentive (or constraint).

(b) Except for cost-plus-award-fee contracts (see 16.404-2), incentive contracts include a target cost, a target profit or fee, and a profit or fee adjustment formula that (within the constraints of a price ceiling or minimum and maximum fee) provides that—

(1) Actual cost that meets the target will result in the target profit or fee;

(2) Actual cost that exceeds the target will result in downward adjustment of target profit or fee; and

(3) Actual cost that is below the target will result in upward adjustment of target profit or fee.

16.402-2 Technical performance incentives.

(a) Technical performance incentives may be considered in connection with specific product characteristics (e.g., a missile range, an aircraft speed, an engine thrust, or a vehicle maneuverability) or other specific elements of the contractor's performance. These incentives should be designed to tailor profit or fee to results achieved by the contractor, compared with specified target goals.

(b) Technical performance incentives may be particularly appropriate in major systems contracts, both in development (when performance objectives are known and the fabrication of prototypes for test and evaluation is required) and in production (if improved performance is attainable and highly desirable to the Government).

(c) Technical performance incentives may involve a variety of specific characteristics that contribute to the overall performance of the end item. Accordingly, the incentives on individual technical characteristics must be balanced so that no one of them is exaggerated to the detriment of the overall performance of the end item.

(d) Performance tests are generally essential in order to determine the degree of attainment of performance targets. Therefore, the contract must be as specific as possible in establishing test criteria such as testing conditions, instrumentation precision, and data interpretation.

(e) Because performance incentives present complex problems in contract administration, the contracting officer should negotiate them in full coordination with Government engineering and pricing specialists.

(f) It is essential that the Government and contractor agree explicitly on the effect that contract changes (e.g., pursuant to the Changes clause) will have on performance incentives.

(g) The contracting officer must exercise care, in establishing performance criteria, to recognize that the contractor should not be rewarded or penalized for attainments of Government-furnished components.

16.402-3 Delivery incentives.

(a) Delivery incentives should be considered when improvement from a required delivery schedule is a significant Government objective. It is important to determine the Government's primary objectives in a given contract (e.g., earliest possible delivery or earliest quantity production).

(b) Incentive arrangements on delivery should specify the application of the reward-penalty structure in the event of Government-caused delays or other delays beyond the control, and without the fault or negligence, of the contractor or subcontractor.

16.402-4 Structuring multiple-incentive contracts.

A properly structured multiple-incentive arrangement should—

(a) Motivate the contractor to strive for outstanding results in all incentive areas; and

(b) Compel trade-off decisions among the incentive areas, consistent with the Government's overall objectives for the acquisition. Because of the interdependency of the Government's cost, the technical performance, and the delivery goals, a contract that emphasizes only one of the goals may jeopardize control over the others. Because outstanding results may not be attainable for each of the incentive areas, all multiple-incentive contracts must include a cost incentive (or constraint) that operates to preclude rewarding a contractor for superior technical performance or delivery results when the cost of those results outweighs their value to the Government.

16.403 Fixed-price incentive contracts.

(a) *Description.* A fixed-price incentive contract is a fixed-price contract that provides for adjusting profit and establishing the final contract price by application of a formula based on the relationship of total final negotiated cost to total target cost. The final price is subject to a price ceiling, negotiated at the outset. The two forms of fixed-price incentive contracts, firm target and successive targets, are further described in 16.403-1 and 16.403-2 below.

(b) *Application.* A fixed-price incentive contract is appropriate when—

(1) A firm-fixed-price contract is not suitable;

(2) The nature of the supplies or services being acquired and other circumstances of the acquisition are such that the contractor's assumption of a degree of cost responsibility will provide a positive profit incentive for effective cost control and performance; and

(3) If the contract also includes incentives on technical performance and/or delivery, the performance requirements provide a reasonable opportunity for the incentives to have a meaningful impact on the contractor's management of the work.

(c) *Limitations.* A fixed-price incentive contract may be used only when a determination and findings has been executed, in accordance with agency procedures, showing that (1) this contract type is likely to be less costly than any other type or (2) it is impractical to obtain supplies or services of the kind or quality required without the use of this contract type (see 10 U.S.C. 2306(c), 2310(b), and 2311 or 41 U.S.C. 254(b), 257(b), and 257(a)).

(d) *Billing prices.* In fixed-price incentive contracts, billing prices are established as an interim basis for payment. These billing prices may be adjusted, within the ceiling limits, upon request of either party to the contract, when it becomes apparent that final negotiated cost will be substantially different from the target cost.

16.403-1 Fixed-price incentive (firm target) contracts.

(a) *Description.* A fixed-price incentive (firm target) contract specifies a target cost, a target profit, a price ceiling (but not a profit ceiling or floor), and a profit adjustment formula. These elements are all negotiated at the outset. The price ceiling is the maximum that may be paid to the contractor, except for any adjustment under other contract clauses. When the contractor completes performance, the parties negotiate the final cost, and the final price is established by applying the formula. When the final cost is less than the target cost, application of the formula results in a final profit greater than the target profit; conversely, when final cost is more than target cost, application of the formula results in a final profit less than the target profit, or even a net loss. If the final negotiated cost exceeds the price ceiling, the contractor absorbs the difference as a loss. Because the profit varies inversely with the cost, this contract type provides a positive, calculable profit incentive for the contractor to control costs.

(b) *Application.* A fixed-price incentive (firm target) contract is appropriate when the parties can negotiate at the outset a firm target cost, target profit, and profit adjustment formula that will provide a fair and reasonable incentive and a ceiling that provides for the contractor to assume an appropriate share of the risk. When the contractor assumes a considerable or major share of the cost responsibility under the adjustment formula, the target profit should reflect this responsibility.

(c) *Limitations.* This contract type may be used only when—

(1) The contractor's accounting system is adequate for providing data

to support negotiation of final cost and incentive price revision;

(2) Adequate cost or pricing information for establishing reasonable firm targets is available at the time of initial contract negotiation; and

(3) The determination and findings required by 16.403(c) has been signed.

(d) *Contract Schedule.* The contracting officer shall specify in the contract Schedule the target cost, target profit, and target price for each item subject to incentive price revision.

16.403-2 Fixed-price incentive (successive targets) contracts.

(a) *Description.* (1) A fixed-price incentive (successive targets) contract specifies the following elements, all of which are negotiated at the outset:

(i) An initial target cost.

(ii) An initial target profit.

(iii) An initial profit adjustment formula to be used for establishing the firm target profit, including a ceiling and floor for the firm target profit. (This formula normally provides for a lesser degree of contractor cost responsibility than would a formula for establishing final profit and price.)

(iv) The production point at which the firm target cost and firm target profit will be negotiated (usually before delivery or shop completion of the first item).

(v) A ceiling price that is the maximum that may be paid to the contractor, except for any adjustment under other contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

(2) When the production point specified in the contract is reached, the parties negotiate the firm target cost, giving consideration to cost experience under the contract and other pertinent factors. The firm target profit is established by the formula. At this point, the parties have two alternatives, as follows:

(i) They may negotiate a firm fixed price, using the firm target cost plus the firm target profit as a guide.

(ii) If negotiation of a firm fixed price is inappropriate, they may negotiate a formula for establishing the final price using the firm target cost and firm target profit. The final cost is then negotiated at completion, and the final profit is established by formula, as under the fixed-price incentive (firm target) contract (see 16.403-1 above).

(b) *Application.* A fixed-price incentive (successive targets) contract is appropriate when—

(1) Available cost or pricing information is not sufficient to permit the negotiation of a realistic firm target cost and profit before award;

(2) Sufficient information is available to permit negotiation of initial targets; and

(3) There is reasonable assurance that additional reliable information will be available at an early point in the contract performance so as to permit negotiation of either (i) a firm fixed price or (ii) firm targets and a formula for establishing final profit and price that will provide a fair and reasonable incentive. This additional information is not limited to experience under the contract, itself, but may be drawn from other contracts for the same or similar items.

(c) *Limitations.* This contract type may be used only when—

(1) The contractor's accounting system is adequate for providing data for negotiating firm targets and a realistic profit adjustment formula, as well as later negotiation of final costs;

(2) Cost or pricing information adequate for establishing a reasonable firm target cost is reasonably expected to be available at an early point in contract performance; and

(3) The determination and findings required by 16.403(c) has been signed.

(d) *Contract Schedule.* The contracting officer shall specify in the contract Schedule the initial target cost, initial target profit, and initial target price for each item subject to incentive price revision.

16.404 Cost-reimbursement incentive contracts.

See 16.301 for requirements applicable to all cost-reimbursement contracts, for use in conjunction with the following subsections.

16.404-1 Cost-plus-incentive-fee contracts.

(a) *Description.* The cost-plus-incentive-fee contract is a cost-reimbursement contract that provides for the initially negotiated fee to be adjusted later by a formula based on the relationship of total allowable costs to total target costs. This contract type specifies a target cost, a target fee, minimum and maximum fees, and a fee adjustment formula. After contract performance, the fee payable to the contractor is determined in accordance with the formula. The formula provides, within limits, for increases in fee above target fee when total allowable costs are less than target costs, and decreases in fee below target fee when total allowable costs exceed target costs. This increase or decrease is intended to provide an incentive for the contractor to manage the contract effectively. When total allowable cost is greater than or less than the range of costs within which the fee-adjustment formula operates, the contractor is paid total allowable costs, plus the minimum or maximum fee.

(b) *Application.* (1) A cost-plus-incentive-fee contract is appropriate for development and test programs when (i) a cost-reimbursement contract is necessary (see 16.301-2) and (ii) a target cost and a fee adjustment formula can be negotiated that are likely to motivate the contractor to manage effectively.

(2) The contract may include technical performance incentives when it is highly probable that the required development of a major system is feasible and the Government has established its performance objectives, at least in general terms. This approach may also apply to other development programs, if the use of both cost and technical performance incentives is desirable and administratively practical.

(3) The fee adjustment formula should provide an incentive that will be effective over the full range of reasonably foreseeable variations from target cost. If a high maximum fee is negotiated, the contract shall also provide for a low minimum fee that may be a zero fee or, in rare cases, a negative fee.

(c) *Limitations.* No cost-plus-incentive-fee contract shall be awarded unless all limitations in 16.301-3 are complied with.

16.404-2 Cost-plus-award-fee contracts.

(a) *Description.* A cost-plus-award-fee contract is a cost-reimbursement contract that provides for a fee consisting of (1) a base amount fixed at inception of the contract and (2) an award amount that the contractor may earn in whole or in part during performance and that is sufficient to provide motivation for excellence in such areas as quality, timeliness, technical ingenuity, and cost-effective management. The amount of the award fee to be paid is determined by the Government's judgmental evaluation of the contractor's performance in terms of the criteria stated in the contract. This determination is made unilaterally by the Government and is not subject to the Disputes clause.

(b) *Application.* (1) The cost-plus-award-fee contract is suitable for use when—

(i) The work to be performed is such that it is neither feasible nor effective to devise predetermined objective incentive targets applicable to cost, technical performance, or schedule;

(ii) The likelihood of meeting acquisition objectives will be enhanced by using a contract that effectively motivates the contractor toward exceptional performance and provides the Government with the flexibility to evaluate both actual performance and the conditions under which it was achieved; and

(iii) Any additional administrative effort and cost required to monitor and evaluate performance are justified by the expected benefits.

(2) The number of evaluation criteria and the requirements they represent will differ widely among contracts. The criteria and rating plan should motivate the contractor to improve performance in the areas rated, but not at the expense of at least minimum acceptable performance in all other areas.

(3) Cost-plus-award-fee contracts shall provide for evaluation at stated intervals during performance, so that the contractor will periodically be informed of the quality of its perform-

ance and the areas in which improvement is expected. Partial payment of fee shall generally correspond to the evaluation periods. This makes effective the incentive which the award fee can create by inducing the contractor to improve poor performance or to continue good performance.

(c) *Limitations.* No cost-plus-award-fee contract shall be awarded unless—

(1) All of the limitations in 16.301-3 are complied with;

(2) The maximum fee payable (i.e., the base fee plus the highest potential award fee) complies with the limitations in 16.301-3; and

(3) The contract amount, performance period, and expected benefits are sufficient to warrant the additional administrative effort and cost involved.

16.405 Contract clauses.

(a) The contracting officer shall insert the clause at 52.216-16, Incentive Price Revision—Firm Target, in solicitations and contracts when a fixed-price incentive (firm target) contract is contemplated. If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to the incentive price revision under the clause, the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.216-17, Incentive Price Revision—Successive Targets, in solicitations and contracts when a fixed-price incentive (successive targets) contract is contemplated. If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to incentive price revision under the clause, the contracting officer shall use the clause with its Alternate I.

(c) The clause at 52.216-7, Allowable Cost and Payment, is prescribed in 16.307(a) for insertion in solicitations and contracts when a cost-plus-incentive-fee contract or a cost-plus-award-fee contract is contemplated.

(d) The clause at 52.216-10, Incentive Fee, is prescribed in 16.307(d) for insertion in solicitations and contracts when a cost-plus-incentive-fee contract is contemplated.

(e) The contracting officer shall insert an appropriate award fee clause in solicitations and contracts when a cost-plus-award-fee contract is contemplated, provided that the clause—

(1) Is prescribed by or approved under agency acquisition regulations;

(2) Is compatible with the clause at 52.216-7, Allowable Cost and Payment; and

(3) Expressly excludes from the operation of the Disputes clause any disagreement by the contractor concerning the amount of the award fee.

Subpart 16.5—Indefinite-Delivery Contracts

16.501 General.

(a) There are three types of indefinite-delivery contracts—definite-quantity contracts, requirements contracts, and indefinite-quantity contracts. The appropriate type of indefinite-delivery contract may be used when the exact times and/or quantities of future deliveries are not known at the time of contract award.

(b) The various types of indefinite-delivery contracts offer the following advantages:

(1) All three types permit (i) Government stocks to be maintained at minimum levels and (ii) direct shipment to users.

(2) Indefinite-quantity contracts and requirements contracts also permit (i) flexibility in both quantities and delivery scheduling and (ii) ordering of supplies or services after requirements materialize.

(3) Indefinite-quantity contracts limit the Government's obligation to the minimum quantity specified in the contract.

(4) Requirements contracts may permit faster deliveries when production lead time is involved, because contractors are usually willing to maintain limited stocks when the Government will obtain all of its actual purchase requirements from the contractor.

(c) Indefinite-delivery contracts may provide for firm fixed prices (see 16.202), fixed prices with economic price adjustment (see 16.203), fixed prices with prospective redetermination (see 16.205), or prices based on catalog or market prices (see 15.804-3(c)). When prices are based on catalog or market prices, the price to be paid may be determined by establishing an adjustment factor and applying it to the price in industrywide pricing guides or manufacturers' price catalogs. Normally, the adjustment factor will be a fixed percentage discount to be applied to the price in effect on the date of each order. When fast payment procedures are included in indefinite-delivery contracts, the contracting officer shall include in the contract the special data required by 13.303(b).

16.502 Definite-quantity contracts.

(a) *Description.* A definite-quantity contract provides for delivery of a definite quantity of specific supplies or services for a fixed period, with deliveries to be scheduled at designated locations upon order.

(b) *Application.* A definite-quantity contract may be used when it can be determined in advance that (1) a definite quantity of supplies or services will be required during the contract period and (2) the supplies or services are regularly available or will be available after a short lead time.

16.503 Requirements contracts.

(a) *Description.* A requirements contract provides for filling all actual purchase requirements of designated Government activities for specific supplies or services during a specified contract period, with deliveries to be scheduled by placing orders with the contractor.

(1) For the information of offerors and contractors, the contracting officer shall state a realistic estimated total quantity in the solicitation and resulting contract. This estimate is not a representation to an offeror or contractor that the estimated quantity will be required or ordered, or that conditions affecting requirements will be stable or normal. The contracting officer may obtain the estimate from records of previous requirements and consumption, or by other means, and should base the estimate on the most current information available.

(2) The contract shall state, if feasible, the maximum limit of the contractor's obligation to deliver and the Government's obligation to order. The contract may also specify maximum or minimum quantities that the Government may order under each individual order and the maximum that it may order during a specified period of time.

(b) *Application.* A requirements contract may be used when the Government anticipates recurring requirements but cannot predetermine the precise quantities of supplies or services that designated Government activities will need during a definite period. Generally, a requirements contract is appropriate for items or services that are commercial products or commercial-type products (see 11.001). Funds are obligated by each delivery order, not by the contract itself.

(c) *Government property furnished for repair.* When a requirements contract is used to acquire work (e.g., repair, modification, or overhaul) on existing items of Government property, the contracting officer shall specify in the Schedule that failure of the Government to furnish such items in the amounts or quantities described in the Schedule as *estimated* or *maximum* will not entitle the contractor to any equitable adjustment in price under the Government Property clause of the contract.

16.504 Indefinite-quantity contracts.

(a) *Description.* An indefinite-quantity contract provides for an indefinite quantity, within stated limits, of specific supplies or services to be furnished during a fixed period, with deliveries to be scheduled by placing orders with the contractor.

(1) The contract shall require the Government to order and the contractor to furnish at least a stated minimum quantity of supplies or services and, if and as ordered, the contractor to furnish any additional quantities, not to exceed a stated maximum. The contracting officer may obtain the basis for the maximum from records of previous requirements and consumption, or by other means, but the maximum quantity should be realistic

and based on the most current information available.

(2) To ensure that the contract is binding, the minimum quantity must be more than a nominal quantity, but it should not exceed the amount that the Government is fairly certain to order.

(3) The contract may also specify maximum or minimum quantities that the Government may order under each delivery order and the maximum that it may order during a specific period of time.

(b) *Application.* An indefinite-quantity contract may be used when (1) the Government cannot predetermine, above a specified minimum, the precise quantities of supplies or services that will be required during the contract period and (2) it is inadvisable for the Government to commit itself for more than a minimum quantity. An indefinite- quantity contract should be used only for items or services that are commercial products or commercial-type products (see 11.001) and when a recurring need is anticipated. Funds for other than the stated minimum quantity are obligated by each delivery order, not by the contract itself.

16.505 Contract clauses.

(a) The contracting officer shall insert the clause at 52.216-18, Ordering, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(b) The contracting officer shall insert a clause substantially the same as the clause at 52.216-19, Delivery-Order Limitations, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(c) The contracting officer shall insert the clause at 52.216-20, Definite Quantity, in solicitations and contracts when a definite-quantity contract is contemplated.

(d) (1) The contracting officer shall insert the clause at 52.216-21, Requirements, in solicitations and contracts when a requirements contract is contemplated.

(2) If the contract is for nonpersonal services and related supplies and covers estimated requirements that exceed a specific Government activity's internal capability to produce or perform, the contracting officer shall use the clause with its Alternate I.

(3) If the contract includes subsistence for both Government use and resale in the same Schedule, and similar products may be acquired on a brand-name basis, the contracting officer shall use the clause with its Alternate II (but see subparagraph (5) below).

(4) If the contract involves a partial small business or labor surplus area set-aside, the contracting officer shall use the clause with its Alternate III (but see subparagraph (5) below).

(5) If the contract (i) includes subsistence for both Government use and resale in the same Schedule and similar products may be acquired on a brand-name basis and (ii) involves a partial small business or labor surplus area set-aside, the contracting officer shall use the clause with its Alternate IV.

(e) The contracting officer shall insert the clause at 52.216-22, Indefinite Quantity, in solicitations and contracts when an indefinite-quantity contract is contemplated.

16.506 Ordering.

(a) The contracting officer shall include in the Schedule of indefinite-delivery contracts the names of the activity or activities authorized to issue orders under indefinite-delivery contracts.

(b) If appropriate, authorization for placing oral orders may be included in the contract Schedule; *provided,* that procedures have been established for obligating funds and that oral orders are confirmed in writing.

(c) Orders may be placed by written telecommunication, if provided for in the contract Schedule.

(d) Orders placed under indefinite-delivery contracts shall contain the following information:

(1) Date of order.

(2) Contract number and order number.

(3) Item number and description, quantity, and unit price.

(4) Delivery or performance date.

(5) Place of delivery or performance (including consignee).

(6) Packaging, packing, and shipping instructions, if any.

(7) Accounting and appropriation data.

(8) Any other pertinent information.

Subpart 16.6—Time-and-Materials, Labor-Hour, and Letter Contracts

16.601 Time-and-materials contracts.

(a) *Description.* A time-and-materials contract provides for acquiring supplies or services on the basis of (1) direct labor hours at specified fixed hourly rates that include wages, overhead, general and administrative expenses, and profit and (2) materials at cost, including, if appropriate, material handling costs as part of material costs.

(b) *Application.* A time-and-materials contract may be used only when it is not possible at the time of placing the contract to estimate accurately the extent or duration of the work or to anticipate costs with any reasonable degree of confidence.

(1) *Government surveillance.* A time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, appropriate Government surveillance of contractor performance is required to give reasonable assurance that efficient methods and effective cost controls are being used.

(2) *Material handling costs.* When included as part of material costs, material handling costs shall include only costs clearly excluded from the labor-hour rate. Material handling costs may include all appropriate indirect costs allocated to direct materials in accordance with the contractor's usual accounting procedures consistent with part 31.

(3) *Optional method of pricing material.* When the nature of the work to be performed requires the contractor to furnish material that it regularly sells to the general public in the normal course of its business, the contract may provide for charging material on a basis other than at cost if—

(i) The total estimated contract price does not exceed $25,000 or the estimated price of material so charged does not exceed 20 percent of the estimated contract price;

(ii) The material to be so charged is identified in the contract;

(iii) No element of profit on material so charged is included as profit in the fixed hourly labor rates; and

(iv) The contract provides (A) that the price to be paid for such material shall be based on an established catalog or list price in effect when material is furnished, less all applicable discounts to the Government, and (B) that in no event shall the price exceed the contractor's sales price to its most-favored customer for the same item in like quantity, or the current market price, whichever is lower.

(c) *Limitations.* A time-and-materials contract may be used (1) only after the contracting officer executes a determination and findings that no other contract type is suitable and (2) only if the contract includes a ceiling price that the contractor exceeds at its own risk. The contracting officer shall document the contract file to justify the reasons for and amount of any subsequent change in the ceiling price.

16.602 Labor-hour contracts.

Description. A labor-hour contract is a variation of the time-and-materials contract, differing only in that materials are not supplied by the contractor. See 16.601(b) and 16.601(c) for application and limitations, respectively.

16.603 Letter contracts.

16.603-1 Description.

A letter contract is a written preliminary contractual instrument that authorizes the contractor to begin immediately manufacturing supplies or performing services.

16.603-2 Application.

(a) A letter contract may be used when (1) the Government's interests demand that the contractor be given a binding commitment so that work can start immediately and (2) negotiating a definitive contract is not possible in sufficient time to meet the requirement. However, a letter contract should be as complete and definite as feasible under the circumstances.

(b) When a letter contract award is based on price competition, the contracting officer shall include an overall price ceiling in the letter contract.

(c) Each letter contract shall, as required by the clause at 52.216-25, Contract Definitization, contain a negotiated definitization schedule including (1) dates for submission of the contractor's price proposal, required cost or pricing data, and, if required, make-or-buy and subcontracting plans, (2) a date for the start of negotiations, and (3) a target date for definitization, which shall be the earliest practicable date for definitization. The schedule will provide for definitization of the contract within 180 days after the date of the letter contract or before completion of 40 percent of the work to be performed, whichever occurs first. However, the contracting officer may, in extreme cases and according to agency procedures, authorize an additional period. If, after exhausting all reasonable efforts, the contracting officer and the contractor cannot negotiate a definitive contract because of failure to reach agreement as to price or fee, the clause at 52.216-25 requires the contractor to proceed with the work and provides that the contracting officer may, with the approval of the head of the contracting activity, determine a reasonable price or fee in accordance with subpart 15.8 and part 31, subject to appeal as provided in the Disputes clause.

(d) The maximum liability of the Government inserted in the clause at 52.216-24, Limitation of Government Liability, shall be the estimated amount necessary to cover the contractor's requirements for funds before definitization. However, it shall not exceed 50 percent of the estimated cost of the definitive contract unless approved in advance by the official that authorized the letter contract.

(e) The contracting officer shall assign a priority rating to the letter contract if it is appropriate under 12.304.

16.603-3 Limitations.

A letter contract may be used only after the head of the contracting activity or a designee determines in writing that no other contract is suitable. Letter contracts shall not—

(a) Commit the Government to a definitive contract in excess of the funds available at the time the letter contract is executed;

(b) Be entered into without competition when competition is required by part 6; or

(c) Be amended to satisfy a new requirement unless that requirement is inseparable from the existing letter contract. Any such amendment is subject to the same requirements and limitations as a new letter contract.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 31426, Sept. 3, 1986]

16.603-4 Contract clauses.

(a) The contracting officer shall include in each letter contract the clauses required by this regulation for the type of definitive contract contemplated and any additional clauses known to be appropriate for it.

(b) In addition, the contracting officer shall insert the following clauses in solicitations and contracts when a letter contract is contemplated:

(1) The clause at 52.216-23, Execution and Commencement of Work, except that this clause may be omitted from letter contracts awarded on SF 26;

(2) The clause at 52.216-24, Limitation of Government Liability, with dollar amounts completed in a manner consistent with 16.603-2(d); and

(3) The clause at 52.216-25, Contract Definitization, with its paragraph (b) completed in a manner consistent with 16.603-2(c). If the letter contract is being awarded on the basis of price competition, the contracting officer shall use the clause with its Alternate I.

(c) The contracting officer shall also insert the clause at 52.216-26, Payments of Allowable Costs Before Definitization, in solicitations and contracts if a cost-reimbursement definitive contract is contemplated, unless the acquisition involves conversion, alteration, or repair of ships.

Subpart 16.7—Agreements

16.701 Scope.

This subpart prescribes policies and procedures for establishing and using basic agreements and basic ordering agreements. (See subpart 13.2 for blanket purchase agreements (BPA's) and see 35.015(b) for additional coverage of basic agreements with educational institutions and nonprofit organizations.)

16.702 Basic agreements.

(a) *Description.* A basic agreement is a written instrument of understanding, negotiated between an agency or contracting activity and a contractor, that (1) contains contract clauses applying to future contracts between the parties during its term and (2) contemplates separate future contracts that will incorporate by reference or attachment the required and applicable clauses agreed upon in the basic agreement. A basic agreement is not a contract.

(b) *Application.* A basic agreement should be used when a substantial number of separate contracts may be awarded to a contractor during a particular period and significant recurring negotiating problems have been experienced with the contractor. Basic agreements may be used with negotiated fixed-price or cost-reimbursement contracts.

(1) Basic agreements shall contain (i) clauses required for negotiated contracts by statute, executive order, and this regulation and (ii) other clauses prescribed in this regulation or agency acquisition regulations that the parties agree to include in each contract as applicable.

(2) Each basic agreement shall provide for discontinuing its future applicablity upon 30 days' written notice by either party.

(3) Each basic agreement shall be reviewed annually before the anniversary of its effective date and revised as necessary to conform to the requirements of this regulation. Basic agreements may need to be revised before the annual review due to mandatory statutory requirements. A basic agreement may be changed only by modifying the agreement itself and not by a contract incorporating the agreement.

(4) Discontinuing or modifying a basic agreement shall not affect any prior contract incorporating the basic agreement.

(5) Contracting officers of one agency should obtain and use existing basic agreements of another agency to the maximum practical extent.

(c) *Limitations.* A basic agreement shall not—

(1) Cite appropriations or obligate funds;

(2) State or imply any agreement by the Government to place future contracts or orders with the contractor; or

(3) Be used in any manner to restrict competition.

(d) *Contracts incorporating basic agreements.* (1) Each contract incorporating a basic agreement shall include a scope of work and price, delivery, and other appropriate terms that apply to the particular contract. The basic agreement shall be incorporated into the contract by specific reference (including reference to each amendment) or by attachment.

(2) The contracting officer shall include clauses pertaining to subjects not covered by the basic agreement, but applicable to the contract being negotiated, in the same manner as if there were no basic agreement.

(3) If an existing contract is modified to effect new acquisition, the modification shall incorporate the most recent basic agreement, which shall apply only to work added by the modification, except that this action is not mandatory if the contract or modification includes all clauses required by statute, executive order, and this regulation as of the date of the modification. However, if it is in the Government's interest and the contractor agrees, the modification may incorporate the most recent basic agreement for application to the entire contract as of the date of the modification.

16.703 Basic ordering agreements.

(a) *Description.* A basic ordering agreement is a written instrument of understanding, negotiated between an agency, contracting activity, or contracting office and a contractor, that contains (1) terms and clauses applying to future contracts (orders) between the parties during its term, (2) a description, as specific as practicable, of supplies or services to be provided, and (3) methods for pricing, issuing, and delivering future orders under the basic ordering agreement. A basic ordering agreement is not a contract.

(b) *Application*. A basic ordering agreement may be used to expedite contracting for uncertain requirements for supplies or services when specific items, quantities, and prices are not known at the time the agreement is executed, but a substantial number of requirements for the type of supplies or services covered by the agreement are anticipated to be purchased from the contractor. Under proper circumstances, the use of these procedures can result in economies in ordering parts for equipment support by reducing administrative lead-time, inventory investment, and inventory obsolescence due to design changes.

(c) *Limitations*. A basic ordering agreement shall not state or imply any agreement by the Government to place future contracts or orders with the contractor or be used in any manner to restrict competition.

(1) Each basic ordering agreement shall—

(i) Describe the method for determining prices to be paid to the contractor for the supplies or services;

(ii) Include delivery terms and conditions or specify how they will be determined;

(iii) List one or more Government activities authorized to issue orders under the agreement;

(iv) Specify the point at which each order becomes a binding contract (e.g., issuance of the order, acceptance of the order in a specified manner, or failure to reject the order within a specified number of days);

(v) Provide that failure to reach agreement on price for any order issued before its price is established (see paragraph (d)(3) below) is a dispute under the Disputes clause included in the basic ordering agreement; and

(vi) If fast payment procedures will apply to orders, include the special data required by 13.303(b).

(2) Each basic ordering agreement shall be reviewed annually before the anniversary of its effective date and revised as necessary to conform to the requirements of this regulation. Basic ordering agreements may need to be revised before the annual review due to mandatory statutory requirements. A basic ordering agreement shall be changed only by modifying the agreement itself and not by individual orders issued under it. Modifying a basic ordering agreement shall not retroactively affect orders previously issued under it.

(d) *Orders*. A contracting officer representing any Government activity listed in a basic ordering agreement may issue orders for required supplies or services covered by that agreement.

(1) Before issuing an order under a basic ordering agreement, the contracting officer shall—

(i) Obtain competition in accordance with part 6;

(ii) If the order is being placed after competition, ensure that use of the basic ordering agreement is not prejudicial to other offerors; and

(iii) Sign or obtain any applicable justifications and approvals, and any determination and findings, in accordance with 1.602-1(b), and comply with other requirements, as if the order were a contract awarded independently of a basic ordering agreement.

(2) Contracting officers shall—

(i) Issue orders under basic ordering agreements on Optional Form (OF) 347, Order for Supplies or Services, or on any other appropriate contractual instrument;

(ii) Incorporate by reference the provisions of the basic ordering agreement;

(iii) If applicable, cite the authority under 6.302 in each order; and

(iv) Comply with 5.203 when synopsis is required by 5.201.

(3) The contracting officer shall neither make any final commitment nor authorize the contractor to begin work on an order under a basic ordering agreement until prices have been established, unless the order establishes

a ceiling price limiting the Government's obligation and either—

(i) The basic ordering agreement provides adequate procedures for timely pricing of the order early in its performance period; or

(ii) The need for the supplies or services is compelling and unusually urgent (i.e., when the Government would be seriously injured, financially or otherwise, if the requirement is not met sooner than would be possible if prices were established before the work began). The contracting officer shall proceed with pricing as soon as practical. In no event shall an entire order be priced retroactively.

[48 FR 42219, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

SOURCE: 48 FR 42231, Sept. 19, 1983, unless otherwise noted.

17.000 Scope of part.

This part prescribes policies and procedures for the acquisition of supplies and services through special contracting methods, including—

(a) Multi-year contracting;
(b) Options; and
(c) Leader company contracting.

Subpart 17.1—Multiyear Contracting

17.101 Definitions.

Advance acquisition, as used in this subpart, means an exception to the full funding policy which allows acquisition of long leadtime items (advanced long lead acquisition) or economic order quantities (EOQ) of items (advance EOQ acquisition) in a fiscal year in advance of that in which the related end item is to be acquired. Advance acquisitions may include materials, parts, and components as well as costs associated with the further processing of those materials, parts, and components.

Annual funding, as used in this subpart, means the current Congressional practice of limiting authorizations and appropriations to 1 fiscal year at a time. The term should not be confused with 2-year or 3-year funds which permit the Executive Branch more than 1 year to obligate the funds.

Cancellation, as used in this subpart, means the cancellation of the total requirements of all remaining program years. Cancellation results when the contracting officer (a) notifies the contractor of nonavailability of funds for contract performance for any subsequent program year, or (b) fails to notify the contractor that funds are available for performance of the succeeding program year requirement.

Cancellation ceiling, as used in this subpart, means the maximum amount that the Government will pay the contractor which the contractor would have recovered as a part of the unit price, had the contract been completed. The amount which is actually paid to the contractor upon settlement for unrecovered costs (which can only be equal to or less than the ceiling) is referred to as the cancellation charge. This ceiling generally includes only nonrecurring costs.

Multiyear acquisition, as used in this subpart, means contracting, to some degree, for more than the current year requirement. Examples include multiyear contracts and advance EOQ acquisition. Generally, advance long lead acquisitions in support of a single year's requirement would not be considered in a multiyear acquisition.

Multiyear contracts, as used in this subpart, means contracts covering more than 1-year's but not in excess of 5-year's requirements, unless otherwise authorized by statute. Total contract quantities and annual quantities are planned for a particular level and type of funding as displayed in a current 5-year development plan. Each program year is annually budgeted and funded and, at the time of award, funds need only to have been appropriated for the first year. The contractor is protected against loss resulting from cancellation by contract provisions which allow reimbursement of costs included in the cancellation ceiling.

Multiyear funding, as used in this subpart, means Congressional authorization and appropriation covering more than 1 fiscal year. The term should not be confused with 2-year or 3-year funds which cover only 1 fiscal year's requirement but permit the Executive Branch more than 1-year to obligate the funds.

No-year funding, as used in this subpart, means Congressional funding that does not require obligation in any specific year or years.

Nonrecurring costs, as used in this subpart, means those production costs which are generally incurred on a one time basis and include such costs as plant or equipment relocation, plant rearrangement, special tooling and special test equipment, preproduction engineering, initial spoilage and rework, and specialized work force training (see 17.103-1(d)(2)).

Recurring costs, as used in this subpart, means production costs that vary with the quantity being produced such as labor and materials.

Termination for convenience, as used in this subpart, means the procedure which may apply to any Government contract, including multiyear contracts. As contrasted with cancellation, termination can be effected at any time during the life of the contract (cancellation is effected between fiscal years) and can be for the total quantity or a partial quantity (whereas cancellation must be for all subsequent fiscal years' quantities).

Termination liability, as used in this subpart, means the maximum cost the Government would incur if a contract is terminated. In the case of a multiyear contract terminated before completion of the current fiscal year's deliveries, termination liability would include an amount for both current year termination charges and outyear cancellation charges.

Termination liability funding, as used in this subpart, means obligating contract funds to cover the contractor's expenditures plus termination liability but not the total cost of the completed end items.

17.102 Policy.

17.102-1 Uses.

(a) Multiyear contracting may be used when no-year or multiyear funds are available or, in the case of 1-year funds, when multiyear contracting is specifically authorized by statute. (Specific statutory authority is needed for an agency to make financial commitments for amounts greater than those appropriated annually by the Congress. See 31 U.S.C. 1341(a)(1).)

(b) The multiyear contracting method may be used for the acquisition of services or supplies (including, but not limited to systems, subsystems, major equipment, components, parts, materials, supplies and the advance acquisition thereof, and commercial and noncommercial items).

[48 FR 42233, Sept. 19, 1983, as amended at 51 FR 2650, Jan. 17, 1986]

17.102-2 General.

(a) Multiyear contracting is a special contracting method used to acquire known requirements in quantities and total cost not over planned requirements for 5 years unless otherwise authorized by statute, even though the total funds ultimately to be obligated are not available at the time of contract award. This method may be used in sealed bidding or negotiated acquisition.

(b) Under multiyear contracting, contract requirements are budgeted and financed for the program year for which they are authorized. Prices are solicited both for the current 1-year program requirement alone and for the total multiyear requirements. Award is made on whichever alternative offers the lowest unit prices to the Government. (With respect to competitive contracting, award may be based only on price or price and other factors considered.) If award is made on the multiyear basis, funds are obligated only for the first year's requirement, with succeeding years' requirements funded annually.

(c) If funds do not become available to support the succeeding years' requirements, the agency must cancel the contract. Multiyear contracts may contain a contract term allowing reimbursement of unrecovered nonrecurring costs included in prices for canceled items to protect the contractor against loss resulting from cancellation.

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

17.102-3 Objectives.

(a) Use of multiyear contracting is encouraged to take advantage of one or more of the following:

(1) Lower costs.

(2) Enhancement of standardization.

(3) Reduction of administrative burden in the placement and administration of contracts.

(4) Substantial continuity of production or performance, thus avoiding annual startup costs, pre-production testing costs, makeready expenses, and phaseout costs.

(5) Stabilization of contractor work forces.

(6) Avoidance of the need for establishing and *proving out* quality control techniques and procedures for a new contractor each year.

(7) Broadening the competitive base with opportunity for participation by firms not otherwise willing or able to compete for lesser quantities, particularly in cases involving high startup costs.

(8) Provide incentives to contractors to improve productivity through investment in capital facilities, equipment, and advanced technology.

(b) Contracts awarded under this multiyear procedure shall be firm-fixed-price, fixed-price with economic price adjustment, or fixed-price incentive.

(c) Given the longer performance period associated with multiyear acquisition, consideration in pricing contracts should be given to the use of economic price adjustment terms, profit objectives comparable with risk, and financing arrangements which reflect contractor cash flow requirements.

(d) Multiyear contracting is a flexible contracting method applicable to a wide range of acquisitions. The requirements of this subpart and the clauses at 52.217-1, Limitation of Price and Contractor Obligations, and 52.217-2 Cancellation of Items, respectively, may be modified in the following respects:

(1) *Level unit prices.* Multiyear contract procedures provide for the amor-

tization of certain costs over the entire contract quantity resulting in identical (level) unit prices (except when economic price adjustment provisions apply) for all items or services under the multiyear contract. When level unit pricing is not in the Government's interest, the head of a contracting activity or a designee may approve the use of variable unit pricing, provided that for competitive proposals there is a valid method of evaluation.

(2) *Cancellation provisions.* Whether, or to what extent, cancellation provisions are used in multiyear acquisitions will depend on the unique circumstances of each acquisition. The head of a contracting activity or a designee may authorize the use of modified cancellation provisions or the exclusion of cancellation provisions from the contract.

(3) *Recurring costs in cancellation ceiling.* The inclusion of recurring costs in cancellation ceilings is an exception to normal contract financing arrangements and requires approval by the agency head or a designee.

(4) *Annual and multiyear proposals.* Circumstances in which both annual and multiyear offers or only multiyear offers will be requested are prescribed in 17.103-2. Obtaining both provides reduced lead time for making an annual award in the event that the multiyear award is not in the Government's interest. Obtaining both also provides a basis for the computation of savings and other benefits. However, the preparation and evaluation of dual proposals may increase administrative costs and workloads for both offerors and the Government, especially for large or complex acquisitions. The head of a contracting activity or a designee may authorize the use of a solicitation requesting only multiyear prices provided it is found that such a solicitation is in the Government's interest, and that dual proposals are not necessary to meet the objectives listed in 17.102-3(a).

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

17.103 Procedures.

17.103-1 General.

(a) *Criteria.* Except as limited in 17.103-1(b), multiyear contracting may be used when one or more of the objectives in 17.102-3 can be met, and the following criteria are present:

(1) The use of such a contract will result in reduced total costs under the contract.

(2) The minimum need for the item to be purchased is expected to remain substantially unchanged during the contemplated contract period in terms of production rate, acquisition rate, and total quantities.

(3) There is a reasonable expectation that throughout the contemplated contract period the department or agency will request funding for the contract at the level required to avoid contract cancellation.

(4) There is a stable design for the item to be acquired and the technical risks associated with such items are not excessive.

(5) The estimates of both the cost of the contract and the anticipated cost avoidance through the use of a multiyear contract are realistic.

(b) *Limitations.* Except as permitted by statute, agencies shall not use multiyear contracts when—

(1) Funds covering the acquisition are limited by statute for obligation during the fiscal year in which the contract is executed; or

(2) Requirements exceed a 5-year planned program.

(c) *Method of contracting.* The nature of the requirement should govern the selection of the method of contracting, since the multiyear procedure is compatible with sealed bidding, including two-step sealed bidding, and negotiation.

(d) *Cancellation.* (1) All program years except the first are subject to cancellation. For each program year subject to cancellation, the contracting officer shall establish a cancellation ceiling. Ceilings must exclude amounts for items included in prior program years. The contracting officer shall reduce the cancellation ceiling for each program year in direct proportion to the remaining requirements subject to cancellation. For example, consider that the total nonrecurring costs (see 15.804-6) are estimated at 10 percent of the total multiyear price, and the percentages for each of the program-year requirements for 5-years are (i) 30 in the first year, (ii) 30 in the second, (iii) 20 in the third, (iv) 10 in the fourth, and (v) 10 in the fifth. The cancellation percentages, after deducting 3 percent for the first program year, would be 7, 4, 2, and 1 percent of the total price applicable to the second, third, fourth, and fifth program years, respectively.

(2) In determining cancellation ceilings, the contracting officer must estimate reasonable preproduction or startup, labor learning, and other nonrecurring costs to be incurred by an *average* prime contractor or subcontractor, which would be applicable to, and which normally would be amortized over, the items or services to be furnished under the multiyear requirements. Nonrecurring costs include such costs, where applicable, as plant or equipment relocation or rearrangement, special tooling and special test equipment, preproduction engineering, initial rework, initial spoilage, pilot runs, allocable portions of the costs of facilities to be acquired or established for the conduct of the work, costs incurred for the assembly training and transportation of a specialized work force to and from the job site, and unrealized labor learning. They shall not include any costs of labor or materials, or other expenses (except as indicated above), which might be incurred for performance of subsequent program year requirements. The total estimate of the above costs must then be compared with the best estimate of the contract cost to arrive at a reasonable percentage or dollar figure. To perform this calculation, the contracting officer should obtain in-house engineering cost estimates identifying the detailed recurring and nonrecurring costs, and indicating labor learning implications.

(3) The contracting officer shall establish cancellation dates for each program year's requirements regarding production lead time and the date by which funding for these requirements can reasonably be established. The contracting officer shall include these dates in the schedule, as appropriate.

(e) *Cancellation ceilings.* Cancellation ceilings and dates may be revised after issuing the solicitation if necessary. In sealed bidding, the contracting officer shall change the ceiling by amending the solicitation before bid opening. In two-step sealed bidding, discussions conducted during the first step may indicate the need for revised ceilings and dates which may be incorporated in step two. In a negotiated acquisition, negotiations with offerors may provide information requiring a change in cancellation ceilings and dates before final negotiation and contract award.

(f) *Funding/payment of cancellation charges.* Cancellation charges need not be funded before cancellation. If cancellation occurs, the contractor is entitled to payment (see the clause at 52.217-2, Cancellation of Items).

(g) *Presolicitation or pre-bid conferences.* To ensure that all interested sources of supply are thoroughly aware of how multiyear contracting is accomplished, use of presolicitation or pre-bid conferences may be advisable.

(h) *Payment limit.* The contracting officer shall limit the Government's payment obligation to an amount available for contract performance. The contracting officer shall insert the amount for the first program year in the contract upon award and modify it for successive program years upon availability of funds.

(i) *Termination payment.* If the contract is terminated for the convenience of the Government in whole, including items subject to cancellation, the Government's obligation shall not exceed the amount specified in the Schedule as available for contract performance, plus the cancellation ceiling.

(j) *Economic price adjustment clauses.* Economic price adjustment clauses are adaptable to multiyear contracting needs. When the period of production is likely to warrant a labor and material costs contingency in the contract price, the contracting officer should normally use an economic price adjustment clause (see 16.203).

(k) *Price adjustment clause.* When contracting for services, the contracting officer—

(1) Shall add the clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiyear and Option Contracts), when the contract includes the clause at 52.222-41, Service Contract Act of 1965;

(2) May modify the clause at 52.222-43 in overseas contracts when laws, regulations, or international agreements require contractors to pay higher wage rates; or

(3) May use an economic price adjustment clause authorized by 16.203 when potential fluctuations require coverage, and are not included in cost contingencies provided for by the clause at 52.222-43.

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

17.103-2 Solicitations.

Solicitations for multiyear contracts shall reflect all the factors to be considered for evaluation, specifically including the following:

(a) The requirements, by item or service, for the—

(1) First program year; and

(2) Multiyear contract including the requirements for each program year.

(b) When previous acquisitions of the item or service have been made with competition, a provision that a price may be submitted—

(1) For the total requirements of the first program year, or for the total multiyear requirements, or both; or

(2) Only for the total multiyear requirement, and that prices on a single-year basis will not be considered when (i) competition in future acquisitions would be impracticable after award of a contract covering the first program year requirement and (ii) it is necessary to prevent a first program year *buy-in.*

(c) When previous acquisitions for the item or service have been made without competition, and a first program year *buy-in* is not anticipated, include—

(1) A provision that a price must be submitted for the first program year requirements, that a price may be submitted for the total multiyear requirements, and that an offer on only the multiyear requirements will be nonresponsive; and

(2) A provision that if only one offer on the multiyear requirements is received that is both responsive and from a responsible offeror, the Government reserves the right to disregard the offer on the multiyear requirements and make an award only for the first program year requirements; or

(d) When competition after the first program year would be impracticable after award of a contract covering the first program year requirement, and it is necessary to prevent a first program year *buy-in,* include—

(1) A provision that a price may be submitted only on the total multiyear requirement and that prices on a single-year basis will not be considered for the purpose of award.

(2) A provision that if only one offer on the multiyear requirements is received that is both responsive and from a responsible offeror, the Government reserves the right to cancel the solicitation and resolicit on a single-year basis by whatever procedures are then appropriate.

(e) A provision that the unit price of each item or service in the multiyear requirement shall be the same for all program years (level unit price) included. (See 16.203 for the use of an economic price adjustment clause which might effect the level unit price.)

(f) Criteria for comparing the lowest evaluated submission on the first program year's requirement against the lowest evaluated submission on the multiyear requirements (see 17.103-3(e)).

(g) Criteria for evaluation factors other than price where the acquisition is on the basis of price and other factors.

(h) A provision that if the Government determines before award that only the first program year requirements are needed, the Government may evaluate offers and make award solely on the basis of price offered on that year's requirements.

(i) A provision specifying a separate cancellation ceiling (on a percentage or dollar basis) and dates applicable to each program year subject to a cancellation (see 17.103-1(d)).

(j) A prominently placed provision directing attention to the multiyear features of the solicitation, and to—

(1) The clause at 52.217-1, Limitation of Price and Contractor Obligations, which limits the payment obligation of the Government to the requirements of the first program year and to those requirements of succeeding program years funded by the Government (see 17.105);

(2) The clause at 52.217-2, Cancellation of Items, which allows the Government to cancel by a specific date or within a specific period, all remaining program years; and

(3) The cancellation ceiling set forth in the schedule.

(k) A statement that award will not be made on less than the first program year requirements.

(l) In the event the solicitation is only for supplies and delivery destinations are unknown—

(1) A definite place or places as the point to which transportation costs will be computed (but only for the purpose of evaluation); and

(2) Insert the provision at 52.247-49, Destination Unknown, which is prescribed at 47.305-5(b)(2).

(m) If Government administrative costs are to be used as a factor in evaluation (see 17.103-3(e)(2)), the dollar amount of those costs. Unless Government administrative costs incident to annual contracting and administration can be reasonably established, they shall not be used as a factor for evaluation.

(n) Where the multiyear acquisition is being computed on a basis other than price alone, the solicitation shall advise of the relative importance of the evaluation factors.

(o) When Government property is provided, it may be used on a rent-free basis. The solicitation shall then contain detailed procedures for eliminating competitive advantage (see subpart 45.2).

[48 FR 42233, Sept. 19, 1983, as amended at 51 FR 2650, Jan. 17, 1986]

17.103-3 Evaluation.

In addition to the factors in 17.103-2, the contracting officer shall comply with the following:

(a) Evaluation of offers shall involve (1) determination of the lowest overall evaluated cost to the Government for both the multiyear and the first program year acquisition, and (2) comparison of the cost of buying the total requirement under a multiyear acquisition with the cost of buying the total requirement in successive independent acquisitions.

(b) The cancellation ceiling shall not be a factor for evaluation.

(c) If Government property is provided, the contracting officer shall, for evaluation purposes, add an amount for the use of such property computed to eliminate competitive advantage to each offeror's unit price for the first program year requirement and the unit price for the multiyear requirements.

(d) When the solicitation only provides for submission of prices for the total multiyear quantity, submission of prices for the single-year quantity will be disregarded but will not render the offer nonresponsive as to any alternative multiyear submission by the offeror.

(e) To determine the lowest evaluated unit price, the contracting officer shall compare the lowest evaluated offer on the first program year alternative against the lowest evaluated offer on the multiyear alternative as follows:

(1) Multiply the evaluated unit price for each item of the lowest evaluated offer on the first program year alternative by the total number of units of that item required by the multiyear alternative.

(2) Add the total amount for all the items to the dollar amount of any administrative costs identified in the solicitation.

(3) Compare this result against the total evaluated price of the lowest offer on the multiyear alternative.

(4) Where the multiyear acquisition is being computed on a basis other than price alone, the contracting officer shall conduct the evaluation based

on the evaluation factors contained in the solicitation (see 17.103-2(n)).

(5) The evaluation procedures contained in this subpart may be modified if necessary to meet the unique circumstances of a particular acquisition.

17.103-4 Award.

(a) When the acquisition is on the basis of price only, the contracting officer shall award to firms offering the lowest evaluated unit price whether that price is on a single-year or a multiyear basis.

(b) When the acquisition is on the basis of price and other factors, the contracting officer shall award to the offeror submitting the proposal most advantageous to the Government, price and other factors considered.

(c) In the case of sole source acquisitions, awards shall be made only if a detailed review of the cost and technical proposals supports the objectives of 17.103-1, and significant benefits of cost savings will result from multiyear acquisitions.

(d) However, if only one responsive offer is received on the multiyear requirements from a responsible offeror, the contracting officer shall proceed as follows:

(1) If the solicitation gave the offeror the choice of submitting prices on a single-year or multiyear basis, or both, make the award under 17.103-4(a) or 17.103-4(b).

(2) If the solicitation required the submission of prices on the first program year requirements (see 17.103-2(c)(1)), make award to the lowest evaluated offeror on the single-year basis, even though the multiyear price submission may represent the lowest evaluated price submission. However, if the multiyear price offers distinct advantages to the Government, a multiyear award may be made with the advance approval of the head of the contracting activity.

(3) If the solicitation restricted the submission of prices to the multiyear basis only, cancel it and issue a new solicitation. However, if the multiyear price offers distinct advantages to the Government, a multiyear award may be made with the advance approval of the head of the contracting activity.

(e) If the contract is awarded for multiyear requirements, the Schedule shall state that the award was made under *multiyear contracting.*

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

17.104 Related areas.

17.104-1 Set-asides.

(a) Total small business or labor surplus area set-asides and multiyear contracting are compatible and may be used together.

(b) Partial set-asides for small business or labor surplus area concerns generally are not compatible with multiyear contracting when high startup costs are involved because of the potential duplication of costs by the set-aside and non-set-aside contractors. However—

(1) Even when high startup costs are involved, partial set-asides combined with the multiyear procedure may be appropriate if the criteria for partial set-asides are met under part 19 and it is likely that the broader competition will offset any duplication of startup costs; and

(2) Partial set-asides are compatible with multiyear contracting when the multiyear procedure is based on cost savings from anticipated production over longer periods of time. (Partial labor surplus area set-asides are only authorized for DOD activities at this time.)

(c) When considering combining multiyear contracting and set-asides, the contracting officer shall request the advice of the activity's small business specialist and the SBA representative, if one is assigned to the activity, and permit them to review the facts and make recommendations.

17.104-2 Multiyear subcontracts.

(a) The benefits and advantages of multiyear prime contracts may frequently be increased by multiyear subcontracts under the prime contracts. While prime contractors should be encouraged to employ multiyear subcontracts, the choice of the appropriate subcontract types remains with the prime contractor who should employ multiyear subcontracts only when in its judgment—

(1) The subcontract item or service is of stable design and specification;

(2) The quantity required is reasonably firm and continuing;

(3) Effective competition may be enhanced; and

(4) Multiyear subcontracts can reasonably be expected to result in reduced prices.

(b) Multiyear subcontracts may be particularly desirable under a multiyear prime contract awarded without full and open competition, since effective competition at the subcontract level may be enhanced and the attendant cost reductions realized the prime contractor and the Government.

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

17.104-3 Options.

Benefits may accrue by providing for options with a multiyear contract. In that event, contracting officers must follow both the requirements of subpart 17.2 and the following:

(a) Option prices should not include (1) charges for plant and equipment already amortized, or (2) other nonrecurring charges which were included in the basic contract price. Accordingly, solicitations should require offerors to submit prices for option quantities which do not include such charges.

(b) Contracting officers should also consider including a term allowing the Government the option, upon payment of the unamortized portion of the cost of the plant or equipment, to take title to them.

17.104-4 Multiyear contracting using modified requirements contracts.

(a) *Description of procedure*. Multiyear acquisition of supplies and/or services may be accomplished using a requirements contract, modified from the type discussed in 16.503 as described below. This type of contract will only be used when anticipated annual requirements, expressed as the Best Estimated Quantity (BEQ), can be projected with reasonable certainty. Under this method, a fixed-price contract is awarded for specified supplies and/or services up to a designated maximum quantity with orders placed on an as-required basis during the multiyear period. Contracts awarded only on the first program year requirements will not include provision for cancellation charges. The modified requirements contract differs from the contract discussed in 16.503 in the following respects:

(1) Contract quantities anticipated to be acquired are set forth in the contract as the BEQ.

(2) Nonrecurring costs are to be amortized on the BEQ.

(3) The contractor is entitled to reimbursement for preproduction and other nonrecurring costs in accordance with the contract schedule cancellation ceiling in the event that the Government orders lesser quantities than the aggregate BEQ, or cancels program year requirements by cancellation notice.

(4) Quantities in excess of the aggregate BEQ and up to the maximum quantity set forth in the schedule will be priced exclusive of the nonrecurring costs amortizing on the BEQ.

(b) *Solicitation procedures*. Solicitation procedures shall be in conformance with those contained in 17.103-2 except the term *requirements* as used in 17.103-2 will be deemed to mean BEQ. The solicitation shall include the following:

(1) A BEQ and a maximum quantity for each item for both the first program year and for each subsequent program year. The maximum quantity for individual program years is not separately priced.

(2) A line item, essentially as follows, to apply to quantities exceeding the aggregate multiyear BEQ:

"The price established for this line item is applicable to all units ordered in excess of the aggregate BEQ of... and up to the total multiyear contract maximum quantity ..."

(3) Applicable solicitation schedule notes, essentially as follows:

(i) "NOTE 1: Offeror will submit unit price for the single year requirement, which shall apply to all quantities up to the single year maximum in the event that a 1-year requirements contract is awarded only for the single-year requirement. If a contract is awarded only on the first program year requirements, such a contract will not provide for any cancellation charges."

(ii) "NOTE 2: Offeror will submit a single unit price, inclusive of nonrecurring costs, to be entered on the schedule as the BEQ price for each program year, applicable to quantities within and up to the aggregate BEQ, under multiyear procedures."

(iii) "NOTE 3: Offerors will also submit a single unit price, exclusive of nonrecurring costs amortized over the BEQ, applicable only to quantities ordered in excess of the aggregate BEQ and up to the total multiyear contract maximum quantity."

(4) A statement that quantities ordered in excess of the program year BEQ but which do not exceed the aggregate BEQ will be priced inclusive of nonrecurring costs.

(5) A statement that evaluation will be on the basis of the lowest unit price offered for the first program year BEQ against the lowest unit price offered for the aggregate BEQ.

(6) A statement setting forth a single cancellation ceiling, applicable only in the event of contract award on the multiyear basis.

(7) A notification that the amount of cancellation charges payable shall be determined on the basis of the ratio between the total quantity ordered at the time of cancellation and the aggregate contract BEQ.

(8) A date of specific time period for Government notification to the contractor as to the availability or nonavailability of funds and any anticipated significant changes in the BEQ for the succeeding program year.

(9) A statement that in the event the contract is awarded for more than one program year, the contract will include the clause at 52.217-2, Cancellation of Items, with its Alternate I.

17.105 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the following clauses in solicitations and contracts when a multiyear contract or a multiyear modified-requirements contract is contemplated:

(1) The clause at 52.217-1, Limitations of Price and Contractor Obligations.

(2) The clause at 52.217-2, Cancellation of Items. If a multiyear modified requirements contract is awarded for more than one program year, the contracting officer shall use the clause with its Alternate I.

(b) For purposes of determining the provisions and clauses applicable to solicitations and contracts under the procedure in 17.104-4 above, prescriptions pertaining to requirements contracts are applicable (see 16.505(a), 16.505(b), and 16.505(d)).

(c) Provisions and clauses prescribed elsewhere in the FAR shall also be used when the conditions specified in their prescriptions are applicable.

Subpart 17.2—Options

17.200 Scope of subpart.

This subpart prescribes policies and procedures for the use of option solicitation provisions and contract clauses. Except as provided in agency regulations, this subpart does not apply to contracts for:

(a) Services involving the construction, alteration, or repair (including dredging, excavating, and painting) of buildings, bridges, roads, or other kinds of real property;

(b) Architect-engineer services;

(c) Research and development services;

(d) Automatic data processing (ADP) equipment systems; and

(e) Telecommunications equipment and services.

However, it does not preclude the use of options in those contracts.

[53 FR 17858, May 18, 1988]

17.201 Definition.

Option means a unilateral right in a contract by which, for a specified time, the Government may elect to purchase additional supplies or services called for by the contract, or may elect to extend the term of the contract.

17.202 Use of options.

(a) Subject to the limitations of paragraphs (b) and (c) below, the contracting officer may include options in contracts when it is in the Government's interest. (See 17.207(f) with regard to the exercise of options.)

(b) Inclusion of an option is normally not in the Government's interest when, in the judgment of the contracting officer, the foreseeable requirements involve—

(1) Minimum economic quantities (i.e., quantities large enough to permit the recovery of startup costs and the production of the required supplies at a reasonable price); and

(2) Delivery requirements far enough into the future to permit competitive acquisition, production, and delivery.

(c) The contracting officer shall not employ options if—

(1) The supplies or services are readily available on the open market;

(2) The contractor will incur undue risks; e.g., the price or availability of necessary materials or labor is not reasonably foreseeable;

(3) An indefinite quantity or requirements contract is appropriate (except that the contracting officer may use options for extending the term of such contracts);

(4) Market prices for the supplies or services involved are likely to change substantially; or

(5) The option represents known firm requirements for which funds are available unless (i) the basic quantity is a learning or testing quantity and (ii) competition for the option is impracticable once the initial contract is awarded.

(d) In recognition of (1) the Government's need in certain service contracts for continuity of operations and (2) the potential cost of disrupted support, options may be included in service contracts if there is an anticipated need for a similar service beyond the first contract period.

[48 FR 42231, Sept. 19, 1983, as amended at 53 FR 17858, May 18, 1988]

17.203 Solicitations.

(a) Solicitations shall include appropriate option provisions and clauses when resulting contracts will provide for the exercise of options (see 17.208).

(b) Solicitations containing option provisions shall state the basis of evaluation, either exclusive or inclusive of the option and, when appropriate, shall inform offerors that it is anticipated that the Government may exercise the option at time of award.

(c) Solicitations normally should allow option quantities to be offered without limitation as to price, and there shall be no limitation as to price if the option quantity is to be considered in the evaluation for award (see 17.206).

(d) Solicitations that allow the offer of options at unit prices which differ from the unit prices for the basic requirement shall state that offerors may offer varying prices for options, depending on the quantities actually ordered and the dates when ordered.

(e) If it is anticipated that the Government may exercise an option at the time of award and if the condition specified in paragraph (d) above applies, solicitations shall specify the price at which the Government will evaluate the option (highest option price offered or option price for specified requirements).

(f) Solicitations may, in unusual circumstances, require that options be offered at prices no higher than those for the initial requirement; e.g., when (1) the option cannot be evaluated under 17.206, or (2) future competition for the option is impracticable.

(g) Solicitations that require the offering of an option at prices no higher than those for the initial requirement shall—

(1) Specify that the Government will accept an offer containing an option price higher than the base price only if the acceptance does not prejudice any other offeror; and

(2) Limit option quantities for additional supplies to not more than 50 percent of the initial quantity of the same contract line item. In unusual circumstances, an authorized person at a level above the contracting officer may approve a greater percentage of quantity.

(h) See 25.402(a)(4) regarding use of options in calculating the estimated contract amount for application of the Trade Agreements Act threshold.

[48 FR 42231, Sept. 19, 1983, as amended at 53 FR 27464, July 20, 1988]

17.204 Contracts.

(a) The contract shall specify limits on the purchase of additional supplies or services, or the overall duration of the term of the contract, including any extension.

(b) The contract shall state the period within which the option may be exercised.

(c) The period shall be set so as to provide the contractor adequate lead time to ensure continuous production.

(d) The period may extend beyond the contract completion date for service contracts. This is necessary for situations when exercise of the option would result in the obligation of funds that are not available in the fiscal year in which the contract would otherwise be completed.

(e) Unless otherwise approved in accordance with agency procedures, the total of the basic and option periods shall not exceed 5 years in the case of services, and the total of the basic and option quantities shall not exceed the requirement for 5 years in the case of supplies. Statutes applicable to various classes of contracts may place additional restrictions on the length of contracts.

(f) Contracts may express options for increased quantities of supplies or services in terms of (1) percentage of specific line items, (2) increase in specific line items, or (3) additional numbered line items identified as the option.

(g) Contracts may express extensions of the term of the contract as an amended completion date or as additional time for performance; e.g., days, weeks, or months.

[48 FR 42231, Sept. 19, 1983, as amended at 54 FR 5055, Jan. 31, 1989]

17.205 Documentation.

(a) The contracting officer shall justify in writing the quantities or the term under option, the notification period for exercising the option, and any limitation on option price under 17.203(g); and shall include the justification document in the contract file.

(b) Any justifications and approvals and any determination and findings required by part 6 shall specify both the basic requirement and the increase permitted by the option.

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

17.206 Evaluation.

(a) In awarding the basic contract, the contracting officer shall, except as provided in paragraph (b) of this section, evaluate offers for any option quantities or periods contained in a solicitation when it has been determined prior to soliciting offers that the Government is likely to exercise the options. (See 17.208.)

(b) The contracting officer need not evaluate offers for any option quantities when it is determined that evaluation would not be in the best interests of the Government and this determination is approved at a level above the contracting officer. An example of a circumstance that may support a determination not to evaluate offers for option quantities is when there is a reasonable certainty that funds will be unavailable to permit exercise of the option.

[53 FR 17858, May 18, 1988]

17.207 Exercise of options.

(a) When exercising an option, the contracting officer shall provide written notice to the contractor within the time period specified in the contract.

(b) When the contract provides for economic price adjustment and the contractor requests a revision of the price, the contracting officer shall determine the effect of the adjustment on prices under the option before the option is exercised.

(c) The contracting officer may exercise options only after determining that—

(1) Funds are available;

(2) The requirement covered by the option fulfills an existing Government need;

(3) The exercise of the option is the most advantageous method of fulfilling the Government's need, price and other factors (see paragraphs (d) and (e) below) considered; and

(4) The option was synopsized in accordance with part 5 unless exempted

by 5.202(a)(10) or other appropriate exemptions in 5.202.

(d) The contracting officer, after considering price and other factors, shall make the determination on the basis of one of the following:

(1) A new solicitation fails to produce a better price or a more advantageous offer than that offered by the option. If it is anticipated that the best price available is the option price or that this is the more advantageous offer, the contracting officer should not use this method of testing the market.

(2) An informal analysis of prices or an examination of the market indicates that the option price is better than prices available in the market or that the option is the more advantageous offer.

(3) The time between the award of the contract containing the option and the exercise of the option is so short that it indicates the option price is the lowest price obtainable or the more advantageous offer. The contracting officer shall take into consideration such factors as market stability and comparison of the time since award with the usual duration of contracts for such supplies or services.

(e) The determination of other factors under (c)(3) of this section should take into account the Government's need for continuity of operations and potential costs of disrupting operations.

(f) Before exercising an option, the contracting officer shall make a written determination for the contract file that exercise is in accordance with the terms of the option, the requirements of this section, and part 6. To satisfy requirements of part 6 regarding full and open competition, the option must have been evaluated as part of the initial competition and be exercisable at an amount specified in or reasonably determinable from the terms of the basic contract, e.g.—

(1) A specific dollar amount;

(2) An amount to be determined by applying provisions (or a formula) provided in the basic contract, but not including renegotiation of the price for work in a fixed-price type contract;

(3) In the case of a cost-type contract, if—

(i) The option contains a fixed or maximum fee; or

(ii) The fixed or maximum fee amount is determinable by applying a formula contained in the basic contract (but see 16.102(c));

(4) A specific price that is subject to an economic price adjustment provision; or

(5) A specific price that is subject to change as the result of changes to prevailing labor rates provided by the Secretary of Labor.

(g) The contract modification or other written document which notifies the contractor of the exercise of the option shall cite the option clause as authority.

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52433, 52434, Dec. 23, 1985; 53 FR 17858, May 18, 1988]

17.208 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert a provision substantially the same as the provision at 52.217-3, Evaluation Exclusive of Options, in solicitations when the solicitation includes an option clause and does not include one of the provisions prescribed in paragraph (b) or (c) below.

(b) The contracting officer shall insert a provision substantially the same as the provision at 52.217-4, Evaluation of Options Exercised at Time of Contract Award, in solicitations when the solicitation includes an option clause, a determination has been made that there is a reasonable likelihood that the option will be exercised, and the option may be exercised at the time of contract award.

(c) The contracting officer shall insert a provision substantially the same as the provision at 52.217-5, Evaluation of Options, in solicitations when—

(1) The solicitation contains an option clause;

(2) An option is not to be exercised at the time of contract award;

(3) A firm-fixed-price contract, a fixed-price contract with economic price adjustment, or other type of contract approved under agency procedures is contemplated; and

(4) A determination has been made that there is a reasonable likelihood that the option will be exercised.

(d) The contracting officer shall insert a clause substantially the same as the clause at 52.217-6, Option for Increased Quantity, in solicitations and contracts, other than those for services, when the inclusion of an option is appropriate (see 17.200 and 17.202) and the option quantity is expressed as a percentage of the basic contract quantity or as an additional quantity of a specific line item.

(e) The contracting officer shall insert a clause substantially the same as the clause at 52.217-7, Option for Increased Quantity—Separately Priced Line Item, in solicitations and contracts, other than those for services, when the inclusion of an option is appropriate (see 17.200 and 17.202) and the option quantity is identified as a separately priced line item having the same nomenclature as a corresponding basic contract line item.

(f) The contracting officer shall insert a clause substantially the same as the clause at 52.217-8, Options to Extend Services, in solicitations and contracts for services when the inclusion of an option is appropriate. (See 17.200, 17.202, and 37.111.)

(g) The contracting officer shall insert a clause substantially the same as the clause at 52.217-9, Option to Extend the Term of the Contract, in solicitations and contracts when the inclusion of an option is appropriate (see 17.200 and 17.202) and it is necessary to include in the contract a requirement that the Government shall give the contractor a preliminary written notice of its intent to extend the contract, a stipulation that an extension of the contract includes an extension of the option, and/or a specified limitation on the total duration of the contract.

[48 FR 42231, Sept. 19, 1983, as amended at 53 FR 17858, May 18, 1988; 54 FR 5055, Jan. 31, 1989; 54 FR 29281, July 11, 1989; 55 FR 38516, Sept. 18, 1990]

Subpart 17.3—[Reserved]

Subpart 17.4—Leader Company Contracting

17.401 General.

Leader company contracting is an extraordinary acquisition technique that is limited to special circumstances and utilized only when its use is in accordance with agency procedures. A developer or sole producer of a product or system is designated under this acquisition technique to be the leader company, and to furnish assistance and know-how under an approved contract to one or more designated follower companies, so they can become a source of supply. The objectives of this technique are one or more of the following:

(a) Reduce delivery time.

(b) Achieve geographic dispersion of suppliers.

(c) Maximize the use of scarce tooling or special equipment.

(d) Achieve economies in production.

(e) Ensure uniformity and reliability in equipment, compatibility or standardization of components, and interchangeability of parts.

(f) Eliminate problems in the use of proprietary data that cannot be resolved by more satisfactory solutions.

(g) Facilitate the transition from development to production and to subsequent competitive acquisition of end items or major components.

17.402 Limitations.

(a) Leader company contracting is to be used only when—

(1) The leader company has the necessary production know-how and is able to furnish required assistance to the follower(s);

(2) No other source can meet the Government's requirements without the assistance of a leader company;

(3) The assistance required of the leader company is limited to that which is essential to enable the follower(s) to produce the items; and

(4) Its use is authorized in accordance with agency procedures.

(b) When leader company contracting is used, the Government shall reserve the right to approve subcontracts between the leader company and the follower(s).

17.403 Procedures.

(a) The contracting officer may award a prime contract to a—

(1) Leader company, obligating it to subcontract a designated portion of the required end items to a specified follower company and to assist it to produce the required end items;

(2) Leader company, for the required assistance to a follower company, and a prime contract to the follower for production of the items; or

(3) Follower company, obligating it to subcontract with a designated leader company for the required assistance.

(b) The contracting officer shall ensure that any contract awarded under this arrangement contains a firm agreement regarding disclosure, if any, of contractor trade secrets, technical designs or concepts, and specific data, or software, of a proprietary nature.

Subpart 17.5—Interagency Acquisitions Under the Economy Act

17.500 Scope of subpart.

This subpart prescribes policies and procedures applicable to interagency acquisitions under the Economy Act (31 U.S.C. 1535). Policies and procedures for acquisitions from required sources of supplies are prescribed in part 8.

[48 FR 42233, Sept. 19, 1983, as amended at 51 FR 2650, Jan. 17, 1986]

17.501 Definition.

Interagency acquisition means a procedure by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency).

17.502 General.

Under the Economy Act, an agency may place orders with any other agency for supplies or services that the servicing agency may be in a position or equipped to supply, render, or obtain by contract if it is determined by the head of the requesting agency, or designee, that it is in the Government's interest to do so.

17.503 Determination requirements.

(a) The determination prescribed in 17.502 shall include a finding that—

(1) Legal authority for the acquisition otherwise exists; and

(2) The action does not conflict with any other agency's authority or responsibility; e.g., that of the Administrator of General Services under the Federal Property and Administrative Services Act (see 40 U.S.C. 481, 486, and 41 CFR 101-25.2).

(b) If the acquisition involves the use of a commercial or industrial activity operated by the servicing agency, the determination shall also include a finding that the acquisition conforms to the requirements of subpart 7.3, Contractor Versus Government Performance.

17.504 Ordering procedures.

(a) When placing an order for supplies or services from another Government agency, the contracting officer shall first obtain the determination required in 17.502.

(b) The order may be placed on any form or document that is acceptable to both agencies. The order should include—

(1) A description of the supplies or services required;

(2) Delivery requirements;

(3) A funds citation;

(4) A payment provision (see 17.505); and

(5) Acquisition authority as may be appropriate (see 17.504(d)).

(c) The requesting and servicing agencies should agree to procedures for the resolution of disagreements that may arise under interagency acquisitions, including, in appropriate circumstances, the use of a third-party forum. If a third party is proposed, consent of the third party should be obtained in writing.

(d) When an interagency acquisition requires the servicing agency to award a contract, the following procedures apply:

(1) If a justification and approval or a determination and findings (D&F) is required by law or regulation, the

servicing agency shall execute and issue the justification and approval or D&F. The requesting agency shall furnish the servicing agency any information needed to make the justification and approval and the D&F.

(2) The requesting agency shall also be responsible for furnishing other assistance that may be necessary, such as providing special contract terms or other requirements that must comply with any condition or limitation applicable to the funds of the requesting agency.

(3) The servicing agency is responsible for compliance with all other legal or regulatory requirements applicable to the contract including (i) having adequate statutory authority for the contractual action and (ii) complying fully with the competition requirements of part 6 (see 6.002).

(e) Nonsponsoring Federal agencies may use a Federally Funded Research and Development Center (FFRDC) only if the terms of the FFRDC's sponsoring agreement permit work from other than a sponsoring agency. Work placed with the FFRDC is subject to the acceptance by the sponsor and must fall within the purpose, mission, general scope of effort, or special competency of the FFRDC. (See 35.017; see also 6.302 for procedures to follow where using less than full and open competition.) The nonsponsoring agency shall provide to the sponsoring agency necessary documentation that the requested work would not place the FFRDC in direct competition with domestic private industry.

[48 FR 42231, Sept. 19, 1983, as amended at 50 FR 1742, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 55 FR 3881, Feb. 5, 1990]

17.505 Payment.

(a) Under the Economy Act—

(1) The servicing agency may request the requesting agency, in writing, for advance payment by check for all or part of the estimated cost of furnishing the supplies or services; or

(2) If approved by the servicing agency, payment by check for actual costs may be made by the requesting agency after the supplies or services have been furnished.

(b) If advance payment is made, adjustments on the basis of actual costs shall be made as agreed by the agencies.

(c) Bills rendered or requests for advance payment shall not be subject to audit or certification in advance of payment.

Subpart 17.6—Management and Operating Contracts

17.600 Scope of subpart.

This subpart prescribes policies and procedures for management and operating contracts for the Department of Energy and any other agency having requisite statutory authority.

17.601 Definition.

Management and operating contract means an agreement under which the Government contracts for the operation, maintenance, or support, on its behalf, of a Government-owned or -controlled research, development, special production, or testing establishment wholly or principally devoted to one or more major programs of the contracting Federal agency.

17.602 Policy.

(a) Heads of agencies, with requisite statutory authority, may determine in writing to authorize contracting officers to enter into or renew any management and operating contract in accordance with the agency's statutory authority, or the Competition in Contracting Act of 1984, and the agency's regulations governing such contracts. This authority shall not be delegated. Every contract so authorized shall show its authorization upon its face.

(b) Agencies may authorize management and operating contracts only in a manner consistent with the guidance of this subpart and only if they are consistent with the situations described in 17.604.

(c) Within 2 years of the effective date of this regulation, agencies shall review their current contractual arrangements in the light of the guidance of this subpart, in order to (1) identify, modify as necessary, and authorize management and operating contracts and (2) modify as necessary or terminate contracts not so identified and authorized, except that any contract with less than 4 years remaining as of the effective date of this regulation need not be terminated, nor need it be identified, modified, or authorized unless it is renewed or its terms are substantially renegotiated.

[48 FR 42163, Sept. 19, 1983, as amended at 50 FR 52434, Dec. 23, 1985]

17.603 Limitations.

(a) Management and operating contracts shall not be authorized for—

(1) Functions involving the direction, supervision, or control of Government personnel, except for supervision incidental to training;

(2) Functions involving the exercise of police or regulatory powers in the name of the Government, other than guard or plant protection services;

(3) Functions of determining basic Government policies;

(4) Day-to-day staff or management functions of the agency or of any of its elements; or

(5) Functions that can more properly be accomplished in accordance with subpart 45.3, Providing Government Property to Contractors.

(b) Since issuance of an authorization under 17.602(a) is deemed sufficient proof of compliance with paragraph (a) immediately above, nothing in paragraph (a) immediately above shall affect the validity or legality of such an authorization.

17.604 Identifying management and operating contracts.

A management and operating contract is characterized both by its purpose (see 17.601) and by the special relationship it creates between Government and contractor. The following criteria can generally be applied in identifying management and operating contracts:

(a) Government-owned or -controlled facilities must be utilized; for instance, (1) in the interest of national defense or mobilization readiness, (2) to perform the agency's mission adequately, or (3) because private enterprise is unable or unwilling to use its own facilities for the work.

(b) Because of the nature of the work, or because it is to be performed in Government facilities, the Government must maintain a special, close relationship with the contractor and
contractor's personnel in various
portant areas (e.g., safety, secur
cost control, site conditions).

(c) The conduct of the work
wholly or at least substantially se
rate from the contractor's other bu
ness, if any.

(d) The work is closely related to
agency's mission and is of a long-te
or continuing nature, and there i
need (1) to ensure its continuity
(2) for special protection covering
orderly transition of personnel
work in the event of a change in c
tractors.

17.605 Award, renewal, and extension.

(a) Effective work performa
under management and operating c
tracts usually involves high levels
expertise and continuity of operatio
and personnel. Because of program
quirements and the unusual (som
times unique) nature of the work p
formed under management and op
ating contracts, the Government
often limited in its ability to eff
competition or to replace a contract
Therefore contracting officers sho
take extraordinary steps before aw
to assure themselves that the prosp
tive contractor's technical and ma
gerial capacity are sufficient, that
ganizational conflicts of interest
adequately covered, and that the c
tract will grant the Government bro
and continuing rights to involve its
if necessary, in technical and manag
rial decisionmaking concerning p
formance.

(b) The contracting officer sh
review each management and oper
ing contract, following agency pro
dures, at appropriate intervals and
least once every 5 years. The revi
should determine whether meaning
improvement in performance or c
might reasonably be achieved. Any
tension or renewal of an operating a
management contract must be auth
ized at a level within the agency
lower than the level at which t
original contract was authorized in
cordance with 17.602(a).

(c) Replacement of an incum
contractor is usually based larg
upon expectation of meaningful

provement in performance or cost. Therefore, when reviewing contractor performance, contracting officers should consider—

(1) The incumbent contractor's overall performance, including, specifically, technical, administrative, and cost performance;

(2) The potential impact of a change in contractors on program needs, including safety, national defense, and mobilization considerations; and

(3) Whether it is likely that qualified offerors will compete for the contract.

PART 18—[RESERVED]

SUBCHAPTER D—SOCIOECONOMIC PROGRAMS

PART 19—SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

Sec.
19.000 Scope of part.
19.001 Definitions.

Subpart 19.1—Size Standards

19.101 Explanation of terms.
19.102 Size standards.

Subpart 19.2—Policies

19.201 General policy.
19.202 Specific policies.
19.202-1 Encouraging small business participation in acquisitions.
19.202-2 Locating small business sources.
19.202-3 Equal low bids.
19.202-4 Solicitation.
19.202-5 Data collection and reporting requirements.
19.202-6 Determination of fair market price.

Subpart 19.3—Determination of Status as a Small Business Concern

19.301 Representation by the offeror.
19.302 Protesting a small business representation.
19.303 Determining product or service classifications.
19.304 Solicitation provisions.

Subpart 19.4—Cooperation With the Small Business Administration

19.401 General.
19.402 Small Business Administration procurement center representatives.
19.403 Small Business Administration breakout procurement center representatives.

Subpart 19.5—Set-Asides for Small Business

19.501 General.
19.502 Setting aside acquisitions.
19.502-1 Requirements for setting aside acquisitions.
19.502-2 Total set-asides.
19.502-3 Partial set-asides.
19.502-4 Methods of conducting set-asides.
19.502-5 Insufficient causes for not setting aside an acquisition.
19.503 Setting aside a class of acquisitions.
19.504 Set-aside program order of precedence.
Sec.
19.505 Rejecting Small Business Administration recommendations.
19.506 Withdrawing or modifying set-asides.
19.507 Automatic dissolution of a set-aside.
19.508 Solicitation provisions and contract clauses.

Subpart 19.6—Certificates of Competency and Determinations of Eligibility

19.601 General.
19.602 Procedures.
19.602-1 Referral.
19.602-2 Issuing or denying a certificate of competency (COC).
19.602-3 Resolving differences between the agency and the Small Business Administration.
19.602-4 Awarding the contract.

Subpart 19.7—Subcontracting With Small Business and Small Disadvantaged Business Concerns

19.701 Definitions.
19.702 Statutory requirements.
19.703 Eligibility requirements for participating in the program.
19.704 Subcontracting plan requirements.
19.705 Responsibilities of the contracting officer under the subcontracting assistance program.
19.705-1 General support of the program.
19.705-2 Determining the need for a subcontracting plan.
19.705-3 Preparing the solicitation.
19.705-4 Reviewing the subcontracting plan.
19.705-5 Awards involving subcontracting plans.
19.705-6 Postaward responsibilities of the contracting officer.
19.705-7 Liquidated damages.
19.706 Responsibilities of the cognizant administrative contracting officer.
19.707 The Small Business Administration's role in carrying out the program.
19.708 Solicitation provisions and contract clauses.

19.1003 Purpose.
19.1004 Participating agencies.
19.1005 Applicability.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42240, Sept. 19, 1983, unless otherwise noted.

19.000 Scope of part.

(a) This part implements the acquisition-related sections of the Small Business Act (15 U.S.C. 631 *et seq.*), applicable sections of the Armed Services Procurement Act (10 U.S.C. 2301 et seq., the Federal Property and Administrative Services Act (41 U.S.C. 252), and Executive Order 12138, May 18, 1979. It covers—

(1) The determination that a concern is eligible for participation in the programs identified in this part;

(2) The respective roles of executive agencies and the Small Business Administration (SBA) in implementing the programs;

(3) Setting acquisitions aside for exclusive competitive participation by small business concerns;

(4) The certificate of competency program;

(5) The subcontracting assistance program;

(6) The *8(a)* program, under which agencies contract with the SBA for goods or services to be furnished under a subcontract by a small disadvantaged business concern; and

(7) The use of women-owned small business concerns.

(b) This part applies only inside the United States, its territories and possessions, Puerto Rico, the Trust Territory of the Pacific Islands, and the District of Columbia.

19.001 Definitions.

Concern, as used in this part, means any business entity organized for profit (even if its ownership is in the hands of a nonprofit entity) with a place of business located in the United States and which makes a significant contribution to the U.S. economy through payment of taxes and/or use of American products, material and/or labor, etc. *Concern* includes but is not limited to an individual, partnership, corporation, joint venture, association, or cooperative. For the purpose of making affiliation findings (see 19.101) any business entity, whether organized for profit or not, and any foreign business entity; i.e., any entity located outside the United States, shall be included.

Determination of eligibility, as used in this part, means the written determination issued by the SBA or the Department of Labor certifying that the holder is a manufacturer or regular dealer under the Walsh-Healey Public Contracts Act (see 22.608-2(f)(2)).

Fair market price, as used in this part, means a price based on reasonable costs under normal competitive conditions and not on lowest possible cost (see 19.202-6).

Handicapped individual means a person who has a physical, mental, or emotional impairment, defect, ailment, disease, or disability of a permanent nature which in any way limits the selection of any type of employment for which the person would otherwise be qualified or qualifiable.

Industry, as used in this part, means all concerns primarily engaged in similar lines of activity, as listed and described in the Standard Industrial Classification (SIC) Manual.

Public or private organization for the handicapped means one which (a) is organized under the laws of the United States or of any State, operated in the interest of handicapped individuals, the net income of which does not inure in whole or in part to the benefit of any shareholder or other individual; (b) complies with any applicable occupational health and safety standard prescribed by the Secretary of Labor; and (c) employs in the production of commodities and in the provision of services, handicapped individuals for not less than 75 percent of the direct labor required for the production or provision of the commodities or services.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on government contracts, and qualified as a small business under the criteria and size standards in 13 CFR part 121 (see 19.102). Such a concern is *not dominant in its field of operation* when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

Small disadvantaged business concern means a small business concern that is at least 51 percent unconditionally owned by one or more individuals who are both socially and economically disadvantaged, or a publicly owned business that has at least 51 percent of its stock unconditionally owned by one or more socially and economically disadvantaged individuals and that has its management and daily business controlled by one or more such individuals. This terms also means a small business concern that is at least 51 percent unconditionally owned by an economically disadvantaged Indian tribe or Native Hawaiian Organization, or a publicly owned business that has at least 51 percent of its stock unconditionally owned by one of these entities, that has its management and daily business controlled by members of an economically disadvantaged Indian tribe or Native Hawaiian Organization, and that meets the requirements of 13 CFR part 124.

(a) *Socially disadvantaged individuals* means individuals who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of a group without regard to their qualities as individuals.

(b) *Economically disadvantaged individuals* means socially disadvantaged individuals whose ability to compete in the free enterprise system is impaired due to diminished opportunities to obtain capital and credit as compared to others in the same line of business who are not socially disadvantaged. Individuals who certify that they are members of named groups (Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Subcontinent-Asian Americans) are to be considered socially and economically disadvantaged.

(1) *Subcontinent Asian Americans* means United States citizens whose origins are in India, Pakistan, Bangladesh, Sri Lanka, Bhutan, or Nepal.

(2) *Asian Pacific Americans* means United States citizens whose origins area in Japan, China, the Philippines, Vietnam, Korea, Samoa, Guam, the U.S. Trust Territory of the Pacific Islands (Republic of Palau), the Northern Mariana Islands, Laos, Kampuchea (Cambodia), Taiwan, Burma, Thailand, Malaysia, Indonesia, Singapore, Brunei, Republic of the Marshall Islands, or the Federated States of Micronesia.

(3) *Native Americans* means American Indians, Eskimos, Aleuts, and native Hawaiians.

(c) *Native Hawaiian Organization* means any community service organization serving Native Hawaiians in, and chartered as a not-for-profit organization by, the State of Hawaii, which is controlled by Native Hawaiians, and whose business activities will principally benefit such Native Hawaiians.

(d) *Indian tribe* means any Indian tribe, band, nation, or other organized group of community of Indians, including any Alaska Native Corporation as defined in 13 CFR 124.100 which is recognized as eligible for the special programs and services provided by the U.S. to Indians because of their status as Indians, or which is recognized as such by the State in which such tribe, band, nation, group, or community resides.

[51 FR 2650, Jan. 17, 1986, as amended at 52 FR 38189, Oct. 14, 1987; 54 FR 25062, June 12, 1989; 55 FR 3881, Feb. 5, 1990]

Subpart 19.1—Size Standards

19.101 Explanation of terms.

Affiliates. As used in this subpart, business concerns are affiliates of each other if, directly or indirectly, either one controls or has the power to control the other, or another concern controls or has the power to control both. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships; *provided,* that restraints imposed by a franchise agreement are not considered in determining whether the franchisor controls or has the power to control the franchisee, if the franchisee has the right to profit from its effort, commensurate with ownership, and bears the risk of loss or failure. Any business entity may be found to be an affiliate, whether or not it is organized for profit or located inside the United States.

(a) *Nature of Control.* Every business concern is considered as having one or more parties who directly or indirectly control or have the power to control it. Control may be affirmative or negative and it is immaterial whether it is exercised so long as the power to control exists.

(b) *Meaning of party or parties.* The term *party* or *parties* includes, but is not limited to, two or more persons with an identity of interest such as members of the same family or persons with common investments in more than one concern. In determining who controls or has the power to control a concern, persons with an identity of interest may be treated as though they were one person.

(c) *Control through stock ownership.* (1) A party is considered to control or have the power to control a concern, if the party controls or has the power to control 50 percent or more of the concern's voting stock.

(2) A party is considered to control or have the power to control a concern, even though the party owns, controls, or has the power to control less than 50 percent of the concern's voting stock, if the block of stock the party owns, controls, or has the power to control is large, as compared with any other outstanding block of stock. If two or more parties each owns, controls, or has the power to control, less than 50 percent of the voting stock of a concern, and such minority block is equal or substantially equal in size, and large as compared with any other block outstanding, there is a presumption that each such party controls or has the power to control such concern; however, such presumption may be rebutted by a showing that such control or power to control, in fact, does not exist.

(3) If a concern's voting stock is distributed other than as described above, its management (officers and directors) is deemed to be in control of such concern.

(d) *Stock options and convertible debentures.* Stock options and convertible debentures exercisable at the time or within a relatively short time after a size determination and agreements to merge in the future, are considered as having a present effect on the power to control the concern. Therefore, in making a size determination, such options, debentures, and agreements are treated as though the rights held thereunder had been exercised.

(e) *Voting trusts.* If the purpose of a voting trust, or similar agreement, is to separate voting power from beneficial ownership of voting stock for the purpose of shifting control of or the power to control a concern in order that such concern or another concern may qualify as a small business within the size regulations, such voting trust shall not be considered valid for this purpose regardless of whether it is or is not valid within the appropriate jurisdiction. However, if a voting trust is entered into for a legitimate purpose other than that described above, and it is valid within the appropriate jurisdiction, it may be considered valid for the purpose of a size determination, provided such consideration is determined to be in the best interest of the small business program.

(f) *Control through common management.* A concern may be found as controlling or having the power to control another concern when one or more of the following circumstances are found to exist, and it is reasonable to conclude that under the circumstances, such concern is directing or influencing, or has the power to direct or influence, the operation of such other concern.

(1) *Interlocking management.* Officers, directors, employees, or principal stockholders of one concern serve as a working majority of the board of directors or officers of another concern.

(2) *Common facilities.* One concern shares common office space and/or employees and/or other facilities with another concern, particularly where such concerns are in the same or related industry or field of operation, or where such concerns were formerly affiliated.

(3) *Newly organized concern.* Former officers, directors, principal stockholders, and/or key employees of one concern organize a new concern in the same or a related industry or field operation, and serve as its officers, directors, principal stockholders, and/or key employees, and one concern is furnishing or will furnish the other concern with subcontracts, financial or technical assistance, and/or facilities, whether for a fee or otherwise.

(g) *Control through contractual relationships*—(1) *Definition of a joint venture for size determination purposes.* A joint venture for size determination purposes is an association of persons and/or concerns with interests in any degree or proportion by way of contract, express or implied, consorting to engage in and carry out a single specific business venture for joint profit, for which purpose they combine their efforts, property, money, skill, or knowledge, but not on a continuing or permanent basis for conducting business generally. A joint venture is viewed as a business entity in determining power to control its management.

(2) *Joint venture—procurement and property sale assistance*—Concerns bidding on a particular procurement or property sale as joint venturers are considered as affiliated and controlling or having the power to control each other with regard to performance of the contract. Moreover, an ostensible subcontractor which is to perform primary or vital requirements of a contract may have a controlling role such to be considered a joint venturer affiliated on the contract with the prime contractor. A joint venture affiliation finding is limited to particular contracts unless the SBA size determination finds general affiliation between the parties.

(3) Where a concern is not considered as being an affiliate of a concern with which it is participating in a joint venture, it is necessary, nevertheless, in computing annual receipts, etc., for the purpose of applying size standards, to include such concern's share of the joint venture receipts (as distinguished from its share of the profits of such venture).

(4) *Franchise and license agreements.* If a concern operates or is to operate under a franchise (or a license) agreement, the following policy is applicable: In determining whether the franchisor controls or has the power to control and, therefore, is affiliated with the franchisee, the restraints imposed on a franchisee by its franchise agreement shall not be considered, provided that the franchisee has the right to profit from its effort and the risk of loss or failure, commensurate with ownership. Even though a franchisee may not be controlled by the franchisor by virtue of the contractual relationship between them, the franchisee may be controlled by the franchisor or others through common ownership or common management, in which case they would be considered as affiliated.

Annual receipts. (a) Annual receipts of a concern which has been in business for 3 or more complete fiscal years means the annual average gross revenue of the concern taken for the last 3 fiscal years. For the purpose of this definition, gross revenue of the concern includes revenues from sales of products and services, interest, rents, fees, commissions and/or whatever other sources derived, but less returns and allowances, sales of fixed assets, interaffiliate transactions between a concern and its domestic and foreign affiliates, and taxes collected for remittance (and if due, remitted) to a third party. Such revenues shall be measured as entered on the regular books of account of the concern whether on a cash, accrual, or other basis of accounting acceptable to the U.S. Treasury Department for the purpose of supporting Federal income tax returns, except when a change in accounting method from cash to accrual or accrual to cash has taken place during such 3-year period, or when the completed contract method has been used.

(1) In any case of a change in accounting method from cash to accrual or accrual to cash, revenues for such 3-year period shall, prior to the calculation of the annual average, be restated to the accrual method. In any case, where the completed contract method has been used to account for revenues in such 3-year period, revenues must be restated on an accrual basis using the percentage of completion method.

(2) In the case of a concern which does not keep regular books of accounts, but which is subject to U.S. Federal income taxation, *annual receipts* shall be measured as reported, or to be reported to the U.S. Treasury Department, Internal Revenue Service, for Federal income tax purposes, except that any return based on a change in accounting method or on the completed contract method of accounting must be restated as provided for in the preceding paragraphs.

(b) Annual receipts of a concern that has been in business for less than 3 complete fiscal years means its total receipts for the period it has been in business, divided by the number of weeks including fractions of a week that it has been in business, and multiplied by 52. In calculating total receipts, the definitions and adjustments related to a change of accounting method and the completed contract method of paragraph (a) above, are applicable.

Number of employees is a measure of the average employment of a business concern and means its average employment, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary, or other basis during each of the pay periods of the preceding 12 months. If a business has not been in existence for 12 months, *number of employees* means the average employment of such concern and its affiliates during the period that such concern has been in existence based on the number of persons employed during each of the pay periods of the period that such concern has been in business. If a business has acquired an affiliate during the applicable 12-month period, it is necessary, in computing the applicant's number of employees, to include the affiliate's number of employees during the entire period, rather than only its employees during the period in which it has been an affiliate. The employees of a former affiliate are not included, even if such concern had been an affiliate during a portion of the period.

[51 FR 2650, Jan. 17, 1986]

19.102 Size standards.

(a) The SBA establishes small business size standards on an industry-by-industry basis. (See 13 CFR part 121.)

(b) Small business size standards are applied by—

(1) Classifying the product or service being acquired in the industry whose definition, as found in the Standard Industrial Classification (SIC) Manual, best describes the principal nature of the product or service being acquired;

(2) Identifying the size standard SBA established for that industry; and

(3) Specifying the size standard in the solicitation, so that offerors can appropriately represent themselves as small or large.

(c) For size standard purposes, a product or service shall be classified in only one industry, whose definition best describes the principal nature of the product or service being acquired even though for other purposes it could be classified in more than one.

(d) When acquiring a product or service that could be classified in two or more industries with different size standards, contracting officers shall apply the size standard for the industry accounting for the greatest percentage of the contract price.

(e) If a solicitation calls for more than one item and allows offers to be submitted on any or all of the items, an offeror must meet the size standard for each item it offers to furnish. If a solicitation calling for more than one item requires offers on all or none of the items, an offeror may qualify as a small business by meeting the size standard for the item accounting for the greatest percentage of the total contract price.

(f) Any concern which submits a bid or offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is deemed to be a small business when it has no more than 500 employees, and—

(1) Except as provided in subparagraph (f)(5) of this section, in the case of Government acquisitions set-aside for small businesses, such nonmanufacturer must furnish in the performance of the contract the product of a small business manufacturer or producer, which end product must be manufactured or produced in the United States. The term *nonmanufacturer* includes a concern which can manufacture or produce the product referred to in the specific acquisition but does not do so in connection with that acquisition. For size determination purposes there can be only one manufacturer of the end item being procured. The manufacturer of the end item being acquired is the concern which, with its own forces, transforms inorganic or organic substances including raw materials and/or miscellaneous parts or components into such end item. Whether a bidder on a particular acquisition is the manufacturer or a nonmanufacturer for the purpose of a size determination need not be consistent with whether such concern is or is not a manufacturer for the purpose o the Walsh-Healey Act. However, se the limitations on subcontracting a 52.219-14 which apply to any smal business offeror other than a regula dealer for purposes of set-asides an 8(a) awards.

(2) A concern which purchases item and packages them into a kit is considered to be a nonmanufacturer smal business and can qualify as such for given acquisition if it meets the siz qualifications of a small nonmanufacturer for the acquisition, and if mor than 50 percent of the total value o the kit and its contents is accounted for by items manufactured by small business.

(3) If the acquisition is subject t and is actually procured under *small purchase procedures*, such nonmanufacturer may furnish any domestically produced or manufactured product.

(4) For the purpose of receiving Certificate of Competency on an unrestricted acquisition, a small busines nonmanufacturer may furnish any domestically produced or manufactured product.

(5) As provided in 15 U.S.C. 637(a)(17), in the case of Government acquisitions set aside for small business or awarded under section 8(a) of the Small Business Act, such nonmanufacturer may furnish any domestically produced or manufactured produc when the acquisition is for a produc in a class for which the Small Busines Administration has determined that there are no small business manufacturers or processors in the Federal market, and when such nonmanufacturer is primarily engaged in the wholesale or retail trade and is a regular dealer, as defined pursuant to 4 U.S.C. 35(a) (see 22.601), in the product to be offered unless specifically exempted from section 35(a) by section 7(j)(13)(C) of the Small Business Act. Classes for which a waiver has been granted are as follows:

Backhoes (PSC 3805)
Graders, Road (Construction Machinery) (PSC 3805)
Scrapers, Construction (PCS 3805)
Cranes, Construction (PSC 3810)

(g) The industry size standards are set forth in the following table. The table column labeled *SIC* follows the standard industrial classification code as published by the Government in the Standard Industrial Classification Manual. The Manual is intended to cover the entire field of economic activities. It classifies and defines activities by industry categories and is the source used by SBA as a guide in defining industries for size standards. The number of employees or annual receipts indicates the maximum allowed for a concern, including its affiliates, to be considered small.

SIC	DESCRIPTION	SIZE
	DIVISION A—AGRICULTURE	
	Major Group 01-Agricultural Production-Crops	
0111-0191	Agricultural Production-Crops	$0.5
	Major Group 02-Agricultural Production-Livestock

FOOTNOTES

[1] Reserved.

[2] *SIC-1629:* To be considered small, a firm must perform the dredging of at least 40 percent of the yardage with its own dredging equipment or equipment owned by another small dredging concern.

[3] *SIC Division D—Manufacturing:* "Rebuilding on a factory basis or equivalent." For rebuilding machinery or equipment on a factory basis, use SIC code applicable for new manufactured product. The appropriate size standard is not limited to manufacturers. Ordinary repair services or preservation operations, however, are not considered rebuilding activities.

[4] *SIC-2033:* For purposes of Government procurement for food canning and preserving under SIC-2033, the standard of 500 employees shall be exclusive of agricultural labor as defined in section (k) of the Federal Unemployment Tax Act, 68A Stat. 454, 26 U.S.C. (I.R.C. 1954) 3306.

[5] *SIC-2911:* For purposes of Government procurement, the firm may not have more than 1,500 employees, nor may it have more than 50,000 barrels per day capacity. This capacity may be measured in terms of either crude oil or bona fide feedstocks or both, but the sum total of the various petroleum-based inputs in the process may not exceed 50,000 barrels. In addition to the direct owned capacity of the concern in question, counted capacity will include any leased facilities or any facilities made available to the concern under an arrangement such as (but not limited to) an exchange agreement or a throughput, or other form, or processing agreement (whereby another party processes the concern's own crude or feedstocks). Such an arrangement would have the same effect as though such facilities had been leased, and this would have to be included in the concern's own capacity. The total product to be delivered in the performance of the contract must be at least 90 percent refined by the successful bidder from either crude oil or bona fide feedstocks.

[6] *SIC-3011:* For purposes of Government procurement, a firm is small for bidding on a contract for pneumatic tires within Census Classification Codes 30111 and 30112, provided that (1) the value of tires within Census Classification Codes 30111 and 30112 which it manufactured in the United States during the previous calendar year is more than 50 percent of the value of its total worldwide manufacture, (2) the value of pneumatic tires within Census Classification Codes 30111 and 30112 which it manufactured worldwide during the preceding calendar year was less than 5 percent of the value of all such tires manufactured in the United States during said period, and (3) the value of the principal products which it manufactured or otherwise produced, or sold worldwide during the preceding calendar year is less than 10 percent of the total value of such products manufactured or otherwise produced or sold in the United States during said period.

[7] *SIC-4212*: The Component "Garbage and Refuse, Collecting and Transporting, Without Disposal" shall have a size standard of $6.0 million. This is the same size standard as SIC-4953, Refuse Systems.

[8] *Offshore Marine Services (Major Groups 44 and 45):* The applicable size standard shall be $14 million for firms furnishing specific transportation services to concerns engaged in offshore oil and/or natural gas exploration, drilling production, or marine research; such services encompass passenger and freight transportation, anchor handling, and related logistical services to and from the work site or at sea.

[9] *SIC-4512, 4513, and 4522:* Includes passenger or cargo transportation requiring the use of one or more helicopters or fixed-wing aircraft. This does not include offshore marine transportation services as defined in footnote[8].

[10] *SIC-4724 and 6531:* As measured by total revenues, but excluding funds received in trust for an unaffiliated third party, such as bookings or sales subject to commissions. The commissions received would be included as revenue.

[11] *SIC-4953:* "Garbage and Refuse, Collecting and Transportation: Without Disposal," a component of SIC-4212, has the same size standard as SIC-4953.

[12] *SIC-5599*: For retail firms whose principal line of business is the retail sale of aircraft, a $5 million size standard shall apply.

[13] *Most industries in Division H*—Finance, Insurance, and Real Estate—are excluded from SBA assistance.

[14] *SIC-6021, 6022, 6029, 6035, 6036:* Millions of dollars, as measured by total assets.

[15] *Leasing of building space to the Federal Government by owners* — For the purpoce of Government procurement, a size standard of $10 million in gross receipts is established for owners of building space that is leased to the Federal Government. The standard for these procurements shall apply to the owner of the property and not to those acting as an agent for the owner. There is no size standard concerning the agent.

[16] For all industries not specifically listed in this division, the size standard is $3.5 million.

[17] *If one of the activities in base maintenance, as defined in SIC-8744*, can be identified with a separate industry, and that activity (or industry) accounts for 50 percent or more of the value of an entire contract, then the proper size standard shall be that for the particular industry, and not the base maintenance size standard.

"Base maintenance" constitutes three or more separate activities. The activities may be either service or special trade construction related activities. As services, these activities must each be in a separate industry. These activities may include, but are not limited to such separate maintenance activities as Janitorial and Custodial Service, Protective Guard Service, Commissary Service, Fire Prevention Service, the Safety Engineering Service, Messenger Service, and Grounds Maintenance and Landscaping Service. If the contract involves the use of special trade contractors (plumbing, painting, plastering, carpentering, etc.), all such specialized trade construction activities will be considered a single activity, which is Base Housing Maintenance. This is only one activity of base maintenance and two additional activities must be present for the contract to be considered base maintenance. The size standard for Base Housing Maintenance is $7 million, the same size standard as for Special Trade Contractors.

[18] *SIC-3728, 7699:* Contracts for this rebuilding or overhaul of aircraft ground support equipment on a contract basis will be classified under SIC-3728.

[19] *SIC-8731:* For research and development contracts requiring the delivery of a manufactured product, the appropriate size standard to use is that of the manufacturing industry in which the specific product is classified.

Research and development, as defined in the SIC Manual, means laboratory or other physical research and development on a contract or fee basis. Research and development for purposes of size determinations does not include the following: economic, educational, engineering, operations, systems, or other nonphysical research or computer programming, data processing, commercial and/or medical laboratory testing.

For purposes of the Small Business Innovation and Research (SBIR) program, SBA has adopted a different definition. See Part 121.7 of 13 CFR.

Research and development for guided missiles and space vehicles includes evaluation and simulation, and other services requiring thorough knowledge of complete missiles and spacecraft.

[20] *Facilities Management, a component of Facilities Support Management Services (SIC-8744), has the following definition:*

Establishments, not elsewhere classified, which provide overall management and the personnel to perform a variety of related support services in operating a complete facility in or around a specific building, or within another business or Government establishment. Facilities management means furnishing three or more personnel supply services which may include, but are not limited to secretarial services, typists, telephone answering, reproduction, or mimeograph service, mailing service, financial or business management, public relations, conference planning, travel arrangements, word processing, maintaining files and/or libraries, switchboard operation, writers, bookkeeping, minor office equipment maintenance and repair, use of information systems (not programming), etc.

[21] *SIC-4911:* Measured in millions of megawatt hours.

[48 FR 42240, Sept. 19, 1983 as amended 51 FR 2652, Jan. 17, 1986; 51 FR 27489, July 31, 1986; 51 FR 31426, Sept. 3, 1986; 52 FR 21887, June 9, 1987; 52 FR 30076, Aug. 12, 1987; 53 FR 661, Jan. 11, 1988; 53 FR 34227, Sept. 2, 1988; 53 FR 43390, Oct. 26, 1988, 54 FR 5055, Jan. 31, 1989, 54 FR 13023, Mar. 29, 1989, 54 FR 25062, June 12, 1989; 55 FR 3882, Feb. 5, 1990; 55 FR 25529, June 21, 1990]

Subpart 19.2—Policies

19.201 General policy.

(a) It is the policy of the Government to place a fair proportion of its acquisitions, including contracts and subcontracts for subsystems, assemblies, components, and related services for major systems, with small business concerns and small disadvantaged business concerns. Such concerns shall also have the maximum practicable opportunity to participate as subcontractors in the contracts awarded by any executive agency, consistent with efficient contract performance. The Small Business Administration (SBA) counsels and assists small business concerns and assists contracting personnel to ensure that a fair proportion of contracts for supplies and services is placed with small business.

(b) Heads of contracting activities are responsible for effectively implementing the Small Business and Small Disadvantaged Business Utilization Programs within their activities, including achieving program goals. They are to ensure that contracting and technical personnel maintain knowledge of small and small disadvantaged business program requirements and take all reasonable action to increase small business participation in their activities' contracting processes.

(c) The Small Business Act requires each agency with contracting authority to establish an Office of Small and Disadvantaged Business Utilization (see section (k) of the Small Business Act and 13 CFR 125.4(g)(7)). Management of the office shall be the responsibility of an officer or employee of the agency who shall, in carrying out the purposes of the Act—

(1) Be known as the Director of Small and Disadvantaged Business Utilization;

(2) Be appointed by the agency head;

(3) Be responsible to and report directly to the agency head or the deputy to the agency head;

(4) Be responsible for the agency carrying out the functions and duties in sections 8 and 15 of the Small Business Act;

(5) Assist small business concerns in obtaining payments under their contracts, late payment, interest penalties, or information on contractual payment provisions;

(6) Have supervisory authority over agency personnel to the extent that their functions and duties relate to sections 8 and 15 of the Small Business Act;

(7) Assign a small business technical advisor to each contracting activity within the agency to which the SBA has assigned a representative (see 19.402)—

(i) Who shall be a full-time employee of the contracting activity, well qualified, technically trained, and familiar with the supplies or services contracted for by the activity; and

(ii) Whose principal duty is to assist the SBA's assigned representative in performing functions and duties relating to sections 8 and 15 of the Small Business Act.

(8) Cooperate and consult on a regular basis with the SBA in carrying out the agency's functions and duties in sections 8 and 15 of the Small Business Act.

(9) Make recommendations in accord with agency regulations as to whether a particular acquisition should be awarded under subpart 19.5 as a set-aside (including those involving Labor Surplus Areas), under subpart 19.8 as a section 8(a) award, or under a procedure authorized by section 1207 of Pub. L. 99-661, if applicable.

(d) Small and Disadvantaged Business Utilization Specialists shall be appointed and act in accord with agency regulations.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 27562, July 3, 1985; 51 FR 27116, July 29, 1986; 54 FR 13333, Mar. 31, 1989; 54 FR 25062, June 12, 1989]

19.202 Specific policies.

In order to further the policy in 19.201(a), contracting officers shall comply with the specific policies listed below and shall consider recommendations of the agency Director of Small and Disadvantaged Business Utilization, or the Director's designee, as to whether a particular acquisition should be awarded under subparts 19.5, 19.8, or under a procedure authorized by section 1207 of Pub. L. 99-

661. The contracting officer shall document the contract file whenever the Director's recommendations are not accepted.

[54 FR 25062, June 12, 1989]

19.202–1 Encouraging small business participation in acquisitions.

Small business concerns shall be afforded an equitable opportunity to compete for all contracts that they can perform to the extent consistent with the Government's interest. When applicable, the contracting officer shall take the following actions:

(a) Divide proposed acquisitions of supplies and services (except construction) into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement.

(b) Plan acquisitions such that, if practicable, more than one small business concern may perform the work, if the work exceeds the amount for which a surety may be guaranteed by SBA against loss under 15 U.S.C. 694b.

(c) Ensure that delivery schedules are established on a realistic basis that will encourage small business participation to the extent consistent with the actual requirements of the Government.

(d) Encourage prime contractors to subcontract with small business concerns (see subpart 19.7).

19.202–2 Locating small business sources.

The contracting officer shall, to the extent practicable, encourage maximum participation by small business concerns, small disadvantaged business concerns, and women-owned small business concerns in acquisitions by taking the following actions:

(a) Include on mailing lists all established and potential small business sources, including those located in labor surplus areas, if the concerns have submitted acceptable applications or appear from other representations to be qualified small business concerns.

(b) Before issuing solicitations, make every reasonable effort to find additional small business concerns, unless lists are already excessively long and only some of the concerns on the list will be solicited. This effort should include contacting the agency SBA procurement center representative, or if there is none, the SBA.

(c) Publicize solicitations and contract awards in the "Commerce Business Daily" (see subparts 5.2 and 5.3).

19.202–3 Equal low bids.

In the event of equal low bids, awards shall be made first to small business concerns which are also labor surplus area concerns, and second to small business concerns which are not also labor surplus area concerns.

19.202–4 Solicitation.

The contracting officer shall encourage maximum response to solicitations by small business, small disadvantaged business concerns, and women-owned small business concerns by taking the following actions:

(a) Allow the maximum amount of time practicable for the submission of offers.

(b) Furnish specifications, plans, and drawings with solicitations, or furnish information as to where they may be obtained or examined.

(c) Send solicitations to (1) all small business concerns on the solicitation mailing list, or (2) a pro rata number of small business concerns when less than a complete list is used.

(d) Provide to any small business concern, upon its request, a copy of bid sets and specifications with respect to any contract to be let, the name and telephone number of an agency contact to answer questions related to such prospective contract and adequate citations to each major Federal law or agency rule with which such business concern must comply in performing such contract other than laws or agency rules with which the small business must comply when doing business with other than the Government.

19.202–5 Data collection and reporting requirements.

Agencies shall measure the extent of small business participation in their acquisition programs by taking the following actions:

(a) Require each prospective contractor to represent whether it is a small business, small disadvantaged business concern, or women-owned small business (see the provisions at 52.219-1, Small Business Concern Representation, 52.219-2, Small Disadvantaged Business Concern Representation, and 52.219-3, Women-Owned Small Business Representation).

(b) Accurately measure the extent of participation by small business concerns, small disadvantaged business concerns, and women-owned small businesses in Government acquisitions in terms of the total value of contracts placed with small business concerns during each fiscal year, and report data to the SBA at the end of each fiscal year (see subpart 4.6).

19.202-6 Determination of fair market price.

Agencies shall determine the fair market price of small business set-aside and 8(a) contracts as follows:

(a) For total and partial small business set-aside contracts, the fair market price shall be the price achieved in accordance with the reasonable price guidelines in 15.805-2.

(b) For 8(a) contracts, both with respect to meeting the requirement at 19.806(b) and in order to accurately estimate the current fair market price, contracting officers shall follow the procedures at 19.807.

[52 FR 38189, Oct. 14, 1987, as amended at 53 FR 43390, Oct. 26, 1988; 54 FR 46005, Oct. 31, 1989]

Subpart 19.3—Determination of Status as a Small Business Concern

19.301 Representation by the offeror.

(a) To be eligible for award as a small business, an offeror must represent in good faith that it is a small business at the time of written self certification. An offeror may represent that it is a small business concern in connection with a specific solicitation if it meets the definition of a small business concern applicable to the solicitation and has not been determined by the Small Business Administration (SBA) to be other than a small business.

(b) The contracting officer shall accept an offeror's representation in a specific bid or proposal that it is a small business unless (1) another offeror or interested party challenges the concern's small business representation or (2) the contracting officer has a reason to question the representation. Challenges of and questions concerning a specific representation shall be referred to the SBA in accordance with 19.302.

(c) An offeror's representation that it is a small business is not binding on the SBA. If an offeror's small business status is challenged, the SBA will evaluate the status of the concern and make a determination, which will be binding on the contracting officer, as to whether the offeror is a small business. A concern cannot become eligible for a specific award by taking action to meet the definition of a small business concern after the SBA has determined that it is not a small business.

(d) If the SBA determines that the status of a concern as a *small business* or a *small disadvantaged business* has been misrepresented in order to obtain a set-aside contract, an 8(a) subcontract, a subcontract that is to be included as part or all of a goal contained in a subcontracting plan, or a prime or subcontract to be awarded as a result, or in furtherance of any other provision of Federal law that specifically references section 8(d) of the Small Business Act for a definition of program eligibility, the SBA may take action as specified in section 16(d) of the Act. If the SBA declines to take action, the agency may initiate the process. The SBA's regulations on penalties for misrepresentations and false statements are contained in 13 CFR 124.6.

[48 FR 42240, Sept. 19, 1983, as amended at 55 FR 3882, Feb. 5, 1990]

19.302 Protesting a small business representation.

(a) Any offeror or other interested party may protest the small business representation of an offeror in a specific offer.

(b) Any time after offers are opened, the contracting officer may question the small business representation of any offeror in a specific offer by filing a contracting officer's protest (see paragraph (c) below).

(c) (1) Any contracting officer who receives a protest, whether timely or not, or who, as the contracting officer, wishes to protest the small business representation of an offeror, shall promptly forward the protest to the SBA Regional Office for the geographical area where the principal office of the concern in question is located.

(2) The protest, or confirmation if the protest was initiated orally, shall be in writing and shall contain the basis for the protest with specific, detailed evidence to support the allegation that the offeror is not small. The SBA will dismiss any protest that does not contain specific grounds for the protest.

(d) In order to affect a specific solicitation, a protest must be timely. SBA's regulations on timeliness are contained in 13 CFR 121.9.

(1) To be timely, a protest by any concern or other interested party must be received by the contracting officer (see (i) and (ii) below) by the close of business of the 5th business day after bid opening (in sealed bid acquisitions) or receipt of the special notification from the contracting officer that identifies the apparently successful offeror (in negotiated acquisitions) (see 15.1001(b)(2)).

(i) A protest may be made orally if it is confirmed in writing either within the 5-day period or by letter postmarked no later than 1 day after the oral protest.

(ii) A protest may be made in writing if it is delivered to the contracting officer by hand, telegram, or letter within the 5-day period.

(2) A contracting officer's protest is always considered timely whether filed before or after award.

(3) A protest under a Multiple Award Schedule will be timely if received by SBA at any time prior to the expiration of the contract period, including renewals.

(e) Upon receipt of a protest from or forwarded by the Contracting Office, the SBA will—

(1) Notify the contracting officer and the protestant of the date it was received, and that the size of the concern being challenged is under consideration by the SBA; and

(2) Furnish to the concern whose representation is being protested a copy of the protest and a blank SBA Form 355, Application for Small Business Determination, by certified mail, return receipt requested.

(f) Within 3 business days after receiving a copy of the protest and the form, the challenged offeror must file with the SBA a completed SBA Form 355 and a statement answering the allegations in the protest, and furnish evidence to support its position. If the offeror does not submit the required material within the 3 business days or another period of time granted by the SBA, the SBA may assume that the disclosure would be contrary to the offeror's interests.

(g) (1) Within 10 business days after receiving a protest, the challenged offeror's response, and other pertinent information, the SBA will determine the size status of the challenged concern and notify the contracting officer, the protestant, and the challenged offeror of its decision by certified mail, return receipt requested.

(2) The SBA Regional Administrator will determine the small business status of the questioned bidder or offeror and notify the contracting officer and the bidder or offeror of the determination. Award may be made on the basis of that determination. This determination is final unless it is appealed in accordance with paragraph (i) below, and the contracting officer is notified of the appeal before award. If an award was made before the time the contracting officer received notice of the appeal, the contract shall be presumed to be valid.

(h) (1) After receiving a protest involving an offeror being considered for award, the contracting officer shall not award the contract until (i) the SBA has made a size determination or (ii) 10 business days have expired since SBA's receipt of a protest, whichever occurs first; however, award shall not be withheld when the contracting officer determines in writing that an award must be made to protect the public interest.

(2) After the 10-day period has expired, the contracting officer may,

when practical, continue to withhold award until the SBA's determination is received, unless further delay would be disadvantageous to the Government.

(3) Whenever an award is made before the receipt of SBA's size determination, the contracting officer shall notify SBA that the award has been made.

(4) If a protest is received that challenges the small business status of an offeror not being considered for award, the contracting officer is not required to suspend contracting action. The contracting officer shall forward the protest to the SBA (see 19.302(c)(1)) with a notation that the concern is not being considered for award, and shall notify the protestant of this action.

(i) An appeal from an SBA size determination may be filed by (1) any concern or other interested party whose protest of the small business representation of another concern has been denied by an SBA Regional Administrator, (2) any concern or other interested party that has been adversely affected by a Regional Administrator's decision, or (3) the SBA Associate Administrator for the SBA program involved. The appeal must be filed with the Office of Hearings and Appeals, Small Business Administration, Washington, DC 20416, within the time limits and in strict accordance with the procedures contained in 13 CFR 121.11. The SBA will inform the contracting officer of its ruling on the appeal. The SBA decision, if received before award, will apply to the pending acquisition. SBA rulings received after award shall not apply to that acquisition.

(j) A protest which is not timely, even though received before award, shall be forwarded to the Small Business Administration regional office (see 19.302(c)(1) above), with a notation on it that the protest is not timely. The protestant shall be notified that the protest cannot be considered on the instant acquisition but has been referred to SBA for its consideration in any future actions. A protest received by a contracting officer after award of a contract shall be forwarded to the Small Business Administration regional office with a notation that award has been made. The protestant shall be notified that the award has been made and that the protest has been forwarded to SBA for its consideration in future actions.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52426, Dec. 23, 1985; 51 FR 2664, Jan. 17, 1986]

19.303 Determining product or service classifications.

(a) The contracting officer shall determine the appropriate product or service classification and related small business size standard and include them in solicitations, except when small purchase procedures are used.

(b) If different products or services are required in the same solicitation, the solicitation shall identify the appropriate small business size standard for each product or service.

(c) The contracting officer's determination is final unless appealed as provided below.

(1) If the solicitation period is longer than 30 days, the appeal must be filed not less than 10 business days before the bid opening or proposal submission date. If the solicitation period is 30 days or is shorter than 30 days, the appeal must be filed not less than 5 business days before the bid opening or proposal submission date.

(2) The appeal shall be in writing and shall be addressed to the Office of Hearings and Appeals, Small Business Administration, Washington, DC 20416. No particular form is prescribed for the appeal. However, time limits and procedures set forth in SBA's regulations at 13 CFR 121.11 are strictly enforced. The appellant shall submit an original and one legible copy of the appeal. In the case of telegraphic appeals, the telegraphic notice shall be confirmed by the next day mailing of a written appeal, in duplicate. The written appeal must contain the following certification: "I have read this document and, under penalty of perjury and the sanctions imposed under 18 U.S.C. 1001, of which I am aware, I certify that, to the best of my knowledge, the statements made therein are true and correct, and that this document is not being filed for the purpose

of delay or harassment." The appeal shall include—

(i) The substance and date of the determination being appealed;

(ii) The number and date of the solicitation, and the name, address, and telephone number of the contracting officer;

(iii) The reasons why the contracting officer's determination is alleged to be erroneous;

(iv) Documentary evidence to support the allegation; and

(v) The name, address, and telephone number of the appellant; and

(vi) A statement certifying that copies of the appeal have been provided the contracting officer.

(3) The Office of Hearings and Appeals will notify the contracting officer of the date it received the appeal and the docket number assigned. The contracting officer's response, if any, to the appeal must include appropriate argument and evidence, must include the certification in paragraph (c)(2) above, and must be filed with the Office of Hearings and Appeals no later than 5 business days after receipt of the appeal. The Office of Hearings and Appeals, if possible, will inform the contracting officer of its ruling on the appeal before the end of the solicitation period. SBA rulings received after the due date shall not apply to the pending acquisition, but shall apply to future acquisitions of the product or service.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986; 55 FR 38516, Sept. 18, 1990]

19.304 Solicitation provisions.

(a) The contracting officer shall insert the provision at 52.219-1, Small Business Concern Representation, in solicitations when the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia.

(b) The contracting officer shall insert the provision at 52.219-2, Small Disadvantaged Business Concern Representation, in solicitations (other than those for small purchases), when the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia.

(c) The contracting officer shall insert the provision at 52.219-3, Women-Owned Small Business Representation, in solicitations (other than those for small purchases), when the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia.

Subpart 19.4—Cooperation With the Small Business Administration

19.401 General.

(a) The Small Business Act is the authority under which the Small Business Administration (SBA) and agencies consult and cooperate with each other in formulating policies to ensure that small business and small disadvantaged business interests will be recognized and protected.

(b) The Director of Small and Disadvantaged Business Utilization serves as the agency focal point for interfacing with SBA.

19.402 Small Business Administration procurement center representatives.

(a) The SBA may assign one or more procurement center representatives to any contracting activity or contract administration office to carry out SBA policies and programs. Assigned SBA procurement center representatives are required to comply with the contracting agency's directives governing the conduct of contracting personnel and the release of contract information. The SBA must obtain for its procurement center representatives security clearances required by the contracting agency.

(b) Upon their request and subject to applicable acquisition and security regulations, contracting officers shall give SBA procurement center representatives access to all reasonably obtainable contract information that is directly pertinent to their official duties.

(c) The duties assigned by SBA to its procurement center representatives include the following:

(1) Reviewing proposed acquisitions to recommend (i) the setting aside of selected acquisitions not unilaterally set aside by the contracting officer, (ii) new qualified small and small disadvantaged business sources, and (iii) breakout of components for competitive acquisitions.

(2) Recommending concerns for inclusion on solicitation mailing lists or on a list of concerns to be solicited in a specific acquisition.

(3) Appealing to the chief of the contracting office any contracting officer's determination not to solicit a concern recommended by the SBA for a particular acquisition, when not doing so results in no small business being solicited.

(4) Conducting periodic reviews of the contracting activity to which assigned to ascertain whether it is complying with the small business policies in this regulation.

(5) Sponsoring and participating in conferences and training designed to increase small business participation in the contracting activities of the office.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 19715, May 30, 1986]

19.403 Small Business Administration breakout procurement center representatives.

(a) The SBA is required by section 403 of Pub. L. 98-577 to assign a breakout procurement center representative to each major procurement center. A major procurement center means a procurement center that, in the opinion of the administrator, purchases substantial dollar amounts of other than commercial items, and which has the potential to incur significant savings as a result of the placement of a breakout procurement representative. The SBA breakout procurement center representative is an advocate for (1) the appropriate use of full and open competition, and (2) the breakout of items, when appropriate and while maintaining the integrity of the system in which such items are used. The SBA breakout procurement center representative is in addition to the SBA procurement center representative (see 19.402). When an SBA breakout procurement center representative is assigned, the SBA is required to assign at least two collocated small business technical advisors. Assigned SBA breakout procurement center representatives and technical advisors are required to comply with the contracting agency's directives governing the conduct of contracting personnel and the release of contract information. The SBA must obtain for its breakout procurement center representatives and technical advisors security clearances required by the contracting agency.

(b) Contracting officers shall comply with 19.402(b) in their relationships with SBA breakout procurement center representatives and SBA small business technical advisors.

(c) The SBA breakout procurement center representative is authorized to—

(1) Attend any provisioning conference or similar evaluation session during which determinations are made as to whether requirements are to be acquired using other than full and open competition and make recommendations with respect to such requirements to the members of such conference or session;

(2) Review, at any time, restrictions on competition previously imposed on items through acquisition method coding or similar procedures and recommend to personnel of the appropriate activity the prompt reevaluation of such limitations;

(3) Review restrictions on competition arising out of restrictions on the rights of the United States in technical data and, when appropriate, recommend that personnel of the appropriate activity initiate a review of the validity of such an asserted restriction;

(4) Obtain from any governmental source, and make available to personnel of the appropriate center, technical data necessary for the preparation of a competitive solicitation package for any item of supply or service previously acquired noncompetitively due to the unavailability of such technical data;

(5) Have access to procurement records and other data of the procurement center commensurate with the level of such representative's approved security clearance classification;

(6) Receive unsolicited engineering proposals and, when appropriate—

(i) Conduct a value analysis of such proposal to determine whether it, if adopted, will result in lower costs to the United States without substantially impeding legitimate acquisition objectives and forward to personnel of the appropriate center recommendations with respect to such proposal; or

(ii) Forward such proposals without analysis to personnel of the center responsible for reviewing them who shall furnish the breakout procurement center representative with information regarding the proposal's disposition;

(7) Review the systems that account for the acquisition and management of technical data within the procurement center to ensure that such systems provide the maximum availability and access to data needed for the preparation of offers to sell to the United States those supplies to which such data pertain which potential offerors are entitled to receive;

(8) Appeal the failure by the procurement center to act favorably on any recommendation made pursuant to subparagraphs (c) (1) through (7) of this section. Such appeal must be in writing and shall be filed and processed in accordance with the appeal procedures set out in 19.505;

(9) Conduct familiarization sessions for contracting officers and other appropriate personnel of the procurement center to which assigned. Such sessions shall acquaint the participants with the duties and objectives of the representative and shall instruct them in the methods designed to further the breakout of items for procurement through full and open competition; and

(10) Prepare and personally deliver an annual briefing and report to the head of the procurement center to which assigned. Such briefing and report shall detail the past and planned activities of the representative and shall contain recommendations for improvement in the operation of the center as may be appropriate. The head of such center shall personally receive the briefing and report and shall, within 60 calendar days after receipt, respond, in writing, to each recommendation made by the representative.

(d) The duties of the SBA small business technical advisors are to assist the SBA breakout procurement center representative in carrying out the activities described in (c) (1) through (7) of this section and to assist the SBA procurement center representatives (see FAR 19.402).

[51 FR 19715, May 30, 1986, as amended at 54 FR 25062, June 12, 1989]

Subpart 19.5—Set-Asides for Small Business

19.501 General.

(a) The purpose of small business set-asides is to award certain acquisitions exclusively to small business concerns. A "set-aside for small business" is the reserving of an acquisition exclusively for participation by small business concerns. A set-aside may be open to all small businesses or, except for the Department of Defense, restricted to small businesses located in labor surplus areas. A set-aside of a single acquisition or a class of acquisitions may be total or partial.

(b) The determination to make a set-aside may be unilateral or joint. A unilateral determination is one which is made by the contracting officer. A joint determination is one which is recommended by the Small Business Administration (SBA) procurement center representative and concurred in by the contracting officer.

(c) The contracting officer shall review acquisitions to determine if they can be set aside for small business, giving consideration to the recommendations of agency personnel having cognizance of the agency's small and disadvantaged business utilization program and documenting why a set-aside is inappropriate when the acquisition is not set aside. If the acquisition is set aside based on this review, it is a unilateral set-aside by the contracting officer. Agencies may establish threshold levels for this review depending upon their needs. In automated contracting systems, all proposed acquisitions which are not small business-small purchase set-asides will be considered for small business set-asides in accordance with 19.502-2. If necessary, the screening for set-asides will be accomplished before entering such requirements into the system.

(d) At the request of an SBA procurement center representative, the contracting officer shall make available for review at the contracting office (to the extent of the SBA representative's security clearance) all proposed acquisitions in excess of $10,000 that have not been unilaterally set aside for small business.

(e) To the extent practicable, unilateral determinations initiated by a contracting officer shall be used as the basis for small business set-asides rather than joint determinations by an SBA procurement center representative and a contracting officer.

(f) (1) Consistent with the requirements of Pub. L. 95-507, a special category of set-asides, identified as small business-small purchase set-asides, has been established for acquisitions of supplies or services that have an anticipated dollar value of $25,000 or less and are subject to small purchase procedures (see 13.105 and 19.508).

(2) A small nonmanufacturer responding to a small business-small purchase set-aside may furnish any domestically produced or manufactured product.

(g) Once a product or service has been acquired successfully by a contracting office on the basis of a small business set-aside, all future requirements of that office for that particular product or service not subject to simplified small purchase procedures shall, if required by agency regulations, be acquired on the basis of a repetitive set-aside. This procedure will be followed unless the contracting officer determines that there is not a reasonable expectation that (1) offers will be obtained from at least two responsible small business concerns offering the products of different small business concerns and (2) Awards will be made at fair market prices. Withdrawal of a repetitive set-aside will be in accordance with 19.506.

(h) If a proposed small business set-aside is estimated to exceed $1,000,000 in value and a bond is required, the contracting officer shall, to the extent practicable, divide requirements so as to allow more than one concern to perform the work.

(i) All solicitations involving set-asides must specify the applicable small business size standard and product classification (see 19.303).

(j) Except as authorized by law, a contract may not be awarded as a result of a set-aside if the cost to the awarding agency exceeds the fair market price.

(k) Section 133 of Pub. L. 100-590 authorizes public and private organizations for the handicapped to participate for fiscal years 1989 through 1993 in acquisitions set-aside for small business concerns. An interested party may file a protest of an organization's status within 5 days after announcement of an award. Within 10 days after announcement of an award to an organization for the handicapped, any small business concern which experiences or is likely to experience severe economic injury as a result of the award may file an appeal of the award. Such protests and appeals shall be filed with the Associate Administrator for Procurement Assistance, Small Business Administration, whose decision will be final, with a copy to the contracting officer. After receipt of notice of a protest or appeal, the contracting officer shall not award the contract until (1) SBA has made a decision or (2) 10 business days have expired since receipt of the protest or appeal, whichever occurs first; however, award shall not be withheld when the contracting officer determines in writing that an award must be made to protect the public interest.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2664, Jan. 17, 1986; 52 FR 21902, June 9, 1987; 52 FR 38189, Oct. 14, 1987; 53 FR 17858, May 18, 1988; 53 FR 43390, Oct. 26, 1988; 54 FR 25063, June 11, 1988]

19.502 Setting aside acquisitions.

19.502-1 Requirements for setting aside acquisitions.

Using the order of precedence in 19.504, the contracting officer shall set aside an individual acquisition or class of acquisitions when it is determined to be in the interest of

(a) Maintaining or mobilizing the Nation's full productive capacity,

(b) War or national defense programs, or

(c) Assuring that a fair proportion of Government contracts in each industry category is placed with small business concerns, and when the circumstances described in 19.502-2 or 19.502-3(a) exist.

[48 FR 42240, Sept. 19, 1983, as amended at 52 FR 38189, Oct. 14, 1987]

19.502-2 Total set-asides.

(a) The entire amount of an individual acquisition or class of acquisitions, including contracts for architect-engineer services, research, development, test and evaluation, maintenance repair, and construction except small business-small purchase set-asides, shall be set aside for exclusive small business participation if the contracting officer determines that there is a reasonable expectation that (1) offers will be obtained from at least two responsible small business concerns offering the products of different small business concerns (but see paragraph (b) of this subsection); and (2) awards will be made at fair market prices. Total set-asides shall not be made unless such a reasonable expectation exists (but see 19.502-3 as to partial set asides). Although past acquisition history of the item or similar items is always important, it is not the only factor to be considered in determining whether a reasonable expectation exists. In making R&D small business set-asides, there must also be a reasonable expectation of obtaining from small business the best scientific and technological sources consistent with the demands of the proposed acquisition for the best mix of cost, performances, and schedules.

(b) In industries where the SBA finds that there are no small business manufacturers, it may waive the nonmanufacturers rule for regular dealers (see 19.102(f)(5)). This would permit small business regular dealers to provide any domestically produced product. In these cases, the contracting officer's determination in subparagraph (a)(1) of this subsection will be based on offers from at least two responsible small business regular dealers offering the products of different domestic concerns.

[48 FR 42240, Sept. 19, 1983, as amended at 53 FR 43390, Oct. 26, 1988; 54 FR 25063, June 12, 1989; 55 FR 25525, June 21, 1990]

19.502-3 Partial set-asides.

(a) The contracting officer shall set aside a portion of an acquisition, except for construction, for exclusive small business participation when—

(1) A total set-aside is not appropriate (see 19.502-2);

(2) The requirement is severable into two or more economic production runs or reasonable lots;

(3) One or more small business concerns are expected to have the technical competence and productive capacity to satisfy the set-aside portion of the requirement at a fair market price;

(4) The acquisition is not subject to small purchase procedures; and

(5) A partial set-aside shall not be made if there is a reasonable expectation that only two concerns (one large and one small) with capability will respond with offers unless authorized by the head of a contracting activity on a case-by-case basis. Similarly, a class of acquisitions, not including construction, may be partially set aside. Under certain specified conditions, partial set-asides may be used in conjunction with multiyear contracting procedures.

(b) When the contracting officer determines that a portion of an acquisition is to be set aside, the requirement shall be divided into a set-aside portion and a non-set-aside portion, each of which shall (1) be an economic production run or reasonable lot and (2) have terms and a delivery schedule comparable to the other. When practicable, the set-aside portion should make maximum use of small business capacity.

(c) (1) The contracting officer shall award the non-set-aside portion using normal contracting procedures.

(2) (i) After all awards have been made on the non-set-aside portion, the contracting officer shall negotiate with eligible concerns on the set-aside portion, as provided in the solicitation,

and make award. Negotiations shall be conducted only with those offerors who have submitted responsive offers on the non-set-aside portion. Negotiations shall be conducted with small business concerns in the order of priority as indicated in the solicitation (but see (ii) below). The set-aside portion shall be awarded as provided in the solicitation. An offeror entitled to receive the award for quantities of an item under the non-set-aside portion and who accepts the award of additional quantities under the set-aside protion shall not be requested to accept a lower price because of the increased quantities of the award, nor shall negotiation be conducted with a view to obtaining such a lower price based solely upon receipt of award of both portions of the acquisition. This does not prevent acceptance by the contracting officer of voluntary reductions in the price from the low eligible offeror before award, acceptance of voluntary refunds, or the change of prices after award by negotiation of a contract modification.

(ii) If equal low offers are received on the non-set-aside portion from concerns eligible for the set-aside portion, the concern that is awarded the non-set-aside part of the acquisition shall have first priority with respect to negotiations for the set-aside.

[48 FR 42240, Sept. 19, 1989, as amended at 53 FR 43390, Oct. 26, 1988]

19.502-4 Methods of conducting set-asides.

(a) Total and partial small business set-asides may be conducted by using sealed bids (see part 14) or competitive proposals (see part 15). (See part 6 for competition requirements.)

(b) Except for offers on the non-set-aside portion of partial set-asides, offers received from concerns that do not qualify as small business concerns shall be considered nonresponsive and shall be rejected.

[50 FR 1743, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985]

19.502-5 Insufficient causes for not setting aside an acquisition.

None of the following is, in itself, sufficient cause for not setting aside an acquisition:

(a) A large percentage of previous contracts for the required item(s) has been placed with small business concerns.

(b) The item is on an established planning list under the Industrial Readiness Planning Program. However, a total set-aside shall not be made when the list contains a large business Planned Emergency Producer of the item(s) who has conveyed a desire to supply some or all of the required items.

(c) The item is on a Qualified Products List. However, a total set-aside shall not be made if the list contains the products of large business unless none of the large businesses desires to participate in the acquisition.

(d) A period of less than 30 days is available for receipt of offers.

(e) The contract is classified.

(f) Small business concerns are already receiving a fair proportion of the agency's contracts for supplies and services.

(g) A class set-aside of the item or service has been made by another contracting activity.

(h) A "brand name or equal" product description will be used in the solicitation.

19.503 Setting aside a class of acquisitions.

(a) A class of acquisitions of selected products or services, or a portion of the acquisitions, may be set aside for exclusive participation by small business concerns if individual acquisitions in the class will meet the criteria in 19.502-1, 19.502-2, or 19.502-3(a). The determination to make a class set-aside shall not depend on the existence of a current acquisition if future acquisitions can be clearly foreseen.

(b) The determination to set aside a class of acquisitions may be either unilateral or joint.

(c) Each class set-aside determination shall be in writing and must—

(1) Specifically identify the product(s) and service(s) it covers;

(2) Provide that the set-aside does not apply to any acquisition accomplished using small purchase procedures;

(3) Provide that the set-aside applies only to the (named) contracting office(s) making the determination; and

(4) Provide that the set-aside does not apply to any individual acquisition if the requirement is not severable into two or more economic production runs or reasonable lots, in the case of a partial class set-aside.

(d) The contracting officer shall review each individual acquisition arising under a class set-aside to identify any changes in the magnitude of requirements, specifications, delivery requirements, or competitive market conditions that have occurred since the initial approval of the class set-aside. If there are any changes of such a material nature as to result in probable payment of more than a fair market price by the Government or in a change in the capability of small business concerns to satisfy the requirements, the contracting officer may withdraw or modify (see 19.506(a)) the unilateral or joint set-aside by giving written notice to the SBA procurement center representative (if one is assigned), stating the reasons.

[48 FR 42240, Sept. 19, 1983, as amended at 53 FR 43390, Oct. 26, 1988]

19.504 Set-aside program order of precedence.

(a) In carrying out small business set-aside programs, contracting officers of agencies other than the Department of Defense (DOD) shall award contracts and encourage placement of subcontracts in the following order of precedence (see 15 U.S.C. 644(e) and (f) and Pub. L. 96-302):

(1) A total set-aside for small business concerns located in labor surplus areas.

(2) A total set-aside for small business concerns.

(3) A partial set-aside for small business concerns located in labor surplus areas.

(4) A partial set-aside for small business concerns.

(5) Total labor surplus area set-aside for concerns that are not small businesses.

(b) Set-aside priorities of DOD are different from the above and are set forth in the DOD FAR Supplement.

19.505 Rejecting Small Business Administration recommendations.

(a) If the contracting officer rejects a recommendation of the SBA procurement center representative or breakout procurement center representative, written notice shall be furnished to the appropriate SBA center representative within 5 business days of the contracting officer's receipt of the recommendation.

(b) The SBA procurement center representative may appeal the contracting officer's rejection to the head of the contracting activity (or designee) within 2 business days after receiving the notice. The head of the contracting activity (or designee) shall render a decision in writing, and provide it to the SBA representative within 7 business days. Pending issuing the decision to the SBA procurement center representative, the contracting officer shall suspend action on the acquisition.

(c) If the head of the contracting activity agrees that the contracting officer's rejection was appropriate, the SBA procurement center representative may—

(1) Within 1 business day, request the contracting officer to suspend action on the acquisition until the SBA Administrator appeals to the agency head (see paragraph (f) below); and

(2) The SBA shall be allowed 15 business days after making such a written request, within which the Administrator of SBA (i) may appeal to the Secretary of the Department concerned, and (ii) shall notify the contracting officer whether the further appeal has, in fact, been taken. If notification is not received by the contracting officer within the 15-day period, it shall be deemed that the SBA request to suspend contracting action has been withdrawn and that an appeal to the Secretary was not taken.

(d) When the contracting officer has been notified within the 15-day period that the SBA has appealed to the agency head, the head of the contracting activity (or designee) shall forward justification for its decision to the agency head. The contracting officer shall suspend contract action until notification is received that the SBA appeal has been settled.

(e) The agency head shall reply to the SBA within 30 business days after receiving the appeal. The decision of the agency head shall be final.

(f) A request to suspend action on an acquisition need not be honored if the contracting officer determines that proceeding to contract award and performance is in the public interest. The contracting officer shall include in the contract file a statement of the facts justifying the determination, and shall promptly notify the SBA representative of the determination and provide a copy of the justification.

[48 FR 42240, Sept. 19, 1983, as amended at 54 FR 25063, June 12, 1989]

19.506 Withdrawing or modifying set-asides.

(a) If, before award of a contract involving a set-aside for small business, the contracting officer considers that award to a small business concern would be detrimental to the public interest (e.g., payment of more than a fair market price), the contracting officer may withdraw the set-aside determination whether it was unilateral or joint. The contracting officer shall initiate a withdrawal of an individual set-aside by giving written notice to the agency small and disadvantaged business utilization specialist and the SBA procurement center representative, if one is assigned, stating the reasons. In a similar manner, the contracting officer may modify a unilateral or joint class set-aside to withdraw one or more individual acquisitions.

(b) If the agency small and disadvantaged business utilization representative does not agree to a withdrawal or modification, the case shall be promptly referred to the SBA representative (if one is assigned) for review. If an SBA representative is not assigned, disagreements between the agency small and disadvantaged business utilization representative and the contracting officer shall be resolved using agency procedures. However, the procedures are not applicable to automatic dissolutions of set-asides (see 19.507) or dissolution of small business-small purchase set-asides (see 13.105).

(c) The contracting officer shall prepare a written statement supporting any withdrawal or modification of a set-aside and include it in the contract file.

[48 FR 42240, Sept. 19, 1939, as amended at 53 FR 43390, Oct. 26, 1988]

19.507 Automatic dissolution of a set-aside.

(a) If a set-aside acquisition or portion of an acquisition is not awarded, the unilateral or joint determination to set the acquisition aside is automatically dissolved for the unawarded portion of the set-aside. The required supplies and/or services for which no award was made may be acquired by sealed bidding or negotiation, as appropriate.

(b) Before issuing a solicitation for the items called for in a small business set-aside that was dissolved, the contracting officer shall ensure that the delivery schedule is realistic in the light of all relevant factors, including the capabilities of small business concerns.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

19.508 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the provision at 52.219-4, Notice of Small Business-Small Purchase Set-Aside, in each written solicitation of quotations or offers to provide supplies and/or services when (1) the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, or the Trust Territory of the Pacific Islands, (2) the contract amount is expected to be $25,000 or less, and (3) the acquisition is subject to small purchase procedures, unless purchase on an unrestricted basis is appropriate, as specified in 13.105(d).

(b) (This paragraph (b) does not apply to DOD.) The contracting officer shall insert the clause at 52.219-5, Notice of Total Small Business-Labor

Surplus Area Set-Aside, in solicitations and contracts involving total small business-labor surplus area set-asides (see 19.504(a)(1)). The clause at 52.219-5 with its Alternate I will be used when the acquisition is for a product in a class for which the Small Business Administration hs determined that there are not small business manufacturers in the Federal market in accordance with 19.502-2(b).

(c) The contracting officer shall insert the clause at 52.219-6, Notice of Total Small Business Set-Aside, in solicitations and contracts involving total small business set-asides (see 19.504(a)(2)). The clause at 52.219-6 with its Alternate I will be used when the acquisition is for a product in a class for which the Small Business Administration has determined that there are not small business manufacturers in the Federal market in accordance with 19.502-2(b).

(d) The contracting officer shall insert the clause at 52.219-7, Notice of Partial Small Business Set-Aside, in solicitations and contracts involving partial small business set-asides (see 19.504(a)(4)). The clause at 52.219-7 with its Alternate I will be used when the acquisition is for a product in a class for which the Small Business Administration has determined that there are not small business manufacturers in the Federal market in accordance with 19.502-2(b).

(e) The contracting officer shall insert the clause at 52.219-14, Limitations on Subcontracting, in solicitations and contracts for supplies, services, and construction, if any portion of the requirement is to be set aside for small business or if the contract is to be awarded under subpart 19.8, except those awarded using small purchase procedures in part 13.

(f) The contracting officer shall insert the clause at 52.219-15, Notice of Participation by Organizations for the Handicapped, in solicitations and contracts issued through September 30, 1993, involving total or partial small business set-asides.

[48 FR 42240, June 9, 1987, as amended at 52 FR 21902, June 9, 1987; 52 FR 38189, Oct. 14, 1987; 53 FR 27464, July 20, 1988; 53 FR 43390, Oct. 26, 1988; 54 FR 25063, June 12, 1989; 55 FR 25529, June 21, 1990; 55 FR 38516, Sept. 18, 1990]

Subpart 19.6—Certificates of Competency and Determinations of Eligibility

19.601 General.

(a) A Certificate of Competency is the certificate issued by the Small Business Administration (SBA) stating that the holder is responsible (with respect to all elements of responsibility, including but not limited to capability, competency, capacity, credit, integrity, perseverance, and tenacity) for the purpose of receiving and performing a specific Government contract.

(b) The COC program empowers the Small Business Administration (SBA) to certify to Government contracting officers as to all elements of responsibility of any small business concern to receive and perform a specific Government contract. The COC program does not extend to questions concerning regulatory requirements imposed and enforced by other Federal agencies.

(c) Under this program, SBA may certify to Government contracting officers that an otherwise qualified small business concern is an eligible Government contractor under the Walsh-Healey Public Contracts Act. Requirements of the Walsh-Healey Public Contracts Act are covered in subpart 22.6. For information regarding the contracting officer's responsibility to determine that a contractor is eligible or ineligible, see 22.608-2(f)(3).

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986; 54 FR 34754, Aug. 21, 1989]

19.602 Procedures.

19.602-1 Referral.

(a) Upon determining and documenting that a responsive small business lacks certain elements of responsibility (including, but not limited to, competency, capability, capacity, credit, integrity, perseverance, and tenacity), the contracting officer shall—

(1) Withhold contract award (see 19.602-3); and

(2) Refer the matter to the cognizant SBA Regional Office in accord-

ance with agency procedures, except that referral is not necessary if the small business concern—

(i) Is determined to be unqualified and ineligible because it does not meet the standard in 9.104-1(g); *provided*, that the determination is approved by the chief of the contracting office; or

(ii) Is suspended or debarred under Executive Order 11246 or subpart 9.4.

(b) If a partial set-aside is involved, the contracting officer shall refer to the SBA the entire quantity to which the concern may be entitled, if responsible.

(c) The referral shall consist of—

(1) A notice that a small business concern has been determined to be nonresponsible, specifying the elements of responsibility the contracting officer found lacking; and

(2) If applicable, a copy of the solicitation, drawings and specifications, preaward survey findings, pertinent technical and financial information, abstract of bids (if available) and any other pertinent information that supports the contracting officer's determination.

(d) For any single acquisition, the contracting officer shall make only one referral at a time regarding a determination of nonresponsibility.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 27489, July 31, 1986]

19.602-2 Issuing or denying a certificate of competency (COC).

(a) Within 15 business days (or a longer period agreed to by the SBA and the contracting agency) after receiving a notice that a small business concern lacks certain elements of responsibility, the SBA will take the following actions:

(1) Inform the small business concern of the contracting officer's determination and offer it an opportunity to apply to the SBA for a certificate of competency (COC). (A concern wishing to apply for a COC should notify the SBA Regional Office for the geographical area where it is located.)

(2) Upon timely receipt of the application and required documentation, send an SBA team to visit the concern to investigate it only for the specific elements of responsibility that the agency notice specified as lacking, and to make recommendations to the SBA Regional Administrator.

(3) If the Regional Administrator plans to issue or recommend issuance of a COC, provide advance notice of the proposed action to the contracting officer together with a brief statement of the reasons for it. If the contracting officer disagrees with the proposal, resolve the disagreement as provided in 19.602-3.

(b) The SBA Regional Administrator will—

(1) Notify the concern and the contracting officer that the COC is denied;

(2) If the contract is for $500,000 or less, issue the COC; or

(3) If the contract is for more than $500,000 forward a recommendation to the SBA Central Office that a COC be issued.

(c) Upon receipt of a recommendation from the Regional Administrator to issue a COC, the SBA Central Office may—

(1) Notify the concern and the contracting officer that the COC is denied; or

(2) Send the COC to the contracting officer and advise the concern, through the Regional Office, of the action.

19.602-3 Resolving differences between the agency and the Small Business Administration.

(a) When disagreements arise about a concern's ability to perform, the contracting officer and the SBA shall make every effort to reach a resolution before the SBA takes final action on a COC. This shall be done through the complete exchange of information and in accordance with agency procedures. If agreement cannot be reached between the contracting officer and the SBA Regional Office, the contracting officer shall request that the Regional Office suspend action and refer the matter to the SBA Central Office for review.

(b) The SBA Central Office, upon receiving a referral, shall—

(1) Inform the contracting officer that it does not concur with its Regional Office; or

(2) Inform the contracting officer that it concurs with its Regional Office.

In either case, the initial notification shall be by telephone to the contracting officer, followed by written confirmation.

(c) If the agency intends to file a formal appeal, it shall notify the SBA Central Office within 10 business days (or a period acceptable to both) after receiving the Central Office's written position on the matter. The agency shall file any formal appeal within 10 business days after SBA is informed that an appeal will be taken, or within a period acceptable to both.

(d) The SBA Central Office shall make the final determination.

19.602-4 Awarding the contract.

(a) If new information causes the contracting officer to determine that the concern referred to the SBA is actually responsible to perform the contract, and award has not already been made under paragraph (c) below, the contracting officer shall reverse the determination of nonresponsibility, notify the SBA of this action, withdraw the referral, and proceed to award the contract.

(b) The contracting officer shall award the contract to the concern in question if the SBA issues a COC after receiving the referral. An SBA-certified concern shall not be required to meet any other requirements of responsibility. SBA COC's are conclusive with respect to all elements of responsibility of prospective small business contractors.

(c) The contracting officer shall proceed with the acquisition and award the contract to another appropriately selected and responsible offeror if the SBA has not issued a COC within 15 business days (or a longer period of time agreed to with the SBA) after receiving the referral.

Subpart 19.7—Subcontracting With Small Business and Small Disadvantaged Business Concerns

19.701 Definitions.

Failure to make a good faith effort to comply with the subcontracting plan, as used in this subpart, means willful or intentional failure to perform in accordance with the requirements of the subcontracting plan, or willful or intentional action to frustrate the plan.

Small business subcontractor means any concern that—

(a) In connection with subcontracts of $10,000 or less if, including its affiliates, its number of employees does not exceed 500 persons; and

(b) In connection with subcontracts exceeding $10,000, if its number of employees or average annual receipts, including its affiliates, does not exceed the size standard under section 19.102 for the product or service it is providing on the subcontract.

Subcontract, as used in this subpart, means any agreement (other than one involving an employer-employee relationship) entered into by a Government prime contractor or subcontractor calling for supplies and/or services required for contract performance, contract modification, or subcontract.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986; 54 FR 30709, July 21, 1989]

19.702 Statutory requirements.

Any contractor receiving a contract for more than $10,000 shall agree in the contract that small business concerns and small disadvantaged business concerns shall have the maximum practicable opportunity to participate in contract performance consistent with its efficient performance. It is further the policy of the United States that its prime contractors establish procedures to ensure the timely payment of amounts due pursuant to the terms of their subcontracts with small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals.

(a) Except as stated in paragraph (b) below, the Small Business Act imposes the following requirements regarding subcontracting with small businesses and small business subcontracting plans.

(1) In negotiated acquisitions, each solicitation of offers to perform a contract or contract modification, which individually is expected to exceed $500,000 ($1,000,000 for construction) and that has subcontracting possibili-

ties shall require the apparently successful offeror to submit an acceptable subcontracting plan. If the apparently successful offeror fails to negotiate a subcontracting plan acceptable to the contracting officer within the time limit prescribed by the contracting officer, the offeror will be ineligible for award.

(2) In sealed bid acquisitions, each invitation for bids to perform a contract or contract modification, which individually is expected to exceed $500,000 ($1,000,000 for construction) and that has subcontracting possibilities, shall require the bidder selected for award to submit a subcontracting plan. If the selected bidder fails to submit a plan within the time limit prescribed by the contracting officer, the bidder will be ineligible for award.

(b) Subcontracting plans (see subparagraphs (a)(1) and (2) above) are not required—

(1) From small business concerns;

(2) For personal services contracts;

(3) For contracts or contract modifications that will be performed entirely outside of any State, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico; or

(4) For modifications to contracts that do not contain the clause at 52.219-8, Utilization of Small Business Concerns and Small Disadvantaged Business Concerns (or equivalent prior DAR, FPR, or NASA clauses) e.g., contracts awarded before Pub. L. 95-507 and which are within the scope of the contract.

(c) As stated in 15 U.S.C. 637(d)(8), any contractor or subcontractor failing to comply in good faith with the requirements of the subcontracting plan is in material breach of its contract. Further, 15 U.S.C. 637(d)(4)(F) directs that a contractor's failure to make a good faith effort to comply with the requirements of the subcontracting plan shall result in the imposition of liquidated damages.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 50 FR 27562, July 3, 1985; 51 FR 27116, July 29, 1986; 54 FR 30709, July 21, 1989]

19.703 Eligibility requirements for participating in the program.

(a) To be eligible as a subcontractor under the program, a concern must represent itself as a small business concern or small disadvantaged business concern.

(1) To represent itself as a small business concern, a concern must meet the definition in 19.001.

(2) To represent itself as a small disadvantaged business concern, a concern must meet the definition in 19.001. Individuals who certify that they are members of named groups (Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Subcontinent-Asian Americans) may represent themselves as socially and economically disadvantaged. Individuals who are not members of named groups may also represent themselves, and participate in the program, as socially and economically disadvantaged if they are qualified by the SBA under the procedures in 13 CFR 124.105(c)). Concerns who certify that they are tribally-owned entities or Native Hawaiian Organizations may represent themselves as socially and economically disadvantaged if they qualify under the requirements of 13 CFR 124.112 or 13 CFR 124.113 respectively. The Office of Minority Small Business and Capital Ownership Development in the SBA has the final authority to determine the eligibility of a concern to be designated as a small disadvantaged business concern, and will answer inquiries from contractors and others regarding eligibility. Formal protests of a subcontractor's eligibility as a small disadvantaged business may be initiated only by the contracting officer responsible for the prime contract or by the SBA. Such protests will be processed in accordance with 13 CFR 124.6. Other small business subcontractors and the prime contractor may submit information to the contracting officer in an effort to persuade the contracting officer to initiate a protest. Such protests, in order to be considered timely, must be received by the contracting officer prior to completion of performance by the intended subcontractor.

(b) A contractor acting in good faith may rely on the written representation of its subcontractor regarding the subcontractor's status as either a small business concern or a small disadvantaged business concern.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986; 55 FR 3882, Feb. 5, 1990]

19.704 Subcontracting plan requirements.

(a) Each subcontracting plan required under 19.702(a)(1) and (2) must include—

(1) Separate percentage goals for using small business concerns and small disadvantaged business concerns as subcontractors;

(2) The name of an individual employed by the offeror who will administer the offeror's subcontracting program, and a description of the duties of the individual;

(3) A description of the efforts the offeror will make to ensure that small business concerns and small disadvantaged business concerns will have an equitable opportunity to compete for subcontracts;

(4) Assurances that the offeror will include the clause at 52.219-8, Utilization of Small Business Concerns and Small Disadvantaged Business Concerns (see 19.708(b)), in all subcontracts that offer further subcontracting opportunities, and that the offeror will require all subcontractors (except small business concerns) that receive subcontracts in excess of $500,000 ($1,000,000 for construction) to adopt a plan similar to the plan required by the clause at 52.219-9, Small Business and Small Disadvantaged Business Subcontracting Plan (see 19.708(c));

(5) Assurances that the offeror will (i) cooperate in any studies or surveys as may be required, (ii) submit periodic reports in order to allow the Government to determine the extent of compliance by the offeror with the subcontracting plan, and (iii) submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, and SF 295, Summary Subcontract Report, in accordance with the instructions on the forms.

(6) A recitation of the types of records the offeror will maintain to demonstrate procedures adopted to comply with the requirements and goals in the plan, including establishing source lists; and a description of the offeror's efforts to locate small and small disadvantaged business concerns and to award subcontracts to them.

(b) Contractors may establish, on a plant or division-wide basis, a master subcontracting plan which contains all the elements required by the clause at 52.219-9, Small Business and Small Disadvantaged Business Subcontracting Plan, except goals. Master plans shall be effective for a 1-year period after approval by the contracting officer; however, a master plan when incorporated in an individual plan shall apply to that contract throughout the life of the contract.

(c) For contracts containing options, the cumulative value of the basic contract and all options is considered in determining whether a subcontracting plan is necessary (see 19.705-2(a)). If a plan is necessary and the offeror is submitting an individual contract plan, the plan shall contain all the elements required by 19.704(a) and shall contain separate parts, one for the basic contract and one for each option.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986; 54 FR 29281, July 11, 1989]

19.705 Responsibilities of the contracting officer under the subcontracting assistance program.

19.705-1 General support of the program.

The contracting officer may encourage the development of increased subcontracting opportunities in negotiated acquisition by providing monetary incentives such as payments based on actual subcontracting achievement or award fee contracting (see the clause at 52.219-10, Incentive Subcontracting Program for Small and Small Disadvantaged Business Concerns, and 19.708(c)). When using any contractual incentive provision based upon rewarding the contractor monetarily for exceeding goals in the subcontracting plan, the contracting officer must ensure that (a) the goals are realistic and (b) any rewards for exceeding the goals are commensurate with the efforts the contractor would not have otherwise expended. Incentive provisions should normally be negotiated after reaching final agreement with the contractor on the subcontracting plan.

19.705-2 Determining the need for a subcontracting plan.

The contracting officer shall take the following actions to determine whether a proposed contractual action requires a subcontracting plan:

(a) Determine whether the proposed contractual action will meet the dollar threshold in 19.702(a)(1) or (2). If the action includes options or similar provisions, include their value in determining whether the threshold is met.

(b) Determine whether subcontracting possibilities exist by considering relevant factors such as—

(1) Whether firms engaged in the business of furnishing the types of items to be acquired customarily contract for performance of part of the work or maintain sufficient in-house capability to perform the work;

(2) Whether there are likely to be product prequalification requirements; and

(c) If it is determined that there are no subcontracting possibilities, the determination must be approved at a level above the contracting officer and placed in the contract file.

(d) Due to their unique circumstances, major system acquisition programs, as well as other complex or sensitive acquisitions involving formal source selection procedures, may necessitate negotiating subcontracting plans with all firms in a competitive range in order to afford the maximum practicable opportunity for small business and small disadvantaged business concerns to participate and preserve the integrity of the competitive process. When the simultaneous negotiation of such plans is necessary, the solicitation (1) may require offerors to include proposed subcontracting plans in their initial proposals and (2) may indicate that subcontracting plans will be negotiated concurrently with cost, technical, and management proposals.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986; 51 FR 19716, May 30, 1986]

19.705-3 Preparing the solicitation.

The contracting officer shall provi the Small Business Administratio (SBA's) resident procurement cent representative, if any, a reasonab period of time to review any solicit tion requiring submission of a subco tracting plan and to submit advisor findings before the solicitation issued.

19.705-4 Reviewing the subcontracti plan.

The contracting officer shall revie the subcontracting plan for adequacy ensuring that the required informa tion, goals, and assurances are includ ed (see 19.704).

(a) No detailed standards apply t every subcontracting plan. Instead the contracting officer must conside each plan in terms of the circum stances of the particular acquisition including—

(1) Previous involvement of smal business concerns as prime contractors or subcontractors in similar acquisi tions;

(2) Proven methods of involving small business concerns as subcontrac tors in similar acquisitions; and

(3) The relative success of method the contractor intends to use to mee the goals and requirements of th plan, as evidenced by records main tained by contractors.

(b) If, under a sealed bid solicitation a bidder submits a plan that does no cover each of the six required ele ments (see 19.704), the contracting of ficer shall advise the bidder of the de ficiency and request submission of revised plan by a specific date. If th bidder does not submit a plan which incorporates the six required elements within the time allotted, the bidde shall be ineligible for award. If th plan, although responsive, evidences the bidder's intention not to comply with its obligations under the clause a 52.219-8, Utilization of Small Busines Concerns and Small Disadvantage Business Concerns, the contracting of ficer may find the bidder nonrespons ble.

(c) In negotiated acquisitions, th contracting officer shall determin whether the plan is acceptable base on the negotiation of each of the six elements of the plan (see 19.704). Subcontracting goals should be set at a level that the parties reasonably expect can result from the offeror expending good faith efforts to use small and small disadvantaged subcontractors to the maximum practicable extent. Particular attention should be paid to the identification of steps that, if taken, would be considered a good faith effort. No goal should be negotiated upward if it is apparent that a higher goal will significantly increase the Government's cost or seriously impede the attainment of acquisition objectives. An incentive subcontracting clause (see 52.219-10, Incentive Subcontracting Program for Small and Small Disadvantaged Business Concerns) may be used when additional and unique contractor effort could significantly increase subcontract awards to small or small disadvantaged businesses.

(d) In determining the acceptability of a proposed subcontracting plan, the contracting officer should take the following actions:

(1) Evaluate the offeror's past performance in awarding subcontracts for the same or similar products or services to small and small disadvantaged business concerns. If information is not available on a specific type of product or service, evaluate the offeror's overall past performance.

(2) In accordance with 15 U.S.C. 637(d)(4)(F)(iii), ensure that the goals offered are attainable in relation to—

(i) The subcontracting opportunities available to the contractor, commensurate with the efficient and economical performance of the contract;

(ii) The pool of eligible subcontractors available to fulfill the subcontracting opportunities; and

(iii) The actual performance of such contractor in fulfilling the subcontracting goals specified in prior plans.

(3) Evaluate the offeror's make-or-buy policy or program to ensure that it does not conflict with the offeror's proposed subcontracting plan and is in the Government's interest. If the contract involves products or services that are particularly specialized or not generally available in the commercial market, consider the offeror's current capacity to perform the work and the possibility of reduced subcontracting opportunities.

(4) Evaluate subcontracting potential, considering the offeror's make-or-buy policies or programs, the nature of the products or services to be subcontracted, the known availability of small and small disadvantaged business concerns in the geographical area where the work will be performed, and the potential contractor's longstanding contractual relationship with its suppliers.

(5) Advise the offeror of available sources of information on potential small and small disadvantaged business subcontractors, as well as any specific concerns known to be potential subcontractors. If the offeror's proposed goals are questionable, the contracting officer shall emphasize that the information should be used to develop realistic and acceptable goals.

(6) Obtain advice and recommendations from the SBA procurement center representative (if any) and the agency small and disadvantaged business utilization representative.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 19716, May 30, 1986; 54 FR 30709, July 21, 1989]

19.705-5 Awards involving subcontracting plans.

(a) In making an award that requires a subcontracting plan, the contracting officer shall be responsible for the following:

(1) Consider the contractor's compliance with the subcontracting plans submitted on previous contracts as a factor in determining contractor responsibility.

(2) Assure that a subcontracting plan was submitted when required.

(3) Notify the SBA resident procurement center representative of the opportunity to review the proposed contract (including the plan and supporting documentation). The notice shall be issued in sufficient time to provide the representative a reasonable time to review the material and submit advisory recommendations to the contracting officer. Failure of the representative to respond in a reasonable

period of time shall not delay contract award.

(4) Determine any fee that may be payable if an incentive is used in conjunction with the subcontracting plan.

(5) Ensure that an acceptable plan is incorporated into and made a material part of the contract.

(b) Letter contracts and similar undefinitized instruments, which would otherwise meet the requirements of 19.702(a)(1) and (2), shall contain at least a preliminary basic plan addressing the requirements of 19.704 and in such cases require the negotiation of the final plan within 90 days after award or before definitization, whichever occurs first.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

19.705-6 Postaward responsibilities of the contracting officer.

After a contract or contract modification containing a subcontracting plan is awarded, the contracting officer is responsible for the following:

(a) Notifying the SBA of the award by sending a copy of the award document to the Assistant Regional Administrator for Procurement Assistance in the SBA region where the contract will be performed.

(b) Forwarding a copy of each plan and any associated approvals to the Assistant Regional Administrator for Procurement Assistance in the SBA region where the contractor's headquarters is located, if any companywide plans were received from offerors of commercial products.

(c) Giving to the assigned SBA resident procurement center representative (if any) a copy of—

(1) Any subcontracting plan submitted in response to a sealed bid solicitation; and

(2) The final negotiated subcontracting plan that was incorporated into a negotiated contract or contract modification.

(d) Notifying the SBA resident procurement center representative of the opportunity to review subcontracting plans in connection with contract modifications.

(e) Forwarding a copy of each plan, or a determination that there is no requirement for a subcontracting p
to the cognizant contract adminis
tion office.

(f) Initiating action to assess li
dated damages in accordance w
19.705-7 upon a recommendation
the administrative contracting off
or receipt of other reliable evidence
indicate that such action is warrant

[48 FR 42240, Sept. 19, 1983, as amended
52 FR 19803, May 27, 1987; 53 FR 27
July 20, 1988; 53 FR 34228, Sept. 2, 1988;
FR 30709, July 21, 1989]

19.705-7 Liquidated damages.

(a) Maximum practicable utilizat
of small and small disadvantaged bu
ness concerns as subcontractors
Government contracts is a matter
national interest with both social a
economic benefits. When a contract
fails to make a good faith effort
comply with a subcontracting pl
these objectives are not achieved,
15 U.S.C. 637(d)(4)(F) directs that l
uidated damages shall be paid by t
contractor.

(b) The amount of damages attribu
able to the contractor's failure
comply shall be an amount equal
the actual dollar amount by which t
contractor failed to achieve each su
contract goal or, in the case of a co
mercial products plan, shall be th
portion of the dollar amount allocab
to Government contracts by which t
contractor failed to achieve each su
contract goal.

(c) If, at contract completion, or
the case of a commercial produc
plan, at the close of the fiscal year f
which the plan is applicable, a co
tractor has failed to meet its subco
tracting goals and the contracting of
cer decides in accordance with pa
graph (d) of this subsection that t
contractor failed to make a good fai
effort to comply with its subcontrac
ing plan, the contracting officer sh
give the contractor written noti
specifying the failure, advising t
contractor of the possibility that t
contractor may have to pay to t
Government liquidated damages, a
providing a period of 10 days (
longer period as necessary) with
which to respond. The notice sh
give the contractor an opportunity

demonstrate what good faith efforts have been made before the contracting officer issues the final decision, and shall further state that failure of the contractor to respond may be taken as an admission that no valid explanation exists. When appropriate, the notice may invite the contractor to discuss the matter.

(d) In determining whether a contractor failed to make a good faith effort to comply with its subcontracting plan, a contracting officer must look to the totality of the contractor's actions, consistent with the information and assurances provided in its plan. The fact that the contractor failed to meet its subcontracting goals does not, in and of itself, constitute a failure to make a good faith effort. For example, notwithstanding a contractor's diligent effort to identify and solicit offers from small business and small disadvantaged business concerns, factors such as unavailability of anticipated sources or unreasonable prices may frustrate achievement of the contractor's goals. However, when considered in the context of the contractor's total effort in accordance with its plan, the following may be considered as indicia of a failure to make a good faith effort: a failure to attempt to identify, contact, solicit, or consider for contract award, small business or small disadvantaged business concerns; a failure to designate a company official to administer the subcontracting program; a failure to maintain records or otherwise demonstrate procedures adopted to comply with the plan; and the adoption of company policies or procedures which have as their objectives the frustration of the objectives of the plan.

(e) If, after consideration of all the pertinent data, the contracting officer finds that the contractor failed to make a good faith effort to comply with its subcontracting plan, the contracting officer shall issue a final decision to the contractor to that effect and require the payment of liquidated damages in an amount stated. The contracting officer's final decision shall state that the contractor has the right to appeal under the clause in the contract entitled Disputes.

(f) With respect to commercial products plans, i.e., company-wide or division-wide subcontracting plans approved under paragraph (g) of the clause in the contract entitled Small Business and Small Disadvantaged Business Subcontracting Plan, the contracting officer of the agency that originally approved the plan will exercise the functions of the contracting officer under this subsection on behalf of all agencies that awarded contracts covered by that commercial products plan.

(g) Liquidated damages shall be in addition to any other remedies that the Government may have.

[54 FR 30709, July 21, 1989]

19.706 Responsibilities of the cognizant administrative contracting officer.

(a) The administrative contracting officer is responsible for assisting in evaluating subcontracting plans, and for monitoring, evaluating, and documenting contractor performance under the clause prescribed in 19.708(b) and any subcontracting plan included in the contract. The contract administration office shall provide the necessary information and advice to support the contracting officer, as appropriate, by furnishing—

(1) Documentation on the contractor's performance and compliance with subcontracting plans under previous contracts;

(2) Information on the extent to which the contractor is meeting the plan's goals for subcontracting with eligible small and small disadvantaged business concerns;

(3) Information on whether the contractor's efforts to ensure the participation of small and small disadvantaged business concerns are in accordance with its subcontracting plan;

(4) Information on whether the contractor is requiring its subcontractors to adopt similar subcontracting plans;

(5) Immediate notice if, during performance, the contractor is failing to meet its commitments under the clause prescribed in 19.708(b) or the subcontracting plan; and

(6) Immediate notice and rationale if, during performance, the contractor

is failing to comply in good faith with the subcontracting plan.

(b) If the contractor does not comply in good faith with the subcontracting plan, the administrative contracting officer shall, upon contract completion, make appropriate recommendations that contracting officers may use for future contracts.

[48 FR 42240, Sept. 19, 1983, as amended at 54 FR 30710, July 21, 1989]

19.707 The Small Business Administration's role in carrying out the program.

(a) Under the program, the SBA may—

(1) Assist both Government agencies and contractors in carrying out their responsibilities with regard to subcontracting plans;

(2) Review (within 5 working days) any solicitation that meets the dollar threshold in 19.702(a)(1) or (2) before the solicitation is issued;

(3) Review (within 5 working days) before execution any negotiated contractual document requiring a subcontracting plan, including the plan itself, and submit recommendations to the contracting officer, which shall be advisory in nature; and

(4) Evaluate compliance with subcontracting plans, either on a contract-by-contract basis, or, in the case of contractors having multiple contracts, on an aggregate basis.

(b) The SBA is not authorized to (1) prescribe the extent to which any contractor or subcontractor shall subcontract, (2) specify concerns to which subcontracts will be awarded, or (3) exercise any authority regarding the administration of individual prime contracts or subcontracts.

[48 FR 42240, Sept. 19, 1983, as amended at 51 FR 2664, Jan. 17, 1986]

19.708 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the clause at 52.219-8, Utilization of Small Business Concerns and Small Disadvantaged Business Concerns, in solicitations and contracts when the contract amount is expected to be over $10,000 unless—

(1) A personal services contract is contemplated (see 37.104); or

(2) The contract, together with all its subcontracts, is to be performed entirely outside of any State, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

(b)(1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.219-9, Small Business and Small Disadvantaged Business Subcontracting Plan, in solicitations and contracts that (i) offer subcontracting possibilities, (ii) are expected to exceed $500,000 ($1,000,000 for construction of any public facility), and (iii) are required to include the clause at 52.219-8, Utilization of Small Business Concerns and Small Disadvantaged Business Concerns, unless the acquisition has been set aside for small business or is to be accomplished under the 8(a) program. When contracting by sealed bidding rather than by negotiation, the contracting officer shall use the clause with its Alternate I.

(2) The contracting officer shall insert the clause at 52.219-16, Liquidated Damages-Small Business Subcontracting Plan, in all solicitations and contracts containing the clause at 52.219-9, Small Business and Small Disadvantaged Business Subcontracting Plan, or its Alternate I.

(c)(1) The contracting officer may, when contracting by negotiation, insert in solicitations and contracts a clause substantially the same as the clause at 52.219-10, Incentive Subcontracting Program for Small and Small Disadvantaged Business Concerns, when a subcontracting plan is required (see 19.702(a)(1)), and inclusion of a monetary incentive is, in the judgment of the contracting officer, necessary to increase subcontracting opportunities for small and disadvantaged business concerns, and is commensurate with the efficient and economical performance of the contract; unless the conditions in (c)(3) below are applicable. The contracting officer may vary the terms of the clause as specified in (c)(2) below.

(2) Various approaches may be used in the development of small and small disadvantaged business concerns' subcontracting incentives. They can take many forms, from a fully quantified

schedule of payments based on actual subcontract achievement to an award fee approach employing subjective evaluation criteria (see (c)(3) below). The incentive should not reward the contractor for results other than those that are attributable to the contractor's efforts under the incentive subcontracting program.

(3) As specified in (c)(2) above, the contracting officer may include small and small disadvantaged business subcontracting as one of the factors to be considered in determining the award-fee in a cost-plus-award-fee contract; in such cases, however, the contracting officer shall not use the clause at 52.219-10, Incentive Subcontracting Program for Small and Small Disadvantaged Business Concerns.

[48 FR 42240, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2664, Jan. 17, 1986; 54 FR 30710, July 21, 1989]

Subpart 19.8—Contracting With the Small Business Administration (the 8(a) Program)

SOURCE: 54 FR 46005, Oct. 31, 1989, unless otherwise noted.

19.800 General.

(a) Section 8(a) of the Small Busines Act (15 U.S.C. 637(a)) established a program that authorizes the Small Business Administration (SBA) to enter into all types of contracts with other agencies and let subcontracts for performing those contracts to firms eligible for program participation. The SBA's subcontractors are referred to as *8(a) contractors.*

(b) Contracts may be awarded to the SBA for performance by eligible 8(a) firms on either a sole source or competitive basis.

(c) When, acting under the authority of the program, the SBA certifies to an agency that the SBA is competent and responsible to perform a specific contract, the contracting officer is authorized, in the contracting officer's discretion, to award the contract to the SBA based upon mutually agreeable terms and conditions.

19.801 Definitions.

Local buy requirement, as used in this subpart, means a supply or service purchased to meet the specific needs of one user in one location.

National buy requirement, as used in this subpart, means a supply or service purchased to meet the needs of one or more users in two or more locations where supply control, inventory management, or acquisition responsibility have been assigned to a central contracting activity.

19.802 Selecting concerns for the 8(a) Program.

Selecting concerns for the 8(a) Program is the responsibility of the SBA and is based on the criteria established in 13 CFR 124.101-113.

19.803 Selecting acquisitions for the 8(a) Program.

Through their cooperative efforts, the SBA and an agency match the agency's requirements with the capabilities of 8(a) concerns to establish a basis for the agency to contract with the SBA under the program. Selection is initiated in one of three ways—

(a) The SBA advises an agency contracting activity through a search letter of an 8(a) firm's capabilities and asks the agency to identify acquisitions to support the firm's business plans. In these instances, the SBA will provide at least the following information in order to enable the agency to match an acquisition to the firm's capabilities.

(1) Identification of the concern and its owners.

(2) Background information on the concern, including any and all information pertaining to the concern's technical ability and capacity to perform.

(3) The firm's present production capacity and related facilities. From August 15, 1988, through October 1, 1992, the SBA is authorized to grant 8(a) firms exemptions from the requirements of sectjon 1(a) of the Walsh-Healey Act in accordance with 13 CFR 124.304.

(4) The extent to which contracting assistance is needed in the present and the future, described in terms that will

enable the agency to relate the concern's plans to present and future agency requirements.

(5) If construction is involved, the request shall also include the following:

(i) The concern's capabilities in and qualifications for accomplishing various categories of maintenance, repair, alteration, and construction work in specific categories such as mechanical, electrical, heating and air conditioning, demolition, building, painting, paving, earth work, waterfront work, and general construction work.

(ii) The concern's capacity in each construction category in terms of estimated dollar value (e.g., electrical, up to $100,000).

(b) The SBA identifies a specific requirement for a particular 8(a) firm or firms and asks the agency contracting activity to offer the acquisition to the 8(a) Program for the firm(s). In these instances, in addition to the information in paragraph (a) of this section, the SBA will provide—

(1) A clear identification of the acquisition sought; e.g., project name or number;

(2) A statement as to how any additional needed facilities will be provided in order to ensure that the firm will be fully capable of satisfying the agency's requirements;

(3) If construction, information as to the bonding capability of the firm(s); and

(4) Either—

(i) If sole source request—

(A) The reasons why the firm is considered suitable for this particular acquisition; e.g., previous contracts for the same or similar supply or service; and

(B) A statement that the firm is eligible in terms of SIC code, business support levels, and business activity targets; or,

(ii) If competitive, a statement that at least two 8(a) firms are considered capable of satisfying the agency's requirements and a statement that the firms are also eligible in terms of the SIC code, business support levels, and business activity targets. If requested by the contracting activity, SBA will identify at least two such firms and provide information concerning the firms' capabilities.

(c) Agencies may also review other proposed acquisitions for the purpose of identifying requirements which may be offered to the SBA. Where agencies independently, or through the self marketing efforts of an 8(a) firm, identify a requirement for the 8(a) Program, they may offer on behalf of a specific 8(a) firm, for the 8(a) Program in general, or for 8(a) competition.

[54 FR 46005, Oct. 31, 1989, as amended at 55 FR 3882, Feb. 5, 1990]

19.804 Evaluation, offering, and acceptance.

19.804-1 Agency evaluation.

In determining the extent to which a requirement should be offered in support of the 8(a) Program, the agency should evaluate—

(a) Its current and future plans to acquire the specific items or work that 8(a) contractors are seeking to provide, identified in terms of—

(1) Quantities required or the number of construction projects planned; and

(2) Performance or delivery requirements, including required monthly production rates, when applicable.

(b) Its current and future plans to acquire items or work similar in nature and complexity to that specified in the business plan;

(c) Problems encountered in previous acquisitions of the items or work from the 8(a) contractors and/or other contractors;

(d) The impact of any delay in delivery;

(e) Whether the items or work have previously been acquired using small business set-asides; and

(f) Any other pertinent information about known 8(a) contractors, the items, or the work. This includes any information concerning the firms' capabilities. When necessary, the contracting agency shall make an independent review of the factors in 19.803(a) and other aspects of the firms' capabilities which would ensure the satisfactory performance of the requirement being considered for commitment to the 8(a) Program.

19.804-2 Agency offering.

(a) After completing its evaluation, the agency shall notify the SBA of the extent of its plans to place 8(a) contracts with the SBA for specific quantities of items or work. The notification must identify the timeframes within which prime contract and subcontract actions must be completed in order for the agency to meet its responsibilities. The notification must also contain the following information applicable to each prospective contract:

(1) A description of the work to be performed or items to be delivered, and a copy of the statement of work, if available.

(2) The estimated period of performance.

(3) The SIC code that applies to the principal nature of the acquisition.

(4) The anticipated dollar value of the requirement, including options, if any.

(5) Any special restrictions or geographical limitations on the requirement (for construction and services include the location of the work to be performed).

(6) Any special capabilities or disciplines needed for contract performance.

(7) The type of contract anticipated.

(8) The acquisition history, if any, of the requirement, including the names and addresses of any small business contractors which have performed this requirement during the previous 24 months.

(9) A statement that no solicitation for this specific acquisition has been issued as a small business set-aside or a small disadvantaged business set-aside, and that no other public communication (such as a notice in the Commerce Business Daily) has been made evidencing the contracting agency's clear intention to set aside the acquisition for small business or small disadvantaged business.

(10) Identification of any particular 8(a) concern designated for consideration, including a brief justification, such as—

(i) The 8(a) concern, through its own efforts, marketed the requirement and caused it to be reserved for the 8(a) Program; or

(ii) The acquisition is a follow-on or renewal contract and the nominated concern is the incumbent.

(11) Bonding requirements, if applicable.

(12) Identification of all known 8(a) concerns which have expressed an interest in this specific requirement as a result of self-marketing, response to sources sought, or publication of advanced acquisition requirements.

(13) Identification of all SBA district or regional offices which have asked for the acquisition for the 8(a) Program.

(14) A recommendation, if appropriate, as to whether the acquisition should be competitive or sole source; and

(15) Any other pertinent and reasonably available data.

(b) An agency offering a local buy requirement should submit it to the SBA Regional Office for the geographical area where the user is located. An agency offering a national buy requirement should submit it to the Office of Program Development, Office of Minority Small Business and Capital Ownership Development, Small Business Administration, 1441 L Street, NW., Washington, DC 20416.

19.804-3 SBA acceptance.

(a) Upon receipt of the contracting agency's offer, the SBA will determine whether to accept the requirement for the 8(a) Program. The SBA's decision whether to accept the requirement will be transmitted to the contracting agency in writing within 15 working days of receipt of the offer, unless the SBA requests, and the contracting agency grants, an extension.

(b) If the acquisition is accepted as a sole source, the SBA will advise the contracting activity of the 8(a) firm selected for negotiation. Generally, the SBA will accept a contracting activity's recommended source.

(c) If the acquisition is accepted for competition—(1) as a local buy requirement, the SBA will advise as to which of the SBA districts or regions the competition is restricted and provide the list of the 8(a) firms in those districts or regions which are eligible for the designated SIC code; or (2) as a national buy requirement, the SBA, if requested by the contracting activity, will identify at least two eligible sources and the contracting officer, in coordination with the small business specialist, will augment the source list based on results of the synopsis (see 5.205(e)) and other available information. The SBA will advise of any program participation stage restrictions. The SBA may limit competition to 8(a) concerns in the developmental stage of program participation; may limit competition to 8(a) concerns in the transitional stage; or may permit competition among firms in either stage.

19.804-4 Repetitive acquisitions.

In order for repetitive acquisitions to be awarded through the 8(a) Program, there must be separate offers and acceptances. This allows the SBA to revalidate a firm's eligibility, to evaluate the suitability of each acquisition as a competitive 8(a), and to determine whether the requirement should continue under the 8(a) Program.

19.805 Competitive 8(a).

19.805-1 General.

(a) Except as provided in paragraph (b) of this subsection, an acquisition offered to the SBA under the 8(a) Program shall be awarded on the basis of competition limited to eligible 8(a) firms if—

(1) There is a reasonable expectation that at least two eligible and responsible 8(a) firms will submit offers and that award can be made at a fair market price; and

(2) The anticipated award price of the contract, including options, will exceed $5,000,000 for acquisitions assigned manufacturing standard industrial classification (SIC) codes and $3,000,000 for all other acquisitions.

(b) Where an acquisition exceeds the competitive threshold, the SBA may accept the requirement for a sole source 8(a) award if—

(1) There is not a reasonable expectation that at least two eligible and responsible 8(a) firms will submit offer at a fair market price; or

(2) The SBA determines that an 8(a concern owned and controlled by a economically disadvantaged Indian tribe is eligible and responsible and needs the acquisition for its busines development.

(c) The SBA Association Administrator for Minority Small Business and Capital Ownership Development (AA/MSB&COD) may approve an agency recommendation for a competitive 8(a) award below the competitive thresholds. Such recommendations will be approved only on a limited basis and will be primarily granted where technical competitions are appropriate or where a large number of responsible 8(a) firms are available for competition. In determining whether a recommendation to compete below the threshold will be approved, AA/MSB&COD will, in part, consider the extent to which the requesting agency is supporting the 8(a) Program on a noncompetitive basis. Agency recommendations for competition below the threshold may be included in the offering letter or may be submitted by separate correspondence through the SBA region or headquarters, depending upon whether the acquisition is a local or national buy requirement.

19.805-2 Procedures.

(a) Competitive 8(a) acquisitions shall be conducted by contracting agencies by using sealed bids (see part 14) or competitive proposals (see part 15).

(b) Offers shall be solicited from those sources identified in accordance with the SBA instructions provided under 19.804-3.

(c) The SBA will determine the eligibility of the firms for award of the contract. Eligibility will be determined by the SBA as of the time of submission of initial offers which include price. Eligibility is based on section 8(a) Program criteria, e.g., whether the firm has the SIC code for the acquisition in its approved business plan, whether the firm is currently a small business under the SIC code, whether the firm is in the developmental or transitional stage (if the acquisition is restricted by stage), whether the firm is in conformance with the 8(a) support limitation set forth in its business plan, and whether the firm is in conformance with its 8(a) business activity targets.

(1) In sealed bid acquisitions, upon receipt of offers, the contracting officer will provide the SBA a copy of the solicitation, the estimated fair market price, and a list of offerors ranked in the order of their standing for award (i.e., first low, second low, etc.) with the total evaluated price for each offer, differentiating between basic requirements and any options. The SBA will consider the eligibility of the first low offeror. If the first low offeror is not determined to be eligible, the SBA will consider the eligibility of the next low offeror until an eligible offeror is identified. The SBA will determine the eligibility of the firms and advise the contracting officer within 5 working days after its receipt of the list of bidders. Once eligibility has been established by the SBA, the successful offeror will be determined by the contracting activity in accordance with normal contracting procedures.

(2) In negotiated acquisition, the SBA will determine eligibility when the successful offeror has been established by the agency and the contract transmitted for signature unless a referral has been made under 19.809, in which case the SBA will determine eligibility at that point.

(d) In any case in which a firm is determined to be ineligible, the SBA will notify the firm of that determination.

(e) The eligibility of an 8(a) firm for a competitive 8(a) award may not be challenged or protested by another 8(a) firm or any other party as part of a solicitation or proposed contract award. Any party with information concerning the eligibility of an 8(a) firm to continue participation in the 8(a) Program may submit such information to the SBA in accordance with 13 CFR 124.111(c).

19.806 Pricing the 8(a) contract.

(a) The contracting officer shall price the 8(a) contract in accordance with subpart 15.8. If required by subpart 15.8, the SBA shall obtain certified cost or pricing data from the 8(a) contractor. If the SBA requests audit assistance to determine the reasonableness of the proposed price in a sole source acquisition, the contracting activity shall furnish it to the extent it is available.

(b) An 8(a) contract, sole source or competitive, may not be awarded if the price of the contract results in a cost to the contracting agency which exceeds a fair market price.

(c) If requested by the SBA, the contracting officer shall make available the data used to estimate the fair market price.

(d) The negotiated contract price and the estimated fair market price are subject to the concurrence of the SBA. In the event of a disagreement between the contracting officer and the SBA, the SBA may appeal in accordance with 19.810.

19.807 Estimating fair market price.

(a) The contracting officer shall estimate the fair market price of the work to be performed by the 8(a) contractor.

(b) In estimating the fair market price for an acquisition other than those covered in paragraph (c) of this section, the contracting officer shall use cost or price analysis and consider commercial prices for similar products and services, available in-house cost estimates, data (including cost or pricing data) submitted by the SBA or the 8(a) contractor, and data obtained from any other Government agency.

(c) In estimating a fair market price for a repeat purchase, the contracting officer shall consider recent award prices for the same items or work if there is comparability in quantities, conditions, terms, and performance times. The estimated price should be adjusted to reflect differences in specifications, plans, transportation costs, packaging and packing costs, and other circumstances. Price indices may be used as guides to determine the changes in labor and material costs. Comparison of commercial prices for similar items may also be used.

19.808 Contract negotiation.

19.808-1 Sole source.

(a) The SBA is responsible for initiating negotiations with the agency within the time established by the agency. If the SBA does not initiate negotiations within the agreed time and the agency cannot allow additional time, the agency may, after notifying the SBA, proceed with the acquisition from other sources.

(b) The SBA's contractor should participate, whenever practicable, in negotiating the contracting terms. When mutually agreeable, the SBA may authorize the contracting activity to negotiate directly with the 8(a) contractor. Whether or not direct negotiations take place, the SBA is responsible for approving the resulting contract before award and determining whether the 8(a) contractor shall be required to provide bonds. For construction contracts not exceeding $3 million (including options), from August 15, 1988, through October 1, 1992, the SBA is authorized to exempt its contractor from Miller Act requirements for performance and payment bonds in accordance with 13 CFR 124.305. When an exemption is being favorably considered, the SBA will request and heavily weigh the written views of the contracting activity in determining whether to grant a bond exemption.

[54 FR 46005, Oct. 31, 1989, as amended at 55 FR 3883, Feb. 5, 1990]

19.808-2 Competitive.

In competitive 8(a) acquisitions subject to part 15, the contracting officer conducts negotiations directly with the competing 8(a) firms.

19.809 Preaward considerations.

The contracting officer should request a preaward survey of the 8(a) contractor whenever considered useful. If the results of the preaward survey or other information available to the contracting officer raise substantial doubt as to the firm's ability to perform, the contracting officer should refer the matter to the SBA for its consideration in deciding whether SBA should certify that it is competent and responsible to perform. This is not a referral for Certificate of Competency consideration under subpart 19.6. Within 15 working days of the receipt of the referral or a longer period agreed to by the SBA and the contracting activity, the SBA Assistant Regional Administrator for Minority Small Business and Capital Ownership Development in the regional office which services the 8(a) firm will advise the contracting officer as to the SBA's willingness to certify its competency to perform the contract using the 8(a) concern in question as its subcontractor. The contracting officer shall proceed with the acquisition and award the contract to another appropriately selected 8(a) offeror if the SBA has not certified its competency within 15 working days (or a longer mutually agreeable period.)

19.810 SBA appeals.

(a) The following matters may be submitted by the SBA Administrator for determination to the agency head if the SBA and the contracting officer fail to agree on them:

(1) The decision not to make a particular acquisition available for award under the 8(a) Program.

(2) The terms and conditions of a particular sole source acquisition to be awarded under the 8(a) Program.

(3) The estimated fair market price.

(b) Notification of a proposed referral to the agency head by the SBA must be received by the contracting officer within 5 working days after the SBA is formally notified of the contracting officer's decision. The SBA shall provide the agency Director for Small and Disadvantaged Business Utilization a copy of this notification. The SBA must provide the request for determination to the agency head within 20 working days of the SBA's receipt of the adverse decision. Pending issuance of a decision by the agency head, the contracting officer shall suspend action on the acquisition. Action on the acquisition need not be suspended if the contracting officer makes a written determination that urgent and compelling circumstances which significantly affect the interests of the United States will not permit waiting for a decision.

(c) If the SBA appeal is denied, the decision of the agency head shall specify the reasons for the denial, including the reasons why the selected firm was determined incapable of performance, if appropriate. The decision shall be made a part of the contract file.

19.811 Preparing the contracts.

19.811-1 Sole source.

(a) The contract to be awarded by the agency to the SBA shall be prepared in accordance with agency procedures and in the same detail as would be required in a contract with a business concern. The contracting officer shall use the Standard Form 26 as the award form, except for construction contracts, in which case the Standard Form 1442 shall be used as required in 36.701(b).

(b) The agency shall prepare the contract that the SBA will award to the 8(a) contractor in accordance with agency procedures, as if the agency were awarding the contract directly to the 8(a) contractor, except for the following.

(1) The award form shall cite 41 U.S.C. 253(c)(5) or 10 U.S.C. 2304(c)(5) (as appropriate) as the authority for use of other than full and open competition.

(2) Appropriate clauses shall be included, as necessary, to reflect that the contract is between the SBA and the 8(a) contractor.

(3) The following items shall be inserted by the SBA—

(i) The SBA contract number.

(ii) The effective date.

(iii) The typed name of the SBA's contracting officer.

(iv) The signature of the SBA's contracting officer.

(v) The date signed.

(4) The SBA will obtain the signature of the 8(a) contractor prior to signing and returning the prime contract to the contracting officer for signature. The SBA will make every effort to obtain signatures and return the contract, and any subsequent bilateral modification, to the contracting officer within a maximum of 10 working days.

(5) If the contract is for construction work, it shall include requirements of the Miller Act with respect to performance and payment bonds (see part 28), unless SBA has granted an exemption from the bonding requirement.

(c) Except in procurements where the SBA will make advance payments to its 8(a) contractor, the agency contracting officer may, as an alternative to the procedures in 19.811-1(a) and (b), use a single contract document for both the prime contract between the agency and the SBA and its 8(a) contractor. The single contract document shall contain the information in 19.811-1(b) (1), (2), (3), and (5). Appropriate blocks on the Standard Form (SF) 26 or 1442 will be asterisked and a continuation sheet appended which includes the following:

(1) Agency acquisition office, prime contract number, name of agency contracting officer and lines for signature, date signed, and effective date.

(2) The SBA office, the SBA contract number, name of the SBA contracting officer, and lines for signature and date signed.

(3) Name and lines for the 8(a) contractor's signature and date signed.

(d) Prior to award of contract actions in excess of $100,000, the SBA shall provide the contracting activity with the competing contractor certifications required by 3.104-9 from its 8(a) contractor. The contracting activity's contracting officer shall maintain the list required by 3.104-9 and complete the contracting officer certification.

[54 FR 46005, Oct. 31, 1989, as amended at 55 FR 3883, Feb. 5, 1990]

19.811-2 Competitive.

(a) The contract will be prepared in accordance with 14.407-1(d), except that appropriate blocks on the Standard Form 26 or 1442 will be asterisked and a continuation sheet appended which includes the following:

(1) The agency contracting activity, prime contract number, name of agency contracting officer, and lines for signature, date signed, and effective date.

(2) The SBA office, the SBA subcontract number, name of the SBA con-

tracting officer and lines for signature and date signed.

(b) For contract actions in excess of $100,000, the contracting activity's contracting officer shall obtain the competing contractor certifications as required by 3.104-9 directly from the 8(a) firm(s). The contracting activity's contracting officer shall maintain the list required by 3.104-9 and complete the contracting officer certification.

(c) The process for obtaining signatures shall be as specified in 19.811-1(b)(4).

19.811-3 Contract clauses.

(a) The contracting officer shall insert the clause at 52.219-11, Special 8(a) Contract Conditions, in contracts between the SBA and the agency when the acquisition is accomplished using the procedures of 19.811-1(a) and (b). Use the clause with its Alternate I if the contract is for construction and SBA has exempted it from the performance and payment bond requirements of the Miller Act.

(b) The contracting officer shall insert the clause at 52.219-12, Special 8(a) Subcontract Conditions, in contracts between the SBA and its 8(a) contractor when the acquisition is accomplished using the procedures of 19.811-1 (a) and (b). Use the clause with its Alternate I if the contract is for construction and SBA has exempted it from the performance and payment bond requirements of the Miller Act.

(c) The contracting officer shall insert the clause at 52.219-17, Section 8(a) Award, in competitive solicitations and contracts when the acquisition is accomplished using the procedures of 19.805 and in sole source awards which utilize the alternative procedure in 19.811-1(c).

(d) The contracting officer shall insert the clause at 52.219-18, Notification of Competition Limited to Eligible 8(a) Concerns, in competitive solicitations and contracts when the acquisition is accomplished using the procedures of 19.805.

(1) The clause at 52.219-18 with its Alternate I will be used when competition is to be limited to 8(a) concerns within one or more specific SBA districts/regions pursuant to 19.804-3.

(2) The clause at 52.219-18 with its Alternate II will be used when competition is to be limited to 8(a) concerns within a specific stage of 8(a) Program participation (i.e., developmental or transitional) pursuant to 19.804-3.

(3) The clause at 52.219-18 with its Alternate III will be used when the acquisition is for a product in a class for which the Small Business Administration has determined that there are not small business manufacturers in the Federal market in accordance with 19.502-2(b).

(e) the contracting officer shall insert the clause at 52.219-14, Limitations or Subcontracting, in any solicitation and contract resulting from this subpart.

[54 FR 46005, Oct. 31, 1989, as amended at 55 FR 3883, Feb. 5, 1990; 55 FR 25529, June 21, 1990]

19.812 Contract administration.

(a) The contracting officer shall assign contract administration functions, as required, based on the location of the 8(a) contractor (see DoD Directory of Contract Administration Services Components (DoD 4105.59-H)).

(b) The agency shall distribute copies of the contract(s) in accordance with part 4. All contracts and modifications, if any, shall be distributed to both the SBA and the firm in accordance with the timeframes set forth in 4.201.

(c) To the extent consistent with the contracting activity's capability and resources, 8(a) contractors furnishing requirements shall be afforded production and technical assistance, including, when appropriate, identification of causes of deficiencies in their products and suggested corrective action to make such products acceptable.

(d) Section 407 of Pub. L. 100-656 requires that an 8(a) contract be terminated for convenience if the 8(a) concern to which it was awarded transfers ownership or control of the firm, unless the Administrator of the SBA, on a nondelegable basis, waives the requirement for contract termination. The Administrator may waive the termination requirement only if certain conditions exist. Moreover, a waiver of the statutory requirement for termination is permitted only if the 8(a) firm's request for waiver is made to the SBA prior to the actual relinquishment of ownership or control. The clauses in the contract entitled "Special 8(a) Contract Conditions" and "Special 8(a) Subcontract Conditions" require the SBA and the 8(a) subcontractor to notify the contracting officer when ownership of the firm is being transferred. When the contracting officer receives information that an 8(a) contractor is planning a transfer of ownership or control, action must be taken immediately to preserve the option of waiving the termination requirement. The contracting officer should determine the timing of the proposed transfer and its effect on contract performance and mission support. If the contracting officer determines that the SBA does not intend to waive the termination requirement, and termination of the contract would severely impair attainment of the agency's program objectives or mission, the contracting officer should immediately notify the SBA in writing that the agency is requesting a waiver. Within 15 business days thereafter, or such longer period as agreed to by the agency and the SBA, the agency head shall either confirm or withdraw the request for waiver. Unless a waiver is approved by the SBA, the contracting officer shall terminate the contract for convenience upon receipt of a written request by the SBA. This statutory requirement for a convenience termination does not affect the Government's right to terminate for default if the cause for termination of an 8(a) contract is other than the transfer of ownership or control.

[54 FR 46005, Oct. 31, 1989, as amended at 55 FR 3883, Feb. 5, 1990; 55 FR 25530, June 21, 1990]

Subpart 19.9—Contracting Opportunities for Women-Owned Small Businesses

19.901 Policy.

In response to the need to aid and stimulate women's business enterprise, Executive Order 12138, May 18, 1979 directs agencies to take appropriate action to facilitate, preserve, and strengthen women's business enterprise and to ensure full participation by women in the free enterprise system. Appropriate action includes the award of subcontracts under Federal prime contracts.

19.902 Contract clause.

To encourage the use of women-owned small businesses in subcontracting, the contracting officer shall insert the clause at 52.219-13, Utilization of Women-Owned Small Businesses, in solicitations and contracts when the contract amount is expected to exceed the small purchase limitation, except—

(a) Contracts that, including all subcontracts thereunder, are to be performed entirely outside the United States, its possessions, Puerto Rico, and the Trust Territory of the Pacific Islands; and

(b) Contracts for personal services.

[51 FR 31426, Sept. 3, 1986]

Subpart 19.10—Small Business Competitiveness Demonstration Program

Source: 54 FR 5055, Jan. 31, 1989, unless otherwise noted.

19.1001 General.

The Small Business Competitiveness Demonstration Program was established by Title VII of the "Business Opportunity Development Reform Act of 1988," Pub. L. 100-656. The program consists of two major components: (a) a test of unrestricted competition in four designated industry groups, and (b) a test of enhanced small business participation in 10 agency targeted industry categories. The program will be conducted over a period of 4 years, from January 1, 1989, through December 31, 1992. The procedures for implementing the test are set forth in the Office of Federal Procurement Policy (OFPP) policy directive and test plan as published in the Federal Register on December 29, 1988 (53 FR 52889), and in any participating agency supplements. Pursuant to sec. 713(a) of Pub. L. 100-656, the requirements of the FAR that are inconsistent with the OFPP policy directive and test plan are waived.

[54 FR 5055, Jan. 31, 1989, as amended at 55 FR 38516, Sept. 18, 1990]

19.1002 Definition.

Emerging small business, as used in this subpart, means a small business concern whose size is no greater than 50 percent of the numerical size standard applicable to the standard industrial classification code assigned to a contracting opportunity.

19.1003 Purpose.

The purpose of the demonstration program is to—

(a) Test the ability of small businesses to compete successfully in certain industry categories without competition being restricted by the use of small business set-asides. This portion of the program is limited to the four designated industry groups listed in section 19.1005.

(b) Measure the extent to which awards are made to a new category of small businesses known as emerging small businesses (ESB's), and to provide for certain acquisitions to be reserved for ESB participation only.

(c) Expand small business participation in 10 targeted industry categories through continued use of set-aside procedures, increased management attention, and specifically tailored acquisition procedures, as implemented through agency procedures.

19.1004 Participating agencies.

The following agencies have been identified as participants in the demonstration program:

The Department of Agriculture.

The Department of Defense, except the Defense Mapping Agency.

The Department of Energy.

The Department of Health and Human Services.

The Department of Interior.

The Department of Transporatation.

The Department of Veterans Affairs.

The Environmental Protection Agency.

The General Services Administration.

The National Aeronautics and Space Administration.

[54 FR 5055, Jan. 31, 1989, as amended at 54 FR 29281, July 11, 1989; 55 FR 38516, Sept. 18, 1990]

19.1005 Applicability.

(a) *Designated industry groups*. The following industry groups have been designated to demonstrate whether the competitive capabilities of small business firms in certain industry groups will enable them to successfully compete on an unrestricted basis for Federal contracts:

(1) Construction contracts under standard industrial classification (SIC) codes that comprise Major Groups 15, 16, and 17 (excluding dredging-Federal Procurement Data System (FPDS) service codes Y216 and Z216).

(2) Refuse systems and related services contracts under SIC code 4212 or 4953, limited to FPDS service code S205.

(3) Architectural and engineering services (including surveying and matping) under SIC codes 7389, 8711, 8712, or 8713 (limited to FPDS service codes C111 through C219, T002, T004, T008, T009, T014, and R404).

(4) Nonnuclear ship repair.

(b) *Targeted industry categories*. Each participating agency shall designate its own targeted industry categories.

PART 20—LABOR SURPLUS AREA CONCERNS

Sec.

20.000 Scope of part.

20.301 General.
20.302 Contract clauses.
20.303 Review of subcontracting program.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42256, Sept. 19, 1983, unless otherwise noted.

20.000 Scope of part.

This part prescribes policies and procedures for aiding labor surplus areas in the United States, its territories and possessions, the Commonwealth of Puerto Rico, and the Trust Territory of the Pacific Islands. It implements Defense Manpower Policy No. 4B, May 23, 1980 (44 CFR part 331), U.S. Department of Labor Regulations (20 CFR part 654, subpart A), and the Small Business Act (15 U.S.C. 644(d), (e), and (f)).

Subpart 20.1—General

20.101 Definitions.

Labor surplus area means a geographical area identified by the Department of Labor in accordance with 20 CFR part 654, subpart A, as an area of concentrated unemployment or underemployment or an area of labor surplus.

Labor surplus area concern means a concern that together with its first-tier subcontractors will perform substantially in labor surplus areas. Performance is substantially in labor surplus areas if the costs incurred under the contract on account of manufacturing, production, or performance of appropriate services in labor surplus areas exceed 50 percent of the contract price.

20.102 General policy.

Subject to the order of precedence in 19.504, the Government shall award appropriate contracts to eligible labor surplus area (LSA) concerns and encourage contractors to place subcontracts with LSA concerns.

20.103 Contract clause.

(a) In contracts not set aside for LSA concerns, the offeror's status as an LSA concern may affect entitlement to award in the case of tie offers or evaluation in accordance with the Buy American Act. Therefore, offerors shall be afforded an opportunity to establish status as LSA concerns.

(b) The contracting officer shall insert the clause at 52.220-1, Preference for Labor Surplus Area Concerns, in solicitations and contracts that (1) exceed the appropriate small purchase limitation in part 13 and (2) are not set aside for LSA concerns.

20.104 Specific policies.

When a proposed contract is estimated to exceed the appropriate small purchase limitation in part 13, the agency shall—

(a) Set aside the acquisition as provided in subpart 20.2;

(b) Promptly disseminate available publications and information that identify LSA's to acquisition personnel;

(c) Consider Department of Labor classifications of LSA's as conclusive for each contracting action;

(d) Give LSA concerns, which are on appropriate solicitation lists, the opportunity to submit offers on any acquisition for which they are qualified, unless the acquisition is otherwise restricted (e.g., total small business set-aside);

(e) Solicit all prospective LSA concerns, when less than a complete solicitation list is used;

(f) Give preference to LSA concerns as prescribed in 14.407-6, when equal low bids are received;

(g) Encourage subcontracting with LSA concerns (see subpart 20.3);

(h) Assist depressed industries (see 20.105);

(i) Cooperate with the Departments of Labor and Commerce, the Small Business Administration, and the Federal Emergency Management Agency (FEMA) to achieve the objectives of this part 20; and

(j) See 25.104 regarding purchases from qualifying countries where LSA set-asides are involved.

20.105 Depressed industries.

When an entire industry is depressed, FEMA under Defense Manpower Policy No. 4B may establish appropriate measures on an industry wide, rather than on an area-wide, basis. Designations of depressed industries are made by FEMA notifications. Contracting officers shall give industries special treatment as specified in the notification. No price differentials shall be paid to carry out the policies of these notifications.

20.106 Records and reports.

Agencies shall maintain records of contracts performed in LSA's as necessary to prepare required reports (see subpart 4.6).

Subpart 20.2—Set-Asides

20.201 Set-asides for labor surplus area concerns.

20.201-1 Total set-asides.

Subject to the order of precedence in 19.504, and in accordance with any applicable agency procedure, the contracting officer shall set aside the entire amount of an individual acquisition or class of acquisitions for LSA concerns when there is a reasonable expectation that offers will be obtained from a sufficient number of responsible LSA concerns so that awards will be made at reasonable prices. Past acquisition history of the item or similar items is not the only controlling factor that agencies shall consider in determining whether a reasonable expectation exists.

20.201-2 Department of Defense set-asides.

(a) Except as noted in paragraph (b) below, this part 20 does not apply to contracts awarded by Department of Defense (DOD) components. This exemption results from 10 U.S.C. 2392, which precludes payment by DOD of a price differential in contracts awarded for purposes of relieving economic dislocations, and from special provisions in annual Defense Appropriation Acts. Detailed implementation by DOD of Defense Manpower Policy 4B is contained in the DOD FAR Supplement and applicable agency procedures.

(b) Contracts funded by Military Construction Appropriation Acts, and any other Defense contracts that are not subject to a limitation on payment of a price differential for relieving economic dislocation are subject to 20.201-1.

20.202 Contract clause.

The contracting officer shall insert the clause at 52.220-2, Notice of Total Labor Surplus Area Set-Aside, in solicitations and contracts estimated to exceed the appropriate small purchase limitation in part 13 that are totally set aside for LSA concerns.

20.203 Rejection of set-asides.

The contracting officer may not base the rejection of an LSA set-aside on any of the following:

(a) A large part of the previous acquisition of the required item was placed with LSA concerns.

(b) The item is on an established planning list under the Industrial Preparedness Planning Program.

(c) The item is on a Qualified Products List (see subpart 9.2).

(d) A period of less than 30 days from the date of issuance of the solicitation is prescribed for the submission of offers.

(e) The acquisition is classified.

20.204 Award procedures.

(a) The contracting officer shall award contracts involving total LSA set-asides by using sealed bids (see part 14) or competitive proposals (see part 15). See part 6 for competition requirements.

(b) Offers received from concerns that do not qualify as LSA concerns shall be considered nonresponsive and shall be rejected.

[48 FR 42256, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

20.205 Withdrawal of set-asides.

(a) If before contract award the contracting officer considers that a set-aside is detrimental to the public interest (e.g., because of unreasonable prices), the contracting officer shall withdraw the set-aside and, if desired complete the acquisition by sealed bidding or negotiation, as appropriate.

(b) The contracting officer shall include in the contract file a record of the reasons for any withdrawal of a set-aside.

[48 FR 42256, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

Subpart 20.3—Labor Surplus Area Subcontracting Program

20.301 General.

(a) In contracts that exceed the appropriate small purchase limitation in part 13 but do not exceed $500,000, contractors are required to use their best efforts to subcontract with LSA concerns when such subcontracting is (1) consistent with the efficient performance of the contract and (2) at prices no higher than are obtainable elsewhere.

(b) In contracts that may exceed $500,000, contractors are required to take affirmative actions to subcontract with LSA concerns when such subcontracting is (1) consistent with efficient performance of the contract and (2) at prices no higher than are obtainable elsewhere. Contractors are also required to impose similar responsibilities on major subcontractors.

0.302 Contract clauses.

(a) The contracting officer shall nsert the clause at 52.220-3, Utiliza-ion of Labor Surplus Area Concerns, n solicitations and contracts, when it s estimated that the contract will xceed the appropriate small purchase mitation in part 13, except—

(1) Contracts with foreign contrac-ors that, including all related subcon-racts, are to be performed entirely utside the United States, its territo-es and possessions, Puerto Rico, and e Trust Territory of the Pacific Is-nds; and

(2) Contracts for services that are rsonal in nature.

(b) The contracting officer shall sert the clause at 52.220-4, Labor rplus Area Subcontracting Program, solicitations and contracts that (1) ay exceed $500,000, (2) contain the use at 52.220-3, Utilization of Labor Surplus Area Concerns, and (3) in the opinion of the contracting officer, offer substantial subcontracting possibilities. In addition, the contracting officer shall urge contractors that will receive negotiated contracts that may not exceed $500,000 but that meet the criteria in (2) and (3) above, to accept the clause at 52.220-4.

20.303 Review of subcontracting program.

(a) Agencies shall review the adequacy of the contractor's LSA subcontracting program through individual agency reviews or cross-servicing arrangements (see subpart 42.1 Interagency Contract Administration and Audit Services).

(b) To carry out the Government's objectives, contractors and subcontractors having LSA subcontracting programs must be informed of (1) the Government's evaluation of their programs, (2) any deficiencies, and (3) any areas of outstanding achievement. The contracting officer shall document, for use in evaluating future offers, any evaluation and remarks to the contractor, including areas of suggested improvement and areas where the contractor has exceeded contractual requirements.

SOURCE: 48 FR 42258, Sept. 19, 1983, unless otherwise noted.

22.000 Scope of part.

This part—

(a) Deals with general policies regarding contractor labor relations as they pertain to the acquisition process;

(b) Prescribes contracting policy and procedures for implementing pertinent labor laws; and

(c) Prescribes contract clauses with respect to each pertinent labor law.

22.001 Definition.

Administrator or *Administrator, Wage and Hour Division,* as used in this part, means the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210 or an authorized representative.

[53 FR 4935, Feb. 18, 1988]

Subpart 22.1—Basic Labor Policies

22.101 Labor relations.

22.101-1 General.

(a) Agencies shall maintain sound relations with industry and labor to ensure (1) prompt receipt of information involving labor relations that may adversely affect the Government acquisition process and (2) that the Government obtains needed supplies and services without delay. All matters regarding labor relations shall be handled in accordance with agency procedures.

(b) Agencies shall remain impartial concerning any dispute between labor and contractor management and not undertake the conciliation, mediation, or arbitration of a labor dispute. To the extent practicable, agencies should ensure that the parties to the dispute use all available methods for resolving the dispute, including the services of the National Labor Relations Board, Federal Mediation and Conciliation Service, the National Mediation Board and other appropriate Federal, State, local, or private agencies.

(c) Agencies should, when practicable, exchange information concerning labor matters with other affected agencies to ensure a uniform Government approach concerning a particular plant or labor-management dispute.

(d) Agencies should take other actions concerning labor relations problems to the extent consistent with their acquisition responsibilities. For example, agencies should—

(1) Notify the agency responsible for conciliation, mediation, arbitration, or other related action of the existence of any labor dispute affecting or threatening to affect agency acquisition programs;

(2) Furnish to the parties to a dispute factual information pertinent to the dispute's potential or actual adverse impact on these programs, to the extent consistent with security regulations; and

(3) Seek a voluntary agreement between management and labor, notwithstanding the continuance of the dispute, to permit uninterrupted acquisition of supplies and services. This shall only be done, however, if the attempt to obtain voluntary agreement does not involve the agency in the merits of the dispute and only after consultation with the agency responsible for conciliation, mediation, arbitration, or other related action.

(e) The head of the contracting activity may designate programs or requirements for which it is necessary that contractors be required to notify the Government of actual or potential labor disputes that are delaying or threaten to delay the timely contract performance (see 22.103-5(a)).

Reproduced from poor document.

22.101-2 Contract pricing and administration.

(a) Contractor labor policies and compensation practices, whether or not included in labor-management agreements, are not acceptable bases for allowing costs in cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts if they result in unreasonable costs to the Government. For a discussion of allowable costs resulting from labor-management agreements, see 31.205-6(c).

(b) Labor disputes may cause work stoppages that delay the performance of Government contracts. Contracting officers shall impress upon contractors that each contractor shall be held accountable for reasonably avoidable delays. Standard contract clauses dealing with default, excusable delays, etc., do not relieve contractors or subcontractors from the responsibility for delays that are within the contractors' or their subcontractors' control. A delay caused by a strike that the contractor or subcontractor could not reasonably prevent can be excused; however, it cannot be excused beyond the point at which a reasonably diligent contractor or subcontractor could have acted to end the strike by actions such as—

(1) Filing a charge with the National Labor Relations Board to permit the Board to seek injunctive relief in court.

(2) Using other available Government procedures.

(3) Using private boards or organizations to settle disputes.

(c) Strikes normally result in changing patterns of cost incurrence and therefore may have an impact on the allowability of costs for cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts. Certain costs may increase because of strikes; e.g., guard services and attorney's fees. Other costs incurred during a strike may not fluctuate (e.g., *fixed costs* such as rent and depreciation), but because of reduced production, their proportion of the unit cost of items produced increases. All costs incurred during strikes shall be carefully examined to ensure recognition of only those costs necessary for performing the contract in accordance with the Government's essential interest.

(d) If during a labor dispute, the inspectors' safety is not endangered, the normal functions of inspection at the plant of a Government contractor shall be continued without regard to the existence of a labor dispute, strike, or picket line.

22.101-3 Reporting labor disputes.

The office administering the contract shall report, in accordance with agency procedures, any potential or actual labor disputes that may interfere with performing any contracts under its cognizance. If a contract contains the clause at 52.222-1, Notice to the Government of Labor Disputes, the contractor also must report any actual or potential dispute that may delay contract performance.

22.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a) Items shall be removed from contractors' facilities affected by work stoppages in accordance with agency procedures. Agency procedures should allow for the following:

(1) Determine whether removal of items is in the Government's interest. Normally the determining factor is the critical needs of an agency program.

(2) Attempt to arrange with the contractor and the union representative involved their approval of the shipment of urgently required items.

(3) Obtain appropriate approvals from within the agency.

(4) Determine who will remove the items from the plant(s) involved.

(b) Avoid the use or appearance of force and prevent incidents that might detrimentally affect labor-management relations.

(c) When two or more agencies' requirements are or may become involved in the removal of items, the contract administration office shall ensure that the necessary coordination is accomplished.

22.102 Federal and State labor requirements.

22.102-1 Policy.

Agencies shall cooperate, and encourage contractors to cooperate, with Federal and State agencies responsible for enforcing labor requirements concerning matters such as—

(a) Safety;

(b) Health and sanitation;

(c) Maximum hours and minimum wages;

(d) Equal employment opportunity;

(e) Child and convict labor;

(f) Age discrimination;

(g) Disabled and Vietnam veteran employment; and

(h) Employment of the handicapped.

22.102-2 Administration.

(a) Agencies shall cooperate with, and encourage contractors to use to the fullest extent practicable, the United States Employment Service (USES) and its affiliated local State Employment Service offices in meeting contractors' labor requirements. These requirements may be to staff new or expanding plant facilities, including requirements for workers in all occupations and skills from local labor market areas or through the Federal-State employment clearance system.

(b) Local State employment offices are operated throughout the United States, Puerto Rico, Guam, and the Virgin Islands. In addition to providing recruitment assistance to contractors, cooperation with the local State Employment Service offices will further the national program of maintaining continuous assessment of manpower requirements and resources on a national and local basis.

22.103 Overtime.

22.103-1 Definitions.

Normal workweek, as used in this subpart, means, generally, a workweek of 40 hours. Outside the United States, its possessions, and Puerto Rico, a workweek longer than 40 hours shall be considered normal if:

(a) The workweek does not exceed the norm for the area, as determined by local custom, tradition, or law; and

(b) The hours worked in excess of 40 in the workweek are not compensated at a premium rate of pay.

Overtime means time worked by a contractor's employee in excess of the employee's normal workweek.

Overtime premium means the difference between the contractor's regular rate of pay to an employee for the shift involved and the higher rate paid for overtime. It does not include shift premium.

Shift premium means the difference between the contractor's regular rate of pay to an employee and the higher rate paid for extra-pay-shift work.

[48 FR 42258, Sept. 19, 1983 as amended at 51 FR 12293, Apr. 9, 1986]

22.103-2 Policy.

Contractors shall perform all contracts, so far as practicable, without using overtime, particularly as a regular employment practice, except when lower overall costs to the Government will result or when it is necessary to meet urgent program needs. Any approved overtime, extra-pay shifts, and multishifts should be scheduled to achieve these objectives.

22.103-3 Procedures.

(a) Solicitations normally shall not specify delivery or performance schedules that may require overtime at Government expense.

(b) In negotiating contracts, contracting officers should, consistent with the Government's needs, attempt to (1) ascertain the extent that offers are based on the payment of overtime and shift premiums and (2) negotiate contract prices or estimated costs without these premiums or obtain the requirement from other sources.

(c) When it becomes apparent during negotiations of applicable contracts (see 22.103-5(b)) that overtime will be required in contract performance, the contracting officer shall secure from the contractor a request for all overtime to be used during the life of the contract, to the extent that the overtime can be estimated with reasonable certainty. The contractor's request shall contain the information required by paragraph (b) of the clause at 52.222-2, Payment for Overtime Premiums.

22.103-4 Approvals.

(a) The contracting officer shall review the contractor's request for overtime. Approval of the use of overtime may be granted by an agency approving official after determining in writing that overtime is necessary to—

(1) Meet essential delivery or performance schedules;

(2) Make up for delays beyond the control and without the fault or negligence of the contractor; or

(3) Eliminate foreseeable extended production bottlenecks that cannot be eliminated in any other way.

(b) Approval by the designated official of use and total dollar amount of overtime is required before inclusion of an amount in paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums. This clause is to be inserted in cost-reimbursement contracts over $100,000, except for those exempted under 22.103-5(b).

(c) Contracting officer approval of payment of overtime premiums is required for time-and-materials and labor-hour contracts (see paragraph (a)(3) of the clause at 52.232-7, Payments Under Time-and-Materials and Labor-Hour Contracts).

(d) No approvals are required for paying overtime premiums under other types of contracts.

(e) Approvals by the agency approving official (see 22.103-4(a)) may be for an individual contract, project, program, plant, division, or company, as practical.

(f) During contract performance, contractor requests for overtime exceeding the amount authorized by paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums, shall be submitted as stated in paragraph (b) of the clause to the office administering the contract. That office will review the request and if it approves, send the request to the contracting officer. If the contracting officer determines that the requested overtime should be approved in whole or in part, the contracting officer shall request the approval of the agency's designated approving official and modify paragraph (a) of the clause to reflect any approval.

(g) Overtime premiums at Government expense should not be approved when the contractor is already obligated, without the right to additional compensation, to meet the required delivery date.

(h) When the use of overtime is authorized under a contract, the office administering the contract and the auditor should periodically review the use of overtime to ensure that it is allowable in accordance with the criteria in part 31. Only overtime premiums for work in those departments, sections, etc., of the contractor's plant that have been individually evaluated and the necessity for overtime confirmed shall be considered for approval.

(i) Approvals for using overtime shall ordinarily be prospective, but, if justified by emergency circumstances, approvals may be retroactive.

22.103-5 Contract clauses.

(a) The contracting officer shall insert the clause 52.222-1, Notice to the Government of Labor Disputes, in solicitations and contracts that involve programs or requirements that have been designated under 22.101-1(e).

(b) The contracting officer shall include the clause at 52.222-2, Payment for Overtime Premiums, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract amount is expected to be over $100,000; unless (a) a cost-reimbursement contract for operation of vessels is contemplated, or (b) a cost-plus-incentive-fee contract that will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated.

Subpart 22.2—Convict Labor

22.201 General.

The policies and procedures controlling the employment of prison inmates in the performance of Government contracts are based on the following:

(a) Public Law 89-176 (18 U.S.C. 4082(c)(2)), that empowers the Attorney General to authorize Federal prisoners to work at paid employment in the community during their terms of imprisonment under conditions that protect against both the exploitation of convict labor and unfair competition with free labor.

(b) Executive Order 11755, December 29, 1973, that states: "The development of the occupational and educational skills of prison inmates is essential to their rehabilitation and to their ability to make an effective return to free society. Meaningful employment serves to develop those skills. It is also true, however, that care must be exercised to avoid either the exploitation of convict labor or any unfair competition between convict labor and free labor in the production of goods and services." The Executive order does not prohibit the contractor, in performing the contract, from employing—

(1) Persons on parole or probation;

(2) Persons who have been pardoned or who have served their terms;

(3) Federal prisoners authorized by the Attorney General under 18 U.S.C. 4082(c)(2) to work at paid employment in the community during the term of their imprisonment, if—

(i) The worker is paid or is in an approved work training program on a voluntary basis;

(ii) Representatives of local union central bodies or similar labor union organizations have been consulted;

(iii) Paid employment will not (A) result in the displacement of employed workers; (B) be applied in skills, crafts, or trades in which there is a surplus of available gainful labor in the locality; or (C) impair existing contracts for services; and

(iv) The rates of pay and other conditions of employment will not be less than those for work of a similar nature in the locality where the work is being performed; or

(4) Nonfederal prisoners under the conditions in 22.201(b) above if the Attorney General has certified that the work-release laws or regulations of the jurisdiction involved conform to the requirements of Executive Order 11755. The Executive order provides that, after notice and opportunity for hearing, the Attorney General shall revoke the certification if it is found that the jurisdiction's work-release program is not being conducted in conformance with the order or with its intention or purpose.

22.202 Contract clause.

The contracting officer shall insert the clause at 52.222-3, Convict Labor, in solicitations and contracts when the contract is to be performed in any State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Trust Territory of the Pacific Islands; unless—

(a) The contract will be subject to the Walsh-Healey Public Contracts Act (see subpart 22.6), which contains a separate prohibition against the employment of convict labor;

(b) The supplies or services are to be purchased from Federal Prison Industries, Inc. (see subpart 8.6); or

(c) The acquisition involves the purchase, from any State prison, of finished supplies that may be secured in the open market or from existing stocks, as distinguished from supplies requiring special fabrication.

Subpart 22.3—Contract Work Hours and Safety Standards Act

22.300 Scope of subpart.

This subpart prescribes policies and procedures for applying the requirements of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) (the Act) to contracts that may require or involve laborers or mechanics. In this subpart, the term *laborers or mechanics* includes apprentices, trainees, helpers, watchmen, guards, firefighters, fireguards, and workmen who perform services in connection with dredging or rock excavation in rivers or harbors, but does not include any employee employed as a seaman.

[51 FR 12293, Apr. 9, 1986]

22.301 Statutory requirement.

The Act requires that certain contracts contain a clause specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 40 hours in any workweek unless paid for all such overtime hours at not less than 1 ½ times the basic rate of pay.

[48 FR 42258, Sept. 19, 1983 as amended at 51 FR 12293, Apr. 9, 1986]

22.302 Liquidated damages and overtime pay.

(a) As set forth in the Act, when an overtime computation discloses underpayments, the contractor and any subcontractor responsible therefor shall be liable to the affected employee for the emplolyee's unpaid wages and shall, in addition, be liable to the Government for liquidated damages. Liquidated damages shall be computed for each affected employee in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of the standard workweek of 40 hours without payment of the overtime wages required by the Act.

(b) In the event of failure or refusal of the contractor or any subcontractor to comply with overtime pay requirements of the Act, if the funds withheld by Federal agencies for labor standards violations are not sufficient to pay fully both the unpaid wages due laborers and mechanics and the liquidated damages due the Government, the available funds shall be used first to compensate the laborers and mechanics for the wages to which they are entitled (or an equitable portion thereof when the funds are not adequate for this purpose); and the balance, if any, shall be used for the payment of liquidated damages.

(c) If the head of an agency or a designee finds that the administratively determined liquidated damages due under section 104(c) of the Contract Work Hours and Safety Standards Act are incorrect, or that the contractor or subcontractor inadvertently violated the provisions of the Act notwithstanding the exercise of due care, the agency head or a designee may—

(1) Make an adjustment in, or release the contractor or subcontractor from the liability for, liquidated damages of $500 or less; or

(2) Make a recommendation to the Secretary of Labor for an adjustment in or release from the liability when the liquidated damages are over $500.

(d) Upon final administrative determination, funds withheld or collected for liquidated damages shall be disposed of in accordance with agency procedures.

[51 FR 12293, Apr. 9, 1986, as amended at 53 FR 4935, Feb. 18, 1988]

22.303 Administration and enforcement.

The procedures and reports required for construction contracts in subpart 22.4 also apply to investigations of alleged violations of the Act on other than construction contracts.

22.304 Variations, tolerances, and exemptions.

(a) The Secretary of Labor under 40 U.S.C. 331, upon the Secretary's initiative or at the request of any Federal agency, may provide reasonable limitations and allow variations, tolerances, and exemptions to and from any or all provisions of the Act (see 29 CFR 5.15).

(b) The Secretary of Labor may make variations, tolerances, and exemptions from the regulatory requirements of applicable parts of 29 CFR when the Secretary finds that such action is necessary and proper in the public interest or to prevent injustice and undue hardship (see 29 CFR 5.14).

[51 FR 12293, Apr. 9, 1986]

22.305 Contract clause.

The contracting officer shall insert the clause at 52.222-4, Contract Work Hours and Safety Standards Act—Overtime Compensation, in solicitations and contracts (including, for this purpose, basic ordering and blanket purchase agreements) when the contract may require or involve the employment of laborers or mechanics. However, the contracting officer shall not include the clause in solicitations and contracts if it is contemplated that the contract will be in one of the following categories:

(a) Construction contracts of $2,000 or less.

(b) Contracts, other than construction contracts, of $2,500 or less. Indefinite quantity or requirements contracts, including basic ordering agreements and blanket purchase agreements are exempt, if it can be determined in advance that the aggregate amount of all orders estimated to be placed thereunder for one year after the effective date of the agreement will not exceed $2,500. A determination shall be made annually thereafter if the contract or agreement is extended and the contract or agreement modified if necessary.

(c) Contracts for supplies, materials, or articles ordinarily available in the open market.

(d) Contracts for transportation by land, air, or water, or for the transmission of intelligence.

(e) Contracts to be performed solely within a foreign country or within a territory under United States jurisdiction other than a State, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331), American Samoa, Guam, Wake Island, and Johnston Island.

(f) Contracts requiring work to be done solely in accordance with the Walsh-Healey Public Contracts Act (see subpart 22.6).

(g) Contracts (or portions of contracts) for supplies in connection with which any required services are merely incidental to the contract and do not require substantial employment of laborers or mechanics.

(h) Any other contracts exempt under regulations of the Secretary of Labor (29 CFR 5.15).

[51 FR 12293, Apr. 9, 1986, as amended at 53 FR 661, Jan. 11, 1988]

Subpart 22.4—Labor Standards for Contracts Involving Construction

SOURCE: 53 FR 4935, Feb. 18, 1988, unless otherwise noted.

22.400 Scope of subpart.

This subpart implements the statutes which prescribe labor standards requirements for contracts in excess of $2,000 for construction, alteration, or repair, including painting and decorating, of public buildings and public works. (See definition of *Construction* in section 22.401.) Labor relations r quirements prescribed in other su parts of part 22 may also apply.

22.401 Definitions.

Building or *work*, as used in th subpart generally means constructio activity as distinguished from man facturing, furnishing of materials, o servicing and maintenance work. Th terms include, without limitatio buildings, structures, and improv ments of all types, such as bridge dams, plants, highways, parkway streets, subways, tunnels, sewer mains, power lines, pumping station heavy generators, railways, airport terminals, docks, piers, wharves, way lighhouses, buoys, jetties, breakwater levees, canals, dredging, shoring, reha bilitation and reactivation of plant scaffolding, drilling, blasting, excava ing, clearing, and landscaping. Th manufacture or furnishing of mater als, articles, supplies, or equipmen (whether or not a Federal or Stat agency acquires title to such materials articles, supplies, or equipment durin the course of the manufacture or fur nishing, or owns the materials fro which they are manufactured or fur nished) is not *building* or *work* withi the meaning of the regulations in thi subpart unless conducted in connec tion with and at the site of such build ing or work as is described in the fore going sentence, or under the Unite States Housing Act of 1937 and th Housing Act of 1949 in the construc tion or development of the project.

Construction, alteration, or repair, as used in this subpart, means al types of work done on a particular building or work at the site thereof including without limitation, altering remodeling, installation (if appropriate) on the site of the work of items fabricated off-site, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor, and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work by persons employed by the contractor or subcontractor.

Laborers or mechanics, as used in this subpart, includes—

(a) Those workers, utilized by a contractor or subcontractor at any tier, whose duties are manual or physical in nature (including those workers who use tools or who are performing the work of a trade), as distinguished from mental or managerial;

(b) Apprentices, trainees, helpers, and, in the case of contracts subject to the Contract Work Hours and Safety Standards Act, watchman and guards;

(c) Working foremen who devote more than 20 percent of their time during a workweek performing duties of a laborer or mechanic, and who do not meet the criteria of 29 CFR part 541, for the time so spent; and

(d) Every person performing the duties of a laborer or mechanic, regardless of any contractual relationship alleged to exist between the contractor and those individuals. The terms exclude workers whose duties are primarily executive, supervisory (except as provided in paragraph (c) of this definition), administrative, or clerical, rather than manual. Persons employed in a bona fide executive, administrative, or professional capacity as defined in 29 CFR part 541 are not deemed to be laborers or machanics.

Public building or *public work,* as used in this subpart, means building or work, the construction, prosecution, completion, or repair of which, as defined in this section, is carried on directly by authority of, or with funds of, a Federal agency to serve the interest of the general public regardless of whether title thereof is in a Federal agency.

Site of the work, as used in this subpart, is defined as follows:

(a) The *site of the work* is limited to the physical place or places where the construction called for in the contract will remain when work on it is completed, and nearby property, as described in paragraph (b) of this definition, used by the contractor or subcontractor during construction that, because of proximity, can reasonably be included in the *site.*

(b) Except as provided in paragraph (c) of this definition, fabrication plants, mobile factories, batch plants, borrow pits, job headquarters, tool yards, etc., are parts of the *site of the work;* provided they are dedicated exclusively, or nearly so, to performance of the contract or project, and are so located in proximity to the actual construction location that it would be reasonable to include them.

(c) The *site of the work* does not include permanent home offices, branch plant establishments, fabrication plants, or tool yards of a contractor or subcontractor whose locations and continuance in operation are determined wholly without regard to a particular Federal contract or project. In addition, fabrication plants, batch plants, borrow pits, job headquarters, yards, etc., of a commercial supplier or materialman which are established by a supplier of materials for the project before opening of bids and not on the project site, are not included in the *site of the work.* Such permanent, previously established facilities are not a part of the *site of the work,* even if the operations for a period of time may be dedicated exclusively, or nearly so, to the performance of a contract.

Wages, as used in this subpart, means the basic hourly rate of pay; any contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a bona fide fringe benefit fund, plan, or program; and the rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing bona fide fringe benefits to laborers and mechanics pursuant to an enforceable commitment to carry out a financially responsible plan or program, which was communicated in writing to the laborers and mechanics affected. The fringe benefits enumerated in the Davis-Bacon Act include medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing; unemployment benefits; life insurance, disability insurance, sickness, insurance, or accident insurance; vacation or holiday pay; defraying costs of apprenticeship or other similar programs; or other bona fide fringe benefits. Fringe benefits do not include benefits required by other Federal, State, or local law.

22.402 Applicability.

(a) *Contracts for construction work.* (1) The requirements of this subpart apply—

(i) Only if the construction work is, or reasonably can be foreseen to be, performed at a particular site so that wage rates can be determined for the locality, and only to construction work that is performed by laborers and mechanics at the site of the work;

(ii) To dismantling, demolition, or removal of improvements if a part of the construction contract, or if construction at that site is anticipated by another contract as provided in subpart 37.3;

(iii) To the manufacture or fabrication of construction materials and components conducted in connection with the construction and on the site of the work by the contractor or a subcontractor under a contract otherwise subject to this subpart; and

(iv) To painting of public buildings or public works, whether performed in connection with the original construction or as alteration or repair of an existing structure.

(2) The requirements of this subpart do not apply to—

(i) The manufacturing of components or materials off the site of the work or their subsequent delivery to the site by the commercial supplier or materialman;

(ii) Contracts requiring construction work that is so closely related to research, experiment, and development that it cannot be performed separately, or that is itself the subject of research, experiment, or development (see paragraph (b) of this section for applicability of this subpart to research and development contracts or portions thereof involving construction, alteration, or repair of a public building or public work);

(iii) Employees of railroads operating under collective bargaining agreements that are subject to the Railway Labor Act; or

(iv) Employees who work at contractors' or subcontractors' permanent home offices, fabrication shops, or tool yards not located at the site of the work. However, if the employees go to the site of the work and perform construction activities there, the requirements of this subpart are applicable for the actual time so spent, not including travel unless the employees transport materials or supplies to or from the site of the work.

(b) *Nonconstruction contracts involving some construction work.* (1) The requirements of this subpart apply to construction work to be performed as part of nonconstruction contracts (supply, service, research and development, etc.) if—

(i) The construction work is to be performed on a public building or public work;

(ii) The contract contains specific requirements for a substantial amount of construction work exceeding the monetary threshold for application of the Davis Bacon Act (the word *substantial* relates to the type and quantity of construction work to be performed and not merely to the total value of construction work as compared to the total value of the contract); and

(iii) The construction work is physically or functionally separate from, and is capable of being performed on a segregated basis from, the other work required by the contract.

(2) The requirements of this subpart do not apply if—

(i) The construction work is incidental to the furnishing of supplies, equipment, or services (for example, the requirements do not apply to simple installation or alteration at a public building or public work that is incidental to furnishing supplies or equipment under a supply contract; however, if a substantial and segregable amount of construction, alteration, or repair is required, such as for installation of heavy generators or large refrigerator systems or for plant modification or rearrangement, the requirements of this subpart apply); or

(ii) The construction work is so merged with nonconstruction work or so fragmented in terms of the locations or time spans in which it is to be performed, that it is not capable of being segregated as a separate contractual requirement.

22.403 Statutory and regulatory requirements.

22.403-1 Davis-Bacon Act.

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works within the United States, shall contain a clause (see 52.222-6) that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor.

22.403-2 Copeland Act.

The Copeland (Anti-Kickback) Act (18 U.S.C. 874 and 40 U.S.C. 276c) makes it unlawful to induce, by force, intimidation, threat of procuring dismissal from employment, or otherwise, any person employed in the construction or repair of public buildings or public works, financed in whole or in part by the United States, to give up any part of the compensation to which that person is entitled under a contract of employment. The Copeland Act also requires each contractor and subcontractor to furnish weekly a statement of compliance with respect to the wages paid each employee during the preceding week. Contracts subject to the Copeland Act shall contain a clause (see 52.222-10) requiring contractors and subcontractors to comply with the regulations issued by the Secretary of Labor under the Copeland Act.

22.403-3 Contract Work Hours and Safety Standards Act.

The Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) requires that certain contracts (see 22.305) contain a clause (see 52.222-4) specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 40 hours in any workweek unless paid for all additional hours at not less than 1½ times the basic rate of pay (see 22.301).

22.403-4 Department of Labor regulations.

Under the statutes referred to in this 22.403 and Reorganization Plan No. 14 of 1950 (3 CFR 1949-53 Comp., p. 1007), the Secretary of Labor has issued regulations in Title 29, Subtitle A, Code of Federal Regulations, prescribing standards and procedures to be observed by the Department of Labor and the Federal contracting agencies. Those standards and procedures applicable to contracts involving construction are implemented in this subpart. The Department of Labor regulations include—

(a) Part 1, relating to Davis-Bacon Act minimum wage rates;

(b) Part 3, relating to the Copeland (Anti-Kickback) Act and requirements for submission of weekly statements of compliance and the preservation and inspection of weekly payroll records;

(c) Part 5, relating to enforcement of the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, and Copeland (Anti-Kickback) Act;

(d) Part 6, relating to rules of practice for appealing the findings of the Administrator, Wage and Hour Division, in enforcement cases under the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, Copeland (Anti-Kickback) Act, and Service Contract Act, and by which Administrative Law Judge hearings are held; and

(e) Part 7, relating to rules of practice by which contractors and other interested parties may appeal to the Department of Labor Wage Appeals Board, decisions issued by the Administrator, Wage and Hour Division, or administrative law judges under the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, or Copeland (Anti-Kickback) Act. All questions relating to the application and interpretation of wage determinations (including the classifications therein) and the interpretation of the Department of Labor regulations in this subsection shall be referred to the Administrator, Wage and Hour Division.

22.404 Davis-Bacon Act wage determinations.

The Department of Labor is responsible for issuing wage determinations reflecting prevailing wages, including fringe benefits. The wage determinations apply only to those laborers and mechanics employed by a contractor upon the site of the work including drivers who transport to or from the site materials and equipment used in the course of contract operations. Determinations are issued for different types of construction, such as building, heavy, highway, and residential (referred to as rate schedules), and apply only to the types of construction designated in the determination.

22.404-1 Types of wage determinations.

(a) *General wage determinations.*

(1) A general wage determination contains prevailing wage rates for the types of construction designated in the determination, and is used in contracts performed within a specified geographical area. General wage determinations contain no expiration date and remain valid until modified, superseded, or canceled by a notice in the FEDERAL REGISTER by the Department of Labor. Once incorporated in a contract, a general wage determination normally remains effective for the life of the contract. These determinations shall be used whenever possible. They are issued at the discretion of the Department of Labor either upon receipt of an agency request or on the Department of Labor's own initiative.

(2) General wage determinations are published weekly in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts." Notices of general wage determinations are published in the FEDERAL REGISTER. General wage determinations are effective on the publication date of the notice or upon receipt of the determination by the contracting agency, whichever occurs first.

(3) The GPO publication is available for examination at each of the 50 Regional Government Depository Libraries and many other of the 1,400 Government Depository Libraries across the country. Subscriptions may be obtained by contacting: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. The GPO publication is divided into three volumes East, Central, and West which may be ordered separately. The States covered by each volume are as follows:

VOLUME I—EAST

Alabama
Connecticut
Delaware
Florida
Georgia
Kentucky
Maine
Maryland
Massachusetts
Mississippi
New Hampshire
New Jersey
New York
North Carolina
Pennsylvania
Rhode Island
South Carolina
Tennessee
Vermont
Virginia
West Virginia
District of Columbia
Puerto Rico
Virgin Islands

VOLUME II—CENTRAL

Arkansas
Illinois
Iowa
Indiana
Kansas
Louisiana
Michigan
Minnesota
Missouri
Nebraska
Ohio
Oklahoma
Texas
Wisconsin
New Mexico

VOLUME III—WEST

Alaska
Arizona
California
Colorado
Guam
Idaho
Montana
Nevada
North Dakota
Hawaii
South Dakota
Utah
Washington
Wyoming
Oregon

(4) On or about January 1 of each year, an annual edition will be issued that includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year regular weekly updates will be distributed providing any modifications or superseded wage determinations issued. Each volume's annual and weekly editions will be provided in loose-leaf format.

(b) *Project wage determinations.* A project wage determination is issued at the specific request of a contracting agency. It is used only when no general wage determination applies, and is effective for 180 calendar days from the date of the determination. However, if a determination expires before contract award, it may be possible to obtain an extension to the 180-day life of the determination (see 22.404-5(b)(2)). Once incorporated in a contract, a project wage determination normally remains effective for the life of the contract.

22.404-2 General requirements.

(a) The contracting officer shall ensure that only the appropriate wage determinations are incorporated in solicitations and contracts and shall designate the work to which each wage determination or part thereof applies.

(b) If the wage determination is a general wage determination or a project wage determination containing more than one rate schedule, the contracting officer shall either include only the rate schedules that apply to the particular types of construction (building, heavy, highway, etc.) or include the entire wage determination and clearly indicate the parts of the work to which each rate schedule shall be applied. Inclusion by reference is not permitted.

(c) The Wage and Hour Division has issued the following general guidelines for use in selecting the proper schedule(s) of wage rates:

(1) *Building* construction is generally the construction of sheltered enclosures with walk-in access, for housing persons, machinery, equipment, or supplies. It typically includes all construction of such structures, installation of utilities and equipment (both above and below grade level), as well as incidental grading, utilities and paving, unless there is an established area practice to the contrary.

(2) *Residential* construction is generally the construction, alteration, or repair of single family houses or apartment buildings of no more than four (4) stories in height, and typically includes incidental items such as site work, parking areas, utilities, streets and sidewalks, unless there is an established area practice to the contrary.

(3) *Highway* construction is generally the construction, alteration, or repair of roads, streets, highways, runways, taxiways, alleys, parking areas, and other similar projects that are not incidental to *building*, *residential*, or *heavy* construction.

(4) *Heavy* construction includes those projects that are not properly classified as either *building*, *residential*, or *highway*, and is of a catch-all nature. Such heavy projects may sometimes be distinguished on the basis of their individual characteristics, and separate schedules issued (e.g., *dredging*, *water and sewer line*, *dams*, *flood control*, etc.).

(5) When the nature of a project is not clear, it is necessary to look at additional factors, with primary consideration given to locally established area practices. If there is any doubt as to the proper application of wage rate schedules to the type or types of construction involved, guidance shall be sought before the opening of bids, or receipt of best and final offers, from the Administrator, Wage and Hour Division. Further examples are contained in Department of Labor All Agency Memoranda Numbers 130 and 131.

22.404-3 Procedures for requesting wage determinations.

(a) *Requests for general wage determinations.* If there is a general wage determination applicable to the project, the agency may use it without notifying the Department of Labor. When necessary, a request for a general wage determination may be made by submitting Standard Form (SF) 308, Request for Determination and Response to Request, to the Administrator, Wage and Hour Division, attention: Branch of Construction Contract Wage Determinations.

(b) *Requests for project wage determinations.* A contracting agency shall submit requests for project wage determinations on SF 308 to the Department of Labor. The requests shall include the following information:

(1) The location, including the county (or other civil subdivision) and State in which the proposed project is located.

(2) The name of the project and a sufficiently detailed description of the work to indicate the types of construction involved (e.g., building, heavy, highway, residential, or other type).

(3) Any available pertinent wage payment information, unless wage pat-

terns in the area are clearly established.

(4) The estimated cost of each project.

(5) All the classifications of laborers and mechanics likely to be employed.

(c) *Time for submission of requests.* The time required by the Department of Labor for processing requests for project wage determinations varies according to the facts and circumstances in each case. An agency should expect the processing to take at least 30 days. Accordingly, agencies should submit requests to the Department of Labor at least 45 days (60 days if possible) before issuing the solicitation.

(d) *Limitations.* Project wage determinations are effective for 180 calendar days from the date of issuance and apply only to contract awards made within that time period (see 22.404-1(b)). Project wage determinations do not apply to, and shall not be included in, contracts other than those for which they are issued. Once incorporated in a contract, a project wage determination normally remains effective for the life of the contract.

(e) *Review of wage determinations.* Immediately upon receipt, the contracting agency shall examine the wage determination and inform the Department of Labor of any changes necessary or appropriate to correct errors. Private parties requesting changes should be advised to submit their requests to the Department of Labor.

22.404-4 Solicitations issued without wage determinations.

(a) If a solicitation is issued before the wage determination is obtained, a notice shall be included in the solicitation that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the solicitation.

(b) In sealed bidding, bids may not be opened until a reasonable time after the wage determination has been furnished to all bidders.

(c) In negotiated acquisitions, the contracting officer may open proposals and conduct negotiations before obtaining the wage determination. However, the contracting officer shall incorporate the wage determination into the solicitation before submission of best and final offers.

22.404-5 Expiration of project wage determinations.

(a) The contracting officer shall make every effort to ensure that contract award is made before expiration of the project wage determination included in the solicitation.

(b) The following procedure applies when contracting by sealed bidding:

(1) If a project wage determination expires before bid opening, or if it appears before bid opening that a project wage determination may expire before award, the contracting officer shall request a new determination early enough to ensure its receipt before bid opening. If necessary, the contracting officer shall postpone the bid opening date to allow a reasonable time to obtain the determination, amend the solicitation to incorporate the new determination, and permit bidders to amend their bids. If the new determination does not change the wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the new determination.

(2) If a project wage determination expires after bid opening but before award, the contracting officer shall request an extension of the project wage determination expiration date from the Administrator, Wage and Hour Division. The request for extension shall be supported by a written finding, which shall include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice or undue hardship or to avoid serious impairment of the conduct of Government business. If necessary, the contracting officer shall delay award to permit either receipt of the extension or receipt and processing of a new determination. If the request is granted, the contracting officer shall award the contract and modify it to apply the extended expiration date to the already incorporated project wage determination. (See 43.103(b)(1).) If the request is denied, the Administrator will proceed to issue a new project wage deter-

mination. Upon receipt, the contracting officer shall process the new determination as follows:

(i) If the new determination changes any wage rates for classifications to be used in the contract, the contracting officer may cancel the solicitation only in accordance with 14.404-1. Otherwise the contracting officer shall award the contract and incorporate the new determination to be effective on the date of contract award. The contracting officer shall equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates.

(ii) If the new determination does not change any wage rates, the contracting officer shall award the contract and modify it to include the number and date of the new determination. (See 43.103(b)(1).)

(c) The following procedure applies when contracting by negotiation:

(1) If a project wage determination will or does expire before contract award, the contracting officer shall request a new wage determination from the Department of Labor. If necessary, the contracting officer shall delay award while the new determination is obtained and processed.

(2) The contracting officer need not delay opening and reviewing proposals or discussing them with the offerors while a new determination is being obtained. The contracting officer shall request offerors to extend the period for acceptance of any proposal if that period expires or may expire before receipt and full processing of the new determination.

(3) If the new determination changes any wage rates, the contracting officer shall amend the solicitation to incorporate the new determination, and furnish the wage rate information to all prospective offerors that were sent a solicitation if the closing date for receipt of proposals has not yet occurred, or to all offerors that submitted proposals if the closing date has passed. All offerors to whom wage rate information has been furnished shall be given reasonable opportunity to amend their proposals.

(4) If the new determination does not change any wage rates, the contracting officer shall amend the solicitation to include the number and date of the new determination and award the contract.

22.404-6 Modifications of wage determinations.

(a) *General.* The Department of Labor may modify a wage determination to make it current by specifying only the items being changed or by issuing a *supersedeas decision,* which is a reissuance of the entire determination with changes incorporated. All project wage determination modifications expire on the same day as the original determinaiton. The need to include a modification of a project wage determination in a solicitation is determined by the time of receipt of the modification by the contracting agency. Therefore, the modification shall be time-date stamped immediately upon receipt by the agency. The need for inclusion of a modification of a general wage determination in a solicitation is determined by the publication date of the notice in the Federal Register, or by the time of receipt of the modification (time-date stamped immediately upon receipt) by the contracting agency, whichever occurs first. (Note the distinction between receipt by the agency (modification is effective) and receipt by the contracting officer, which may occur later.)

(b) The following applies when contracting by sealed bidding:

(1) A written action modifying a wage determination shall be effective if:

(i) It is received by the contracting agency, or notice of the modification is published in the Federal Register, 10 or more calendar days before the date of bid opening, or

(ii) It is received by the contracting agency, or notice of the modification is published in the Federal Register, less than 10 calendar days before the date of bid opening, unless the contracting officer finds that there is not reasonable time available before bid opening to notify the prospective bidders. (If the contracting officer finds that there is not reasonable time to notify bidders, a written report of the finding shall be placed in the contract file and shall be made available to the Department of Labor upon request.)

(2) All written actions modifying wage determinations received by the contracting agency after bid opening, or modifications to general wage determinations, notices of which are published in the FEDERAL REGISTER after bid opening, shall not be effective and shall not be included in the solicitation (but see paragraph (b)(6) of this section).

(3) If an effective modification is received by the contracting officer before bid opening, the contracting officer shall postpone the bid opening, if necessary, to allow a reasonable time to amend the solicitation to incorporate the modification and permit bidders to amend their bids. If the modification does not change the wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the modification.

(4) If an effective modification is received by the contracting officer after bid opening, but before award, the contracting officer shall follow the procedures in 22.404-5(b)(2)(i) or (ii).

(5) If an effective modification is received by the contracting officer after award, the contracting officer shall modify the contract to incorporate the wage modification retroactive to the date of award and equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates. If the modification does not change any wage rates and would not warrant contract price adjustment, the contracting officer shall modify the contract to include the number and date of the modification.

(6) If an award is not made within 90 days after bid opening, any modification to a general wage determination, notice of which is published in the FEDERAL REGISTER before award, shall be effective for any resultant contract unless an extension of the 90-day period is obtained from the Administrator, Wage and Hour Division. An agency head or a designee may request such an extension from the Administrator. The request must be supported by a written finding, which shall include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice, undue hardship, or to avoid serious impairment in the conduct of Government business. The contracting officer shall follow the procedures in 22.404-5(b)(2).

(c) The following applies when contracting by negotiation:

(1) All written actions modifying wage determinations received by the contracting agency before contract award, or modifications to general wage determinations notices of which are published in the FEDERAL REGISTER before award, shall be effective.

(2) If an effective wage modification is received by the contracting officer before award, the contracting officer shall follow the procedures in 22.404-5(c)(3) or (4).

(3) If an effective wage modification is received by the contracting officer after award, the contracting officer shall follow the procedures in 22.404-6(b)(5).

22.404-7 Correction of wage determinations containing clerical errors.

Upon the Labor Department's own initiative or at the request of the contracting agency, the Administrator, Wage and Hour Division, may correct any wage determination found to contain clerical errors. Such corrections shall be effective immediately and shall apply to any solicitation or active contract. The contracting officer shall follow the procedures in 22.404-5(b)(1) or (2)(i) or (ii) in sealed bidding, 22.404-5(c)(3) or (4) in negotiations, and 22.404-6(b)(5) after contract award.

22.404-8 Notification of improper wage determination before award.

(a) Written notification by the Department of Labor received by the contracting officer prior to award that (1) a solicitation includes the wrong wage determination or the wrong rate schedule or (2) a wage determination is withdrawn by the Department of Labor as a result of a decision by the Wage Appeals Board, shall be effective immediately without regard to 22.404-6.

(b) In sealed bidding, the contracting officer shall proceed in accordance with the following:

(1) If the notification reaches the contracting officer before bid opening, the contracting officer shall postpone the bid opening date, if necessary, to allow a reasonable time to (i) obtain the appropriate determination if a new wage determination is required, (ii) amend the solicitation to incorporate the determination (or rate schedule), and (iii) permit bidders to amend their bids. If the appropriate wage determination does not change any wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the new determination.

(2) If the notification reaches the contracting officer after bid opening but before award, the contracting officer shall delay awarding the contract, if necessary, and if required, obtain the appropriate wage determination. The appropriate wage determination shall be processed in accordance with 22.404-5(b)(2)(i) or (ii).

(c) In negotiated acquisitions, the contracting officer shall delay award, if necessary, and process the notification in the manner prescribed for a new wage determination at 22.404-5(c)(3).

22.404-9 Award of contract without required wage determination.

(a) If a contract is awarded without the required wage determination (i.e., incorporating no determination, containing a clearly inapplicable general wage determination, or containing a project determination which is inapplicable because of an inaccurate description of the project or its location), the contracting officer shall initiate action to incorporate the required determination in the contract immediately upon discovery of the error. If a required wage determination (valid determination in effect on the date of award) is not available, the contracting officer shall expeditiously request a wage determination from the Department of Labor, including a statement explaining the circumstances and giving the date of the contract award.

(b) The contracting officer shall—

(1) Modify the contract to incorporate the required wage determination (retroactive to the date of award), and equitably adjust the contract price if appropriate; or

(2) Terminate the contract.

22.404-10 Posting wage determinations and notice.

The contractor is required to keep a copy of the wage determination (and any approved additional classifications) posted at the site of the work in a prominent place where it can be easily seen by the workers. The contracting officer shall furnish to the contractor, Department of Labor Form WH-1321, Notice to Employees Working on Federal and Federally Financed Construction Projects, for posting with the wage rates. The name, address, and telephone number of the Government officer responsible for the administration of the contract shall be indicated in the poster to inform workers to whom they may submit complaints or raise questions concerning labor standards.

22.404-11 Wage determination appeals.

The Secretary of Labor has established a Wage Appeals Board which decides appeals of final decisions made by the Department of Labor concerning Davis-Bacon Act wage determinations. A contracting agency or other interested party may file a petition for review under the procedures in 29 CFR Part 7 if reconsideration by the Administrator has been sought pursuant to 29 CFR 1.8 and denied.

22.405 Labor standards for construction work performed under facilities contracts.

If it is not certain at the time of contract award that construction work may be required under a facilities contract (see 45.301), the clause at 52.222-17, Labor Standards for Construction Work—Facilities Contracts (see 22.407(c)) shall be included in the contract. When covered construction work is necessary after contract award, the contracting officer shall obtain the appropriate wage determination and incorporate it in the contract and identify the item or items of construction work to which the clauses apply.

22.406 Administration and enforcement.

22.406-1 Policy.

(a) *General.* Contracting agencies are responsible for ensuring the full and impartial enforcement of labor standards in the administration of construction contracts. Contracting agencies shall maintain an effective program that shall include—

(1) Ensuring that contractors and subcontractors are informed, before commencement of work, of their obligations under the labor standards clauses of the contract;

(2) Adequate payroll reviews, on-site inspections, and employee interviews to determine compliance by the contractor and subcontractors, and prompt initiation of corrective action when required;

(3) Prompt investigation and disposition of complaints; and

(4) Prompt submission of all reports required by this subpart.

(b) *Preconstruction letters and conferences.* Before construction begins, the contracting officer shall inform the contractor of the labor standards clauses and wage determination requirements of the contract and of the contractor's and any subcontractor's responsibilities under the contract. Unless it is clear that the contractor is fully aware of the requirements, the contracting officer shall issue an explanatory letter and/or arrange a conference with the contractor promptly after award of the contract.

22.406-2 Wages, fringe benefits, and overtime.

(a) In computing wages paid to a laborer or mechanic, the contractor may include only the following items:

(1) Amounts paid in cash to the laborer or mechanic, or deducted from payments under the conditions set forth in 29 CFR 3.5.

(2) Contributions (except those required by Federal, State, or local law) the contractor makes irrevocably to a trustee or a third party under any bona fide plan or program to provide for medical or hospital care, pensions, compensation for injuries or illness resulting from occupational activity, u employment benefits, life insuranc disability and sickness insurance, acc dent insurance, or any other bona fi fringe benefit.

(3) Other contributions or anticipa ed costs for bona fide fringe benefi to the extent expressly approved b the Secretary of Labor.

(b)(1) The contractor may satis the obligation under the clause 52.222-6, Davis-Bacon Act, by provi ing wages consisting of any combin tion of contributions or costs as spec fied in paragraph (a) of this subse tion, if the total cost of the combin tion is not less than the total of th basic hourly rate and fringe benefi payments prescribed in the wage d termination for the classification of l borer or mechanic concerned.

(2) Wages provided by the contra tor and fringe benefits payments r quired by the wage determination ma include items that are not stated exact cash amounts. In these case the hourly cash equivalent of the co of these items shall be determined b dividing the employer's contributio or costs by the employee's hou worked during the period covered b the costs or contributions. For exam ple, if a contractor pays a monthl health insurance premium of $112 fo a particular employee who worked 12 hours during the month, the hourl cash equivalent is determined by divid ing $112 by 125 hours, which equal $0.90 per hour. Similarly, the calcula tion of hourly cash equivalent for nin paid holidays per year for an employ ee with an hourly rate of pay of $5.0 is determined by multiplying $5.00 b 72 (9 days at 8 hours each), and divid ing the result of $360 by the numbe of hours worked by the employe during the year. If the interested par ties (contractor, contracting office and employees or their representative cannot agree on the cash equivalent the contracting officer shall submi the question for final determination t the Department of Labor as prescribe by agency procedures. The informa tion submitted shall include—

(i) A comparison of the payment contributions, or costs in the wage de termination with those made or pro posed as equivalents by the contractor; and

(ii) The comments and recommendations of the contracting officer.

(c) In computing required overtime payments, (i.e., 1½ times the basic hourly rate of pay) the contractor shall use the basic hourly rate of pay in the wage determination, or the basic hourly rate actually paid by the contractor, if higher. The basic rate of pay includes employee contributions to fringe benefits, but excludes the contractor's contributions, costs, or payment of cash equivalents for fringe benefits. Overtime shall not be computed on a rate lower than the basic hourly rate in the wage determination.

22.406-3 Additional classifications.

(a) If any laborer or mechanic is to be employed in a classification that is not listed in the wage determination applicable to the contract, the contracting officer, pursuant to the clause at 52.222-6, Davis-Bacon Act, shall require that the contractor submit to the contracting officer, Standard Form (SF) 1444, Request for Authorization of Additional Classification and Rate, which, along with other pertinent data, contains the proposed additional classification and minimum wage rate including any fringe benefits payments.

(b) Upon receipt of SF 1444 from the contractor, the contracting officer shall review the request to determine whether it meets the following criteria:

(1) The classification is appropriate and the work to be performed by the classification is not performed by any classification contained in the applicable wage determination.

(2) The classification is utilized in the area by the construction industry.

(3) The proposed wage rate, including any fringe benefits, bears a reasonable relationship to the wage rates in the wage determination in the contract.

(c)(1) If the criteria in paragraph (b) of this section are met and the contractor and the laborers or mechanics to be employed in the additional classification (if known) or their representatives agree to the proposed additional classification, and the contracting officer approves, the contracting officer shall submit a report (including a copy of SF 1444) of that action to the Administrator, Wage and Hour Division, for approval, modification, or disapproval of the additional classification and wage rate (including any amount designated for fringe benefits); or

(2) If the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed additional classification, or if the criteria are not met, the contracting officer shall submit a report (including a copy of SF 1444) giving the views of all interested parties and the contracting officer's recommendation to the Administrator, Wage and Hour Division, for determination of appropriate classification and wage rate.

(d)(1) Within 30 days of receipt of the report, the Administrator, Wage and Hour Division, will complete action and so advise the contracting officer, or will notify the contracting officer that additional time is necessary.

(2) Upon receipt of the Department of Labor's action, the contracting officer shall forward a copy of the action to the contractor, directing that the classification and wage rate be posted in accordance with paragraph (a) of the clause at 52.222-6 and that workers in the affected classification receive no less than the minimum rate indicated from the first day on which work under the contract was performed in the classification.

22.406-4 Apprentices and trainees.

(a) The contracting officer shall review the contractor's employment and payment records of apprentices and trainees made available pursuant to the clause at 52.222-8, Payrolls and Basic Records, to ensure that the contractor has complied with the clause at 52.222-9, Apprentices and Trainees.

(b) If a contractor has classified employees as apprentices or trainees without complying with the requirements of the clause at 52.222-9, the contracting officer shall reject the classification and require the contractor to pay the affected employees at the rates applicable to the classification of the work actually performed.

22.406-5 Subcontracts.

In accordance with the requirements of the clause at 52.222-11, Subcontracts (Labor Standards), the contractor and subcontractors at any tier are required to submit a fully executed SF 1413, Statement and Acknowledgment, upon award of each subcontract.

22.406-6 Payrolls and statements.

(a) *Submission.* In accordance with the clause at 52.222-8, Payrolls and Basic Records, the contractor must submit or cause to be submitted, within 7 calendar days after the regular payment date of the payroll week covered, for the contractor and each subcontractor, (1) copies of weekly payrolls applicable to the contract, and (2) weekly payroll statements of compliance. The contractor may use the Department of Labor Form WH-347, Payroll (For Contractor's Optional Use), or a similar form that provides the same data and identical representation.

(b) *Withholding for nonsubmission.* If the contractor fails to submit copies of its or its subcontractors' payrolls promptly, the contracting officer shall, from any payment due to the contractor, withhold approval of an amount that the contracting officer considers necessary to protect the interest of the Government and the employees of the contractor or any subcontractor.

(c) *Examination.* (1) The contracting officer shall examine the payrolls and payroll statements to ensure compliance with the contract and any statutory or regulatory requirements. Particular attention should be given to—

(i) The correctness of classifications and rates;

(ii) Fringe benefits payments;

(iii) Hours worked;

(iv) Deductions; and

(v) Disproportionate employment ratios of laborers, apprentices, or trainees, to journeymen.

(2) Fringe benefits payments, contributions made, or costs incurred on other than a weekly basis shall be considered as a part of weekly payments to the extent they are creditable to the particular weekly period involved and are otherwise acceptable.

(d) *Preservation.* The contracting agency shall retain payrolls and statements of compliance for 3 years after completion of the contract and make them available when requested by the Department of Labor at any time during that period. Submitted payrolls shall not be returned to a contractor or subcontractor for any reasons, but copies thereof may be furnished to the contractor or subcontractor who submitted them, or to a higher tier contractor or subcontractor.

(e) *Disclosure of payroll records.* Contractor payroll records in the Government's possession must be carefully protected from any public disclosure which is not required by law, since payroll records may contain information in which the contractor's employees have a privacy interest, as well as information in which the contractor may have a proprietary interest that the Government may be obliged to protect. Questions concerning release of this information may involve the Freedom of Information Act (FOIA).

22.406-7 Compliance checking.

(a) *General.* The contracting officer shall make checks and investigations on all contracts covered by this subpart as may be necessary to ensure compliance with the labor standards requirement of the contract.

(b) *Regular compliance checks.* Regular compliance checking includes the following activities:

(1) Employee interviews to determine correctness of classifications, rates of pay, fringe benefits payments, and hours worked. (See Standard Form 1445.)

(2) On-site inspections to check type of work performed, number and classification of workers, and fulfillment of posting requirements.

(3) Payroll reviews to ensure that payrolls of prime contractors and subcontractors have been submitted on time and are complete and in compliance with contract requirements.

(4) Comparison of the information in this paragraph (b) with available data, including daily inspector's report

and daily logs of construction, to ensure consistency.

(c) *Special compliance checks.* Situations that may require special compliance checks include—

(1) Inconsistencies, errors, or omissions detected during regular compliance checks; or

(2) Receipt of a complaint alleging violations. If the complaint is not specific enough, the complainant shall be so advised and invited to submit additional information.

22.406-8 Investigations.

Contracting agencies are responsible for conducting labor standards investigations when available information indicates such action is warranted. In addition, the Department of Labor may conduct an investigation on its own initiative or may request a contracting agency to do so.

(a) *Contracting agencies.* The contracting agency shall conduct an investigation if a compliance check (see 22.406-7) indicates that violations may have occurred that are substantial in amount, willful, or not corrected. (See also 22.406-9(a) regarding withholding from contract payments.) The investigation shall include all aspects of the contractor's compliance with contract labor standards requirements, and shall not be limited to specific areas raised in a complaint or uncovered during compliance checks. The investigation should be made by personnel familiar with labor laws and their application to contracts. If oral or written statements are taken from employees during an investigation, the statements, or excerpts or summaries thereof, shall not be divulged to anyone other than authorized Government officials without the prior signed consent of the employee. Investigators may use the investigation and enforcement instructions issued by and available upon written request from the Administrator, Wage and Hour Division. Any available Department of Labor files pertinent to an investigation may be obtained upon written request to the Administrator, Wage and Hour Division. None of the material obtained from Labor Department files, other than computations of back wages and liquidated damages and summaries of back wages due, may be disclosed in any manner to any one other than responsible Federal officials charged with administering the contract, without obtaining the permission of the Department of Labor.

(b) *Review of the investigation report.* The contracting officer shall review the investigation report on receipt and make preliminary findings regarding the contractor. Adverse findings that are not supported by other evidence shall not normally be based solely on employee statements that have not been authorized for disclosure by the employee. However, if the investigation establishes a pattern of possible violations that are based on employees' statements that have not been authorized for disclosure, the pattern itself may constitute a suitable basis for a finding of noncompliance.

(c) *Notification to the contractor.* The contracting officer shall take the following actions upon completing the review:

(1) Provide written notice to the contractor concerning the preliminary findings, proposed corrective actions, and the contractor's right to request that the basis for the findings be made available and to submit written rebuttal information within a reasonable period of time.

(2) Upon request from the contractor, make the basis for the findings available. However, under no circumstances will the contractor be permitted to examine the investigation report. Also, the contracting officer shall not disclose the identity of any employee who filed a complaint or who was interviewed, without the prior consent of the employee.

(3)(i) If the contractor submits a rebuttal, reconsider the preliminary findings based on information brought out by the rebuttal and notify the contractor of the final findings.

(ii) If no rebuttal is submitted within a reasonable time, the preliminary findings shall be considered final.

(4) Request the contractor to make restitution for underpaid wages and liquidated damages determined by the contracting officer to be due, whether the violation is considered willful or nonwillful. If the request includes liquidated damages, it shall contain a

written statement that the contractor may within 60 days request relief from such assessment.

(d) *Contracting officer's report.* (1) After taking the actions prescribed in paragraphs (b) and (c) of this section, the contracting officer shall prepare and forward a report of violations including findings and supporting evidence to the agency head or designee. Standard Form 1446, Labor Standards Investigation Summary Sheet, shall be completed and attached as the first page of the report.

(2) After reviewing the contracting officer's report, the agency head or the agency head's designee, shall process the report as follows:

(i) A detailed enforcement report shall be submitted to the Administrator, Wage and Hour Division within 60 days after completion of the investigation, if—

(A) Underpayments by a contractor or subcontractor total $1,000 or more;

(B) There is reason to believe that the violations are aggravated or willful (or, also, in the case of the Davis-Bacon Act, there is reason to believe that the contractor has disregarded its obligations to employees and subcontractors);

(C) Restitution has not been effected; or

(D) Future compliance has not been assured.

(ii) If none of the conditions in paragraph (d)(2)(i) of this section is present but the investigation was expressly requested by the Department of Labor, only a summary report shall be submitted to the Administrator, Wage and Hour Division. The report shall summarize any violations, including any data on the amount of restitution paid, the number of workers who received restitution, liquidated damages assessed under the Contract Work Hours and Safety Standards Act, corrective measures taken and any information that may be necessary to review any recommendations for an appropriate adjustment in liquidated damages.

(iii) If none of the conditions in paragraph (d)(2) (i) or (ii) of this section is present, the case shall be closed and the report retained in the appropriate contract file.

(iv) If substantial evidence is found that violations are willful and in violation of a criminal statute (generally 18 U.S.C. 874 or 1001) the report (supplemented if necessary) also shall be forwarded to the Attorney General of the United States for prosecution if the facts warrant. In all such cases, the Administrator, Wage and Hour Division, shall be informed simultaneously of the action taken.

(e) *Department of Labor investigations.* In investigations conducted by the Department of Labor which disclose (1) underpayments totaling $1,000 or more, (2) aggravated/willful violations (or, in the case of the Davis-Bacon Act, there is reason to believe that the contractor has disregarded its obligations to employees and subcontractors), or (3) potential assessment of liquidated damages under the Contract Work Hours and Safety Standards Act, the Department of Labor will furnish the concerned contracting agency an enforcement report detailing violations found and any action taken by the contractor to correct such violations, including any payment of back wages. In investigations disclosing other than in this paragraph (e), the agency will be furnished a letter of notification summarizing the findings of the investigation.

22.406-9 Withholding from or suspension of contract payments.

(a) *Withholding from contract payments.* If the contracting officer believes a violation exists (see 22.406-8), or upon request of the Department of Labor, the contracting officer shall withhold from payments due the contractor an amount equal to the estimated wage underpayment as well as any estimated liquidated damages due the United States under the Contract Work Hours and Safety Standards Act. (See 22.302.)

(1) Pursuant to the clauses at 52.222-4, Contract Work Hours and Safety Standards Act—Overtime Compensation, and 52.222-7, Withholding of Funds, cross-withholding of funds from any current Federal contract with the same prime contractor, or from any Federally assisted contract with the same prime contractor which

is subject to either Davis-Bacon prevailing wage requirements or Contract Work Hours and Safety Standards Act requirements, respectively, is authorized.

(2) If subsequent investigation confirms violations, the contracting officer shall adjust the withholding as necessary. If the withholding was requested by the Department of Labor, the contracting officer shall not reduce or release the withholding without written approval of the Department of Labor.

(3) The withheld funds shall be used as provided in paragraph (c) of this section to satisfy assessed liquidated damages and, unless the contractor makes restitution, validated wage underpayments.

(b) *Suspension of contract payments.* If a contractor or subcontractor fails or refuses to comply with the labor standards clauses of the Davis-Bacon Act and Related Statutes, the agency upon its own action or upon the written request of an authorized representative of the Department of Labor, shall suspend or cause to be suspended any further payment, advance, or guarantee of funds until the violations are discontinued or until sufficient funds are withheld to compensate employees for the wages to which they are entitled, and to cover any liquidated damages which may be due.

(c) *Disposition of contract payments withheld or suspended*—(1) *Forwarding wage underpayments to the Comptroller General.* Upon final administrative determination, if restitution has not been made by the contractor or subcontractor, the contracting officer shall forward to the appropriate disbursing office Standard Form (SF) 1093, Schedule of Withholdings Under the Davis-Bacon Act (40 U.S.C. 276a) and/or Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333). The contracting officer shall include with the SF 1093 a listing of the name, social security number, and last known address of each affected employee; the amount due each employee; employee claims if feasible; and a brief statement of the reason for requiring restitution. Also, the contracting officer shall indicate if restitution was not made because the employee could not be located. Underpaid employees may be assisted in the preparation of their claims. The disbursing office shall submit the SF 1093 with attached additional data and the funds withheld (by check) to the Comptroller General (Claims Division).

(2) *Returning of withheld funds to contractor.* When funds withheld are no longer necessary or exceed the amount required to satisfy validated wage underpayments and assessed liquidated damages, these funds shall be paid the contractor in an expeditious manner.

(3) *Limitation on forwarding or returning funds.* If the withholding was requested by the Department of Labor or if the findings are disputed (see 22.406-10(e)), the contracting officer shall not forward the funds to the Comptroller General, Claims Division, or return them to the contractor without approval by the Department of Labor.

(4) *Liquidated damages.* Upon final administrative determination, funds withheld or collected for liquidated damages shall be disposed of in accordance with agency procedures.

22.406-10 Disposition of disputes concerning construction contract labor standards enforcement.

(a) The areas of possible differences of opinion between contracting officers and contractors in construction contract labor standards enforcement include—

(1) Misclassification of workers;

(2) Hours of work;

(3) Wage rates and payment;

(4) Payment of overtime;

(5) Withholding practices; and

(6) The applicability of the labor standards requirements under varying circumstances.

(b) Generally, these differences are settled administratively at the project level by the contracting agency. If necessary, these differences may be settled with assistance from the Department of Labor.

(c) When requesting the contractor to take corrective action in labor violation cases, the contracting officer shall inform the contractor of the following:

(1) Disputes concerning the labor standards requirements of the contract are handled under the contract clause at 52.222-14, Disputes Concerning Labor Standards, and not under the clause at 52.233-1, Disputes.

(2) The contractor may appeal the contracting officer's findings or part thereof by furnishing the contracting officer a complete statement of the reasons for the disagreement with the findings.

(d) The contracting officer shall promptly transmit the contracting officer's findings and the contractor's statement to the Administrator, Wage and Hour Division.

(e) The Administrator, Wage and Hour Division, will respond directly to the contractor or subcontractor, with a copy to the contracting agency. The contractor or subcontractor may appeal the Administrator's findings in accordance with the procedures outlined in Labor Department Regulations (29 CFR 5.11). Hearings before administrative law judges are conducted in accordance with 29 CFR part 6, and hearings before the Labor Department Wage Appeals Board are conducted in accordance with 29 CFR part 7.

(f) The Administrator, Wage and Hour Division, may institute debarment proceedings against the contractor or subcontractor if the Administrator finds reasonable cause to believe that the contractor or subcontractor has committed willful or aggravated violations of the Contract Work Hours and Safety Standards Act or the Copeland (Anti-Kickback) Act, or any of the applicable statutes listed in 29 CFR 5.1 other than the Davis-Bacon Act, or has committed violations of the Davis-Bacon Act that constitute a disregard of its obligations to employees or subcontractors under section 3(a) of that Act.

22.406-11 Contract terminations.

If a contract or subcontract is terminated for violation of the labor standards clauses, the contracting agency shall submit a report to the Administrator, Wage and Hour Division, and the Comptroller General. The repor shall include—

(a) The number of the terminat contract;

(b) The name and address of the te minated contractor or subcontractor,

(c) The name and address of the con tractor or subcontractor, if any, who to complete the work;

(d) The amount and number of th replacement contract, if any; and

(e) A description of the work.

22.406-12 Cooperation with the Depar ment of Labor.

(a) The contracting agency shall co operate with representatives of th Department of Labor in the inspectio of records, interviews with worker and all other aspects of investigatio undertaken by the Department o Labor. When requested, the contract ing agency shall furnish to the Secre tary of Labor any available informa tion on contractors, subcontractor current and previous contracts, an the nature of the contract work.

(b) If a Department of Labor repre sentative undertakes an investigatio at a construction project, the contrac ing officer shall inquire into the scop of the investigation, and request to b notified immediately of any violatio discovered under the Davis-Bacon Ac the Contract Work Hours and Safet Standards Act, or the Copeland (Ant Kickback) Act.

22.406-13 Semiannual enforcement r ports.

A semiannual report on complian with and enforcement of the constru tion labor standards requirements the Davis-Bacon Act and Contra Work Hours and Safety Standards A is required from each contracti agency. The reporting periods are O tober 1 through March 31 and April through September 30. The repor shall only contain information as the enforcement actions of the co tracting agency and shall be prepar as prescribed in Department of Lab memoranda and submitted to the D partment of Labor within 30 da after the end of the reporting peri This report has been assigned inte agency report control number 1482-DOL-SA.

22.407 Contract clauses.

(a) The contracting officer shall insert the following clauses in solicitations and contracts in excess of $2,000 for construction within the United States:

(1) The clause at 52.222-6, Davis-Bacon Act.

(2) The clause at 52.222-7, Withholding of Funds.

(3) The clause at 52.222-8, Payrolls and Basic Records.

(4) The clause at 52.222-9, Apprentices and Trainees.

(5) The clause at 52.222-10, Compliance with Copeland Act Requirements.

(6) The clause at 52.222-11, Subcontracts (Labor Standards).

(7) The clause at 52.222-12, Contract Termination—Debarment.

(8) The clause at 52.222-13, Compliance with Davis-Bacon and Related Act Regulations.

(9) The clause at 52.222-14, Disputes Concerning Labor Standards.

(10) The clause at 52.222-15, Certification of Eligibility.

(b) The contracting officer shall insert the clause at 52.222-16, Approval of Wage Rates, in solicitations and contracts in excess of $2,000 for cost-reimbursement construction to be performed within the United States, except for contracts with a State or political subdivision thereof.

(c) A contract that is not primarily for construction may contain a requirement for some construction work to be performed in the United States. If under 22.402(b) the requirements of this subpart apply to the construction work, the contracting officer shall insert in such solicitations and contracts the applicable construction labor standards clauses required in this section and identify the item or items of construction work to which the clauses apply.

(d) The contracting officer shall insert the clause at 52.222-17, Labor Standards for Construction Work—Facilities Contracts, in solicitations and contracts, if a facilities contract (see 45.301) may require covered construction work (see 22.402(b)) to be performed in the United States.

Subpart 22.5—[Reserved]

Subpart 22.6—Walsh-Healey Public Contracts Act

22.601 Definitions.

Assembly, as used in this subpart, means the piecing or bringing together of various interdependent or interrelated parts or components so as to make an operable whole or unit.

Manufacturer, as used in this subpart, means a person that owns, operates, or maintains a factory or establishment that produces on the premises the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

Person, as used in this subpart, includes associations, corporations, legal representatives, trustees, trustees in bankruptcy, or receivers.

Regular dealer, as used in this subpart, means a person that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and sold to the public in the usual course of business.

22.602 Statutory requirements.

Except for the exemptions at 22.604, all contracts subject to the Walsh-Healey Public Contracts Act (the Act) (41 U.S.C. 35-45) and entered into by any executive department, independent establishment, or other agency or instrumentality of the United States, or by the District of Columbia, or by any corporation (all the stock of which is beneficially owned by the United States) for the manufacture or furnishing of materials, supplies, articles, and equipment (referred to in this subpart as 'supplies) in any amount exceeding $10,000, shall—

(a) Be with manufacturers or regular dealers in the supplies manufactured or used in performing the contract; and

(b) Include or incorporate by reference the representation that the contractor is a manufacturer or a regular dealer of the supplies offered, and the stipulations required by the Act pertaining to such matters as minimum wages, maximum hours, child labor, convict labor, and safe and sanitary working conditions.

22.603 Applicability.

The requirements in 22.602 apply to contracts (including for this purpose, indefinite-delivery contracts, basic ordering agreements, and blanket purchase agreements) and subcontracts under Section 8(a) of the Small Business Act, for the manufacture or furnishing of supplies that are to be performed within the United States, Puerto Rico, or the Virgin Islands, and which exceed or may exceed $10,000, unless exempted under 22.604.

22.604 Exemptions.

22.604-1 Statutory exemptions.

Contracts for acquisition of the following supplies are exempt from the Act:

(a) Any item in those situations where the contracting officer is authorized by the express language of a statute to purchase *in the open market* generally; or where a specific purchase is made under the conditions described in 6.302-2 in circumstances where immediate delivery is required by the public exigency.

(b) Perishables, including dairy, livestock, and nursery products.

(c) Agricultural or farm products processed for first sale by the original producers.

(d) Agricultural commodities or the products thereof purchased under contract by the Secretary of Agriculture.

[48 FR 42258, Sept. 19, 1983, as amended at 53 FR 4944, Feb. 18, 1988]

22.604-2 Regulatory exemptions.

(a) Contracts for the following acquisitions are fully exempt from the Act (see 41 CFR 50-201.603):

(1) Public utility services.

(2) Supplies manufactured outside the United States, Puerto Rico, or the Virgin Islands.

(3) Purchases against the account of a defaulting contractor where the stipulations of the Act were not included in the defaulted contract.

(4) Newspapers, magazines, or periodicals, contracted for with sales agents or publisher representatives, which are to be delivered by the publishers thereof.

(b) Contracts of the following type are partially exempt from the Act (see 41 CFR 50-201.604):

(1) Contracts with certain coal dealers.

(2) Certain commodity exchange contracts.

(3) Contracts with certain export merchants.

(4) Contracts with small business defense production pools, and small business research and development pools.

(5) Contracts with public utilities for the acquisition of certain uranium products.

(c) (1) Upon the request of the agency head, the Secretary of Labor may exempt specific contracts or classes of contracts from the inclusion or application of one or more of the Act's stipulations; *provided*, that the request includes a finding by the agency head stating the reasons why the conduct of Government business will be seriously impaired unless the exemption is granted.

(2) Those requests for exemption that relate solely to safety and health standards shall be transmitted to the Assistant Secretary for Occupational Safety and Health, U.S. Department of Labor, Washington, DC 20210. All other requests shall be transmitted to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210.

22.605 Rulings and interpretations of the Act.

(a) As authorized by the Act, the Secretary of Labor has issued rulings and interpretations concerning the administration of the Act (see 41 CFR 50-206). The substance of certain rulings and interpretations is as follows:

(1) If a contract for $10,000 or less is subsequently modified to exceed $10,000, the contract becomes subject

to the Act for work performed after the date of the modification.

(2) If a contract for more than $10,000 is subsequently modified by mutual agreement to $10,000 or less, the contract is not subject to the Act for work performed after the date of the modification.

(3) If a contract awarded to a prime contractor contains a provision whereby the prime contractor is made an agent of the Government, the prime contractor is required to include the stipulations of the Act in contracts in excess of $10,000 awarded for and on behalf of the Government for supplies that are to be used in the construction and equipment of Government facilities.

(4) If a contract subject to the Act is awarded to a contractor operating Government-owned facilities, the stipulations of the Act affect the employees of that contractor the same as employees of contractors operating privately owned facilities.

(5) Indefinite-delivery contracts, including basic ordering agreements and blanket purchase agreements, are subject to the Act unless it can be determined in advance that the aggregate amount of all orders estimated to be placed thereunder for 1 year after the effective date of the agreement will not exceed $10,000. A determination shall be made annually thereafter if the contract or agreement is extended, and the contract or agreement modified if necessary.

(b) [Reserved]

22.606 Eligibility as a manufacturer or regular dealer.

22.606-1 Manufacturer.

(a) An offeror qualifies as a manufacturer under the criteria in 41 CFR 50-206.51 and 50-206.52 if it shows before the award that it is—

(1) An established manufacturer—

(i) Of the particular supplies of the general character sought by the Government; and

(ii) That has a plant, equipment, and personnel to manufacture on the premises the items called for under the contract; or

(2) Newly entering into a manufacturing activity and has made all necessary arrangements and commitments for—

(i) Manufacturing space;

(ii) Equipment; and

(iii) Personnel to perform on its own premises the manufacturing operations required for the fulfillment of the contract.

(b) An offeror that is newly entering into a manufacturing activity must show under the criteria in 41 CFR 50-206.51(b) that the offeror—

(1) Has made written, legally binding arrangements or commitments to enter a manufacturing business. (An offeror should not be barred from receiving the award because it has not yet done any manufacturing, even if the arrangements and commitments are contingent upon the award of a Government contract);

(2) Has not been set up solely to produce on a Government contract and that its operations will not be terminated upon completion of that contract;

(3) Has established arrangements for production on a continuing basis of the particular materials, supplies, or equipment desired by the Government; and

(4) Has documentation to prove that necessary written, legally binding arrangements or commitments have been met before award.

(c) Every offeror must qualify as a manufacturer in its own rights under the criteria in 41 CFR 50-206.51(e) and (f), and must show the following:

(1) That it is currently capable of manufacturing on its premises the supplies called for under the contract or, if it is newly entering into manufacturing, that it has made written, legally binding commitments before award to enable it to produce such supplies on its premises. (The use, rent, or sharing of the manufacturing or producing establishment of another legal entity; i.e., arrangements for equipment, personnel, or space on a time-and-material or *as needed* basis, does not meet this requirement).

(2) That all evidence documenting the making of necessary prior arrangements or definite commitments is in the name of the offeror.

(d) Generally, an offeror that performs assembly operations as described in 41 CFR 50-206.52 may be considered a manufacturer, if it performs more than minimal operations, such as packaging only, upon the end item to be supplied to the Government, and it—

(1) Produces end items on its premises by assembling component parts using machines, tools, and workers, and the assembly constitutes substantial or significant fabrication or production of the end item; or

(2) Has the facilities to produce on its premises a significant portion of the required component parts needed for the end item for which the Government contracted even if it only performs assembly operations under a particular acquisition.

(e) An offeror's eligibility status as a prime contractor or a subcontractor on other contracts subject to the Act is not determinative evidence of the offeror's present eligibility as a manufacturer (see 41 CFR 50-206.51(g)).

22.606-2 Regular dealer.

(a) An offeror qualifies as a regular dealer under the criteria in 41 CFR 50-206.53 if it shows before the award that it is a regular dealer dealing in the particular supplies of the general character offered to the Government. Included in the criteria in 41 CFR 50-206.53 which an offeror must meet are the following:

(1) It has an establishment, or a leased or assigned space, in which it regularly maintains a stock of supplies in which it claims to be a dealer. If the space is in a public warehouse, it must be maintained on a continuing and not on a demand basis.

(2) The stock maintained is a true inventory from which sales are made. This requirement is not satisfied by (i) a stock of sample or display items, (ii) a stock consisting of surplus items remaining from prior orders, (iii) stock unrelated to the supplies offered, or (iv) a stock maintained primarily for the purpose of token compliance with the Act from which few, if any, sales are made.

(3) The supplies stocked are of the same general character as those to be supplied under the contract. To be of the same general character, the items to be supplied must be either identical with those in stock or be supplies for which dealers in the same line of business would be an obvious source.

(4) Sales are made regularly from stock on a recurring basis, are not only occasional, or constitute an exception to the usual operations of the business. The proportion of sales from stock that will satisfy this requirement will depend upon the character of the business.

(5) Sales are made regularly in the usual course of business to the public, i.e., to purchasers other than Federal, State, or local Government agencies. This requirement is not satisfied if the contractor merely seeks to sell to the public but has not yet made the sales. The number and amount of sales that must be made to the public will necessarily vary with the amount of total sales and the nature of the business.

(6) The business is an established and going concern. It is not sufficient to show that arrangements have been made to set up such a business.

(b) For certain specific products (lumber and timber products, machine tools, hay, grain, feed or straw, raw cotton, green coffee, petroleum, agricultural liming materials, tea, raw or unmanufactured cotton linters, certain uranium products, used automatic data processing equipment, and specialty advertising products), there are alternate qualifications for regular dealers in which the dealer need not physically maintain a stock. The requirements under the alternative qualifications are in 41 CFR 50-201.101(a)(2) and 50-201.604.

(c) Coal dealers are exempted from the regular dealer requirements if they meet the terms and conditions prescribed by the Secretary of Labor in 41 CFR 50-201.604(a). If these terms and conditions are not met, coal dealers must meet the requirements in this subsection.

[48 FR 42258, Sept. 19, 1983, as amended at 52 FR 30076, Aug. 12, 1987]

22.607 Agents.

A *manufacturer* or *regular dealer* may bid, negotiate, and contract through an authorized agent if the agency is disclosed and the agent acts and contracts in the name of the principal (see subpart 3.4, Contingent Fees).

22.608 Procedures.

22.608-1 Offeror's representation.

For each solicitation that may result in a contract subject to the Act, the contracting officer shall obtain a representation from the prospective contractor that it is a manufacturer or regular dealer of the supplies offered (see 22.610(a)).

22.608-2 Determination of eligibility.

(a) The responsibility for applying the eligibility requirements set forth in 22.606 rests in the first instance with the contracting officer.

(b) The contracting officer shall investigate and determine the eligibility of the offeror and not rely on the offeror's representation that it is a manufacturer or regular dealer in the following circumstances:

(1) The contracting officer has knowledge that raises the question of the validity of the representation.

(2) A protest has been lodged pursuant to 22.608-3.

(3) The offeror that is in line for contract award has not previously been awarded a contract subject to the Act by the individual acquisition office.

(4) A preaward investigation or survey of the offeror's operations is otherwise made to determine the technical and production capability, plant facilities and equipment, and subcontracting and labor resources of the offeror.

(c) The Department of Labor does not conduct preaward investigations nor render final determinations of eligibility until the contracting officer initially has determined whether the requirements have been met and any negative determinations involving small businesses have been confirmed by the Small Business Administration.

(d) If the offeror's representation is not accepted, the contracting officer shall make a determination as to whether all of the applicable eligibility requirements have been met by obtaining and considering all available factual evidence including—

(1) Preaward surveys;

(2) Experience of other acquisition offices;

(3) Information available from the cognizant contract administration office;

(4) Information provided directly by the offeror; and

(5) Such other factual evidence that may be necessary to determine whether all of the applicable eligibility requirements have been met, including evidence obtained through an on site survey conducted specifically for that purpose.

(e) The contracting officer shall reject (1) offers from all offerors whose representation indicates that they are not manufacturers or regular dealers of the supplies offered and (2) offers that qualify or place a reservation on the representation and stipulations to avoid full compliance with the Act.

(f)(1) If the contracting officer determines that an apparently successful offeror that is not a small business concern is ineligible, the following procedures shall apply:

(i) The offeror shall be notified in writing that—

(A) It does not meet the eligibility requirements and the specific reasons therefore; and

(B) It may protest the determination by submitting evidence concerning its eligibility to the contracting officer within 10 working days.

(ii) If, after review of the offeror's evidence, the contracting officer's position has not changed, the offeror's protest and all pertinent material shall be forwarded, in accordance with agency procedures, to the DOL, Administrator of the Wage and Hour Division, for a final determination.

(2) If the offeror is a small business concern, the notification and protest procedures in subparagraph (1) above shall be followed except that any determination of ineligibility, whether or not the offeror protests the determination, shall be forwarded to the SBA Regional Office serving the geographical area in which the principal office of the small business concern is located, and the offeror so notified in writing. The SBA shall review the determination and—

(i) If it disagrees with the contracting officer's determination, reverse the determination and forward to the contracting officer a certification of the offeror's eligibility; or

(ii) If it agrees with the contracting officer's determination, forward the case to the DOL, Administrator of the Wage and Hour Division, for final determination.

(3) If the contracting officer forwards the case to DOL or SBA for review of eligibility, the award should normally be held in abeyance until the contracting officer receives a final determination from the DOL or a certificate of eligibility from the SBA. However, see 22.608-4 for circumstances that permit award pending final determination.

(4) The contracting officer shall notify other offerors whose offers might become eligible for award when an award is being held in abeyance, and request them to extend their acceptance period, if necessary.

[48 FR 42258, Sept. 19, 1983, as amended at 54 FR 5056, Jan. 31, 1989; 54 FR 29281, July 11, 1989; 55 FR 3883, Feb. 5, 1990]

22.608-3 Protests against eligibility.

(a) When, before award (see 22.608-6 for post-award protests), another offeror challenges the eligibility of the apparently successful offeror, the contracting officer shall—

(1) Promptly notify the apparently successful offeror of the protest;

(2) Notify both the protester and the apparently successful offeror in writing that evidence concerning the matter may be submitted to the contracting officer within 10 working days;

(3) Notify offerors whose offers might become eligible for award that the award is to be held up because of a protest, and request them to extend their acceptance period, if necessary;

(4) Make a determination based on the evidence as provided in 22.608-2(b); and

(5) Notify the protester and the apparently successful offeror of the determination and the procedure to be followed if either party disagrees with the decision.

(b) If either party disagrees with the determination, the contracting officer, in accordance with agency procedures, shall forward the determination and entire record as follows and notify the parties accordingly;

(1) If the offeror is not a small business concern, to the DOL, Administrator of the Wage and Hour Division, for a final determination; or

(2) If the offeror is a small business concern, and the contracting officer has determined the offeror ineligible, to the SBA Regional Office serving the geographical area in which the principal office of the small business concern is located; or

(3) If the offeror is a small business concern, and the contracting officer has determined the offeror to be eligible, to the DOL, Administrator of the Wage and Hour Division, without referring the matter to the SBA.

[48 FR 42258, Sept. 19, 1983, as amended at 54 FR 5056, Jan. 31, 1989; 54 FR 29281, July 11, 1989; 55 FR 3883, Feb. 5, 1990]

22.608-4 Award pending final determination.

(a)(1) If a small business offeror's eligibility case is forwarded to SBA for review under 22.608-2 or 22.608-3, the contracting officer shall comply with subpart 19.6, Certificates of Competency and Determinations of Eligibility. The contracting officer may not make award until (i) receipt of a Determination of Eligibility from SBA or (ii) receipt of notification from SBA that the case has been forwarded to DOL (but see paragraph (b) of this subsection), whichever is earlier.

(2) If there is exigency for award at the time the case is to be forwarded to SBA, the contracting officer may send with the case a brief statement of urgency and a request for earliest processing and determination.

(b)(1) If the contracting officer or the SBA has forwarded an offeror's eligibility case for review to the DOL under 22.608-2 or 22.608-3, award shall be held in abeyance until the contracting officer receives a final determination from the DOL, except that award may be made immediately if the contracting officer certifies in writing, and the certification is approved as required by agency regulation, that—

(i) The items to be acquired are urgently required; or

(ii) Delay of delivery or performance by failure to make the award promptly will result in substantial hardship to the Government.

(2) When award is made, the contracting officer shall document the contract file to explain the need for making the award before a determination of the offeror's eligibility by the DOL and give prompt written notice of the decision to award to the DOL and, as appropriate, the protester, the SBA, and other concerned parties.

[54 FR 5056, Jan. 31, 1989]

22.608-5 Award.

When a contract subject to the Act is awarded, the contracting officer, in accordance with regulations or instructions issued by the Secretary of Labor and individual agency procedures, shall furnish to the contractor DOL Publication WH-1313, Notice to Employees Working on Government Contracts.

[53 FR 27464, July 20, 1988]

22.608-6 Postaward.

(a) *Protests*. (1) If a protest is received after award, but before final contract completion, the contracting officer shall follow the procedures in 22.608-3.

(2) If the contract has been completed before receipt of the protest, the contracting officer shall notify the protester that no action will be taken on the protest.

(b) *Award made to ineligible offeror*. If the contracting officer discovers after an award that the offeror did not act in good faith in representing that it was a manufacturer or regular dealer of the supplies offered, the contracting officer, immediately upon discovery, may exercise the right, in accordance with 41 CFR 50-201.101(a)(3)(i)(B) to—

(1) Terminate the contract;

(2) Make open market purchases or enter into other contracts for completing the original contract; and

(3) Charge any additional cost to the original contractor.

(c) *Breach of stipulation*. In the event of a violation of a stipulation required under the Act, the contracting officer shall, in accordance with agency procedures, notify the appropriate regional office of the DOL, Wage and Hour Division (see 22.609), and furnish any information available.

22.609 Regional jurisdictions of the Department of Labor, Wage and Hour Division.

Geographic jurisdictions of the following regional offices of the DOL, Wage and Hour Division, are shown here, and are to be contacted by contracting officers in all situations required by this subpart, unless otherwise specified:

(a) The Region I office located in Boston, Massachusetts, has jurisdiction for Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut.

(b) The Region II office located in New York, New York, has jurisdiction for New York, New Jersey, Puerto Rico, and the Virgin Islands.

(c) The Region III office located in Philadelphia, Pennsylvania, has jurisdiction for Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and the District of Columbia.

(d) The Region IV office located in Atlanta, Georgia, has jurisdiction for North Carolina, South Carolina, Kentucky, Tennessee, Mississippi, Alabama, Georgia, and Florida.

(e) The Region V office located in Chicago, Illinois, has jurisdiction for Ohio, Indiana, Michigan, Illinois, Wisconsin, and Minnesota.

(f) The Region VI office located in Dallas, Texas, has jurisdiction for Louisiana, Arkansas, Oklahoma, Texas, and New Mexico.

(g) The Region VII office located in Kansas City, Missouri, has jurisdiction for Missouri, Iowa, Nebraska, and Kansas.

(h) The Region VIII office located in Denver, Colorado, has jurisdiction for North Dakota, South Dakota, Montana, Wyoming, Colorado, and Utah.

(i) The Region IX office located in San Francisco, California, has jurisdiction for Arizona, California, Nevada, Hawaii, and Guam.

(j) The Region X office located in Seattle, Washington, has jurisdiction for Washington, Oregon, Idaho, and Alaska.

[48 FR 42258, Sept. 19, 1983 as amended at 51 FR 2665, Jan. 17, 1986]

22.610 Solicitation provision and contract clause.

(a) The contracting officer shall insert the provision at 52.222-19, Walsh-Healey Public Contracts Act Representation, in solicitations that will result in contracts covered by the Act (see 22.603, 22.604 and 22.605).

(b) The contracting officer shall insert the clause at 52.222-20, Walsh-Healey Public Contracts Act, in solicitations and contracts covered by the Act (see 22.603, 22.604, and 22.605).

Subpart 22.7—[Reserved]

Subpart 22.8—Equal Employment Opportunity

22.800 Scope of subpart.

This subpart prescribes policies and procedures pertaining to nondiscrimination in employment by Government contractors and subcontractors.

22.801 Definitions.

Affirmative action program, as used in this subpart, means a contractor's program that complies with Department of Labor regulations to assure equal opportunity in employment to minorities and women.

Construction work, as used in this subpart, means the construction, rehabilitation, alteration, conversion, extension, demolition, or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

Contracting agency, as used in this subpart, means any department, agency, establishment, or instrumentality in the Executive Branch of the Government, including any wholly owned Government corporation that enters into contracts.

Contractor, as used in this subpart, includes the terms *prime contractor* and *subcontractor*.

Director, as used in this subpart means the Director, Office of Federal Contract Compliance Programs (OFCCP), United States Department of Labor.

Equal Opportunity clause, as used in this subpart, means the clause at 52.222-26, Equal Opportunity, prescribed in 22.810(e).

EO 11246, as used in this subpart means Parts II and IV of Executive Order 11246, September 24, 1965 (30 FR 12319), and any Executive Order amending or superseding this Order (see 22.802). This term specifically includes the Equal Opportunity clause at 52.222-26, and the rules, regulations, and orders issued pursuant to EO 11246 by the Secretary of Labor or a designee.

Government contract, as used in this subpart, means any agreement or modification thereof between a Government contracting agency and any person for the furnishing of supplies or services, or for the use of real or personal property including lease arrangements. The term does not include (a) agreements in which the parties stand in the relationship of employer and employee and (b) contracts for the sale of real and personal property by the Government.

Prime contractor, as used in this subpart, means any person who holds, or has held, a Government contract subject to EO 11246.

Recruiting and training agency, as used in this subpart, means any person who refers workers to any contractor or subcontractor or provides or supervises apprenticeship or training for employment by any contractor or subcontractor.

Site of construction, as used in this subpart, means the general physical location of any building, highway, or other change or improvement to real property that is undergoing construction, rehabilitation, alteration, conversion, extension, demolition, or repair, and any temporary location or facility at which a contractor, subcontractor, or other participating party meets a demand or performs a function relating to a Government contract or subcontract.

Subcontract, as used in this subpart, means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee) (a) for the furnishing of supplies or services or for use of real or personal property, including lease arrangements, that, in whole or in part, is necessary to the performance of any one or more Government contracts or (b) under which any portion of the contractor's obligation under any one or more Government contracts is performed, undertaken, or assumed.

Subcontractor, as used in this subpart, means any person who holds, or has held, a subcontract subject to EO 11246. The term *first-tier subcontractor* means a subcontractor holding a subcontract with a prime contractor.

United States, as used in this subpart, means the States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, and the possessions of the United States.

22.802 General.

(a) Executive Order 11246, as amended, sets forth the Equal Opportunity clause and requires that all Government contracting agencies (1) include this clause in all nonexempt Government prime contracts and subcontracts (see 22.807), and (2) act to ensure compliance with the clause and the regulations of the Secretary of Labor to promote the full realization of equal employment opportunity for all persons, regardless of race, color, religion, sex, or national origin.

(b) No contract or modification involving new acquisition shall be entered into, and no subcontract shall be approved by a contracting officer, with a person who has been found ineligible by the Director for reasons of noncompliance with the requirements of EO 11246.

(c) No contracting officer or contractor shall contract for supplies or services in a manner so as to avoid applicability of the requirements of EO 11246.

(d) Contractor disputes related to compliance with its obligation shall be handled according to the rules, regulations, and relevant orders of the Secretary of Labor (see 41 CFR 60-1.1).

22.803 Responsibilities.

(a) The Secretary of Labor is responsible for the—

(1) Administration and enforcement of prescribed parts of EO 11246; and

(2) Adoption of rules and regulations and the issuance of orders necessary to achieve the purposes of EO 11246.

(b) The Secretary of Labor has delegated authority and assigned responsibility to the Director for carrying out the responsibilities assigned to the Secretary by EO 11246, except for the issuance of rules and regulations of a general nature.

(c) The head of each agency is responsible for ensuring that the requirements of this subpart are carried out within the agency, and for cooperating with and assisting the OFCCP in fulfilling its responsibilities.

(d) In the event the applicability of EO 11246 and implementing regulations is questioned, the contracting officer shall forward the matter through agency channels for resolution.

22.804 Affirmative action programs.

22.804-1 Nonconstruction.

Except as provided in 22.807, each nonconstruction prime contractor and each subcontractor with 50 or more employees and (a) a contract or subcontract of $50,000 or more or (b) Government bills of lading that in any 12-month period, total, or can reasonably be expected to total, $50,000 or more, is required to develop a written affirmative action program for each of its establishments within 120 days from the commencement of its first such Government contract, subcontract, or Government bill of lading.

22.804-2 Construction.

(a) Construction contractors that hold a nonexempt (see 22.807) Government construction contract are required to meet (1) the contract terms and conditions citing affirmative action requirements applicable to covered geographical areas or projects and (2) applicable requirements of 41 CFR 60-1 and 60-4.

(b) Each contracting agency shall maintain a listing of covered geographical areas that are subject to affirmative action requirements that specify goals for minorities and women in covered construction trades. Information concerning, and additions to, this listing will be provided to the principally affected contracting officers in accordance with agency procedures. Any contracting officer contemplating a construction project in excess of $10,000 within a geographic area not known to be covered by specific affirmative action goals shall request instructions on the most current information from the OFCCP regional office, or as otherwise specified in agency regulations, before issuing the solicitation.

(c) Contracting officers shall give written notice to the OFCCP regional office within 10 working days of award of a construction contract subject to these affirmative action requirements. The notification shall include the name, address, and telephone number of the contractor; employer identification number; dollar amount of the contract; estimated starting and completion dates of the contract; the contract number; and the geographical area in which the contract is to be performed. When requested by the OFCCP regional office, the contracting officer shall arrange a conference among contractor, contracting activity, and compliance personnel to discuss the contractor's compliance responsibilities.

22.805 Procedures.

(a) *Preaward clearances for contracts and subcontracts of $1 million or more (excluding construction).* (1) Except as provided in 22.805(a)(7) below, if the estimated amount of the contract, subcontract, or basic ordering agreement is expected to aggregate $1 million or more or to increase the aggregate value of an existing contract to $1 million or more, the contracting officer shall request the appropriate OFCCP regional office to determine whether a contractor is awardable before (i) award of any contract, including any indefinite delivery contract or letter contract, (ii) modification of an existing contract for new effort that would constitute a contract award, or the (iii) issuance of any basic ordering agreement.

(2) Preaward clearance for each proposed contract and for each proposed first-tier subcontract of $1 million or more shall be requested by the contracting officer directly from the OFCCP regional office(s). Verbal requests shall be confirmed in writing.

(3) When the contract work is to be performed outside the United States with employees recruited within the United States, the contracting officer shall send the request for a preaward review to the OFCCP regional office serving the area where the proposed contractor's corporate home or branch office is located in the United States, or the corporate location where personnel recruiting is handled, if different from the contractor's corporate home or branch office. If the proposed contractor has no corporate office or location within the United States, the preaward review request action should be based on the location of the recruiting and training agency in the United States.

(4) The contracting officer shall include the following information in the preaward review request:

(i) Name, address, and telephone number of the prospective contractor and of any corporate affiliate at which work is to be performed.

(ii) Name, address, and telephone number of each proposed first-tier subcontractor with a proposed subcontract estimated at $1 million or more.

(iii) Anticipated date of award.

(iv) Information as to whether the contractor and first-tier subcontractors have previously held any Government contracts or subcontracts.

(v) Place or places of contract performance and first-tier subcontracts estimated at $1 million or more, if known.

(vi) The estimated dollar amount of the contract and each first-tier subcontract, if known.

(5) The contracting officer shall allow as much time as feasible before award for the conduct of necessary reviews by OFCCP. As soon as the apparently successful contractor can be determined, the contracting officer shall process a preaward review request in accordance with agency procedures, assuring, if possible, that the preaward review request is submitted

to the OFCCP regional office at least 30 calendar days before the proposed award date.

(6) In the event the Director has not made a final preaward clearance determination within 30 calendar days from submission of the clearance request, the contracting officer shall withhold award of the contract for an additional 15 calendar days, or until clearance is received, whichever occurs first. If the additional 15 calendar days expire, and the Director has not either found the contractor to be in compliance or made a final written determination declaring the contractor ineligible for reasons of noncompliance, the award may be made to the contractor in question. The contracting officer shall notify the OFCCP regional office of the award.

(7) If the procedures specified in (5) and (6) above would delay award of an urgent and critical contract beyond the time necessary to make award or beyond the time specified in the offer or extension thereof, the contracting officer shall immediately inform the OFCCP regional office of the expiration date of the offer or the required date of award and request clearance be provided before that date. If the OFCCP regional office advises that a preaward review cannot be completed by the required date, the contracting officer shall submit written justification for the award to the head of the contracting activity, who, after informing the OFCCP regional office, may then approve the award without the preaward clearance. If an award is made under this authority, the contracting officer shall immediately request a postaward review from the OFCCP regional office.

(8) If, under the provisions of (7) above, a postaward review determines the contractor to be nonawardable, the Director, may authorize the use of the enforcement procedures at 22.809 against the noncomplying contractor.

(b) *Furnishing posters.* The contracting officer shall furnish to the contractor appropriate quantities of the poster entitled *Equal Opportunity Is The Law.* These shall be obtained in accordance with agency procedures.

22.806 Inquiries.

(a) An inquiry from a contractor regarding status of its compliance with EO 11246, or rights of appeal to any of the actions in 22.809 shall be referred to the OFCCP regional office.

(b) Labor union inquiries regarding the revision of a collective bargaining agreement in order to comply with EO 11246, shall be referred to the Director.

22.807 Exemptions.

(a) Under the following exemptions, all or part of the requirements of EO 11246 may be excluded from a contract subject to EO 11246:

(1) *National security.* The agency head may determine that a contract is essential to the national security and that the award of the contract without complying with one or more of the requirements of this subpart is necessary to the national security. Upon making such a determination, the agency shall notify the Director in writing within 30 days.

(2) *Specific contracts.* The Director may exempt a contracting agency from requiring the inclusion of one or more of the requirements of EO 11246 in any contract if the Director deems that special circumstances in the national interest so require. Groups or categories of contracts of the same type may also be exempted if the Director finds it impracticable to act upon each request individually or if group exemptions will contribute to convenience in the administration of EO 11246.

(b) The following exemptions apply even though a contract or subcontract contains the Equal Opportunity clause:

(1) *Transactions of $10,000 or less.* The Equal Opportunity clause is required to be included in prime contracts and subcontracts by 22.802(a). Individual prime contracts or subcontracts of $10,000 or less are exempt from application of the Equal Opportunity clause, unless the aggregate value of all prime contracts or subcontracts awarded to a contractor or subcontractor in any 12-month period exceeds, or can reasonably be expected to exceed, $10,000. (Note: Government

bills of lading, regardless of amount, are not exempt.)

(2) *Work outside the United States.* Contracts are exempt from the requirements of EO 11246 for work performed outside the United States by employees who were not recruited within the United States.

(3) *Contracts with State or local governments.* The requirements of EO 11246 in any contract with a State or local government (or any agency, instrumentality, or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government that does not participate in work on or under the contract.

(4) *Work on or near Indian reservations.* It shall not be a violation of EO 11246 for a contractor to extend a publicly announced preference in employment to Indians living on or near an Indian reservation in connection with employment opportunities on or near an Indian reservation. This applies to that area where a person seeking employment could reasonably be expected to commute to and from in the course of a work day. Contractors extending such a preference shall not, however, discriminate among Indians on the basis of religion, sex, or tribal affiliation, and the use of such preference shall not excuse a contractor from complying with EO 11246, rules and regulations of the Secretary of Labor, and applicable clauses in the contract.

(5) *Facilities not connected with contracts.* The Director may exempt from the requirements of EO 11246 any of a contractor's facilities that the Director finds to be in all respects separate and distinct from activities of the contractor related to performing the contract; *provided*, that the Director also finds that the exemption will not interfere with, or impede the effectiveness of, EO 11246.

(6) *Indefinite quantity contracts.* With respect to indefinite quantity contracts and subcontracts, the Equal Opportunity clause applies unless the contracting officer has reason to believe that the amount to be ordered in any year under the contract will not exceed $10,000. The applicability of the Equal Opportunity clause shall be determined by the contracting officer at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the Equal Opportunity clause shall be applied to the contract whenever the amount of a single order exceeds $10,000. Once the Equal Opportunity clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration regardless of the amounts ordered, or reasonably expected to be ordered, in any year.

(c) To request an exemption under subparagraphs (a)(1), (a)(2), or (b)(5), the contracting officer shall submit, under agency procedure, a detailed justification for omitting all, or part of, the requirements of EO 11246. Requests for exemptions under subparagraphs (a)(2) or (b)(5) above shall be submitted to the Director for approval.

(d) The Director may withdraw the exemption for a specific contract, or group of contracts, if the Director deems that such action is necessary and appropriate to achieve the purposes of EO 11246. Such withdrawal shall not apply—

(1) To contracts awarded before the withdrawal; or

(2) To any sealed bid contract (including restricted sealed bidding), unless the withdrawal is made more than 10 calendar days before the bid opening date.

[48 FR 42258, Sept. 19, 1983, as amended at 52 FR 19803, May 27, 1987]

22.808 Complaints.

Complaints received by the contracting officer alleging violation of the requirements of EO 11246 shall be referred immediately to the OFCCP regional office. The complainant shall be advised in writing of the referral. The contractor that is the subject of a complaint shall not be advised in any manner or for any reason of the complainant's name, the nature of the complaint, or the fact that the complaint was received.

22.809 Enforcement.

Upon the written direction of the Director, one or more of the following actions, as well as administrative sanctions and penalties, may be exercised against contractors found to be in violation of EO 11246, the regulations of the Secretary of Labor, or the applicable contract clauses:

(a) Publication of the names of the contractor or their unions.

(b) Cancellation, termination, or suspension of the contractor's contracts or portion thereof.

(c) Debarment from future Government contracts, or extensions or modifications of existing contracts, until the contractor has established and carried out personnel and employment policies in compliance with EO 11246 and the regulations of the Secretary of Labor.

(d) Referral by the Director of any matter arising under EO 11246 to the Department of Justice or to the Equal Employment Opportunity Commission (EEOC) for the institution of appropriate civil or criminal proceedings.

22.810 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the following provisions in solicitations when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity:

(1) 52.222-21, Certification of Nonsegregated Facilities, if the amount of the contract is expected to exceed $10,000.

(2) 52.222-22, Previous Contracts and Compliance Reports.

(b) The contracting officer shall insert the provision at 52.222-23, Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity, in solicitations for construction when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be in excess of $10,000.

(c) The contracting officer shall insert the provision at 52.222-24, Preaward On-Site Equal Opportunity Compliance Review, in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be for $1 million or more.

(d) The contracting officer shall insert the provision at 52.222-25, Affirmative Action Compliance, in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity.

(e) The contracting officer shall insert the clause at 52.222-26, Equal Opportunity, in solicitations and contracts (see 22.802) unless all the terms of the clause are exempt from the requirements of EO 11246 (see 22.807(a)). If one or more, but not all, of the terms of the clause are exempt from the requirements of EO 11246, the contracting officer shall use the basic clause with its Alternate I.

(f) The contracting officer shall insert the clause at 52.222-27, Affirmative Action Compliance Requirements for Construction, in solicitations and contracts for construction that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be in excess of $10,000.

(g) The contracting officer shall insert the clause at 52.222-28, Equal Opportunity Preaward Clearance of Subcontracts, in solicitations and contracts, except for construction, when the amount of the contract is expected to be for $1 million or more and the contract includes the clause prescribed in paragraph (a), (b), or (c) of 44.204.

(h) The contracting officer shall insert the clause at 52.222-29, Notification of Visa Denial, in contracts that will include the clause at 52.222-26, Equal Opportunity, if the contractor is required to perform in or on behalf of a foreign country.

[48 FR 42258, Sept. 19, 1983, as amended at 50 FR 23606, June 4, 1985; 52 FR 19803, May 27, 1987]

Subpart 22.9—Nondiscrimination Because of Age

22.901 Policy.

Executive Order 11141, February 12, 1964 (29 FR 2477), states that the Government policy is as follows:

(a) Contractors and subcontractors shall not, in connection with employment, advancement, or discharge of employees, or the terms, conditions, or privileges of their employment, discriminate against persons because of their age except upon the basis of a bona fide occupational qualification, retirement plan, or statutory requirement.

(b) Contractors and subcontractors, or persons acting on their behalf, shall not specify in solicitations or advertisements for employees to work on Government contracts, a maximum age limit for employment unless the specified maximum age limit is based upon a bona fide occupational qualification, retirement plan, or statutory requirement.

(c) Agencies will bring this policy to the attention of contractors. The use of contract clauses is not required.

22.902 Handling complaints.

Agencies shall bring complaints regarding a contractor's compliance with this policy to that contractor's attention (in writing, if appropriate), stating the policy, indicating that the contractor's compliance has been questioned, and requesting that the contractor take any appropriate steps that may be necessary to comply.

Subpart 22.10—Service Contract Act of 1965, as Amended

SOURCE: 54 FR 19816, May 8, 1989, unless otherwise noted.

22.1000 Scope of subpart.

This subpart prescribes policies and procedures implementing the provisions of the Service Contract Act of 1965, as amended (41 U.S.C. 351, *et seq.*), the applicable provisions of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201, *et seq.*), and related Secretary of Labor regulations and instructions (29 CFR parts 4, 6, 8, and 1925).

22.1001 Definitions.

Act or *Service Contract Act*, as used in this subpart, means the Service Contract Act of 1965, as amended.

Agency labor advisor means an individual responsible for advising contracting agency officials on Federal contract labor matters.

Contractor, as used in this subpart, includes a subcontractor at any tier whose subcontract is subject to the provisions of the Act.

Multiple year contracts, as used in this subpart, means contracts having a term of more than 1 year regardless of fiscal year funding. The term includes multi-year contracts with a term of more than 1 year (see 17.101).

Notice, as used in this subpart, means Standard Form (SF) 98, *Notice of Intention to Make a Service Contract and Response to Notice*, and SF 98a *Attachment A*. The term *Notice* is always capitalized in this subpart when it means Standard Forms 98 and 98a.

Service contract, as used in this subpart, means any Government contract, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted under section 7 of the Act (41 U.S.C. 356; see 22.1003-3 and 22.1003-4), or any subcontract at any tier thereunder. See 22.1003-5 and 29 CFR 4.130 for a partial list of services covered by the Act.

Service employee means any person engaged in the performance of a service contract other than any person employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in part 541 of title 29, Code of Federal Regulations. The term *service employee* includes all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

United States, as used in this subpart, includes any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, *et seq.*), American Samoa, Guam, Northern Mariana Islands, Wake Island, and Johnston Island but does not include any other territory under U.S. jurisdiction or any U.S. base or possession within a foreign country.

Wage and Hour Division means the unit in the Employment Standards Administration of the Department of Labor to which is assigned functions of the Secretary of Labor under the Act.

Wage determination means a determination of minimum wages or fringe benefits made under sections 2(a) or 4(c) of the Act (41 U.S.C. 351(a) or 353(c)) applicable to the employment in a given locality of one or more classes of service employees.

22.1002 Statutory requirements.

22.1002-1 General.

Service contracts over $2,500 shall contain mandatory provisions regarding minimum wages and fringe benefits, safe and sanitary working conditions, notification to employees of the minimum allowable compensation, and equivalent Federal employee classifications and wage rates. Under 41 U.S.C. 353(d), service contracts may not exceed 5 years.

22.1002-2 Wage determinations based on prevailing rates.

Contractors performing on service contracts in excess of $2,500 to which no predecessor contractor's collective bargaining agreement applies shall pay their employees at least the wages and fringe benefits found by the Department of Labor to prevail in the locality or, in the absence of a wage determination, the minimum wage set forth in the Fair Labor Standards Act.

22.1002-3 Wage determinations based on collective bargaining agreements.

(a) Successor contractors performing on contracts in excess of $2,500 for substantially the same services performed in the same locality must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) at least equal to those contained in any bona fide collective bargaining agreement entered into under the predecessor contract. This requirement will not apply if the Secretary of Labor determines as a result of a hearing that the wages and fringe benefits are substantially at variance with those which prevail for services of a similar character in the locality or that they have not been reached as a result of arm's length negotiations.

(b) Paragraphs in this subpart 22.10 which deal with this statutory requirement and the Department of Labor's implementing regulations are 22.1008-3, concerning applicability of this requirement and the forwarding of a collective bargaining agreement with a Notice (SF 98, 98a); 22.1010, concerning notification to contractors and bargaining representatives of procurement dates; 22.1012-3, explaining when a collective bargaining agreement will not apply due to late receipt by the contracting officer; and 22.1013 and 22.1021, explaining when the application of a collective bargaining agreement can be challenged due to a variance with prevailing rates or lack of arm's length bargaining.

22.1002-4 Application of the Fair Labor Standards Act minimum wage.

No contractor or subcontractor holding a service contract for any dollar amount shall pay any of its employees working on the contract less than the minimum wage specified in section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206).

22.1003 Applicability.

22.1003-1 General.

This subpart 22.10 applies to all Government contracts, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted in 22.1003-3 and 22.1003-4 of this section, or any subcontract at any tier thereunder. This subpart does not apply to individual contract requirements for services in contracts not having as their principal purpose the furnishing of services. The nomenclature, type, or particular form of contract used by contracting agencies is not determinative of coverage.

22.1003-2 Geographical coverage of the Act.

The Act applies to service contracts performed in the United States (see 22.1001). The Act does not apply to contracts performed outside the United States.

22.1003-3 Statutory exemptions.

The Act does not apply to—

(a) Any contract for construction, alteration, or repair of public buildings or public works, including painting and decorating;

(b) Any work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act (41 U.S.C. 35-45);

(c) Any contract for transporting freight or personnel by vessel, aircraft, bus, truck, express, railroad, or oil or gas pipeline where published tariff rates are in effect;

(d) Any contract for furnishing services by radio, telephone, telegraph, or cable companies subject to the Communications Act of 1934;

(e) Any contract for public utility services;

(f) Any employment contract providing for direct services to a Federal agency by an individual or individuals; or

(g) Any contract for operating postal contract stations for the U.S. Postal Service.

22.1003-4 Administrative limitations, variations, tolerances, and exemptions.

(a) The Secretary of Labor may provide reasonable limitations and may make rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions of the Act other than section 10 (41 U.S.C. 358). These will be made only in special circumstances where it has been determined that the limitation, variation, tolerance, or exemption is necessary and proper in the public interest or to avoid the serious impairment of Government business, and is in accord with the remedial purpose of the Act to protect prevailing labor standards (41 U.S.C. 353(b)). See 29 CFR 4.123 for a listing of administrative exemptions, tolerances, and variations. Requests for limitations, variances, tolerances, and exemptions from the Act shall be submitted in writing through contracting channels and the agency labor advisor to the Wage and Hour Administrator.

(b) In addition to the statutory exemptions cited in 22.1003-3 of this subsection, the Secretary of Labor has exempted the following types of contracts from all provisions of the Act:

(1) Contracts entered into by the United States with common carriers for the carriage of mail by rail, air (except air star routes), bus, and ocean vessel, where such carriage is performed on regularly scheduled runs of the trains, airplanes, buses, and vessels over regularly established routes and accounts for an insubstantial portion of the revenue therefrom.

(2) Any contract entered into by the U.S. Postal Service with an individual owner-operator for mail service if it is not contemplated at the time the contract is made that the owner-operator will hire any service employee to perform the services under the contract except for short periods of vacation time or for unexpected contingencies or emergency situations such as illness, or accident.

(3) Contracts for the carriage of freight or personnel if such carriage is subject to rates covered by section 10721 of the Interstate Commerce Act.

(4) Contracts as follows:

(i) Contracts principally for the maintenance, calibration, or repair of the following types of equipment are exempt, subject to the restrictions in subdivisions (b)(4)(ii), (b)(4)(iii), and (b)(4)(iv) of this subsection.

(A) Automated data processing equipment and office information/word processing systems.

(B) Scientific equipment and medical apparatus or equipment if the application of micro-electronic circuitry or other technology of at least similar sophistication is an essential element (for example, Federal Supply Classification (FSC) Group 65, Class 6515, *Medical Diagnostic Equipment;* Class 6525, *X-Ray Equipment;* FSC Group 66, Class 6630, *Chemical Analysis Instruments;* and Class 6665, *Geographical and Astronomical Instruments,* are largely composed of the types of equipment exempted hereunder).

(C) Office/business machines not otherwise exempt pursuant to subdivision (b)(4)(i)(A) of this subsection, if such services are performed by the manufacturer or supplier of the equipment.

(ii) The exemption set forth in this subparagraph (b)(4) of this subsection shall apply only under the following circumstances:

(A) The items of equipment are commercial items which are used regularly for other than Government purposes and are sold or traded by the contractor in substantial quantities to the general public in the course of normal business operations.

(B) The contract services are furnished at prices which are, or are based on, established catalog or market prices (see 29 CFR 4.123(e)(1)(ii)(B)) for the maintenance, calibration, or repair of such commercial items.

(C) The contractor utilizes the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the contractor uses for equivalent employees servicing the same equipment of commercial customers.

(D) The contractor certifies in the contract to the provisions in subdivision (b)(4)(ii) of this subsection. (See 22.1006(e).)

(iii)(A) Determinations of the applicability of this exemption shall be made in the first instance by the contracting officer before contract award. In determining that the exemption applies, the contracting officer shall consider all factors and make an affirmative determination that all of the above conditions have been met.

(B) If any potential offerors would not qualify for the exemption, the contracting officer shall incorporate in the solicitation the Service Contract Act clause (see 22.1005 and 22.1006(a)) and, if the contract will exceed $2,500, the appropriate Department of Labor wage determination (see 22.1007).

(iv) If the Department of Labor determines after contract award that any of the requirements for exemption in subparagraph (b)(4) of this subsection have not been met, the exemption will be deemed inapplicable, and the contract shall become subject to the Service Contract Act, effective as of the date of the Department of Labor determination.

22.1003-5 Some examples of contracts covered.

The following examples, while not definitive or exclusive, illustrate some of the types of services that have been found to be covered by the Act (see 29 CFR 4.130 for additional examples):

(a) Motor pool operation, parking, taxicab, and ambulance services.

(b) Packing, crating, and storage.

(c) Custodial, janitorial, housekeeping, and guard services.

(d) Food service and lodging.

(e) Laundry, dry-cleaning, linen-supply, and clothing alteration and repair services.

(f) Snow, trash, and garbage removal.

(g) Aerial spraying and aerial reconnaissance for fire detection.

(h) Some support services at installations, including grounds maintenance and landscaping.

(i) Certain specialized services requiring specific skills, such as drafting, illustrating, graphic arts, stenographic reporting, or mortuary services.

(j) Electronic equipment maintenance and operation and engineering support services.

(k) Maintenance and repair of all types of equipment, for example, aircraft, engines, electrical motors, vehicles, and electronic, telecommunication, office and related business and construction equipment. (But see 22.1003-4(b)(4).)

(l) Operation, maintenance, or logistics support of a Federal facility.

(m) Data collection, processing and analysis services.

22.1003-6 Repair distinguished from remanufacturing of equipment.

(a) Contracts principally for remanufacturing of equipment which is so extensive as to be equivalent to manufacturing are subject to the Walsh-Healey Public Contracts Act, rather than to the Service Contract Act. Remanufacturing shall be deemed to be manufacturing when the criteria in either subparagraphs (a)(1) or (a)(2) of this subsection are met.

(1) Major overhaul of an item, piece of equipment, or materiel which is degraded or inoperable, and under which all of the following conditions exist:

(i) The item or equipment is required to be completely or substantially torn down into individual component parts.

(ii) Substantially all of the parts are reworked, rehabilitated, altered and/or replaced.

(iii) The parts are reassembled so as to furnish a totally rebuilt item or piece of equipment.

(iv) Manufacturing processes similar to those which were used in the manufacturing of the item or piece of equipment are utilized.

(v) The disassembled components, if usable (except for situations where the number of items or pieces of equipment involved are too few to make it practicable) are commingled with existing inventory and, as such, lose their identification with respect to a particular piece of equipment.

(vi) The items or equipment overhauled are restored to original life expectancy, or nearly so.

(vii) Such work is performed in a facility owned or operated by the contractor.

(2) Major modification of an item, piece of equipment, or material which is wholly or partially obsolete, and under which all of the following conditions exist:

(i) The item or equipment is required to be completely or substantially torn down.

(ii) Outmoded parts are replaced.

(iii) The item or equipment is rebuilt or reassembled.

(iv) The contract work results in the furnishing of a substantially modified item in a usable and serviceable condition.

(v) The work is performed in a facility owned or operated by the contractor.

(b) Remanufacturing does not include the repair of damaged or broken equipment which does not require a complete teardown, overhaul, and rebuild as described in subparagraphs (a)(1) and (a)(2) of this subsection, or the periodic and routine maintenance, preservation, care, adjustment, upkeep, or servicing of equipment to keep it in usable, serviceable, working order. Such contracts typically are billed on an hourly rate (labor plus materials and parts) basis. Any contract principally for this type of work is subject to the Service Contract Act. Examples of such work include the following:

(1) Repair of an automobile, truck, or other vehicle, construction equipment, tractor, crane, aerospace, air conditioning and refrigeration equipment, electric motors, and ground powered industrial or vehicular equipment.

(2) Repair of typewriters and other office equipment (but see 22.1003-4(b)(4)).

(3) Repair of appliances, radios, television sets, calculators, and other electronic equipment.

(4) Inspecting, testing, calibration, painting, packaging, lubrication, tune-up, or replacement of internal parts of equipment listed in subparagraphs (b)(1), (b)(2), and (b)(3) of this subsection.

(5) Reupholstering, reconditioning, repair, and refinishing of furniture.

22.1003-7 Questions concerning applicability of the Act.

If the contracting officer questions the applicability of the Act to an acquisition, the contracting officer shall request the advice of the agency labor advisor. Unresolved questions shall be submitted in a timely manner to the Administrator, Wage and Hour Division, for determination.

22.1004 Department of Labor responsibilities and regulations.

Under the Act, the Secretary of Labor is authorized and directed to enforce the provisions of the Act, make rules and regulations, issue orders, hold hearings, make decisions, and take other appropriate action. The Department of Labor has issued implementing regulations on such matters as—

(a) Service contract labor standards provisions and procedures (29 CFR part 4, subpart A);

(b) Wage determination procedures (29 CFR part 4, subpart B);

(c) Application of the Act (rulings and interpretations) (29 CFR part 4, subpart C);

(d) Compensation standards (29 CFR part 4, subpart D);

(e) Enforcement (29 CFR part 4, subpart E);

(f) Safe and sanitary working conditions (29 CFR part 1925);

(g) Rules of practice for administrative proceedings enforcing service contract labor standards (29 CFR part 6); and

(h) Practice before the Board of Service Contract Appeals (29 CFR part 8).

22.1005 Clause for contracts of $2,500 or less.

The contracting officer shall insert the clause at 52.222-40, Service Contract Act of 1965, as amended—Contracts of $2,500 or Less, in solicitations and contracts if the contract is subject to the Act and is (a) for $2,500 or less or (b) for an indefinite dollar amount and the contracting officer knows in advance that the contract amount will not exceed $2,500.

22.1006 Clauses for contracts over $2,500.

(a) The contracting officer shall insert the clause at 52.222-41, Service Contract Act of 1965, as amended, in solicitations and contracts if the contract is subject to the Act and is (1) for over $2,500 or (2) for an indefinite dollar amount and the contracting officer does not know in advance that the contract amount will be $2,500 or less.

(b) The contracting officer shall insert the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, in solicitations and contracts if the contract amount is expected to be over $2,500 and the Act is applicable. (See 22.1016.)

(c)(1) The contracting officer shall insert the clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), or another clause which accomplishes the same purpose, in solicitations and contracts if the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, as amended, and is a multiple year contract or is a contract with options to renew which exceeds the small purchase limitation. The clause may be used in contracts that do not exceed the small purchase limitation. The clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), applies to both contracts subject to area prevailing wage determinations and contracts subject to the incumbent contractor's collective bargaining agreement in effect during this contract's preceding contract period (see 22.1002-2 and 22.1002-3). Contracting officers shall ensure that contract prices or contract unit price labor rates are adjusted only to the extent that a contractor's increases or decreases in applicable wages and fringe benefits are made to comply with the requirements set forth in the clauses at 52.222-43 (subparagraphs (c) (1), (2) and (3)), or 52.222-44 (subparagraphs (b) (1) and (2)). (For example, the prior year wage determination required a minimum wage rate of $4.00 per hour. The contractor actually paid $4.10. The new wage determination increases the minimum rate to $4.50. The contractor increases the rate actually paid to $4.75 per hour. The allowable price adjustment is $.40 per hour.)

(2) The contracting officer shall insert the clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, in solicitations and contracts if the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, as amended, exceeds the small purchase limitation, and is not a multiple year contract or is not a contract with options to renew. The clause may be used in contracts that do not exceed the small purchase limitation. The clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, applies to both contracts subject to area prevailing wage determinations and contracts subject to contractor collective bargaining agreements (see 22.1002-2 and 22.1002-3).

(3) The clauses prescribed in paragraph 22.1006(c)(1) cover situations in which revised minimum wage rates are applied to contracts by operation of law, or by revision of a wage determination in connection with (i) exercise of a contract option or (ii) extension of a multiple year contract into a new program year. If a clause prescribed in 16.203-4(d) is used, it must not conflict with, or duplicate payment under, the clauses prescribed in this paragraph 22.1006(c).

(d) The contracting officer shall insert the clause at 52.222-47, Service Contract Act (SCA) Minimum Wages and Fringe Benefits, if—

(1) The clause at 52.222-41 applies;

(2) The contract resulting from the solicitation succeeds a contract for substantially the same services to be performed in the same locality;

(3) The incumbent contractor has negotiated or is negotiating a collective bargaining agreement with some or all of its service employees; and

(4) All applicable Department of Labor wage determinations have been requested but not received.

(e)(1) The contracting officer shall insert the clause at 52.222-48, Exemption from Application of Service Contract Act Provisions, in any solicitation and resulting contract calling for the maintenance, calibration, and/or repair of ADP, scientific and medical, and office and business equipment if the contracting officer determines that the resultant contract may be exempt from Service Contract Act coverage as described at 22.1003-4(b)(4).

(2) If the successful offeror does not certify that the exemption applies, the contracting officer shall not insert the clause at 52.222-48 and instead shall insert in the contract (i) the applicable Service Contract Act clause(s) and (ii) the appropriate Department of Labor wage determination if the contract exceeds $2,500.

(f) The contracting officer shall insert the clause at 52.222-49, Service Contract Act—Place of Performance Unknown, if using the procedures prescribed in 22.1009-4.

22.1007 Requirement to submit Notice (SF 98/98a).

The contracting officer shall submit Standard Forms 98 and 98a (see 53.301-98 and 53.301-98a), "Notice of Intention to Make a Service Contract and Response to Notice" and "Attachment A" (both forms hereinafter referred to as "Notice"), together with any required supplemental information to the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210, for the following service contracts:

(a) Each new solicitation and contract in excess of $2,500.

(b) Each contract modification which brings the contract above $2,500 and—

(1) Extends the existing contract pursuant to an option clause or otherwise; or

(2) Changes the scope of the contract whereby labor requirements are affected significantly.

(c) Each multiple year contract in excess of $2,500 upon—

(1) Annual anniversary date if the contract is subject to annual appropriations; or

(2) Biennial anniversary date if the contract is not subject to annual appropriations and its proposed term exceeds 2 years—unless otherwise advised by the Wage and Hour Division (see 22.1008-5).

22.1008 Procedures for preparing and submitting Notice (SF 98/98a).

22.1008-1 Preparation of Notice (SF 98/98a).

The contracting officer shall complete and submit the Notice in accordance with the instructions on the SF 98 and shall supplement it with information required under this section. Care should be taken to ensure that all required information is provided to avert return without action by the Department of Labor. The contracting officer shall retain a copy of the completed Notice and any required supplementary information until the signed and dated response to the Notice is received from the Department of Labor and placed in the contract file.

22.1008-2 Preparation of SF 98a.

(a) The SF 98a shall contain the following information concerning the service employees expected to be employed by the contractor and any known subcontractors in performing the contract:

(1) All classes of service employees to be utilized.

(i) If a wage determination is to be based on a collective bargaining agreement (CBA) (see 22.1002-3 and 22.1008-3), use the exact title shown in the CBA.

(ii) For other than subdivision (a)(1)(i) of this subsection—

(A) Use the exact title shown in the Wage and Hour Division's *Service Contract Act Directory of Occupations* (see paragraph (b) of this subsection).

(B) Provide an appropriate job title and job description if the Directory cannot be used.

(2) The estimated number of service employees in each class; and

(3) The wage rate that would be paid each class if employed by the agency and subject to the wage provisions of 5 U.S.C. 5341 or 5332 (see 22.1016).

(b)(1) The Wage and Hour Division's *Service Contract Act Directory of Occupations* (Directory) contains standard job titles and definitions (descriptions) for many commonly utilized service employee occupations. Contracting officers shall use this Directory to the maximum extent possible in listing service employee classes on the SF 98a. This usage will enhance the timely issuance of comprehensive wage determinations.

(2) If the job title contained in the Directory differs from that contained in the statement of work but the job definition (description) in the Directory and the statement of work match sufficiently, the contracting officer shall use the Directory job title.

(3) The latest edition of the Directory is available for sale by the Superintendent of Documents and may be ordered by calling (202) 783-3238 or writing to Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Contracting agencies, in accordance with agency procedures, are responsible for notifying their own personnel of a new edition of the Directory.

22.1008-3 Section 4(c) successorship with incumbent contractor collective bargaining agreement.

(a) Early in the acquisition cycle, the contracting officer shall determine whether section 4(c) of the Act affects the new acquisition. The contracting officer shall determine whether there is a predecessor contract and, if so, whether the incumbent prime contractor or its subcontractors and any of their employees have a collective bargaining agreement.

(b) Section 4(c) of the Act provides that a successor contractor must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) to service employees at least equal to those agreed upon by a predecessor contractor under the following conditions:

(1) The services to be furnished under the proposed contract will be substantially the same as services being furnished by an incumbent contractor whose contract the proposed contract will succeed.

(2) The services will be performed in the same locality.

(3) The incumbent prime contractor or subcontractor is furnishing such services through the use of service employees whose wages and fringe benefits are the subject of one or more collective bargaining agreements.

(c) The application of section 4(c) of the Act is subject to the following limitations:

(1) Section 4(c) of the Act will not apply if the incumbent contractor enters into a collective bargaining agreement for the first time and the agreement does not become effective until after the expiration of the incumbent's contract.

(2) If the incumbent contractor enters into a new or revised collective bargaining agreement during the period of the incumbent's performance on the current contract, the terms of the new or revised agreement shall not be effective for the purposes of section 4(c) of the Act under the following conditions:

(i)(A) In sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement less than 10 days before bid opening and finds that there is not reasonable time still available to notify bidders (see 22.1012-3(a)); or

(B) For contractual actions other than sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement after award, provided that the start of performance is within 30 days of award (see 22.1012-3(b)); and

(ii) The contracting officer has given both the incumbent contractor and its employees' collective bargaining agent timely written notification of the applicable acquisition dates (see 22.1010).

(d) If section 4(c) of the Act applies, the contracting officer shall obtain a copy of any collective bargaining agreement between an incumbent contractor or subcontractor and its employees. Obtaining a copy of an incumbent contractor's collective bargaining agreement may involve coordination with the administrative contracting officer responsible for administering the predecessor contract. (Paragraph (m) of the clause at 52.222-41, Service Contract Act of 1965, as amended, requires the incumbent prime contractor to furnish the contracting officer a copy of each collective bargaining agreement.) The contracting officer shall submit a copy of each collective bargaining agreement together with any related documents specifying the wage rates and fringe benefits currently or prospectively payable under each agreement with the Notice.

(e) Section 4(c) of the Act will not apply if the Secretary of Labor determines after a hearing that the wages and fringe benefits in the predecessor contractor's collective bargaining agreement are substantially at variance with those which prevail for services of a similar character in the locality or are not the result of arm's length bargaining (see 22.1013 and 22.1021).

(f) If the services are being furnished at more than one location and the collectively bargained wage rates and fringe benefits are different at different locations or do not apply to one or more locations, the contracting officer shall identify the locations to which the agreements apply.

(g) If the collective bargaining agreement does not apply to all service employees under the contract, the contracting officer shall separately list on the SF 98a the service employee classifications (1) subject to the collective bargaining agreement and (2) not subject to any collective bargaining agreement.

22.1008-4 Procedures when place of performance is unknown.

See 22.1009.

22.1008-5 Multiple-year contracts.

If the proposed contract is multiple year and is not subject to annual appropriations, the contracting officer shall furnish with the Notice a statement in writing describing the type of funding and giving the length of the performance period. Unless otherwise advised by the wage and hour division that a Notice must be filed on the annual anniversary date, the contracting officer shall submit a new Notice on each biannual anniversary date of the multiple year contract if its term is for a period in excess of 2 years.

22.1008-6 Contract modifications (options, extensions, changes in scope) and anniversary dates.

If the purpose of the Notice is to obtain a wage determination for an exercise of an option, an extension to the contract term, a change in scope (see 22.1007(b)(2)), or the anniversary date of a multiple year contract, the contracting officer shall fill in Box 2 of the SF 98 as follows:

(a) In the *Estimated solicitation date* subbox, indicate, as appropriate, *Mod-Exercise of Option*; *Mod-Extension*; *Mod-Change in Scope*; *Annual Anniversary*; or *Biennial Anniversary*; and

(b) In the *month/day/year* subbox, indicate the date the wage determination is required.

22.1008-7 Required time of submission of Notice.

(a) If the contract action is for a recurring or known requirement, the contracting officer shall submit the Notice not less than 60 days (nor more than 120 days, except with the approval of the Wage and Hour Division) before the earlier of (1) issuance of any invitation for bids, (2) issuance of any request for proposals, (3) commencement of negotiations, (4) issuance of modification for exercise of option, contract extension, or change in scope, (5) annual anniversary date of a contract for more than 1 year subject to annual appropriations, or (6) each biennial anniversary date of a contract for more than 2 years not subject to annual appropriations unless otherwise advised by the Wage and Hour Division (see 22.1008-5).

(b) If the contract action is for a nonrecurring or unknown requirement for which the advance planning described in paragraph (a) of this subsection is not feasible, the contracting officer shall submit the Notice as soon as possible, but not later than 30 days before the contracting actions in paragraph (a) of this subsection. The contracting officer should indicate on the Notice that the requirement is nonrecurring or unknown and advance planning was not feasible.

(c) If exceptional circumstances prevent timely submission, as required by paragraphs (a) and (b) of this subsection, the contracting officer shall submit the Notice and the required supplemental information with a written statement of the reason for delay as soon as practicable.

(d) In an emergency situation requiring an immediate wage determination response, the contracting officer shall, in accordance with contracting agency procedures, contact the Wage and Hour Division by telephone for guidance before submitting the Notice.

22.1009 Place of performance unknown.

22.1009-1 General.

If the place of performance is unknown, the contracting officer may use the procedures in this section. The contracting officer should first attempt to identify the specific places or geographical areas where the services might be performed (see 22.1009-2) and then may follow the procedures either in 22.1009-3 or in 22.1009-4.

22.1009-2 Attempt to identify possible places of performance.

The contracting officer should attempt to identify the specific places or geographical areas where the services might be performed. The following may indicate possible places of performance:

(a) Locations of previous contractors and their competitors.

(b) The solicitation mailing list.

(c) Responses to a presolicitation notice (see 5.204).

22.1009-3 All possible places of performance identified.

(a) If the contracting officer can identify all the possible places or areas of performance (even though the actual place of performance will not be known until the successful offeror is chosen), the contracting officer, as required in 22.1008, shall submit the Notice to the Wage and Hour Division. If the number of places of performance exceeds the space available on the Notice, the contracting officer shall provide a listing by state-county-city/town in an attachment to the Notice.

(b) The Wage and Hour Division may issue a wage determination for each different geographical area of performance identified by the contracting officer, or in unusual situations it may issue a wage determination for one or more composite areas of performance. If there is a substantial number of places or areas of performance indicating the need for a wage determination for one or more composite areas of performance, the contracting officer should, before submitting the Notice, contact the Wage and Hour Division concerning the issuance of such a wage determination.

(c) If the contracting officer subsequently learns of any potential offerors in previously unidentified places before the closing date for submission of offers, the contracting officer shall follow one of the following procedures:

(1) Continue to follow the procedures in this subsection and:

(i) Submit Notices for the additional places of performance to the Wage and Hour Division, and

(ii) Amend the solicitation to include all wage determinations and, if necessary, extend the time for submission of final offers.

(2) Follow the procedures in 22.1009-4.

22.1009-4 All possible places of performance not identified.

If the contracting officer believes that there may be offerors interested in performing in unidentified places or areas, the contracting officer may use the following procedures:

(a) If the contracting officer has identified possible places or areas where services might be performed, the contracting officer shall submit the Notice to the Wage and Hour Division (see 22.1009-3 (a) and (b)).

(b) Include the following information in the Commerce Business Daily Notice (see 5.207(f)(4)):

(1) That the place of performance is unknown.

(2) The possible places or areas of performance for which the contracting officer has requested wage determinations.

(3) That the contracting officer will request wage determinations for additional possible places of performance if asked to do so in writing.

(4) The time and date by which requests for wage determinations for additional places must be received by the contracting officer.

(c) Insert the clause at 52.222-49, Service Contract Act—Place of Performance Unknown, in solicitations and contracts. Include the information required in the clause by subparagraphs (b)(2) and (b)(4) of this subsection. The closing date for receipt of offerors' requests for wage determinations for additional possible places of performance should allow reasonable time for potential offerors to review the solicitation and determine their interest in competing. Generally, 10 to 15 days from the date of issuance of the solicitation may be considered a reasonable period of time.

(d) The procedures in 14.304-1 shall apply to late receipt of offerors' requests for wage determinations for additional places of performance. However, late receipt of an offeror's request for a wage determination for additional places of performance does not preclude the offeror's competing for the proposed acquisition.

(e) If the contracting officer receives any timely requests for wage determinations for additional places of performance the contracting officer shall—

(1) Submit Notices for the additional places of performance to the Wage and Hour Division; and

(2) Amend the solicitation to include all wage determinations and, if necessary, extend the time for submission of final offers.

(f) If the successful offeror did not make a timely request for a wage determination and will perform in a place of performance for which the contracting officer therefore did not request a wage determination, the contracting officer shall—

(1) Award the contract;

(2) Request a wage determination; and

(3) Incorporate the wage determination in the contract, retroactive to the date of contract award and with no adjustment in contract price, pursuant to the clause at 52.222-49, Service Contract—Place of Performance Unknown.

22.1010 Notification to interested parties under collective bargaining agreements.

(a) The contracting officer should determine whether the incumbent prime contractor's or its subcontractors' service employees performing on the current contract are represented by a collective bargaining agent. If there is a collective bargaining agent, the contracting officer shall give both the incumbent contractor and its employees' collective bargaining agent written notification of—

(1) The forthcoming successor contract and the applicable acquisition dates (issuance of solicitation, opening of bids, commencement of negotiations, award of contract, or start of performance, as the case may be); or

(2) The forthcoming contract modification and applicable acquisition dates (exercise of option, extension of contract, change in scope, or start of performance, as the case may be); or

(3) The forthcoming multiple year contract anniversary date (annual anniversary date or biennial date, as the case may be).

(b) This written notification must be given at least 30 days in advance of the earliest applicable acquisition date or the applicable annual or biennial anniversary date in order for the time-of-receipt limitations in 22.1012-3 (a) and (b) to apply. The contracting officer shall retain a copy of the notification in the contract file.

22.1011 Response to Notice by Department of Labor.

22.1011-1 Department of Labor action.

The Wage and Hour Division will mark, date, and sign the section of the SF 98 titled *Response to Notice* and return the signed original together with appropriate additional material (wage determination, position/classification descriptions, etc.). The Wage and Hour Division will take one of the following four actions:

(a) Issue and attach applicable wage determination(s); or

(b) Indicate that no wage determination is in effect for the locality of contract performance; or

(c) Indicate that the Service Contract Act is not applicable based on information submitted; or

(d) Return the Notice for additional information (see 22.1008-1).

22.1011-2 Requests for status or expediting of response.

Checking the status or the expediting of wage determination responses shall be made in accordance with contracting agency procedures.

22.1012 Late receipt or nonreceipt of wage determination.

22.1012-1 General.

The Wage and Hour Administrator, generally, will issue a wage determination or revision to it in response to a Notice. The contracting officer shall incorporate the determination or revision in the particular solicitation and contract for which the wage determination was sought.

22.1012-2 Response to timely submission of Notice—no collective bargaining agreement.

(a) If the contracting officer has not received a response from the Department of Labor within 60 days (or 30 days if a nonrecurring or unknown requirement), the contracting agency shall contact the Wage and Hour Division to determine when the wage determination or revision can be expected.

(b) In sealed bidding, a revision of a wage determination shall not be effective if a collective bargaining agreement does not exist, the revision is received by the contracting agency less than 10 days before the opening of bids, and the contracting officer finds that there is not reasonable time to incorporate the revision in the solicitation.

(c) For contractual actions other than sealed bidding where a collective bargaining agreement does not exist, a revision of a wage determination received by the contracting agency after award of a new contract or a modification as specified in 22.1007(b) shall not be effective provided that the start of performance is within 30 days of the award or the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award or the specified modification, and if contract performance does not commence within 30 days of the award or the specified modification, the Department of Labor shall be notified and any revision received by the contracting agency not less than 10 days before commencement of the work shall be effective.

(d) The limitations in paragraphs (b) and (c) of this subsection shall apply only if a timely Notice required in 22.1008-7 (a) and (b) has been submitted.

22.1012-3 Response to timely submission of Notice—with collective bargaining agreement.

(a) In sealed bidding, a wage determination or revision based on a new or changed collective bargaining agreement shall not be effective if the contracting agency has received notice of the terms of the new or changed collective bargaining agreement less than 10 days before bid opening and the contracting officer determines that there is not reasonable time to incorporate the new or changed terms of the collective bargaining agreement in the solicitation (see 52.222-47).

(b) For contractual actions other than sealed bidding, a wage determination or revision based on a new or changed collective bargaining agreement shall not be effective if notice of the terms of the new or changed collective bargaining agreement is received by the contracting agency after award of a successor contract or a modification as specified in 22.1007(b), provided that the contract start of performance is within 30 days of the award of the contract or of the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award of the contract or of the specified modification, or if contract performance does not commence within 30 days of the award of the contract or of the specified modification, any notice of the terms of a new or changed collective bargaining agreement received by the agency not less than 10 days before commencement of the work shall be effective for purposes of the successor contract under section 4(c) of the Act.

(c) The limitations in paragraphs (a) and (b) of this subsection shall apply only if timely Notices and notifications required in 22.1008–7 and 22.1010 have been given.

(d) If the contracting officer has not received a response from the Department of Labor within 60 days (or 30 days if a nonrecurring or unknown requirement), the contracting agency shall contact the Wage and Hour Division to determine when the wage determination or revision can be expected. If the Department of Labor is unable to provide the wage determination or revision by the latest date needed to maintain the acquisition schedule, the solicitation/contract action should proceed according to the following instructions:

(1) If a successorship/same locality/incumbent collective bargaining agreement situation exists, the contracting officer shall incorporate in the solicitation the wage and fringe benefit terms of the collective bargaining agreement, or the collective bargaining agreement itself, and the clause at 52.222–47, Service Contract Act (SCA) Minimum Wages and Fringe Benefits.

(2) The terms of a new or changed collective bargaining agreement, negotiated by the predecessor contractor during the period of performance of the predecessor contract, will not apply to the successor contract under the conditions set forth in paragraphs (a), (b), and (c) of this subsection.

22.1012–4 Response to late submissio
Notice—no collective bargaining a
ment.

If the contracting officer has
filed the Notice within the time li
in 22.1008–7, and thus has not rece
a response from the Department
Labor, and a successorship/same lo
ity/incumbent collective bargai
agreement situation does not exist,
contracting officer shall contact
Wage and Hour Division to determ
when the wage determination or r
sion can be expected. If the Dep
ment of Labor is unable to provide
wage determination or revision by
latest date needed to maintain the
quisition schedule, the contracting
ficer shall use the latest wage deter
nation or revision, if any, incorpora
in the existing contract. If any new
revised wage determination is recei
later in response to the Notice,
contracting officer shall include it
the solicitation or contract within
calendar days of receipt. If the c
tract has been awarded, the contr
ing officer shall equitably adjust
contract price to reflect any chan
cost of performance resulting from
corporating the wage determination
revision. The Administrator, Wage
Hour Division, may require retroact
application of the wage determinat
for a contractual action over $2,
using more than five service empl
ees. These provisions are not inten
to alter the contracting officer's
sponsibility to make timely subm
sions as required in 22.1008–7.

22.1012–5 Response to late submission
Notice—with collective bargai
agreement.

If the contracting officer has
filed the Notice within the time lim
in 22.1008–7, has not received a
sponse from the Department of La
and a successorship/same locality/
cumbent collective bargaining ag
ment situation exists, the contract
officer shall contact the Wage
Hour Division to determine when
wage determination or revision can
expected. If the Department of La
is unable to provide the wage dete
nation or revision by the latest d
needed to maintain the acquisit

schedule, the contracting officer shall incorporate in the solicitation the wage and fringe benefit terms of the collective bargaining agreement, or the collective bargaining agreement itself, and the clause at 52.222-47, Service Contract Act (SCA) Minimum Wages and Fringe Benefits. If the contract has been awarded, an equitable adjustment following receipt of the wage determination or revision will not be required, since the wage determination or revision will be based on the economic terms of the collective bargaining agreement.

22.1013 Review of wage determination.

(a) *Based on incumbent collective bargaining agreement.* (1) If wages, fringe benefits, or periodic increases provided for in a collective bargaining agreement vary substantially from those prevailing for similar services in the locality, the contracting officer shall immediately contact the agency labor advisor to consider instituting the procedures in 22.1021.

(2) If the contracting officer believes that an incumbent or predecessor contractor's agreement was not the result of arm's length negotiations, the contracting officer shall contact the agency labor advisor to determine appropriate action.

(b) *Based on other than incumbent collective bargaining agreement.* Upon receiving a wage determination not predicated upon a collective bargaining agreement, the contracting officer shall ascertain—

(1) If the wage determination does not conform with wages and fringe benefits prevailing for similar services in the locality; or

(2) If the wage determination contains significant errors or omissions. If either subparagraph (b)(1) or (b)(2) of this section is evident, the contracting officer shall contact the agency labor advisor to determine appropriate action.

22.1014 Delay of acquisition dates over 60 days.

If any invitation for bids, request for proposals, bid opening, or commencement of negotiation for a proposed contract for which a wage determination was provided in response to a Notice has been delayed, for whatever reason, more than 60 days from such date as indicated on the submitted Notice, the contracting officer shall, in accordance with agency procedures, contact the Wage and Hour Division for the purpose of determining whether the wage determination issued under the initial submission is still current. Any revision of a wage determination received by the contracting agency as a result of that communication, or upon discovery by the Department of Labor of a delay, shall supersede the earlier response as the wage determination applicable to the particular acquisition subject to the time frames in 22.1012-2(a) and (b).

22.1015 Discovery of errors by the Department of Labor.

If the Department of Labor discovers and determines, whether before or after a contract award, that a contracting officer made an erroneous determination that the Service Contract Act did not apply to a particular acquisition or failed to include an appropriate wage determination in a covered contract, the contracting officer, within 30 days of notification by the Department of Labor, shall include in the contract the clause at 52.222-41 and any applicable wage determination issued by the Administrator. If the contract is subject to section 10 of the Act (41 U.S.C. 358), the Administrator may require retroactive application of that wage determination. The contracting officer shall equitably adjust the contract price to reflect any changed cost of performance resulting from incorporating a wage determination or revision.

22.1016 Statement of equivalent rates for Federal hires.

(a) The statement required under the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, (see 22.1006(b)) shall set forth those wage rates and fringe benefits that would be paid by the contracting activity to the various classes of service employees expected to be utilized under the contract if 5 U.S.C. 5332 (General Schedule—white collar) and/or 5

U.S.C. 5341 (Wage Board—blue collar) were applicable.

(b) Procedures for computation of these rates are as follows:

(1) Wages paid blue collar employees shall be the basic hourly rate for each class. The rate shall be Wage Board pay schedule step two for nonsupervisory service employees and step three for supervisory service employees.

(2) Wages paid white collar employees shall be an hourly rate for each class. The rate shall be obtained by dividing the general pay schedule step one biweekly rate by 80.

(3) Local civilian personnel offices can assist in determining and providing grade and salary data.

22.1017 Notice of award.

Whenever an agency awards a service contract subject to the Act which may be in excess of $25,000 and that agency does not report the award to the Federal Procurement Data System, it shall furnish an original and one copy of Standard Form 99, Notice of Award of Contract (see 53.301-99) to the Wage and Hour Division, Employment Standards Administration, Department of Labor, unless it makes other arrangements with the Wage and Hour Division for notifying it of contract awards.

22.1018 Notification to contractors and employees.

The contracting officer shall take the following steps to ensure that service employees are notified of minimum wages and fringe benefits.

(a) As soon as possible after contract award, inform the contractor of the labor standards requirements of the contract relating to the Act and of the contractor's responsibilities under these requirements, unless it is clear that the contractor is fully informed.

(b) At the time of award, furnish the contractor Department of Labor Publication WH-1313, Notice to Employees Working on Government Contracts, for posting at a prominent and accessible place at the worksite before contract performance begins. The publication advises employees of the compensation (wages and fringe benefits) required to be paid or furnished under the Act and satisfies the notice requirements in paragraph (g) of the clause at 52.222-41, Service Contract Act of 1965, as amended.

(c) Attach any applicable wage determination to Publication WH-1313.

22.1019 Additional classes of service employees.

(a) If the contracting officer is aware that contract performance involves classes of service employees not included in the wage determination, the contracting officer shall require the contractor to classify the unlisted classes so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between the unlisted classifications and the classifications listed in the determination (see paragraph (c) of the clause at 52.222-41, Service Contract Act of 1965, as amended). The contractor shall initiate the conforming procedure before unlisted classes of employees perform contract work. The contractor shall submit Standard Form (SF) 1444, Request For Authorization of Additional Classification and Rate. The contracting officer shall review the proposed classification and rate and promptly submit the completed SF 1444 (which must include information regarding the agreement or disagreement of the employees' representative or the employees themselves together with the agency recommendation) and all other pertinent information to the Wage and Hour Division. Within 30 days of receipt of the request, the Wage and Hour Division will (1) approve, modify, or disapprove the request when the parties are in agreement or (2) render a final determination in the event of disagreement among the parties. If the Wage and Hour Division will require more than 30 days to take action, it will notify the contracting officer within 30 days of receipt of the request that additional time is necessary.

(b) Some wage determinations will list a series of classes within a job classification family, for example, Computer Operators, level I, II, and III, or Electronic Technicians, level I, II, and III, or Clerk Typist, level I and II. Generally, level I is the lowest level. It is the entry level, and establishment of a lower level through conformance is not permissible. Further, trainee classifications may not be conformed. Helpers in skilled maintenance trades (for example, electricians, machinists, and automobile mechanics) whose duties constitute, in fact, separate and distinct jobs may also be used if listed on the wage determination, but may not be conformed. Conformance may not be used to artificially split or subdivide classifications listed in the wage determination. However, conforming procedures may be used if the work which an employee performs under the contract is not within the scope of any classification listed on the wage determination, regardless of job title. (See 29 CFR 4.152.)

(c) Subminimum rates for apprentices, student learners, and handicapped workers are permissible in accordance with paragraph (q) of the clause at 52.222-41, Service Contract Act of 1965, as amended.

22.1020 Seniority lists.

If a contract is performed at a Federal facility where employees may be hired/retained by a succeeding contractor, the incumbent prime contractor is required to furnish a certified list of all service employees on the contractor's or subcontractor's payroll during the last month of the contract, together with anniversary dates of employment, to the contracting officer no later than 10 days before contract completion. (See paragraph (n) of the clause at 52.222-41, Service Contract Act of 1965, as amended.) At the commencement of the succeeding contract, the contracting officer shall provide a copy of the list to the successor contractor for determining employee eligibility for vacation or other fringe benefits which are based upon length of service, including service with predecessor contractors if such benefit is required by an applicable wage determination.

22.1021 Substantial variance hearings.

(a) A contracting agency or other interested party may request a hearing on an issue presented in 22.1013(a). To obtain a hearing for the contracting agency, the contracting officer shall submit a request through appropriate channels (ordinarily the agency labor advisor) to Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington DC 20210, with sufficient data to support a prima facie showing that the rates at issue vary substantially from those prevailing for similar services in the locality. The request shall also include (1) the number of the wage determinations at issue, (2) name of contracting agency, (3) status of the acquisition and any estimated acquisition dates (e.g., bid opening, award, and commencement of performance), and (4) names and addresses, if known, of interested parties.

(b) Unless the Administrator determines that extraordinary circumstances exist, the Administrator will not consider requests for a hearing unless received as specified in subparagraphs (b)(1) and (b)(2) of this section—

(1) For sealed bid contracts, more than 10 days before the award of the contract;

(2) For negotiated contracts and for contracts with provisions extending the initial term by option, before the commencement date of the contract or the follow-up option period, as the case may be.

22.1022 Withholding of contract payments.

Any violations of the clause at 52.222-40, Service Contract Act of 1965, as amended—Contracts of $2,500 or Less, or the clause at 52.222-41, Service Contract Act of 1965, as amended, renders the responsible contractor liable for the amount of any deductions, rebates, refunds, or underpayments (which includes nonpayment) of compensation due employees performing the contract. The contracting officer may withhold—or, upon written request of the Department of Labor from a level no lower than that of Assistant Regional Administrator, Wage and Hour Division, Employment Standards Administration, Department of Labor, shall withhold—the amount needed to pay such underpaid employees from accrued payments due the contractor on the contract, or on any other prime contract (whether subject to the Service Contract Act or not) with the contractor. The agency shall place the amount withheld in a deposit fund. Such withheld funds shall be transferred to the Department of Labor for disbursement to the underpaid employees on order of the Secretary (or authorized representatives), an Administrative Law Judge, or the Board of Service Contract Appeals. In addition, the Department of Labor has given blanket approval to forward withheld funds pending completion of an investigation or other administrative proceeding when disposition of withheld funds remains the final action necessary to close out a contract.

22.1023 Termination for default.

As provided by the Act, any contractor failure to comply with the requirements of the contract clauses related to the Act may be grounds for termination for default (see paragraph (k) of the clause at 52.222-41, Service Contract Act of 1965, as amended).

22.1024 Cooperation with the Department of Labor.

The contracting officer shall cooperate with Department of Labor representatives in the examination of records, interviews with service employees, and all other aspects of investigations undertaken by the Department. When asked, agencies shall furnish the Wage and Hour Administrator or a designee, any available information on contractors, subcontractors, their contracts, and the nature of the contract services. The contracting officer shall promptly refer, in writing to the appropriate regional office of the Department, apparent violations and complaints received. Employee complaints shall not be disclosed to the employer.

22.1025 Ineligibility of violators.

A list of persons or firms found to be in violation of the Act is contained in the lists of Parties Excluded from Federal Procurement or Nonprocurement Programs (see 9.404). No Government contract may be awarded to any violator so listed because of a violation of the Act, or to any firm, corporation, partnership, or association in which the violator has a substantial interest without the approval of the Secretary of Labor. This prohibition against award to an ineligible contractor applies to both prime and subcontracts.

22.1026 Disputes concerning labor standards.

Disputes concerning labor standards requirements of the contract are handled under paragraph (t) of the contract clause at 52.222-41, Service Contract Act of 1965, as amended, and not under the clause at 52.233-1, Disputes.

Subpart 22.11—Professional Employee Compensation

22.1101 Applicability.

The Service Contract Act of 1965 was enacted to ensure that Government contractors compensate their blue-collar service workers and some white-collar service workers fairly, but it does not cover bona fide executive, administrative, or professional employees. The Office of Federal Procurement Policy issued Policy Letter No. 78-2, dated March 29, 1978, Preventing *Wage Busting* for Professionals. This subpart implements that policy letter. Its application is limited to professional employees. This subpart 22.11 provides policies and procedures for use in negotiated service contracts exceeding $250,000 that involve meaningful numbers of professional employees.

[48 FR 42258, Sept. 19, 1983 as amended at 51 FR 2665, Jan. 17, 1986]

22.1102 Definition.

Professional employee means any person meeting the definition of *employee employed in a bona fide … professional capacity* given in 29 CFR part 541. The term embraces members of those professions having a recognized status based upon acquiring professional knowledge through prolonged study. Examples of these professions include accountancy, actuarial computation, architecture, dentistry, engineering, law, medicine, nursing, pharmacy, the sciences (such as biology, chemistry, and physics), and teaching. To be a professional employee, a person must not only be a professional but must be involved essentially in discharging professional duties.

22.1103 Policy, procedures, and solicitation provisions.

All professional employees shall be compensated fairly and properly. Accordingly, the contracting officer shall insert provisions at 52.222-45, Notice of Compensation for Professional Employees, and 52.222-46, Evaluation of Compensation for Professional Employees, in solicitations for negotiated service contracts when the contract amount is expected to exceed $250,000 and the service to be provided will require meaningful numbers of professional employees. These provisions require that offerors submit for evaluation a total compensation plan setting forth proposed salaries and fringe benefits for professional employees working on the contract. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure. Plans indicating unrealistically low professional employees compensation may be assessed adversely as one of the factors considered in making the award.

Subpart 22.12—[Reserved]

Subpart 22.13—Special Disabled and Vietnam Era Veterans

22.1300 Scope of subpart.

This subpart prescribes policies and procedures for implementing the Vietnam Era Veterans Readjustment Assistance Act of 1972, as amended (38 U.S.C. 2012) (the Act); Executive Order 11701, January 24, 1973 (38 FR 2675, January 29, 1973); and the regulations of the Secretary of Labor (41 CFR part 60-250 and part 61-250). In this subpart, the terms *contract* and *contractor* include *subcontract* and *subcontractor*.

[48 FR 42258, Sept. 19, 1983, as amended at 53 FR 661, Jan. 11, 1988]

22.1301 Policy.

Government contractors, when entering into contracts subject to the Act, are required to list all suitable employment openings with the appropriate local employment service office and take affirmative action to employ, and advance in employment, qualified special disabled veterans and veterans of the Vietnam Era without discrimination based on their disability or veterans' status.

22.1302 Applicability.

(a) The Act applies to all contracts for supplies and services (including construction) of $10,000 or more except as waived by the Secretary of Labor.

(b) The requirements of the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, in any contract with a State or local government (or any agency, instrumentality, or subdivision) shall not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

22.1303 Waivers.

(a) The agency head, with the concurrence of the Director, Office of Federal Contract Compliance Programs (OFCCP), Department of Labor (Director), may waive any or all of the terms of the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, for—

(1) Any contract if a waiver is deemed to be in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b)(1) The head of a civilian agency, with the concurrence of the Director of OFCCP, or, (2) the Secretary of Defense may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of a civilian agency shall notify the Director in writing within 30 days.

(c) The contracting officer shall submit requests for waivers in accordance with agency procedures.

(d) A waiver granted for a particular class of contracts may be withdrawn for any contract within that class whenever considered necessary by the Director to achieve the purposes of the Act. The withdrawal shall not apply to contracts awarded before the withdrawal. The withdrawal shall not apply to solicitations under any means of sealed bidding unless it is made more than 10 calendar days before the date set for bid opening.

[48 FR 42258, Sept. 19, 1983, as amended at 52 FR 19803, May 27, 1987]

22.1304 Department of Labor notices and reports.

(a) The contracting officer shall furnish to the contractor appropriate notices for posting when they are prescribed by the Director.

(b) The Act requires contractors to submit a report at least annually to the Secretary of Labor regarding employment of Vietnam era and special disabled veterans unless all of the terms of the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, have been waived (see 22.1303). The contractor shall use Standard Form VETS-100, Federal Contractor Veterans' Employment Report, to submit the required reports.

[53 FR 661, Jan. 11, 1988]

22.1305 Collective bargaining agreements.

If performance under the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans, may necessitate a revision of a collective bargaining agreement, the contracting officer shall advise the affected labor unions that the Department of Labor (DOL) will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer shall discuss with the contractor or any labor representative any aspect of the collec bargaining agreement.

22.1306 Complaint procedures.

Following agency procedures, contracting office shall forward complaints received about the adm istration of the Act to the Veter Employment Service of DOL, thro the local Veteran's Employment R resentative or designee, at the lo State employment office. The Direc of the Office of Federal Contr Compliance Programs of the DOL primarily responsible for making vestigations of complaints.

22.1307 Actions because of noncom ance.

The contracting officer shall t necessary action as soon as pos upon notification by the appropri agency official to implement any sa tions imposed on a contractor by Department of Labor for violations the clause at 52.222-35, Affirmat Action for Special Disabled and Vi nam Era Veterans. These sanctio (see 41 CFR 60-250.28) may include—

(a) Withholding from payments o erwise due;

(b) Termination or suspension of t contract; or

(c) Debarment of the contractor.

22.1308 Contract clauses.

(a)(1) The contracting officer sh insert the clause at 52.222-35, Affirm tive Action for Special Disabled a Vietnam Era Veterans, in solicitatio and contracts when the contract is f $10,000 or more or is expected amount to $10,000 or more, exce when—

(i) Work is performed outside t United States by employees recruite outside the United States (for the pu poses of this subpart, *United States* i cludes the States, the District of C lumbia, the Virgin Islands, the Com monwealth of Puerto Rico, Gua American Samoa, and the Trust Terr tory of the Pacific Islands); or

(ii) The agency head has waived accordance with 22.1303(a) 22.1303(b) all of the terms of th clause.

(2) If the agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1303(a) or 22.1303(b), use the basic clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.222-37, Employment Reports on Special Disabled Veterans and Veterans of the Vietnam Era, in solicitations and contracts containing the clause at 52.222-35, Affirmative Action for Special Disabled and Vietnam Era Veterans.

[48 FR 42258, Sept. 19, 1983, as amended at 53 FR 662, Jan. 11, 1988; 55 FR 38517, Sept. 18, 1990]

Subpart 22.14—Employment of the Handicapped

22.1400 Scope of subpart.

This subpart prescribes policies and procedures for implementing Section 503 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 793) (the Act); Executive Order 11758, January 15, 1974; and the regulations of the Secretary of Labor (41 CFR part 60-741). In this subpart, the terms *contract* and *contractor* include *subcontract* and *subcontractor.*

22.1401 Policy.

Government contractors, when entering into contracts subject to the Act, are required to take affirmative action to employ, and advance in employment, qualified handicapped individuals without discrimination based on their physical or mental handicap.

22.1402 Applicability.

(a) Section 503 of the Act applies to all Government contracts in excess of $2,500 for supplies and services (including construction) except as waived by the Secretary of Labor. The clause at 52.222-36, Affirmative Action for Handicapped Workers, implements the Act.

(b) The requirements of the clause at 52.222-36, Affirmative Action for Handicapped Workers, in any contract with a State or local government (or any agency, instrumentality, or subdivision) shall not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

22.1403 Waivers.

(a) The agency head, with the concurrence of the Director, Office of Federal Contract Compliance Programs (OFCCP), (Director), may waive any or all of the terms of the clause at 52.222-36, Affirmative Action for Handicapped Workers, for—

(1) Any contract if a waiver is deemed to be in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b)(1) The head of a civilian agency, with the concurrence of the Director of OFCCP, or, (2) the Secretary of Defense, may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of a civilian agency shall notify the Director in writing within 30 days.

(c) The contracting officer shall submit requests for waivers in accordance with agency procedures.

(d) A waiver granted for a particular class of contracts may be withdrawn for any contract within that class whenever considered necessary by the Director to achieve the purposes of the Act. The withdrawal shall not apply to contracts awarded before the withdrawal. The withdrawal shall not apply to solicitations under any means of formal sealed bidding unless it is made more than 10 calendar days before the date set for bid opening.

[48 FR 42258, Sept. 19, 1983, as amended at 52 FR 19803, May 27, 1987]

22.1404 Department of Labor notices.

The contracting officer shall furnish to the contractor appropriate notices that state the contractor's obligations and the handicapped individual's

pages tightly bound

rights under the Employment of the Handicapped program. The contracting officer may obtain these notices from the Department of Labor Regional Office, Office of Federal Contract Compliance Programs.

22.1405 Collective bargaining agreements.

If performance under the clause at 52.222-36, Affirmative Action for Handicapped Workers, may necessitate a revision of a collective bargaining agreement, the contracting officer shall advise the affected labor unions that the Department of Labor will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer shall discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

22.1406 Complaint procedures.

Following agency procedures, the contracting office shall forward any complaints received about the administration of the Act to the OFCCP, 200 Constitution Avenue, NW., Washington, DC 20210, or to any OFCCP regional or area office. The OFCCP shall institute investigation of each complaint and shall be responsible for developing a complete case record.

22.1407 Actions because of noncompliance.

The contracting officer shall take necessary action as soon as possible upon notification by the appropriate agency official to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-36, Affirmative Action for Handicapped Workers. These sanctions (see 41 CFR 60-741.28) may include—

(a) Withholding from payments otherwise due;

(b) Termination or suspension of the contract; or

(c) Debarment of the contractor.

22.1408 Contract clause.

(a) The contracting officer shall insert the clause at 52.222-36, Affirmative Action for Handicapped Workers, in solicitations and contracts that exceed $2,500 or are expected to exceed $2,500, except when—

(1) Work is performed outside the United States by employees recruited outside the United States (for the purpose of this subpart, *United States*, includes the States, the District of Columbia, the Virgin Islands, Puerto Rico, Guam, American Samoa, and the Trust Territory of the Pacific Islands); or

(2) The agency head has waived, in accordance with 22.1403(a) or 22.1403(b) all the terms of the clause.

(b) If the agency head waives one or more (but not all) of the terms of the clause in accordance with 22.1403(a) or 22.1403(b), use the basic clause with its Alternate I.

SOURCE: 48 FR 42275, Sept. 19, 1983, unless otherwise noted.

23.000 Scope of part.

This part prescribes acquisition policies and procedures supporting the Government's program for ensuring a drug-free workplace and for protecting and improving the quality of the environment through pollution control, energy conservation, identification of hazardous material, and use of recovered materials.

[54 FR 4968, Jan. 31, 1989 and 55 FR 21707, May 25, 1990]

Subpart 23.1—Pollution Control and Clean Air and Water

23.101 Applicability.

This subpart does not apply to small purchases or to the use of facilities outside the United States. (*United States*, as used in this subpart, includes the States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.)

23.102 Authorities.

(a) Clean Air Act (42 U.S.C. 7401 *et seq.*).

(b) Clean Water Act (33 U.S.C. 1251 *et seq.*).

(c) Executive Order 11738, September 10, 1973 (38 FR 25161, September 12, 1973).

(d) Environmental Protection Agency (EPA) regulations (40 CFR part 15).

23.103 Policy.

(a) It is the Government's policy to improve environmental quality. Accordingly, executive agencies shall conduct their acquisition activities in a manner that will result in effective enforcement of the Clean Air Act (the *Air Act*) and the Clean Water Act (the *Water Act*).

(b) Except as provided in 23.104, executive agencies shall not enter into, renew, or extend contracts with firms proposing to use facilities listed by EPA (40 CFR part 15) as violating facilities under the Air Act or the Water Act.

23.104 Exemptions.

(a) Except as provided in paragraphs (b) and (c) of this section, contracts and subcontracts are not subject to the restriction in 23.103(b) if they are (1) $100,000 or under; or (2) for indefinite quantities and the contracting officer believes that the amount ordered in any year under the contract will not exceed $100,000.

(b) If the facility to be used is on the EPA List of Violating Facilities for a *conviction* under the Air Act or the Water Act, the exemption in paragraph (a) above does *not* apply.

(c) The agency head may exempt any contract, subcontract, or class of contracts or subcontracts from the requirement in 23.103(b) for 1 year when it is in the paramount interest of the United States to do so.

(1) Before granting a class exemption, the agency head shall consult with the EPA Administrator or the Administrator's designee.

(2) The agency head shall notify the EPA Administrator, or a designee, as soon as practical after granting an individual exemption. The notification shall describe the purpose of the contract and explain why the paramount interest of the United States required the exemption.

[48 FR 42275, Sept. 19, 1983, as amended at 53 FR 27464, July 20, 1988]

23.105 Solicitation provision and contract clause.

(a) The contracting officer shall insert the solicitation provision at 52.223-1, Clean Air and Water Certification, in solicitations containing the clause at 52.223-2, Clean Air and Water (see paragraph (b) following).

(b) The contracting officer shall insert the clause at 52.223-2, Clean Air and Water, in solicitations and contracts to which this subpart applies (see 23.101), if—

(1) The contract is expected to exceed $100,000;

(2) The contracting officer believes that orders under an indefinite quantity contract in any year will exceed $100,000; or

(3) A facility to be used has been the subject of a conviction under the applicable portion of the Air Act (42 U.S.C. 7413(c)(1)) or Water Act (33 U.S.C. 1319(c)) and is listed by EPA as a violating facility; and

(4) The acquisition is not otherwise exempt under 23.104.

23.106 Delaying award.

(a) If an otherwise successful offeror informs the contracting officer that EPA is considering listing a facility proposed for contract performance (see the provision at 52.223-1, Clean Air and Water Certification), the contracting officer shall promptly notify the EPA Administrator or a designee, in writing, that the offeror is being considered for award.

(b) After consulting with the agency involved, the EPA Administrator or a designee may request the contracting officer to delay award for up to 15 working days, beginning on the date the EPA Administrator or a designee is notified that the award is under consideration.

(c) The contracting officer then shall delay award, only for the period of time requested by the EPA (up to 15 working days), except when the delay is likely to prejudice the agency's programs or seriously disadvantage the Government. The contracting officer shall promptly notify the EPA Administrator or a designee only if a decision is made to award before the period requested expires.

23.107 Compliance responsibilities.

Primary responsibility for ensuring compliance with Federal, State, or local pollution control laws and related requirements rests with EPA and other agencies designated under the laws. If a contracting officer becomes aware of noncompliance with clean air or water standards in facilities used in performing nonexempt contracts, that contracting officer shall notify the agency head, or a designee, who shall promptly notify the EPA Administrator or a designee in writing.

Subpart 23.2—Energy Conservation

23.201 Authorities.

(a) Energy Policy and Conservation Act (42 U.S.C. 6361(a)(1)).

(b) Executive Order 11912, April 13, 1976 (41 FR 15825-7, April 15, 1976), as amended by Executive Order 12038, February 3, 1978 (43 FR 4957, February 7, 1978), and Executive Order 12148, July 20, 1979 (44 FR 43239, July 24, 1979).

23.202 Definitions.

Consumer product means any article (other than an automobile, as defined in section 501(1) of the Motor Vehicle Information and Cost Savings Act) that—

(a) Consumes energy; and

(b) Is distributed in commerce for personal use or consumption by individuals.

Covered product means a consumer product of one of the following types:

(a) Central air conditioners.

(b) Clothes dryers.

(c) Clothes washers.

(d) Dishwashers.

(e) Freezers.

(f) Furnaces.

(g) Home heating equipment, not including furnaces.

(h) Humidifiers and dehumidifiers.

(i) Kitchen ranges and ovens.

(j) Refrigerators and refrigerator-freezers.

(k) Room air conditioners.

(l) Television sets.

(m) Water heaters.

(n) Any other type of product that the Secretary of Energy classifies as a covered product under 42 U.S.C. 6292(b)

Energy efficiency standard means a performance standard that—

(a) Prescribes a minimum level of energy efficiency for a covered product, determined by test procedures prescribed under 42 U.S.C. 6293; and

(b) Includes any other requirements that the Secretary of Energy may prescribe under 42 U.S.C. 6295(c).

Energy use and efficiency label means a label provided by a manufacturer of a covered product under 42 U.S.C. 6296.

Manufacture means to manufacture, produce, assemble, or import.

Manufacturer, as used in this part, means any business that, or person who, manufactures a consumer product.

23.203 Policy.

(a) Whenever the results would be meaningful, practical, and consistent with agency programs and needs, agencies shall apply energy conservation and efficiency criteria to acquisitions. In preparing solicitations and evaluating and selecting offers for award, agencies shall consider these criteria along with price and other relevant factors.

(b) When acquiring covered products, executive agencies shall consider energy use and efficiency labels and, as they become available, energy efficiency standards.

Subpart 23.3—Hazardous Material Identification and Material Safety Data

23.300 Scope of subpart.

This subpart prescribes policies and procedures for acquiring deliverable items, other than ammunition and explosives, that require the furnishing of data involving hazardous materials. Agencies may prescribe special procedures for ammunition and explosives.

23.301 Definition.

Hazardous material is defined in Federal Standard No. 313A. (Federal Standards are sold to the public and Federal agencies through: General Services Administration (3FRI), Washington Navy Yard, Bldg. 197, Washington, DC 20407.)

23.302 General.

(a) The Occupational Safety and Health Administration (OSHA) is responsible for issuing and administering regulations that require Government activities to apprise their employees of—

(1) All hazards to which they may be exposed;

(2) Relative symptoms and appropriate emergency treatment; and

(3) Proper conditions and precautions for safe use and exposure.

(b) Contractors and their subcontractors of any tier are required to submit hazardous materials data. Federal Standard No. 313A (Material Safety Data Sheet, Preparation and Submission of) includes criteria for identification of hazardous materials. The Standard also prescribes Department of Labor Form OSHA-20 for use with Government contracts.

(c) Contractors shall submit hazardous material identification on the following:

(1) All items in, or ordinarily cataloged under, the Federal Supply Classes listed in Table I of Appendix A of Federal Standard No. 313A.

(2) Items having hazardous characteristics in the Federal Supply Classes listed in Table II of Appendix A of Federal Standard No. 313A.

(3) Any other material designated by a Government technical representative as potentially hazardous and requiring safety controls.

23.303 Contract clause.

The contracting officer shall insert the clause at 52.223-3, Hazardous Material Identification and Material Safety Data, in solicitations and contracts when it is contemplated that the contract will require the delivery of hazardous materials as defined in Appendix A of Federal Standard No. 313A, or on the advice of the Government's technical representative that the contract will involve exposure to hazardous materials in any manner; e.g., performance of work, use, handling, manufacturing, packaging, transportation, storage, inspection, and disposal.

Subpart 23.4—Use of Recovered Materials

23.401 Authority.

(a) The statutory basis for this program is the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. 6901, *et seq.*)

(b) The statute requires agencies responsible for drafting or reviewing specifications to ensure that Government specifications and standards (1) do not exclude the use of recovered materials, (2) do not require the item to be manufactured from virgin materials, and (3) require the use of recovered materials to the maximum extent possible without jeopardizing the intended end use of the item.

(c) The statute also requires the Environmental Protection Agency to prepare guidelines on the availability, sources, and potential uses of recovered materials and associated items, including solid waste management services.

[48 FR 42275, Sept. 19, 1983, as amended at 54 FR 34755, Aug. 21, 1989]

23.402 Definitions.

Recovered materials means materials that have been collected or recovered from solid waste.

Solid waste means (a) any garbage, refuse, or sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility; and (b) other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities. It does not include solid or dissolved material in domestic sewage, or solid or dissolved material in irrigation return flows or industrial discharges which are point sources subject to permits under section 402 of the Clean Water Act, (33 U.S.C. 1342 *et seq.*), or source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 U.S.C. 2011 *et seq.*).

23.403 Policy.

The Government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, without adversely affecting performance requirements or exposing suppliers' employees to undue hazards from the recovered materials.

23.404 Procedures.

(a) These procedures apply to all acquisitions that require minimum percentages of recovered materials, when the price of the item exceeds $10,000 or when the aggregate amount paid for items, or of functionally equivalent items, in the preceding fiscal year was $10,000 or more.

(b) The contracting officer may waive requirements for using recovered materials only after determining that the items containing recovered materials—

(1) Are not available within a reasonable period of time;

(2) Fail to meet performance standards in the specifications; or

(3) Are available only at unreasonable prices.

(c) Any determination made under 23.404(b)(2) shall be made on the basis of Bureau of Standards guidelines in any case in which the material is covered by these guidelines.

23.405 Solicitation provision.

The contracting officer shall insert the provision at 52.223-4, Recovered Material Certification, in solicitations that incorporate specifications requiring the use of recovered materials.

Subpart 23.5—Drug-Free Workplace

SOURCE: 54 FR 4968, Jan. 31, 1989 (interim) and 55 FR 21707, May 25, 1990 (final), unless otherwise noted.

23.500 Scope of subpart.

This subpart implements the Drug-Free Workplace Act of 1988 (Pub. L. 100-690).

23.501 Applicability.

This subpart applies to all contracts, including contracts with 8(a) contractors under FAR subpart 19.8 and modifications which require a justification and approval (see subpart 6.3), except—

(a) Contracts valued below $25,000; however, the requirements of this subpart shall apply to contracts of any value if the contract is awarded to an individual;

(b) Contracts or those parts of contracts that are to be performed outside of the United States, its territories, and its possessions;

(c) Contracts by law enforcement agencies, if the head of the law enforcement agency or designee involved determines that application of this subpart would be inappropriate in connection with the law enforcement agency's undercover operations; or

(d) Where application would be inconsistent with the international obligations of the United States or with the laws and regulations of a foreign country.

[54 FR 4968, Jan. 31, 1989, as amended at 55 FR 21707, May 25, 1990]

23.502 Authority.

Drug-Free Workplace Act of 1988 (Pub. L. 100-690).

23.503 Definitions.

Controlled substance, as used in this subpart, means a controlled substance in schedules I through V of section 202 of the Controlled Substances Act (21 U.S.C. 812), and as further defined in regulation at 21 CFR 1308.11-1308.15.

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes.

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, possession, or use of any controlled substance.

Drug-free workplace means the site(s) for the performance of work done by the contractor in connection with a specific contract at which employees of the contractor are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

Employee means an employee of a contractor directly engaged in the performance of work under a Government contract. *Directly engaged* is defined to include all direct cost employees and any other contract employee who has other than a minimal impact or involvement in contract performance.

Individual means an offeror/contractor that has no more than one employee including the offeror/contractor.

[54 FR 4968, Jan. 31, 1989, as amended at 55 FR 21707, May 25, 1990]

23.504 Policy.

(a) No offeror other than an individual shall be considered a responsible source (see 9.104-1(g)) for a contract that equals or exceeds $25,000, unless it has certified, pursuant to 52.223-5, Certification Regarding A Drug-Free Workplace, that it will provide a drug-free workplace by—

(1) Publishing a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the contractor's workplace, and specifying the actions that will be taken against employees for violations of such prohibition;

(2) Establishing an ongoing drug-free awareness program to inform its employees about—

(i) The dangers of drug abuse in the workplace;

(ii) The contractor's policy of maintaining a drug-free workplace;

(iii) Any available drug counseling, rehabilitation, and employee assistance programs; and

(iv) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(3) Providing all employees engaged in performance of this contract with a copy of the statement required by subparagraph (a)(1) of this section;

(4) Notifying all employees in writing in the statement required by subparagraph (a)(1) of this section, that as a condition of employment on a covered contract, the employee will—

(i) Abide by the terms of the statement; and

(ii) Notify the employer in writing of the employee's conviction under a criminal drug statute for a violation occurring in the workplace no later than 5 calendar days after such conviction;

(5) Notifying the contracting officer in writing within 10 calendar days after receiving notice under subdivision (a)(4)(ii) of this section, from an employee or otherwise receiving actual notice of such conviction. The notice shall include the postion title of the employee;

(6) Within 30 calendar days after receiving notice under subparagraph (a)(4) of this section of a conviction, taking one of the following actions with respect to any employee who is convicted of a drug abuse violation occurring in the workplace:

(i) Taking appropriate personnel action against such employee, up to and including termination; or

(ii) Requiring such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.

(7) Making a good faith effort to maintain a drug-free workplace through implementation of subparagraphs (a)(1) through (a)(6) of this section.

(b) No individual shall be awarded a contract of any dollar values unless that individual certifies, pursuant to the provision at 52.233-5, Certification Regarding A Drug-Free Workplace, that the individual will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in the performance of a covered contract.

(c) Failure of the offeror to provide the certification required by paragraph (a) or (b) of this section renders an offeror unqualified and ineligible for award. (See 9.104-1(g) and 19.602-1(a)(2)(i).)

(d) For a contract of 30 days or more performance duration, the contractor shall comply with the provisions of paragraph (a) of this section within 30 calendar days after contract award, unless the contracting officer agrees in writing that circumstances warrant a longer period of time to comply. Before granting such an extension, the contracting officer shall consider such factors as the number of contractor employees at the worksite, whether the contractor has or must develo a drug-free workplace program, an the number of contractor worksites. For contracts of less than 30 days performance duration, the contractor shall comply with the provisions o paragraph (a) of this section as soon as possible, but in any case, by a date prior to when performance is expected to be completed.

[54 FR 4968, Jan. 31, 1989, as amended FR 21707, May 25, 1990; 55 FR 38517, Sep 18, 1990]

23.505 Solicitation provision and contr clause.

(a) Contracting officers shall insert the provision at 52.223-5, Certification Regarding A Drug-Free Workplace, except as provided in paragraph (c) of this section, in solicitations—

(1) Of any dollar value if the contract is expected to be awarded to an individual; or

(2) Expected to equal or exceed $25,000, if the contract is expected to be awarded to other than an individual.

(b) Contracting officers shall insert the clause at 52.223-6, Drug-Free Workplace, in solicitations and contracts described in paragraph (a) of this section unless the conditions of paragraph (c) of this section apply.

(c) Contracting officers shall not insert the provision at 52.223-5, Certification Regarding A Drug-Free Workplace, or the clause at 52.223-6, Drug-Free Workplace, in solicitations or contracts, if—

(1) The resultant contract is to be performed entirely outside of the United States, its territories, and its possessions;

(2) The resultant contract is for law enforcement agencies, and the head of the law enforcement agency or designee involved determines that application of the requirements of this subpart would be inappropriate in connection with the law enforcement agency's undercover operations; or

(3) Inclusion of these requirements would be inconsistent with the international obligations of the Unit

States or with the laws and regulations of a foreign country.

[55 FR 21707, May 25, 1990]

23.506 Suspension of payments, termination of contract, and debarment and suspension actions.

(a) After determining in writing that adequate evidence to suspect any of the causes at paragraph (d) of this section exists, the contracting officer may suspend contract payments in accordance with the procedures at 32.503-6(a)(1).

(b) After determining in writing that any of the causes at paragraph (d) of this section exists, the contracting officer may terminate the contract for default.

(c) Upon initiating action under paragraph (a) or (b) of this section, the contracting officer shall refer the case to the agency suspension and debarment official, in accordance with agency procedures, pursuant to subpart 9.4.

(d) The specific causes for suspension of contract payments, termination of a contract for default, or suspension and debarment are—

(1) The offeror has submitted a false certification in response to the provision at 52.223-5, Certification Regarding A Drug-Free Workplace;

(2) The contractor has failed to comply with its certification; or

(3) Such a number of contractor employees having been convicted of violations of criminal drug statutes occurring in the workplace, as to indicate that the contractor has failed to make a good faith effort to provide a drug-free workplace.

(e) A determination under this section to suspend contract payments, terminate a contract for default, or debar or suspend a contractor may be waived by the agency head for a particular contract, in accordance with agency procedures, only if such waiver is necessary to prevent a severe disruption of the agency operation to the detriment of the Federal Government or the general public (see subpart 9.4). The waiver authority of the agency head cannot be delegated.

[54 FR 4968, Jan. 31, 1989, as amended at 55 FR 21708, May 25, 1990]

PART 24—PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

Sec.
24.000 Scope of part.

Subpart 24.1—Protection of Individual Privacy

24.101 Definitions.
24.102 General.
24.103 Procedures.
24.104 Contract clauses.

Subpart 24.2—Freedom of Information Act

24.201 Authority.
24.202 Policy.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42277, Sept. 19, 1983, unless otherwise noted.

24.000 Scope of part.

This part prescribes policies and procedures that apply requirements of the Privacy Act of 1974 (5 U.S.C. 552a) (the Act) and OMB Circular No. A-130, December 12, 1985, to Government contracts and cites the Freedom of Information Act (5 U.S.C. 552, as amended.)

[48 FR 42277, Sept. 19, 1983, as amended at 55 FR 38517, Sept. 18, 1990]

Subpart 24.1—Protection of Individual Privacy

24.101 Definitions.

Agency, as used in this subpart, means any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

Individual, as used in this subpart, means a citizen of the United States or an alien lawfully admitted for permanent residence.

Maintain, as used in this subpart, means maintain, collect, use, or disseminate.

Operation of a system of records, as used in this subpart, means performance of any of the activities associated with maintaining the system of records, including the collection, use, and dissemination of records.

Record, as used in this subpart, means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, education, financial transactions, medical history, and criminal or employment history, and that contains the individual's name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a fingerprint or voiceprint or a photograph.

System of records on individuals, as used in this subpart, means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

24.102 General.

(a) The Act requires that when an agency contracts for the design, development, or operation of a system of records on individuals on behalf of the agency to accomplish an agency function the agency must apply the requirements of the Act to the contractor and its employees working on the contract.

(b) An agency officer or employee may be criminally liable for violations of the Act. When the contract provides for operation of a system of records on individuals, contractors and their employees are considered employees of the agency for purposes of the criminal penalties of the Act.

(c) If a contract specifically provides for the design, development, or operation of a system of records on individuals on behalf of an agency to accomplish an agency function, the agency must apply the requirements of the Act to the contractor and its employees working on the contract. The system of records operated under the contract is deemed to be maintained by the agency and is subject to the Act.

(d) Agencies, which within the limits of their authorities, fail to require that systems of records on individuals operated on their behalf under contracts be operated in conformance with the Act may be civilly liable to individuals injured as a consequence of any subsequent failure to maintain records in conformance with the Act.

24.103 Procedures.

(a) The contracting officer shall review requirements to determine whether the contract will involve the design, development, or operation of a system of records on individuals to accomplish an agency function.

(b) If one or more of those tasks will be required, the contracting officer shall—

(1) Ensure that the contract work statement specifically identifies the system of records on individuals and the design, development, or operation work to be performed; and

(2) Make available, in accordance with agency procedures, agency rules and regulation implementing the Act.

24.104 Contract clauses.

When the design, development, or operation of a system of records on individuals is required to accomplish an agency function, the contracting officer shall insert the following clauses in solicitations and contracts:

(a) The clause at 52.224-1, Privacy Act Notification.

(b) The clause at 52.224-2, Privacy Act.

Subpart 24.2—Freedom of Information Act

24.201 Authority.

The Freedom of Information Act (5 U.S.C. 552, as amended) provides that information is to be made available to the public either by (a) publication in the FEDERAL REGISTER; (b) providing an opportunity to read and copy records at convenient locations; or (c) upon request, providing a copy of a reasonably described record.

24.202 Policy.

(a) The Act specifies, among other things, how agencies shall make their records available upon public request, imposes strict time standards for agency responses, and exempts certain records from public disclosure. Each agency's implementation of these requirements is located in its respective title of the Code of Federal Regulations and referenced in subpart 24.2 of its implementing acquisition regulations.

(b) Contracting officers may receive requests for records that may be exempted from mandatory public disclosure. The exemptions most often applicable are those relating to classified information, to trade secrets and confidential commercial or financial information, to interagency or intra-agency memoranda, or to personal and medical information pertaining to an individual. Since these requests often involve complex issues requiring an in-depth knowledge of a large and increasing body of court rulings and policy guidance, contracting officers are cautioned to comply with the implementing regulations of their agency and to obtain necessary guidance from the agency officials having Freedom of Information Act responsibility. If additional assistance is needed, authorized agency officials may contact the Department of Justice, Office of Information and Privacy.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42278, Sept. 19, 1983, unless otherwise noted.

25.000 Scope of part.

Except as provided in agency regulations, this part provides policies and procedures to implement the Buy American Act, the Balance of Payments Program, purchases under the Trade Agreements Act of 1979, and other laws and regulations that pertain to acquiring foreign supplies, services, and construction materials. This part also provides policies and procedures for the application to foreign acquisitions of international agreements, customs and duties, the clause at 52.215-1, Examination of Records by Comptroller General, and use of local currency for payment.

Subpart 25.1—Buy American Act—Supplies

25.100 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10) and Executive Order 10582, December 17, 1954 (as amended). It applies to supply contracts and to contracts for services that involve the furnishing of supplies.

25.101 Definitions.

Civil aircraft and related articles, as used in this subpart, means (a) all aircraft other than aircraft to be purchased for use by the Department of Defense or the U.S. Coast Guard; (b) the engines (and parts and components for incorporation into the engines) of these aircraft; (c) any other parts, components, and subassemblies for incorporation into the aircraft; and (d) any ground flight simulators, and parts and components of these simulators, for use with respect to the aircraft, whether to be used as original or replacement equipment in the manufacture, repair, maintenance, rebuilding, modification, or conversion of the aircraft, and without regard to whether the aircraft or articles receive duty-free treatment under section 601(a)(2) of the Trade Agreements Act of 1979.

Components, as used in this subpart, means those articles, materials, and supplies incorporated directly into the end products.

Domestic end product, as used in this subpart, means (a) an unmanufactured end product mined or produced in the United States, or (b) an end product manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. (In determining if an end product is domestic, only the end product and its components shall be considered.) The cost of each component includes transportation costs to the place of incorporation into the end product and any applicable duty (whether or not a duty-free entry certificate is issued). Components of foreign origin of the same class or kind for which determinations have been made in accordance with 25.102(a)(3) and (4) are treated as domestic. Scrap generated, collected, and prepared for processing in the United States is considered domestic. On acquisitions above $25,000 in value, components of Canadian origin are treated as domestic.

Domestic offer, as used in this subpart, means an offered price for a domestic end product, including transportation to destination.

End product, as used in this subpart, means those articles, materials, and supplies to be acquired for public use under the contract.

Foreign end product, as used in this subpart, means an end product other than a domestic end product.

Foreign offer, as used in this subpart, means an offered price for a foreign end product, including transportation to destination and duty (whether or not a duty-free entry certificate is issued).

Instrumentality, as used in this subpart, does not include an agency or division of the government of a country, but may be construed to include arrangements such as the European Economic Community.

United States, as used in this subpart, means the United States, its possessions, Puerto Rico, and any other place subject to its jurisdiction, but does not include leased bases or trust territories.

[48 FR 42278, Sept. 19, 1983, as amended at 53 FR 53340, Dec. 30, 1988]

25.102 Policy.

(a) The Buy American Act requires that only domestic end products be acquired for public use, except articles, materials, and supplies—

(1) For use outside the United States;

(2) For which the cost would be unreasonable, as determined in accordance with 25.105;

(3) For which the agency head determines that domestic preference would be inconsistent with the public interest;

(4) That are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities, of a satisfactory quality (see 25.108); or

(5) Purchased specifically for commissary resale.

(b) If the contract is estimated to exceed $1 million, the agency head, or a designee at a level no lower than the head of a contracting activity, must approve determinations made under paragraph (a)(4) above. Officials making these determinations shall consider the feasibility of forgoing the acquisition or of acquiring a domestic substitute.

[48 FR 42278, Sept. 19, 1983, as amended at 54 FR 48985, Nov. 28, 1989]

25.103 Agreements with certain foreign governments.

The Department of Defense and the National Aeronautics and Space Administration (NASA) have determined that it is inconsistent with the public interest to apply the restrictions of the Buy American Act to their acquisitions for public use of certain supplies mined, produced, or manufactured in certain foreign countries. Detailed procedures implementing these determinations are in the Department of Defense (DOD) Federal Acquisition Regulation Supplement and the NASA Federal Acquisition Regulation Supplement.

[48 FR 42278, Sept. 19, 1983, as amended at 53 FR 662, Jan. 11, 1988]

25.104 Acquiring civil aircraft and related articles.

(a) The U.S. Trade Representative, on February 19, 1980 (45 FR 12349, February 25, 1980), waived applying the Buy American Act to acquiring civil aircraft and related articles of countries or instrumentalities that are parties to the Agreement on Civil Aircraft. The representative acted under the authority of Section 303 of the Trade Agreements Act of 1979 (19 U.S.C. 2513). Countries and instrumentalities that are parties to the agreement (as of January 1, 1986) are Austria, Canada, the European Economic Community (Belgium, Denmark, the Federal Republic of Germany, France, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, and the United Kingdom), Japan, Norway, Romania, Sweden, and Switzerland. The Office of the U.S. Trade Representative, Washington, DC 20506, can provide information on changes to the list of parties to the agreement made since January 1, 1986.

(b) For the purpose of this waiver, an article is a product of a country or instrumentality only if—

(1) It is wholly the growth, product, or manufacture of that country or instrumentality; or

(2) In the case of an article that consists in whole or in part of materials from another country or instrumentality, it has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed.

(c) The waiver is subject to modification or withdrawal by the U.S. Trade Representative.

[48 FR 42278, Sept. 19, 1983, as amended at 53 FR 662, Jan. 11, 1988]

25.105 Evaluating offers.

(a) Unless the agency head determines otherwise, the offered price of a domestic end product is unreasonable when the lowest acceptable domestic offer exceeds the lowest acceptable foreign offer (see 25.101), inclusive of duty, by—

(1) More than 6 percent, if the domestic offer is from a large business that is not a labor surplus area concern; or

(2) More than 12 percent, if the domestic offer is from a small business concern or any labor surplus area concern.

(b) The evaluation in paragraph (a) above shall be applied on an item-by-item basis or to any group of items on which award may be made as specifically provided by the solicitation.

(c) If an award of more than $250,000 would be made to a domestic concern if the 12-percent factor were applied, but not if the 6-percent factor were applied, the agency head shall decide whether award to the domestic concern would involve unreasonable cost.

(d) The evaluation in paragraph (a) of this section shall not be applied to offers of Israeli end products at or above $50,000 (see 25.402(a)(2)).

(e) The evaluation in paragraph (a) of this section shall not be applied to offers of Canadian end products above $25,000 (see 25.402(a)(3)). For the definition of *Canadian end product*, see 25.401.

[48 FR 42278, Sept. 19, 1983, as amended at 53 FR 27464, July 20, 1988; 53 FR 53340, Dec. 30, 1988]

25.106 [Reserved]

25.107 Acquisition from or through other Government agencies.

The General Services Administration is responsible for compliance with the Buy American Act for—

(a) Foreign end products acquired for stock in GSA stores depots;

(b) Direct purchases for other agencies; and

(c) Establishing mandatory Federal Supply Schedules that do not include a domestic end product.

25.108 Excepted articles, materials, and supplies.

(a) One or more agencies have determined that the articles, materials, and supplies listed in paragraph (d) of this section are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality. The list in paragraph (d) of this section is furnished for information only; an article, material or supply listed therein may be treated as domestic only when the agency concerned has made a determination that it is not mined, produced, or manufactured in the United States in sufficient and reasonably available quantities of a satisfactory quality.

(b) Agencies making determinations under 25.102(a)(4) or 25.202(a)(3) for unlisted articles, materials, or supplies shall submit a copy of these determinations to the appropriate FAR Council for possible addition of items to the list.

(c) Agencies shall provide detailed information to the appropriate FAR Council if any item on the list becomes reasonably available in sufficient commercial quantities of a satisfactory quality.

(d)(1) The excepted articles, materials, and supplies are as follows:

Acetylene, black.
Agar, bulk.
Anise.
Antimony, as metal or oxide.
Asbestos, amosite, chrysotile, and crocidolite.
Bananas.
Bauxite.
Beef, corned, canned.
Beef extract.
Bephenium hydroxynapthoate.
Bismuth.
Books, trade, text, technical, or scientific; newspapers; pamphlets; magazines; periodicals; printed briefs and films; not printed in the United States and for which domestic editions are not available.
Brazil nuts, unroasted.
Cadmium, ores and flue dust.
Calcium cyanamide.
Capers.
Cashew nuts.
Castor beans and castor oil.
Chalk, English.
Chestnuts.
Chicle.
Chrome ore or chromite.

Cinchona bark.
Cobalt, in cathodes, rondelles, or other primary ore and metal forms.
Cocoa beans.
Coconut and coconut meat, unsweetened, in shredded, desiccated, or similarly prepared form.
Coffee, raw or green bean.
Colchicine alkaloid, raw.
Copra.
Cork, wood or bark and waste.
Cover glass, microscope slide.
Cryolite, natural.
Dammar gum.
Diamonds, industrial, stones and abrasives.
Emetine, bulk.
Ergot, crude.
Erythrityl tetranitrate.
Fair linen, altar.
Fibers of the following types: abaca, abace, agave, coir, flax, jute, jute burlaps, palmyra, and sisal.
Goat and kidskins.
Graphite, natural, crystalline, crucible grade.
Handsewing needles.
Hemp yarn.
Hog bristles for brushes.
Hyoscine, bulk.
Ipecac, root.
Iodine, crude.
Kaurigum.
Lac.
Leather, sheepskin, hair type.
Lavender oil.
Manganese.
Menthol, natural bulk.
Mica.
Microprocessor chips (brought onto a Government construction site as separate units for incorporation into building systems during construction or repair and alteration of real property).
Nickel, primary, in ingots, pigs, shots, cathodes, or similar forms; nickel oxide and nickel salts.
Nitroguanidine (also known as picrite).
Nux vomica, crude.
Oiticica oil.
Olive oil.
Olives (green), pitted or unpitted, or stuffed, in bulk.
Opium, crude.
Oranges, mandarin, canned.
Petroleum, crude oil, unfinished oils, and finished products (see definitions of petroleum terms in subparagraph (d)(2) below).
Pine needle oil.
Platinum and related group metals, refined, as sponge, powder, ingots, or cast bars.
Pyrethrum flowers.
Quartz crystals.
Quebracho.
Quinidine.
Quinine.
Rabbit fur felt.
Radium salts, source and special nuclear materials.
Rosettes.
Rubber, crude and latex.
Rutile.
Santonin, crude.
Secretin.
Shellac.
Silk, raw and unmanufactured.
Spare and replacement parts for equipment of foreign manufacture, and for which domestic parts are not available.
Spices and herbs, in bulk.
Sugars, raw.
Swords and scabbards.
Talc, block, steatite.
Tantalum.
Tapioca flour and cassava.
Tartar, crude; tartaric acid and cream of tartar in bulk.
Tea in bulk.
Thread, metallic (gold).
Thyme oil.
Tin in bars, blocks, and pigs.
Triprolidine hydrochloride.
Tungsten.
Vanilla beans.
Venom, cobra.
Wax, carnauba.
Woods; logs, veneer, and lumber of the following species: Alaskan yellow cedar, angelique, balsa, ekki, greenheart, lignum vitae, mahogany, and teak.
Yarn, 50 Denier rayon.

(2) As used in subparagraph (d)(1) of this section, petroleum terms are defined as follows:

(i) *Crude oil* means crude petroleum, as it is produced at the wellhead, and liquids (under atmospheric conditions) that have been recovered from mixtures of hydrocarbons that existed in a vaporous phase in a reservoir and that are not natural gas products.

(ii) *Finished products* means any one or more of the following petroleum oils, or a mixture or combination of these oils, to be used without further processing except blending by mechanical means:

(A) *Asphalt*—a solid or semi-solid cementitious material that (*1*) gradually liquefies when heated, (*2*) has bitumens as its predominating constituents, and (*3*) is obtained in refining crude oil.

(B) *Fuel oil*—a liquid or liquefiable petroleum product burned for lighting or for the generation of heat or power and derived directly or indirectly from crude oil, such as kerosene, range oil, distillate fuel oils, gas oil, diesel fuel, topped crude oil, or residues.

(C) *Gasoline*—a refined petroleum distillate that, by its composition, is suitable for use as a carburant in internal combustion engines.

(D) *Jet fuel*—a refined petroleum distillate used to fuel jet propulsion engines.

(E) *Liquefied gases*—hydrocarbon gases recovered from natural gas or produced from petroleum refining and kept under pressure to maintain a liquid state at ambient temperatures.

(F) *Lubricating oil*—a refined petroleum distillate or specially treated petroleum residue used to lessen friction between surfaces.

(G) *Naphtha*—a refined petroleum distillate falling within a distillation range overlapping the higher gasoline and the lower kerosenes.

(H) *Natural gas products*—liquids (under atmospheric conditions), including natural gasoline, that—

(*1*) Are recovered by a process of absorption, adsorption, compression, refrigeration, cycling, or a combination of these processes, from mixtures of hydrocarbons that existed in a vaporous phase in a reservoir, and

(*2*) When recovered and without processing in a refinery, otherwise fall within any of the definitions of products contained in subdivision (B), (C), (D), and (G) above.

(I) *Residual fuel oil*—a topped crude oil or viscous residuum that, as obtained in refining or after blending with other fuel oil, meets or is the equivalent of Military Specification Mil-F-859 for Navy Special Fuel Oil and any more viscous fuel oil, such as No. 5 or Bunker C.

(iii) *Unfinished oils* means one or more of the petroleum oils listed in subdivision (ii) above, or a mixture or combination of these oils, that are to be further processed other than by blending by mechanical means.

[48 FR 42278, Sept. 19, 1983, as amended at 54 FR 48985, Nov. 28, 1989; 55 FR 25530, June 21, 1990; 55 FR 38517, Sept. 18, 1990]

25.109 Solicitation provisions and contract clause.

(a) The contracting officer shall insert the provision at 52.225-1, Buy American Certificate, in solicitations for the acquisition of supplies, or for services involving the furnishing of supplies, for use within the United States, except for acquisitions made under the Trade Agreements Act of 1979, as specified in subpart 25.4.

(b) When quotations are obtained orally (see part 13), vendors shall be informed that only domestic end products, other than end products excepted on a blanket or individual basis (see 25.108 and subpart 25.4), shall be acceptable, unless the price for an offered domestic end product is unreasonable (see 25.105).

(c) The contracting officer shall insert the provision at 52.225-2, Waiver of Buy American Act for Civil Aircraft and Related Articles, in solicitations for the acquisition of civil aircraft and related articles.

(d) The contracting officer shall insert the clause at 52.225-3, Buy American Act—Supplies, in solicitations and contracts for the acquisition of supplies, or for services involving the furnishing of supplies, for use within the United States, except for acquisitions made under the Trade Agreements Act of 1979, as specified in subpart 25.4.

[48 FR 42258, Sept. 19, 1983 as amended at 51 FR 2665, Jan. 17, 1986]

Subpart 25.2—Buy American Act—Construction Materials

25.200 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10) and Executive Order 10582, December 17, 1954 (as amended). It applies to contracts for the construction, alteration, or repair of any public building or public work in the United States.

25.201 Definitions.

Components, as used in this subpart, means those articles, materials, and supplies incorporated directly into construction materials.

Construction, as used in this subpart, means construction, alteration, or repair of any public building or public work in the United States.

Construction materials, as used in this subpart, means articles, materials, and supplies brought to the construction site for incorporation into the building or work.

Domestic construction material, as used in this subpart, means (a) an unmanufactured construction material mined or produced in the United States, or (b) a construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. (In determining whether a construction material is domestic, only the construction material and its components shall be considered.) The cost of each component includes transportation costs to the place of incorporation into the construction material and any applicable duty (whether or not a duty-free entry certificate is issued). Components of foreign origin of the same class or kind for which determinations have been made in accordance with 25.202(a)(3) are treated as domestic.

Foreign construction material, as used in this subpart, means a construction material other than a domestic construction material.

United States (see 25.101).

25.202 Policy.

(a) The Buy American Act requires that only domestic construction materials be used in construction in the United States, except when—

(1) The cost would be unreasonable as determined in accordance with 25.203;

(2) The agency head determines that use of a particular domestic construction material would be impracticable; or

(3) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality (see 25.108).

(b) If the cost of the materials is estimated to exceed $100,000, the agency head, or a designee at a level no lower than the head of the contracting activity, must approve determinations made under subparagraph (a)(3) above. Officials making these determinations shall consider the feasibility of forgoing the acquisition or of acquiring a domestic substitute.

(c) When it is determined for any of the reasons stated in this section that certain foreign construction materials may be used, the excepted materials shall be listed in the contract. Findings justifying the exception shall be available for public inspection.

[48 FR 42278, Sept. 19, 1983, as amended at 54 FR 48985, Nov. 28, 1989]

25.203 Evaluating offers.

(a) The restrictions of the Buy American Act do not apply when the head of the concerned agency determines that using a particular domestic construction material would unreasonably increase the cost or would be impracticable.

(b) When proposed awards are submitted to the agency head for approval, each submission shall include a description of the materials, including unit and quantity, estimated costs, location of the construction project, name and address of the proposed contractor, and a detailed justification of the impracticability of using domestic materials.

25.204 Violations.

If the agency head finds that in the performance of a construction contract there has been a failure to comply with the clause at 52.225-5, Buy American Act—Construction Materials, those findings (including the name of the contractor obligated under the contract) shall be made public. No other contract for construction shall be awarded to that contractor, its subcontractors, or suppliers with which that contractor is associated or affiliated, within a period of 3 years after the findings are made public. (For debarment procedures, see subpart 9.4.)

25.205 Solicitation provision and contract clause.

The contracting officer shall insert the clause at 52.225-5, Buy American Act—Construction Materials, in solicitations and contracts for construction inside the United States.

Subpart 25.3—Balance of Payments Program

25.300 Scope of subpart.

This subpart provides policies and procedures applicable to contracting for supplies, services, or construction for use outside the United States and provides for the use of excess or near-excess foreign currency. The Balance of Payments Program restrictions have been waived with respect to the acquisition in accordance with subpart 25.4 of certain products under the Trade Agreements Act of 1979.

25.301 Definitions.

Components (see 25.101).

Domestic end product (see 25.101).

Domestic offer (see 25.101).

Domestic services, as used in this subpart, means services performed in the United States. If services provided under a single contract are performed both inside and outside the United States, they shall be considered domestic if 25 percent or less of their total cost is attributable to services (including incidental supplies used in connection with these services) performed outside the United States.

End product (see 25.101).

Foreign end product (see 25.101).

Foreign offer (see 25.101).

Foreign services, as used in this subpart, means services other than domestic services.

United States (see 25.101).

25.302 Policy.

(a) The Balance of Payments Program is an interim measure imposed to alleviate the impact of Government expenditures on the Nation's balance of international payments. The Balance of Payments Program differs from the Buy American Act in that the Buy American Act applies only to acquisitions for use inside the United States, while the Balance of Payments Program applies to acquisitions for use outside the United States.

(b) Foreign end products or services may be acquired for use outside the United States if any of the following conditions are met:

(1) The estimated cost of the product or service does not exceed the appropriate small purchase limitation in part 13.

(2) Perishable subsistence items are required and the agency head, or a designee, determines that delivery from the United States would significantly impair their quality at the point of consumption.

(3) The agency head, or a designee, determines that a requirement can only be filled by a foreign end product or service, and that it is not feasible to forgo filling it or to provide a domestic substitute (see 25.108).

(4) The acquisition is for ice, books, utilities, communications, and other materials or services that, by their nature or as a practical matter, can only be acquired or performed in the country concerned and a U.S. Government capability does not exist.

(5) Subsistence items are required specifically for resale in overseas commissary stores.

(6) The acquisition of foreign end products or services is required by a treaty or executive agreement between governments.

(7) Petroleum supplies and their by-products as listed and defined in 25.108 are required.

(8) The end products or services are paid for with excess or near-excess foreign currencies (see 25.304).

(9) The end products or services are mined, produced, or manufactured in Panama and are required by and for the use of United States Forces in Panama.

(c) Contracts shall require use of domestic construction materials (see 25.201) for construction, repair, or maintenance of real property outside the United States, except when the cost of these materials (including transportation and handling costs) exceeds the cost of foreign construction materials by more than 50 percent. A differential greater than 50 percent may be used when specifically authorized by the agency head or a designee.

25.303 Procedures.

(a) *Solicitation of offers.* The procedures in this section apply to contracts for supplies and services when the exceptions in 25.302(b) do not apply. Solicitations shall state that information regarding articles, materials, supplies, and services excepted from these procedures is available to prospective contractors upon request. When quotations are obtained orally (see part 13), vendors shall be informed that only domestic end products or services will be acceptable, except for those items that have been excepted or when the price for the foreign end products or services meets the evaluation criteria in paragraph (b) below.

(b) *Evaluation.* For purposes of evaluation, each foreign offer shall be adjusted by increasing it by 50 percent. If this procedure results in a tie between a foreign offer as evaluated and a domestic offer, the domestic offer shall be considered the successful offer. When this procedure results in the acquisition of foreign end products or services, the acquisition of domestic end products or services is thereby considered unreasonable in cost or inconsistent with the public interest.

25.304 Excess and near-excess foreign currencies.

(a) The United States holds currencies of certain countries in amounts determined annually by the Secretary of the Treasury to be excess to the normal, or above the immediate (near-excess) requirements of the Government. These countries are identified in Bulletins issued by the Office of Management and Budget which will be distributed through agency procedures on an expedited basis. Additional information may also be obtained from the Department of the Treasury, Office of the Assistant Secretary for International Affairs, Office of Development Policy. Acquisitions of foreign end products, services, or construction paid for in excess of near-excess foreign currencies are an exception to the balance of payments restrictions in this subpart (see 25.302(b)(8)).

(b) Excess and near-excess foreign currencies shall be used whenever feasible in payment of contracts over $1 million performed wholly or partly in any of the listed countries. In some cases, award may be made to an offeror willing to accept payment, in whole or part, in excess or near-excess foreign currency, even though the offer, when compared to offers in United States dollars, is not the lowest received. Price differentials may be funded from excess or near-excess foreign currencies available without charge to agency appropriations, subject to Office of Management and Budget (OMB) Circular No. A-20, May 21, 1966.

(c) Before issuing solicitations for contracts to be performed wholly or partly in the listed countries, the contracting officer shall obtain a determination from the agency head, or a designee no lower than the head of the contracting activity, as to the feasibility of using excess or near-excess foreign currency. Agency officials shall consult with the Budget Review Division, Office of Management and Budget, and verify—

(1) The availability of excess or near-excess foreign currency;

(2) The feasibility of using that currency in payment of the contract;

(3) The price differential, if any, that will be considered acceptable; and

(4) Procedures for obtaining excess or near-excess foreign currency requirements.

(d) When use of excess or near-excess foreign currency is determined feasible, the contracting officer shall, in the solicitation—

(1) Require that offers be stated in U.S. dollars;

(2) Request that offers also be stated, in whole or in part, in excess or near-excess foreign currency; and

(3) Reserve the right to make the award to the responsive offeror (i) that is willing to accept payment, in whole or in part, in excess or near-excess foreign currency, and (ii) whose offer is most advantageous to the Government, even though the total price may be higher than offers in U.S. dollars.

[48 FR 42278, Sept. 19, 1983, as amended at 53 FR 43390, Oct. 26, 1988]

25.305 Solicitation provision and contract clause.

(a) *Solicitation provision.* The contracting officer shall insert the provision at 52.225-6, Balance of Payments Program Certificate, in solicitations for supplies or services for use outside the United States, unless one or more of the exceptions in 25.302(b) applies or the acquisition is made under the Trade Agreements Act of 1979 (see subpart 25.4).

(b) *Oral quotations.* When quotations are obtained orally, vendors shall be informed that only domestic end products or services will be acceptable, except for those items that have been excepted or when the price for the foreign end products or services meets the evaluation criteria in 25.303(b).

(c) *Contract clause.* The contracting officer shall insert the clause at 52.225-7, Balance of Payments Program, in solicitations and contracts for acquiring supplies or services for use outside the United States, unless one or more of the exceptions in 25.302(b) applies or the acquisition is made under the Trade Agreements Act of 1979 (see subpart 25.4).

Subpart 25.4—Purchases Under the Trade Agreements Act of 1979

25.400 Scope of subpart.

This subpart provides additional policies and procedures peculiar to acquisitions subject to the Agreement on Government Procurement and the Trade Agreements Act of 1979 (19 U.S.C. 2501-2582) including (a) acquisitions from countries designated under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2701, *et seq.*); (b) acquisitions involving offers of Israeli end products under the U.S.-Israel Free Trade Area Agreement, as approved by Congress in the United States-Israel Free Trade Area Implementation Act of 1985 (19 U.S.C. 2112 note); and

(c) Acquisitions involving offers of Canadian end products under the United States-Canada Free-Trade Agreement, as approved by Congress in the United States-Canada Free-Trade Agreement Implementation Act of 1988 (19 U.S.C. 2112 note).

[51 FR 30619, Aug. 27, 1986; 52 FR 30076, Aug. 12, 1987, as amended at 53 FR 53340, Dec. 30, 1988]

25.401 Definitions.

Canadian end product, as used in this subpart, means (a) an unmanufactured end product mined or produced in the territory of Canada or other territories to which the customs laws of Canada apply; or (b) an end product manufactured in the territory of Canada or other territories to which the customs laws of Canada apply, if the cost of the components mined, produced or manufactured either in the territory of Canada, or other territories to which the customs laws of Canada apply, or in the United States, exceeds 50 percent of the cost of all the components.

Caribbean Basin country, as used in this subpart, means a country designated by the President as a beneficiary under the Caribbean Basin Economic Recovery Act (19 U.S.C. 2701, *et seq.*) and listed below:

Antigua and Barbuda
Aruba
Bahamas
Barbados
Belize
British Virgin Islands
Costa Rica
Dominica
Dominican Republic
El Salvador
Grenada
Guatemala
Guyana
Honduras
Jamaica
Montserrat
NetherlandsAntilles
St. Christopher-Nevis
St. Lucia
St. Vincent and the Grenadines
Tobago
Trinidad

Caribbean Basin country end product, as used in this subpart, means an article that: (a) Is wholly the growth, product, or manufacture of the Caribbean Basin country, or (b) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term *includes* services (except transportation services) incidental to its supply; provided, that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such. The term *excludes* products that are excluded from duty free treatment for Caribbean countries under 19 U.S.C. 2703(b), which presently are—

(1) Textiles and apparel articles that are subject to textile agreements;

(2) Footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel not designated as eligible

articles for the purpose of the Generalized System of Preferences under Title V of the Trade Act of 1974;

(3) Tuna, prepared or preserved in any manner in airtight containers;

(4) Petroleum, or any product derived from petroleum; and

(5) Watches and watch parts (including cases, bracelets and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the Tariff Schedule of the United States (TSUS) column 2 rates of duty apply.

Designated country, as used in this subpart, means a country or instrumentality designated under the Trade Agreements Act of 1979 and listed below:

Austria
Bangladesh
Belgium
Benin
Bhutan
Botswana
Burundi
Canada
Cape Verde
Central African Republic
Chad
Comoros
Denmark
Federal Republic of Germany
Finland
France
Gambia
Guinea
Haiti
Hong Kong
Ireland
Israel
Italy
Japan
Lesotho
Luxembourg
Malawi
Maldives
Mali
Nepal
Netherlands
Niger
Norway
Rwanda
Singapore
Somalia
Sweden
Switzerland
Western Samoa
Sudan
Tanzania U.R.
Uganda
United Kingdom
Upper Volta
Yemen

Designated country end product, as used in this subpart, means an article that (a) is wholly the growth, product, or manufacture of the designated country, or (b) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation services) incidental to its supply; *Provided,* That the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such.

Eligible product, as used in this subpart, means a designated country end product or a Caribbean Basin country end product.

[48 FR 42278, Sept. 19, 1983, as amended at 49 FR 12974, Mar. 30, 1984; 51 FR 16802, May 6, 1986; 53 FR 53340, Dec. 30, 1988; 54 FR 34755, Aug. 21, 1989]

25.402 Policy.

(a)(1) Executive Order 12260 requires the U.S. Trade Representative to set the dollar threshold for application of the Trade Agreement Act. The threshold will be published in the FEDERAL REGISTER and will be distributed through agency procedures on an expedited basis. When the value of the proposed acquisition of an eligible product is estimated to be at or over the dollar threshold, agencies shall evaluate offers for an eligible product without regard to the restrictions of the Buy American Act (see subpart 25.1) or the Balance of Payments Program (see subpart 25.3). When the value of the proposed acquisition is estimated to be below the Trade Agreements Act threshold, the restrictions of the Buy American Act or the Balance of Payments Program shall be applied to foreign offers, except as noted in subparagraphs (a)(2) and (a)(3) of this section (see 25.105).

(2) As required by Article 15 of the U.S.-Israel Free Trade Area Agreement, agencies other than the Department of Defense shall evaluate offers of Israeli end products at or above $50,000 in amount without regard to the restrictions of the Buy American Act (see subpart 25.1) or the Balance of Payments Program (see subpart 25.3).

(3) As required by Section 306 of the United States-Canada Free-Trade Agreement Implementation Act of 1988 (19 U.S.C. 2112 note), agencies shall evaluate offers of Canadian end products above $25,000 without regard to the restrictions of the Buy American Act (see subpart 25.1) or the Balance of Payments Program (see subpart 25.3).

(4) To determine whether the Trade Agreements Act applies to the acquisition of products by lease, rental, or lease-purchase contract (including lease-to-ownership, or lease-with-option-to purchase), the contracting officer shall calculate the estimated acquisition value as follows:

(i) If a fixed-term contract of 12 months or less is contemplated, use the total estimated value of this acqusition.

(ii) If a fixed-term contract of more than 12 months is contemplated, use the total estimated value of the acquisition plus the estimated residual value of the leased equipment at the conclusion of the contemplated term of the contract.

(iii) If an indefinite-term contract is contemplated, use the estimated monthly payment multiplied by 48.

(iv) If there is any doubt as to the contemplated term of the contract, use the estimated monthly payment multiplied by 48.

(5) If a contemplated acquisition includes an option clause (see subpart 17.2), when calculating the threshold for application of Trade Agreements Act provisions include the value of all options.

(b) The U.S. Trade Representative has determined that in order to promote further the economic recovery of the Caribbean Basin countries (as defined in 25.401), products originating in those countries which are eligible for duty free treatment under the Caribbean Basin Economic Recovery Act shall be treated as eligible products for the purposes of this subpart (see 51 FR 6964-6965, February 27, 1986). This determination is effective until September 30, 1995, unless otherwise extended by the U.S. Trade Representative by means of a notice in the FEDERAL REGISTER.

(c) Except when waived under section 302(b)(2) of the Trade Agreements Act, there shall be no acquisition of foreign end products subject to the Act unless the foreign end products are designated country end products or Caribbean Basin country end products.

(d) No requirement for the acquisition of eligible products shall be divided with the intent of reducing the estimated value of the acquisition below the dollar threshold addressed in paragraph (a) of this section.

(e) Acquisitions of eligible products are subject to the requirements of part 6. The use of the authorities cited in 6.302-3(a)(2)(i) or 6.302-7 requires compliance with 6.303-1(d).

(f) Subject to the provisions of U.S. law and regulation, a supplier established in a designated country shall not be accorded less favorable treatment than is accorded to another supplier established in that country on the basis of—

(1) Foreign ownership or affiliation, or

(2) Where the goods being supplied were produced, provided that the country of production is a designated country.

[52 FR 8567, Mar. 18, 1987; 52 FR 30076, Aug. 12, 1987, as amended at 53 FR 27464, July 20, 1988; 53 FR 53341, Dec. 30, 1988]

25.403 Exceptions.

This subpart does not apply to—

(a) An acquisition of an eligible product where the estimated value of the acquisition falls below the Trade Agreements Act dollar thresholds discussed in 25.402(a);

(b) Products of countries (1) not listed in 25.401, or (2) barred by 25.402(c);

(c) Purchases under small or small disadvantaged business preference programs;

(d)(1) Purchases of arms, ammunition or war materials, or purchases indispensable for national security or for national defense purposes, by the Department of Defense, as provided in departmental regulations;

(2) Purchases indispensable for national security or for national defense purposes, subject to policies established by the U.S. Trade Representative.

(e) Construction contracts;

(f) Service contracts (except those services incidental to the purchase of eligible products; *provided*, that the value of the services is not greater than the value of the product);

(g) Research and development contracts;

(h) Purchases by the U.S. Army Corps of Engineers;

(i) Purchases of items for resale;

(j) Purchases under subpart 8.6, Acquisition from Federal Prison Industries, Inc., and subpart 8.7, Acquisition from the Blind and Other Severely Handicapped;

(k) [Reserved]

(l) Purchases for agencies not listed in 25.406.

(m) Purchases of products that are excluded from duty free treatment for Caribbean countries under 19 U.S.C. 2703 (b), which presently are—

(1) Textiles and apparel articles that are subject to textile agreements;

(2) Footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel not designated as eligible articles for the purpose of the Generalized System of Preferences under Title V of the Trade Act of 1974;

(3) Tuna, prepared or preserved in any manner in airtight containers;

(4) Petroleum, or any product derived from petroleum; and

(5) Watches and watch parts (including cases, bracelets and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the Tariff Schedule of the United States (TSUS) column 2 rates of duty apply.

[48 FR 42278, Sept. 19, 1983, as amended at 51 FR 16803, May 6, 1986; 52 FR 19803, May 27, 1987; 53 FR 27465, July 20, 1988]

25.404 Labor surplus area set-asides.

(a) Except as provided in paragraph (b) of this section, when responsive offers are received for an eligible product, labor surplus area preference shall be accorded only to small business concerns.

(b) When responsive offers are received for an Israeli end product in an amount of at least $50,000 but less than the dollar threshold described in 25.402(a)(1), preference shall be accorded to all labor surplus area concerns.

[51 FR 30619, Aug. 27, 1986 and 52 FR 30076, Aug. 12, 1987]

25.405 Procedures.

When the Trade Agreements Act applies, the following procedures shall be used:

(a) Consistent with user needs, agencies shall allow a minimum of 30 days from the date of publication of the notice of solicitation in the Commerce Business Daily to receipt of offers.

(b) Agencies shall not impose technical requirements solely to preclude the acquisition of eligible products.

(c) Offers received in response to solicitations anticipating competitive negotiations shall be opened in the presence of an impartial witness, whose name shall be recorded in the contract file.

(d) Solicitations shall specify that offers involving eligible products from designated countries or Caribbean Basin countries shall be submitted in the English language and in U.S. dollars.

(e) Within 7 working days after a contract award for an eligible product, agencies shall give unsuccessful offerors from designated countries written notice in accordance with 14.408-1(a)(2) and 15.1001 (c)(2).

[48 FR 42278, Sept. 19, 1983, as amended at 51 FR 16803, May 6, 1986; 51 FR 20976, June 10, 1986; 51 FR 30619, Aug. 27, 1986; 52 FR 30076, Aug. 12, 1987; 53 FR 27465, July 20, 1988]

25.406 Agencies covered by the Agreement on Government Procurement.

This subpart applies only to acquisitions for agencies listed below:

ACTION

Administrative Conference of the United States

American Battle Monuments Commission

Board for International Broadcasting

Commission on Civil Rights

Commodity Futures Trading Commission

Community Services Administration

Consumer Product Safety Commission

Department of Agriculture (the Agreement on Government Procurement does not apply to acquiring agricultural products in furtherance of agricultural support programs or human feeding programs)

Department of Commerce

Department of Defense (excludes Army Corps of Engineers)

Department of Education

Department of Health and Human Services

Department of Housing and Urban Development

Department of the Interior (excludes the Bureau of Reclamation)

Department of Justice

Department of Labor

Department of State

Department of the Treasury

Department of Veterans Affairs

Environmental Protection Agency

Equal Employment Opportunity Commission

Executive Office of the President

Export-Import Bank of the United States

Farm Credit Administration

Federal Communications Commission

Federal Deposit Insurance Corporation

Federal Home Loan Bank Board

Federal Maritime Commission

Federal Mediation and Conciliation Service

Federal Trade Commission

General Services Administration (excludes purchases by the Tools Commodity Center and the Region 9 Office in San Francisco, California)

Interstate Commerce Commission

Maritime Administration of the Department of Transportation

Merit Systems Protection Board

National Aeronautics and Space Administration

National Credit Union Administration

National Labor Relations Board

National Mediation Board

National Science Foundation

National Transportation Safety Board

Nuclear Regulatory Commission

Office of Personnel Management

Overseas Private Investment Corporation

Panama Canal Commission

Peace Corps

Railroad Retirement Board

Securities and Exchange Commission

Selective Service System

Smithsonian Institution

United States Arms Control and Disarmament Agency

United States Information Agency

United States International Development Cooperation Agency

United States International Trade Commission

[48 FR 42278, Sept. 19, 1983, as amended at 49 FR 12974, Mar. 30, 1984; 51 FR 2665, Jan. 17, 1986; 51 FR 16803, May 6, 1986; 54 FR 29281, July 11, 1989; 55 FR 38517, Sept. 18, 1990]

25.407 Solicitation provision and contract clause.

(a) Except as provided in 25.403, the contracting officer shall insert—

(1) The provision at 52.225-8, Buy American Act—Trade Agreements Act—Balance of Payments Program Certificate, in solicitations for supplies; and

(2) The clause at 52.225-9, Buy American Act—Trade Agreements Act—Balance of Payments Program, in solicitations and contracts for supplies.

(b) The contracting officer shall rely on the offeror's certification as submitted.

Subpart 25.5—Payment in Local Foreign Currency

25.501 Policy.

(a) Contracts entered into and performed outside the United States with local foreign firms will be priced and paid in local currency, unless an international agreement provides for payment in U.S. dollars or the contracting officer determines the use of local currency to be inequitable or inappropriate.

(b) When the local currency increases in value in relation to the dollar, a violation of the Anti-Deficiency Act (31 U.S.C. 1341(a)(1)) could occur. To avoid this possibility, agencies should ensure the availability of adequate dollar appropriations to purchase local currency needed to make payments against the contract.

[48 FR 42258, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

Subpart 25.6—Customs and Duties

25.600 Scope of subpart.

This subpart provides policies and procedures for exempting from import duties certain supplies purchased under Government contracts. Regulations governing importations and duties are contained in the *Customs Regulations* issued by the U.S. Customs Service, Department of the Treasury (Chapter 1, Title 19 of the Code of Federal Regulations).

25.601 Definition.

Customs territory of the United States, as used in this subpart, means the States, the District of Columbia, and Puerto Rico.

25.602 Policy.

United States laws impose duties on foreign supplies imported into the customs territory of the United States. Certain exemptions from these duties are available to Government agencies. Agencies shall use these exemptions whenever the anticipated savings to appropriated funds will outweigh the administrative costs associated with processing required documentation.

25.603 Procedures.

(a) *General.* Except as provided elsewhere in the Customs Regulations (see 19 CFR 10.100), all shipments of imported supplies purchased under Government contracts are subject to the usual Customs entry and examination requirements. Unless the agency obtains an exemption (see 25.604), those shipments are also subject to duty.

(b) *Formal entry and release.* (1) Upon receipt of a notice from a Government contractor or customs office of the arrival, or pending arrival, of a shipment of supplies entitled to duty-free entry, the contracting officer normally shall execute—

(i) Customs Form 7501, Consumption Entry, which shall serve as both the entry and the entry summary (see 19 CFR parts 141-142) (two copies to be forwarded to the District Director of Customs at port of entry);

(ii) Customs Form 7501-A, Consumption Entry Permit (one copy to be forwarded to the District Director of Customs at port of entry); and

(iii) Either a duty-free entry certificate when required in accordance with 25.604 (two copies to be forwarded to the District Director of Customs at port of entry) or Customs Form 7506, Warehouse Withdrawal Conditionally Free of Duty, and Permit (two copies to be forwarded to the District Director of Customs at warehouse location).

(2) Customs forms are available from any District Director of Customs Office or United States Customs port. Data for completing customs forms shall be obtained from the contractor.

(c) *Immediate entry and release.* Imported supplies purchased under Government contracts are regarded as shipments, the immediate delivery of which is necessary under the provisions of 19 U.S.C. 1448(b). Request for their release from Customs custody before formal entry and release shall normally be made by the contracting officer by filing Customs Form 3461, Immediate Delivery Application, with the District Director of Customs at port of entry. Forms for formal entry and release must be filed within a reasonable time thereafter. Applications for immediate delivery may be limited to particular shipments or may cover all shipments under a Government contract. They may be approved for specific or indefinite periods of time (see 19 CFR 10.101 and 19 CFR part 142, subpart A, for requirements).

25.604 Exempted supplies.

(a) Schedule 8 of the Tariff Schedules of the United States (19 U.S.C. 1202) lists supplies for which exemptions from duty may be obtained when imported into the customs territory of the United States under a Government contract. For certain of these supplies, the contracting agency must certify to the Commissioner of Customs that they are for the purpose stated in the Tariff Schedule (see 19 CFR 10.102-104, 10.110, 10.114-119, 10.121, and 15 CFR 301 for requirements and formats).

(b) Supplies (as opposed to equipment) for Government-operated vessels or aircraft may be withdrawn from any customs-bonded warehouse, from continuous customs custody elsewhere than in a bonded warehouse, or from a foreign-trade zone free of duty and internal revenue tax as provided in 19 U.S.C. 1309(a). The contracting activity shall cite this authority on the appropriate customs form when making such purchases (see 19 CFR 10.59(a)).

25.605 Contract clause.

(a) The contracting officer shall insert the clause at 52.225-10, Duty-Free Entry, in solicitations and contracts over $100,000 that provide for, or anticipate furnishing to the Government, supplies to be imported into the customs territory of the United States.

(b) The clause may be used in solicitations and contracts of $100,000 or less, if such action is consistent with the policy in 25.602.

(c) If the contracting officer knows before award that the contract includes specific supplies that will be accorded duty-free entry, a list of these supplies shall be inserted in the contract Schedule. The list shall include item numbers from Schedule 8, Tariff Schedules of the United States, and a description of the supplies.

Subpart 25.7—Restrictions on Certain Foreign Purchases

25.701 Policy.

(a) The Government does not acquire for use outside the United States, its possessions, or Puerto Rico supplies or services from foreign countries or areas when these supplies or services could not be lawfully imported into the United States.

(b) When acceptance of supplies or services (including construction) is to take place in the United States, its possessions, or Puerto Rico, the contracting officer shall assume that all supplies not produced in the United States, its possessions, or Puerto Rico, have been lawfully imported.

25.702 Restrictions.

Except as provided in 25.703, agencies and their contractors and subcontractors shall not acquire for use outside the United States, its possessions, or Puerto Rico—

(a) Any supplies or services originating from sources within the Communist areas of North Korea, Vietnam, Cambodia, or Cuba; or

(b) Any supplies that are or were located in or transported from or through North Korea, Vietnam, Cambodia, or Cuba.

25.703 Exceptions.

(a) Supplies and services from sources restricted by 25.702 acquired for use outside the United States, its possessions, or Puerto Rico may be purchased or used only in unusual situations; for example, in an emergency or when the items (or services) are not available from another source and a substitute is not acceptable.

(b) Unless otherwise provided by agency procedures, the contracting officer may approve exceptions for small purchases. For other contracts, the agency head shall approve any exceptions. A copy of the written approval shall be furnished to the contractor.

25.704 Contract clause.

The contracting officer shall insert the clause at 52.225-11, Certain Communist Areas, in solicitations and contracts for supplies, services, or construction if acceptance is to take place outside the United States, its possessions, or Puerto Rico.

Subpart 25.8—International Agreements and Coordination

25.801 International agreements.

Treaties and agreements between the United States and foreign governments may affect contracting within foreign countries. Contracting officers should give particular attention to the provisions in those agreements that pertain to purchase procedures, contract forms and clauses, taxes, patents, technical information, facilities, and other matters related to contracting.

25.802 Procedures.

(a) When placing contracts with contractors outside the United States, for performance outside the United States, contracting officers shall—

(1) Determine the existence and applicability of any international agreements to contracts being planned or

processed, and ensure compliance with these agreements; and

(2) Conduct the necessary advance acquisition planning and coordination between the appropriate United States executive agencies and foreign interests as required by these agreements.

(b) Many international agreements are compiled in the *United States Treaties and Other International Agreements* series published by the Department of State. Copies of this publication are normally available in overseas legal offices and United States diplomatic missions.

Subpart 25.9—Additional Foreign Acquisition Clauses

SOURCE: 54 FR 29281, July 11, 1989, unless otherwise noted.

25.901 Omission of examination of records clause.

(a) *Definition. Foreign contractor,* as used in this subpart, means a contractor or subcontractor organized or existing under the laws of a country other than the United States, its territories, or possessions.

(b) *Policy.* As required by 10 U.S.C. 2313, 41 U.S.C. 254, and 15.106-1(b)(3), the contracting officer shall consider for use in negotiated contracts with foreign contractors, whenever possible, the clause at 52.215-1, Examination of Records by Comptroller General. Omission of the clause should be approved only after the contracting agency, having considered such factors as alternate sources of supply, additional cost, and time of delivery, has made all reasonable efforts to include the clause.

(c) *Conditions for omission.* (1)(i) The contracting officer may omit the clause at 52.215-1, Examination of Records by Comptroller General, from contracts with foreign contractors—

(A) If the agency head determines, with the concurrence of the Comptroller General or a designee, the omission of the clause will serve the public interest; or

(B) If the contractor is a foreign government or agency thereof or is precluded by the laws of the country involved from making its books, documents, papers, or records available for examination, and the agency head determines, after taking into account the price and availability of the property or services from domestic sources, that omission of the clause best serves the public interest.

(ii) When a determination under subdivision (c)(1)(i)(B) of this section is the basis for omission of the clause at 52.215-1, Examination of Records by Comptroller General, the agency head shall forward a written report to the Congress explaining the reasons for the determination.

(d) *Determination and findings.* The determination and findings shall—

(1) Identify the contract and its purpose, and whether it is a contract with a foreign contractor or with a foreign government or agency thereof;

(2) Describe the efforts to include the clause;

(3) State the reasons for the contractor's refusal to include the clause;

(4) Describe the price and availability of the property or services from the United States and other sources; and

(5) Determine that it will serve the interest of the United States to omit the clause.

25.902 Inconsistency between English version and translation of contract.

The contracting officer shall insert the clause at 52.225-14, Inconsistency Between English Version and Translation of Contract, in solicitations and contracts whenever translation into another language is anticipated.

Subpart 25.10—Sanctions for Violations of Export Controls

SOURCE: 54 FR 19826, May 8, 1989, unless otherwise noted.

25.1000 Scope of subpart.

Section 2443 of the Multilateral Export Control Enhancement Amendments Act (Pub. L. 100-418), August 23, 1988, referred to herein as *the Act,* directs the President to impose (a) procurement sanctions on Toshiba Corporation and its subsidiary Toshiba Machine Company, and on Kongsberg Vaapenfabrikk and its subsidiary Kongsberg Trading Company, and (b) import sanctions on all products produced by Toshiba Machine Company and Kongsberg Trading Company. Executive Order 12661, dated December 27, 1988, imposed these sanctions. This subpart implements the procurement sanctions. Import sanctions are implemented through Department of Treasury regulations (but see 25.1004(c)).

25.1001 Definitions.

As used in this subpart—

Component part, means any article which is not usable for its intended functions without being imbedded or integrated into any other product and which, if used in production of a finished product, would be substantially transformed in that process.

Essential to United States products or production, means, with respect to component parts, those component parts which are produced by a sanctioned person, that are necessary for manufacture or processing of United States products, and for which there is no suitable alternative.

Finished product, means any article which is usable for its intended function without being imbedded in or integrated into any other product. It does not include an article produced by a person, other than a sanctioned person, that contains parts or components of the sanctioned person if the parts or components have been substantially transformed during production of the finished product.

Information and technology, includes instructions, drawings, blueprints, technical data, plans, software, computer programs, and other forms of intellectual property in any form or medium. Technology also includes component parts, finished products, or other articles if purchased solely to demonstrate such technology, where the only way to gain access to required technology is to purchase a product or article produced by a sanctioned person.

Routine servicing and maintenance, means customary servicing and maintenance, including repairs or installation of spare parts or component parts. The term also includes the temporary importation of tools and equipment necessary to perform such servicing or maintenance, as well as reimportation of products exported for routine servicing and maintenance.

Sanctioned person, means a company or other foreign person upon whom prohibitions have been imposed.

Spare part, means any individual piece, part, or subassembly which is intended for the logistic support or repair of a finished product and not as a finished product itself.

Substantially transformed, when referring to a component part or finished product, means that the part or product has been subjected to a substantial manufacturing or processing operation by which the part or product is converted or combined into a new and different article of commerce having a new name, character, *and* use.

Suitable alternative, means an article (a) that can be substituted for an article produced by a sanctioned person, (b) that will perform the same functions or is capable of the same use, and (c) is available at a competitive price.

25.1002 Policy.

(a) During the period beginning December 28, 1988, and ending December 28, 1991, all executive agencies, departments, and instrumentalities of the United States Government are prohibited from contracting with, or procuring (including rental and lease/purchase) directly or indirectly the products or services of, (1) Toshiba Corporation, (2) Kongsberg Vaapenfabrikk, (3) Toshiba Machine Company, or (4) Kongsberg Trading Company.

(b) The prohibition also applies to subsidiaries, successor entities, or joint ventures of Toshiba Machine Company or Kongsberg Trading Company. The prohibition generally does not apply to subsidiaries, successor entities, or joint ventures of Toshiba Corporation or of Kongsberg Vaapenfabrikk, except when the head of the agency or designee determines that such entities have been formed for the specific purpose of circumventing the prohibition.

(c) Contracts awarded to, or contracts involving the provision of products or services of, any sanctioned person, which were awarded on or after June 30, 1987, should be cancelled or terminated (in whole or in part) as soon as practicable, unless one of the exceptions in 25.1003 applies. For such contracts awarded prior to June 30, 1987, which contain options to increase quantities or period of performance, the options should not be exercised unless one of the exceptions in 25.1003 applies.

25.1003 Exceptions.

The prohibition in 25.1002 shall not apply when—

(a) The Secretary of Defense or designee determines that, in the case of procurement of defense articles or defense services—

(1) The exercise of options (under contracts or subcontracts, entered into prior to December 28, 1988) are for production quantities necessary to satisfy U.S. operational military requirements;

(2) The sanctioned person is a sole source supplier of essential defense articles or services and no alternative supplier can be identified; or

(3) Such articles or services are essential to the national security under defense coproduction agreements.

(b) The head of the agency or designee determines that the procurement is for—

(1) Products or services provided under contracts entered into before June 30, 1987 (but see 25.1002(c) regarding the exercise of options);

(2) Spare parts;

(3) Component parts, but not finished products, essential to U.S. products or production;

(4) Routine servicing and maintenance of products; or

(5) Information and technology.

(c) The products or services of a sanctioned person are acquired from a nonsanctioned person and the contractor agrees that—

(1) The products provided are designed to the specifications of a nonsanctioned person and marketed under the trademark, brand or name of that person;

(2) The business relationship between the nonsanctioned person and the sanctioned person clearly existed prior to June 30, 1987; and

(3) The nonsanctioned person is not directly or indirectly owned by a sanctioned person.

(d) Components of a sanctioned person have been substantially transformed during manufacture of a finished product of a nonsanctioned person.

25.1004 Procedures.

(a) Determinations required by 25.1003 (a) or (b) shall be in a format established by agency regulations. The determination shall include a description of the article or service, the quantities of articles, and the scope and period of performance of such services.

(b) The contract file shall include the determination and supporting rationale to permit an award based on the exceptions in 25.1003.

(c) The clause prescribed in 25.1005 reminds the contractor of its responsibility for complying with applicable import regulations. To facilitate this compliance, the contracting officer shall provide the contractor a copy of any determination made under 25.1003(a) so that the contractor may provide this determination to the U.S. Customs Service pursuant to Department of Treasury Regulation 12.143. However, a separate determination by the Secretary of the Treasury or designee is required for an exception to the import sanctions imposed upon the products listed in 25.1003(b), and the contractor is responsible for obtaining this determination.

25.1005 Solicitation provision and contract clause.

(a) The contracting officer shall insert the provision at 52.225-12, Notice of Restrictions on Contracting with Sanctioned Persons, in all solicitations.

(b) The contracting officer shall insert the clause at 52.225-13, Restrictions on Contracting with Sanctioned Persons, in all solicitations and contracts.

PART 26—OTHER SOCIOECONOMIC PROGRAMS

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

NOTE: This part contains no text at the FAR level. It has been created to facilitate promulgation of additional agency-level socioeconomic coverage which properly falls under FAR Subchapter D—Socioeconomic Programs, but neither implements or supplements existing FAR parts 19, 20, nor 22 through 25.

SUBCHAPTER E—GENERAL CONTRACTING REQUIREMENTS

PART 27—PATENTS, DATA, AND COPYRIGHTS

Sec.
27.000 Scope of part.

Subpart 27.1—General

27.101 Applicability.

Subpart 27.5—[Reserved]

Subpart 27.6—Foreign License and Technical Assistance Agreements

27.601 General.

Authority: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

Source: 49 FR 12974, Mar. 30, 1984, unless otherwise noted.

27.000 Scope of part.

This part prescribes policies, procedures, and contract clauses pertaining to patents and directs agencies to develop coverage for Rights in Data and Copyrights.

Subpart 27.1—General

27.101 Applicability.

The policies, procedures, and clauses prescribed by this part 27 are applicable to all agencies. Agencies are authorized to adopt alternate policies, procedures, and clauses, but only to the extent determined necessary to meet the specific requirements of laws, executive orders, treaties, or international agreements. Any agency action adopting such alternate policies, procedures, and clauses shall be covered in published agency regulations.

27.102 [Reserved]

27.103 Policy.

The policies pertaining to patents, data, and copyrights are set forth in this part 27 and the related clauses in part 52.

27.104 General guidance.

(a) The Government encourages the maximum practical commercial use of inventions made while performing Government contracts.

(b) Generally, the Government will not refuse to award a contract on the grounds that the prospective contractor may infringe a patent.

(c) Generally, the Government encourages the use of inventions in performing contracts and, by appropriate contract clauses, authorizes and consents to such use, even though the inventions may be covered by U.S. patents and indemnification against infringement may be appropriate.

(d) Generally, the Government should be indemnified against infringement of U.S. patents resulting from performing contracts when the supplies or services acquired under the contracts normally are or have been sold or offered for sale by any supplier to the public in the commercial open market or are the same as such supplies or services with relatively minor modifications.

(e) The Government acquires supplies or services on a competitive basis in accordance with part 6, but it is important that the efforts directed toward full and open competition not improperly demand or use data relating to private developments.

(f) The Government honors the rights in data resulting from private developments and limits its demands for such rights to those essential for Government purposes.

(g) The Government honors rights in patents, data, and copyrights, and complies with the stipulations of law in using or acquiring such rights.

(h) Generally, the Government requires that contractors obtain permission from copyright owners before including privately-owned copyrighted works in data required to be delivered under Government contracts.

[49 FR 12974, Mar. 30, 1984, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

Subpart 27.2—Patents

27.200 Scope of subpart.

This subpart prescribes policy with respect to—

(a) Patent infringement liability resulting from work performed by or for the Government;

(b) Royalties payable in connection with performing Government contracts; and

(c) Security requirements covering patent applications containing classified subject matter filed by contractors.

27.201 Authorization and consent.

27.201-1 General.

(a) In those cases where the Government has authorized or consented to the manufacture or use of an invention described in and covered by a patent of the United States, any suit for infringement of the patent based on the manufacture or use of the invention by or for the United States by a contractor (including a subcontractor at any tier) can be maintained only against the Government in the U.S. Claims Court and not against the contractor or subcontractor (28 U.S.C. 1498). To ensure that work by a contractor or subcontractor under a Government contract may not be enjoined by reason of patent infringement, the Government shall give authorization and consent in accordance with this regulation. The liability of the Government for damages in any such suit against it may, however, ultimately be borne by the contractor or subcontractor in accordance with the terms of any patent indemnity clause also included in the contract, and an authorization and consent clause does not de-tract from any patent indemnification commitment by the contractor or subcontractor. Therefore, both a patent indemnity clause and an authorization and consent clause may be included in the same contract.

(b) The contracting officer shall not include in any solicitation or contract—

(1) Any clause whereby the Government expressly agrees to indemnify the contractor against liability for patent infringement; or

(2) Any authorization and consent clause when both complete performance and delivery are outside the United States, its possessions, and Puerto Rico.

27.201-2 Clauses on authorization and consent.

(a) The contracting officer shall insert the clause at 52.227-1, Authorization and Consent, in solicitations and contracts (including those for construction; architect-engineer services; dismantling, demolition, or removal of improvements; and noncommon carrier communication services), except when small purchase procedures apply or both complete performance and delivery are outside the United States, its possessions, and Puerto Rico. Although the clause is not required when small purchase procedures apply, it may be used with them.

(b) The contracting officer shall insert the clause with its Alternate I in all R&D solicitations and contracts (including those for construction and architect-engineer services calling exclusively for R&D work or exclusively for experimental work), unless both complete performance and delivery are outside the United States, its possessions, and Puerto Rico. When a proposed contract involves both R&D work and supplies or services, and the R&D work is the primary purpose of the contract, the contracting officer shall use this alternate. In all other proposed contracts involving both R&D work and supplies or services, the contracting officer shall use the basic clause. Also, when a proposed contract involves either R&D or supplies and materials, in addition to construction or architect-engineer work, the contracting officer shall use the basic clause.

(c) If the solicitation or contract is for communication services with a common carrier and the services are unregulated and not priced by a tariff schedule set by a regulatory body, the contracting officer shall use the clause with its Alternate II.

27.202 Notice and assistance.

27.202-1 General.

The contractor is required to notify the contracting officer of all claims of infringement that come to the contractor's attention in connection with performing a Government contract. The contractor is also required, when requested, to assist the Government with any evidence and information in its possession in connection with any suit against the Government, or any claims against the Government made before suit has been instituted, on account of any alleged patent or copyright infringement arising out of or resulting from the contract performance.

27.202-2 Clause on notice and assistance.

The contracting officer shall insert the clause at 52.227-2, Notice and Assistance Regarding Patent and Copyright Infringement, in supply, service, or research and development solicitations and contracts (including construction and architect-engineer contracts) which anticipate a contract value above the dollar limit set forth at 13.000, except when small purchase procedures apply or both complete performance and delivery are outside the United States, its possessions, and Puerto Rico, unless the contracts indicate that the supplies or other deliverables are ultimately to be shipped into one of those areas.

27.203 Patent indemnification of Government by contractor.

27.203-1 General.

(a) To the extent set forth in this section, the Government requires reimbursement for liability for patent infringement arising out of or resulting from performing construction contracts or contracts for supplies or services that normally are or have been sold or offered for sale by any supplier to the public in the commercial open market or that are the same as such supplies or services with relatively minor modifications. Appropriate clauses for indemnification of the Government are prescribed in the following subsections.

(b) A patent indemnity clause shall not be used in the following situations:

(1) When the clause at 52.227-1, Authorization and Consent, with its Alternate I, is included in the contract, except that in contracts calling also for supplies of the kind described in paragraph (a) above, a patent indemnity clause may be used solely with respect to such supplies.

(2) When the contract is for supplies or services (or such items with relatively minor modifications) that clearly are not or have not been sold or offered for sale by any supplier to the public in the commercial open market. However, a patent indemnity clause may be included in (i) sealed bid contracts to obtain an indemnity regarding specific components, spare parts, or services so sold or offered for sale (see 27.203-2(b) below), and (ii) contracts to be awarded (either by sealed bid or negotiation) if a patent owner contends that the acquisition would result in patent infringement and the prospective contractor, after responding to a solicitation that did not contain an indemnity clause, is willing to indemnify the Government against such infringement either (A) without increase in price on the basis that the patent is invalid or not infringed, or (B) for other good reasons.

(3) When both performance and delivery are to be outside the United States, its possessions, and Puerto Rico, unless the contract indicates that the supplies or other deliverables are ultimately to be shipped into one of those areas.

(4) When the contract is awarded by small purchase procedures.

(5) When the contract is solely for architect-engineer work (see part 36).

[49 FR 12974, Mar. 30, 1984, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

27.203-2 Clauses for sealed bid contracts (excluding construction).

(a) Except when prohibited by 27.203-1(b) above, the contracting officer shall insert the clause at 52.227-3, Patent Indemnity, in sealed bid contracts for supplies or services (excluding construction and dismantling, demolition, and removal of improvements), if the contracting officer determines that the supplies or services (or such items with relatively minor modifications) normally are or have been sold or offered for sale by any supplier to the public in the commercial open market. Also the clause may be included as authorized in 27.203-1(b)(2)(i).

(b) In solicitations and contracts (excluding those for construction) that call in part for specific components, spare parts, or services (or such items with relatively minor modifications) that normally are or have been sold or offered for sale by any supplier to the public in the commercial open market, the contracting officer may use the clause with its Alternate I or II, as appropriate. The choice between Alternate I (identification of excluded items) and Alternate II (identification of included items) should be based upon simplicity, Government administrative convenience and ease of identification of the items.

(c) In solicitations and contracts for communication services and facilities where performance is by a common carrier, and the services are unregulated and are not priced by a tariff schedule set by a regulatory body, use the basic clause with its Alternate III.

[49 FR 12974, Mar. 30, 1984, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

27.203-3 Negotiated contracts (excluding construction).

A patent indemnity clause is not required in negotiated contracts, (except construction contracts covered at 27.203-5), but may be used as discussed in 27.203-4 below. A decision to omit a patent indemnity clause in a negotiated fixed-price contract described in this subsection should be based on a price consideration to the Government for forgoing the indemnification rights normally received by commercial purchasers of the same supplies or services.

[49 FR 12974, Mar. 30, 1984, as amended at 51 FR 2665, Jan. 17, 1986]

27.203-4 Clauses for negotiated contracts (excluding construction).

(a) The contracting officer may insert the clause at 52.227-3, Patent Indemnity—

(1) As authorized in 27.203-1(b)(2)(ii); and

(2) Except as prohibited by 27.203-1(b), in solicitations anticipating negotiated contracts (and such contracts) for supplies or services (excluding construction and dismantling, demolition, and removal of improvements), if the contracting officer determines that the supplies or services (or such items with relatively minor modifications) normally are or have been sold or offered for sale by any supplier to the public in the commercial open market. Ordinarily, the contracting officer, in consultation with the prospective contractor, should be able to determine whether the supplies or services being purchased normally are or have been sold or offered for sale by any supplier to the public in the commercial open market. (For negotiated construction contracts, see 27.203-5).

(b) In solicitations and contracts that call in part for specific components, spare parts, or services (or such items with relatively minor modifications) that normally are or have been sold or offered for sale by any supplier to the public in the commercial open market, the contracting officer may use the clause with its Alternate I or II, as appropriate. The choice between Alternate I (identification of excluded items) and Alternate II (identification of included items) should be based upon simplicity, Government administrative convenience, and the ease of identification of the items.

(c) In solicitations and contracts for communication services and facilities where performance is by a common carrier, and the services are unregulated and are not priced by a tariff schedule set by a regulatory body, the clause shall be used with its Alternate III.

27.203-5 Clause for construction contracts and for dismantling, demolition, and removal of improvements contracts.

Except as prohibited by 27.203-1(b), the contracting officer shall insert the clause at 52.227-4, Patent Indemnity—Construction Contracts, in solicitations and contracts for construction or that are fixed-price for dismantling, demolition, or removal of improvements. If it is determined that the construction will necessarily involve the use of structures, products, materials, equipment, processes, or methods that are nonstandard, noncommercial, or special, the contracting officer may expressly exclude them from the patent indemnification by using the basic clause with its Alternate I.

27.203-6 Clause for Government waiver of indemnity.

If, in the Government's interest, it is appropriate to exempt one or more specific United States patents from the patent indemnity clause, the contracting officer shall obtain written approval from the agency head or designee and shall insert the clause at 52.227-5, Waiver of Indemnity, in solicitations and contracts in addition to the appropriate patent indemnity clause. The contracting officer shall document the contract file with a copy of the written approval.

27.204 Reporting of royalties—anticipated or paid.

27.204-1 General.

(a) (1) To determine whether royalties anticipated or actually paid under Government contracts are excessive, improper, or inconsistent with any Government rights in particular inventions, patents, or patent applications, contracting officers shall require prospective contractors to furnish certain royalty information and shall require contractors to furnish certain royalty reports. Contracting officers shall take appropriate action to reduce or eliminate excessive or improper royalties.

(2) Royalty information shall not be required (except for information under 27.204-3) in sealed bid contracts unless the need for such information

is approved at a level above that of the contracting officer as being necessary for proper protection of the Government's interests.

(b) When it is expected that work may be performed in the United States, its possessions, or Puerto Rico, any solicitation that may result in a negotiated contract for which royalty information is desired or for which cost or pricing data is obtained (see 15.804) should contain a provision requesting information relating to any proposed charge for royalties. If the work is to be performed in the United States, its possessions, or Puerto Rico and the response to the solicitation includes a charge for royalties, the contracting officer shall, before award of the contract, forward the information relating to the proposed payments of royalties to the office having cognizance of patent matters for the contracting activity concerned. The cognizant office shall promptly advise the contracting officer of appropriate action. Before award, the contracting officer shall take action to protect the Government's interest with respect to such royalties, giving due regard to all pertinent factors relating to the proposed contract and the advice of the cognizant office.

(c) The contracting officer, when considering the approval of a subcontract for work to be performed in the United States, its possessions, or Puerto Rico, shall require and obtain the same royalty information and take the same action with respect to such subcontracts in relation to royalties as required for prime contracts under paragraph (b) above. However, consent need not be withheld pending receipt of advice in regard to such royalties from the office having cognizance of patent matters.

(d) The contracting officer shall forward the royalty information and/or royalty reports received to the office having cognizance of patent matters for the contracting activity concerned for advice as to appropriate action.

[49 FR 12974, Mar. 30, 1984, as amended at 52 FR 19803, May 27, 1987]

27.204-2 Solicitation provision for royalty information.

If it is expected that work may be performed in the United States, its possessions, or Puerto Rico, the contracting officer shall insert a solicitation provision substantially as shown in 52.227-6, Royalty Information, in any solicitation that may result in a negotiated contract for which royalty information is desired or for which cost or pricing data is obtained under 15.804. If the solicitation is for communication services and facilities by a common carrier, use the provision with its Alternate I.

27.204-3 Patents—notice of Government as a licensee.

(a) When the Government is obligated to pay a royalty on a patent because of a license agreement between the Government and a patent owner and the contracting officer knows (or has reason to believe) that the licensed patent will be applicable to a prospective contract, the Government should furnish information relating to the royalty to prospective offerors since it serves the interest of both the Government and the offerors. In such situations, the contracting officer should include in the solicitation a notice of the license, the number of the patent, and the royalty rate recited in the license.

(b) When the Government is obligated to pay such a royalty, the solicitation should also require offerors to furnish information indicating whether or not each offeror is a licensee under the patent or the patent owner. This information is necessary so that the Government may either (1) evaluate an offeror's price by adding an amount equal to the royalty, or (2) negotiate a price reduction with an offeror-licensee when the offeror is licensed under the same patent at a lower royalty rate.

(c) If the Government is obligated to pay a royalty on a patent involved in the prospective contract, the contracting officer shall insert in the solicitation, substantially as shown, the provision at 52.227-7, Patents—Notice of Government Licensee.

27.204-4 Clause for reporting of royalties (foreign).

In solicitations contemplating negotiated contracts (and such contracts) to be performed outside the United States, its possessions, and Puerto Rico, regardless of the place of delivery, the contracting officer shall insert the clause at 52.227-8, Reporting of Royalties (Foreign).

27.205 Adjustment of royalties.

(a) If at any time the contracting officer has reason to believe that any royalties paid, or to be paid, under an existing or prospective contract or subcontract are inconsistent with Government rights, excessive, or otherwise improper, the facts shall be promptly reported to the office having cognizance of patent matters for the contracting activity concerned. The cognizant office shall review the royalties thus reported and such royalties as are reported under 27.204 and 27.206 and, in accordance with agency procedures, shall either recommend appropriate action to the contracting officer or, if authorized, shall take appropriate action.

(b) In coordination with the cognizant office, the contracting officer shall promptly act to protect the Government against payment of royalties on supplies or services—

(1) With respect to which the Government has a royalty-free license;

(2) At a rate in excess of the rate at which the Government is licensed; or

(3) When the royalties in whole or in part otherwise constitute an improper charge.

(c) In appropriate cases, the contracting officer in coordination with the cognizant office shall obtain a refund pursuant to any refund of royalties clause in the contract (see 27.206) or negotiate for a reduction of royalties.

(d) For guidance in evaluating information furnished pursuant to 27.204 and 27.205(a) above, see 31.205-37 and 31.311-34. See also 31.109 regarding advance understandings on particular cost items, including royalties.

27.206 Refund of royalties.

27.206-1 General.

When a fixed-price contract is negotiated under circumstances that make it questionable whether or not substantial amounts of royalties will have to be paid by the contractor or a subcontractor, such royalties may be included in the target or contract price, provided the contract specifies that the Government will be reimbursed the amount of such royalties if they are not paid. Such circumstances might include, for example, either a pending Government anti-trust action or prospective litigation on the validity of a patent or patents or on the enforceability of an agreement (upon which the contractor or subcontractor bases the asserted obligation) to pay the royalties to be included in the target or contract price.

27.206-2 Clause for refund of royalties.

The contracting officer shall insert the clause at 52.227-9, Refund of Royalties, in negotiated fixed-price contracts and solicitations contemplating such contracts if the contracting officer determines that circumstances make it questionable whether or not substantial amounts of royalties will have to be paid by the contractor or a subcontractor at any tier.

27.207 Classified contracts.

27.207-1 General.

(a) Unauthorized disclosure of classified subject matter, whether in patent applications or resulting from the issuance of a patent, may be a violation of 18 U.S.C. 792 *et seq.* (Espionage and Censorship), and related statutes, and may be contrary to the interests of national security.

(b) Upon receipt from the contractor of a patent application, not yet filed, that has been submitted by the contractor in compliance with paragraph (a) or (b) of, the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, the contracting officer shall ascertain the proper security classification of the patent application. Upon a determination that the application contains classified subject matter, the contracting officer shall inform the contractor of any instructions deemed necessary or advisable relating to transmittal of the application to the United States Patent Office in accordance with procedures in the Department of Defense Industrial Security Manual for Safeguarding Classified Security Information. If the material is classified *Secret* or higher, the contracting officer shall make every effort to notify the contractor of the determination within 30 days, pursuant to paragraph (a) of the clause.

(c) In the case of all applications filed under the provisions of this section 27.207, the contracting officer, upon receiving the application serial number, the filing date, and the information furnished by the contractor under paragraph (d) of the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, shall promptly submit that information to personnel having cognizance of patent matters in order that the steps necessary to ensure the security of the application may be taken.

(d) A request for the approval referred to in paragraph (c) of the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, must be considered and acted upon promptly by the contracting officer in order to avoid the loss of valuable patent rights of the Government or the contractor.

27.207-2 Clause for classified contracts.

The contracting officer shall insert the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, in all classified solicitations and contracts and in all solicitations and contracts where the nature of the work or classified subject matter involved in the work reasonably might be expected to result in a patent application containing classified subject matter.

Subpart 27.3—Patent Rights Under Government Contracts

27.300 Scope of subpart.

This subpart prescribes policies, procedures, and contract clauses with respect to inventions made in the performance of work under a Government contract or subcontract thereunder if a purpose of the contract or subcontract is the conduct of experimental, developmental, or research work, except to the extent statutory requirements necessitate different agency policies, procedures, and clauses as specified in agency supplemental regulations.

27.301 Definitions.

Invention, as used in this subpart, means any invention or discovery that is or may be patentable or otherwise protectable under title 35 of the U.S. Code or any novel variety of plant that is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321, *et seq.*).

Made, as used in this subpart, when used in relation to any invention, means the conception or first actual reduction to practice of such invention.

Nonprofit organization, as used in this subpart, means a domestic university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

Practical application, as used in this subpart, means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

Small business firm, as used in this subpart, means a small business concern as defined at 15 U.S.C. 632 and implementing regulations of the Administrator of the Small Business Administration. (For the purpose of this definition, the size standard contained in 13 CFR 121.3-8 for small business contractors and in 13 CFR 121.3-12 for small business subcontractors will be used. See FAR part 19).

Subject invention, as used in this subpart, means any invention of the contractor conceived or first actually reduced to practice in the performance of work under a Government contract; *provided*, that in the case of a variety of plant, the date of determination defined in section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d), must also occur during the period of contract performance.

[49 FR 12974, Mar. 30, 1984, as amended at 54 FR 25063, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.302 Policy.

(a) *Introduction*. (1) The policy of this section is based on Chapter 18 of title 35, U.S.C. (Pub. L. 95-517, Pub. L. 98-620, 37 CFR part 401), the Presidential Memorandum on Government Patent Policy to the Heads of Executive Departments and Agencies dated February 18, 1983, and Executive Order 12591, which provides that, to the extent permitted by law, the head of each Executive Department and agency shall promote the commercialization, in accord with the Presidential Memorandum, of patentable results of federally funded research by granting to all contractors, regardless of size, the title to patents made in whole or in part with Federal funds, in exchange for royalty-free use by or on behalf of the Government. The objectives of this policy are to use the patent system to promote the utilization of inventions arising from federally supported research or development; to encourage maximum participation of industry in federally supported research and development efforts; to ensure that these inventions are used in a manner to promote free competition and enterprise; to promote the commercialization and public availability of the inventions made in the United States by United States industry and labor; to ensure that the Government obtains sufficient rights in federally supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions; and, to minimize the costs of administering policies in this area.

(b) *Contractor right to elect title*. Under the policy set forth in paragraph (a) of this section, each contractor may, after disclosure to the Government as required by the patent rights clause included in the contract, elect to retain title to any invention made in the performance of work under the contract. To the extent an agency's statutory requirements necessitate a different policy, or different procedures and/or contract clauses to effectuate the policy set forth in paragraph (a) of this section, such policy, procedures, and clauses shall be contained in or expressly referred to in that agency's supplement to this subpart. In addition, a contract may provide otherwise (1) when the contractor is not located in the United States or does not have a place of business located in the United States or is subject to the control of a foreign-government (see 27.303(c)), (2) in exceptional circumstances when it is determined by the agency that restriction or elimination of the right to retain title in any subject invention will better promote the policy and objectives of Chapter 18 of title 35, U.S.C. and the Presidential Memorandum, (3) when it is determined by a Government authority which is authorized by statute or Executive order to conduct foreign intelligence or counterintelligence activities that the restriction or elimination of the right to retain title to any subject invention is necessary to protect the security of such activities, or (4) when the contract includes the operation of a Government-owned, contractor-operated facility of the Department of Energy primarily dedicated to the Department's naval nuclear propulsion or weapons related programs and all funding agreement limitations under 35 U.S.C. 202(a)(iv) for agreements with small business firms and nonprofit organizations are limited to inventions occurring under the above two programs.

In the case of small business firms and nonprofit organizations, when an agency justifies and exercises the exception at subparagraph (b)(2) of this section on the basis of national security, the contract shall provide the contractor with the right to elect ownership to any invention made under such contract as provided by the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), if the invention is not classified by the agency within 6 months of the date it is reported to the agency, or within the same time period the Department of Energy (DOE) does not, as authorized by regulation, law or Executive order or implementing regulations thereto, prohibit unauthorized dissemination of the invention. Contracts in support of DOE's naval nuclear propulsion program are exempted from this paragraph. When a contract involves a series of separate task orders, an agency may apply the exceptions at subparagraph (b) (2) or (3) of this section to individual task orders, and it may structure the contract so that modified patent rights clauses will apply to the task order even though the clause at 52.227-11 is applicable to the remainder of the work. In those instances when the Government has the right to acquire title at the time of contracting, the contractor may, nevertheless, request greater rights to an identified investion (see 27.304-1(a)). The right of the contractor to retain title shall, in any event, be subject to the provisions of paragraphs (c) through (g) of this section.

(c) *Government license.* The Government shall have at least a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on behalf of the United States, any subject invention throughout the world; and may, if provided in the contract (see Alernative I of the applicable patent rights clause), have additional rights to sublicense any foreign government or international organization pursuant to existing treaties or agreements identified in the contract, or to otherwise effectuate such treaties or agreements. In the case of long term contracts, the contract may also provide (see Alternate II) such rights with respect to treaties or agreements to be entered into by the Government after the award of the contract.

(d) *Government right to receive title.* (1) The Government has the right to receive title to any invention if the contract so provides pursuant to a determination made in accordance with subparagraph (b) (1), (2), (3), or (4) of this section. In addition, to the extent provided in the patent rights clause, the Government has the right to receive title to an invention—

(i) If the contractor has not disclosed the invention within the time specified in the clause;

(ii) In any country where the contractor does not elect to retain rights or fails to elect to retain rights to the invention within the time specified in the clause;

(iii) In any country where the contractor has not filed a patent application within the time specified in the clause;

(iv) In any country where the contractor decides not to continue prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on the patent; and/or

(v) In any country where the contractor no longer desires to retain title.

(2) For the purposes of this paragraph, election or filing in a European Patent Office Region or under the Patent Cooperation Treaty constitutes election or filing in any country covered therein to meet the times specified in the clause, provided that the Government has the right to receive title in those countries not subsequently designated by the contractor.

(e) *Utilization reports.* The Government shall have the right to require periodic reporting on the utilization or efforts at obtaining utilization that are being made by the contractor or its licensees or assignees. Such reporting by small business firms and nonprofit organizations may be required in accordance with instructions as may be issued by the Department of Commerce. Agencies should protect the confidentiality or utilization reports which are marked with restrictions to the extent permitted by 35 U.S.C. 205 or other applicable laws and 37 CFR part 401. Agencies shall not disclose such utilization reports to persons outside the Government without permission of the contractor. Contractors will continue to provide confidential markings to help prevent inadvertent release outside the agency.

(f) *March-in rights.* (1) With respect to any subject invention in which a contractor has acquired title, contracts provide that the agency shall have the right (unless provided otherwise in accordance with 27.304-1(f)) to require the contractor, an assignee, or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such request, to grant such a license itself, if the agency determines that such action is necessary—

(i) Because the contractor or assignee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the subject invention in such field of use;

(ii) To alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or their licensees;

(iii) To meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee, or licensees; or

(iv) Because the agreement required by paragraph (g) below has neither been obtained nor waived, or because a licensee of the exclusive right to use or sell any subject invention in the United States is in breach of its agreement obtained pursuant to paragraph (g) below.

(2) This right of the agency shall be exercised only after the contractor has been provided a reasonable time to present facts and show cause why the proposed agency action should not be taken, and afforded an opportunity to take appropriate action if the contractor wishes to dispute or appeal the proposed action, in accordance with 27.304-1(g).

(g) *Preference for United States industry.* Unless provided otherwise in accordance with 27.304-1(f), contracts provide that no contractor which receives title to any subject invention and no assignee of any such contractor shall grant to any person the exclusive right to use or sell any subject invention in the United States unless such person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement for such an agreement may be waived by the agency upon a showing by the contractor or assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under the circumstances domestic manufacture is not commercially feasible.

(h) *Small business preference.* (1) Nonprofit organization contractors are expected to use efforts that are reasonable under the circumstances to attract small business licensees. They are also expected to give small business firms that meet the standard outlined in the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), a preference over other applicants for licenses. What constitutes reasonable efforts to attract small business licensees will vary with the circumstances and the nature, duration, and expense of efforts needed to bring the invention to the market. Subparagraph (k)(4) of the clause is not intended, for example, to prevent nonprofit organizations from providing larger firms with a right of first refusal or other options in inventions that relate to research being supported under long-term or other arrangements with larger companies. Under such circumstances, it would not be reasonable to seek and to give a preference to small business licensees.

(2) Small business firms that believe a nonprofit organzations is not meeting its obligations under the clause may report their concerns to the Secretary of Commerce. To the extent deemed appropriate, the Secretary of Commerce will undertake informal investigation of the concern, and, if appropriate, enter into discussions or negotiations with the nonprofit organization to the end of improving its efforts in meeting its obligations under the clause. However, in no event will the

Secretary of Commerce intervene in ongoing negotiations or contractor decisions concerning the licensing of a specific subject invention. All the above investigations, discussions, and negotiations of the Secretary of Commerce will be in coordinations with other interested agencies, including the Small Business Administration; and in the case of a contract for the operation of a Government-owned, contractor-operated research or production facility, the Secretary of Commerce will coordinate with the agency responsible for the facility prior to any discussions or negotiations with the contractor.

(i) *Minimum rights to contractor.* (1) When the Government acquires title to a subject invention, the contractor is normally granted a revocable, nonexclusive, royalty-free license to that invention throughout the world. The contractor's license extends to its domestic subsidiaries and affiliates, if any, within the corporate structure of which the contractor is a part and includes the right to grant sublicenses of the same scope to the extent the contractor was legally obligated to do so at the time the contract was awarded. The license is transferable only with the approval of the contracting officer except when transferred to the successor of that part of the contractor's business to which the invention pertains.

(2) The contractor's domestic license may be revoked or modified to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with the applicable provisions in the Federal Property Management Regulations and agency licensing regulations. This license will not be revoked in that field of use or the geographical areas in which the contractor has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public. The license in any foreign country may be revoked or modified to the extent the contractor, its licensees, or its domestic subsidiaries or affiliates have failed to achieve practical application in that country. See the procedures at 27.304-1(e).

(j) *Confidentiality of inventions.* The publication of information disclosing an invention by any party before the filing of a patent application may create a bar to a valid patent. Accordingly, 35 U.S.C. 205 and 37 CFR part 40 provide that Federal agencies are authorized to withhold from disclosure to the public information disclosing any invention in which the Federal Government owns or may own a right, title, or interest (including a nonexclusive license) for a reasonable time in order for a patent application to be filed. Furthermore, Federal agencies shall not be required to release copies of any document which is part of an application for patent filed with the United States Patent and Trademark Office or with any foreign patent office. The Presidential Memorandum on Government Patent Policy specifies that agencies should protect the confidentiality of invention disclosures and patent applications required in performance or in consequence of awards to the extent permitted by 35 U.S.C. 205 or other applicable laws.

[49 FR 12974, Mar. 30, 1984, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 2665, Jan. 17, 1986; 54 FR 25063, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.303 Contract clauses.

In contracts (and solicitations therefor) for experimental, developmental, or research work (but see 27.304-3 regarding contracts for construction work or architect-engineer services), a patent rights clause shall be inserted as follows:

(a) (1) The contracting officer shall insert the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), if all the following conditions apply:

(i) The contractor is a small business concern or nonprofit organization as defined in 27.301 or, except for contracts of the Department of Defense (DOD), the Department of Energy (DOE), or the National Aeronautics and Space Administration (NASA), any other type of contractor.

(ii) No alternative patent rights clause is used in accordance with para-

best copy available

Reproduced from poor document.

graph (c) or (d) of this section or 27.304-2.

(2) To the extent the information is not required elsewhere in the contract, and unless otherwise specified by agency supplemental regulations, the contracting officer may modify 52.227-11(f) to require the contractor to do one or more of the following:

(i) Provide periodic (but not more frequently than annually) listings of all subject inventions required to be disclosed during the period covered by the report.

(ii) Provide a report prior to the closeout of the contract listing all subject inventions or stating that there were none.

(iii) Provide, upon request, the filing date, serial number and title, a copy of the patent application, and patent number and issue date for any subject invention in any country in which the contractor has applied for patents.

(iv) Furnish the Government an irrevocable power to inspect and make copies of the patent application file when a Federal Government employee is a coinventor.

(3) If the acquisition of patent rights for the benefit of a foreign government is required under a treaty or executive agreement, or if the agency head or a designee determines at the time of contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement, the contracting officer shall use the clause at 52.227-11, with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if necessary to effectuate treaties or agreements to be entered into.

(4) If the contracting officer includes the clause at 52.227-11, Patent Rights--Retention by the Contractor (Short Form), in a contract with a nonprofit organization for the operation of a Government-owned facility, the contracting officer will include Alternate III in lieu of subparagraph (k)(3) of the clause.

(5) If the contract is for the operation of a Government-owned facility, the contracting officer may include Alternate IV with the clause at 52.227-11.

(b) (1) The contracting officer shall insert the clause at 52.227-12, Patent Rights—Retention by the Contractor (Long Form), if all the following conditions apply:

(i) The contractor is other than a small business firm or nonprofit organization.

(ii) No alternative clause is used in accordance with paragraph (c) or (d) of this section or 237.304-2.

(iii) The contracting agency is one of those excepted under subdivision (a)(1)(i) of this section.

(2) If the acquisition of patent rights for the benefit of a foreign government is required under a treaty or executive agreement or if the agency head or a designee determines at the time of contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement, the contracting officer shall use the clause at 52.227-12, with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if necessary to effectuate treaties or agreements to be entered into.

(c) (1) The contracting officer shall insert the clause at 52.227-13, Patent Rights—Acquisition by the Government, if any of the following conditions apply:

(i) No alternative clause is used in accordance with subparagraphs (c) (2) and (4) or paragraph (d) of this section or 27.304-2.

(ii) The work is to be performed outside the Untied States, its possessions, and Puerto Rico by contractors that are not small business firms, nonprofit organizations as defined in 27.301, or domestic firms. For purposes of this subparagraph, the contracting officer may presume that a contractor is not a domestic firm unless it is known that the firm is not foreign owned, controlled, or influenced. (See 27.304-4(a) regarding subcontracts with U.S. firms.)

(2) Pursuant to their statutory requirements, DOE and NASA may specify in their supplemental regulations use of a modified version of the clause at 52.227-13 in contracts with other than small business concerns or nonprofit organizations.

(3) If the acquisition of patent rights for the benefit of a foreign government is required under a treaty or executive agreement or if the agency head or a designee determines at the time of contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement, the contracting officer shall use the clause with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if necessary to effectuate treaties or agreements to be entered into.

(4) Section 401 of title 37 of the Code of Federal Regulations provides that in contracts with small business firms and nonprofit organizations, when an agency exercises the exceptions at 27.302(b) (2) or (3) it shall use the clause at 52.227-11, with such modifications as are necessary to address the exceptional circumstances or concerns which led to the use of the exception. The greater rights determinations provision of 52.227-13(b)(2) shall be included in the modified clause.

(d) (1) If one of the following applies, the contracting officer may insert the clause prescribed in paragraph (a) or (b) of this section as otherwise applicable, agency supplemental regulations may provide another clause and specify its use, or the contracting officer shall insert the clause prescribed in paragraph (c) of this section:

(i) The contractor is not located in the United States or does not have a place of business located in the United States or is subject to the control of a foreign government.

(ii) There are exceptional circumstances and the agency head determines that restriction or elimination of the right to retain title to any subject invention will better promote the policy and objectives of Chapter 18 of title 35 of the United States Code.

(iii) It is determined by a Government authority which is authorized by statute or executive order to conduct foreign intelligence or counterintelligence activities that restriction or elimination of the right to retain any subject invention is necessary to protect the security of such activities.

(iv) The contract includes the operation of a Government-owned, contractor-operated facility of the Department of Energy primarily dedicated to that Department's naval nuclear propulsion or weapons related programs.

(2) Before using any of the exceptions under subparagraph (d)(1) of this section in a contract with a small business firm or a nonprofit organization and before using the exception of subdivision (d)(1)(ii) of this section for any contractor, the agency shall prepare a written determination, including a statement of facts supporting the determination, that the conditions identified in the exception exist. A separate statement of facts shall be prepared for each exceptional circumstances determination, except that in appropriate cases a single determination may apply to both a contract and any subcontract issued under it, or to any contract to which an exception is applicable. In cases when subdivision (d)(1)(ii) of this section is used, the determination shall also include an analysis justifying the determination. This analysis should address, with specificity, how the alternate provisions will better achieve the objectives set forth in 35 U.S.C. 200. For contracts with small business firms and nonprofit organizations, a copy of each determination, statement of facts, and, if applicable, analysis shall be promptly provided to the contractor or offeror along with a notification of its appeal rights under 35 U.S.C. 202(b)(4) in accordance with 27.304-1(a). In the case of small business and nonprofit contractors, except for determination under subdivision (d)(1)(iii) of this section, the agency shall, within 30 days after award of a contract, also provide copies of each determination, statement of fact, and analysis to the Sec-

retary of Commerce. These shall be sent within 30 days after the award of the contract to which they pertain. In the case of contracts with small business concerns, copies will also be sent to the Chief Counsel for Advocacy of the Small Business Administration.

(e) To qualify for the clause at 52.227-11, a prospective contractor may be required by the agencies excepted under subdivision (a)(1)(i) of this section to certify that it is either a small business firm or a nonprofit organization. If one of these agencies has reason to question the status of the prospective contractor, the agency may file a protest in accordance with 13 CFR 121.3-5 if small business firm status is questioned, or require the prospective contractor to furnish evidence of its status as a nonprofit organization.

(f) Alternates I and II to the clauses at 52.227-11, 52.227-12, and 52-227-13, as applicable, may be modified to make clear that the rights granted to the foreign government or international organization may be for additional rights beyond a license or sublicense if so required by the applicable treaty or international agreement. For example, in some cases exclusive licenses or even assignment of title in the foreign country involved might be required. In addition, an Alternate may be modified to provide for direct licensing by the contractor of the foreign government or international organization.

[54 FR 25065, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.304 Procedures.

27.304-1 General.

(a) *Contractor appeals of exceptions.* (1) In accordance with 35 U.S.C. 202(b)(4), a small business firm or nonprofit organization contractor has the right to an administrative review of a determination to use one of the exceptions at 27.303(d)(1)(i)-(iv) if the contractor believes that a determination s either (i) contrary to the policies and objectives of this subsection or (ii) constitutes an abuse of discretion by he agency. Subparagraphs (a) (2) hru (7) of this subsection specify the procedures to be followed by contractors and agencies in such cases. The assertion of such a claim by the contractor shall not be used as a basis for withholding or delaying the award of a contract or for suspending performance under an award. However, pending final resolution of the claim, the contract may be issued with the patent rights provision proposed by the agency; but should the final decision be in favor of the contractor, the contract will be amended accordingly and the amendment made retroactive to the effective date of the contract.

(2) A contractor may appeal a determination by providing written notice to the agency within 30 working days from the time it receives a copy of the agency's determination, or within such longer time as an agency may specify in its regulations. The contractor's notice should specifically identify the basis for the appeal.

(3) The appeal shall be decided by the head of the agency or designee who is at a level above the person who made the determination. If the notice raises a genuine dispute over the material facts, the head of the agency or designee shall undertake or refer the matter for fact-finding.

(4) Fact-finding shall be conducted in accordance with procedures established by the agency. Such procedures shall be as informal as practicable and be consistent with principles of fundamental fairness. The procedures should afford the contractor the opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront such persons as the agency may rely upon. A transcribed record shall be made and shall be available at cost to the contractor upon request. The requirement for a transcribed record may be waived by mutual agreement of the contractor and the agency.

(5) The official conducting the fact-finding shall prepare or adopt written findings of fact and transmit them to the head of the agency or designee promptly after the conclusion of the fact-finding proceeding along with a recommended decision. A copy of the findings of fact and recommended decision shall be sent to the contractor by registered or certified mail.

(6) Fact-finding should be completed within 45 working days from the date the agency receives the contractor's written notice.

(7) When fact-finding has been conducted, the head of the agency or designee shall base his or her decision on the facts found, together with any argument submitted by the contractor, agency officials, or any other information in the administrative record. In cases referred for fact-finding, the agency head or designee may reject only those facts that have been found to be clearly erroneous, but must explicitly state the rejection and indicate the basis for the contrary finding. The agency head or designee may hear oral arguments after fact-finding provided that the contractor or contractor's attorney or representative is present and given an opportunity to make arguments and rebuttal. The decision of the agency head or designee shall be in writing and if it is unfavorable to the contractor, include an explanation of the basis of the decision. The decision of the agency or designee shall be made within 30 working days after fact-finding or, if there was no fact-finding, within 45 working days from the date the agency received the contractor's written notice. In accordance with 35 U.S.C. 203, a small business firm or a nonprofit organization contractor adversely affected by a determination under this section may, at any time within 60 days after the determination is issued, file a petition in the United States Claims Court, which shall have jurisdiction to determine the appeal on the record and to affirm, reverse, remand, or modify, as appropriate, the determination of the Federal agency.

(b) *Greater rights determination.* Whenever the contract contains the clause at 52.227-13, Patent Rights—Acquisition by the Government, the contractor (or an employee-inventor of the contractor after consultation with the contractor) may request greater rights to an identified invention within the period specified in such clause. Requests for greater rights may be granted if the agency head or designee determines that the interests of the United States and the general public will be better served thereby. In making such determinations, the agency head or designee shall consider at least the following objectives:

(1) Promoting the utilization of inventions arising from federally-supported research and development.

(2) Ensuring that inventions are used in a manner to promote full and open competition and free enterprise.

(3) Promoting public availability of inventions made in the United States by United States industry and labor.

(4) Ensuring that the Government obtains sufficient rights in federally supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions.

(c) *Retention of rights by inventor.* If the contractor does not elect to retain title to a subject invention, the agency may consider and, after consultation with the contractor, grant requests for retention or rights by the inventor. Retention of rights by the inventor will be subject to the conditions in paragraph (d) (except subparagraphs (d)(1)), (f)(4), and paragraphs (h), (i), and (j) of the applicable Patent Rights—Retention by the Contractor clause.

(d) *Government assignment to contractor of rights in Government employees' inventions.* When a Government employee is a coinventor of an invention made under a contract with a small business firm or nonprofit organization, the agency employing the coinventor may transfer or reassign whatever right it may acquire in the subject invention from its employee to the contractor, subject at least to the conditions of 35 U.S.C. 202-204.

(e) *Additional requirements.* (1) If it is desired to have the right to require any of the following, when using the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), the contract shall be modified to require the contractor to do one or more of the following:

(i) Provide periodic (but not more frequently than annually) listings of all subject inventions required to be disclosed during the period covered by the report.

(ii) Provide a report prior to the closeout of the contract listing all subject inventions or stating that there were none.

(iii) Provide, upon request, the filing date, serial number, and title; a copy of the patent application; and patent number and issue date for any subject invention in any country in which the contractor has applied for patents.

(iv) Furnish the Government an irrevocable power to inspect and make copies of the patent application file when a Federal Government employee is a coinventor.

(2) To the extent provided by such modification (and automatically under the terms of the clauses at 52.227-12, Patent Rights—Retention by the Contractor (Long Form), and 52.227-13, Patent Rights—Acquisition by the Government), the contracting officer may require the contractor to—

(i) Furnish a copy of each subcontract containing a patent rights clause (but if a copy of a subcontract is furnished under another clause, a duplicate shall not be requested under the patent rights clause);

(ii) Submit interim and final invention reports listing subject inventions and notifying the contracting officer of all subcontracts awarded for experimental, developmental, or research work;

(iii) Submit information regarding the filing date, serial number and title, and, upon request, a copy of the patent application, and patent number and issue date for any subject invention in any country for which the contractor has retained title; and

(iv) Submit periodic reports on the utilization of a subject invention or on efforts at obtaining utilization that are being made by the contractor or its licensees or assignees.

(3) The contractor is required to deliver to the contracting officer an instrument confirmatory of all rights to which the Government is entitled and to furnish the Government an irrevocable power to inspect and make copies of the patent application file. Such delivery should normally be made within 6 months after filing each patent application, or within 6 months after submitting the invention disclosure if the application has been previously filed.

(f) *Revocation or modification of contractor's minimum rights.* Before revocation or modification of the contractor's license in accordance with 27.302(i)(2), the contracting officer will furnish the contractor a written notice of intention to revoke or modify the license, and the contractor will be allowed 30 days (or such other time as may be authorized by the contracting officer for good cause shown by the contractor) after the notice to show cause why the license should not be revoked or modified. The contractor has the right to appeal, in accordance with applicable regulations in 37 CFR part 404 and agency licensing regulations, any decisions concerning the revocation or modification.

(g) *Exercise of march-in rights.* The following procedures shall govern the exercise of the march-in rights set forth in 35 U.S.C. 203, paragraph (j) of the Patent Rights—Retention by the Contractor clauses, and subdivision (c)(1)(ii) of the Patent Rights—Acquisition by the Government clause:

(1) When the agency receives information that it believes might warrant the exercise of march-in rights, before initiating any march-in proceeding in accordance with the procedures of subparagraph (g)(2) of this section, it shall notify the contractor in writing of the information and request informal written or oral comments from the contractor. In the absence of any comments from the contractor within 30 days the agency may, at its discretion, initiate the procedures below. If a comment is received, whether or not within 30 days, then the agency shall, within 60 days after it receives the comment, either initiate the procedures below or notify the contractor, in writing, that it will not pursue march-in rights based on the information about which the contractor was notified.

(2) A march-in proceeding shall be initiated by the issuance of a written notice by the agency head or a designee to the contractor and its assignee or exclusive licensee, as applicable and if known to the agency, stating that the Government has determined to exercise march-in rights. The notice shall state the reasons for the proposed march-in, in terms sufficient to

put the contractor on notice of the facts upon which the action is based, and shall specify the field or fields of use in which the Government is considering requiring licensing. The notice shall advise the contractor, assignee, or exclusive licensee of its rights as set forth in this section and in any supplemental agency regulations or procedures. The determination to exercise march-in rights shall be made by the head of the agency or designee.

(3) Within 30 days after the receipt of the written notice of march-in, the contractor, its assignee or exclusive licensee, may submit in person, in writing, or through a representative information or argument in opposition to the proposed march-in, including any additional specific information which raises a genuine dispute over the material facts upon which the march-in is based. If the information presented raises a genuine dispute over the material facts, the head of the agency or designee shall undertake or refer the matter to another official for fact-finding.

(4) Fact-finding shall be conducted in accordance with the procedures established by the agency. Such procedures shall be as informal as practicable and be consistent with principles of fundamental fairness. The procedures should afford the contractor the opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront such persons as the agency may present. A transcribed record shall be made and shall be available at cost to the contractor upon request. The requirement for a transcribed record may be waived by mutual agreement of the contractor and the agency. Any portion of the march-in proceeding, including a fact-finding hearing that involves testimony or evidence relating to the utilization or efforts at obtaining utilization that are being made by the contractor, its assignee, or licensees shall be closed to the public, including potential licensees. In accordance with 35 U.S.C. 202(c)(5), agencies shall not disclose any such information obtained during a march-in proceeding to persons outside the Government except when such release is authorized by the contractor, its assignee, or licensee.

(5) The official conducting the fact-finding shall prepare or adopt written findings of fact and transmit them to the head of the agency or designee promptly after the conclusion of the factfinding proceeding along with a recommended determination. A copy of the findings of fact shall be sent to the contractor, its assignee, or exclusive licensee by registered or certified mail. The contractor, its assignee or exclusive licensee, and agency representatives will be given 30 days to submit written arguments to the head of the agency or designee; and, upon request by the contractor, oral arguments will be held before the agency head or designee that will make the final determination.

(6) In case in which fact-finding has been conducted, the head of the agency or designee shall base his or her determination on the facts found, together with any other information and written or oral arguments submitted by the contractor, its assignee or exclusive licensee and agency representatives, and any other information in the administrative record. The consistency of the exercise of march-in rights with the policy and objectives of 35 U.S.C. 200 shall also be considered. In cases referred for fact-finding, the head of the agency or designee may reject only those facts that have been found to be clearly erroneous, but must explicitly state the rejection and indicate the basis for the contrary finding. Written notice of the determination whether march-in rights will be exercised shall be made by the head of the agency or designee and sent to the contractor, its assignee, or exclusive licensee, by certified or registered mail within 90 days after the completion of fact-finding or 90 days after oral arguments, whichever is later, or the proceedings will be deemed to have been terminated and thereafter no march-in based on the facts and reasons upon which the proceeding was initiated may be exercised.

(7) An agency may, at any time, terminate a march-in proceeding if it is satisfied that it does not wish to exercise march-in rights.

(8) These procedures shall also apply to the exercise of march-in rights against inventors receiving title to subject inventions under 35 U.S.C. 202(d) and, for that purpose, the term *contractor,* as used herein, shall be deemed to include the inventory and the term *exclusive licensee* shall be deemed to include partially exclusive licensee.

(9) An agency determination unfavorable to the contractor, its assignee, or exclusive licensee shall be held in abeyance pending the exhaustion of appeals or petitions filed under 35 U.S.C. 203(2).

(h) *Licenses and assignments under contracts with nonprofit organizations.* If the contractor is a nonprofit organization, the clause at 52.227-11 provides that certain contractor actions require agency approval, as specified below. Agencies shall provide procedures for obtaining such approval. Rights to a subject invention in the United States may not be assigned without the approval of the contracting agency, except where such assignment is made to an organization which has as one of its primary functions the management of inventions (provided that such assignee will be subject to the same provisions as the contractor).

[54 FR 25066, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.304-2 Contracts placed by or for other Government agencies.

The following procedures apply unless agency agreements provide otherwise:

(a) When a Government agency requests another Government agency to award a contract on its behalf, the request should explain any special circumstances surrounding the contract and specify and furnish the patent rights clause to be used. Normally, the clause will be in accordance with the policies and procedures of this subpart. If, however, the request states that a clause of the requesting agency is required (e.g., because of statutory requirements, a deviation, or exceptional circumstances) that clause shall be used rather than those of this subpart.

(1) If the request states that an agency clause is required and the work to be performed under the contract is not severable and is funded wholly or in part by the agency, then that agency clause and no other patent rights clause shall be included in the contract.

(2) If the request states that an agency clause is required, and the work to be performed under the contract is severable and is only in part for the requesting agency, then the work which is on behalf of the requesting agency shall be identified in the contract, and the agency clause shall be made applicable to that portion. In such situations, the remaining portion of the work (for the agency awarding the contract) shall likewise be identified and the appropriate patent rights clause (if required) shall be made applicable to that remaining portion.

(3) If the request states that an agency clause is not required in any resulting contract, then the appropriate patent rights clause shall be used, if a patent rights clause is required.

(b) Where use of the specified clause, or any modification, waiver, or omission of the Government's rights under any provisions therein, requires a written determination, the reporting of such determination, or a deviation, if any such acts are required in accordance with 27.303(d)(2), it shall be the responsibility of the requesting agency to make such determination, submit the required reports, and obtain such deviations, in consultation with the contracting agency, unless otherwise agreed between the contracting and requesting agencies. However, a deviation to a specified clause of the requesting agency shall not be made without prior approval of that agency.

(c) The requesting agency may require, and provide instructions regarding, the forwarding or handling of any invention disclosures or other reporting requirements of the specified clauses. Normally the requesting agency shall be responsible for the handling of any disclosed inventions, including the filing of patent applications where the Government receives title, and the custody, control, and licensing thereof, unless provided otherwise in the instructions or other agreements with the contracting agency.

[49 FR 12974, Mar. 30, 1984, as amended at 54 FR 25068, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.304-3 Contracts for construction work or architect-engineer services.

(a) If a solicitation or contract for construction work or architect-engineer services has as a purpose the performance of experimental, developmental, or research work or test and evaluation studies involving such work and calls for, or can be expected to involve, the design of a Government facility or of novel structures, machines, products, materials, processes, or equipment (including construction equipment), it shall include a patent rights clause selected in accordance with the policies and procedures of this subpart 27.3.

(b) A solicitation or contract for construction work or architect-engineer services that calls for or can be expected to involve *only standard types of construction* to be built by previously developed equipment, methods, and processes shall not include a patent rights clause. The term *standard types of construction* means construction in which the distinctive features, if any, in all likelihood will amount to no more than—

(1) Variations in size, shape, or capacity of otherwise structurally orthodox and conventionally acting structures or structural groupings; or

(2) Purely artistic or esthetic (as distinguished from functionally significant) architectural configurations and designs of both structural and nonstructural members or groupings, which may or may not be sufficiently novel or meritorious to qualify for design protection under the design patent or copyright laws.

27.304-4 Subcontracts.

(a) The policies and procedures covered by this subpart apply to all contracts at any tier. Hence, a contractor awarding a subcontract and a subcontractor awarding a lower-tier subcontract that has as a purpose the conduct of experimental, developmental, or research work is required to determine the appropriate patent rights clause to be included that is consistent with these policies and procedures. Generally, the clause at either 52.227-11, 52.227-12, or 52.227-13 is to be used and will be so specified in the patent rights clause contained in the higher-tier contract, but the contracting officer may direct the use of a particular patent rights clause in any lower-tier contract in accordance with the policies and procedures of this subpart. For instance, when the clause at 52.227-13 is in the prime contract because the work is to be performed overseas, any subcontract with a nonprofit organization would contain the clause at 52.227-11.

(b) Whenever a prime contractor or a subcontractor considers the inclusion of a particular clause in a subcontract to be inappropriate or a subcontractor refuses to accept the proffered clause, the matter shall be resolved by the agency contracting officer in consultation with counsel.

(c) It is Government policy that contractors shall not use their ability to award subcontracts as economic leverage to acquire rights for themselves in inventions resulting from subcontracts.

27.304-5 Appeals.

(a) The agency official initially authorized to take any of the following actions shall provide the contractor with a written statement of the basis for the action at the time the action is taken, including any relevant facts that were relied upon in taking the action:

(1) A refusal to grant an extension to the invention disclosure period under subparagraph (c)(4) of the clauses at 52.227-11 and 52.227-12.

(2) A request for a conveyance of title to the Government under 27.302(d)(1)(i) through (v).

(3) A refusal to grant a waiver under 27.302(g), Preference for U.S. Industry.

(4) A refusal to approve an assignment under 27.304-1(h)(1).

(5) A refusal to approve an extension of the exclusive license period under 27.304-1(h)(2).

(b) Each agency shall establish and publish procedures under which any of the agency actions listed in paragraph (a) above may be appealed to the head of the agency or designee. Review at this level shall consider both the factual and legal basis for the action and its consistency with the policy and objectives of 35 U.S.C. 200-206 and this subpart.

(c) Appeals procedures established under paragraph (b) of this subsection shall include administrative due process procedures and standards for fact-finding at least comparable to those set forth in 37 CFR part 401.6(e)-(g) whenever there is a dispute as to the factual basis for an agency request for a conveyance of title under 27.302(d)(1) (i) through (v) including any dispute as to whether or not an invention is a subject invention.

(d) To the extent that any of the actions described in paragraph (a) above are subject to appeal under the Contract Disputes Act, the procedures under that Act will satisfy the requirements of paragraphs (b) and (c) above.

[49 FR 12974, Mar. 30, 1984, as amended at 54 FR 25068, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.305 Administration of patent rights clauses.

27.305-1 Patent rights follow-up.

(a) It is important that the Government and the contractor know and exercise their rights in inventions conceived or first actually reduced to practice in the course of or under Government contracts in order to ensure their expeditious availability to the public and to enable the Government, the contractor, and the public to avoid unnecessary payment of royalties and to defend themselves against claims and suits for patent infringement. To attain these ends, contracts having a patent rights clause should be so administered that—

(1) Inventions are identified, disclosed, and reported as required by the contract, and elections are made;

(2) The rights of the Government in such inventions are established;

(3) Where patent protection is appropriate, patent applications are timely filed and prosecuted by contractors or by the Government;

(4) The rights of the Government in filed patent applications are documented by formal instruments such as licenses or assignments; and

(5) Expeditious commercial utilization of such inventions is achieved.

(b) If a subject invention is made under funding agreements of more than one agency, at the request of the contractor or on their own initiative, the agencies shall designate one agency as responsible for administration of the rights of the Government in the invention.

27.305-2 Follow-up by contractor.

(a) *Contractor procedures.* If required by the applicable clause, the contractor shall establish and maintain effective procedures to ensure its patent rights obligations are met and that subject inventions are timely identified and disclosed, and when appropriate, patent applications are filed.

(b) *Contractor reports.* Contractors shall submit all reports required by the patent rights clause to the contracting officer or other representative designated for such purpose in the contract. Agencies may, in their implementing instructions, provide specific forms for use on an optional basis for such reporting.

27.305-3 Follow-up by Government.

(a) Agencies shall maintain appropriate follow-up procedures to protect the Government's interest and to check that subject inventions are identified and disclosed, and when appropriate, patent applications are filed, and that the Government's rights therein are established and protected. Follow-up activities for contracts that include a clause referenced in 27.304-2 shall be coordinated with the appropriate agency.

(b) The contracting officer administering the contract (or other representative specifically designated in the contract for such purpose) is responsible for receiving invention disclosures, reports, confirmatory instruments, notices, requests, and other documents and information submitted by the contractor pursuant to a patent rights clause. If the contractor fails to furnish documents or information as called for by the clause within the time required, the contracting officer shall promptly request the contractor to supply the required documents or information and, if the failure persists, shall take appropriate action to secure compliance. Invention disclosures, reports, confirmatory instruments, notices, requests, and other documents and information relating to patent rights clauses shall be promptly furnished by the contracting officer administering the contract (or other designee) to the procuring agency or contracting activity for which the procurement was made for appropriate action.

(c) Contracting activities shall establish appropriate procedures to detect and correct failures by the contractor to comply with its obligations under the patent rights clauses, such as failures to disclose and report subject inventions, both during and after contract performance. Ordinarily a contractor should have written instructions for its employees covering compliance with these contract obligations. Government effort to review and correct contractor compliance with its patent rights obligations should be directed primarily towards contracts that, because of the nature of the research, development, or experimental work or the large dollar amount spent on such work, are more likely to result in subject inventions significant in number or quality, and towards contracts when there is reason to believe the contractors may not be complying with their contractual obligations. Other contracts may be reviewed using a spot-check method, as feasible. Appropriate follow-up procedures and activities may include the investigation or review of selected contracts or contractors by those qualified in patent and technical matters to detect failures to comply with contract obligations.

(d) Follow-up activities should include, where appropriate, use of Government patent personnel—

(1) To interview agency technical personnel to identify novel developments made in contracts;

(2) To review technical reports submitted by contractors with cognizant agency technical personnel;

(3) To check the Official Gazette of the United States Patent and Trademark Office and other sources for patents issued to the contractor in fields related to its Government contracts; and

(4) If additional information is required, to have cognizant Government personnel interview contractor personnel regarding work under the contract involved, observe the work on site, and inspect laboratory notebooks and other records of the contractor related to work under the contract.

(e) If it is determined that a contractor or subcontractor does not have a clear understanding of the rights and obligations of the parties under a patent rights clause, or that its procedures for complying with the clause are deficient, a post-award orientation conference or letter should ordinarily be used to explain these rights and obligations (see subpart 42.5). When a contractor fails to establish, maintain, or follow effective procedures for identifying, disclosing, and, when appropriate, filing patent applications on inventions (if such procedures are required by the patent rights clause), or after appropriate notice fails to correct any deficiency, the contracting officer may require the contractor to make available for examination books, records, and documents relating to the contractor's inventions in the same field of technology as the contract effort to enable a determination of whether there are such inventions and may invoke the withholding of payments provision (if any) of the clause. The withholding of payments provision (if any) of the patent rights clause or of any other contract clause may also be invoked if the contractor fails to disclose a subject invention. Significant or repeated failures by a contractor to comply with the patent rights obligation in its contracts shall be documented and made a part of the general file (see 4.801(c)(3)).

27.305–4 Conveyance of invention rights acquired by the Government.

(a) Agencies are responsible for those procedures necessary to protect the Government's interest in subject inventions. When the Government ac-

es the entire right, title, and inter-
n an invention by contract, this is
nally accomplished by an assign-
t either from each inventor to the
ractor and from the contractor to
Government, or from the inventor
he Government with the consent
he contractor, so that the chain of
from the inventor to the Govern-
t is clearly established. When the
ernment's rights are limited to a
se, there should be a confirmato-
strument to that effect.

The form of conveyance of title
the inventor to the contractor
t be legally sufficient to convey
rights the contractor is required to
ey to the Government. Agencies
, by supplemental instructions, de-
suitable assignments, licenses,
other papers evidencing any
ts of the Government in patents
atent applications, including such
ruments as may be required to be
rded in the Statutory Register or
mented in the Government Regis-
naintained by the U.S. Patent and
lemark Office pursuant to Execu-
Order 9424, February 18, 1944.

5-5 Publication or release of inven-
ion disclosures.

In accordance with the policy at
2(i), to protect their mutual inter-
contractors and the Government
ld cooperate in deferring the pub-
ion or release of invention disclo-
until the filing of the first
nt application, and use their best
ts to achieve prompt filing when
ication or release may be immi-
. The Government will, on its part
to the extent authorized by 35
C. 205, withhold from disclosure
e public any invention disclosures
rted under the patent rights
es of 52.227-11, 52.227-12, or
7-13 for a reasonable time in
for patent applications to be
. The policy in 27.302(i) regarding
ction of confidentiality shall be
wed.

The Government will also use
nable efforts to withhold from
sure to the public for a reasona-
me other information disclosing a
ted invention included in any
delivered pursuant to contract re-
ments; *provided*, that the contractor notifies the agency as to the identity of the data and the invention to which it relates at the time of delivery of the data. Such notification must be to both the contracting officer and any patent representative to which the invention is reported, if other than the contracting officer.

(c) As an additional protection for small business firms and nonprofit organizations 37 CFR part 401 prescribes that agencies shall not disclose or release, in accordance with 35 U.S.C. 205, for a period of 18 months from the filing date of the application to third parties pursuant to request under the Freedom of Information Act or otherwise copies of any document which the agency obtained under contract which is part of an application for patent with the U.S. Patent and Trademark Office or any foreign patent office filed by the contractor (or its assignees, licensees, or employees) on a subject invention to which the contractor has elected to retain title. This prohibition does not extend to disclosure to other Government agencies or contractors of Government agencies under an obligation to maintain such information in confidence.

[49 FR 12974, Mar. 30, 1984, as amended at 54 FR 25069, June 12, 1989 and 55 FR 25525, June 21, 1990]

27.306 Licensing background patent rights to third parties.

(a) A contract with a small business firm or nonprofit organization will not contain a provision allowing the Government to require the licensing to third parties of inventions owned by the contractor that are not subject inventions unless such provision has been approved by the agency head and written justification has been signed by the agency head. Any such provision will clearly state whether the licensing may be required in connection with the practice of a subject invention, a specifically identified work object, or both. The agency head may not delegate the authority to approve such provisions or to sign justifications required for such provisions.

(b) The Government will not require the licensing of third parties under any such provision unless the agency head determines that the use of the invention by others is necessary for the practice of a subject invention or for the use of a work object of the contract and that such action is necessary to achieve the practical application of the subject invention or work object. Any such determination will be on the record after an opportunity for a hearing, and the contractor shall be given notification of the determination by certified or registered mail. The notification shall include a statement that any action commenced for judicial review of such determination must be brought by the contractor within 60 days after the notification.

Subpart 27.4—Rights in Data and Copyrights

SOURCE: 52 FR 18140, May 13, 1987, unless otherwise noted.

27.400 Scope of subpart.

(a) The policy statement in 27.402 applies to all executive agencies. The remainder of the subpart sets forth civilian agency and National Aeronautics and Space Administration (NASA) policies, procedures, and instructions with respect to (1) rights in data and copyrights and (2) acquisition of data. However, these policies, procedures, and instructions are not required to be applicable to NASA solicitations until December 31, 1987 (or until such other date as the NASA FAR Supplement is revised to accommodate the policies, procedures, and instructions contained in this subpart). Due to the special mission needs of the Department of Defense (DOD) and as required by 10 U.S.C. 2320, the remainder of the DOD policies, procedures, and instructions with respect to rights in data and copyrights and acquisition of data are contained in the DOD FAR Supplement (DFARS).

(b) Civilian agencies other than NASA shall implement section 203 of Public Law 98-577 pertaining to validation of proprietary data restrictions.

[52 FR 18140, May 13, 1987, as amended at 54 FR 34755, Aug. 21, 1989]

27.401 Definitions.

Computer software, as used in this subpart, means computer programs, computer data bases, and documentation thereof.

Data, as used in this subpart, means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to contract administration, such as financial, administrative, cost or pricing or management information.

Form, fit, and function data, as used in this subpart, means data relating to items, components, processes that are sufficient to enable physical and functional interchangeability, as well as data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements; except that for computer software it means data identifying source, functional characteristics, and performance requirements, but specifically excludes the source code, algorithm, process, formulae, and flow charts of the software.

Limited rights, as used in this subpart, means the rights of the Government in limited rights data, as set forth in a Limited Rights Notice if included in a data rights clause of the contract.

Limited rights data, as used in this subpart, means data, other than computer software, that embody trade secrets or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications thereof. (Agencies may, however, adopt the following alternate definition:

Limited rights data, as used in this subpart, means data developed at private expense that embody trade secrets or are commercial or financial and confidential or privileged (see 27.404(c).)

Restricted computer software, as used in this subpart, means computer software developed at private expense and that is a trade secret; is commercial or financial and confidential or privileged; or is published copyrighted computer software; including minor modifications of such computer software.

stricted rights, as used in this sub- , means the rights of the Govern- t in restricted computer software et forth in a Restricted Rights ce, if included in a data rights se of the contract, or as otherwise be included or incorporated in the ract.

chnical data, as used in this sub- , means data other than computer vare, which are of a scientific or nical nature.

limited rights, as used in this sub- , means the rights of the Govern- t to use, disclose, reproduce, pre- derivative works, distribute copies he public, and perform publicly display publicly, in any manner for any purpose, and to have or it others to do so.

2 Policy.

It is necessary for the depart- ts and agencies, in order to carry heir missions and programs, to ac- e or obtain access to many kinds ta produced during or used in the ormance of their contracts. Agen- require such data to: obtain com- ion among suppliers; fulfill cer- responsibilities for disseminating publishing the results of their ac- es; ensure appropriate utilization he results of research, develop- , and demonstration activities in- ng the dissemination of technical mation to foster subsequent tech- gical developments; and meet r programmatic and statutory re- ments. Further, for defense pur- , such data are also required by cies to meet specialized acquisi- needs and ensure logistics sup-

At the same time, the Govern- recognizes that its contractors have a legitimate proprietary in- t (e.g., a property right or other economic interest) in data result- rom private investment. Protec- of such data from unauthorized and disclosure is necessary in to prevent the compromise of property right or economic inter- void jeopardizing the contractor's ercial position, and preclude im- ent of the Government's ability ain access to or use of such data. protection of such data by the Government is also necessary to encourage qualified contractors to participate in Government programs and apply innovative concepts to such programs. In light of the above considerations, in applying these policies, agencies shall strike a balance between the Government's need and the contractor's legitimate proprietary interest.

27.403 Data rights—general.

All contracts that require data to be produced, furnished, acquired or specifically used in meeting contract performance requirements, must contain terms that delineate the respective rights and obligations of the Government and the contractor regarding the use, duplication, and disclosure of such data, except certain contracts resulting from sealed bidding or similar situations which require only existing data (other than limited rights data and restricted computer software) to be delivered and reproduction rights are not needed for such data. As a general rule the data rights clause at 52.227-14, Rights in Data—General, including *Alternates I, II, III, IV, and V,* where determined to be appropriate as discussed in 27.404, is to be used for that purpose. However, in certain contracts either the particular subject matter of the contract or the intended use of the data may require the use of other prescribed clauses, or may not require the use of any prescribed clause, as discussed in 27.405 and 27.408. Also, in selecting a data rights clause, it is important to note that any such clause does not specify the data (in terms of type, quantity or quality) that is to be delivered, but only the respective rights of the Government and the contractor to use, disclose, or reproduce such data. Accordingly, the contract should also include appropriate terms to specify the data to be delivered.

27.404 Basic rights in data clause.

(a) *Unlimited rights data.* Under the clause at 52.227-14, Rights in Data—General, the Government acquires unlimited rights in the following data (except as provided in paragraph (f) of this section for copyrighted data): (1)

Data first produced in the performance of a contract (except to the extent such data constitute minor modifications to data that are limited rights data or restricted computer software); (2) form, fit, and function data delivered under contract; (3) data (except as may be included with restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under a contract; and (4) all other data delivered under the contract other than limited rights data or restricted computer software (see paragraph (b) of this section). If any of the foregoing data are published copyrighted data with the notice of 17 U.S.C. 401 or 402, the Government acquires them under a copyright license, as set forth in paragraph (f) of this section, rather than with unlimited rights.

(b) *Limited rights data and restricted computer software.* The clause at 52.227-14, Rights in Data—General, enables the contractor to protect qualifying limited rights data and restricted computer software by withholding such data from delivery to the Government and delivering form, fit, and function data in lieu thereof. However, when an agency has a need to obtain delivery of limited rights data or restricted computer software, the clause may be used with its *Alternates II or III,* as set forth in paragraphs (d) and (e) of this section. These alternatives enable a contracting officer to selectively request the delivery of such data with limited rights or restricted rights, either by specifying such delivery in the contract or by specific request.

(c) *Alternate definition of limited rights data.* In the clause at 52.227-14, Rights in Data—General, in order for data to qualify as limited rights data, in addition to being data that either embody a trade secret or are data that are commercial or financial and confidential or privileged, such data must also pertain to items, components, or processes developed at private expense, including minor modifications thereof. However, for contracts that do not require the development, use or delivery of items, components or processes that are intended to be acquired by or for the Government, an agency may adopt for general use or for use in specific circumstances the alternate definition of limited rights data set forth in *Alternate I.* The alternate definition does not require that such data pertain to items, components, or processes developed at private expense; but rather that such data were developed at private expense and embody a trade secret or are commercial or financial and confidential or privileged.

(d) *Protection of limited rights data specified for delivery.* (1) Contracting officers are authorized to modify the clause at 52.227-14, Rights in Data—General, by use of *Alternate II,* which *Alternate* adds subparagraph (g)(2) to the clause to enable the Government to require delivery of limited rights data rather than allowing the contractor to withhold such data. To obtain such delivery, the contract may identify and specify data to be delivered, or the contracting officer may require, by written request during contract performance, the delivery of data that has been withheld or identified as withholdable under subparagraph (g)(1) of the clause at 52.227-14 Rights in Data—General. In addition, if agreed to during negotiations, the contract may specifically identify data that are not to be delivered under *Alternate II* or which, if delivered, will be delivered with limited rights. The limited rights obtained by the Government are set forth in the Limited Rights Notice contained in subparagraph (g)(2) (*Alternate II*). Such limited rights data will not, without permission of the contractor, be used by the Government for purposes of manufacture, and will not be disclosed outside the Government except for certain specific purposes as may be set forth in the Notice, and then only if the Government makes the disclosure subject to prohibition against further use and disclosure by the recipient. The following are examples of specific purposes which may be adopted by an agency in its supplement and added to the Limited Rights Notice of subparagraph (g)(2) of the clause (*Alternate II*):

(i) Use (except for manufacture) by
pport service contractors.
(ii) Evaluation by nongovernment
aluators.
(iii) Use (except for manufacture) by
her contractors participating in the
overnment's program of which the
ecific contract is a part, for informa-
on and use in connection with the
ork performed under each contract.
(iv) Emergency repair or overhaul
ork.
(v) Release to a foreign government,
instrumentality thereof, as the in-
rests of the United States Govern-
ent may require, for information or
aluation, or for emergency repair or
erhaul work by such government.
(2) As an aid in determining whether
e clause at 52.227-14 should be used
th its *Alternate II*, the provision at
.227-15, Representation of Limited
ghts Data and Restricted Computer
ftware, may be included in any so-
itation containing the clause at
.227-14, Rights in Data—General.
is representation requests that an
feror state in response to a solicita-
on, to the extent feasible, whether
nited rights data are likely to be
ed in meeting the data delivery re-
irements set forth in the solicita-
on. In addition, the need for *Alter-*
te II should be considered during
gotiations or discussion with an of-
ror, particularly where negotiations
e based on an unsolicited proposal.
wever, use of the clause at 52.227-
, Rights in Data—General, without
ernate II does not preclude this *Al-*
nate from being used subsequently
modification during contract per-
mance, should the need arise for
livery of limited rights data that
ve been withheld or identified as
hholdable.
3) Whenever data that would qual-
as limited rights data, if it were to
delivered in human readable form,
formatted as a computer data base
the purpose of delivery under a
tract containing the clause at
227-14, Rights in Data—General,
h data is to be treated as limited
its data, rather than restricted
nputer software, for the purposes of
agraph (g) of that clause.
) *Protection of restricted computer*
ware specified for delivery. (1)

Contracting officers are authorized to modify the clause at 52.227-14, Rights in Data—General, by use of *Alternate III*, which *Alternate* adds subparagraph (g)(3) to the clause to enable the Government to require delivery of restricted computer software rather than allowing the contractor to withhold such restricted computer software. To obtain such delivery, the contract may identify and specify the computer software to be delivered, or the contracting officer may require by written request during contract performance, the delivery of computer software that has been withheld or identified as withholdable under subparagraph (g)(1) of the clause. In addition, if agreed to during negotiations, the contract may specifically identify computer software that are not to be delivered under *Alternate III* or which, if delivered, will be with restricted rights. In considering whether to use the clause at 52.227-14 with its *Alternate III*, it should be particularly noted that unlike other data, computer software is also an end item in itself, such that if withheld and form, fit, and function data provided in lieu thereof, an operational program will not be acquired. Thus, if delivery of restricted computer software is anticipated to be needed to meet contract performance requirements, the contracting officer should assure that the clause is used with its *Alternate III*. Unless otherwise agreed to (see paragraph (e)(2) of this section) the restricted rights obtained by the Government are set forth in the Restricted Rights Notice contained in subparagraph (g)(3) (*Alternate III*). Such restricted computer software will not be used or reproduced by the Government, or disclosed outside the Government, except that the computer software may be—

(i) Used or copied for use in or with the computer or computers for which it was acquired, including use at any Government installation to which such computer or computers may be transferred;

(ii) Used or copied for use in or with a backup computer if any computer for which it was acquired becomes inoperative;

(iii) Reproduced for safekeeping (archives) or backup purposes;

(iv) Modified, adapted, or combined with other computer software, provided that the modified, combined, or adapted portions of any derivative software incorporating restricted computer software are made subject to the same restricted rights;

(v) Disclosed to and reproduced for use by support service contractors, subject to the same restriction under which the Government acquired the software;

(vi) Used or copied for use in or transferred to a replacement computer; and

(vii) Used in accordance with subdivisions (e)(1) (i) through (v) of this section, without disclosure prohibitions, if the computer software is published copyrighted computer software.

(2) The restricted rights set forth in subparagraph (e)(1) of this section are the minimum rights the Government normally obtains with restricted computer software and will automatically apply when such software is acquired under the Restricted Rights Notice of subparagraph (g)(3) (*Alternate III*) of the clause. However, either greater or lesser rights, consistent with the purposes and needs for which the software is to be acquired, may be specified by the contracting officer in a particular contract or prescribed in agency regulations. For example, consideration should be given to any networking needs or any requirements for use of the computer software from remote terminals. Also, in addressing such needs, the scope of the restricted rights may be different for the documentation accompanying the computer software than for the programs and data bases. Any additions to, or limitations on, the restricted rights set forth in the Restricted Rights Notice of subparagraph (g)(3) of the clause are to be expressly stated in the contract or in a collateral agreement incorporated in and made part of the contract, and the notice modified accordingly.

(3) As an aid in determining whether the clause should be used with its *Alternate III*, the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, may be included in any solicitation containing the clause at 52.227-14, Rights in Data—General. This representation requests that an offeror state, in response to a solicitation, to the extent feasible, whether restricted computer software is likely to be used in meeting the data delivery requirements set forth in the solicitation. In addition, the need for *Alternate III* should be considered during negotiations or discussions with an offeror, particularly where negotiations are based on an unsolicited proposal. However, use of the clause at 52.227-14, Rights in Data—General, without *Alternate III* does not preclude this *Alternate* from being used subsequently by modification during contract performance, should the need arise for the delivery of restricted computer software that has been withheld or identified as withholdable.

(f) *Copyrighted data.*—(1) *Data first produced in the performance of a contract.* (i) In order to enhance the transfer or dissemination of information produced at Government expense, contractors are normally authorized, without prior approval of the contracting officer, to establish claim to copyright subsisting in technical or scientific articles based on or containing data first produced in the performance of work under a contract containing the clause at 52.227-14, Rights in Data—General and published in academic, technical or professional journals, symposia proceedings and similar works. Otherwise, the permission of the contracting officer is required in accordance with subdivision (f)(1)(ii) of this section or any applicable agency regulations, to establish claim to copyright subsisting in data first produced in the performance of a contract unless the clause is used with its *Alternate IV* in accordance with subdivision (f)(1)(iii) of this section. Agencies may, however, restrict copyright under certain circumstances in accordance with subparagraph (g)(3) of this section.

(ii) Usually, permission for a contractor to establish claim to copyright subsisting in data first produced under the contract will be granted when copyright protection will enhance the appropriate transfer or dissemination of such data and the commercialization of products or processes to which it pertains. The request for permission must be made in writing, and may be made either prior to contract award or subsequently during contract performance. It should identify the data involved or furnish copies of the data for which permission is requested, as well as a statement as to the intended publication or dissemination media or other purpose for which copyright is desired. The request normally will be granted unless—(A) the data consist of a report that represents the official views of the agency or that the agency is required by statute to prepare; (B) the data are intended primarily for internal use by the Government; (C) the data are of the type that the agency itself distributes to the public under an agency program; (D) the Government determines that limitation on distribution of the data is in the national interest; (E) the Government determines that the data should be disseminated without restriction.

(iii) An *Alternate IV* is provided for use with the clause at 52.227-14, Rights in Data—General, which *Alternate* provides a substitute subparagraph (c)(1) in the clause granting blanket permission for contractors to establish claim to copyright subsisting in all data first produced in the performance of the contract without further request being made by the contractor. *Alternate IV* shall be used in all contracts for basic or applied research (other than those for management or operation of Government facilities and in contracts and subcontracts in support of programs being conducted at such facilities or where international agreements require otherwise) to be performed solely by colleges and universities. *Alternate IV* will not be used in contracts with colleges and universities if a purpose of the contract is for development of computer software for distribution to the public (including use in solicitations) by or on behalf of the Government. In addition, *Alternate IV* may be used in other contracts if an agency determines to grant blanket permission for contractors to establish claim to copyright subsisting in all data first produced in the performance of contract without further request being made by the contractor. In any contract where *Alternate IV* is used, the contract may exclude any data, items or categories of data from the blanket permission granted, either by express provisions in the contract or by the addition of a subparagraph (d)(3) to the clause, consistent with subparagraph (g)(3) of this section.

(iv) Whenever a contractor establishes claim to copyright subsisting in data (other than computer software) first produced in the performance of a contract, the Government is granted a paid-up nonexclusive, irrevocable, worldwide license to reproduce, prepare derivative works, distribute to the public, perform publicly and display publicly by or on behalf of the Government, for all such data, as set forth in subparagraph (c)(1) of the clause at 52.227-14, Rights in Data—General. For computer software the scope of the Government's license does not include the right to distribute to the public. Agencies may also, either on a case-by-case basis, or on a class basis if provided in implementing regulations, obtain a license of different scope than set forth in subparagraph (c)(1) of the clause if the agency determines that such different license will substantially enhance the transfer or dissemination of any data first produced under the contract, and will not interfere with the Government's use of the data as contemplated by the contract or if required for international agreements. If an agency obtains such a different license, the scope of that license shall be clearly stated in a conspicuous place on the medium on which the data is recorded. That is, if a report, the scope of the different license shall be put on the cover, or first page, of the report. If computer software, the scope of the different license shall be placed on the most conspicuous place available.

(v) Whenever a contractor establishes claim to copyright in data first produced in the performance of a contract, irrespective of which *Alternate* is used with the clause or the scope of the Government's license, the contractor is required to affix the applicable copyright notices of 17 U.S.C. 401 or 402, and acknowledgment of Government sponsorship (including the contract number) to the data whenever such data are delivered to the Government, published, or deposited for registration as a published work in the U.S. Copyright Office. Failure to do so could result in such data being treated as unlimited rights data (see paragraph (i) of this section).

(2) *Data not first produced in the performance of a contract.* (i) Contractors are not to incorporate in data delivered under a contract any data that is not first produced under the contract and that is marked with the copyright notice of 17 U.S.C. 401 or 402, without either (A) acquiring for or granting to the Government certain copyright license rights for the data, or (B) obtaining permission from the contracting officer to do otherwise. The copyright license the Government acquires for such data will normally be of the same scope as discussed in subdivision (f)(1)(iv) of this section, and is set forth in subparagraph (c)(2) of the clause at 52.227-14, Rights in Data—General. However, agencies may, on a case-by-case basis, or on a class basis if provided in implementing agency regulations, obtain a license of different scope if the agency determines that such different license will not be inconsistent with the purpose of acquiring the data. If a license of a different scope is acquired, it must be so stated in the contract and clearly set forth in a conspicuous place on the data when delivered to the Government. In addition, if computer software not first produced under a contract is delivered with the copyright notice of 17 U.S.C. 401, the Government's license will be as set forth in subparagraph (g)(3) (*Alternate III*) if included in the clause at 52.227-14, Rights in Data—General; or as otherwise may be provided in a collateral agreement incorporated in or made part of the contract.

(ii) Contractors delivering data with both an authorized limited rights or restricted rights notice and the copyright notice of 17 U.S.C. 401 or 402 should modify the copyright notice to include the following (or similar) statement: *Unpublished—all rights reserved under the copyright laws of the United States.* If this statement is omitted, the contractor may be afforded an opportunity to correct it in accordance with paragraph (h) of this section. Otherwise, data delivered with a copyright notice of 17 U.S.C. 401 or 402 may be presumed to be published copyrighted data subject to the applicable license rights set forth in subdivision (f)(2)(i) of this section, without disclosure limitations or restrictions.

(iii) If contractor action causes limited rights or restricted rights data to be published with the copyright notice of 17 U.S.C. 401 or 402 after its delivery to the Government, the Government is relieved of disclosure and use limitations and restrictions regarding such data, and the contractor should advise the Government, request that a copyright notice be placed on the copies of the data delivered to the Government and acknowledge that the applicable copyright license set forth in subdivision (f)(2)(i) of this section applies.

(g) *Release, publication, and use of data.* (1) In paragraph (d) of the clause at 52.227-14, Rights in Data—General, subparagraph (d)(1) recognizes the fact that normally the contractor has the right to use, release to others, reproduce, distribute, or publish data first produced in the performance of a contract, except to the extent such data may be subject to Federal export control or to national security laws or regulations. In addition, to the extent the contractor receives or is given access to data that is necessary for the performance of the contract from or by the Government or others acting on behalf of the Government, and the data contains restrictive markings, subparagraph (d)(2) provides an agreement with the contractor to treat the data in accordance with the markings, unless otherwise specifically authorized by the contracting officer.

(2) In contracts for basic or applied research with universities or colleges, no restrictions may be placed upon the conduct of or reporting on the results of unclassified basic or applied research, except as provided in applicable U.S. Statutes. For the purposes of this subparagraph, agency restrictions on the release or disclosure of computer software that has been, readily can be, or is intended to be, developed to the point of practical application (including for agency distribution under

established programs) are not considered restrictions on the reporting of the results of basic or applied research. Agencies may also restrict claim to copyright in any computer software for purposes of established agency distribution programs, or where required to accomplish the purpose for which the software is produced.

(3) Except for the results of basic or applied research under contracts with universities or colleges, agencies may, to the extent provided in their FAR supplements, place limitations or restrictions on the contractor's right to use, release to others, reproduce, distribute, or publish any data first produced in the performance of the contract, including a requirement to assign copyright to the Government or another party, either by adding a subparagraph (d)(3) to the Rights in Data—General clause at 52.227-14, or by express limitations or restrictions in the contract. In the latter case, the limitations or restrictions should be referenced in the Rights in Data—General clause. However, such regulatory restrictions or limitations are not to be imposed unless they are determined by the agency to be necessary in the furtherance of agency mission objectives, needed to support specific agency programs, or necessary to meet statutory requirements. Notwithstanding the provisions of this subparagraph, agencies may obtain, if provided in their FAR supplement, for information purposes only, advance copies of articles intended for publication in academic, scientific or technical journals or symposia proceedings or similar works.

(h) *Unauthorized marking of data.* Except for validation of restrictive markings on technical data under contracts for major systems, or for support of major systems, by agencies subject to the provisions of Title III of the Federal Property and Administrative Services Act of 1949, the Government has, in accordance with paragraph (e) of the clause at 52.227-14, Rights in Data—General, the right to either return to the contractor data containing markings not authorized by that clause, or to cancel or ignore such markings. However, markings will not be canceled or ignored without making written inquiry of the contractor and affording the contractor at least 30 days to provide a written justification to substantiate the propriety of the markings. Failure of the contractor to respond, or failure to provide a written justification to substantiate the propriety of the markings within the time afforded, may result in the Government's action to cancel or ignore the markings. If the contractor provides a written justification to substantiate the propriety of the markings, it will be considered by the contracting officer and the contractor notified of any determination based thereon. If the contracting officer determines that the markings are authorized, the contractor will be so notified in writing. Further, if the contracting officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, the contractor will be furnished a written determination which shall become the final agency decision regarding the appropriateness of the markings and the markings will be cancelled or ignored and the data will no longer be made subject to disclosure prohibitions, unless the contractor files suit within 90 days in a court of competent jurisdiction. In any event, the markings will not be cancelled or ignored unless the contractor fails to respond within the period provided, or, if the contractor does respond, until final resolution of the matter, either by the contracting officer's determination becoming the final agency decision or by final disposition of the matter by court decision if suit is filed. The foregoing procedures may be modified in accordance with agency regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request thereunder. In addition, the contractor is not precluded from bringing a claim under the Contract Disputes Act, including pursuant to the Disputes clause of this contract if applicable, that may arise as the result of the Government's action to remove or ignore any markings on data, unless such action occurs as the result of a final disposition of the matter by a court of competent jurisdiction.

(i) *Omitted or incorrect notices.* (1) Data delivered under a contract containing the clause at 52.227-14, Rights in Data—General, without a limited rights notice or restricted rights notice, and without a copyright notice, will be presumed to have been delivered with unlimited rights, and the Government assumes no liability for the disclosure, use, or reproduction of such data. However, to the extent the data has not been disclosed without restriction outside the Government, the contractor may within 6 months (or a longer period approved by the contracting officer for good cause shown) request permission of the contracting officer to have omitted limited rights or restricted rights notices, as applicable, placed on qualifying data at the contractor's expense, and the contracting officer may agree to so permit if the contractor (i) identifies the data for which a notice is to be added or corrected, (ii) demonstrates that the omission of the proposed notice was inadvertent, (iii) establishes that use of the proposed notice is authorized, and (iv) acknowledges that the Government has no liability with respect to any disclosure or use of any such data made prior to the addition of the notice or resulting from the omission of the notice.

(2) The contracting officer may also (i) permit correction, at the contractor's expense, of incorrect notices if the contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized, or (ii) correct any incorrect notices.

(j) *Inspection of data at the contractor's facility.* Contracting officers may obtain the right to inspect data at the contractor's facility by use of *Alternate V*, which adds paragraph (j) to provide that right in the clause at 52.227-14, Rights in Data—General. Agencies may also adopt *Alternate V* for general use. The data subject to inspection may be data withheld or withholdable under subparagraph (g)(1) of the clause. Such inspection may be made by the contracting officer or designee (including nongovernmental personnel under the same conditions as the contracting officer) for the purpose of verifying a contractor's assertion regarding the limited rights or restricted rights status of the data, or for evaluating work performance under the contract. This right may be exercised up to 3 years after acceptance of all items to be delivered under the contract. The contract may specify data items that are not subject to inspection under paragraph (j) (*Alternate V*). If the contractor demonstrates to the contracting officer that there would be a possible conflict of interest if inspection were made by a particular representative, the contracting officer shall designate an alternate representative.

27.405 Other data rights provisions.

(a) *Production of special works*. (1) The clause at 52.227-17, Rights in Data—Special Works, is to be used in contracts (or may be made applicable to portions thereof) that are primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's own use, or when there is a specific need to limit distribution and use of the data and/or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples are contracts for—

(i) The production of audiovisual works, including motion pictures or television recordings with or without accompanying sound, or for the preparation of motion picture scripts, musical compositions, sound tracks, translation, adaptation, and the like;

(ii) Histories of the respective agencies, departments, services, or units thereof;

(iii) Surveys of Government establishments;

(iv) Works pertaining to the instruction or guidance of Government officers and employees in the discharge of their official duties;

(v) The compilation of reports, books, studies, surveys, or similar documents that do not involve research, development, or experimental work;

(vi) The collection of data containing personally identifiable information such that the disclosure thereof would violate the right of privacy or publicity of the individual to whom the information relates;

(vii) Investigatory reports; or

(viii) The development, accumulation, or compilation of data (other than that resulting from research, development, or experimental work performed by the contractor), the early release of which could prejudice follow-on acquisition activities or agency regulatory or enforcement activities.

(2) The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released, or reproduced other than for contract performance. Contracts for the production of audiovisual works, sound recordings, etc., may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the works are acquired.

(3) Subdivision (c)(1)(ii) of the clause at 52.227-17, Rights in Data—Special Works, which enables the Government to obtain assignment of copyright in any data first produced in the performance of the contract, may be deleted if the contracting officer determines that such assignment is not needed to further the objectives of the contract.

(4) Paragraph (e) of the clause, which requires the contractor to indemnify the Government against any liability incurred as the result of any violation of trade secrets, copyrights, right of privacy or publicity, or any libelous or other unlawful matter arising out of or contained in any production or compilation of data that are subject to the clause, may be deleted or limited in scope where the contracting officer determines that, because of the nature of the particular data involved, such liability will not arise.

(5) When the audiovisual or other special works are produced to accomplish a public purpose other than acquisition for the Government's own use (such as for production and distribution to the public of such works by other than a Federal agency) agencies are authorized to modify the Rights in Data—Special Works clause for use in such contracts, with rights in data provisions which meet agency mission needs yet protect free speech and freedom of expression, as well as the artistic license of the creator of the work.

(b) *Rights relating to existing data other than limited rights data*—(1) *Acquisition of existing audiovisual and similar works.* The clause at 52.227-18, Rights in Data—Existing Works, is for use in contracts exclusively for the acquisition (without modification) of existing motion pictures, television recordings, and other audiovisual works; sound recordings; musical, dramatic, and literary works; pantomimes and choreographic works; pictorial, graphic, and sculptural works; and works of a similar nature. The contract may set forth limitations consistent with the purposes for which the works covered by the contract are being acquired. Examples of these limitations are (i) means of exhibition or transmission, (ii) time, (iii) type of audience, and (iv) geographical location. If the contract requires that works of the type indicated in subparagraph (b)(1) of this section are to be modified through editing, translation, or addition of subject matter, etc. (rather than purchased in existing form) the clause at 52.227-17, Rights in Data—Special Works, is to be used. (See paragraph (a) of this section.)

(2) *Acquisition of existing computer software.* (i) When contracting other than from GSA's Multiple Award Schedule contracts for the acquisition of existing computer software (i.e., privately developed software normally vended commercially under a license or lease agreement restricting its use, disclosure, or reproduction), no specific contract clause prescribed in this subpart need be used, but the contract (or purchase order) must specifically address the Government's rights to use, disclose and reproduce the software, which rights must be sufficient for the Government to fulfill the need for which the software is being acquired. Such rights may be negotiated and set forth in the contract using the guidance concerning restricted rights as set forth in 27.404(e), or the clause at 52.227-19, Commercial Computer Software—Restricted Rights, may be used. Restricted computer software acquired under GSA Multiple Award Schedule contracts and orders are ex-

cluded from this requirement. The guidance concerning rights set forth in 27.404(e), as well as those in the clause at 52.227-19, are the minimum rights the Government usually should accept. Thus if greater rights than these minimum rights are needed, or lesser rights are to be acquired, they must be negotiated and set forth in the contract (or purchase order). This includes any additions to, or limitations on, the rights set forth in paragraph (b) of the clause at 52.227-19 when used. Examples of greater rights may be those necessary for networking purposes or use of the software from remote terminals communicating with a host computer where the software is located. If the computer software is to be acquired with unlimited rights, the contract must also so state. In addition, the contract must adequately describe the computer programs and/or data bases, the form (tapes, punch cards, disk pack, and the like), and all the necessary documentation pertaining thereto. If the acquisition is by lease or license, the disposition of the computer software (by returning to the vendor or destroying) at the end of the term of the lease or license must be addressed.

(ii) If the contract incorporates, makes reference to, or uses a vendor's standard commercial lease, license, or purchase agreement, such agreement shall be reviewed to assure that it is consistent with subdivision (b)(2)(i) of this section. Caution should be exercised in accepting a vendor's terms and conditions, since they may be directed to commercial sales and may not be appropriate for Government contracts. Any inconsistencies in a vendor's standard commercial agreement shall be addressed in the contract and the contract terms shall take precedence over the vendor's standard commercial agreement. If the clause at 52.227-19, Commercial Computer Software—Restricted Rights, is used, inconsistencies in the vendor's standard commercial agreement regarding the Government's right to use, duplicate or disclose the computer software are reconciled by that clause.

(iii) If a prime contractor under a contract containing the clause at 52.227-14, Rights in Data—General, with subparagraph (g)(3) (*Alternate III*) in the clause, acquires restricted computer software from a subcontractor (at any tier) as a separate acquisition for delivery to or for use on behalf of the Government, the contracting officer may approve any additions to, or limitations on the restricted rights in the Restricted Rights Notice of subparagraph (g)(3) in a collateral agreement incorporated in and made part of the contract.

(3) *Other existing data and works.* Except for existing audiovisual and similar works pursuant to subparagraph (b)(1) of this section, and existing computer software pursuant to subparagraph (b)(2) of this section, no clause contained in this subpart is required to be included in (i) contracts solely for the acquisition of books, periodicals, and other printed items in the exact form in which such items are to be obtained unless reproduction rights are to be acquired; or (ii) other contracts (e.g., contracts resulting from sealed bidding) that require only existing data (other than limited rights data) to be delivered and such data are available without disclosure prohibitions, unless reproduction rights to the data are to be obtained. If the reproduction rights to the data are to be obtained in any contract of the type described in subdivision (b)(3) (i) or (ii) of this section, such rights must be specifically set forth in the contract. No clause contained in this subpart is required to be included in contracts substantially for on-line data base services in the same form as they are normally available to the general public.

(c) *Contracts awarded under Small Business Innovative Research (SBIR) Program.* The clause at 52.227-20, Rights in Data—SBIR Program, is for use in all Phase I and Phase II contracts awarded under the Small Business Innovative Research Program (SBIR) established pursuant to Pub. L. 97-219 (the Small Business Innovation Development Act of 1982). The clause is limited to use solely in contracts awarded under the SBIR Program, and is the only data rights clause to be used in such contracts.

27.406 Acquisition of data.

(a) *General.* (1) It is the Government's practice to determine, to the extent feasible, its data requirements in time for inclusion in solicitations. The data requirements may be subject to revision during contract negotiations. Since the preparation, reformatting, maintenance and updating, cataloging, and storage of data represents an expense to both the Government and the contractor, efforts should be made to keep the contract data requirements to a minimum, consistent with the purposes of the contract.

(2) To the extent feasible, all known data requirements, including the time and place for delivery and any limitations and restrictions to be imposed on the contractor in the handling of the data, shall be specified in the contract. Further, and to the extent feasible, in major system acquisitions, data requirements shall be set out as separate contract line items. In establishing the contract data requirements and in specifying data items to be delivered by a contractor, agencies may, consistent with subparagraph (a)(1) of this section, develop their own contract schedule provisions in agency procedures (including data requirements lists) for listing, specifying, identifying source, assuring delivery, and handling any data required to be delivered, first produced, or specifically used in the performance of the contract.

(3) Data delivery requirements should normally not require that a contractor provide the Government, as a condition of the procurement, unlimited rights in data that qualify as limited rights data or restricted computer software. Rather, form, fit, and function data may be furnished with unlimited rights in lieu of the qualifying data, or the qualifying data may be furnished with limited rights or restricted rights if needed (see 27.404 (d) and (e)). If greater rights are needed such need should be clearly set forth in the solicitation and the contractor fairly compensated for such greater rights.

(b) *Additional data requirements.* (1) Recognizing that in some contracting situations, such as experimental, developmental, research, or demonstration contracts, it may not be feasible to ascertain all the data requirements at the time of contracting, the clause at 52.227-16, Additional Data Requirements, may be used to enable the subsequent ordering by the contracting officer of additional data first produced or specifically used in the performance of such contracts as the actual requirements become known. The clause shall normally be used in solicitations and contracts involving experimental, developmental, research or demonstration work (other than basic or applied research to be performed under a contract solely by a university or college when the contract amount will be $500,000 or less) unless all the requirements for data are believed to be known at the time of contracting and specified in the contract. If the contract is for basic or applied research to be performed by a university or college, and the contracting officer believes the contract effort will in the future exceed $500,000, even though the initial award does not, the contracting officer may include the clause in the initial award.

(2) Data may be ordered under the clause at 52.227-16, Additional Data Requirements, at any time during contract performance or within a period of 3 years after acceptance of all items to be delivered under the contract. The contractor is to be compensated for converting the data into the prescribed form, for reproduction, and for delivery. In order to minimize storage costs for the retention of data, the contractor may be relieved of retention requirements for specified data items by the contracting officer at any time during the retention period required by the clause. The contracting officer may permit the contractor to identify and specify in the contract data not to be ordered for delivery under the Additional Data Requirements clause if such data is not necessary to meet the Government's requirements for data. Also, the contracting officer may alter the Additional Data Requirements clause by deleting the term *or specifically used* in paragraph (a) thereof if delivery of such data is not necessary to meet the Government's requirements for data. Any data ordered under this clause will be subject to the Rights in Data—

General clause (or other equivalent clause setting forth the respective rights of the Government and the contractor) in the contract, and data authorized to be withheld under such clause will not be required to be delivered under the Additional Data Requirements clause, except as provided in *Alternate II* or *Alternate III*, if included in the clause (see 27.404 (d) and (e)).

(3) Agencies not having an established program for dissemination of computer software shall give consideration to not ordering additional computer software under the clause at 52.227-16, Additional Data Requirements, for the sole purpose of disseminating or marketing of the software to the public especially if this will provide the contractor additional incentive to make improvements to the software at its own expense and disseminate or market it. This should not preclude an agency from including a summary description of computer software available from a contractor in any data dissemination programs which it operates, with a statement as to how the potential user can obtain it through the contractor, licensee, or assignee. In cases where the contracting officer orders software for internal purposes, consideration shall be given, consistent with the Government's needs, to not ordering particular source codes, algorithms, processes, formulae or flow charts of the software if the contractor shows that this aids its efforts to disseminate or market the software.

(c) *Acceptance of data.* Acceptability of technical data delivered under a contract shall be in accordance with the appropriate contract clause as required by subpart 46.3, and the clause at 52.227-21, Technical Data Certification, Revision, and Withholding of Payment—Major Systems, when it is included in the contract. (See paragraph (d) of this section.)

(d) *Major system acquisition.* (1) In order to assure that technical data needed to support a major system acquisition are timely delivered and are complete, accurate, and satisfy the requirements of the contract concerning the data, the clause at 52.227-21, Technical Data Certification, Revision, and Withholding of Payment—Major Systems, is to be included in contracts for or in support of a major system (as the term *major system* is defined in section 4 of the Office of Federal Procurement Policy Act, as amended by Pub. L. 98-577), including every detailed design, development, or production contract for a major system acquisition and contracts for any individual part, component, subassembly, assembly, or subsystem integral to the major system, and other property which may be replaced during the service life of the system, and including spare parts and replenishment spare parts.

(2) The clause at 52.227-21, Technical Data, Certification, Revision, and Withholding of Payment—Major Systems, requires the contractor, upon delivery of any technical data made subject to the clause in the contract, to certify that to the best of its knowledge and belief, such data are complete, accurate, and comply with contract requirements. It also provides for corrections of any deficiencies in the data, as well as for the ability of the contracting officer to request revisions of the data to reflect engineering design changes made during performance of the contract and affecting form, fit, and function of the items the data depict. Further included is the authority for the contracting officer to withhold payment under the contract to assure timely delivery of the technical data and/or assure correction if the technical data are not complete, accurate, and in compliance with contract requirements.

(3) When the clause at 52.227-21, Technical Data, Certification, Revision and Withholding of Payment—Major Systems, is used, the section of the contract specifying data delivery requirements (see subparagraph (a)(2) of this section) shall expressly identify those line items of technical data to which the clause applies. Upon delivery of such technical data, the contracting officer or designee shall review the technical data and the contractor's certification relating thereto to assure that the data are complete, accurate, and comply with contract requirements. If not, the contractor is to be requested to correct the deficien-

es, and payment may be withheld
ntil such is done. Final payment
ould not be made under the contract
ntil it has been determined that the
livery requirements of those line
ems of data to which the clause ap-
ies have been satisfactorily met.
(4) In a contract for or in support of
major system awarded by a civilian
ency other than NASA or the U.S.
oast Guard the contracting officer
all include contractual provisions re-
iring, as an element of performance
der the contract, the delivery of any
chnical data, other than computer
ftware, relating to the major system
supplies for the major system pro-
red or to be procured by the Gov-
nment, which are to be developed
clusively with Federal funds in the
rformance of the contract if the de-
ery of such technical data is needed
ensure the competitive acquisition
supplies or services that will be re-
ired in substantial quantities in the
ture. The clause at 52.227-22, Major
stem—Minimum Rights, is to be in-
uded in such contracts in addition to
e clause at 52.227-14, Rights in
ata—General, and other required
auses, to ensure that the Govern-
ent acquires at least those rights re-
ired by Pub. L. 98-577 in technical
ta developed exclusively with Feder-
funds. In any contract to which this
bparagraph (d)(4) applies, technical
ta, other than computer software,
lating to a major system or supplies
r a major system, procured or to be
ocured by the Government and also
lating to the design, development, or
anufacture of products or processes
fered or to be offered for sale to the
blic (except for such data as may be
cessary for the Government to oper-
e or maintain the product, or use the
ocess if obtained by the United
ates as an element of performance
der the contract), shall not be re-
ired to be provided to the Govern-
nt from persons who have devel-
ed such products or processes as a
ndition for the procurement of such
oducts or processes by the Govern-
nt.

27.407 Rights to technical data in successful proposals.

(a) Contracting officers may, in consideration of contract award, desire to acquire unlimited rights in technical data (but not commercial or financial information) contained in a successful proposal upon which a contract award is based. However, before such unlimited rights are acquired, the prospective contractor must be afforded the opportunity either (1) to advise the contracting officer that the technical data, or portions thereof (to be identified by the prospective contractor), are covered by any restrictive notice regarding the disclosure and use of proposal information authorized by subpart 15.4 or 15.5 (or any agency supplement thereto), and request that such protection be maintained by excluding the data from the Government's rights; or (2) to establish to the contracting officer's satisfaction that identified portions of the technical data do not relate directly to or will not be utilized in the work to be performed under the contract, and request that such portions be excluded from the Government's rights.

(b) If unlimited rights to technical data in successful proposals, as set forth in paragraph (a) of this section, are to be acquired, it shall be by use of the clause at 52.227-23, Rights to Proposal Data (Technical). Any excluded technical data will be identified by inserting appropriate proposal page numbers in the clause, which clause enables the identification of data to be excluded from the Government's rights, as discussed in paragraph (a) of this section. Such exclusion is not dispositive of the protective status of the data, but any excluded technical data, as well as any commercial and financial information contained in the proposal, will remain subject to the policies in subpart 15.4 or 15.5 (or agency supplements thereto) relating to proposal information (i.e., will be used for evaluation purposes only). If the clause at 52.227-23, Rights to Proposal Data (Technical), is included in a contract, the prospective contractor must be specifically afforded the opportunity to exclude technical data as set forth in paragraph (a) of this section, and the contract file must reflect that fact. If there is a need to have access to any of the excluded technical data during contract performance, consideration should be given to their acquisition as limited rights data, if they so qualify, in accordance with 27.404(d).

27.408 Cosponsored research and development activities.

(a) In contracts involving cosponsored research and development wherein the contractor is required to make substantial contributions of funds or resources (i.e., by cost-sharing or by repayment of nonrecurring costs), and the contractor's and the Government's respective contributions to any item, component, process, or computer software, developed or produced under the contract are not readily segregable, the contracting officer may limit the acquisition of or acquire less than unlimited rights to any data developed and delivered under such contract. Agencies may regulate the use of this authority in their supplements. Basically such rights should, at a minimum, assure use of the data for agreed-to Governmental purposes (including reprocurement rights as appropriate), and will address any disclosure limitations or restrictions to be imposed on the data. Also, consideration may be given to directed licensing provisions if needed to carry out the objectives of the contract. Since the purpose of the cosponsored research and development, the legitimate proprietary interests of the contractor, the needs of the Government, and the respective contributions of both parties may vary, no specific clauses are prescribed, but a clause providing less than unlimited rights in the Government for data developed and delivered under the contract (such as license rights) may be tailored to the circumstances consistent with the foregoing and the policy set forth in 27.402. As a guide, such clause may be appropriate when the contractor contributes money or resources, or agrees to make repayment of nonrecurring costs, of a value of approximately 50 percent of the total cost of the contract (i.e., Government, contractor, and/or third party paid costs), and the respective contributions are not readily segregable for any work element to be performed under the contract. Such clause may be used for all or for only specifically identified tasks or work elements under the contract. In the latter instance, its use will be in addition to whatever other data rights clause is prescribed under this subpart, with the contract specifically identifying which clause is to apply to which tasks or work elements. Further, such clause may not be appropriate where the purpose of the contract is to produce data for dissemination to the public, or to develop or demonstrate technologies which will be available, in any event, to the public for their direct use.

(b) Where the contractor's contributions are readily segregable (by performance requirements and the funding therefor) and so identified in the contract, any data resulting therefrom may be treated under such clause as limited rights data or restricted computer software in accordance with 27.404 (d) or (e), as applicable; or if such treatment is inconsistent with the purpose of the contract, rights to such data may, if so negotiated and stated in the contract, be treated in a manner consistent with paragraph (a) of this section.

27.409 Solicitation provisions and contract clauses.

(a)(1) The contracting officer shall insert the clause at 52.227-14, Rights in Data—General, including its use with *Alternate I* through *Alternate V* as may be required or authorized in accordance with paragraphs (b) through (f) of this section, in solicitations and contracts if it is contemplated that data will be produced, furnished, or acquired under the contract, unless the contract is—

(i) For the production of special works of the type set forth in 27.405(a), but the clause at 52.227-14, Rights in Data— General, shall be included in the contract and made applicable to data other than special works, as appropriate;

(ii) For the acquisition of existing data works, as described in 27.405(b);

(iii) To be performed outside the United States, its possessions, and

erto Rico, in which case agencies
y prescribe different clauses (see
agraph (n) of this section);
v) For architect-engineer services
construction work, in which case
ncies may utilize the clause at
227-17, Rights in Data—Special
rks, or may prescribe different
uses;
) A Small Business Innovation Re-
rch contract (see paragraph (l) of
section);
i) For the management, operation,
ign, or construction of a Govern-
nt-owned facility to perform re-
rch, development, or production
k, in which case agencies may pre-
be different clauses (see paragraph
of this section); or
ii) A contract involving cospon-
ed research and development in
ch a clause providing for less than
imited right has been authorized.
27.408).
) Subparagraph (e)(3) of the clause
2.227-14, Rights in Data—General,
be deleted or reserved by an
ncy not subject to Title III of the
eral Property and Administrative
vices Act.
) If an agency determines, in ac-
iance with 27.404(c), to adopt the
rnate definition of *Limited Rights*
in paragraph (a) of the clause,
clause shall be used with its *Alter-*
I.
) In accordance with 27.404(d), if a
racting officer determines it is
ssary to obtain the delivery of lim-
rights data, the clause shall be
with its *Alternate II.* The con-
ting officer shall, when *Alternate*
used, assure that the purposes, if
for which limited rights data are
e disclosed outside the Govern-
t are included in the *Limited*
ts *Notice* of subparagraph (g)(2)
e clause.
In accordance with 27.404(e), if a
racting officer determines it is
ssary to obtain the delivery of re-
ted computer software, the clause
be used with its *Alternate III.*
greater or lesser rights regarding
use, duplication, or disclosure of
icted computer software than
set forth in the Restricted
ts Notice of subparagraph (g)(3)
e clause must be specified in the
contract and the notice modified accordingly.

(e) The clause shall be used with its *Alternate IV* in contracts for basic or applied research (other than those for the management or operation of Government facilities or where international agreements require otherwise), to be performed solely by universities and colleges. The clause may be used with its *Alternate IV* in other contracts if in accordance with 27.404(f)(1) an agency determines to grant blanket permission for the contractor to establish claim to copyright subsisting in all data first produced without further request being made by the contractor. When *Alternate IV* is used, the contract may exclude items or categories of data from the blanket permission granted, either by express provisions in the contract or by the addition of a subparagraph (d)(3) to the clause (see 27.404(g)(2)).

(f) In accordance with 27.404(i), if a contracting officer needs to have the right to inspect certain data at a contractor's facility or if by an agency, generally the clause shall be used with its *Alternate V.*

(g) In accordance with 27.404(d)(2), if the contracting officer desires to have an offeror state in response to a solicitation, to the extent feasible, whether limited rights data or restricted computer software are likely to be used in meeting the data delivery requirements set forth in the solicitation, the contracting officer shall insert in the solicitation the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software in any solicitation containing the clause at 52.227-14, Rights in Data—General. The contractor's response will provide an aid in determining whether the clause should be used with *Alternate II* and/or *Alternate III.*

(h) The contracting officer shall normally insert the clause at 52.227-16, Additional Data Requirements, in solicitations and contracts involving experimental, developmental, research, or demonstration work (other than basic or applied research to be performed solely by a university or college where the contract amount will be $500,000 or less) unless all the requirements for data are believed to be known at the time of contracting and specified in the contract. (See 27.406(b).) This clause may also be used in other contracts when considered appropriate.

(i) In accordance with 27.405(a), the contracting officer shall insert the clause at 52.227-17, Rights in Data—Special Works, in solicitations and contracts primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's internal use, or when there is a specific need to limit distribution and use of the data and/or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples of such contracts are set forth in 27.405(a). The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released or reproduced by the contractor for other than contract performance. Contracts for the production of audiovisual works, sound recordings, etc. may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the data is acquired.

(j) The contracting officer shall insert the clause at 52.227-18, Rights in Data—Existing Works, in solicitations and contracts exclusively for the acquisition, without modification, of existing audiovisual and similar works of the type set forth in 27.405(b)(1). The contract may set forth limitations consistent with the purposes for which the work is being acquired. The clause at 52.227-17, Rights in Data—Special Works, shall be used if existing works are to be modified, as by editing, translation, addition of subject matter, etc.

(k) In accordance with 27.405(b)(2), when contracting (other than from GSA's Multiple Award Schedule contracts) for the acquisition of existing computer software, the clause at 52.227-19, Commercial Computer Software-Restricted Rights, may be used in the solicitation and contract. In any event, the contracting officer shall assure that the contract contains terms to obtain sufficient rights for the Government to fulfill the need for which the software is being acquired and is otherwise consistent with 27.405(b)(2).

(l) If the contract is a Small Business Innovation Research (SBIR) contract, the clause at 52.227-20, Rights in Data—SBIR Program shall be used in all Phase I and Phase II contracts awarded under the Small Business Innovation Research Program established pursuant to Pub. L. 97-219 (The Small Business Innovation Development Act of 1982).

(m) While no specific clause of this subpart is required to be included in contracts solely for the acquisition, without disclosure prohibitions, of books, publications and similar items in the exact form in which such items exist prior to the request for purchase (i.e., the off-the-shelf purchase of such items), or in other contracts (e.g., contracts resulting from sealed bidding) where only existing data available without disclosure prohibitions is to be furnished, if reproduction rights are to be acquired the contract shall include terms addressing such rights. (See 27.405(b)(3).)

(n) Agencies may prescribe in their procedures, as appropriate, a clause consistent with the policy of 27.402 in contracts to be performed outside the United States, its possessions, and Puerto Rico.

(o) Agencies may prescribe in their procedures the clause at 52.227-17, Rights in Data—Special Works, or prescribe, as appropriate, clauses consistent with the policy in 27.402 in contracts for architect-engineer services and construction work.

(p) Agencies may prescribe in their procedures, as appropriate, a clause consistent with the policy of 27.402 in contracts for management, operation, design, or construction of Government-owned research, development, or production facilities, and in contracts and subcontracts in support of programs being conducted at such facilities.

(q) In accordance with 27.406(d), the contracting officer shall insert the clause at 52.227-21, Technical Data Certification, Revision, and Withholding of Payment—Major Systems, in contracts for major systems acquisitions or for support of major systems acquisitions. When used, this clause requires that the technical data to which it applies be specified in the contract. (See 27.406(d).)

(r) In the case of civilian agencies except NASA and the U.S. Coast Guard, the contracting officer shall insert the clause at 52.227-22, Major System—Minimum Rights, in contracts for major systems or contracts in support of major systems.

(s) In accordance with 27.407, if a contracting officer desires to acquire unlimited rights in technical data contained in a successful proposal upon which a contract award is based, the contracting officer shall insert the clause at 52.227-23, Rights to Proposed Data (Technical). Rights to technical data in a proposal are not acquired by mere incorporation by reference of the proposal in the contract, and if a proposal is incorporated by reference, 27.404 must be followed to assure that such rights are appropriately addressed.

[52 FR 18140, May 13, 1987, as amended at 55 FR 38517, Sept. 18, 1990]

Subpart 27.5—[Reserved]

Subpart 27.6—Foreign License and Technical Assistance Agreements

27.601 General.

Agencies shall provide all necessary rules and regulations as are required for the proper application of the laws and policies of the U.S. Government regarding—

(a) Elimination in agreements between domestic concerns and foreign governments or foreign concerns of charges for the use of patents in which the U.S. Government has a royalty-free license or of charges in agreements for the use of data that the U.S. Government has a right to use and disclose to others, that is in the public domain, or that was acquired by the U.S. Government with the unrestricted right to use, duplicate, or disclose and to have or permit others to do so;

(b) Foreign license and technical assistance agreements between the U.S. Government and United States domestic concerns;

(c) Guidance on negotiating contract prices and terms concerning patents and data, including royalties, in contracts between the U.S. Government and a foreign government or foreign concern; and

(d) Regulations and guidance on controls on the exportation of data relating to certain designated items, such as arms or munitions of war, and guidance on reviews of agreements involving such data (see 22 CFR part 124).

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42286, Sept. 19, 1983, unless otherwise noted.

28.000 Scope of part.

This part prescribes requirements for obtaining financial protection against damages under sealed bid and negotiated contracts. It covers bid guarantees, bonds, sureties, and insurance. The terms *bid* and *bidders* include *proposal* and *offerors.*

[48 FR 42286, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

28.001 Definitions.

Attorney-in-fact, as used in this part, means an agent, independent agent, underwriter, or any other company or individual holding a power of attorney granted by a surety (see also *power of attorney*).

Bid guarantee means a form of security assuring that the bidder (a) will not withdraw a bid within the period specified for acceptance and (b) will execute a written contract and furnish required bonds, including any necessary coinsurance or reinsurance agreements, within the time specified in the bid, unless a longer time is allowed, after receipt of the specified forms.

Bond means a written instrument executed by a bidder or contractor (the *principal*), and a second party (the *surety* or *sureties*), to assure fulfillment of the principal's obligations to a third party (the *obligee* or *Government*), identified in the bond. If the principal's obligations are not met, the bond assures payment, to the extent stipulated, of any loss sustained by the obligee. The types of bonds and related documents are as follows:

(a) An advance payment bond secures fulfillment of the contractor's obligations under an advance payment provision.

(b) An annual bid bond is a single bond furnished by a bidder, in lieu of separate bid bonds, which secures all bids (on other than construction contracts) requiring bonds submitted during a specific Government fiscal year.

(c) An annual performance bond is a single bond furnished by a contractor, in lieu of separate performance bonds, to secure fulfillment of the contractor's obligations under contracts (other than construction contracts) requiring bonds entered into during a specific Government fiscal year.

(d) A patent infringement bond secures fulfillment of the contractor's obligations under a patent provision.

(e) A payment bond assures payments as required by law to all persons supplying labor or material in the prosecution of the work provided for in the contract.

(f) A performance bond secures performance and fulfillment of the contractor's obligations under the contract.

Consent of surety means an acknowledgment by a surety that its bond given in connection with a contract continues to apply to the contract as modified.

Insurance, as used in this part, neans a contract which provides that or a stipulated consideration, one arty undertakes to indemnify another against loss, damage, or liability rising from an unknown or contingent event.

Penal sum or *penal amount* means he amount of money specified in a ond (or a percentage of the bid price a bid bond) as the maximum payment for which the surety is obligated.

Power of attorney, as used in this art, means the authority given one erson or corporation to act for and bligate another, as specified in the inrument creating the power; in corpote suretyship, an instrument under al which appoints an attorney-inct to act in behalf of a surety compay in signing bonds (see also *attorney-fact*).

Reinsurance means a transaction hich provides that a surety, for a onsideration, agrees to indemnify another surety against loss which the tter may sustain under a bond which has issued.

Surety means an individual or corpotion legally liable for the debt, deult, or failure of a principal to satis- a contractual obligation. The types sureties referred to are as follows:

(a) An individual surety is one erson, as distinguished from a busiess entity, who is liable for the entire enal amount of the bond.

(b) A corporate surety is licensed nder various insurance laws and, nder its charter, has legal power to t as surety for others.

(c) A cosurety is one of two or more reties that are jointly liable for the enal sum of the bond. A limit of lility for each surety may be stated.

Subpart 28.1—Bonds

.100 Scope of subpart.

This subpart prescribes requireents and procedures for the use of nds and all types of bid guarantees.

101 Bid guarantees.

101-1 Policy on use.

) A contracting officer shall not reire a bid guarantee unless a perrmance bond or a performance and payment bond is also required (see 28.102 and 28.103). Except as provided in paragraph (c) of this subsection, bid guarantees shall be required whenever a performance bond or a performance and payment bond is required.

(b) All types of bid guarantees are acceptable for supply or service contracts (see annual bid bonds and annual performance bonds coverage in 28.001). Only separate bid guarantees are acceptable in connection with construction contracts. Agencies may specify that only separate bid bonds are acceptable in connection with construction contracts.

(c) The chief of the contracting office may waive the requirement to obtain a bid guarantee when a performance bond or a performance and payment bond is required if it is determined that a bid guarantee is not in the best interest of the Government for a specific acquisition (e.g., overseas construction, emergency acquisitions). Class waivers may be authorized by the agency head or designee.

[48 FR 42286, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986; 52 FR 19803, May 27, 1987; 52 FR 30076, Aug. 12, 1987; 54 FR 34755, Aug. 21, 1989]

28.101-2 Amount required.

The contracting officer shall determine a bid guarantee amount that is adequate to protect the Government from loss should the successful bidder fail to execute further contractual documents and bonds as required. The bid guarantee amount shall be at least 20 percent of the bid price but shall not exceed $3 million. When the penal sum is expressed as a percentage, a maximum dollar limitation may be stated.

28.101-3 Contract clause.

(a) When a bid guarantee is required, the solicitation shall contain a statement to that effect, and provide sufficient details for bidders to determine the amount of the bid guarantee.

(b) The contracting officer shall insert the clause at 52.228-1, Bid Guarantee, in solicitations and contracts that contain a requirement for a bid guarantee. A clause substantially the same as this may be used for negotiated contracts. This clause may be appropriately modified for use in connection with construction solicitations and contracts when the agency has specified that only separate bid bonds are acceptable in accordance with 28.101-1(b).

[48 FR 42286, Sept. 19, 1983, as amended at 52 FR 19803, May 27, 1987]

28.101-4 Noncompliance with bid guarantee requirements.

(a) In sealed bidding, noncompliance with a solicitation requirement for a bid guarantee requires rejection of the bid, except in the situations described in paragraph (c) of this subsection when the noncompliance shall be waived.

(b) In negotiation, noncompliance with a solicitation requirement for a bid guarantee requires rejection of an initial proposal as unacceptable, if a determination is made to award the contract based on initial proposals without discussion, except in the situations described in paragraph (c) of this subsection when noncompliance shall be waived. (See 15.610(a) for conditions regarding making awards based on initial proposals.) If the conditions for awarding based on initial proposals are not met, deficiencies in bid guarantees submitted by offerors determined to be in the competitive range shall be addressed during discussions and the offeror shall be given an opportunity to correct the deficiency.

(c) Noncompliance with a solicitation requirement for a bid guarantee shall be waived in the following circumstances unless the contracting officer determines in writing that acceptance of the bid would be detrimental to the Government's interest when—

(1) Only one offer is received. In this case, the contracting officer may require the furnishing of the bid guarantee before award;

(2) The amount of the bid guarantee submitted is less than required, but is equal to or greater than the difference between the offer price and the next higher acceptable offer;

(3) The amount of the bid guarantee submitted, although less than that required by the solicitation for the maximum quantity offered, is sufficient for a quantity for which the offeror is otherwise eligible for award. Any award to the offeror shall not exceed the quantity covered by the bid guarantee;

(4) The bid guarantee is received late, and late receipt is waived under 14.304;

(5) A bid guarantee becomes inadequate as a result of the correction of a mistake under 14.406 (but only if the bidder will increase the bid guarantee to the level required for the corrected bid);

(6) A telegraphic offer modification is received without corresponding modification of the bid guarantee, if the modification expressly refers to the previous offer and the offeror corrects any deficiency in bid guarantee;

(7) An otherwise acceptable bid bond was submitted with a signed offer, but the bid bond was not signed by the offeror;

(8) An otherwise acceptable bid bond is erroneously dated or bears no date at all; or

(9) A bid bond does not list the United States as obligee, but correctly identifies the offeror, the solicitation number, and the name and location of the project involved, so long as it is acceptable in all other respects.

[54 FR 48985, Nov. 28, 1989]

28.102 Performance and payment bonds for construction contracts.

28.102-1 General.

(a) The Miller Act (40 U.S.C. 270a-270f) requires performance and payment bonds for any construction contract exceeding $25,000, except that this requirement may be waived (1) by the contracting officer for as much of the work as is to be performed in a foreign country upon finding that it is impracticable for the contractor to furnish such bond, or (2) as otherwise authorized by the Miller Act or other law.

(b) The contractor shall furnish all bonds, including any necessary reinsurance agreements, before receiving a notice to proceed with the work or being allowed to start work.

28.102-2 Amount required.

(a) *Performance bonds.* (1) The penal amount of performance bonds shall be 100 percent of the original contract price, unless the contracting officer determines that a lesser amount would be adequate for the protection of the Government.

(2) The Government may require additional performance bond protection when a contract price is increased. The increase in protection shall generally equal 100 percent of the increase n contract price. The Government may secure additional protection by directing the contractor to increase the penal amount of the existing bond or to obtain an additional bond.

(b) *Payment bonds.* (1) The penal amount of payment bonds shall equal—

(i) Fifty percent of the contract price if the contract price is not more than $1 million;

(ii) Forty percent of the contract price if the contract price is more than $1 million but not more than $5 million; or

(iii) Two and one half million if the contract price is more than $5 million.

(2) If the original contract price is $5 million or less, the Government may require additional protection if the contract price is increased. The penal amount of the total protection as revised shall meet the requirement of subparagraph (1) immediately above.

(3) The Government shall secure additional protection by directing the contractor to increase the penal sum of the existing bond or to obtain an additional bond.

(c) *Requirements and indefinite-quantity contracts.* (1) When determining the penal sum of bonds for requirements contracts, the contracting officer shall consider the contract price to be the price payable for the estimated quantity.

(2) When determining the penal sum of bonds for indefinite-quantity contracts, the contracting officer shall consider the contract price to be the price payable for the specified minimum quantity. When the minimum quantity is exceeded, subparagraphs)(2) and (b)(2) above apply.

28.102-3 Solicitation requirements.

When performance or payment bonds are required, the solicitation shall specify—

(a) The requirement for the bond(s);

(b) The penal sum of each bond (expressed either as a fixed sum or percentage of the contract price) or penal coverage required in case of annual bonds; and

(c) The deadline for submitting acceptable bonds.

28.103 Performance and payment bonds for other than construction contracts.

28.103-1 General.

(a) Generally, agencies shall not require performance and payment bonds for other than construction contracts. However, performance and payment bonds may be used as permitted in 28.103-2 and 28.103-3.

(b) The contractor shall furnish all bonds before receiving a notice to proceed with the work.

(c) No bond shall be required after the contract has been awarded if it was not specifically required in the contract, except as may be determined necessary for a contract modification.

28.103-2 Performance bonds.

(a) Performance bonds may be required when necessary to protect the Government's interest. The following situations may warrant a performance bond:

(1) Government property or funds are to be provided to the contractor for use in performing the contract or as partial compensation (as in retention of salvaged material).

(2) A contractor sells assets to or merges with another concern, and the Government, after recognizing the latter concern as the successor in interest, desires assurance that it is financially capable.

(3) Substantial progress payments are made before delivery of end items starts.

(4) Contracts are for dismantling, demolition, or removal of improvements.

(b) When a performance bond is required, the solicitation shall contain the information in 28.102-3.

(c) The Government may require additional performance bond protection when a contract price is increased.

(d) The contracting officer must determine the contractor's responsibility (see subpart 9.1) even though a bond has been or can be obtained.

28.103-3 Payment bonds.

(a) A payment bond is required only when a performance bond is required, and if the use of payment bond is in the Government's interest.

(b) The contracting officer shall determine the penal amount of a payment bond.

(c) When a payment bond is required, the solicitation shall contain the information in 28.102-3.

(d) When a contract price is increased, the Government may require additional bond protection in an amount adequate to protect suppliers of labor and material.

28.104 Annual performance bonds.

(a) Annual performance bonds only apply to non-construction contracts. They shall provide a gross penal sum applicable to the total amount of all covered contracts.

(b) When the penal sums obligated by contracts are approximately equal to or exceed the penal sum of the annual performance bond, an additional bond will be required to cover additional contracts.

28.105 Other types of bonds.

The head of the contracting activity may approve using other types of bonds in connection with acquiring particular supplies or services. These types include advance payment bonds and patent infringement bonds.

28.105-1 Advance payment bonds.

Advance payment bonds may be required only when the contract contains an advance payment provision and a performance bond is not furnished. The contracting officer shall determine the amount of the advance payment bond necessary to protect the Government.

28.105-2 Patent infringement bonds.

(a) Contracts providing for patent indemnity may require these bonds only if—

(1) A performance bond is not furnished; and

(2) The financial responsibility of the contractor is unknown or doubtful.

(b) The contracting officer shall determine the penal sum.

28.106 Administration.

28.106-1 Bonds and bond related forms.

The following Standard Forms (SF's) and Optional Forms (OF's) shown in 53.301 and 53.302 shall be used, except in foreign countries, when a bid bond, performance or payment bond, or an individual surety is required. The bond forms shall be used as indicated in the instruction portion of each form.

(a) SF 24, Bid Bond (see 28.101).

(b) SF 25, Performance Bond (see 28.102-1 and 28.106-3(b)).

(c) SF 25-A, Payment Bond (see 28.103-3 and 28.106-3(b)).

(d) SF 25-B, Continuation Sheet (for SF's 24, 25, and 25-A).

(e) SF 28, Affidavit of Individual Surety (see 28.203).

(f) SF 34, Annual Bid Bond (see 28.001).

(g) SF 35, Annual Performance Bond (see 28.104).

(h) SF 273, Reinsurance Agreement for a Miller Act Performance Bond (see 28.202(a)(4)).

(i) SF 274, Reinsurance Agreement for a Miller Act Payment Bond (see 28.202(a)(4)).

(j) SF 275, Reinsurance Agreement in Favor of the United States (see 28.202(a)(4)).

(k) SF 1414, Consent of Surety (see 28.106-5).

(l) SF 1415, Consent of Surety and Increase of Penalty (see 28.106-3).

(m) SF 1416, Payment Bond for Other Than Construction Contracts (see 28.103-3).

(n) OF 90, Release of Lien on Real Property (see 28.203-5).

(o) OF 91, Release of Personal Property from Escrow (see 28.203-5).

[48 FR 42286, Sept. 19, 1983, as amended at 54 FR 48986, Nov. 28, 1989]

28.106-2 Substitution of surety bonds.

(a) A new surety bond covering all or part of the obligations on a bond previously approved may be substituted for the original bond if approved by the head of the contracting activity.

(b) When a new surety bond is approved, the contracting officer shall notify the principal and surety of the original bond of the effective date of the new bond.

28.106-3 Additional bond.

(a) When additional bond coverage is required and is furnished in whole or in part by the original surety or sureties, agencies shall use Standard Form 1415, Consent of Surety and Increase of Penalty. Standard Form 1415 is authorized for local reproduction, and a copy of the form is furnished for this purpose in part 53 of the looseleaf edition of the FAR.

(b) When additional coverage is furnished in whole or in part by a new surety, agencies shall use Standard Form 25, Performance Bond or Standard Form 25-A, Payment Bond.

[48 FR 42286, Sept. 19, 1983, as amended at 53 FR 43391, Oct. 26, 1988]

28.106-4 Contract clause.

The contracting officer shall insert the clause at 52.228-2, Additional Bond Security, in solicitations and contracts when bonds are required.

28.106-5 Consent of surety.

(a) When any contract is modified, the contracting officer shall obtain the consent of surety if—

(1) An additional bond is obtained from other than the original surety;

(2) No additional bond is required and—

(i) The modification is for new work beyond the scope of the original contract; or

(ii) The modification does not change the contract scope but changes the contract price (upward or downward) by more than 25 percent or $50,000; or

(3) Consent of surety is required for a novation agreement (See subpart 42.12).

(b) Agencies shall use Standard Form 1414, Consent of Surety, for all types of contracts.

28.106-6 Furnishing information.

(a) The surety on the bond, upon its written request, may be furnished information on the progress of the work, payments, and the estimated percentage of completion, concerning the contract for which the bond was furnished.

(b) When a payment bond has been provided, the contracting officer shall, upon request, furnish the name and address of the surety or sureties to any subcontractor or supplier who has furnished or been requested to furnish labor or material for the contract. In addition, general information concerning the work progress, payments, and the estimated percentage of completion may be furnished to persons who have provided labor or materials and have not been paid.

(c) When a payment bond has been provided for a contract, the head of the agency or designee shall furnish a certified copy of the bond and the contract for which it was given to any person who makes a request therefor and who furnishes an affidavit that the requestor has supplied labor or materials for such work and payment therefor has not been made or that the requestor is being sued on such bond. The person who makes the request shall be required to pay such costs of preparation as determined by the head of the agency or designee to be reasonable and appropriate (see 40 U.S.C. 270(c)).

[48 FR 42286, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

28.106-7 Withholding contract payments.

(a) During contract performance, agencies shall not withhold payments due contractors or assignees because subcontractors or suppliers have not been paid.

(b) If, after completion of the contract work, the Government receives written notice from the surety regarding the contractor's failure to meet its obligation to its subcontractors or suppliers, the contracting officer shall withhold final payment. However, the surety must agree to hold the Government harmless from any liability resulting from withholding the final payment. The contracting officer will authorize final payment upon agreement between the contractor and surety or upon a judicial determination of the rights of the parties.

(c) For any withholding incident to the labor standards provisions of the contract, see part 22.

Subpart 28.2—Sureties

28.200 Scope of subpart.

This subpart prescribes procedures for the use of sureties to protect the Government from financial losses.

28.201 Requirements for sureties.

(a) Agencies shall obtain adequate security for bonds (including coinsurance and reinsurance agreements) required or used with a contract for supplies or services (including construction). Acceptable forms of security include (1) corporate or individual sureties or (2) any of the types of security authorized in lieu of sureties by 28.204.

(b) Solicitations shall not preclude offerors from using the types of surety or security permitted by this subpart, unless prohibited by law or regulation.

[48 FR 42286, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

28.202 Acceptability of corporate sureties.

(a)(1) Corporate sureties offered for bonds furnished with contracts performed in the United States, its possessions, or Puerto Rico must appear on the list contained in the Department of the Treasury Circular 570, "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and Acceptable Reinsuring Companies."

(2) The penal amount of the bond should not exceed the surety's underwriting limit stated in the Department of the Treasury circular. If the penal amount exceeds the underwriting limit, the bond will be acceptable only if (i) the amount which exceeds the specified limit is coinsured or reinsured and (ii) the amount of coinsurance or reinsurance does not exceed the underwriting limit of each coinsurer or reinsurer.

(3) Coinsurance or reinsurance agreements shall conform to the Department of the Treasury regulations in 31 CFR 223.10 and 223.11. When reinsurance is contemplated, the contracting office generally shall require reinsurance agreements to be executed and submitted with the bonds before making a final determination on the bonds.

(4) When specified in the solicitation, the contracting officer may accept a bond from the direct writing company in satisfaction of the total bond requirement of the contract. This is permissible until necessary reinsurance agreements are executed, even though the total bond requirement may exceed the insurer's underwriting limitation. The contractor shall execute and submit necessary reinsurance agreements to the contracting officer within the time specified on the bid form, which may not exceed 45 calendar days after the execution of the bond. The contractor shall use Standard Form 273, Reinsurance Agreement for a Miller Act Performance Bond, and Standard Form 274, Reinsurance Agreement for a Miller Act Payment Bond, when reinsurance is furnished with Miller Act bonds. Standard Form 275, Reinsurance Agreement in Favor of the United States, is used when reinsurance is furnished with bonds for other purposes.

(b) For contracts performed in a foreign country, sureties not appearing on Treasury Department Circular 570 are acceptable if the contracting officer determines that it is impracticable for the contractor to use Treasury listed sureties.

(c) The Department of the Treasury issues supplements to Circular 570, notifying all Federal agencies of (1) new approved corporate surety companies and (2) the termination of the authority of any specific corporate surety to qualify as a surety on Federal bonds. Upon receipt of notification of termination of a company's authority to qualify as a surety on Federal bonds, the contracting officer shall review the outstanding contracts and take action necessary to protect the Government, including, where appropriate, securing new bonds with acceptable sureties in lieu of outstanding bonds with the named company.

(d) The Department of the Treasury Circular 570 may be obtained from the U.S. Department of the Treasury, Financial Management Service, Surety Bond Branch, 401 14th St., SW., 2nd Floor—West Wing, Washington, DC 20227.

[48 FR 42286, Sept. 19, 1983, as amended at 54 FR 48986, Nov. 28, 1989]

28.203 Acceptability of individual sureties.

(a) An individual surety is acceptable for all types of bonds except position schedule bonds. The contracting officer shall determine the acceptability of individuals proposed as sureties, and shall ensure that the surety's pledged assets are sufficient to cover the bond obligation. (See 28.203-7 for information on excluded individual sureties.)

(b) An individual surety must execute the bond, and the unencumbered value of the assets (exclusive of all outstanding pledges for other bond obligations) pledged by the individual surety, must equal or exceed the penal amount of each bond. The individual surety shall execute the Standard Form 28 and provide a security interest in accordance with 28.203-1. One individual surety is adequate support for a bond, provided the unencumbered value of the assets pledged by that individual surety equal or exceed the amount of the bond. An offeror may submit up to three individual sureties for each bond, in which case the pledged assets, when combined, must equal or exceed the penal amount of the bond. Each individual surety must accept both joint and several liability to the extent of the penal amount of the bond.

(c) If the contracting officer determines that no individual surety in support of a bid guarantee is acceptable, the offeror utilizing the individual surety shall be rejected as nonresponsible, except as provided in 28.101-4. A finding of nonresponsibility based on unacceptability of an individual surety, need not be referred to the Small Business Administration for a competency review. (See 19.602-1(a)(2)(i) and 61 Comp. Gen. 456 (1982).)

(d) A contractor submitting an unacceptable individual surety in satisfaction of a performance or payment bond requirement may be permitted a reasonable time, as determined by the contracting officer, to substitute an acceptable surety for a surety previously determined to be unacceptable.

(e) When evaluating individual sureties, contracting officers may obtain assistance from the office identified in 28.202(d).

(f) Contracting officers shall obtain the opinion of legal counsel as to the adequacy of the documents pledging the assets prior to accepting the bid guarantee and payment and performance bonds.

(g) Evidence of possible criminal or fraudulent activities by an individual surety shall be referred to the appropriate agency official in accordance with agency procedures.

[54 FR 48986, Nov. 28, 1989]

28.203-1 Security interests by an individual surety.

(a) An individual surety may be accepted only if a security interest in assets acceptable under 28.203-2 is provided to the Government by the individual surety. The security interest shall be furnished with the bond.

(b) The value at which the contracting officer accepts the assets pledged must be equal to or greater than the aggregate penal amounts of the bonds required by the solicitation and may be provided by one or a combination of the following methods:

(1) An escrow account with a federally insured financial institution in the name of the contracting agency. (See 28.203-2(b)(2) with respect to Government securities in book entry form.) Acceptable securities for deposit in escrow are discussed in 28.203-2. While the offeror is responsible for establishing the escrow account, the terms and conditions must be acceptable to the contracting officer. At a minimum, the escrow account shall provide for the following:

(i) The account must provide the contracting officer the sole and unrestricted right to draw upon all or any part of the funds deposited in the account. A written demand for withdrawal shall be sent to the financial institution by the contracting officer, after obtaining the concurrence of legal counsel, with a copy to the offeror/contractor and to the surety. Within the time period specified in the demand, the financial institution would pay the Government the amount demanded up to the amount on deposit. If any dispute should arise between the Government and the offeror/contractor, the surety, or the subcontractors or suppliers with respect to the offer or contract, the financial institution would be required, unless precluded by order of a court of competent jurisdiction, to disburse monies to the Government as directed by the contracting officer.

(ii) The financial institution would be authorized to release to the individual surety all or part of the balance of the escrow account, including any accrued interest, upon receipt of written authorization from the contracting officer.

(iii) The Government would not be responsible for any costs attributable to the establishment, maintenance, administration, or any other aspect of the account.

(iv) The financial institution would not be liable or responsible for the interpretation of any provisions or terms and conditions of the solicitation or contract.

(v) The financial institution would provide periodic account statements to the contracting officer.

(vi) The terms of the escrow account could not be amended without the consent of the contracting officer.

(2) A lien on real property, subject to the restrictions in 28.203-2 and 28.203-3.

[54 FR 48986, Nov. 28, 1989]

28.203-2 Acceptability of assets.

(a) The Government will accept only cash, readily marketable assets, or irrevocable letters of credit from a federally insured financial institution from individual sureties to satisfy the underlying bond obligations.

(b) Acceptable assets include—

(1) Cash, or certificates of deposit, or other cash equivalents with a federally insured financial institution;

(2) United States Government securities at market value. (An escrow account is not required if an individual surety offers Government securities held in book entry form at a depository institution. In lieu thereof, the individual shall provide evidence that the depository institution has (i) placed a notation against the individual's book entry account indicating that the security has been pledged in favor of the respective agency; (ii) agreed to notify the agency prior to maturity of the security; and (iii) agreed to hold the proceeds of the security subject to the pledge in favor of the agency until a substitution of securities is made or the security interest is formally released by the agency);

(3) Stocks and bonds actively traded on a national U.S. security exchange with certificates issued in the name of the individual surety. National security exchanges are—(i) the New York Stock Exchange; (ii) the American Stock Exchange; (iii) the Boston Stock Exchange; (iv) the Cincinnati Stock Exchange; (v) the Midwest Stock Exchange; (vi) the Philadelphia Stock Exchange; (vii) the Pacific Stock Exchange; and (viii) the Spokane Stock Exchange. These assets will be accepted at 90 percent of their 52-week low, as reflected at the time of submission of the bond. Stock options and stocks on the over-the-counter (OTC) market or NASDQ Exchanges will not be accepted. Assistance in evaluating the acceptability of securities may be obtained from the Securities and Exchange Commission, Division of Enforcement, 450 Fifth Street NW., Washington, DC 20549.

(4) Real property owned in fee simple by the surety without any form of concurrent ownership, except as provided in subdivision (c)(3)(iii) of this subsection, and located within the 50 United States, its territories, or possessions. These assets will be accepted at 100 percent of the most current tax assessment value (exclusive of encumbrances) or 75 percent of the properties' unencumbered market value provided a current appraisal is furnished (see 28.203-3).

5) Irrevocable letters of credit (ILC)
ued by a federally insured financial
stitution in the name of the con-
acting agency and which identify the
ency and solicitation or contract
mber for which the ILC is provided.

c) Unacceptable assets include but
e not limited to—

1) Notes or accounts receivable;

2) Foreign securities;

3) Real property as follows:

i) Real property located outside the
ited States, its territories, or posses-
ns.

ii) Real property which is a princi-
l residence of the surety.

iii) Real property owned concur-
tly regardless of the form of co-ten-
cy (including joint tenancy, tenancy
the entirety, and tenancy in
mmon) except where all co-tenants
ree to act jointly.

iv) Life estates, leasehold estates, or
ure interests in real property.

4) Personal property other than
at listed in paragraph (b) of this
bsection (e.g., jewelry, furs, an-
ues);

5) Stocks and bonds of the individ-
surety in a controlled, affiliated, or
sely held concern of the offeror/
tractor;

6) Corporate assets (e.g., plant and
uipment);

7) Speculative assets (e.g., mineral
hts);

8) Letters of credit, except as pro-
ed in 28.203-2(b)(5).

FR 48987, Nov. 28, 1989]

203-3 Acceptance of real property.

a) Whenever a bond with a security
erest in real property is submitted,
individual surety shall provide—

1) Evidence of title in the form of a
tificate of title prepared by a title
urance company approved by the
ited States Department of Justice.
is list entitled List of Approved At-
neys, Abstracters, and Title Compa-
s is available from the Title Unit,
d Acquisition Section, Land and
ural Resource Division, Depart-
t of Justice, Washington, DC
30. This title evidence must show
simple title vested in the surety
g with any concurrent owners;
ther any real estate taxes are due
payable; and any recorded encum-
brances against the property, including the lien filed in favor of the Government under paragraph (d) of this subsection;

(2) Evidence of the amount due under any encumbrance shown in the evidence of title;

(3) A copy of the current real estate tax assessment of the property or a current appraisal dated no earlier than 6 months prior to the date of the bond, prepared by a professional appraiser who certifies that the appraisal has been conducted in accordance with the generally accepted appraisal standards as reflected in the Uniform Standards of Professional Appraisal Practice as promulgated by the Appraisal Foundation, 1029 Vermont Avenue NW., Washington, DC 20005.

(b) Failure to provide evidence that the lien has been properly recorded will render the offeror nonresponsible.

(c) The individual surety is liable for the payment of all administrative costs of the Government, including legal fees, associated with the liquidation of pledged real estate.

(d) The following format, or any document substantially the same, shall be used by the surety and recorded in the local recorder's office when a surety pledges real estate on Standard Form 28, Affidavit of Individual Surety.

Lien on Real Estate

I/we agree that this instrument constitutes a lien in the amount of $—— on the property described in this lien. The rights of the United States Government shall take precedence over any subsequent lien or encumbrance until the lien is formally released by a duly authorized representative of the United States. I/we hereby grant the United States the power of sale of subject property, including the right to satisfy its reasonable administrative costs, including legal fees associated with any sale of subject property, in the event of contractor default if I/we otherwise fail to satisfy the underlying ( ) bid guarantee, ( ) performance bond, ( ) or payment bond obligations as an individual surety on solicitation/contract number ——. The lien is upon the real estate now owned by me/us described as follows: (legal description, street address and other identifying description)

IN WITNESS HEREOF, I/we have hereunto affixed my/our hand(s) and seal(s) this —— DAY OF —— 19—.

WITNESS:

(SEAL)

I, ——, a Notary Public in and for the (CITY) ——, (STATE) ——, do hereby certify that ——, a party or parties to a certain Agreement bearing the date —— day of —— 19—, and hereunto annexed, personally appeared before me, the said —— being personally well known to me as the person(s) who executed said lien, and acknowledged the same to be his/her/their act and deed. GIVEN under my hand and seal this —— day of —— 19—.

NOTARY PUBLIC, STATE

My Commission expires:

[54 FR 48987, Nov. 28, 1989]

28.203–4 Substitution of assets.

An individual surety may request the Government to accept a substitute asset for that currently pledged by submitting a written request to the responsible contracting officer. The contracting officer may agree to the substitution of assets upon determining, after consultation with legal counsel, that the substitute assets to be pledged are adequate to protect the outstanding bond or guarantee obligations. If acceptable, the substitute assets shall be pledged as provided for in subpart 28.2.

[54 FR 48988, Nov. 28, 1989]

28.203–5 Release of lien.

(a) After consultation with legal counsel, the contracting officer shall release the security interest on the individual surety's assets using the Optional Form 90, Release of Lien on Real Property, or Optional Form 91, Release of Personal Property from Escrow, or a similar release as soon as possible consistent with the conditions in subparagraphs (a) (1) and (2) of this subsection. A surety's assets pledged in support of a payment bond may be released to a subcontractor or supplier upon Government receipt of a Federal district court judgment, or a sworn statement by the subcontractor or supplier that the claim is correct along with a notarized authorization of the release by the surety stating that it approves of such release.

(1) *Contracts subject to the Miller Act.* The security interest shall be maintained for the later of (i) 1 year following final payment, (ii) until completion of any warranty period (applicable only to performance bonds), or (iii) pending resolution of all claims filed against the payment bond during the 1-year period following final payment.

(2) *Contracts not subject to the Miller Act.* The security interest shall be maintained for 90 days following final payment or until completion of any warranty period (applicable only to performance bonds), whichever is later.

(b) Upon written request, the contracting officer may release the security interest on the individual surety's assets in support of a bid guarantee based upon evidence that the offer supported by the individual surety will not result in contract award.

(c) Upon written request by the individual surety, the contracting officer may release a portion of the security interest on the individual surety's assets based upon substantial performance of the contractor's obligations under its performance bond. Release of the security interest in support of a payment bond must comply with the subparagraphs (a) (1) and (2) of this subsection. In making this determination, the contracting officer will give consideration as to whether the unreleased portion of the lien is sufficient to cover the remaining contract obligations, including payments to subcontractors and other potential liabilities. The individual surety shall, as a condition of the partial release, furnish an affidavit agreeing that the release of such assets does not relieve the individual surety of its obligations under the bond(s).

[54 FR 48988, Nov. 28, 1989]

03-6 Contract clause.

nsert the clause at 52.228-11 in so-
tations and contracts which require
submission of bid guarantees, per-
mance, or payment bonds.

FR 48988, Nov. 28, 1989]

03-7 Exclusion of individual sureties.

) An individual may be excluded
m acting as a surety on bonds sub-
ted by offerors on procurement by
executive branch of the Federal
vernment, by the acquiring agen-
head or designee utilizing the pro-
ures in subpart 9.4. The exclusion
ll be for the purpose of protecting
Government.
) An individual may be excluded
any of the following causes:
) Failure to fulfill the obligations
ler any bond.
) Failure to disclose all bond obli-
ions.
) Misrepresentation of the value of
ilable assets or outstanding liabil-
.
) Any false or misleading state-
nt, signature or representation on a
d or affidavit of individual surety-
.
) Any other cause affecting re-
nsibility as a surety of such serious
compelling nature as may be de-
mined to warrant exclusion.
) An individual surety excluded
suant to this subsection shall be in-
led on the list entitled Parties Ex-
led from Procurement Programs.
e 9.404.)
) Contracting officers shall not
ept the bonds of individual sureties
se names appear on the list enti-
Parties Excluded from Procure-
t Programs (see 9.404) unless the
uiring agency's head or a designee
es in writing the compelling rea-
justifying acceptance.
) An exclusion of an individual
ty under this subsection will also
lude such party from acting as a
ractor in accordance with subpart

R 48988, Nov. 28, 1989]

4 Options in lieu of sureties.

e contractor may deposit any of
types of security listed in this sec-
instead of furnishing corporate or individual sureties on performance and payment bonds. When any of those types of security are deposited, a statement shall be incorporated in the bond form pledging the security. The contractor shall execute the bond forms as the principal. Agencies shall establish safeguards to protect against loss of the security and shall return the security or its equivalent to the contractor when the bond obligation has ceased.

[48 FR 42286, Sept. 19, 1983. Redesignated at 54 FR 48986, Nov. 28, 1989]

28.204-1 United States bonds or notes.

Any person required to furnish a bond to the Government has the option, instead of furnishing a surety or sureties on the bond, of depositing certain United States bonds or notes in an amount equal at their par value to the penal sum of the bond (the Act of February 24, 1919 (31 U.S.C. 9303) and Treasury Department Circular No. 154 dated July 1, 1978 (31 CFR part 225)). In addition, a duly executed power of attorney and agreement authorizing the collection or sale of such United States bonds or notes in the event of default of the principal on the bond shall accompany the deposited bonds or notes. The contracting officer may (a) turn securities over to the finance or other authorized agency official, or (b) deposit them with the Treasurer of the United States, a Federal Reserve Bank (or branch with requisite facilities), or other depository designated for that purpose by the Secretary of the Treasury, under procedures prescribed by the agency concerned and Treasury Department Circular No. 154 (exception: The contracting officer shall deposit all bonds and notes received in the District of Columbia with the Treasurer of the United States).

[48 FR 42286, Sept. 19, 1983. Redesignated and amended at 54 FR 48986, 48989, Nov. 28, 1989]

28.204-2 Certified or cashiers checks, bank drafts, money orders, or currency.

Any person required to furnish a bond has an option to furnish a certified or cashier's check, bank draft, Post Office money order, or currency, in an amount equal to the penal sum of the bond, instead of furnishing surety or sureties on the bonds. Those furnishing checks, drafts, or money orders shall draw them to the order of the appropriate Federal agency.

[48 FR 42286, Sept. 19, 1983. Redesignated at 54 FR 48986, Nov. 28, 1989]

Subpart 28.3—Insurance

28.301 Policy.

Contractors shall be required to carry insurance under the following circumstances:

(a) (1) The Government requires any contractor subject to Cost Accounting Standard (CAS) 416 (4 CFR part 416) to obtain insurance, by purchase or self-coverage, for the perils to which the contractor is exposed, except when (i) the Government, by providing in the contract in accordance with law, agrees to indemnify the contractor under specified circumstances or (ii) the contract specifically relieves the contractor of liability for loss of or damage to Government property.

(2) The Government reserves the right to disapprove the purchase of any insurance coverage not in the Government's interest.

(3) Allowability of the insurance program's cost shall be determined in accordance with the criteria in 31.205-19.

(b) Contractors, whether or not their contracts are subject to CAS 416, are required by law and this regulation to provide insurance for certain types of perils (e.g., workers' compensation). Insurance is mandatory also when commingling of property, type of operation, circumstances of ownership, or condition of the contract make it necessary for the protection of the Government. The minimum amounts of insurance required by this regulation (see 28.307-2) may be reduced when a contract is to be performed outside the United states, its possessions, and Puerto Rico. When more than one agency is involved, the agency responsible for review and approval of a contractor's insurance program shall coordinate with other interested agencies before acting on significant insurance matters.

(c) Contractors awarded nonpersonal services contracts for health care services are required to maintain medical liability insurance and indemnify the Government for liability producing acts or omissions by the contractor, its employees and agents (see 37.400).

[48 FR 42286, Sept. 19, 1983, as amended at 54 FR 5056, Jan. 31, 1989]

28.302 Notice of cancellation or change.

When the Government requires the contractor to provide insurance coverage, the policies shall contain an endorsement that any cancellation or material change in the coverage adversely affecting the Government's interest shall not be effective unless the insurer or the contractor gives written notice of cancellation or change as required by the contracting officer. When the coverage is provided by self-insurance, the contractor shall not change or decrease the coverage without the administrative contracting officer's prior approval (see 28.308(c)).

28.303 Insurance against loss of or damage to Government property.

When the Government requires or approves insurance to cover loss of or damage to Government property (see 45.103, Responsibility and liability for Government property), it may be provided by specific insurance policies or by inclusion of the risks in the contractor's existing policies. The policies shall disclose the Government's interest in the property.

28.304 Risk-pooling arrangements.

Agencies may establish risk-pooling arrangements. These arrangements are designed to use the services of the insurance industry for safety engineering and the handling of claims at minimum cost to the Government. The agency responsible shall appoint a single manager or point of contact for each arrangement.

28.305 Overseas workers' compensation and war-hazard insurance.

(a) *Public-work contract*, as used in this subpart, means any contract for a fixed improvement or for any other project, fixed or not, for the public use of the United States or its allies, involving construction, alteration, removal, or repair, including projects or operations under service contracts and projects in connection with the national defense or with war activities, dredging, harbor improvements, dams, roadways, and housing, as well as preparatory and ancillary work in connection therewith at the site or on the project.

(b) The Defense Base Act (42 U.S.C. 1651 *et seq.*) extends the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901) to various classes of employees working outside the United States, including those engaged in performing—

(1) Public-work contracts; or

(2) Contracts approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) other than (i) contracts approved or financed by the Development Loan Fund (unless the Secretary of Labor, acting upon the recommendation of a department or agency, determines that such contracts should be covered) or (ii) contracts exclusively for materials or supplies.

(c) When the Defense Base Act applies (see 42 U.S.C. 1651 *et seq.*) to these employees, the benefits of the Longshoremen's and Harbor Workers' Compensation Act are extended through operation of the War Hazards Compensation Act (42 U.S.C. 1701 *et seq.*) to protect the employees against the risk of war hazards (injury, death, capture, or detention). When, by means of an insurance policy or a self-insurance program, the contractor provides the workers' compensation coverage required by the Defense Base Act, the contractor's employees automatically receive war-hazard risk protection.

(d) When the agency head recommends a waiver to the Secretary of Labor, the Secretary may waive the applicability of the Defense Base Act to any contract, subcontract, work location, or classification of employees.

(e) If the Defense Base Act is waived for some or all of the contractor's employees, the benefits of the War Hazards Compensation Act are automatically waived with respect to those employees for whom the Defense Base Act is waived. For those employees, the contractor shall provide workers' compensation coverage against the risk of work injury or death and assume liability toward the employees and their beneficiaries for war-hazard injury, death, capture, or detention. The contract shall provide either that the costs of this liability or the reasonable costs of insurance against this liability shall be allowed as a cost under the contract.

28.306 Insurance under fixed-price contracts.

(a) *General.* Although the Government is not ordinarily concerned with the contractor's insurance coverage if the contract is a fixed-price contract, in special circumstances agencies may specify insurance requirements under fixed-price contracts. Examples of such circumstances include the following:

(1) The contractor is—or has a separate operation—engaged principally in Government work.

(2) Government property is involved.

(3) The work is to be performed on a Government installation.

(4) The Government elects to assume risks for which the contractor ordinarily obtains commercial insurance.

(b) *Work on a Government installation.* (1) When the clause at 52.228-5, Insurance—Work on a Government Installation, is required to be included in a fixed-price contract by 28.310, the coverage specified in 28.307 is the minimum insurance required and shall be included in the contract Schedule or elsewhere in the contract. The contracting officer may require additional coverage and higher limits.

(2) When the clause at 52.228-5, Insurance—Work on a Government Installation, is not required by 28.310 but is included because the contracting officer considers it to be in the Government's interest to do so, any of the types of insurance specified in 28.307 may be omitted or the limits may be lowered, if appropriate.

28.307 Insurance under cost-reimbursement contracts.

Cost-reimbursement contracts (and subcontracts, if the terms of the prime contract are extended to the subcontract) ordinarily require the types of insurance listed in 28.307-2, with the minimum amounts of liability indicated. (See 28.308 for self-insurance.)

28.307-1 Group insurance plans.

(a) *Prior approval requirement.* Under cost-reimbursement contracts, before buying insurance under a group insurance plan, the contractor must submit the plan for approval, in accordance with agency regulations. Any change in benefits provided under an approved plan that can reasonably be expected to increase significantly the cost to the Government requires similar approval.

(b) *Premium refunds or credits.* The plan shall provide for the Government to share in any premium refunds or credits paid or otherwise allowed to the contractor. In determining the extent of the Government's share in any premium refunds or credits, any special reserves and other refunds to which the contractor may be entitled in the future shall be taken into account.

28.307-2 Liability.

(a) *Workers' compensation and employer's liability.* Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least $100,000 shall be required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers. (See 28.305(c) for treatment of contracts subject to the Defense Base Act.)

(b) *General liability.* (1) The contracting officer shall require bodily injury liability insurance coverage written on the comprehensive form of policy of at least $500,000 per occurrence.

(2) Property damage liability insurance shall be required only in special circumstances as determined by the agency.

(c) *Automobile liability.* The contracting officer shall require automobile liability insurance written on the comprehensive form of policy. The policy shall provide for bodily injury and property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States shall provide coverage of at least $200,000 per person and $500,000 per occurrence for bodily injury and $20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) *Aircraft public and passenger liability.* When aircraft are used in connection with performing the contract, the contracting officer shall require aircraft public and passenger liability insurance. Coverage shall be at least $200,000 per person and $500,000 per occurrence for bodily injury, other than passenger liability, and $200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least $200,000 multiplied by the number of seats or passengers, whichever is greater.

(e) *Vessel liability.* When contract performance involves use of vessels, the contracting officer shall require, as determined by the agency, vessel collision liability and protection and indemnity liability insurance.

28.308 Self-insurance.

(a) When it is anticipated that 50 percent or more of the self-insurance costs to be incurred at a segment (see 31.001) of a contractor's business will be allocable to negotiated Government contracts, and the self-insurance costs at the segment for the contractor's fiscal year are expected to be $200,000 or more, the contractor shall submit, in writing, information on its proposed self-insurance program to the administrative contracting officer and obtain that official's approval of the program. The submission shall be by segment or segments of the contractor's business to which the program applies and shall include—

(1) A complete description of the program, including any resolution of the board of directors authorizing and adopting coverage, including types of risks, limits of coverage, assignments of safety and loss control, and legal service responsibilities;

(2) If available, the corporate insurance manual and organization chart detailing fiscal responsibilities for insurance;

(3) The terms regarding insurance coverage for any Government property;

(4) The contractor's latest financial statements;

(5) Any self-insurance feasibility studies or insurance market surveys reporting comparative alternatives;

(6) Loss history, premiums history, and industry ratios;

(7) A formula for establishing reserves, including percentage variations between losses paid and losses reserved;

(8) Claims administration policy, practices, and procedures;

(9) The method of calculating the projected average loss; and

(10) A disclosure of all captive insurance company and re-insurance agreements, including methods of computing cost.

(b) Programs of self-insurance covering a contractor's insurable risks, including the deductible portion of purchased insurance, may be approved when examination of a program indicates that its application is in the Government's interest. Agencies shall not approve a program of self-insurance for workers' compensation in a jurisdiction where workers' compensation does not completely cover the employer's liability to employees, unless the contractor—

(1) Maintains an approved program of self-insurance for any employer's liability not so covered; or

(2) Shows that the combined cost to the Government of self-insurance for workers' compensation and commercial insurance for employer's liability will not exceed the cost of covering both kinds of risk by commercial insurance.

(c) Once the administrative contracting officer has approved a program, the contractor must submit to that official for approval any major proposed changes to the program. Any program approval may be withdrawn if a contracting officer finds that either (1) any part of a program does not comply with the requirements of this subpart and/or the criteria at 31.205-19 or (2) conditions or situations existing at the time of approval that were a basis for original approval of the program have changed to the extent that a program change is necessary.

(d) To qualify for a self-insurance program, a contractor must demonstrate ability to sustain the potential losses involved. In making the determination, the contracting officer shall consider the following factors:

(1) The soundness of the contractor's financial condition, including available lines of credit.

(2) The geographic dispersion of assets, so that the potential of a single loss depleting all the assets is unlikely.

(3) The history of previous losses, including frequency of occurrence and the financial impact of each loss.

(4) The type and magnitude of risk, such as minor coverage for the deductible portion of purchased insurance or major coverage for hazardous risks.

(5) The contractor's compliance with Federal and State laws and regulations.

(e) Agencies shall not approve a program of self-insurance for catastrophic risks (e.g., see 50.403, Special procedures for unusually hazardous or nuclear risks). Should performance of Government contracts create the risk of catastrophic losses, the Government may, to the extent authorized by law, agree to indemnify the contractor or recognize an appropriate share of premiums for purchased insurance, or both.

(f) Self-insurance programs to protect a contractor against the costs of correcting its own defects in materials or workmanship shall not be approved. For these purposes, normal rework estimates and warranty costs will not be considered self-insurance.

[48 FR 42286, Sept. 19, 1983, as amended at 55 FR 3883, Feb. 5, 1990]

28.309 Contract clauses for workers' compensation insurance.

(a) The contracting officer shall insert the clause at 52.228-3, Workers' Compensation Insurance (Defense Base Act), in solicitations and contracts when the Defense Base Act applies (see 28.305) and—

(1) The contract will be a public-work contract performed outside the United States; or

(2) The contract will be approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) and is not excluded by 28.305(b)(2).

(b) The contracting officer shall insert the clause at 52.228-4, Workers' Compensation and War-Hazard Insurance Overseas, in solicitations and contracts when the contract will be a public-work contract performed outside the United States and the Secretary of Labor waives the applicability of the Defense Base Act (see 28.305(d)).

28.310 Contract clause for work on a Government installation.

(a) The contracting officer shall insert the clause at 52.228-5, Insurance—Work on a Government Installation, in solicitations and contracts when a fixed-price contract is contemplated, the contract amount is expected to be over the appropriate small purchase limitation in part 13, and the contract will require work on a Government installation, unless—

(1) Only a small amount of work is required on the Government installation (e.g., a few brief visits per month); or

(2) All work on the Government installation is to be performed outside the United States, its possessions, and Puerto Rico.

(b) The contracting officer may insert the clause at 52.228-5 in solicitations and contracts described in (a)(1) and (2) above if it is in the Government's interest to do so.

28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.

28.311-1 Solicitation provision.

The contracting officer shall insert the provision at 52.228-6, Insurance—Immunity from Tort Liability, in solicitations for research and development when a cost-reimbursement contract is contemplated, unless the head of the contracting activity waives the requirement for use of the clause at 52.228-7, Insurance—Liability to Third Persons.

28.311-2 Contract clause.

The contracting officer shall insert the clause at 52.228-7, Insurance—Liability to Third Persons, in solicitations and contracts, other than those for construction contracts and those for architect-engineer services, when a cost-reimbursment contract is contemplated, unless the head of the contracting activity waives the requirement for use of the clause. If the solicitation includes the provision at 52.228-6, Insurance—Immunity from Tort Liability, and the successful offeror represents in the offer that the offeror is *partially* immune from tort liability as a State agency or as a charitable institution, the contracting officer shall use the clause with its Alternate I. If the solicitation includes the provision at 52.228-6, Insurance—Immunity from Tort Liability, and the successful offeror represents in the offer that the offeror is *totally* immune from tort liability as a State agency or as a charitable institution, the contracting officer shall use the clause with its Alternate II.

28.312 Contract clause for insurance of leased motor vehicles.

The contracting officer shall insert the clause at 52.228-8, Liability and Insurance—Leased Motor Vehicles, in solicitations and contracts for the leasing of motor vehicles (see subpart 8.11).

28.313 Contract clauses for insurance of transportation or transportation-related services.

(a) The contracting officer shall insert the clause at 52.228-9, Cargo Insurance, in solicitations and contracts for transportation or for transportation-related services, except when freight is shipped under rates subject to released or declared value.

(b) The contracting officer shall insert a clause substantially the same as that at 52.228-10, Vehicular and General Public Liability Insurance, in solicitations and contracts for transportation or for transportation-related services when the contracting officer determines that vehicular liability or general public liability insurance required by law is not sufficient.

Source: 48 FR 42293, Sept. 19, 1983, unless otherwise noted.

29.000 Scope of part.

This part prescribes policies and procedures for (a) using tax clauses in contracts (including foreign contracts), (b) asserting immunity or exemption from taxes, and (c) obtaining tax refunds. It explains Federal, State, and local taxes on certain supplies and services acquired by executive agencies and the applicability of such taxes to the Federal Government. It is for the general information of Government personnel and does not present the full scope of the tax laws and regulations.

Subpart 29.1—General

29.101 Resolving tax problems.

(a) Contract tax problems are essentially legal in nature and vary widely. Specific tax questions must be resolved by reference to the applicable contract terms and to the pertinent tax laws and regulations. Therefore, when tax questions arise, contracting officers should request assistance from the agency-designated legal counsel.

(b) To keep treatment within an agency consistent, contracting officers or other authorized personnel shall consult the agency-designated counsel before negotiating with any taxing authority for the purpose of (1) determining whether or not a tax is valid or applicable or (2) obtaining exemption from, or refund of, a tax.

(c) When the constitutional immunity of the Government from State or local taxation may reasonably be at issue, contractors should be discouraged from negotiating independently with taxing authorities if the contract involved is either (1) a cost-reimbursement contract or (2) a fixed-price contract containing a tax escalation clause.

(d) Before purchasing goods or services from a foreign source, the contracting officer should consult the agency-designated counsel (1) for information on foreign tax treaties and agreements in force and on the implementation of any foreign-tax-relief programs and (2) to resolve any other tax questions affecting the prospective contract.

Subpart 29.2—Federal Excise Taxes

29.201 General.

(a) Federal excise taxes are levied on the sale or use of particular supplies or services. Subtitle D of the Internal Revenue Code of 1954, Miscellaneous Excise Taxes, 26 U.S.C. 4041 *et seq.*, and its implementing regulations, 26 CFR parts 40 through 299, cover miscellaneous federal excise tax requirements. Questions arising in this area should be directed to the agency-designated counsel. The most common excise taxes are—

(1) Manufacturers' excise taxes imposed on certain motor-vehicle articles, tires and inner tubes, gasoline, lubricating oils, coal, fishing equipment, firearms, shells, and cartridges sold by manufacturers, producers, or importers; and

(2) Special-fuels excise taxes imposed at the retail level on diesel fuel and special motor fuels.

(b) Sometimes the law exempts the Federal Government from these taxes. Contracting officers should solicit prices on a tax-exclusive basis when it is known that the Government is exempt from these taxes and the exemption is at least $100, and on a tax-inclusive basis when no exemption exists or the exemption is less than $100.

(c) Executive agencies shall take maximum advantage of available Federal excise tax exemptions, especially when the exemption is $100 or more. In addition, refunds amounting to $100 or more shall be claimed.

29.202 General exemptions.

No Federal manufacturers' or special-fuels excise taxes are imposed in many contracting situations as, for example, when the supplies are for any of the following:

(a) The exclusive use of any State or political subdivision, including the District of Columbia (26 U.S.C. 4041 and 4221).

(b) Shipment to a United States possession or Puerto Rico, or for export. Shipment or export must occur within 6 months of the time title passes to the Government. When the exemption is claimed, the words *for export or shipment to a possession* must appear on the contract or purchase document, and the contracting officer must furnish the seller proof of export (see 26 CFR 48.4221-3).

(c) Further manufacture, or resale for further manufacture (this exemption does not include tires and inner tubes) (26 CFR 48.4221-2).

(d) Use as fuel supplies, ships or sea stores, or legitimate equipment on vessels of war, including (1) aircraft owned by the United States and constituting a part of the armed forces and (2) guided missiles and pilotless aircraft owned or chartered by the United States. When this exemption is to be claimed, the purchase should be made on a tax-exclusive basis. The contracting officer shall furnish the seller an exemption certificate for Supplies for Vessels of War (an example is given in 26 CFR 48.4221-4(d)(2); the IRS will accept one certificate covering all orders under a single contract for a specified period of up to 12 calendar quarters) (26 U.S.C. 4041 and 4221).

(e) A nonprofit educational organization (26 U.S.C. 4041 and 4221).

(f) Emergency vehicles (26 U.S.C. 4053 and 4064(b)(1)(c)).

[48 FR 42293, Sept. 19, 1983, as amended at 53 FR 662, Jan. 11, 1988]

29.203 Other Federal tax exemptions.

(a) Pursuant to 26 U.S.C. 4293, the Secretary of the Treasury has exempted the United States from the communications excise tax imposed in 26 U.S.C. 4251, when the supplies and services are for the exclusive use of the United States. (Secretarial Authorization, June 20, 1947, Internal Revenue Cumulative Bulletin, 1947-1, 205.)

(b) Pursuant to 26 U.S.C. 4483(b), the Secretary of the Treasury has exempted the United States from the federal highway vehicle users tax imposed in 26 U.S.C. 4481. The exemption applies whether the vehicle is owned or leased by the United States. (Secretarial Authorization, Internal Revenue Cumulative Bulletin, 1956-2, 1369.)

[53 FR 662, Jan. 11, 1988]

Subpart 29.3—State and Local Taxes

29.300 Scope of subpart.

This subpart prescribes the policies and procedures regarding the exemption or immunity of Federal Government purchases and property from State and local taxation.

29.301 Definition.

State and local taxes means taxes levied by the States, the District of Columbia, Puerto Rico, possessions of the United States, or their political subdivisions.

29.302 Application of State and local taxes to the Government.

(a) Generally, purchases and leases made by the Federal Government are immune from State and local taxation. Whether any specific purchase or lease is immune, however, is a legal question requiring advice and assistance of the agency-designated counsel.

(b) When it is economically feasible to do so, executive agencies shall take maximum advantage of all exemptions from State and local taxation that may be available. If appropriate, the contracting officer shall provide a Standard Form 1094, U.S. Tax Exemption Certificate (see part 53), or other evidence listed in 29.305(a) to establish that the purchase is being made by the Government.

29.303 Application of State and local taxes to Government contractors and subcontractors.

(a) Prime contractors and subcontractors shall not normally be designated as agents of the Government for the purpose of claiming immunity from State or local sales or use taxes. Before any activity contends that a contractor is an agent of the Government, the matter shall be referred to the agency head for review. The referral shall include all pertinent data on which the contention is based, together with a thorough analysis of all relevant legal precedents.

(b) When purchases are not made by the Government itself, but by a prime contractor or by a subcontractor under a prime contract, the right to an exemption of the transaction from a sales or use tax may not rest on the Government's immunity from direct taxation by States and localities. It may rest instead on provisions of the particular State or local law involved, or, in some cases, the transaction may not in fact be expressly exempt from the tax. The Government's interest shall be protected by using the procedures in 29.101.

(c) Frequently, property (including property acquired under the progress payments clause of fixed-price contracts or the Government property clause of cost-reimbursement contracts) owned by the Government is in the possession of a contractor or subcontractor. Situations may arise in which States or localities assert the right to tax Government property directly or to tax the contractor's or subcontractor's possession of, interest in, or use of that property. In such cases, the contracting officer shall seek review and advice from the agency-designated counsel on the appropriate course of action.

29.304 Matters requiring special consideration.

The imposition of State and local taxes may result in special contract considerations including the following:

(a) With coordination of the agency-designated counsel, a contract may (1) state that the contract price includes or excludes a specified tax or (2) require that the contractor take certain actions with regard to payment, nonpayment, refund, protest, or other treatment of a specified tax. Such special treatment may be appropriate when there is doubt as to the applicability or allocability of the tax, or when the applicability of the tax is being litigated.

(b) The applicability of State and local taxes to purchases by the Federal Government may depend on the place and terms of delivery. When the contract price will be substantial, alternative places and terms of delivery should be considered in light of possible tax consequences.

(c) Indefinite-delivery contracts for equipment rental may require the contractor to furnish equipment in any of the States. Since leased equipment remains the contractor's property, States and local governments impose a wide variety of property, use, or other taxes on equipment leased to the Government. The amount of these taxes can vary considerably from jurisdiction to jurisdiction. See 29.401-1 for the prescription of the contract clause to be included in contracts when delivery points are not known at time of contracting.

(d) The North Carolina State and local sales and use tax.

(1) The North Carolina Sales and Use Tax Act authorizes counties and incorporated cities and towns to obtain each year from the Commissioner of Revenue of the State of North Carolina a refund of sales and use taxes indirectly paid on building materials, supplies, fixtures, and equipment that become a part of or are annexed to any building or structure erected, altered, or repaired for such counties and incorporated cities and towns in North Carolina. In United States v. Clayton, 250 F. Supp. 827 (1965), it was held that the United States is entitled to the benefit of the refund, but must follow the refund procedure of the Act and the regulations to recover what it is due.

(2) The Act provides that, to receive the refund, claimants must file, within 6 months after the claimant's fiscal year closes, a written request substantiated by such records, receipts, and information as the Commissioner of Revenue may require. No refund will be made on an application not filed within the time allowed and in such manner as the Commissioner may require. The requirements of the Commissioner are set forth in regulations that provide that, to substantiate a refund claim for sales or use taxes paid on purchases of building materials, supplies, fixtures, or equipment by a contractor, the Government must secure from the contractor certified statements setting forth the cost of the property purchased from each vendor and the amount of sales or use taxes paid. In the event the contractor makes several purchases from the same vendor, the certified statement must indicate the invoice numbers, the inclusive dates of the invoices, the total amount of the invoices, and the sales and use taxes paid. The statement must also include the cost of any tangible personal property withdrawn from the contractor's warehouse stock and the amount of sales or use tax paid by the contractor. Similar certified statements by subcontractors must be obtained by the general contractor and furnished to the claimant. Any local sales or use taxes included in the contractor's statement must be shown separately from the State sales or use taxes.

(3) The clause prescribed at 29.401-2 requires contractors to submit to contracting officers by November 30 of each year a certified statement disclosing North Carolina State and local sales and use taxes paid during the 12-month period that ended the preceding September 30. The contracting officer shall ensure that contractors comply with this requirement and shall obtain the annual refund to which the Government may be entitled. The application for refund must be filed each year before March 31 and in the manner and form required by the Commissioner of Revenue. Copies of the form may be obtained from the State of North Carolina Department of Revenue, Raleigh, NC 27602.

29.305 State and local tax exemptions.

(a) *Evidence of exemption.* Evidence needed to establish exemption from State or local taxes depends on the grounds for the exemption claimed, the parties to the transaction, and the requirements of the taxing jurisdiction. Such evidence may include the following:

(1) A copy of the contract or relevant portion.

(2) Copies of purchase orders, shipping documents, credit-card-imprinted sales slips, paid or acknowledged in-

voices, or similar documents that identify an agency or instrumentality of the United States as the buyer.

(3) A U.S. Tax Exemption Certificate (SF 1094).

(4) A State or local form indicating that the supplies or services are for the exclusive use of the United States.

(5) Any other State or locally required document for establishing general or specific exemption.

(6) Shipping documents indicating that shipments are in interstate or foreign commerce.

(b) *Furnishing proof of exemption.* If a reasonable basis to sustain a claimed exemption exists, the seller will be furnished evidence of exemption, as follows:

(1) Under a contract containing the clause at 52.229-3, Federal, State, and Local Taxes, or at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in accordance with the terms of those clauses.

(2) Under a cost-reimbursement contract, if requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer.

(3) Under a contract or purchase order that contains no tax provision, if (i) requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer, and (ii) the contractor either certifies that the contract price does not include the tax or, if the transaction or property is tax exempt, consents to a reduction in the contract price.

Subpart 29.4—Contract Clauses

29.401 Domestic contracts.

29.401-1 Indefinite-delivery contracts for leased equipment.

The contracting officer shall insert the clause at 52.229-1, State and Local Taxes, in solicitations and contracts for leased equipment when a fixed-price indefinite-delivery contract is contemplated, the contract will be performed wholly or partly within the United States, its possessions, or Puerto Rico, and the place or places of delivery are not known at the time of contracting.

29.401-2 Construction contracts performed in North Carolina.

The contracting officer shall insert the clause at 52.229-2, North Carolina State and Local Sales and Use Tax, in solicitations and contracts for construction to be performed in North Carolina. If the requirement is for vessel repair to be performed in North Carolina, the clause shall be used with its Alternate I.

29.401-3 Sealed bid and certain negotiated contracts.

The contracting officer shall insert the clause at 52.229-3, Federal, State, and Local Taxes, in solicitations and contracts if the contract is to be performed wholly or partly within the United States, its possessions, or Puerto Rico when—

(a) Contracting by sealed bidding, unless the requirement is for construction and the contract amount is expected to be less than the applicable small purchase limitation in part 13; or

(b) Contracting by negotiation, if a fixed-price contract is contemplated and the contract amount is expected to be over the applicable small purchase limitation in part 13, unless the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), is included in the contract.

[48 FR 42293, Sept. 19, 1983, as amended at 50 FR 1743, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

29.401-4 Noncompetitive negotiated contracts.

The contracting officer shall insert the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in fixed-price noncompetitive negotiated contracts over the applicable small purchase limitation in part 13 to be performed wholly or partly within the United States, its possessions, or Puerto Rico when satisfied (a) that the contract price does not include contingencies for State and local taxes and (b) that, unless the clause is used, the contract price will include such contingencies. When the clause at 52.229-4 is included in a contract, the contracting officer shall ensure that the contract does *not* include the clause at 52.229-3, Federal, State, and Local Taxes.

29.401-5 Contracts performed in U.S. possessions or Puerto Rico.

The contracting officer shall insert the clause at 52.229-5, Taxes—Contracts Performed in U.S. Possessions or Puerto Rico, in solicitations and contracts that include the clause at 52.229-3, Federal, State, and Local Taxes, or 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract).

29.401-6 New Mexico gross receipts and compensating tax.

(a) *Definition. Services,* as used in this subsection, is as defined in the Gross Receipts and Compensating Tax Act of the State of New Mexico, Sec. 7-9-3(k) NM SA 1978, and means all activities engaged in for other persons for a consideration, which activities involve predominately the performance of a service as distinguished from selling or leasing property. *Services* includes activities performed by a person for its members of shareholders. In determining what is a service, the intended use, principal objective or ultimate objective of the contracting parties shall not be controlling. *Services* also includes construction activities and all tangible personal property that will become an ingredient or component part of a construction project. Such tangible personal property retains its character as tangible personal property until it is installed as an ingredient or component part of a construction project in New Mexico. However, sales of tangible personal property that will become an ingredient or component part of a construction project to persons engaged in the construction business are sales of tangible personal property.

(b) *Contract clause.* The contracting officer shall insert the clause at 52.229-10, State of New Mexico Gross Receipts and Compensating Tax, in solicitations and contracts issued by the executive agencies identified in paragraph (c) of this subsection when all three of the following conditions exist:

(1) The contractor will be performing a cost-reimbursement contract.

(2) The contract directs or authorizes the contractor to acquire tangible personal property as a direct cost under a contract and title to such property passes directly to and vests in the United States upon delivery of the property by the vendor.

(3) The contract will be for services to be performed in whole or in part within the State of New Mexico.

(c) *Participating agencies.* (1) The executive agencies listed below have entered into an agreement with the State of New Mexico to eliminate the double taxation of Government cost-reimbursement contracts when contractors and their subcontractors purchase tangible personal property to be used in performing services in whole or in part in the State of New Mexico and for which title to such property will pass to the United States upon delivery of the property to the contractor and its subcontractors by the vendor. Therefore, the clause applies only to solicitations and contracts issued by the—

United States Department of Agriculture;
United States Department of the Air Force;
United States Department of the Army;
United States Department of Energy;
United States Department of Health and Human Services;
United States Department of Interior;
United States Department of Labor;
United States Department of the Navy;
United States Department of Transportation;
United States General Services Administration; and
United States National Aeronautics and Space Administration.

(2) Any other Federal agency which expects to award cost-reimbursement contracts to be performed in New Mexico should contact the New Mexico Taxation and Revenue Department to execute a similar agreement.

[53 FR 34228, Sept. 2, 1988, as amended at 55 FR 3883, Feb. 5, 1990; 55 FR 38517, Sept. 18, 1990]

402 Foreign contracts.

402-1 Foreign fixed-price contracts.

a) The contracting officer shall ert the clause at 52.229-6, Taxes—reign Fixed-Price Contracts, in so-itations and contracts when a fixed-ce contract is contemplated and the ntract is to be performed wholly or rtly in a foreign country, unless it is ntemplated that the contract will be h a foreign government.
